Securities registered pursuant to Section 12(g) of the Act:

Units of General Partnership Interest (Brandywine Operating Partnership, L.P.)
(Title of class)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Brandywine Realty Trust Yes No

Brandywine Operating Partnership, L.P. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.

Brandywine Realty Trust Yes No

Brandywine Operating Partnership, L.P. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Brandywine Realty Trust Yes No

Brandywine Operating Partnership, L.P. Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act (Check one):

Brandywine Realty Trust:

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Brandywine Operating Partnership, L.P.:

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Brandywine Realty Trust Yes No

Brandywine Operating Partnership, L.P. Yes No

The aggregate market value of the Common Shares of Beneficial Interest held by non-affiliates of Brandywine Realty Trust as of the last day of the registrant's most recently completed second fiscal quarter was \$1.4 billion. The aggregate market value has been computed by reference to the closing price of the Common Shares of Beneficial Interest on the New York Stock Exchange on such date. An aggregate of 88,600,253 Common Shares of Beneficial Interest were outstanding as of February 23, 2009.

As of June 30, 2008, the aggregate market value of the 2,356,593 common units of limited partnership (Units) held by non-affiliates of Brandywine Operating Partnership, L.P. was \$37.1 million based upon the last reported sale price of \$15.76 per share on the New York Stock Exchange on June 30, 2008 of the Common Shares of Beneficial Interest of Brandywine Realty Trust, the sole general partner of Brandywine Operating Partnership, L.P. (For this computation, the Registrant has excluded the market value of all Units beneficially owned by Brandywine Realty Trust.)

Filing Format

This combined Form 10-K is being filed separately by Brandywine Realty Trust and Brandywine Operating Partnership, L.P.

Forward-Looking Statements

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements. This Annual Report on Form 10-K and other materials filed by us with the SEC (as well as information included in oral or other written statements made by us) contain statements that are forward-looking, including statements relating to business and real estate development activities, acquisitions, dispositions, future capital expenditures, financing sources, governmental regulation (including environmental regulation) and competition. We intend such forward-looking statements to be covered by the safe-harbor provisions of the 1995 Act. The words "anticipate," "believe," "estimate," "expect," "intend," "will," "should" and similar expressions, as they relate to us, are intended to identify forward-looking statements. Although we believe that the expectations reflected in such forward-looking statements are based on reasonable assumptions, we can give no assurance that our expectations will be achieved. As forward-looking statements, these statements involve important risks, uncertainties and other factors that could cause actual results to differ materially from the expected results and, accordingly, such results may differ from those expressed in any forward-looking statements made by us or on our behalf. Factors that could cause actual results to differ materially from our expectations include, but are not limited to:

changes in general economic conditions;

changes in local real estate conditions (including changes in rental rates and the number of properties that compete with our properties);

changes in the economic conditions affecting industries in which our principal tenants compete;

the unavailability of equity and debt financing, particularly in light of the current economic environment;

our failure to lease unoccupied space in accordance with our projections;

our failure to re-lease occupied space upon expiration of leases;

tenant defaults and the bankruptcy of major tenants;

changes in prevailing interest rates;

the impact of unrealized hedging transactions;

failure of acquisitions to perform as expected;

unanticipated costs associated with the acquisition, integration and operation of, our acquisitions;

unanticipated costs to complete, lease-up and operate our developments and redevelopments;

impairment charges;

increased costs for, or lack of availability of, adequate insurance, including for terrorist acts;

risks associated with actual or threatened terrorist attacks;

demand for tenant services beyond those traditionally provided by landlords;

potential liability under environmental or other laws;

-3-

failure or bankruptcy of real estate venture partners;

inability of real estate venture partners to fund venture obligations;

failure of dispositions to close in a timely manner;

failure of buyers to comport with terms of their financing agreements to us;

earthquakes and other natural disasters;

risks associated with federal, state and local tax audits;

complex regulations relating to our status as a REIT and the adverse consequences of our failure to qualify as a REIT; and

the impact of newly adopted accounting principles on our accounting policies and on period-to-period comparisons of financial results.

Given these uncertainties, and the other risks identified in the Risk Factors section and elsewhere in this Annual Report on Form 10-K, we caution readers not to place undue reliance on forward-looking statements. We assume no obligation to update or supplement forward-looking statements that become untrue because of subsequent events.

PART I

Item 1. Business

Introduction

The terms we, us, our or the Company refer to Brandywine Realty Trust, a Maryland real estate investment trust, individually or together with its consolidated subsidiaries, including Brandywine Operating Partnership, L.P. (the Operating Partnership), a Delaware limited partnership.

We are a self-administered and self-managed real estate investment trust, or REIT, that provides leasing, property management, development, redevelopment, acquisition and other tenant-related services for a portfolio of office and industrial properties. As of December 31, 2008, we owned 214 office properties, 22 industrial facilities and one mixed-use property (collectively, the Properties) containing an aggregate of approximately 23.6 million net rentable square feet. We also have two properties under development and six properties under redevelopment containing an aggregate of 2.3 million net rentable square feet. As of December 31, 2008, we consolidated three office properties owned by real estate ventures containing 0.4 million net rentable square feet. Therefore, as of December 31, 2008 we own and consolidated 248 properties with an aggregate of 26.3 million net rentable square feet. As of December 31, 2008, we owned economic interests in 13 unconsolidated real estate ventures that contain approximately 4.2 million net rentable square feet (collectively, the Real Estate Ventures). In addition, as of December 31, 2008, we owned approximately 495 acres of undeveloped land. The Properties and the properties owned by the Real Estate Ventures are located in or near Philadelphia, Pennsylvania, Metropolitan Washington, D.C., Southern and Central New Jersey, Richmond, Virginia, Wilmington, Delaware, Austin, Texas and Oakland, Carlsbad and Rancho Bernardo, California. In addition to managing properties that we own and consolidated, as of December 31, 2008, we were managing approximately 12.4 million square feet of office and industrial properties for third parties and Real Estate Ventures. Unless otherwise indicated, all references to square feet represent net rentable area.

