...YOUR WINDOW TO THE LATEST, MOST UP-TO-DATE INFORMATION ABOUT THE ADVENT CLAYMORE CONVERTIBLE SECURITIES AND INCOME FUND II

The shareholder report you are reading right now is just the beginning of the story.

Online at guggenheiminvestments.com/agc, you will find:

- Daily, weekly and monthly data on share prices, net asset values, dividends and more
- Portfolio overviews and performance analyses
- Announcements, press releases and special notices
- Fund and adviser contact information

Advent Capital Management and Guggenheim Investments are continually updating and expanding shareholder information services on the Fund's website, in an ongoing effort to provide you with the most current information about how your Fund's assets are managed, and the results of our efforts. It is just one more way we are working to keep you better informed about your investment in the Fund.

(Unaudited) October 31, 2017

DEAR SHAREHOLDER

Tracy V. Maitland

President and Chief Executive Officer

We thank you for your investment in the Advent Claymore Convertible Securities and Income Fund II (the "Fund" or "AGC"). This report covers the Fund's performance for the 12 months ended October 31, 2017.

Advent Capital Management, LLC ("Advent" or the "Investment Manager"), serves as the Fund's Investment Manager. Based in New York, New York, with additional investment personnel in London, England, Advent is a credit-oriented firm specializing in the management of global convertible, high-yield, and equity securities across three lines of business—long-only strategies, hedge funds, and closed-end funds. As of October 31, 2017, Advent managed approximately \$9.2 billion in assets.

Guggenheim Funds Investment Advisors, LLC (the "Investment Adviser"), serves as the Investment Adviser to the Fund. The Investment Adviser is an affiliate of Guggenheim Partners, LLC, a global diversified financial services firm.

The Fund's investment objective is to provide total return through a combination of capital appreciation and current income. Under normal market conditions, the Fund invests at least 80% of its managed assets in a diversified portfolio of convertible securities and non-convertible income-producing securities, each of U.S. and non-U.S. issuers. The Fund must invest a minimum of 30% of its managed assets in convertible securities and may invest up to 70% of its managed assets in non-convertible income-producing securities. The Fund may invest without limitation in foreign securities. The Fund also uses a strategy of writing (selling) covered call options on up to 25% of the securities held in the portfolio, thus generating option writing premiums.

All Fund returns cited—whether based on net asset value ("NAV") or market price—assume the reinvestment of all distributions. For the 12-month period ended October 31, 2017, the Fund generated a total return based on market price of 21.79% and a return of 14.03% based on NAV. As of October 31, 2017, the Fund's market price of \$6.19 represented a discount of 8.02% to NAV of \$6.73.

Past performance is not a guarantee of future results. All NAV returns include the deduction of management fees, operating expenses, and all other Fund expenses. The market price of the Fund's shares fluctuates from time to time, and may be higher or lower than the Fund's NAV.

For the period, the Fund paid a monthly distribution of \$0.047 per share. The most recent monthly distribution represents an annualized distribution rate of 9.1% based upon the last closing market price of \$6.19 as of October 31, 2017.

There is no guarantee of any future distribution or that the current returns and distribution rate will be maintained. The Fund's distribution rate is not constant and the amount of distribution, when declared

(Unaudited) continued October 31, 2017

by the Fund's Board of Trustees, is subject to change based on the performance of the Fund. Please see Note 2(n) on page 46 for more information on distributions for the period.

We encourage shareholders to consider the opportunity to reinvest their distributions from the Fund through the Dividend Reinvestment Plan ("DRIP"), which is described in detail on page 63 of this report. When shares trade at a discount to NAV, the DRIP takes advantage of the discount by reinvesting the quarterly dividend distribution in common shares of the Fund purchased in the market at a price less than NAV. Conversely, when the market price of the Fund's common shares is at a premium above NAV, the DRIP reinvests participants' dividends in newly-issued common shares at the greater of NAV per share or 95% of the market price per share. The DRIP provides a cost-effective means to accumulate additional shares and enjoy the benefits of compounding returns over time.

The Fund is managed by a team of experienced and seasoned professionals led by myself in my capacity as Chief Investment Officer (as well as President and Founder) of Advent Capital Management, LLC. We encourage you to read the following Questions & Answers section, which provides additional information regarding the factors that influenced the Fund's performance.

We thank you for your investment in the Fund and we are honored that you have chosen the Advent Claymore Convertible Securities and Income Fund II as part of your investment portfolio. For the most up-to-date information regarding your investment, including related investment risks, please visit the Fund's website at guggenheiminvestments.com/agc.

Sincerely,

Tracy V. Maitland

President and Chief Executive Officer of the

Advent Claymore Convertible Securities and Income Fund II

November 30, 2017

QUESTIONS & ANSWERS (Unaudited) October 31, 2017

The portfolio managers of Advent Claymore Convertible Securities and Income Fund II (the "Fund") are Tracy Maitland, Chief Investment Officer of Advent Capital Management, LLC ("Advent" or the "Investment Manager") and Paul Latronica, Managing Director of Advent. They are primarily responsible for the day-to-day management of the Fund's portfolio. Mr. Maitland and Mr. Latronica are supported by teams of investment professionals who make investment decisions for the Fund's core portfolio of convertible bonds, the Fund's high yield securities investments and the Fund's leverage allocation, respectively. In the following interview, the management team discusses the equity, convertible securities, and high-yield markets and Fund performance for the 12-month period ended October 31, 2017.

Please describe the Fund's objective and management strategies.

The Fund's investment objective is to provide total return through a combination of capital appreciation and current income. Under normal market conditions, the Fund invests at least 80% of its managed assets in a diversified portfolio of convertible securities and non-convertible income-producing securities, each of U.S. and non-U.S. issuers. The Fund must invest a minimum of 30% of its managed assets in convertible securities and may invest up to 70% of its managed assets in non-convertible income-producing securities. The Fund may invest without limitation in foreign securities.

The Fund also uses a strategy of writing (selling) covered call options on up to 25% of the securities held in the portfolio. The objective of this strategy is to generate current gains from option premiums to enhance distributions payable to the holders of common shares. In addition, the Fund may invest in other derivatives, such as forward exchange currency contracts, futures contracts, and swaps.

The Fund uses financial leverage to finance the purchase of additional securities. Although financial leverage may create an opportunity for increased return for shareholders, it also results in additional risks and can magnify the effect of any losses. There is no assurance that the strategy will be successful. If income and gains earned on securities purchased with the financial leverage proceeds are greater than the cost of the financial leverage, common shareholders' return will be greater than if financial leverage had not been used. Conversely, if the income or gains from the securities purchased with the proceeds of financial leverage are less than the cost of the financial leverage, common shareholders' return will be less than if financial leverage had not been used.

Discuss Advent's investment approach.

Advent's approach involves a core portfolio of convertible bonds that is managed, subject to the Fund's investment policies and restrictions, in a manner similar to that of Advent's Global Balanced Convertible Strategy, which seeks a high total return by investing in a portfolio of global convertible securities that provide equity-like returns while seeking to limit downside risk.

This core portfolio is supplemented by investments in high yield securities selected in a manner similar to that of Advent's High Yield Strategy, which seeks income and total return by investing primarily in high yielding corporate credit using fundamental and relative value analysis to identify undervalued securities.

QUESTIONS & ANSWERS (Unaudited) continued October 31, 2017

Advent uses a separate portion of the Fund's portfolio to increase or decrease relative overall exposure to convertible securities, high yield securities, and equities. This portion of the Fund's portfolio incorporates leverage and operates as an asset allocation tool reflecting Advent's conservative management philosophy and its views on the relative value of these three asset classes under changing market conditions.

Please describe the economic and market environment over the last 12 months.

Global equity and corporate bonds experienced strong returns during the Fund's fiscal year 2017. A stable-to-accelerating global economic environment combined with continued monetary policy accommodation in many countries and anticipation of potential U.S. tax reform and other business-friendly government policies helped to engender a rife environment for positive capital market returns. In both continental Europe and Japan, many years of below trend economic growth gave way during fiscal year 2017 to substantially improved economic indicators, for example much higher IFO Business Climate surveys in Germany, industrial production sustaining positive year-over-year changes in France, and price levels and retail sales growing at positive rates in Japan. Rising commodity prices and the lapping of slower economic periods in numerous emerging markets such as China and Brazil also helped to buoy perceptions of global economic growth. U.S. Gross Domestic Product ("GDP") growth remained steady, never having dipped for more than one quarter, but corporate profits reaccelerated, aided by rising commodity prices and a buoyant consumer sector with support from personal consumption and falling unemployment. The global market for convertible bonds returned double-digit percentage gains in fiscal year 2017 as a result of the favorable economic environment. Although yields in the foreign bonds markets were lower than that of the United States due to lower monetary policy short rates in many foreign locales, the convertible market's sensitivity to underlying equity returns proved positive to investors in this market. Returns in the corporate high-yield market, U.S. and globally, were enhanced by reductions in the spreads of the typical bond to benchmark government issuances. The high-yield markets globally returned 5-10% depending on the specific index with coupons combining with spread compression. A favorable financing environment for global corporations to pursue mergers and acquisitions, aggressive internal expansion, or financial engineering to enable greater equity returns continued to be a source globally for convertible securities to continue their issuance to replace maturing bonds.

The U.S. dollar, on a steady rise during the previous two years, fell during fiscal year 2017. After initially rising after the outcome of the U.S. election in anticipation of faster growth driving higher interest rates, the U.S. Dollar Index fell after the December 2016 peak of approximately 103.3 to a low of 91.3 in September 2017 before settling at 94.6 at the end of the fiscal year. Faster growth in Europe and more stable growth in China were the chief reasons for the dollar's decline with the economic acceleration in Europe bringing forward the expected tapering or end of monetary expansion by the European Central Bank ("ECB") surprising currency investors.

QUESTIONS & ANSWERS (Unaudited) continued October 31, 2017

How did the Fund perform in this environment?

All Fund returns cited—whether based on net asset value ("NAV") or market price—assume the reinvestment of all distributions. For the 12-month period ended October 31, 2017, the Fund generated a total return based on market price of 21.79% and a return of 14.03% based on NAV. As of October 31, 2017, the Fund's market price of \$6.19 represented a discount of 8.02% to NAV of \$6.73. As of October 31, 2016, the Fund's market price of \$5.57 represented a discount of 13.24% to NAV of \$6.42.

Past performance is not a guarantee of future results. All NAV returns include the deduction of management fees, operating expenses, and all other Fund expenses. The market price of the Fund's shares fluctuates from time to time, and may be higher or lower than the Fund's NAV.

What contributed to performance?

In the context of a positive global economic environment, security returns in the Fund's key asset classes were satisfactory in fiscal year 2017. Global convertibles, as highlighted by the ICE Bank of America Merrill Lynch Global 300 Convertible Index, rose 15.7% for the year on a currency-neutral basis. Various global equity indices, which serve as key performance indicators for the global convertible market, had strong returns such as the S&P 500 Index up 23.6%, the Stoxx Europe 50 Index of Western European equities up 24.2%, the Hang Seng Index of Hong Kong equities up 28.0%, and the Nikkei-225 Stock Average Index of Japanese stocks up 28.7%.

The U.S. high-yield corporate bond market also had strong returns as the ICE Bank of America Merrill Lynch High Yield Master II Index advanced 9.1% with the coupon return being augmented by a slight price increase of the underlying bonds. The average option-adjusted spread (OAS) compressed 140 basis points during the year, helped by improving corporate profits and a rebound in commodity prices, which have a high factor in the high-yield corporate bond market.

Please discuss the Fund's distributions.

For the period, the Fund paid a monthly distribution of \$0.047 per share. The most recent monthly distribution represents an annualized distribution rate of 9.1% based upon the last closing market price of \$6.19 as of October 31, 2017.

There is no guarantee of any future distribution or that the current returns and distribution rate will be maintained. The Fund's distribution rate is not constant and the amount of distribution, when declared by the Fund's Board of Trustees, is subject to change based on the performance of the Fund and market conditions.

The Fund currently anticipates that some of the 2017 distributions will consist of income and some will be a return of capital. A final determination of the tax character of distributions paid by the Fund in 2017 will be reported to shareholders in January 2018 on Form 1099-DIV.

While the Fund generally seeks to pay dividends that will consist primarily of investment company taxable income and net capital gain, because of the nature of the Fund's investments and changes in market conditions from time to time, or in order to maintain a more stable distribution level over time,

QUESTIONS & ANSWERS (Unaudited) continued October 31, 2017

the distributions paid by the Fund for any particular period may be more or less than the amount of net investment income from that period. If the Fund's total distributions in any year exceed the amount of its investment company taxable income and net capital gain for the year, any such excess would generally be characterized as a return of capital for U.S. federal income tax purposes.

A return of capital distribution is in effect a partial return of the amount a shareholder invested in the Fund. A return of capital does not necessarily reflect the Fund's investment performance and should not be confused with "yield" or "income." A return of capital distribution decreases the Fund's total assets and, therefore, could have the effect of increasing the Fund's expense ratio.

Please see Note 2(n) on page 46 for more information on distributions for the period.

Please discuss the tender offer that occurred during the period.

