SYMANTEC REPORTS RECORD REVENUE AND EARNINGS IN FISCAL THIRD QUARTER

Large Enterprise Transactions and International Performance Drive Results

CUPERTINO, Calif. Jan. 19, 2005 Symantec Corp. (Nasdaq:SYMC), the global leader in information security, today reported results for its fiscal third quarter ended Dec. 31, 2004. Symantec posted revenue for the quarter of \$695 million, a 41 percent increase compared to \$494 million for the same quarter last year, driven by strong performance in all business segments.

GAAP Results: Net income for the fiscal third quarter was \$164 million, compared to \$111 million for the same quarter last year. Earnings per share was \$0.22, a 38 percent increase compared to earnings per share of \$0.16 for the year-ago quarter.

Non-GAAP Results: Non-GAAP net income for the fiscal third quarter was \$175 million, compared to \$120 million for the same quarter last year. Non-GAAP earnings per share was \$0.24, a 41 percent increase compared to earnings per share of \$0.17 for the year-ago quarter. Non-GAAP results, as outlined in the attached consolidated statements and related reconciliation, exclude amortization of other intangibles from acquisitions, amortization of deferred stock-based compensation, acquired in-process research and development, restructuring charges, and patent settlement charges as well as related income tax benefits. See [Use of Non-GAAP Financial Information](#) below.

All business segments had strong double digit growth as customers continue to turn to Symantec to manage the integrity of their information assets, said John W. Thompson, Symantec chairman and CEO. Solid online business, a record number of large enterprise transactions, both in size and number, and incredible international performance underpinned our success in the quarter.

FORWARD LOOKING STATEMENTS: This press release contains forward-looking statements, including forecasts of future revenue, deferred revenue and GAAP and non-GAAP earnings per share, expected industry patterns, and other financial and business results that involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to differ materially from results expressed or implied by this press release. Such risk factors include, among others: the sustainability of recent growth rates, particularly in consumer products; the anticipation of the growth of certain market segments, particularly enterprise security; the positioning of Symantec's products in those segments; the competitive environment in the software industry; general market conditions; fluctuations in currency exchange rates; changes to operating systems and product strategy by vendors of operating systems; and whether Symantec can successfully develop new products and integrate acquired businesses, and the degree to which these products and businesses gain market acceptance. Actual results may differ materially from those contained in the forward-looking statements in this press release. Additional information concerning these and other risk factors is contained in the Risk Factors sections of Symantec's recently filed Form 10-Q. Symantec assumes no obligation to update any forward-looking information contained in this press release.

USE OF NON-GAAP FINANCIAL INFORMATION: In addition to reporting financial results in accordance with generally accepted accounting principles, or GAAP, Symantec reports non-GAAP financial results. Non-GAAP net income and earnings per share exclude acquisition related charges, such as amortization of other intangibles, amortization of deferred stock-based compensation and in-process research and development, and certain other identified charges, such as restructuring and patent settlement, as well as the tax effect of these items. Symantec's management believes these non-GAAP measures are useful to investors because they provide supplemental

information that facilitates comparisons to prior periods. Management uses these non-GAAP measures to evaluate its financial results, develop budgets and manage expenditures. The method Symantec uses to produce non-GAAP results is not computed according to GAAP, is likely to differ from the methods used by other companies and should not be regarded as a replacement for corresponding GAAP measures. Investors are encouraged to review the reconciliation of these non-GAAP financial measures to the comparable GAAP results, which is attached to this release and can also be found on the investor relations Web site at www.symantec.com/invest/center.html.