Organization

Brandywine Realty Trust was organized and commenced its operations in 1986 as a Maryland REIT. Brandywine Realty Trust owns its assets and conducts its operations through the Operating Partnership and subsidiaries of the Operating Partnership. Brandywine Realty Trust controls the Operating Partnership as its sole general partner and as of December 31, 2008 owned a 96.9% interest in the Operating Partnership. The holders of the remaining interests in the Operating Partnership, consisting of Class A units of limited partnership interest, have the right to require redemption of their units at any time. At our option, we may satisfy the redemption either for an amount, per unit, of cash equal to the then market price of one Brandywine common share (based on the prior ten-day trading average) or for one Brandywine common share. Our structure as an UPREIT is designed, in part, to permit persons contributing properties to us to defer some or all of the tax liability they might otherwise incur in a sale of properties.

Our executive offices are located at 555 East Lancaster Avenue, Suite 100, Radnor, Pennsylvania 19087 and our telephone number is (610) 325-5600. We have regional offices in Philadelphia, Pennsylvania; Falls Church, Virginia; Mount Laurel, New Jersey; Richmond, Virginia; Austin, Texas; Oakland, California; and Carlsbad, California. We have an internet website at www.brandywinerealty.com. We are not incorporating by reference into this Annual Report on Form 10-K any material from our website. The reference to our website is an inactive textual reference to the uniform resource locator (URL) and is for your reference only.

2008 Transactions

Real Estate Acquisitions/Dispositions

In 2008, we sold nine properties, containing an aggregate of 2.4 million net rentable square feet and one land parcel containing 3.24 acres. Specifically:

On January 14, 2008, we sold 7130 Ambassador Drive, an office property located in Allentown, Pennsylvania containing 114,049 net rentable square feet, for a sales price of \$5.8 million.

On February 14, 2008, we sold a parcel of land located in Henrico, Virginia containing 3.24 acres, for a sales price of \$0.4 million.

On February 29, 2008, we sold 1400 Howard Boulevard, an office property located in Mount Laurel, New Jersey containing 75,590 net rentable square feet, for a sales price of \$22.0 million.

On April 25, 2008, we sold 100 Brandywine Boulevard, an office property located in Newtown, Pennsylvania containing 102,000 net rentable square feet, for a sales price of \$28.0 million.

On October 1, 2008, we sold Main Street Centre, a 426,103 net rentable square feet office property located in Richmond, Virginia, for a sales price of \$48.8 million.

On October 8, 2008, we sold five properties, totaling approximately 1,717,861 net rentable square feet, in Oakland, California for an aggregate sales price of \$412.5 million (including debt assumption). We incurred an impairment charge of \$6.85 million upon the classification of these five properties as held for sale in the quarter ended June 30, 2008.

On November 17, 2008, we closed a transaction with US Bancorp related to the historic rehabilitation of the 30th Street Post Office whereby US Bancorp agreed to contribute approximately \$67.9 million of project costs and advanced \$10.2 million at the closing. The remaining funds are expected to be advanced later this year and in 2010 subject to our achievement of certain construction milestones and compliance with federal rehabilitation regulations. In return for its investment, US Bancorp will, upon completion of the project in 2010, receive substantially all of the rehabilitation credits available under section 47 of the Internal Revenue Code.

On December 30, 2008, we closed a transaction with US Bancorp related to the development of the Cira South Garage whereby US Bancorp contributed approximately \$9.0 million (net) towards past and future project costs in return for which it will receive all of the new markets tax credits available under section 45D of the Internal Revenue Code. As a result of this transaction, we held \$31.4 million of cash in escrow at December 31, 2008. The escrowed cash will fund future development costs of the Cira South Garage during 2009.

Developments

In 2008, we placed in service four office properties that we developed or redeveloped and that contain an aggregate of 677,284 net rentable square feet. We place a property in service at the earlier of (i) the date the property reaches 95% occupancy and (ii) one year from the project completion date. At December 31, 2008, we had eight properties under development or redevelopment that contain an aggregate of 2.3 million net rentable square feet at an estimated total development cost of \$440.7 million. We expect to place these projects in service at dates between the fourth quarter of 2009 and the third quarter of 2010.

During the year-ended December 31, 2008 land review, we identified a number of our land parcels that were impaired. In those circumstances, we recorded a non-cash impairment charge to write them down to their fair value. In the aggregate, a charge of \$10.8 million was recorded in the fourth quarter of 2008. As of December 31, 2008, we owned approximately 495 acres of land.

Current Economic Climate

Deteriorating economic conditions have resulted in a reduction of the availability of financing and higher borrowing costs. These factors, coupled with a slowing economy, have reduced the volume of real estate transactions and created credit stresses on most businesses. We believe that vacancy rates may increase through 2009 and possibly beyond as the current economic climate negatively impacts tenants in our Properties.

We expect that the impact of the current state of the economy, including rising unemployment and the unprecedented volatility and illiquidity in the financial and credit markets, will continue to have a dampening effect on the fundamentals of our business, including increases in past due accounts, tenant defaults, lower occupancy and reduced effective rents. These conditions would negatively affect our future net income and cash flows and could have a material adverse effect on our financial condition. In addition to the financial constraints on our tenants, many of the debt capital markets that we and other real estate companies frequently access, such as the unsecured bond market and the convertible debt market, are not currently available on terms that management believes are

economically attractive or at all. Although we believe that the quality of our assets and our strong balance sheet will enable us to raise debt capital from other sources such as traditional term or secured loans from banks, pension funds and life insurance companies, these sources are lending fewer dollars, under stricter terms and at higher borrowing rates, and there can be no assurance that we will be able to borrow funds on terms that are economically attractive or at all.

Unsecured Debt Activity

During the year ended December 31, 2008, we repurchased \$78.3 million of our \$275.0 million 2009 Notes in a series of transactions which resulted in a \$4.1 million gain on the early extinguishment of debt.

During the year ended December 31, 2008, we repurchased \$24.5 million of our \$300.0 million 2010 Notes in a series of transactions which resulted in a \$3.6 million gain on the early extinguishment of debt.