On August 9, 2017, the Fund commenced a tender offer (the "Tender Offer") to acquire in exchange for cash up to 4,829,532 (approximately 15%) of the Fund's outstanding common shares of beneficial interest (the "Shares") at a price per Share equal to 98% of the Fund's NAV as of the business day immediately following the expiration of the Tender Offer. The Tender Offer expired on September 7, 2017.

A total of 14,817,666 Shares were duly tendered and not withdrawn. Because the number of Shares tendered exceeded 4,829,532 Shares, the Tender Offer was oversubscribed. Therefore, in accordance with the terms and conditions specified in the Tender Offer, the Fund purchased Shares from all tendering shareholders on a pro rata basis, disregarding fractions.

Accordingly, on a pro rata basis, approximately 33% of Shares for each shareholder who properly tendered Shares were accepted for payment. The purchase price of properly tendered Shares was \$6.4876 per Share. Shares that were tendered but not accepted for purchase and Shares that were not tendered remain outstanding. The Fund accepted 4,829,532 shares for payment. Final payment was made on September 13, 2017 in an aggregate amount equal to \$31,332,072.

How has the Fund's leverage strategy affected performance?

As part of its investment strategy, the Fund utilizes leverage to finance the purchase of additional securities that provide increased income and potentially greater appreciation potential to common shareholders than could be achieved from a portfolio that is not leveraged.

The Fund's leverage outstanding as of October 31, 2017 consisted of \$125 million in borrowings with a related average interest rate of 1.96%, and was approximately 40% of the Fund's total managed assets.

There is no guarantee that the Fund's leverage strategy will be successful, and the Fund's use of leverage may cause the Fund's NAV and market price of common shares to be more volatile.

The NAV return for the Fund was above the cost of leverage for the fiscal year ended October 31, 2017. Although Advent looks at funds deployed from borrowings differently than funds which use the shareholder equity base, on this simple metric, the Fund's leverage was beneficial to shareholders for the fiscal period. Advent continues to seek attractive and relatively lower-risk opportunities to invest

QUESTIONS & ANSWERS (Unaudited) continued October 31, 2017

borrowings that have very low cost compared to history and plans to continue taking advantage of the yield curve and interest rate environment for the benefit of shareholders.

What was the impact of the Fund's covered call strategy?

During the year, call option activity was limited due to the low levels of premium available in the options market. Volatility pricing averaged for the fiscal year 2017 the lowest since the CBOE SPX Volatility Index, or "VIX" for its ticker, began tracking in 1990. The average of 11.6 was well below the average of 16-17 for the two previous years. Spikes in volatility that occur with bouts of market nervousness peaked at approximately 16 during 2017, well below prior peaks that often rise above 20 in the index. When volatility pricing and the VIX are lower, the income from writing call options on equities or equity indices is also lower, and the Fund found the tradeoff of capping upside in the equity holdings unfavorable and limited its usage in the fiscal year to focus on equity gains unconstrained by capped call options.

The Fund's small position in equities in fiscal 2017 also created fewer opportunities to realize call option income on stock holdings. For fiscal 2017, the percentage of average assets devoted to equities was approximately 9.3% versus 10.4% for fiscal 2016.

How were the Fund's total investments allocated among asset classes during the 12 months ended October 31, 2017, and what did this mean for performance?

On October 31, 2017, the Fund's total investments were invested approximately 45.0% in convertible bonds, convertible preferred securities, and mandatory convertibles; 41.0% in corporate bonds; 9.4% in equities; 3.4% in cash and cash equivalents; and 1.2% in senior floating rate interests.

On October 31, 2016, the Fund's total investments were invested approximately 50.5% in convertible bonds, convertible preferred securities, and mandatory convertibles; 37.2% in corporate bonds; 6.8% in equities; 0.5% in senior floating rate interests; and 5.0% in cash and cash equivalents.

The change in asset allocation during the year reflects the Investment Adviser's appraisal of the increased risks in the global capital markets following a strong fiscal year 2017 after the U.S. election. Valuations of both corporate bonds and equities rose during the period with prices of equities rising faster than corporate profits. Equity indices around the world are now valued squarely in the upper half of historical valuation ranges as a multiple of earnings.

Quantitative easing is no longer in expansion in any of the major regions in which it has been implemented and is in reversal in the United States. Thus, as the year progressed and markets continued to express little fear, the Fund reduced its holdings of convertible bonds in favor of high-yield bonds, which have lower price susceptibility when equities fall. At the same time, the Adviser also found more opportunities in sectors that would benefit from tax reform such as industrials and telecommunications and made select more equity investments in companies that do not have convertibles issued.

International investments fell slightly from 35% in October 2016 to 30% ending October 2017. European markets rose more sharply in the first half of the fiscal year than American ones as the economic improvements there amplified the effect of continuing bond buying by the European Central Bank. As global growth became more sustained as the fiscal year continued and Asian markets joined, global

QUESTIONS & ANSWERS (Unaudited) continued October 31, 2017

equity markets relevant to the convertible universe overall advanced more than the U.S. Also, the yield differences between the American and foreign markets amplified as short rates rose in the U.S. and equity price increases reduced yield in the foreign convertible markets. As a result, the Fund modestly reduced its international exposure as the year progressed.

The Fund continued to hedge its foreign currency exposure through forward contracts. Although that helped to limit losses from the depreciation of foreign currency positions in fiscals 2015 and 2016, the reverse occurred in fiscal 2017 as foreign currencies rose against the U.S. dollar. Appreciation of core bond and equity securities of foreign issuers was offset by losses in the matched forward currency contracts.

What were some impactful winners and losers affecting Fund performance during the period?

A strong contributor to returns in the convertible markets was the technology sector, in particular the semiconductor industry. This segment, providing components for electronic equipment, enjoyed a prolonged upturn in contrast to the short cycles of the recent past, thanks to curtailed capital spending causing supply shortages, more consistent economic demand, continued merger and acquisition activity and resultant operational savings that have driven earnings expansion.

The Fund's largest winner in the fiscal year was convertible bonds in Micron Technology, Inc. (0.7% of long-term investments at period end); the maker of operational memory (DRAM) and chip storage memory (FLASH) in computers, servers, and phones benefitted from better execution of manufacturing product transitions and higher prices from curtailed past industry expansions. Sharp earnings growth helped keep the equity earnings multiple low despite large price expansion. One of Micron's equipment suppliers, Lam Research Corp. (0.6% of long-term investments at period end) and its convertible bonds also expanded, as the industry reacted to higher prices and increased manufacturing intensity by raising capital spending. Some technological developments resulting in the higher intensity manufacturing process benefit Lam Research's product niches in particular. European semiconductor company STMicroelectronics NV (0.3% of long-term investments at period end) also had appreciating convertibles held by the Fund; the company executed well on past restructuring pledges and raised operating margins, helped by the cost savings and expanded use of its image sensors, which are used in next-generation smartphone camera phone assemblies. Much of the rest of STMicroelectronics' general purpose product line benefitted from greater electronics adoption in industries such as industrial and automotive.

In other sectors, convertibles in Suzuki Motor Corp. (0.7% of long-term investments at period end), the Japanese maker of many kinds of automotive vehicles, jumped as global demand improved, particularly in the rest of Asia, and Suzuki reaped gains from restructurings in India. Equity in U.S. railroad company Union Pacific Railroad Co. (not held at period end) rose after investors shrugged off a decline caused by management caution over commodity volumes. The stock reverted higher after investors refocused on positive margin news, such as price firmness and declining labor inflation. High-yield bonds in rural hospital company Quorum Health Corp. (0.2% of long-term investments at period end) rebounded after difficulties in 2016; the company executed on plans to divest hospitals to reduce leverage and experienced higher core demand for admissions and specialty procedures than expected. A lack of

QUESTIONS & ANSWERS (Unaudited) continued October 31, 2017

repeal of the Affordable Care Act, which could have limited hospital demand by the public, also helped take away downside potential.

Among detractors, mandatory convertibles held in health care device and drug maker Allergan plc (0.9% of long-term investments at period end) fell after the company lost a court ruling on the profitable dry-eye drug Restasis, bringing forward generic competition, and experienced setbacks on other trial data of drugs such as Cenicriviroc (CVC) for liver fibrosis. The company's debt levels magnified the extent of the stock decline, also hurting the mandatories' valuation. Stock in drug maker Merck & Co. (0.5% of long-term investments at period end) declined in October after the company delayed a key lung cancer trial for the Keytruda drug combining with chemotherapy and withdrew a separate application for the drug's approval in Europe.

High-yield bonds in rural hospital company Community Health Systems, Inc. (0.5% of long-term investments at period end) fell after the company had two earnings misses with rising bad debt expense and headwinds on acute care demand. The company has reacted to lower earnings by expanding its divestiture program. Convertibles in global cement supplier Cemex SAB de CV (0.7% of long-term investments at period end) reported weak margins and production disruptions as a result of natural disasters (earthquakes and hurricanes) in North America.

Index Definitions

ICE Bank of America Merrill Lynch Global 300 Convertible Index measures the performance of convertible securities of issuers throughout the world.

ICE Bank of America Merrill Lynch High Yield Master II Index is a commonly used benchmark index for high yield corporate bonds. It is a measure of the broad high yield market.

Hang Seng Index is a free float-adjusted market-capitalization weighted index of 40 of the largest companies listed on the Hong Kong Exchange.

Nikkei-225 Stock Average Index is a price-weighted index comprised of Japan's top 225 blue-chip companies on the Tokyo Stock Exchange.

STOXX® Europe 50 Index provides a blue-chip representation of super-sector leaders in Europe. The index covers 50 stocks from developed European countries such as Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and the United Kingdom.

S&P 500® Index is a broad-based index, the performance of which is based on the performance of 500 widely held common stocks chosen for market size, liquidity, and industry group representation.

U.S. Dollar Index (DXY) is an index that determines the relative value of the United States dollar to a basket of foreign currencies. This formulated "basket" of currencies comprises the weighting of six other currencies as follows: euro (EUR), 57.6% + Japanese yen (JPY), 13.6% + pound sterling (GBP), 11.9% + Canadian dollar (CAD), 9.1% + Swedish krona (SEK), 4.2% + Swiss franc (CHF) 3.6%.

QUESTIONS & ANSWERS (Unaudited) continued October 31, 2017

VIX is the ticker symbol for the Chicago Board Options Exchange Market Volatility Index, a popular measure of the implied volatility of S&P 500 index options. It is a weighted blend of prices for a range of options on the S&P 500 index.

AGC Risks and Other Considerations

The views expressed in this report reflect those of the Investment Manager only through the report period as stated on the cover. These views are subject to change at any time, based on market and other conditions and should not be construed as a recommendation of any kind. The material may also contain forward-looking statements that involve risk and uncertainty, and there is no guarantee they will come to pass. There can be no assurance that the Fund will achieve its investment objectives. The value of the Fund will fluctuate with the value of the underlying securities. Historically, closed-end funds often trade at a discount to their net asset value. Past performance does not guarantee future results. The Fund is subject to investment risk, including the possible loss of the entire amount that you invest. Please see guggenheiminvestments.com/agc for a detailed discussion of the Fund's risks and considerations.

* These amounts are reported as unrealized gain/(loss) as of October 31, 2017.

Please refer to the detailed portfolio for the breakdown of investment type by industry category

The Fund did not hold any Level 3 securities during the year ended October 31, 2017.

Transfers between investment levels may occur as the markets fluctuate and/or the availability of data used in an investment's valuation changes. Transfers between valuation levels, if any, are in comparison to the valuation levels at the end of the previous fiscal year, and are effective using the fair value as of the end of the current fiscal period.

For the year ended October 31, 2017, there were no transfers between levels.
See notes to financial statements.

- Based on
- (a) average shares outstanding.
 - (b) Total return is calculated assuming a purchase of a common share at the beginning of the period and a sale on the last day of the period reported either at net asset value ("NAV") or market price per share. Dividends and distributions are assumed to be reinvested at NAV for NAV returns

- or the prices obtained under the Fund's Dividend Reinvestment Plan for market value returns. Total return does not reflect brokerage commissions. Included in the total return at net asset value is the impact of the tender and repurchase of its Auction Market Preferred Shares ("AMPS") at 99% of the AMPS' per share liquidation preference. Had this transaction not occurred, the total return at net asset value would have been lower by 0.74%. Calculated by subtracting the Fund's total liabilities (not including borrowings) from the Fund's total assets and dividing by the total borrowings.
- (c) The expense ratio does not reflect fees and
- (d)
- (e)

expenses incurred by the Fund as a result of its investment in shares of business development companies. If these fees were included in the expense ratio, the increase to the expense ratio would be approximately 0.08% and 0.02% for the years ended October 31, 2014 and 2013, respectively. Excluding interest expense, the operating expense ratio for the years ended October 31 would be:

AGC I ADVENT CLAYMORE CONVERTIBLE SECURITIES AND INCOME FUND II ANNUAL REPORT I 37

NOTES TO FINANCIAL STATEMENTS October 31, 2017

Note 1 – Organization:

Advent Claymore Convertible Securities and Income Fund II (the "Fund") was organized as a Delaware statutory trust on February 26, 2007. The Fund is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended.

