1Variable rate security. Rate indicated is rate effective at August 31, 2015.

2Perpetual maturity.

Edgar Filing: Guggenheim Credit Allocation Fund - Form N-Q

Security is a 144A or Section 4(a)(2) security. The total market value of 144A or Section 4(a)(2) securities is \$75,439,844 (cost \$78,864,788), or 51.7% of total net assets. These securities have been determined to be liquid under guidelines established by the Board of Trustees.

4Security was fair valued by the Valuation Committee at August 31, 2015. The total market value of fair valued securities amounts to \$18,241,634, (cost \$19,829,781) or 12.5% of total net assets.

5Paid-in-kind toggle note. The issuer in each interest period has the option to pay interest in cash or to issue payment-in-kind shares of the note.

6All or a portion of these securities have been physically segregated or earmarked on the Fund's records in connection with reverse repurchase agreements and unfunded loan commitments. As of August 31, 2015, the total market value of the segregated or earmarked securities was \$88,559,498.

7Security has no stated coupon. However, it is expected to receive residual cash flow payments on defined deal dates.

8Security is a step up/step down bond. The coupon increases or decreases at regular intervals until the bond reaches full maturity.

9Security is a 144A or section 4(a)(2) security. These securities are considered illiquid and restricted under guidelines established by the Board of Trustees. The total market value of 144A or section 4(a)(2) securities is \$4,871,041 (cost \$4,929,745), or 3.3% of total net assets.

NOTES TO SCHEDULE OF INVESTMENTS (Unaudited)

For information on the Guggenheim Credit Allocation Fund's (the "Fund") policy regarding valuation of investments and other significant accounting policies, please refer to the Fund's most recent semiannual or annual shareholder report.

1. Significant Accounting Policies

The following significant accounting policies are in conformity with U.S. generally accepted accounting principles ("GAAP") and are consistently followed by the Fund. This requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. All time references are based on Eastern Time.

The Board of Trustees of the Fund (the "Board") has adopted policies and procedures for the valuation of the Fund's investments (the "Valuation Procedures"). Pursuant to the Valuation Procedures, the Board has delegated to a valuation committee, consisting of representatives from Guggenheim's investment management, fund administration, legal and compliance departments (the "Valuation Committee"), the day-to-day responsibility for implementing the Valuation Procedures, including, under most circumstances, the responsibility for determining the fair value of the Fund's securities or other assets.

Valuations of the Fund's securities are supplied primarily by pricing services appointed pursuant to the processes set forth in the Valuation Procedures. The Valuation Committee convenes monthly, or more frequently as needed and will review the valuation of all assets which have been fair valued for reasonableness. The Fund's officers, through the Valuation Committee and consistent with the monitoring and review responsibilities set forth in the Valuation Procedures, regularly review procedures used by, and valuations provided by, the pricing services.

Equity securities listed on an exchange (New York Stock Exchange ("NYSE") or American Stock Exchange) are valued at the last quoted sales price as of the close of business on the NYSE, usually 4:00 p.m. Eastern time on the valuation date. Equity securities listed on the NASDAQ market system are valued at the NASDAQ Official Closing Price on the valuation date, which may not necessarily represent the last sale price. If there has been no sale on such exchange or NASDAQ on such day, the security is valued at the mean of the most recent bid and asked prices on such day.

Debt securities with a maturity of greater than 60 days at acquisition are valued at prices that reflect broker/dealer supplied valuations or are obtained from independent pricing services, which may consider the trade activity, treasury spreads, yields or price of bonds of comparable quality, coupon, maturity, and type, as well as prices quoted by dealers who make markets in such securities. Short-term debt securities with a maturity of 60 days or less at acquisition and repurchase agreements are valued at amortized cost, which approximates market value.

Typically loans are valued using information provided by an independent third party pricing service which uses broker quotes. If the pricing service cannot or does not provide a valuation for a particular loan or such valuation is deemed unreliable, such loan is fair valued by the Valuation Committee.