During the year ended December 31, 2008, we repurchased \$63.0 million of our \$345.0 million 3.875% Guaranteed Exchangeable Notes in a series of transactions which resulted in a \$13.0 million gain on the early extinguishment of debt.

We funded these repurchases from a combination of proceeds from asset sales, cash flow from operations and borrowings under our unsecured revolving credit facility.

During the year ended December 31, 2008, we exercised the accordion feature on our \$150.0 million unsecured term loan that we entered into on October 15, 2007 and funded an additional \$33.0 million, bringing our total outstanding balance to \$183.0 million. All outstanding borrowings under the term loan bear interest at a periodic rate of LIBOR plus 80 basis points. We used the net proceeds of the term loan increase to reduce indebtedness under our unsecured revolving credit facility.

During the second quarter of 2008, the borrowing rate on our \$20.0 million Sweep Agreement, which we entered into in April 2007, increased from LIBOR plus 75 basis points to LIBOR plus 160 basis points in connection with its renewal at that time. The changed rate remains in effect through maturity in April 2009. We are currently pursuing an extension of this agreement but do not know if this will be achieved or if doing so will be comparable to those in place today. Borrowings on the Sweep Agreement are short term and used for cash management purposes.

On June 29, 2007, we amended our \$600.0 million unsecured revolving credit facility (the Credit Facility). The amendment extended the maturity date of the Credit Facility from December 22, 2009 to June 29, 2011 (subject to an extension of one year, at our option, upon our payment of an extension fee equal to 15 basis points of the committed amount under the Credit Facility). The amendment also reduced the per annum variable interest rate on outstanding balances from Eurodollar plus 0.80% to Eurodollar plus 0.725% per annum. In addition, the amendment reduced the quarterly facility fee from 20 basis points to 17.5 basis points per annum. The interest rate and facility fee are subject to adjustment upon a change in our unsecured debt ratings. The amendment also lowered to 7.50% from 8.50% the capitalization rate used in the calculation of several of the financial covenants; increased our swing loan availability from \$50.0 million to \$60.0 million; and increased the number of competitive bid loan requests available to us from two to four in any 30 day period. Borrowings are available to the extent of borrowing capacity at the stated rates; however, the competitive bid feature allows banks that are part of the lender consortium under the Credit Facility to bid to make loans to us at a reduced Eurodollar rate. We have the option to increase the Credit Facility to \$800.0 million subject to the absence of any defaults and our ability to acquire additional commitments from our existing lenders and new lenders.

The Credit Facility contains financial and non-financial covenants, including covenants that relate to our incurrence of additional debt; the granting of liens; consummation of mergers and consolidations; the disposition of assets and interests in subsidiaries; the making of loans and investments; and the payment of dividends. The restriction on dividends permits us to pay dividends to the greater of (i) an amount required for us to retain our qualification as a REIT and (ii) otherwise limits dividends to 95% of our funds from operations. The Credit Facility also contains financial covenants that require us to maintain an interest coverage ratio, a fixed charge coverage ratio, an

unsecured debt ratio and an unencumbered cash flow ratio above certain specified minimum levels; to maintain net worth above an amount determined on a specified formula; and to maintain a leverage ratio and a secured debt ratio below certain maximum levels. Another financial covenant limits the ratio of unsecured debt to unencumbered properties. We were in compliance with all financial covenants as of December 31, 2008. Management continuously monitors the Company's compliance with and anticipated compliance with the covenants. Certain of the covenants restrict management's ability to obtain alternative sources of capital. While management currently believes it will remain in compliance with its covenants, in the event of a continued slow-down and continued crisis in the credit markets, we may not be able to remain in compliance with such covenants and if the lender would not provide us with a waiver, could result in an event of default.

On April 30, 2007, we consummated the public offering of \$300.0 million aggregate principal amount of unsecured 5.70% Guaranteed Notes due 2017 and used the net proceeds from this offering to reduce borrowings under the Credit Facility.

Business Objective and Strategies for Growth

Our business objective is to deploy capital effectively to maximize our return on investment and thereby maximize our total return to shareholders. To accomplish this objective we seek to:

- maximize cash flow through leasing strategies designed to capture rental growth as rental rates increase and as below-market leases are renewed;

- attain a high tenant retention rate by providing a full array of property management and maintenance services and tenant service programs responsive to the varying needs of our diverse tenant base;

- form joint venture opportunities with high-quality partners having attractive real estate holdings or significant financial resources;

- utilize our reputation as a full-service real estate development and management organization to identify opportunities that will expand our business and create long-term value; and

- increase the economic diversification of our tenant base while maximizing economies of scale.

Based on the current economic environment we consider the following to be important objectives, however, such objectives may be considered more long term in nature than they have been previously:

- as warranted by market conditions, deploy our land inventory and seek new land parcels on which to develop high-quality office and industrial properties to service our tenant base;

- capitalize on our redevelopment expertise to selectively acquire, redevelop and reposition properties in desirable locations; and

- as warranted by market conditions, acquire high-quality office and industrial properties and portfolios of such properties at attractive yields in markets that we expect will experience economic growth.

We expect to concentrate our real estate activities in markets where we believe that:

- current and projected market rents and absorption statistics justify construction activity;

- we can maximize market penetration by accumulating a critical mass of properties and thereby enhance operating efficiencies;

barriers to entry (such as zoning restrictions, utility availability, infrastructure limitations, development moratoriums and limited developable land) will create supply constraints on office and industrial space; and

there is potential for economic growth, particularly job growth and industry diversification.

Operating Strategy

In this current economic environment, we expect to continue to operate in markets where we have a concentration advantage due to economies of scale. We believe that where possible, it is best to operate with a strong base of properties in order to benefit from the personnel allocation and the market strength associated with managing several properties in the same market. However, we intend to selectively dispose of properties and redeploy capital if we determine a property cannot meet long term earnings growth expectations. We believe that recycling capital is an important aspect of maintaining the overall quality of our portfolio. In particular, the lack of availability of financing in the current condition will result in our disposal of properties.

Our broader strategy remains focused on continuing to enhance liquidity and strengthen our balance sheet through capital retention, targeted sales activity and management of our existing and prospective liabilities. We intend to improve liquidity through a combination of secured mortgages and selective asset sales.