The Fund's investment objective is to provide total return, through a combination of capital appreciation and current income. The Fund pursues its investment objective by investing 80% of its assets in a diversified portfolio of convertible securities and non-convertible income-producing securities.

Note 2 – Accounting Policies:

The Fund operates as an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 Financial Services – Investment Companies.

The following significant accounting policies are in conformity with U.S. generally accepted accounting principles ("GAAP") and are consistently followed by the Fund. This requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates. All time references are based on Eastern Time.

The following is a summary of significant accounting policies followed by the Fund:

(a) Valuation of Investments

Equity securities listed on an exchange are valued at the last reported sale price on the primary exchange on which they are traded. Equity securities traded on an exchange or on the other over-the-counter market and for which there are no transactions on a given day are valued at the mean of the closing bid and ask prices. Securities traded on NASDAQ are valued at the NASDAQ Official Closing Price. Equity securities not listed on a securities exchange or NASDAQ are valued at the mean of the closing bid and ask prices. Debt securities are valued by independent pricing services or dealers using the mean of the closing bid and ask prices for such securities or, if such prices are not available, at prices for securities of comparable maturity, quality and type. If sufficient market activity is limited or does not exist, the pricing providers or broker-dealers may utilize proprietary valuation models which consider market characteristics such as benchmark yield curves, option-adjusted spreads, credit spreads, estimated default rates, coupon rates, anticipated timing of principal repayments, underlying collateral, or other unique security features in order to estimate relevant cash flows, which are then discounted to calculate a security's fair value. Exchange-traded funds and listed closed-end funds are valued at the last sale price or official closing price on the exchange where the security is principally traded. The value of over-the-counter ("OTC") swap agreements entered into by the Fund is accounted for using the unrealized gain or loss on the agreements that is determined by marking the agreements to the last quoted value provided by an independent pricing service. Forward foreign currency exchange contracts are valued daily at current exchange rates. Futures contracts are valued using the settlement price established each day on the exchange on which they are traded. Exchange-traded options are valued at the closing price, if traded that day. If

NOTES TO FINANCIAL STATEMENTS continued

October 31,
2017

not traded, they are valued at the mean of the bid and ask prices on the primary exchange on which they are traded. Swaps are valued daily by independent pricing services or dealers using the mid price. Short-term securities with remaining maturities of 60 days or less are valued at market price, or if a market price is not available, at amortized cost, provided such amount approximates market value. The Fund values money market funds at net asset value. For those securities where quotations or prices are not available, the valuations are determined in accordance with procedures established in good faith by management and approved by the Board of Trustees. A valuation committee consisting of representatives from investment management, fund administration, legal and compliance is responsible for the oversight of the valuation process of the Fund and convenes monthly, or more frequently as needed. The valuation committee reviews monthly Level 3 fair valued securities methodology, price overrides, broker quoted securities, price source changes, illiquid securities, unchanged priced securities, halted securities, price challenges, fair valued securities sold and back testing trade prices in relation to prior day closing prices. On a quarterly basis, the valuations and methodologies of all Level 3 fair valued securities are presented to the Fund's Board of Trustees. Valuations in accordance with these procedures are intended to reflect each security's (or asset's) fair value. Such fair value is the amount that the Fund might reasonably expect to receive for the security (or asset) upon its current sale. Each such determination is based on a consideration of all relevant factors, which are likely to vary from one security to another. Examples of such factors may include, but are not limited to market prices; sale prices; broker quotes; and models which derive prices based on inputs such as prices of securities with comparable maturities and characteristics, or based on inputs such as anticipated cash flows or collateral, spread over Treasuries, and other information analysis. There were no securities fair valued in accordance with such procedures established by the Board of Trustees as of October 31, 2017.

GAAP requires disclosure of fair valuation measurements as of each measurement date. In compliance with GAAP, the Fund follows a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's investments and summarized in the following fair value hierarchy:

Level 1 – quoted prices in active markets for identical securities.

Level 2 – quoted prices in inactive markets or other significant observable inputs (e.g., quoted prices for similar securities; interest rates; prepayment speed; credit risk; yield curves).

Level 3 – significant unobservable inputs (e.g., discounted cash flow analysis; non-market based methods used to determine fair value).

Observable inputs are those based upon market data obtained from independent sources, and unobservable inputs reflect the Fund's own assumptions based on the best information available. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input both individually and in aggregate that is significant to the fair value measurement. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

NOTES TO FINANCIAL STATEMENTS continued

October 31,
2017

The following are certain inputs and techniques that are generally utilized to evaluate how to classify each major type of investment in accordance with GAAP.

Equity Securities (Common and Preferred Stock) – Equity securities traded in active markets where market quotations are readily available are categorized as Level 1. Equity securities traded in inactive markets and certain foreign equities are valued using inputs which include broker quotes, prices of securities closely related where the security held is not trading but the related security is trading, and evaluated price quotes received from independent pricing providers. To the extent that these inputs are observable, such securities are categorized as Level 2. To the extent that these inputs are unobservable, such securities are categorized as Level 3.

Convertible Bonds & Notes – Convertible bonds and notes are valued by independent pricing providers who employ matrix pricing models utilizing various inputs such as market prices, broker quotes, prices of securities with comparable maturities and qualities, and closing prices of corresponding underlying securities. To the extent that these inputs are observable, such securities are categorized as Level 2. To the extent that these inputs are unobservable, such securities are categorized as Level 3.

Corporate Bonds & Notes – Corporate bonds and notes are valued by independent pricing providers who employ matrix pricing models utilizing various inputs such as market prices, broker quotes, prices of securities with comparable maturities and qualities and closing prices of corresponding underlying securities. To the extent that these inputs are observable, such securities are categorized as Level 2. To the extent that these inputs are unobservable, such securities are categorized as Level 3.

Listed derivatives that are actively traded are valued based on quoted prices from the exchange and categorized in Level 1 of the fair value hierarchy. OTC derivative contracts including forward foreign currency exchange contracts, swap contracts, and option contracts derive their value from underlying asset prices, indices, reference rates, and other inputs. Depending on the product and terms of the transaction, the fair value of the OTC derivative products can be modeled taking into account the counterparties' creditworthiness and using a series of techniques, including simulation models. Many pricing models do not entail material subjectivity because the methodologies employed do not necessitate significant judgments, and the pricing inputs are observed from actively quoted markets. These OTC derivatives are categorized within Level 2 of the fair value hierarchy.

(b) Investment Transactions and Investment Income

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Dividend income is recorded net of applicable withholding taxes on the ex-dividend date and interest income is recorded on an accrual basis. Discounts on debt securities purchased are accreted to interest income over the lives of the respective securities using the effective interest method. Premiums on debt securities purchased are amortized to interest income up to the next call date of the respective securities using the effective interest method.

(c) Cash and Cash Equivalents

The Fund considers all demand deposits to be cash equivalents. Cash and cash equivalents are held at the Bank of New York Mellon.

NOTES TO FINANCIAL STATEMENTS continued

October 31,
2017

(d) Due from Broker

Amounts due from broker, if any, may include cash due to the Fund as proceeds from investments sold, but not yet purchased as well as pending investment and financing transactions, which may be restricted until the termination of the financing transactions.

(e) Restricted Cash

A portion of cash on hand can be pledged with a broker for current or potential holdings, which may include options, swaps, forward foreign currency exchange contracts and securities purchased on a when issued or delayed delivery basis.

On October 31, 2017, there was no restricted cash.

(f) Convertible Securities

The Fund invests in preferred stocks and fixed-income securities which are convertible into common stock. Convertible securities may be converted either at a stated price or rate within a specified period of time into a specified number of shares of common stock. Traditionally, convertible securities have paid dividends or interest greater than on the related common stocks, but less than fixed income non-convertible securities. By investing in a convertible security, the Fund may participate in any capital appreciation or depreciation of a company's stock, but to a lesser degree than if it had invested in that company's common stock. Convertible securities rank senior to common stock in a corporation's capital structure and, therefore, entail less risk than the corporation's common stock.

(g) Currency Translation

Assets and liabilities denominated in foreign currencies are translated into U.S. dollars at the mean of the bid and ask price of respective exchange rates on the last day of the period. Purchases and sales of investments denominated in foreign currencies are translated at the mean of the bid and ask price of respective exchange rates on the date of the transaction.

The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments.

Foreign exchange realized gain or loss resulting from holding of foreign currency, difference in exchange rates between the trade date and settlement date of an investment purchased or sold, and the difference between dividends or interest actually received compared to the amount shown in the Fund's accounting records on the date of receipt is shown as net realized gains or losses on foreign currency transactions in the Fund's Statement of Operations.

Foreign exchange unrealized gain or loss on assets and liabilities, other than investments, is shown as unrealized appreciation (depreciation) on foreign currency translations in the Fund's Statement of Operations.

(h) Covered Call and Put Options

The Fund will pursue its objective by employing an option strategy of writing (selling) covered call options or put options on up to 25% of the securities held in the portfolio of the Fund. The Fund

NOTES TO FINANCIAL STATEMENTS continued

October 31,
2017

seeks to generate current gains from option premiums as a means to enhance distributions payable to shareholders. The Fund may purchase and sell ("write") put and call options to manage and hedge risk within its portfolio and to gain long or short exposure to the underlying instrument. A purchaser of a put option has the right, but not the obligation, to sell the underlying instrument at an agreed upon price ("strike price") to the option seller. A purchaser of a call option has the right, but not the obligation, to purchase the underlying instrument at the strike price from the option seller.

When an option is purchased, the premium paid by the Fund for options purchased is included on the Statement of Assets and Liabilities as an investment. The option is adjusted daily to reflect the current market value of the option and the change is recorded as Change in net unrealized appreciation/depreciation on Purchased options on the Statement of Operations. If the option is allowed to expire, the Fund will lose the entire premium it paid and record a realized loss for the premium amount. Premiums paid for options purchased which are exercised or closed are added to the amounts paid or offset against the proceeds on the underlying investment transaction to determine the realized gain (loss) or cost basis of the security.

When an option is written, the premium received is recorded as an asset with an equal liability and the liability is subsequently marked to market to reflect the current market value of the option written. These liabilities are reflected as Written options, at value, on the Statement of Assets and Liabilities. Premiums received from writing options which expire unexercised are recorded on the expiration date as a realized gain. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium is less than the amount paid for the closing purchase transactions, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether there has been a realized gain or loss.

The Fund is not subject to credit risk in options written as the counterparty has already performed its obligations by paying the premium at the inception of the contract.

(i) Swap Agreements

The Fund may engage in various swap transactions, including interest rate and credit default swaps to manage interest rate (e.g., duration, yield curve) and credit risk. The Fund may also use swaps as alternatives to direct investments. Swap transactions are negotiated contracts ("OTC swaps") between a fund and a counterparty or centrally cleared ("centrally cleared swaps") with a central clearinghouse through a Futures Commission Merchant ("FCM"), to exchange investment cash flows or assets at specified, future intervals.

Upfront payments made and/or received by the Fund is recognized as a realized gain or loss when the contract matures or is terminated. The value of an OTC swap agreement is recorded as either an asset or a liability on the Statement of Assets and Liabilities at the beginning of the measurement period. Upon entering into a centrally cleared swap, the Fund is required to deposit with the FCM cash or securities, which is referred to as initial margin deposit. Securities deposited as initial margin are designated on the Portfolio of Investments and cash deposited is recorded on the Statement of Assets and Liabilities. Daily changes in valuation of centrally cleared swaps, if any, are recorded as a variation margin receivable or payable on the Statement of Assets and Liabilities. The

change in the value of swaps, including accruals of periodic amounts of interest to be paid or received on swaps, is reported as Change in net unrealized appreciation/depreciation on swap agreements on the Statement of Operations. A realized gain or loss is recorded upon payment or receipt of a periodic payment or payment made upon termination of a swap agreement.

The Fund may be required to post or receive collateral based on the net value of the Fund's outstanding OTC swap contracts with the counterparty in the form of cash or securities. Daily movement of collateral is subject to minimum threshold amounts. Cash collateral posted by the Fund is included on the Statement of Assets and Liabilities as Restricted Cash. Collateral received by the Fund is held in escrow in segregated accounts maintained by the custodian.

(j) Forward Foreign Currency Exchange Contracts

The Fund enters into forward foreign currency exchange contracts in order to hedge its exposure to changes in foreign currency exchange rates on its foreign portfolio holdings, to hedge certain firm purchases and sales commitments denominated in foreign currencies and for investment purposes. Forward foreign currency exchange contracts are agreements between two parties to buy and sell currencies at a set price on a future date. Fluctuations in the value of open forward foreign currency exchange contracts are recorded for financial reporting purposes as unrealized appreciation and depreciation by the Fund until the contracts are closed. When the contracts are closed, realized gain and losses are recorded, and included in realized gain (loss) on forward foreign currency exchange contracts on the Statement of Operations.

Forward foreign currency exchange contracts involve elements of both market and credit risk in excess of the amounts reflected on the Statement of Assets and Liabilities.

