Option Grants in Fiscal 2003

The following table presents information regarding option grants during fiscal 2003 to our Chief Executive Officer and each of our four other most highly compensated executive officers. Option grants to our executive officers in fiscal 2003 were awarded pursuant to our existing equity compensation plans.

In accordance with the rules of the Securities and Exchange Commission, the table presents the potential realizable values that would exist for the options at the end of their four- or ten-year terms, as the case may be. These values are based on assumed rates of annual compound stock price appreciation of 5% and 10% from the date the option was granted to the end of the option term. Potential realizable values are based on assumed annual rates of return mandated by rules of the Securities and Exchange Commission and do not represent our estimate or projection of future ordinary share prices. The closing sale price per ordinary share as reported on the NASDAQ National Market on March 31, 2003, the last trading day of fiscal 2003, was \$8.72.

Table of Contents

The options shown in the table above that expires on September 3, 2012, were granted with an exercise price equal to the fair market value of our ordinary shares on the date of grant and are non-statutory stock options. The options shown in the table above that expire on July 1, 2012 were granted with an exercise price that represented a premium of approximately 34% over the fair market value on the date of grant. This exercise price is designed to create an incentive for these officers to continue providing leadership for our company. With the exception of options granted to Mr. Nilsson, options granted to our executive officers expire ten years from the date of grant, subject to earlier termination upon termination of the optionee's employment. In the case of Mr. Nilsson, Swedish tax legislation imposes significant adverse consequences if there are any restrictions on exercisability or transfer of options. The term of Mr. Nilsson's option has therefore, been shortened to four years from the date of grant.

With the exception of Mr. Nilsson as described above, the options granted to our executive officers during fiscal 2003 generally vested as to 25% of the shares on the first anniversary of the date of grant and 1/36 of the remaining shares on each full calendar month that the optionee renders services to us thereafter. Our Compensation Committee has the discretion to provide for alternative vesting schedules to maximize the retention value of our equity compensation. See "Change in Control Arrangements" below for a description of the acceleration provisions of these options. The exercise price of each option may be paid in cash or through a cashless exercise procedure involving a same-day sale of the purchase shares. We granted options to purchase an aggregate of 19,864,076 ordinary shares to our employees during fiscal 2003.

The amounts set forth in the column entitled "Value Realized" represent the fair market value of the ordinary shares underlying the option on the date of exercise less the aggregate exercise price of the option.

In addition, the table includes the number of shares covered by both exercisable and unexercisable stock options as of March 31, 2003. Also reported are values of "in-the-money" options that represent the positive spread between the respective exercise prices of outstanding stock options and \$8.72 per share, which was the closing price per ordinary share as reported on the NASDAQ National Market on March 31, 2003, the last day of trading for fiscal 2003. These values, unlike the amounts set forth in the column entitled "Value Realized," have not been, and may never be, realized.

Change in Control Arrangements

Our option agreements with our executive officers provide that if the executive officer is terminated without cause or leaves for good reason within the first 12 months following a change in control transaction, the vesting of any unvested portion of the option will

Table of Contents

be accelerated in full, or if the executive officer is still employed upon the first year anniversary of such a change of control, the vesting of any unvested portion of the option will be accelerated in full. Each option includes a limited stock appreciation right pursuant to which the option will automatically be canceled upon the occurrence of certain hostile tender offers, in return for a cash distribution from us based on the tender offer price per share.

Director Compensation

Each individual who first becomes a non-employee Board member is granted a stock option to purchase 25,000 ordinary shares, pursuant to the automatic option grant provisions of our 2001 Equity Incentive Plan. Pursuant to this program, in fiscal 2003, each of Mr. Davidson and Mr. Tan received a stock option to purchase 25,000 ordinary shares at the time of his appointment to our board. After this initial grant, pursuant to the terms of the automatic option grant provisions of the 2001 Plan, on the date of each Annual General Meeting, each individual who is at that time serving as a non-employee director receives a stock option to purchase 12,500 ordinary shares. Pursuant to this program, in fiscal 2003, Mr. Foley, Mr. Goh, Mr. Moritz and Mr. Sharp each received a stock option to purchase 12,500 ordinary shares in fiscal 2003. Also, under the terms of the discretionary option grant provisions of the 2001 Plan, non-employee directors are eligible to receive stock options granted at the discretion of the board. Pursuant to this program, in fiscal 2003 Mr. Foley, Mr. Goh, Mr. Moritz and Mr. Sharp each received stock options to purchase 10,000 ordinary shares in fiscal 2003. The maximum number of ordinary shares that may be received by each non-employee director under this program is 100,000 ordinary shares per year.

Each non-employee director receives annual cash compensation of \$37,200 for services rendered as a director. In addition, each director receives \$700 for each quarterly meeting of the Board of Directors that he attends. In addition, all directors receive reimbursement of reasonable out-of-pocket expenses incurred in connection with meetings of the Board of Directors. No director who is our employee receives compensation for services rendered as a director.

Compensation Committee Interlocks and Insider Participation

The members of the Compensation Committee of our Board of Directors during fiscal 2003 were Mr. Sharp and Mr. Moritz. None of our executive officers serve on our Compensation Committee. No interlocking relationships exist between our Board of Directors or Compensation Committee and the board of directors or compensation committee of any other company.

Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission that deem shares to be beneficially owned by any person who has voting or investment power with respect to such shares. Ordinary shares subject to options that are currently exercisable or exercisable within 60 days of June 16, 2003 are deemed to be outstanding and to be beneficially owned by the person holding such options for the purpose of computing the percentage ownership of such person but are not treated as outstanding for the purpose of computing the percentage ownership of any other person. Unless otherwise indicated below, the persons and entities named in the table have sole voting and sole investment power with respect to all the shares beneficially owned, subject to community property laws where applicable.

Interim Plans

Our 1997 Interim Option Plan, 1998 Interim Option Plan, 1999 Interim Option Plan and 2002 Interim Incentive Plan were adopted by our Board in June 1997, January 1998, December 1998 and May 2002, respectively. The adoption of these interim plans was necessitated by our internal growth, our multiple acquisitions and the requirement to provide equity compensation for employees consistent with competitors and peer companies. These interim plans are not subject to shareholder approval.

The Board reserved an aggregate of 2,000,000 ordinary shares, 3,200,000 ordinary shares, 5,200,000 ordinary shares and 20,000,000 ordinary shares for issuance under the 1997 Plan, the 1998 Plan, the 1999 Plan and the 2002 Plan, respectively. These plans provide for the grant to qualified persons of non-statutory stock options to purchase our ordinary shares. Information regarding outstanding options under the 1997 Plan, the 1998 Plan, the 1999 Plan, and the 2002 Plan as of March 31, 2003 is set forth in the table above. Since March 31, 2003, we have granted additional options under the these plans. As of June 30, 2003, we had a total of 9,003,767 shares available for issuance under our 1997 Plan, 1998 Plan, 1999 Plan and 2002 Plan.

Shares subject to options granted pursuant to these interim plans that expire or terminate for any reason without being exercised will again become available for grant and issuance pursuant to awards under the interim plans. Options granted under these plans have an exercise price of not less than 85% of the fair market value of the underlying ordinary shares on the date of grant. Options issued under these plans generally vest over a four-year period and expire ten years from the date of grant. The other general terms of the these interim plans are similar to our 2001 Equity Incentive Plan.