In the long term, we believe that we are well positioned in our current markets and have the expertise to take advantage of both development and acquisition opportunities, as warranted by market and economic conditions, in new markets that have healthy long-term fundamentals and strong growth projections. This capability, combined with what we believe is a conservative financial structure, should allow us to achieve disciplined growth. These abilities are integral to our strategy of having a geographically and physically diverse portfolio of assets, which will meet the needs of our tenants.

We use experienced on site construction superintendents, operating under the supervision of project managers and senior management, to control the construction process and mitigate the various risks associated with real estate development.

In order to fund developments, redevelopments and acquisitions, as well as refurbish and improve existing Properties, we must use excess cash from operations after satisfying our dividend and other requirements. The availability of funds for new investments and maintenance of existing Properties depends in large measure on capital markets and liquidity factors over which we can exert little control. Events over the past several months, including recent failures and near failures of a number of large financial service companies, have made the capital markets increasingly volatile. As a result, many property owners are finding financing to be increasingly expensive and difficult to obtain. In addition, downgrades of our public debt ratings by Standard & Poor's, Moody's Investor Service and Fitch could increase our cost of capital.

Policies With Respect To Certain Activities

The following is a discussion of our investment, financing and other policies. These policies have been determined by our Board of Trustees and our Board may revise these policies without a vote of shareholders.

Investments in Real Estate or Interests in Real Estate

We may develop, purchase or lease income-producing properties for long-term investment, expand and improve the properties presently owned or other properties purchased, or sell such properties, in whole or in part, as circumstances warrant. Although there is no limitation on the types of development activities that we may undertake, we expect that our development activities will meet current market demand and will generally be on a build-to-suit basis for particular tenants where a significant portion of the building is pre-leased before construction begins. It is unlikely we will start any new developments at this time or in the foreseeable future. We continue to participate with other entities in property ownership through existing joint ventures or other types of co-ownership. Our equity investments may be subject to existing or future mortgage financing and other indebtedness that will have priority over our equity investments. Due to current capital constraints, we do not anticipate making any new investments in the near term.

Securities of or Interests in Entities Primarily Engaged in Real Estate Activities and Other Issuers

Subject to the percentage of ownership limitations and gross income tests necessary for REIT qualification, we may invest in securities of other REITs, other entities engaged in real estate activities or securities of other issuers. We may enter into joint ventures or partnerships for the purpose of obtaining an equity interest in a particular property. We do not currently intend to invest in the securities of other issuers except in connection with joint ventures or acquisitions of indirect interests in properties.

Investments in Real Estate Mortgages

While our current portfolio consists of, and our business objectives emphasize, equity investments in commercial real estate, we may, at the discretion of management or our Board of Trustees, invest in other types of equity real estate investments, mortgages and other real estate interests. We do not presently intend to invest to a significant extent in mortgages or deeds of trust, but may invest in participating mortgages if we conclude that we may benefit from the cash flow or any appreciation in the value of the property securing a mortgage.

Dispositions

Our disposition of Properties is based upon management's periodic review of our portfolio and the determination by management or our Board of Trustees that a disposition would be in our best interests. We intend to use selective dispositions to fund our capital and refinancing needs.

Financing Policies

A primary objective of our financing policy has been to manage our financial position to allow us to raise capital from a variety of sources at competitive rates. Our mortgages, credit facilities and unsecured debt securities contain restrictions on our ability to incur indebtedness. Our charter documents do not limit the indebtedness that we may incur. Our financing strategy is to maintain a strong and flexible financial position by limiting our debt to a prudent level and minimizing our variable interest rate exposure. We intend to finance future growth and future maturing debt with the most advantageous source of capital then available to us. These sources may include selling common or preferred equity and debt securities sold through public offerings or private placements, utilizing availability under our unsecured revolving credit facility or incurring additional indebtedness through secured or unsecured borrowings. To qualify as a REIT, we must distribute to our shareholders each year at least ninety percent of our net taxable income, excluding any net capital gain. This distribution requirement limits our ability to fund future capital needs, including for acquisitions and developments, from income from operations. Therefore, we expect to continue to rely on third party sources of capital to fund future capital needs.

Working Capital Reserves

We maintain working capital reserves and access to borrowings in amounts that our management determines to be adequate to meet our normal contingencies.

Policies with Respect to Other Activities

We expect to issue additional common and preferred equity in the future and may authorize our Operating Partnership to issue additional common and preferred units of limited partnership interest, including to persons who contribute their interests in properties to us in exchange for such units. We have not engaged in trading, underwriting or agency distribution or sale of securities of unaffiliated issuers and we do not intend to do so. We intend to make investments consistent with our qualification as a REIT, unless because of circumstances or changes in the Internal Revenue Code of 1986, as amended (or the Treasury Regulations), our Board of Trustees determines that it is no longer in our best interests to qualify as a REIT. We may make loans to third parties, including to joint ventures in which we participate and to buyers of our real estate. We intend to make investments in such a way that we will not be treated as an investment company under the Investment Company Act of 1940.

Management Activities

We provide third-party real estate management services primarily through wholly-owned subsidiaries (collectively, the Management Companies). As of December 31, 2008, the Management Companies were managing properties

containing an aggregate of approximately 38.3 million net rentable square feet, of which approximately 25.9 million net rentable square feet related to Properties owned by us and approximately 12.4 million net rentable square feet related to properties owned by third parties and unconsolidated Real Estate Ventures.

Geographic Segments

As of December 31, 2008, we were managing our portfolio within six segments: (1) Pennsylvania, (2) Metropolitan Washington D.C, (3) New Jersey/Delaware, (4) Richmond, Virginia, (5) California and (6) Austin, TX. The Pennsylvania segment includes properties in Chester, Delaware, Bucks and Montgomery counties in the Philadelphia suburbs and the City of Philadelphia in Pennsylvania. The Metropolitan Washington, D.C. segment includes properties in Northern Virginia and suburban Maryland. The New Jersey/Delaware segment includes properties in counties in the southern and central part of New Jersey including Burlington, Camden and Mercer counties and in the state of Delaware. The Richmond, Virginia segment includes properties primarily in Albemarle, Chesterfield and Henrico counties, the City of Richmond and Durham, North Carolina. The California segment includes properties in Oakland, Concord, Carlsbad and Rancho Bernardo. The Austin, Texas segment includes properties in Coppell and Austin. Our corporate group is responsible for cash and investment management, development of real estate properties during the construction period and general support functions.