(k) Senior Floating Rate Interests

Senior floating rate interests, or term loans, in which the Fund typically invests are not listed on a securities exchange or board of trade. Term loans are typically bought and sold by institutional investors in individually negotiated transactions. A loan is often administered by a bank or other financial institution (the "lender") that acts as agent for all holders. The agent administers the terms of the loan, as specified in the loan agreement. The Fund may invest in multiple series or tranches of a loan, which may have varying terms and carry different associated risks. A Fund generally has no right to enforce compliance with the terms of the loan agreement with the borrower. As a result, a Fund may be subject to the credit risk of both the borrower and the lender that is selling the loan agreement. The term loan market generally has fewer trades and less liquidity than the secondary market for other types of securities. Due to the nature of the term loan market, the actual settlement date may not be certain at the time of purchase or sale. Interest income on term loans is not accrued until settlement date. Typically, term loans are valued by independent pricing services using broker quotes.

(l) Risks and Other Considerations

In the normal course of business, the Fund trades financial instruments and enters into financial transactions where risk of potential loss exists due to, among other things, changes in the market (market risk) or the potential inability of a counterparty to meet the terms of an agreement (counterparty risk). The Fund is also exposed to other risks such as, but not limited to, concentration, interest rate, credit and financial leverage risks.

NOTES TO FINANCIAL STATEMENTS continued

October 31,
2017

Concentration of Risk. It is the Fund's policy to invest a significant portion of its assets in convertible securities. Although convertible securities do derive part of their value from that of the securities into which they are convertible, they are not considered derivative financial instruments. However, certain of the Fund's investments include features which render them more sensitive to price changes in their underlying securities. Consequently, this exposes the Fund to greater downside risk than traditional convertible securities, but still less than that of the underlying common stock.

Credit Risk. Credit risk is the risk that one or more income securities in the Fund's portfolio will decline in price, or fail to pay interest and principal when due, because the issuer of the security experiences a decline in its financial status. The Fund's investments in income securities involve credit risk. However, in general, lower rated, lower grade and non-investment grade securities carry a greater degree of risk that the issuer will lose its ability to make interest and principal payments, which could have a negative impact on the Fund's net asset value or dividends.

Interest Rate Risk. Convertible and nonconvertible income-producing securities, including preferred stock and debt securities (collectively, "income securities"), are subject to certain interest rate risks. If interest rates go up, the value of income securities in the Fund's portfolio generally will decline. These risks may be greater in the current market environment because interest rates are near historically low levels. During periods of rising interest rates, the average life of certain types of income securities may be extended because of slower than expected principal payments. This may lock in a below market interest rate, increase the security's duration (the estimated period until the security is paid in full) and reduce the value of the security. This is known as extension risk. During periods of declining interest rates, the issuer of a security may exercise its option to prepay principal earlier than scheduled, forcing the Fund to reinvest in lower yielding securities. This is known as call or prepayment risk. Lower grade securities have call features that allow the issuer to repurchase the security prior to its stated maturity. An issuer may redeem a lower grade security if the issuer can refinance the security at a lower cost due to declining interest rates or an improvement in the credit standing of the issuer.

Lower Grade Securities Risk. Investing in lower grade and non-investment grade securities involves additional risks. Securities of below investment grade quality are commonly referred to as "junk bonds" or "high yield securities."

Investment in securities of below investment grade quality involves substantial risk of loss. Securities of below investment grade quality are predominantly speculative with respect to the issuer's capacity to pay interest and repay principal when due and therefore involve a greater risk of default or decline in market value due to adverse economic and issuer-specific developments. Issuers of below investment grade securities are not perceived to be as strong financially as those with higher credit ratings. Issuers of lower grade securities may be highly leveraged and may not have available to them more traditional methods of financing. Therefore, the risks associated with acquiring the securities of such issuers generally are greater than is the case with higher rated securities. These issuers are more vulnerable to financial setbacks and recession than more creditworthy issuers, which may impair their ability to make interest and principal payments. The issuer's ability to service its debt obligations also may be adversely affected by specific issuer developments, the issuer's inability to meet specific projected business forecasts or the unavailability of additional financing. Therefore, there can be no assurance that in the future there will not exist a higher default rate relative to the rates currently existing in the market for lower grade securities. The risk of loss due to default by the issuer is significantly greater for the holders of

NOTES TO FINANCIAL STATEMENTS continued

October 31,
2017

lower grade securities because such securities may be unsecured and may be subordinate to other creditors of the issuer. Securities of below investment grade quality display increased price sensitivity to changing interest rates and to a deteriorating economic environment. The market values for securities of below investment grade quality tend to be more volatile and such securities tend to be less liquid than investment grade debt securities. To the extent that a secondary market does exist for certain below investment grade securities, the market for them may be subject to irregular trading activity, wide bid/ask spreads and extended trade settlement periods.

Structured and Synthetic Convertible Securities Risk. The value of structured convertible securities can be affected by interest rate changes and credit risks of the issuer. Such securities may be structured in ways that limit their potential for capital appreciation and the entire value of the security may be at a risk of loss depending on the performance of the underlying equity security. Structured convertible securities may be less liquid than other convertible securities. The value of a synthetic convertible security will respond differently to market fluctuations than a convertible security because a synthetic convertible security is composed of two or more separate securities, each with its own market value. In addition, if the value of the underlying common stock or the level of the index involved in the convertible component falls below the exercise price of the warrant or option, the warrant or option may lose all value.

Foreign Securities and Emerging Markets Risk. Investing in non-U.S. issuers may involve unique risks, such as currency, political, economic and market risk. In addition, investing in emerging markets entails additional risk including, but not limited to: news and events unique to a country or region; smaller market size, resulting in lack of liquidity and price volatility; certain national policies which may restrict the Fund's investment opportunities; less uniformity in accounting and reporting requirements; unreliable securities valuation; and custody risk.

Financial Leverage Risk. Certain risks are associated with the leveraging of common stock, including the risk that both the net asset value and the market value of shares of common stock may be subject to higher volatility and a decline in value.

Counterparty Risk. The Fund is subject to counterparty credit risk, which is the risk that the counterparty fails to perform on agreements with the Fund such as swap and option contracts and reverse repurchase agreements.

(m) Reverse Repurchase Agreements

In a reverse repurchase agreement, the Fund sells to a counterparty a security that it holds with a contemporaneous agreement to repurchase the same security at an agreed-upon price and date. Reverse repurchase agreements are valued based on the amount of cash received plus accrued interest, which represents fair value. Reverse repurchase agreements are reflected as a liability on the Statements of Assets and Liabilities. Interest payments made are recorded as a component of interest expense on the Statements of Operations. The Fund monitors collateral market value for the reverse repurchase agreement, including accrued interest, throughout the life of the agreement, and when necessary, delivers or receives cash or securities in order to manage credit exposure and liquidity. If the counterparty defaults or enters insolvency proceeding, realization or return of the collateral to the Fund may be delayed or limited.

NOTES TO FINANCIAL STATEMENTS continued

October 31,
2017

(n) Distributions to Shareholders

The Fund declares and pays monthly distributions to common shareholders. These distributions consist of investment company taxable income, which generally includes qualified dividend income, ordinary income and short-term capital gains. Any net realized long-term gains are distributed annually to common shareholders. If the Fund's total distributions in any year exceed the amount of its investment company taxable income and net capital gain for the year, any such excess would generally be characterized as a return of capital for U.S. federal income tax purposes. Distributions to shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

(o) Indemnifications

Under the Fund's organizational documents, its Trustees and Officers are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, throughout the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund and/or its affiliates that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

Note 3 – Investment Management and Advisory Agreements and other agreements:

Pursuant to an Investment Advisory Agreement (the "Agreement") between Guggenheim Funds Investment Advisors, LLC ("GFIA" or the "Investment Adviser") and the Fund, the Investment Adviser furnishes offices, necessary facilities and equipment, provides administrative services to the Fund, oversees the activities of Advent Capital Management, LLC (the "Investment Manager"), provides personnel and compensates the Trustees and Officers of the Fund who are its affiliates. As compensation for these services, the Fund pays the Investment Adviser an annual fee, payable monthly in arrears, at an annual rate equal to 0.40% of the average Managed Assets during such month. Managed Assets means the total of assets of the Fund (including any assets attributable to borrowings in the use of financial leverage, if any) minus the sum of accrued liabilities (other than debt representing financial leverage, if any). Pursuant to an Investment Management Agreement between the Investment Manager and the Fund, the Fund pays the Investment Manager an annual fee, payable monthly in arrears, at an annual rate equal to 0.60% of the average Managed Assets during such month for the services and facilities provided by the Investment Manager to the Fund. These services include the day-to-day management of the Fund's portfolio of securities, which includes buying and selling securities for the Fund and investment research.

The Bank of New York Mellon ("BNY") acts as the Fund's custodian and accounting agent. As custodian, BNY is responsible for the custody of the Fund's assets. As accounting agent, BNY is responsible for maintaining the books and records of the Fund's securities and cash.

Under a Fund Administration Agreement with the Fund, MUFG Investor Services (US), LLC ("MUIS") provides various administrative and financial reporting services for the Fund. For

NOTES TO FINANCIAL STATEMENTS continued

October 31,
2017

providing the aforementioned services, MUIS and BNY are entitled to receive a monthly fee equal to an annual percentage of the Fund's average daily managed assets.

Certain officers and trustees of the Fund are also officers and trustees of the Investment Adviser or Investment Manager. The Fund does not compensate its officers or trustees who are officers of the aforementioned firms.

Note 4 – Federal Income Taxes:

The Fund intends to continue to comply with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, no provision for U.S. federal income taxes is required. In addition, by distributing substantially all of its ordinary income and long-term capital gains, if any, during each calendar year, the Fund avoids a 4% federal excise tax that is assessed on the amount of the under distribution.

In order to present paid-in capital in excess of par, distributions in excess of net investment income and accumulated net realized gains or losses on the Statement of Assets and Liabilities that more closely represent their tax character, certain adjustments have been made to distributions in excess of net investment income, accumulated net realized gains or losses and paid-in capital. For the year ended October 31, 2017, the adjustments were to decrease paid-in capital by \$155,841,307, decrease accumulated net realized loss by \$155,157,430 and decrease distributions in excess of net investment income by \$683,877 due to the difference in the treatment for book and tax purposes of distributions to shareholders and of contingent payment debt instruments, real estate investment trusts, foreign currency, and capital loss carryforward expiration.

As of October 31, 2017, the cost of securities for federal income tax purposes, the aggregate gross unrealized gain for all securities for which there was an excess of value over tax cost, and the aggregate gross unrealized loss for all securities for which there was an excess of tax cost over value, were as follows:

| | Gross Tax Unrealized Appreciation | Gross Tax Unrealized Depreciation | Net Tax Unrealized Appreciation |
|----------|---|---|---------------------------------------|
| Tax Cost | \$297,357,097 | \$18,353,457 | \$(8,640,434) |
| | | | \$9,713,023 |

The differences between book basis and tax basis unrealized appreciation/(depreciation) are primarily attributable to the tax deferral of losses on wash sales, additional income adjustments for tax purposes on certain convertible securities, and mark to market of certain derivatives.

As of October 31, 2017, tax components of accumulated earnings/ losses (excluding paid-in capital) were as follows:

| Undistributed Ordinary Income/ (Accumulated Ordinary Loss) | Undistributed Long-Term Gains/ (Accumulated Capital Loss) |
|--|---|
| \$– | \$(18,343,697) |

NOTES TO FINANCIAL STATEMENTS continued

October 31,
2017

The differences between book basis and tax basis undistributed long-term gains/(accumulated capital losses) are attributable to the tax deferral of losses on wash sales and straddles.

At October 31, 2017, the Fund had a capital loss carryforward available as shown in the table below, to offset possible future capital gains through the years indicated. Per the Regulated Investment Company Modernization Act of 2010, capital loss carryforwards generated in taxable years beginning after December 22, 2010 must be fully used before capital loss carryforwards generated in taxable years prior to December 22, 2010; therefore, under certain circumstances, capital loss carryforwards available as of the report date, if any, may expire unused.

| Expires in 2019 | Unlimited Short-Term | Unlimited Long-Term | Total Capital Loss Carryforward |
|--------------------|-------------------------|------------------------|---------------------------------------|
| \$2,393,946 | \$11,641,850 | \$4,307,901 | \$18,343,697 |

For the year ended October 31, 2017, the capital loss carryforward amounts expired and utilized were \$155,338,152 and \$7,089,748 respectively.

For the years ended October 31, 2017 and 2016, the tax character of distributions paid, as reflected on the Statements of Changes in Net Assets, of \$7,136,313 and \$7,143,863 was ordinary income and \$10,568,749 and \$11,035,782 was return of capital, respectively.

For all open tax years and all major jurisdictions, management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Uncertain tax positions are tax positions taken or expected to be taken in the course of preparing the Fund's tax returns that would not meet a more-likely-than-not threshold of being sustained by the applicable tax authority and would be recorded as a tax expense in the current year. Open tax years are those that are open for examination by taxing authorities (i.e. generally the last four tax year ends and the interim tax period since then). Furthermore, management of the Fund is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

Note 5 – Investments in Securities:

For the year ended October 31, 2017, the cost of purchases and proceeds from sales of investments, excluding written options, swap agreements and short-term securities, were \$369,662,974 and \$428,495,649, respectively.