Generally, trading in foreign securities markets is substantially completed each day at various times prior to the close of the NYSE. The values of foreign securities are determined as of the close of such foreign markets or the close of the NYSE, if earlier. All investments quoted in foreign currency are valued in U.S. dollars on the basis of the foreign currency exchange rates prevailing at the close of U.S. business at 4:00 p.m. Investments in foreign securities may involve risks not present in domestic investments. The Valuation Committee will determine the current value of such foreign securities by taking into consideration certain factors which may include those discussed above, as well as the

following factors, among others: the value of the securities traded on other foreign markets, ADR trading, closed-end fund trading, foreign currency exchange activity, and the trading prices of financial products that are tied to foreign securities such as World Equity Benchmark Securities. In addition, under the Valuation Procedures, the Valuation Committee and the Guggenheim Funds Investment Advisors, LLC (“GFIA or the “Adviser”) are authorized to use prices and other information supplied by a third party pricing vendor in valuing foreign securities.

Investments for which market quotations are not readily available are fair valued as determined in good faith by the Adviser, subject to review by the Valuation Committee, pursuant to methods established or ratified by the Board. Valuations in accordance with these methods are intended to reflect each security’s (or asset’s) “fair value.” Each such determination is based on a consideration of all relevant factors, which are likely to vary from one pricing context to another. Examples of such factors may include, but are not limited to: (i) the type of security, (ii) the initial cost of the security, (iii) the existence of any contractual restrictions on the security’s disposition, (iv) the

---

price and extent of public trading in similar securities of the issuer or of comparable companies, (v) quotations or evaluated prices from broker-dealers and/or pricing services, (vi) information obtained from the issuer, analysts, and/or the appropriate stock exchange (for exchange traded securities), (vii) an analysis of the company's financial statements, and (viii) an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold (e.g. the existence of pending merger activity, public offerings or tender offers that might affect the value of the security).

## 2. Fair Value Measurement

In accordance with GAAP, fair value is defined as the price that the Fund would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market, the most advantageous market for the investment or liability. GAAP establishes a three-tier fair value hierarchy based on the types of inputs used to value assets and liabilities and requires corresponding disclosure. The hierarchy and the corresponding inputs are summarized below:

Level 1 — quoted prices in active markets for identical assets or liabilities.

Level 2 — significant other observable inputs (for example quoted prices for securities that are similar based on characteristics such as interest rates, prepayment speeds, credit risk, etc.).

Level 3 — significant unobservable inputs based on the best information available under the circumstances, to the extent observable inputs are not available, which may include assumptions.

The types of inputs available depend on a variety of factors, such as the type of security and the characteristics of the markets in which it trades, if any. Fair valuation determinations that rely on fewer or no observable inputs require greater judgment. Accordingly, fair value determinations for Level 3 securities require the greatest amount of judgment.

The following tables summarize the inputs used to value the Fund's investments at August 31, 2015:

| Description                         | Level 1             | Level 2              | Level 3             | Total                |

Independent pricing services are used to value a majority of the Fund's investments. When values are not available from a pricing service, they will be determined under the valuation policies that have been reviewed and approved by

the Board. In any event, values are determined using a variety of sources and techniques, including: market prices; broker quotes; and models which derive prices based on inputs such as prices of securities with comparable maturities and characteristics or based on inputs such as anticipated cash flows or collateral, spread over Treasuries, and other information and analysis. A significant portion of the Funds' assets and liabilities are categorized as Level 2 or Level 3, as indicated in this report.

Indicative quotes from broker-dealers, adjusted for fluctuations in criteria such as credit spreads and interest rates, may be also used to value the Fund's assets and liabilities, i.e. prices provided by a broker-dealer or other market participant who has not committed to trade at that price. Although indicative quotes are typically received from established market participants, the Fund may not have the transparency to view the underlying inputs which support the market quotations.

---

Edgar Filing: Guggenheim Credit Allocation Fund - Form N-Q

Certain fixed income securities are valued by obtaining a monthly indicative quote from a broker-dealer, adjusted for fluctuations in criteria such as credit spreads and interest rates.

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The suitability of the techniques and sources employed to determine fair valuation are regularly monitored and subject to change.

The following is a summary of significant unobservable inputs used in the fair valuation of assets and liabilities categorized within Level 3 of the fair value hierarchy:

| Category                       | Ending Balance at 8/31/15 | Valuation Technique                        | Unobservable Inputs |
|--------------------------------|---------------------------|--|---------------------|
| Corporate Bonds                | \$ 5,087,369              | Enterprise Value                           | Valuation Multiple* |
| Corporate Bonds                | 1,209,120                 | Monthly Broker Quote                       | Indicative Quote    |
| Common Stocks                  | 295,257                   | Enterprise Value                           | Valuation Multiple* |
| Senior Floating Rate Interests | 967,687                   | Monthly Broker Quote                       | Indicative Quote    |
| Senior Floating Rate Interests | 12,859,009                | Enterprise Value                           | Valuation Multiple* |
| Asset Backed Securities        | 500,638                   | Option adjusted spread off the trade price | Indicative Quote    |

\*Valuation multiples utilized ranged from 3.4 to 12.5.