Competition

The real estate business is highly competitive. Our Properties compete for tenants with similar properties primarily on the basis of location, total occupancy costs (including base rent and operating expenses), services provided, and the design and condition of the improvements. We also face competition when attempting to acquire or develop real estate, including competition from domestic and foreign financial institutions, other REITs, life insurance companies, pension funds, partnerships and individual investors. Additionally, our ability to compete depends upon trends in the economies of our markets, investment alternatives, financial condition and operating results of current and prospective tenants, availability and cost of capital, construction and renovation costs, land availability, our ability to obtain necessary construction approvals, taxes, governmental regulations, legislation and population trends.

Insurance

We maintain commercial general liability and all risk property insurance on our properties. We intend to obtain similar coverage for properties we acquire in the future. There are types of losses, generally of a catastrophic nature, such as losses from war, terrorism, environmental issues, floods, hurricanes and earthquakes that are subject to limitations in certain areas or which may be uninsurable risks. We exercise our discretion in determining amounts, coverage limits and deductibility provisions of insurance, with a view to maintaining appropriate insurance on our investments at a reasonable cost and on suitable terms. If we suffer a substantial loss, our insurance coverage may not be sufficient to pay the full current market value or current replacement cost of our lost investment. Inflation, changes in building codes and ordinances, environmental considerations and other factors also might make it impractical to use insurance proceeds to fully replace or restore a property after it has been damaged or destroyed.

Employees

As of December 31, 2008, we had 482 full-time employees, including 41 union employees.

Government Regulations Relating to the Environment

Many laws and governmental regulations relating to the environment apply to us and changes in these laws and regulations, or their interpretation by agencies and the courts, occur frequently and may adversely affect us.

Existing conditions at some of our Properties. Independent environmental consultants have conducted Phase I or similar environmental site assessments on our Properties. We generally obtain these assessments prior to the acquisition of a Property and may later update them as required for subsequent financing of the property or as requested by a tenant. Site assessments are generally performed to ASTM standards then existing for Phase I site assessments, and typically include a historical review, a public records review, a visual inspection of the surveyed site, and the issuance of a written report. These assessments do not generally include any soil samplings or

subsurface investigations. Depending on the age of the property, the Phase I may have included an assessment of asbestos-containing materials. For properties where asbestos-containing materials were identified or suspected, an operations and maintenance plan was generally prepared and implemented. See Note 2 to our consolidated financial statements for our evaluation in accordance with FIN 47, *Accounting for Conditional Asset Retirement Obligations*. Historical operations at or near some of our properties, including the operation of underground storage tanks, may have caused soil or groundwater contamination. We are not aware of any such condition, liability or concern by any other means that would give rise to material, uninsured environmental liability. However, the assessments may have failed to reveal all environmental conditions, liabilities or compliance concerns; there may be material environmental conditions, liabilities or compliance concerns that a review failed to detect or which arose at a property after the review was completed; future laws, ordinances or regulations may impose material additional environmental liability; and current environmental conditions at our Properties may be affected in the future by tenants, third parties or the condition of land or operations near our Properties, such as the presence of underground storage tanks. We cannot be certain that costs of future environmental compliance will not affect our ability to make distributions to our shareholders.

Use of hazardous materials by some of our tenants. Some of our tenants handle hazardous substances and wastes on our properties as part of their routine operations. Environmental laws and regulations may subject these tenants, and potentially us, to liability resulting from such activities. We generally require our tenants, in their leases, to comply with these environmental laws and regulations and to indemnify us for any related liabilities. These tenants are primarily involved in the life sciences and the light industrial and warehouse businesses. We are not aware of any material noncompliance, liability or claim relating to hazardous or toxic substances or petroleum products in connection with any of our Properties, and we do not believe that on-going activities by our tenants will have a material adverse effect on our operations.

Costs related to government regulation and private litigation over environmental matters. Under environmental laws and regulations, we may be liable for the costs of removal, remediation or disposal of hazardous or toxic substances present or released on our Properties. These laws could impose liability without regard to whether we are responsible for, or knew of, the presence or release of the hazardous materials. Government investigations and remediation actions may entail substantial costs and the presence or release of hazardous substances on a property could result in governmental cleanup actions or personal injury or similar claims by private plaintiffs.

Potential environmental liabilities may exceed our environmental insurance coverage limits. We carry what we believe to be sufficient environmental insurance to cover potential liability for soil and groundwater contamination, mold impact, and the presence of asbestos-containing materials at the affected sites identified in our environmental site assessments. Our insurance policies are subject to conditions, qualifications and limitations. Therefore, we cannot provide any assurance that our insurance coverage will be sufficient to cover all liabilities for losses.

Other

We do not have any foreign operations and our business is not seasonal. Our operations are not dependent on a single tenant or a few tenants and no single tenant accounted for more than 10% of our total 2008 revenue.

Code of Conduct

We maintain a Code of Business Conduct and Ethics applicable to our Board and all of our officers and employees, including our principal executive officer, principal financial officer, principal accounting officer, controller and persons performing similar functions. A copy of our Code of Business Conduct and Ethics is available on our website, www.brandywinerealty.com. In addition to being accessible through our website, copies of our Code of Business Conduct and Ethics can be obtained, free of charge, upon written request to Investor Relations, 555 East Lancaster Avenue, Suite 100, Radnor, PA 19087. Any amendments to or waivers of our Code of Business Conduct and Ethics that apply to our principal executive officer, principal financial officer, principal accounting officer, controller and persons performing similar functions and that relate to any matter enumerated in Item 406(b) of Regulation S-K promulgated by the SEC will be disclosed on our website.