Note 6 – Derivatives:

Derivatives are instruments whose values depend on, or are derived from, in whole or in part, the value of one or more other assets, such as securities, currencies, commodities or indices. Derivative instruments may be used to increase investment flexibility (including to maintain cash reserves while maintaining exposure to certain other assets), for risk management (hedging) purposes, to facilitate trading, to reduce transaction costs and to pursue higher investment returns. Derivative instruments may also be used to mitigate certain investment risks, such as foreign currency exchange rate risk, interest rate risk and credit risk. GAAP requires disclosures to enable investors to better understand how and why a Fund uses derivative instruments, how these derivative instruments are accounted for and their effects on the Fund's financial position and results of operations.

NOTES TO FINANCIAL STATEMENTS continued

October 31,
2017

The Fund may utilize derivatives for the following purposes:

Hedge – an investment made in order to seek to reduce the risk of adverse price movements in a security, by taking an offsetting position to protect against broad market moves.

Higher Investment Returns – the use of an instrument to seek to obtain increased investment returns.

Income – the use of any instrument that distributes cash flows typically based upon some rate of interest.

Speculation – the use of an instrument to express macro-economic and other investment views.

(a) Covered Call and Put Options

An option on a security is a contract that gives the holder of the option, in return for a premium, the right to buy from (in the case of a call) or sell to (in the case of a put) the writer of the option the security underlying the option at a specified exercise or "strike" price. The writer of an option on a security has the obligation upon exercise of the option to deliver the underlying security upon payment of the exercise price (in the case of a call) or to pay the exercise price upon delivery of the underlying security (in the case of a put).

The Fund will follow a strategy of writing covered call options, which is a strategy designed to produce income from option premiums and offset a portion of a market decline in the underlying security. This strategy will be the Fund's principal investment strategy in seeking to pursue its primary investment objective. The Fund will only "sell" or "write" options on securities held in the Fund's portfolio. It may not sell "naked" call options, i.e., options on securities that are not held by the Fund or on more shares of a security than are held in the Fund's portfolio. The Fund will consider a call option written with respect to a security underlying a convertible security to be covered so long as (i) the convertible security, pursuant to its terms, grants to the holders of such security the right to convert the convertible security into the underlying security and (ii) the convertible security, upon conversion, will convert into enough shares of the underlying security to cover the call option written by the Fund.

There are several risks associated with transactions in options on securities. As the writer of a covered call option, the Fund forgoes, during the option's life, the opportunity to profit from increases in the market value of the security covering the call option above the sum of the premium and the strike price of the call, but has retained the risk of loss should the price of the underlying security decline. A writer of a put option is exposed to the risk of loss if the fair value of the underlying security declines, but profits only to the extent of the premium received if the underlying security increases in value. The writer of an option has no control over the time when it may be required to fulfill its obligation as writer of the option. Once an option writer has received an exercise notice, it cannot effect a closing purchase transaction in order to terminate its obligation under the option and must deliver the underlying security at the exercise price.

The Fund's exchange traded options are not subject to master netting arrangements (the right to close out all transactions traded with a counterparty and net amounts owed or due across the transactions).

As of October 31, 2017, there were no call or put options outstanding.

(b) Forward Foreign Currency Exchange Contracts

A forward foreign currency exchange contract is a commitment to purchase or sell a foreign currency on a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contracts and the closing of such contracts would be included in net realized gain or loss on forward foreign currency exchange contracts.

Risk may arise from the potential inability of a counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. The face or contract amount, in U.S. dollars, reflects the total exposure the Fund has in that particular currency contract.

(c) Swap agreements

Swap agreements are contracts between parties in which one party agrees to make periodic payments to the other party (the "Counterparty") based on the change in market value or level of a specified rate, index or asset. In return, the Counterparty agrees to make periodic payments to the first party based on the return of a different specified rate, index or asset. Swap agreements will usually be done on a net basis, the Fund receiving or paying only the net amount of the two payments.

Certain standardized swaps are subject to mandatory central clearing. Central clearing generally reduces counterparty credit risk and increases liquidity, but central clearing does not make swap transactions risk-free. Additionally, there is no guarantee that a Fund or an underlying fund could eliminate its exposure under an outstanding swap agreement by entering into an offsetting swap agreement with the same or another party.

The Fund may enter into swap agreements to manage its exposure to interest rates and/or credit risk, to generate income or to manage duration. During the period that the swap agreement is open, the Fund may be subject to risk from the potential inability of the counterparty to meet the terms of the agreement. The swaps involve elements of both market and credit risk in excess of the amounts reflected on the Statement of Assets and Liabilities, if any. Credit default swap transactions involve the Fund's agreement to exchange the credit risk of an issuer. A buyer of a credit default swap is said to buy protection by paying periodic fees in return for a contingent payment from the seller if the issuer has a credit event such as bankruptcy, a failure to pay outstanding obligations or deteriorating credit while the swap is outstanding. A seller of a credit default swap is said to sell protection and thus collects the periodic fees and profits if the credit of the issuer remains stable or improves while the swap is outstanding but the seller in a credit default swap contract would be required to pay an agreed upon amount, which approximates the notional amount of the swap, to the buyer in the event of an adverse credit event of the issuer.

As of October 31, 2017, there were no credit swap agreements outstanding.

(d) Summary of Derivatives Information

The Fund is required by GAAP to disclose: a) how and why a fund uses derivative instruments, b) how derivatives instruments are accounted for, and c) how derivative instruments affect a fund's financial position, results of operations and cash flows.

NOTES TO FINANCIAL STATEMENTS continued

October 31,
2017

The following table presents the types of derivatives in the Fund by location as presented on the Statement of Assets and Liabilities as of October 31, 2017.

Statement of Assets and Liabilities Presentation of Fair Values of Derivative Instruments:
(amounts in thousands)

| Derivatives not accounted for as hedging instruments | Asset Derivatives | | Liability Derivatives | |
|--|--|------------|--|------------|
| | Statement of Assets and Liabilities Location | Fair Value | Statement of Assets and Liabilities Location | Fair Value |
| Foreign exchange risk | Unrealized appreciation on forward foreign currency exchange contracts | \$1,196 | Unrealized depreciation on forward foreign currency exchange contracts | \$25 |

| Quarterly Average Outstanding Settlement Value Sold | \$57,492,494 |

Credit default swap agreements outstanding at prior year were closed within one week following prior year end. There were no additional swap agreements opened during the year ended October 31, 2017. The Fund's derivatives contracts held at October 31, 2017 are not accounted for as hedging instruments under GAAP.

Note 7 – Offsetting:

In the normal course of business, the Fund enters into transactions subject to enforceable master netting arrangements or other similar arrangements. Generally, the right to offset in those agreements allows the Fund to counteract the exposure to a specific counterparty with collateral received or delivered to that counterparty based on the terms of the arrangements. These arrangements provide for the right to liquidate upon the occurrence of an event of default, credit event upon merger or additional termination event.

Master Repurchase Agreements govern repurchase and reverse repurchase agreements between the Fund and the counterparties. Master Repurchase Agreements maintain provisions for, among other things, initiation, income payments, events of default and maintenance of collateral.

In order to better define their contractual rights and to secure rights that will help the Fund mitigate their counterparty risk, the Fund may enter into an International Swaps and Derivatives Association, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement with their derivative contract counterparties. An ISDA Master Agreement is a bilateral agreement between a Fund and a counterparty that governs OTC derivatives, including foreign exchange contracts, and typically contains, among other things, collateral posting terms and netting provisions in the event of a default and/or termination event. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of a default (close-out netting) or similar event, including the bankruptcy or insolvency of the counterparty.

For derivatives traded under an ISDA Master Agreement, the collateral requirements are typically calculated by netting the mark to market amount for each transaction under such agreement and comparing that amount to the value of any collateral currently pledged by the Fund and the counterparty. For financial reporting purposes, cash collateral that has been pledged to cover obligations of the Fund and cash collateral received from the counterparty, if any, is reported separately on the Statement of Assets and Liabilities as restricted cash and deposits due to counterparties, respectively. Generally, the amount of collateral due from or to a counterparty must exceed a minimum transfer amount threshold (e.g., \$300,000) before a transfer is required to be made. To the extent amounts due to the Fund from its counterparties are not fully collateralized, contractually or otherwise, the Fund bears the risk of loss from counterparty nonperformance. The Fund attempts to mitigate counterparty risk by only entering into agreements with counterparties

NOTES TO FINANCIAL STATEMENTS continued

October 31,
2017

that it believes to be of good standing and by monitoring the financial stability of those counterparties. For financial reporting purposes, the Fund does not offset derivative assets and derivative liabilities that are subject to netting arrangements on the Statement of Assets and Liabilities. The following tables present derivative financial instruments and secured financing transactions that are subject to enforceable netting arrangements and offset in the Statement of Assets and Liabilities in conformity with GAAP.

| Counterparty | Investment Type | Gross Amounts of Recognized Assets | Gross Amounts Offset in the Statement of Assets & Liabilities | Net Amounts of Assets Presented in the Statement of Assets & Liabilities | Derivatives Available for Offset | Financial Instruments | Collateral Received | Net Amount |
|-------------------------|---|------------------------------------|---|--|----------------------------------|-----------------------|---------------------|-------------|
| | | | | | | | | |
| Bank of New York Mellon | Forward Foreign Currency Exchange Contracts | \$1,196,295 | \$- | \$1,196,295 | \$(25,080) | \$- | \$- | \$1,171,215 |

| Counterparty | Investment Type | Gross Amounts of Recognized Liabilities | Gross Amounts Offset in the Statement of Assets & Liabilities | Net Amounts of Liabilities Presented in the Statement of Assets & Liabilities | Derivatives Available for Offset | Financial Instruments | Collateral Pledged | Net Amount |
|-------------------------|---|---|---|---|----------------------------------|-----------------------|--------------------|------------|
| | | | | | | | | |
| Societe Generale | Reverse Repurchase Agreement | \$45,000,000 | \$- | \$45,000,000 | \$- | \$(45,000,000) | \$- | \$- |
| Bank of New York Mellon | Forward Foreign Currency Exchange Contracts | 25,080 | - | 25,080 | (25,080) | - | - | - |

The table above does not include the additional collateral pledged to the counterparty for the reverse repurchase agreement. Total additional collateral pledged for the reverse repurchase agreement was \$28,728,425.

Note 8 – Capital:
Common Shares

The Fund has an unlimited number of common shares, \$0.001 par value, authorized and 27,367,344 issued and outstanding. In connection with the Fund's dividend reinvestment plan, the Fund did not issue shares during the year ended October 31, 2017 or the year ended October 31, 2016.

On July 22, 2016, the Fund's Board of Trustees approved a share repurchase program whereby the Fund agreed to purchase, in the open market, up to 7.5% of its outstanding common shares when its common shares traded on the New York Stock Exchange at a discount to net asset value of 13% or greater (the "Repurchase Program"). The Fund agreed to terminate the Repurchase Program on September 30, 2018 provided that following the commencement of the Repurchase Program, if the closing price on the NYSE of the Fund's common shares represented a discount to net asset value of less than 13% for five consecutive trading days, the Repurchase Program would automatically terminate. The Fund commenced the Repurchase Program on August 18, 2016 and the Repurchase Plan was subsequently terminated on August 26, 2016 which constituted the fifth consecutive day in which the common shares traded at a discount of less than 13% to its net asset value.

2017

Tender Offer

On August 9, 2017, the Fund announced the commencement of a tender offer to acquire in exchange for cash up to 4,829,532 (approximately 15%) of the Fund's outstanding common shares at a price equal to 98.0% of the Fund's NAV, as of the close of regular trading on the New York Stock Exchange on the business day immediately following the expiration of the tender offer. The tender offer expired on September 7, 2017.

A total of 14,817,666 shares were duly tendered and not withdrawn. Because the number of shares tendered exceeded 4,829,532 shares, the tender offer was oversubscribed. Therefore, in accordance with the terms and conditions specified in the tender offer, the Fund purchased shares from all tendering shareholders on a pro rata basis, disregarding fractions. Accordingly, on a pro rata basis, approximately 33% of shares for each shareholder who properly tendered shares were accepted for payment. The purchase price of properly tendered shares was \$6.4876 per share. Shares that were tendered but not accepted for purchase and shares that were not tendered remain outstanding. The Fund accepted 4,829,532 shares for payment. Final payment was made on September 13, 2017 in an aggregate amount equal to \$31,332,072.

Transactions in common shares were as follows:

| | Year Ended October 31, 2017 | Year Ended October 31, 2016 |
|---|--------------------------------|--------------------------------|
| Beginning shares | 32,196,876 | 32,240,720 |
| Common shares redeemed through tender offer | (4,829,532) | — |
| Common shares redeemed through repurchase program | — | (43,884) |
| Ending shares | 27,367,344 | 32,196,876 |

Preferred Shares

On June 12, 2007, the Fund's Trustees authorized the issuance of Preferred Shares, as part of the Fund's leverage strategy. Preferred Shares issued by the Fund have seniority over the common shares.

On September 14, 2007, the Fund issued 3,400 shares of Preferred Shares Series T7 and 3,400 shares of Preferred Shares Series W7, each with a liquidation value of \$25,000 per share plus accrued dividends.