Significant changes in an indicative quote or valuation multiple would generally result in significant changes in the fair value of the security.

Any remaining Level 3 securities held by the Fund and excluded from the table above were not considered material to the Fund.

Transfers between investment levels may occur as the markets fluctuate and/or the availability of data used in an investment's valuation changes. Transfers between valuation levels, if any, are in comparison to the valuation levels at the end of the previous fiscal year, and are effective using the fair value as of the end of the current period.

As of August 31, 2015, the Fund had securities with a total value of \$4,378,326 transferred from Level 2 to Level 3 due to lack of vendor price. The Fund had securities with a total value of \$1,506,737 transferred from Level 1 to Level 2 due to lack of an active market. Security with a total value of \$285,783 transferred from Level 1 to Level 2 due to being halted on the principal exchange on which it trades.

#### Summary of Fair Value Level 3 Activity

Following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value for the period ended August 31, 2015:

#### Level 3 - Fair value measurements using significant unobservable inputs

|                   | Senior Floating Rate Interests | Asset-Backed Securities | Corporate Bonds | Common Stocks | Total         |
|-------------------|--------------------------------|-------------------------|-----------------|---------------|---------------|
| Assets:           |                                |                         |                 |               |               |
| Beginning Balance | \$ 10,253,395                  | \$ -                    | \$ 3,868,867    | \$ 229,590    | \$ 14,351,852 |

| Transfers into Level 3   | 967,688      | 500,638    | 2,910,000   | -         | 4,378,326    |
| Ending Balance   | \$13,826,696 | \$ 500,638 | \$6,296,489 | \$295,257 | \$20,919,080 |

3. Federal Income Taxes

At August 31, 2015, the cost of investments and accumulated unrealized appreciation/depreciation on investments for federal income tax purposes were as follows:

Edgar Filing: Guggenheim Credit Allocation Fund - Form N-Q

|                                      |                                   |                                   |  |
|--------------------------------------|-----------------------------------|-----------------------------------|--|
| Cost of Investments for Tax Purposes | Gross Tax Unrealized Appreciation | Gross Tax Unrealized Depreciation | Net Tax Unrealized Depreciation on Investments |
| \$219,786,994                        | \$1,927,164                       | (\$15,624,665)                    | (\$13,697,501)                                 |

The net tax unrealized appreciation on unfunded commitments is \$345,864.

4. Restricted Securities

The securities below are considered illiquid and restricted under guidelines established by the Board:

| Restricted Securities   | Acquisition Date | Cost        | Value       |
|---|------------------|-------------|-------------|
| Anchorage Credit Funding 1 Ltd.<br>2015-1A<br>6.30% due 07/28/30                        | 05/07/15         | \$1,000,000 | \$1,008,300 |
| American Seafoods Group LLC /<br>American Seafoods Finance, Inc.<br>10.75% due 05/15/16 | 07/31/14         | 2,152,210   | 2,200,000   |
| IronGate Energy Services LLC<br>11.00% due 07/01/18                                     | 07/10/13         | 228,303     | 153,000     |
| Nathan's Famous, Inc.<br>10.00% due 03/15/20  | 02/27/15         | 1,361,306   | 1,365,000   |
| R&R Ice Cream plc<br>8.25% due 5/15/20  | 06/19/14         | 187,926     | 144,741     |
|   |                  | \$4,929,745 | \$4,871,041 |

Item 2. Controls and Procedures.

- (a) The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended) as of a date within 90 days of the filing date of this report and have concluded, based on such evaluation, that the registrant's disclosure controls and procedures were effective, as of that date, in ensuring that information required to be disclosed by the registrant in this Form N-Q was recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.
- (b) There was no change in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940, as amended) that occurred during the registrant's last fiscal quarter that has materially affected or is reasonably likely to materially affect the registrant's internal control over financial reporting.

Item 3. Exhibits.

A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the Investment Company Act of 1940, as amended (17 CFR 270.30a-2(a)), is attached hereto.

---

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Guggenheim Credit Allocation Fund