Corporate Governance Principles and Board Committee Charters

Our Corporate Governance Principles and the charters of the Executive Committee, Audit Committee, Compensation Committee and Corporate Governance Committee of the Board of Trustees of Brandywine Realty Trust and additional information regarding our corporate governance are available on our website, www.brandywinerealty.com. In addition to being accessible through our website, copies of our Corporate Governance Principles and charters of our Board Committees can be obtained, free of charge, upon written request to Investor Relations, 555 Lancaster Avenue, Suite 100, Radnor, PA 19087.

Availability of SEC Reports

We file annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K and other information with the SEC. Members of the public may read and copy materials that we file with the SEC at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. Members of the public may also obtain information on the Public Reference Room by calling the SEC at 1-800-732-0330. The SEC also maintains an Internet web site that contains reports, proxy and information statements and other information regarding issuers, including us, that file electronically with the SEC. The address of that site is <http://www.sec.gov>. Our annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K and other information filed by us with the SEC are available, without charge, on our Internet web site, <http://www.brandywinerealty.com> as soon as reasonably practicable after they are filed electronically with the SEC. Copies are also available, free of charge, upon written request to Investor Relations, Brandywine Realty Trust, 555 East Lancaster Avenue, Suite 100, Radnor, PA 19087.

Item 1A. Risk Factors

Our results from operations and ability to make distributions on our equity and to pay debt service on our indebtedness may be affected by the risk factors set forth below. All investors should consider the following risk factors before deciding to purchase our securities.

Adverse economic and geopolitical conditions could have a material adverse effect on our results of operations, financial condition and our ability to pay distributions to you.

Our business is affected by the unprecedented volatility and illiquidity in the financial and credit markets, the general global economic recession, and other market or economic challenges experienced by the U.S. economy or the real estate industry as a whole. Our portfolio consists primarily of office buildings (as compared to a more diversified real estate portfolio). If economic conditions persist or deteriorate, then our results of operations, financial condition, financial results and ability to service current debt and to pay distributions to our shareholders may be adversely affected by the following, among other potential conditions:

significant job losses in the financial and professional services industries may occur, which may decrease demand for our office space, causing market rental rates and property values to be negatively impacted;

our ability to borrow on terms and conditions that we find acceptable, or at all, may be limited, which could reduce our ability to complete development opportunities and refinance existing debt, reduce our returns;

from both our existing operations and our development activities and increase our future interest expense;

reduced values of our properties may limit our ability to dispose of assets at attractive prices or to obtain debt financing secured by our properties and may reduce the availability of unsecured loans;

the value and liquidity of our short-term investments and cash deposits could be reduced as a result of a deterioration of the financial condition of the institutions that hold our cash deposits or the institutions or assets in which we have made short-term investments, the dislocation of the markets for our short-term investments, increased volatility in market rates for such investments or other factors;

reduced liquidity in debt markets and increased credit risk premiums for certain market participants may impair our ability to access capital; and

one or more lenders under our line of credit could refuse or be unable to fund their financing commitment to us and we may not be able to replace the financing commitment of any such lenders on favorable terms, or at all. These conditions, which could have a material adverse effect on our results of operations, financial condition and ability to pay distributions, may continue or worsen in the future.

-13-

Our performance is subject to risks associated with our properties and with the real estate industry.

Our economic performance and the value of our real estate assets, and consequently the value of our securities, are subject to the risk that if our properties do not generate revenues sufficient to meet our operating expenses, including debt service and capital expenditures, our cash flow and ability to pay distributions to our shareholders will be adversely affected. Events or conditions beyond our control that may adversely affect our operations or the value of our properties include:

downturns in the national, regional and local economic climate including increases in the unemployment rate and inflation;

competition from other office, industrial and commercial buildings;

local real estate market conditions, such as oversupply or reduction in demand for office, industrial or commercial space;

changes in interest rates and availability of financing;

vacancies, changes in market rental rates and the need to periodically repair, renovate and re-lease space;

increased operating costs, including insurance expense, utilities, real estate taxes, janitorial costs, state and local taxes, labor shortages and heightened security costs;

civil disturbances, earthquakes and other natural disasters, or terrorist acts or acts of war which may result in uninsured or underinsured losses;

significant expenditures associated with each investment, such as debt service payments, real estate taxes, insurance and maintenance costs which are generally not reduced when circumstances cause a reduction in revenues from a property; and

declines in the financial condition of our tenants and our ability to collect rents from our tenants.

The disruption in the debt capital markets could adversely affect us.

Since mid-2007, there has been a marked deterioration in the credit markets affecting the availability of credit, the terms on which it can be sourced and the overall cost of debt capital. This could negatively affect us by:

increasing the cost of debt we use to finance our ongoing operations and fund our development and redevelopment activities, thereby increasing their costs and reducing the associated returns;

reducing the availability of potential bidders to bid attractively for our for-sale properties or to close on sales at all; and

preventing us from accessing necessary debt capital on a timely basis leading us to consider potentially more dilutive capital transactions such as undesirable sales of properties or securities.

We may suffer adverse consequences due to the financial difficulties, bankruptcy or insolvency of our tenants.

The current economic conditions have caused our tenants to experience financial difficulties. If more of our tenants were to experience financial difficulties, including bankruptcy, insolvency or a general downturn in their business, there could be an adverse effect on our financial performance and distributions to shareholders. We cannot assure you that any tenant that files for bankruptcy protection will continue to pay us rent. A bankruptcy filing by or relating to one of our tenants or a lease guarantor would bar efforts by us to collect pre-bankruptcy debts from that tenant or lease guarantor, or its property, unless we receive an order permitting us to do so from the bankruptcy court. In addition, we cannot evict a tenant solely because of bankruptcy. The bankruptcy of a tenant or lease guarantor could delay our efforts to collect past due balances under the relevant leases, and could ultimately preclude collection of these sums. If

a lease is assumed by the tenant in bankruptcy, all pre-bankruptcy balances

-14-

due under the lease must be paid to us in full. If, however, a lease is rejected by a tenant in bankruptcy, we would have only a general, unsecured claim for damages. Any such unsecured claim would only be paid to the extent that funds are available and only in the same percentage as is paid to all other holders of general, unsecured claims. Restrictions under the bankruptcy laws further limit the amount of any other claims that we can make if a lease is rejected. As a result, it is likely that we would recover substantially less than the full value of the remaining rent during the term.