On November 9, 2012, the Fund commenced a tender for up to 100% of its outstanding Auction Market Preferred Shares ("AMPS"). The Fund offered to purchase the AMPS at 99% of the liquidation preference of \$25,000 (or \$24,750 per share) plus any unpaid dividends accrued through the expiration of the offer.

On December 13, 2012, the Fund announced the expiration and results of the tender offer. The Fund accepted for payment 6,776 AMPS that were properly tendered and not withdrawn, which represented approximately 99.6% of its outstanding AMPS.

| Series | CUSIP | Number of AMPS Tendered | Number of Outstanding AMPS After Tender Offer |
|-----------|------------|-------------------------------|---|
| Series T7 | 007639-206 | 3,390 | 10 |
| Series W7 | 007639-305 | 3,386 | 14 |

NOTES TO FINANCIAL STATEMENTS continued

October 31,
2017

On May 10, 2013, the Fund announced an at-par redemption of all of its remaining outstanding AMPS, liquidation preference \$25,000 per share. The Fund redeemed its remaining \$600,000 of outstanding AMPS. The redemption price was equal to the liquidation preference of \$25,000 per share, plus accumulated but unpaid dividends as of the applicable redemption date as noted in the table below:

| Series | CUSIP | Number of AMPS Redeemed | Amount Redeemed | Redemption Date |
|-----------|------------|-------------------------------|--------------------|--------------------|
| Series T7 | 007639-206 | 10 | \$250,000 | June 19, 2013 |
| Series W7 | 007639-305 | 14 | 350,000 | June 20, 2013 |

Note 9 – Borrowings:

On November 9, 2012, the Fund entered into a five year margin loan agreement with an approved counterparty whereby the counterparty has agreed to provide secured financing to the Fund and the Fund will provide pledged collateral to the lender. The interest rate on the amount borrowed is 1.74%. An unused commitment fee of 0.25% is charged on the difference between the \$100,000,000 margin loan agreement and the amount borrowed. If applicable, the unused commitment fee is included in Interest Expense on the Statement of Operations. On December 20, 2012, the Fund borrowed \$100,000,000 under the margin loan agreement. As of October 31, 2017, there was \$80,000,000 outstanding in connection with the Fund's margin loan agreement. The average daily amount of borrowings on the margin loan during the year ended October 31, 2017 was \$80,000,000 with a related average interest rate of 1.74%. On December 20, 2012, the Fund entered into a three year fixed rate reverse repurchase agreement. Under a reverse repurchase agreement, the Fund temporarily transfers possession of a portfolio instrument to another party, such as a bank or broker-dealer, in return for cash. At the same time, the Fund agrees to repurchase the instrument at an agreed upon time and price, which reflects an interest payment. Such agreements have the economic effect of borrowings. The Fund may enter into such agreements when it is able to invest the cash acquired at a rate higher than the cost of the agreement, which would increase earned income. When the Fund enters into a reverse repurchase agreement, any fluctuations in the market value of the instruments transferred to another party or the instruments in which the proceeds may be invested would affect the market value of the Fund's assets. As a result, such transactions may increase fluctuations in the market value of the Fund's assets. On December 20, 2012, the Fund entered into a \$70,000,000 reverse repurchase agreement with Bank of America Merrill Lynch which expired on December 20, 2015. The interest rate on the reverse repurchase agreement was 1.63%. On December 9, 2015, the Fund terminated its \$70,000,000 reverse repurchase agreement with Bank of America Merrill Lynch. Concurrent with this termination on December 9th, the Fund entered into a \$70,000,000 reverse repurchase agreement with Société Générale with an initial scheduled expiration date of December 9, 2017. The interest rate on the reverse repurchase agreement is 2.34%. As of October 31, 2017, the reverse repurchase agreement was \$45,000,000. The average daily amount of the reverse repurchase agreement during the year ended October 31, 2017 was \$65,342,466 with a related average interest rate of 2.34%.

The average borrowings of the margin loan and reverse repurchase agreement, for the year ended October 31, 2017 was \$145,342,466 at an average interest rate of 2.01%.

NOTES TO FINANCIAL STATEMENTS continued

October 31,
2017

The following is a summary of the remaining contractual maturities of the reverse repurchase agreements outstanding as of October 31, 2017, aggregated by asset class of the related collateral pledged by the Fund:

| | Overnight and Continuous | Up to 30 days | 31 -90 days | Greater than 90 days | Total |
|---|-----------------------------|------------------|----------------|-------------------------|---------------|
| Common Stocks | \$ – | \$ – | \$ 6,157,279 | \$ – | \$ 6,157,279 |
| Convertible Preferred Stocks | – | – | 2,317,883 | – | 2,317,883 |
| Convertible Bonds | – | – | 17,270,561 | – | 17,270,561 |
| Corporate Bonds | – | – | 19,254,277 | – | 19,254,277 |
| Total Borrowings | \$ – | \$ – | \$ 45,000,000 | \$ – | \$ 45,000,000 |
| Gross amount of recognized liabilities for reverse repurchase agreements | \$ – | \$ – | \$ 45,000,000 | \$ – | \$ 45,000,000 |

As of October 31, 2017, the Fund had collateral of \$191,965,855 in connection with borrowings and reverse repurchase agreements.

The Fund's use of leverage creates special risks that may adversely affect the total return of the Fund. The risks include but are not limited to: greater volatility of the Fund's net asset value and market price; fluctuations in the interest rates on the leverage; and the possibility that increased costs associated with the leverage, which would be borne entirely by the holder's of the Fund, may reduce the Fund's total return. The Fund will pay interest expense on the leverage, thus reducing the Fund's total return. This expense may be greater than the Fund's return on the underlying investment.

The agreements governing the margin loan and reverse repurchase agreement include usual and customary covenants. These covenants impose on the Fund asset coverage requirements, collateral requirements, investment strategy requirements, and certain financial obligations. These covenants place limits or restrictions on the Fund's ability to (i) enter into additional indebtedness with a party other than the lender, (ii) change its fundamental investment policy, or (iii) pledge to any other party, other than to the lender, securities owned or held by the Fund over which the lender has a lien. In addition, the Fund is required to deliver financial information to the lender within established deadlines, maintain an asset coverage ratio (as defined in Section 18(g) of the 1940 Act) greater than 300%, comply with the rules of the stock exchange on which its shares are listed, and maintain its classification as a "closed-end fund company" as defined in the 1940 Act. If the counterparty defaults or enters insolvency proceeding, realization or return of the collateral to the Fund may be delayed or limited.

Note 10 – Subsequent Events:

On December 15, 2017, the Fund terminated its existing margin loan agreement and repaid the \$80,000,000 loan amount outstanding thereunder. Concurrent with this termination and repayment on December 15, 2017, the Fund entered into a new senior secured credit agreement and an amended and restated reverse repurchase agreement with Société Générale. Under the terms of the new credit agreement, the Fund's credit facility is as follows: 175-day evergreen maturity floating rate: \$10,000,000; 3-year maturity fixed rate: \$35,000,000; and 5-year maturity fixed rate: \$35,000,000. The interest rates on the credit facility are as follows: 175-day evergreen floating: 3-month LIBOR + 0.85%; 3-year fixed: 3.43%; and 5-year fixed: 3.83%. The Fund pays a commitment fee on the undrawn portion of the 175-day evergreen facility in the amount of 0.25% per annum. Under the terms of the new reverse repurchase agreement, the Fund's repurchase facility is as follows: 175-day evergreen floating: \$11,000,000; 3-year fixed: \$17,000,000; and 5-year fixed: \$17,000,000. The interest rate on each tranche of the reverse repurchase agreement is the same as the rate on the credit-facility tranche of the same tenor and rate type. The Fund borrowed \$80,000,000 under the new credit facility on December 15, 2017.

On November 1, 2017, the Fund declared a monthly distribution to common shareholders of \$0.0470 per common share. The distribution is payable on November 30, 2017 to shareholders of record on November 15, 2017.

On December 1, 2017, the Fund declared a monthly distribution to common shareholders of \$0.0470 per common share. The distribution is payable on December 29, 2017 to shareholders of record on December 15, 2017.

The Fund has performed an evaluation of subsequent events through the date of issuance of this report and has determined that there are no material events that would require disclosure other than the events disclosed above.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

October 31,
2017

To the Board of Trustees and Shareholders of
Advent Claymore Convertible Securities and Income Fund II

In our opinion, the accompanying statement of assets and liabilities, including the portfolio of investments, and the related statements of operations, of changes in net assets, and of cash flows and the financial highlights present fairly, in all material respects, the financial position of Advent Claymore Convertible Securities and Income Fund II (the "Fund") as of October 31, 2017, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities as of October 31, 2017 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

OTHER INFORMATION (Unaudited) October 31, 2017

Federal Income Tax Information

Qualified dividend income of as much as \$3,006,485 was received by the Fund through October 31, 2017. The Fund intends to designate the maximum amount of dividends that qualify for the reduced tax rate pursuant to the Jobs and Growth Tax Relief Reconciliation Act of 2003.

For corporate shareholders \$2,436,945 of investment income (dividend income plus short-term gains, if any), qualified for the dividends -received deduction.

Additionally, of the taxable ordinary income distributions paid during the fiscal year ending October 31, 2017, the Fund had the corresponding percentage qualify as interest related dividends as permitted by IRC Section 871(k)(1) and IRC Section 871(k)(2) .

% of Qualifying Interest

54.19%

In January 2018, you will be advised on IRS Form 1099 DIV or substitute 1099 DIV as to the federal tax status of the distributions received by you in the calendar year 2017.

Results of Shareholder Votes

The Annual Meeting of Shareholders of the Fund was held on September 27, 2017. Shareholders voted on the election of Trustees.

With regards to the election of the following Class II Trustees by shareholders of the Fund:

| | # of Shares in Favor | # of Shares Against | # of Shares Abstain |
|------------------|----------------------|---------------------|---------------------|
| Daniel L. Black | 23,125,115 | 399,634 | 359,675 |
| Michael A. Smart | 23,169,749 | 393,170 | 321,505 |

The other Trustees of the Fund whose terms did not expire in 2017 are Randall C. Barnes, Tracy V. Maitland, Ronald A. Nyberg, and Gerald L. Seizert.

Sector Classification

Information in the "Portfolio of Investments" is categorized by sectors using sector-level Classifications defined by the Bloomberg Industry Classification System, a widely recognized industry classification system provider. Each Fund's registration statement has investment policies relating to concentration in specific sectors/industries. For purposes of these investment policies, the Funds usually classify sectors/industries based on industry-level Classifications used by widely recognized industry classification system providers such as Bloomberg Industry Classification System, Global Industry Classification Standards and Barclays Global Classification Scheme.

* Address for all Officers: 888 Seventh Avenue, 31st Floor, New York, NY 10019.

** Officers serve at the pleasure of the Board of Trustees and until his or her successor is appointed and qualified or until his or her earlier resignation or removal.

DIVIDEND REINVESTMENT PLAN (Unaudited) October 31, 2017

Unless the registered owner of common shares elects to receive cash by contacting Computershare Trust Company, N.A., (the "Plan Administrator"), all dividends declared on common shares of the Fund will be automatically reinvested by the Plan Administrator, for shareholders in the Fund's Dividend Reinvestment Plan (the "Plan"), in additional common shares of the Fund. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional common shares of the Fund for you. If you wish for all dividends declared on your common shares of the Fund to be automatically reinvested pursuant to the Plan, please contact your broker. The Plan Administrator will open an account for each common shareholder under the Plan in the same name in which such common shareholder's common shares are registered. Whenever the Fund declares a dividend or other distribution (together, a "Dividend") payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in common shares. The common shares will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund ("Newly Issued Common Shares") or (ii) by purchase of outstanding common shares on the open market ("Open-Market Purchases") on the New York Stock Exchange or elsewhere. If, on the payment date for any Dividend, the closing market price plus estimated brokerage commission per common share is equal to or greater than the net asset value per common share, the Plan Administrator will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the net asset value per common share on the payment date; provided that, if the net asset value is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per common share on the payment date. If, on the payment date for any Dividend, the net asset value per common share is greater than the closing market value plus estimated brokerage commission, the Plan Administrator will invest the Dividend amount in common shares acquired on behalf of the participants in Open-Market Purchases. If, before the Plan Administrator has completed its Open-Market Purchases, the market price per common share exceeds the net asset value per common share, the average per common share purchase price paid by the Plan Administrator may exceed the net asset value of the common shares, resulting in the acquisition of fewer common shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Shares at net asset value per common share at the close of business on the Last Purchase Date provided that, if the net asset value is less than or equal to 95% of the then current market price per common share; the dollar amount of the Dividend will be divided by 95% of the market price on the payment date.

DIVIDEND REINVESTMENT PLAN (Unaudited) continued October 31, 2017

The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instruction of the participants.

There will be no brokerage charges with respect to common shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commission incurred in connection with Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any Federal, state or local income tax that may be payable (or required to be withheld) on such Dividends.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, Computershare Trust Company, N.A., P.O. Box 30170, College Station, TX 77842-3170; Attention: Shareholder Services Department, Phone Number: (866)488-3559 or online at www.computershare.com/investor.