The terms and covenants relating to our indebtedness could adversely impact our economic performance.

Like other real estate companies which incur debt, we are subject to risks associated with debt financing, such as the insufficiency of cash flow to meet required debt service payment obligations and the inability to refinance existing indebtedness. If our debt cannot be paid, refinanced or extended at maturity, we may not be able to make distributions to shareholders at expected levels or at all. Furthermore, an increase in our interest expense could adversely affect our cash flow and ability to make distributions to shareholders. If we do not meet our debt service obligations, any properties securing such indebtedness could be foreclosed on, which would have a material adverse effect on our cash flow and ability to make distributions and, depending on the number of properties foreclosed on, could threaten our continued viability.

Our credit facilities, term loan and the indenture governing our unsecured public debt securities contain (and any new or amended facility will contain) restrictions, requirements and other limitations on our ability to incur indebtedness, including total debt to asset ratios, secured debt to total asset ratios, debt service coverage ratios and minimum ratios of unencumbered assets to unsecured debt which we must maintain. Our ability to borrow under our credit facilities is subject to compliance with such financial and other covenants. In the event that we fail to satisfy these covenants, we would be in default under the credit facilities, the term loan and the indenture and may be required to repay such debt with capital from other sources. Under such circumstances, other sources of capital may not be available to us, or may be available only on unattractive terms.

Increases in interest rates on variable rate indebtedness will increase our interest expense, which could adversely affect our cash flow and ability to make distributions to shareholders. Rising interest rates could also restrict our ability to refinance existing debt when it matures. In addition, an increase in interest rates could decrease the amounts that third parties are willing to pay for our assets, thereby limiting our ability to alter our portfolio promptly in relation to economic or other conditions. We entered into and may, from time to time, enter into agreements such as interest rate hedges, swaps, floors, caps and other interest rate hedging contracts with respect to a portion of our variable rate debt. Although these agreements may lessen the impact of rising interest rates on us, they also expose us to the risk that other parties to the agreements will not perform or that we cannot enforce the agreements.

Our degree of leverage could limit our ability to obtain additional financing or affect the market price of our equity shares or debt securities.

Our degree of leverage could affect our ability to obtain additional financing for working capital expenditures, development, acquisitions or other general corporate purposes. Our senior unsecured debt is currently rated BBB- by Fitch Ratings, Baa3 by Moody's Investor Services and BBB- by Standard & Poor's. We cannot, however, assure you that we will be able to maintain this rating. In the event that our unsecured debt is downgraded from the current rating, we would likely incur higher borrowing costs and the market prices of our common shares and debt securities might decline. Our degree of leverage could also make us more vulnerable to a downturn in business or the economy generally.

We may experience increased operating costs, which might reduce our profitability.

Our properties are subject to increases in operating expenses such as for cleaning, electricity, heating, ventilation and air conditioning, administrative costs and other costs associated with security, landscaping and repairs and maintenance of our properties. In general, under our leases with tenants, we pass through all or a portion of these costs to them. We cannot assure you, however, that tenants will actually bear the full burden of these higher costs, or that such increased costs will not lead them, or other prospective tenants, to seek office space elsewhere. If operating expenses increase, the availability of other comparable office space in our core geographic markets might limit our ability to increase rents; if operating expenses increase without a corresponding increase in revenues, our profitability could diminish and limit our ability to make distributions to shareholders.

Our investment in property development or redevelopment may be more costly or difficult to complete than we anticipate.

We intend to continue to develop properties where market conditions warrant such investment. Once made, these investments may not produce results in accordance with our expectations. Risks associated with our development and construction activities include:

the unavailability of favorable financing alternatives in the private and public debt markets;

having sufficient capital to pay development costs;

unprecedented market volatility in the share price of REITs;

dependence on the financial services sector as part of our tenant base;

construction costs exceeding original estimates due to rising interest rates, diminished availability of materials and labor, and increases in the costs of materials and labor;

construction and lease-up delays resulting in increased debt service, fixed expenses and construction or renovation costs;

expenditure of funds and devotion of management's time to projects that we do not complete;

the unavailability or scarcity of utilities;

occupancy rates and rents at newly completed properties may fluctuate depending on a number of factors, including market and economic conditions, resulting in lower than projected rental rates and a corresponding lower return on our investment;

complications (including building moratoriums and anti-growth legislation) in obtaining necessary zoning, occupancy and other governmental permits; and

increased use restrictions by local zoning or planning authorities limiting our ability to develop and impacting the size of developments.

We face risks associated with property acquisitions.

We have in the past acquired, and may in the future acquire, properties and portfolios of properties, including large portfolios that would increase our size and potentially alter our capital structure. Although we believe that the acquisitions that we have completed in the past and that we expect to undertake in the future have, and will, enhance our future financial performance, the success of such transactions is subject to a number of factors, including the risk that:

we may not be able to obtain financing for acquisitions on favorable terms;

acquired properties may fail to perform as expected;

the actual costs of repositioning or redeveloping acquired properties may be higher than our estimates;

acquired properties may be located in new markets where we may have limited knowledge and understanding of the local economy, an absence of business relationships in the area or unfamiliarity with local governmental and permitting procedures; and

we may not be able to efficiently integrate acquired properties, particularly portfolios of properties, into our organization and manage new properties in a way that allows us to realize cost savings and synergies. We acquired in the past and in the future may acquire properties or portfolios of properties through tax deferred contribution transactions in exchange for partnership interests in our Operating Partnership. This acquisition

-16-

structure has the effect, among other factors, of reducing the amount of tax depreciation we can deduct over the tax life of the acquired properties, and typically requires that we agree to protect the contributors' ability to defer recognition of taxable gain through restrictions on our ability to dispose of the acquired properties and/or the allocation of partnership debt to the contributors to maintain their tax bases. These restrictions on dispositions could limit our ability to sell an asset during a specified time, or on terms, that would be favorable absent such restrictions.