CONSIDERATIONS REGARDING ANNUAL REVIEW
OF THE INVESTMENT MANAGEMENT AGREEMENT (Unaudited) October 31, 2017

In discussing the factors and other considerations summarized below, the Board noted that it generally receives, reviews and evaluates information concerning the performance of AGC and the services and personnel of Advent and GFIA and their affiliates at quarterly meetings of the Board. Although the meetings of the Advent closed-end funds occur at the same time, the Board considers AGC separately. While emphasis might be placed on information concerning the investment performance of AGC, AGC's fees and expenses in comparison with other funds' fees and expenses and other matters at the meeting at which the renewal of the Investment Management Agreement and the Investment Advisory Agreement is considered, the process of evaluating AGC's investment advisory and management arrangements is an ongoing one. The Board did not identify any one particular factor that was controlling or of paramount importance in its deliberations and each individual Trustee may have weighed the information provided differently. The information below represents a summary of certain aspects of the more detailed discussions held by the Board and does not necessarily include all information considered by the Trustees.

Nature, Extent and Quality of Services

The Independent Trustees received and considered various data and information regarding the nature, extent and quality of services provided to AGC by Advent under the Investment Management Agreement, and to AGC by GFIA under the Investment Advisory Agreement. The Independent Trustees reviewed and considered the information provided by Advent and GFIA in response to a detailed series of requests submitted on behalf of the Independent Trustees by their independent legal counsel. The Independent Trustees were provided with, among other things, information about the background, experience and expertise of the management and other personnel of Advent and GFIA and the services provided by those organizations to AGC. The Independent Trustees discussed the quality of the services provided. The compliance history of Advent and GFIA was discussed, along with the ability of Advent and GFIA to provide services to AGC.

The Independent Trustees evaluated the capabilities of Advent and GFIA, including information regarding their resources and their ability to attract and retain highly qualified investment professionals. The Independent Trustees also considered the commitment of Advent and GFIA to AGC. The Independent Trustees discussed the portfolio managers at Advent responsible for portfolio management for AGC, including the involvement of Mr. Maitland, and other personnel at both Advent and GFIA.

The Board noted the services provided by GFIA, as distinct from those provided by Advent. They noted GFIA's oversight and supervision of the services of Advent as investment manager including the general monitoring of the performance of Advent. The Board was also aware that GFIA assists in the implementation and oversight of AGC's compliance program, which is administered by AGC's chief compliance officer.

Based on the above factors, together with those referenced below, the Independent Trustees concluded that they were satisfied with the nature, extent and quality of the investment management services provided to AGC by Advent and the investment advisory services provided to AGC by GFIA.

Fund Performance and Expenses

The Independent Trustees considered the performance results for AGC on a market price and net asset value basis over various time periods. They also considered the result of AGC in comparison to

CONSIDERATIONS REGARDING ANNUAL REVIEW
OF THE INVESTMENT MANAGEMENT AGREEMENT (Unaudited)(continued) October 31, 2017

the performance results of other closed-end funds that were determined to be similar to AGC in terms of investment strategy ("Peer Group"). They recognized that the number of other funds in its Peer Group was small and that, for a variety of reasons, Peer Group comparisons may have limited usefulness. The Board also was aware that the performance benchmark indexes may not be useful comparisons due to the fact that the securities in the benchmarks may include convertibles, high yield or other securities with characteristics unlike those purchased by AGC. AGC underperformed most of its Peer Group for the one-year period ended October 31, 2016 and also underperformed its benchmark indexes. For the six month period ending April 30, 2017, AGC had mixed results, underperforming or outperforming against different peers and benchmarks.

The Board noted that it had discussed with management the past performance of AGC at previous meetings and the steps management would take to improve performance. The Independent Trustees considered the steps management had historically taken, and the activities it presently undertakes, to seek to improve performance, and will continue to monitor performance on an on-going basis. The Board discussed the repositioning of the portfolios and the adoption of a sleeve investment approach. The Board considered the general improvement of the performance of AGC in the time period after the completion of the transition to the three-sleeve model. The Independent Trustees noted management's representation that transition to the three-sleeve model was benefiting AGC. The Independent Trustees also discussed with management the reasons for the recent underperformance of AGC and the expectations for performance going forward.

The Board also reviewed information about the discount at which AGC's shares have traded as compared with its Peer Group.

The Independent Trustees received and considered information regarding AGC's total expense ratio relative to its Peer Group, noting that AGC generally had a higher expense ratio (based on common assets) than its Peer Group. The Independent Trustees acknowledged that the expense ratio of AGC was often higher than expense ratios of certain of its Peer Group funds because of AGC's use of leverage and longer-term borrowings, and because certain funds in its Peer Group had no leverage or lower leverage and therefore reported lower expense ratios and because of the small size of AGC and the overall complex in relation to its Peer Group. The potential benefits of the use of leverage were considered. The Independent Trustees also noted that expense ratio comparisons with its Peer Group was difficult because the items included in other funds' expenses may differ from those of AGC.

Based on the above considerations, discussions and other factors, the Independent Trustees concluded that the overall performance results and expense comparison supported the re-approval of the Investment Management Agreement of AGC and the Investment Advisory Agreement of AGC.

Investment Management and Advisory Fee Rates

The Independent Trustees reviewed and considered the contractual investment management fee rate for AGC and the investment advisory fee rate for AGC (collectively, the "Management Agreement Rates") payable by AGC to Advent and by AGC to GFIA for investment management and advisory services, respectively. Additionally, the Independent Trustees received and considered information comparing the Management Agreement Rates with those of the funds in its Peer Group. The Independent Trustees also received and considered information about the nature, extent and quality of services and fee rates offered by Advent and GFIA to their other clients. In particular, Advent

CONSIDERATIONS REGARDING ANNUAL REVIEW
OF THE INVESTMENT MANAGEMENT AGREEMENT (Unaudited)(continued) October 31, 2017

confirmed that AGC differs from certain other accounts advised by Advent in that it is more complex to manage, requires greater resources from Advent and differs in terms of investment strategy and use of leverage. The Independent Trustees also noted the differing services provided to AGC in relation to those typically provided to private funds and separate accounts. In addition, GFIA noted that it may charge different fees to other clients, which are a result of different types and levels of services provided.

Based on the totality of the information they reviewed, the Independent Trustees concluded that the fees were fair and reasonable.

Profitability

The Independent Trustees received and considered an estimated profitability analysis of Advent and GFIA based on the Management Agreement Rates. The Independent Trustees also discussed with management the methodology used to determine profitability. In addition, the Independent Trustees considered whether any direct or indirect collateral benefits inured to Advent or GFIA as a result of its affiliation with AGC. The Independent Trustees concluded that, in light of the costs of providing investment advisory services to AGC and investment management and other services to AGC, the profits and other ancillary benefits that Advent and Guggenheim received with regard to providing these services to AGC were not unreasonable.

Economies of Scale

The Independent Trustees received and considered information regarding whether there had been economies of scale with respect to the management of AGC, whether AGC have appropriately benefited from any economies of scale, and whether there is potential for realization of any further economies of scale. It was noted that, because AGC is a closed-end fund, any increase in asset levels generally would have to come from material appreciation through investment performance and the Independent Trustees concluded that the opportunity to benefit from economies of scale was diminished in the context of closed-end funds.

Conclusion

After consideration of the factors discussed above and other information considered by the Independent Trustees, the Board, including the Independent Directors, unanimously voted to approve the Investment Management Agreement and the Investment Advisory Agreement for an additional one-year term.

FUND INFORMATION continued October 31, 2017

Portfolio Managers of the Fund

The portfolio managers of Advent Claymore Convertible Securities and Income Fund II (the "Fund") are Tracy Maitland, Chief Investment Officer of Advent Capital Management, LLC ("Advent" or the "Investment Manager") and Paul Latronica, Managing Director of Advent. They are primarily responsible for the day-to-day management of the Fund's portfolio. Mr. Maitland and Mr. Latronica are supported by teams of investment professionals who make investment decisions for the Fund's core portfolio of convertible bonds, the Fund's high yield securities investments and the Fund's leverage allocation, respectively.

Privacy Principles of the Fund

The Fund is committed to maintaining the privacy of its shareholders and to safeguarding their non-public personal information. The following information is provided to help you understand what personal information the Fund collects, how the Fund protects that information and why, in certain cases, the Fund may share information with select other parties.

Generally, the Fund does not receive any non-public personal information relating to its shareholders, although certain non-public personal information of its shareholders may become available to the Fund. The Fund does not disclose any non-public personal information about its shareholders or former shareholders to anyone, except as permitted by law or as is necessary in order to service shareholder accounts (for example, to a transfer agent or third party administrator).

The Fund restricts access to non-public personal information about its shareholders to employees of the Fund's Investment Adviser and its affiliates with a legitimate business need for the information. The Fund maintains physical, electronic and procedural safeguards designed to protect the non-public personal information of its shareholders.

· Computershare Trust Company, N.A., P.O. Box 30170, College Station, TX 77842-3170; (866)488-3359 or online at www.computershare.com/investor.

This report is sent to shareholders of Advent Claymore Convertible Securities and Income Fund II for their information. It is not a Prospectus, circular or representation intended for use in the purchase or sale of shares of the Fund or of any securities mentioned in this report.

A description of the Fund's proxy voting policies and procedures related to portfolio securities is available without charge, upon request, by calling the Fund at (866) 274-2227. Information regarding how the Fund voted proxies for portfolio securities, if applicable, during the most recent 12-month period ended June 30, is also available, without charge and upon request by calling the Fund at (866) 274-2227, by visiting Guggenheim Fund's website at guggenheiminvestments.com or by accessing the Funds Form N-PX on the U.S. Securities & Exchange Commission's ("SEC") website at www.sec.gov.

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q is available on the SEC website at www.sec.gov or by visiting Guggenheim Funds website at guggenheiminvestments.com. The Funds Form N-Q may also be viewed and copied at the SEC's Public Reference Room in Washington, DC; information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330 or at www.sec.gov.

Notice to Shareholders

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940, as amended, that the Fund from time to time may purchase shares of its common stock in the open market or in private transactions.

ABOUT THE FUND MANAGER

Advent Capital Management, LLC

Advent Capital Management, LLC ("Advent") is a registered investment adviser, based in New York, which specializes in convertible and high-yield securities for institutional and individual investors. The firm was established by Tracy V. Maitland, a former Director in the Convertible Securities sales and trading division of Merrill Lynch. Advent's investment discipline emphasizes capital structure research, encompassing equity fundamentals as well as credit research, with a focus on cash flow and asset values while seeking to maximize total return.

Investment Philosophy

Advent believes that superior returns can be achieved while reducing risk by investing in a diversified portfolio of global equity, convertible and high-yield securities. Advent seeks securities with attractive risk/reward characteristics. Advent employs a bottom-up security selection process across all of the strategies it manages. Securities are chosen from those that Advent believes have stable-to-improving fundamentals and attractive valuations.

Investment Process

Advent manages securities by using a strict four-step process:

- 1 Screen the convertible and high-yield markets for securities with attractive risk/reward characteristics and favorable cash flows;
- 2 Analyze the quality of issues to help manage downside risk;
- 3 Analyze fundamentals to identify catalysts for favorable performance; and
- 4 Continually monitor the portfolio for improving or deteriorating trends in the financials of each investment.

Item 2. Code of Ethics.

- a) The registrant has adopted a code of ethics that applies to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions (the "Code of Ethics").
- (b) No information need be disclosed pursuant to this paragraph.
- (c) The registrant has not amended its Code of Ethics during the period covered by the report presented in Item 1 hereto.
- (d) The registrant has not granted a waiver or an implicit waiver to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions from a provision of its Code of Ethics during the period covered by this report.
- (e) Not applicable.
- (f)
 - (1) The registrant's Code of Ethics is attached hereto as Exhibit (a)(1).
 - (2) Not applicable.
 - (3) Not applicable.

Item 3. Audit Committee Financial Expert.

The registrant's Board of Trustees has determined that it has six audit committee financial experts serving on its audit committee (the "Audit Committee"), each of whom is an "independent" Trustee, as defined in Item 3 of Form N-CSR: Randall C. Barnes, Daniel L. Black, Derek M. Medina, Ronald A. Nyberg, Gerald L. Seizert and Michael A. Smart. Mr. Barnes qualifies as an audit committee financial expert by virtue of his experience obtained as a former Senior Vice President, Treasurer of PepsiCo, Inc.

Mr. Black qualifies as an audit committee financial expert by virtue of his experience obtained as a partner of a private equity firm, which includes review and analysis of audited and unaudited financial statements using generally accepted accounting principles ("GAAP") to show accounting estimates, accruals and reserves.

Mr. Medina qualifies as an audit committee financial expert by virtue of his experience obtained as a Senior Vice President, Business Affairs of ABC News and as a former associate in Corporate Finance at J.P. Morgan/Morgan Guaranty, which includes review and analysis of audited and unaudited financial statements using GAAP to show accounting estimates, accruals and reserves.

Mr. Nyberg qualifies as an audit committee financial expert by virtue of his experience obtained as a former Executive Vice President, General Counsel and Secretary of Van Kampen Investments, which included review and analysis of offering documents and audited and unaudited financial statements using GAAP to show accounting estimates, accruals and reserves.

Mr. Seizert qualifies as an audit committee financial expert by virtue of his experience obtained as the chief executive officer and portfolio manager of an asset management company, which includes review and analysis of audited and unaudited financial statements using GAAP to show accounting estimates, accruals and reserves.

Mr. Smart qualifies as an audit committee financial expert by virtue of his experience obtained as a managing partner of a private equity firm and a former Vice President at Merrill Lynch & Co, which includes review and analysis of audited and unaudited financial statements using GAAP to show accounting estimates, accruals and reserves.

(Under applicable securities laws, a person who is determined to be an audit committee financial expert will not be deemed an "expert" for any purpose, including without limitation for the purposes of Section 11 of the Securities Act of 1933, as amended, as a result of being designated or identified as an audit committee financial expert. The designation or identification of a person as an audit committee financial expert does not impose on such person any duties, obligations, or liabilities that are greater than the duties, obligations, and liabilities imposed on such person as a member of the Audit Committee and Board of Trustees in the absence of such designation or identification. The designation or identification of a person as an audit committee financial expert pursuant to this Item does not affect the duties, obligations, or liability of any other member of the Audit Committee or Board of Trustees.)

Item 4. Principal Accountant Fees and Services.

(a) Audit Fees: the aggregate fees billed for professional services rendered by the principal accountant for the audit of the registrant's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements were \$103,700 and \$100,700 for the fiscal years ended October 31, 2017, and October 31, 2016, respectively.

(b) Audit-Related Fees: the aggregate fees billed for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the registrant's financial statements, and are not reported under paragraph 4(a) of this Item, were \$0 and \$0 for the fiscal years ended October 31, 2017, and October 31, 2016, respectively. These services were performed for agreed upon procedures associated with the registrant's Auction Market Preferred Shares.

The registrant's principal accountant did not bill fees for tax services not included in Items 4(a), (b) or (c) above that required approval by the Audit Committee pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the registrant's last two fiscal years.

(c) Tax Fees: the aggregate fees billed for professional services rendered by the principal accountant for tax compliance, tax advice and tax planning, including federal, state and local income tax return preparation and related advice and determination of taxable income and miscellaneous tax advice were \$19,000 and \$18,500 for the fiscal years ended October 31, 2017, and October 31, 2016, respectively.

The registrant's principal accountant did not bill fees for non-audit services that required approval by the Audit Committee pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the registrant's last two fiscal years.

(d) All Other Fees: the aggregate fees billed for products and services provided by the principal accountant, other than the services reported in paragraphs 4(a), 4(b) or 4(c) of this Item were \$0 and \$0 for the fiscal years ended October 31, 2017, and October 31, 2016, respectively.

The registrant's principal accountant did not bill fees for non-audit services that required approval by the Audit Committee pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the registrant's last two fiscal years.

(e) Audit Committee Pre-Approval Policies and Procedures.

(1) In accordance with Rule 2-01(c)(7) of Regulation S-X, the Audit Committee pre-approves all of the Audit and Tax Fees of the registrant. All of the services described in paragraphs 4(b) through 4(d) above were approved by the Audit Committee in accordance with paragraph (c)(7) of Rule 2-01 of Regulation S-X.

The Audit Committee has adopted written policies relating to the pre-approval of the audit and non-audit services performed by the registrant's independent auditors. Unless a type of service to be provided by the independent auditors has received general pre-approval, it requires specific pre-approval by the Audit Committee. Under the policies, on an annual basis, the Audit Committee reviews and pre-approves the services to be provided by the independent auditors without having to obtain specific pre-approval from the Audit Committee. The Audit Committee has delegated pre-approval authority to the Audit Committee Chairperson. In addition, the Audit Committee pre-approves any permitted non-audit services to be provided by the independent auditors to the registrant's investment adviser or any entity controlling, controlled by, or under common control with the adviser if such services relate directly to the operations and financial reporting of the registrant.

AUDIT COMMITTEE PRE-APPROVAL POLICY OF

ADVENT CLAYMORE CONVERTIBLE SECURITIES AND INCOME FUND II

Statement of Principles

The Audit Committee (the "Audit Committee") of the Board of Trustees (the "Board") of Advent Claymore Convertible Securities and Income Fund (the "Trust,") is required to pre-approve all Covered Services (as defined in the Audit Committee Charter) in order to assure that the provision of the Covered Services does not impair the auditors' independence. Unless a type of service to be provided by the Independent Auditor (as defined in the Audit Committee Charter) is pre-approved in accordance with the terms of this Audit Committee Pre-Approval Policy (the "Policy"), it will require specific pre-approval by the Audit Committee or by any member of the Audit Committee to which pre-approval authority has been delegated.

This Policy and the appendices to this Policy describe the Audit, Audit-Related, Tax and All Other services that are Covered Services and that have been pre-approved under this Policy. The appendices hereto sometimes are referred to herein as the "Service Pre-Approval Documents". The term of any such pre-approval is 12 months from the date of pre-approval, unless the Audit Committee specifically provides for a different period. At its June meeting of each calendar year, the Audit Committee will review and re-approve this Policy and approve or re-approve the Service Pre-Approval Documents for that year, together with any changes deemed necessary or desirable by the Audit Committee. The Audit Committee may, from time to time, modify the nature of the services pre-approved, the aggregate level of fees pre-approved or both. The Audit Committee hereby directs that each version of this Policy and the Service Pre-Approval Documents approved, re-approved or amended from time to time be maintained with the books and records of the Trust.

Delegation

In the intervals between the scheduled meetings of the Audit Committee, the Audit Committee delegates pre-approval authority under this Policy to the Chairman of the Audit Committee (the "Chairman"). The Chairman shall report any pre-approval decisions under this Policy to the Audit Committee at its next scheduled meeting. At each scheduled meeting, the Audit Committee will review with the Independent Auditor the Covered Services pre-approved by the Chairman pursuant to delegated authority, if any, and the fees related thereto. Based on these reviews, the Audit Committee can modify, at its discretion, the pre-approval originally granted by the Chairman pursuant to delegated authority. This modification can be to the nature of services pre-approved, the aggregate level of fees approved, or both. The Audit Committee expects pre-approval of Covered Services by the Chairman pursuant to this delegated authority to be the exception rather than the rule and may modify or withdraw this delegated authority at any time the Audit Committee determines that it is appropriate to do so.

Pre-Approved Fee Levels

Fee levels for all Covered Services to be provided by the Independent Auditor and pre-approved under this Policy will be established annually by the Audit Committee and set forth in the Service Pre-Approval Documents. Any increase in pre-approved fee levels will require specific pre-approval by the Audit Committee (or the Chairman pursuant to delegated authority).

Audit Services

The terms and fees of the annual Audit services engagement for the Trust are subject to the specific pre-approval of the Audit Committee. The Audit Committee will approve, if necessary, any changes in terms, conditions or fees resulting from changes in audit scope, Trust structure or other matters.

In addition to the annual Audit services engagement specifically approved by the Audit Committee, any other Audit services for the Trust not listed in the Service Pre-Approval Document for the respective period must be specifically pre-approved by the Audit Committee (or the Chairman pursuant to delegated authority).

Audit-Related Services

Audit-Related services are assurance and related services that are not required for the audit, but are reasonably related to the performance of the audit or review of the financial statements of the Trust and, to the extent they are Covered Services, the other Covered Entities (as defined in the Audit Committee Charter) or that are traditionally performed by the Independent Auditor. Audit-Related services that are Covered Services and are not listed in the Service Pre-Approval Document for the respective period must be specifically pre-approved by the Audit Committee (or the Chairman pursuant to delegated authority).

Tax Services

The Audit Committee believes that the Independent Auditor can provide Tax services to the Covered Entities such as tax compliance, tax planning and tax advice without impairing the auditor's independence. However, the Audit Committee will not permit the retention of the Independent Auditor in connection with a transaction initially recommended by the Independent Auditor, the sole business purpose of which may be tax avoidance and the tax treatment of which may not be supported in the Internal Revenue Code and related regulations. Tax services that are Covered Services and are not listed in the Service Pre-Approval Document for the respective period must be specifically pre-approved by the Audit Committee (or the Chairman pursuant to delegated authority).

All Other Services

All Other services that are Covered Services and are not listed in the Service Pre-Approval Document for the respective period must be specifically pre-approved by the Audit Committee (or the Chairman pursuant to delegated authority).

Procedures

Requests or applications to provide Covered Services that require approval by the Audit Committee (or the Chairman pursuant to delegated authority) must be submitted to the Audit Committee or the Chairman, as the case may be, by both the Independent Auditor and the Chief Financial Officer of the respective Covered Entity, and must include a joint statement as to whether, in their view, (a) the request or application is consistent with the SEC's rules on auditor independence and (b) the requested service is or is not a non-audit service prohibited by the SEC. A request or application submitted to the Chairman between scheduled meetings of the Audit Committee should include a discussion as to why approval is being sought prior to the next regularly scheduled meeting of the Audit Committee.

(2) None of the services described in each of Items 4 (b) through (d) were approved by the Audit Committee pursuant to paragraph (c)(7)(C) of Rule 2-01 of Regulation S-X.

(f) Not applicable.

(g) The aggregate non-audit fees billed by the registrant's accountant for services rendered to the registrant, the registrant's investment adviser (not including a sub-adviser whose role is primarily portfolio management and is sub-contracted with or overseen by another investment adviser) and/or any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant that directly related to the operations and financial reporting of the registrant were \$19,000 and \$18,500 for the fiscal years ended October 31, 2017, and October 31, 2016, respectively.

(h) Not applicable.

Item 5. Audit Committee of Listed Registrants.

a) The Audit Committee was established as a separately designed standing audit committee in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934 as amended. The audit committee of the registrant is composed of: Randall C. Barnes, Daniel L. Black, Derek M. Medina, Ronald A. Nyberg, Gerald L. Seizert and Michael A. Smart.

b) Not applicable.

Item 6. Schedule of Investments.

The Schedule of Investments is included as part of Item 1.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

The registrant has delegated the voting of proxies relating to its voting securities to its investment manager, Advent Capital Management, LLC (the "Manager"). The Manager's Proxy Voting Policies and Procedures are included as Exhibit (c) attached hereto.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

a) (1) The portfolio managers of the Fund (the “Portfolio Managers”) are Tracy Maitland (Chief Investment Officer of Advent) and Paul Latronica (Managing Director of Advent). They are primarily responsible for the day-to-day management of the Fund’s portfolio. Mr. Maitland and Mr. Latronica are supported by teams of investment professionals who make investment decisions for the Fund’s core portfolio of convertible bonds, the Fund’s high yield securities investments and the Fund’s leverage allocation, respectively. The following provides information regarding the Portfolio Managers as of October 31, 2017:

| Name | Since | Professional Experience |
|----------------|---------------------|---|
| Tracy Maitland | 2003 (Inception) | Chief Executive Officer and Founder at Advent Capital Management, LLC. |
| Paul Latronica | 2011 | Portfolio Manager at Advent Capital Management, LLC. He has been associated with Advent Capital Management for more than fifteen years. |

(a) (2) (i-iii) Other accounts managed. The following summarizes information regarding each of the other accounts managed by them as of October 31, 2017:

Tracy Maitland

| Type of Account | Number of Accounts | Total Assets in the Accounts | Number of Accounts In Which the Advisory Fee is Based on Performance | Total Assets in the Accounts In Which the Advisory Fee is Based on Performance |
|----------------------------------|--------------------|------------------------------|--|--|
| Registered investment companies | 4 | \$1,101,701,395 | 0 | \$0 |
| Other pooled investment vehicles | 1 | \$165,312,250 | 1 | \$165,312,250 |
| Other accounts | 382 | \$5,001,967,092 | 39 | \$168,954,464 |

Edgar Filing: Advent Claymore Convertible Securities & Income Fund II - Form N-CSR

On August 9, 2017, the Fund announced the commencement of a tender offer. Final payment was made on September 13, 2017.

Item 10. Submission of Matters to a Vote of Security Holders.

The registrant has not made any material changes to the procedures by which shareholders may recommend nominees to the registrant's Board of Trustees.

Item 11. Controls and Procedures.

(a) The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act) as of a date within 90 days of this filing and have concluded based on such evaluation, as required by Rule 30a-3(b) under the Investment Company Act, that the registrant's disclosure controls and procedures were effective, as of that date, in ensuring that information required to be disclosed by the registrant in this Form N-CSR was recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

(b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act) that occurred during the registrant's second fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 12. Disclosure of Securities Lending Activities for Closed-End Management Investment Companies.

(a) The registrant has not participated in securities lending activities during the period covered by this report.

(b) Not applicable.

Item 13. Exhibits.

(a)(1) Code of Ethics for Chief Executive and Senior Financial Officers.

(a)(2) Certification of principal executive officer and principal financial officer pursuant to Rule 30a-2(a) of the Investment Company Act.

(a)(3) Not applicable.

(b) Certification of principal executive officer and principal financial officer pursuant to Rule 30a-2(b) of the Investment Company Act and Section 906 of the Sarbanes-Oxley Act of 2002.

(c) Proxy Voting Policies and Procedures.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