Acquired properties may subject us to known and unknown liabilities.

Properties that we acquire may be subject to known and unknown liabilities for which we would have no recourse, or only limited recourse, to the former owners of such properties. As a result, if a liability were asserted against us based upon ownership of an acquired property, we might be required to pay significant sums to settle it, which could adversely affect our financial results and cash flow. Unknown liabilities relating to acquired properties could include:

liabilities for clean-up of pre-existing disclosed or undisclosed environmental contamination;

claims by tenants, vendors or other persons arising on account of actions or omissions of the former owners of the properties; and

liabilities incurred in the ordinary course of business.

We have agreed not to sell certain of our properties and to maintain indebtedness subject to guarantees.

We agreed not to sell some of our properties for varying periods of time, in transactions that would trigger taxable income to the former owners, and we may enter into similar arrangements as a part of future property acquisitions. One of these tax protection agreements is with one of our current trustees. These agreements generally provide that we may dispose of the subject properties only in transactions that qualify as tax-free exchanges under Section 1031 of the Internal Revenue Code or in other tax deferred transactions. Such transactions can be difficult to complete and can result in the property acquired in exchange for the disposed of property inheriting the tax attributes (including tax protection covenants) of the sold property. Violation of these tax protection agreements would impose significant costs on us. As a result, we are restricted with respect to decisions related to financing, encumbering, expanding or selling these properties.

We have also entered into agreements that provide prior owners of properties with the right to guarantee specific amounts of indebtedness and, in the event that the specific indebtedness that they guarantee is repaid or reduced, we would be required to provide substitute indebtedness for them to guarantee. These agreements may hinder actions that we may otherwise desire to take to repay or refinance guaranteed indebtedness because we would be required to make payments to the beneficiaries of such agreements if we violate these agreements.

We may be unable to renew leases or re-lease space as leases expire; certain leases may expire early.

If tenants do not renew their leases upon expiration, we may be unable to re-lease the space. Even if the tenants do renew their leases or if we can re-lease the space, the terms of renewal or re-leasing (including the cost of required renovations) may be less favorable than current lease terms. Certain leases grant the tenants an early termination right upon payment of a termination penalty or if certain lease terms are not complied with.

We face significant competition from other real estate developers.

We compete with real estate developers, operators and institutions for tenants and acquisition and development opportunities. Some of these competitors have significantly greater financial resources than we have. Such competition may reduce the number of suitable investment opportunities available to us, may interfere with our ability to attract and retain tenants and may increase vacancies, which could result in increased supply and lower market rental rates, reducing our bargaining leverage and adversely affect our ability to improve our operating leverage. In addition, some of our competitors may be willing (e.g., because their properties may have vacancy rates higher than those for our properties) to make space available at lower rental rates or with higher tenant concession percentages than available space in our properties. We cannot assure you that this competition will not adversely affect our cash flow and our ability to make distributions to shareholders.

Property ownership through joint ventures may limit our ability to act exclusively in our interest.

We develop and acquire properties in joint ventures with other persons or entities when we believe circumstances warrant the use of such structures. As of December 31, 2008, we had investments in 13 unconsolidated real estate ventures and three additional real estate ventures that are consolidated in our financial statements. Our net investments in the 13 unconsolidated real estate ventures aggregated approximately \$71.0 million as of December 31, 2008. We could become engaged in a dispute with one or more of our joint venture partners that might affect our ability to operate a jointly-owned property. Moreover, our joint venture partners may, at any time, have business, economic or other objectives that are inconsistent with our objectives, including objectives that relate to the appropriate timing and terms of any sale or refinancing of a property. In some instances, our joint venture partners may have competing interests in our markets that could create conflicts of interest. If the objectives of our joint venture partners or the lenders to our joint ventures are inconsistent with our own objectives, we may not be able to act exclusively in our interests. Furthermore, if the current constrained credit conditions in the capital markets persist or deteriorate further, the value of our investments could deteriorate and we could be required to reduce the carrying value of our equity method investments if a loss in the carrying value of the investment is other than a temporary decline pursuant to APB 18, *The Equity Method of Accounting for Investments in Common Stock* .

Because real estate is illiquid, we may not be able to sell properties when appropriate.

Real estate investments generally, and in particular large office and industrial/flex properties like those that we own, often cannot be sold quickly. The capitalization rates at which properties may be sold has generally been rising, thereby reducing our potential proceeds from sale. Consequently, we may not be able to alter our portfolio promptly in response to changes in economic or other conditions. In addition, the Internal Revenue Code limits our ability to sell properties that we have held for fewer than four years without resulting in adverse consequences to our shareholders. Furthermore, properties that we have developed and have owned for a significant period of time or that we acquired in exchange for partnership interests in our operating partnership often have a low tax basis. If we were to dispose of any of these properties in a taxable transaction, we may be required under provisions of the Internal Revenue Code applicable to REITs to distribute a significant amount of the taxable gain to our shareholders and this could, in turn, impact our cash flow. In some cases, tax protection agreements with third parties will prevent us from selling certain properties in a taxable transaction without incurring substantial costs. In addition, purchase options and rights of first refusal held by tenants or partners in joint ventures may also limit our ability to sell certain properties. All of these factors reduce our ability to respond to changes in the performance of our investments and could adversely affect our cash flow and ability to make distributions to shareholders as well as the ability of someone to purchase us, even if a purchase were in our shareholders' best interests.

Some potential losses are not covered by insurance.

We currently carry comprehensive all-risk property, rental loss insurance and commercial general liability coverage on all of our properties. We believe the policy specifications and insured limits of these policies are adequate and appropriate. There are, however, types of losses, such as lease and other contract claims, biological, radiological and nuclear hazards and acts of war that generally are not insured. We cannot assure you that we will be able to renew insurance coverage in an adequate amount or at reasonable prices. In addition, insurance companies may no longer offer coverage against certain types of losses, such as losses due to earthquake, terrorist acts and mold, or, if offered, these types of insurance may be prohibitively expensive. Should an uninsured loss or a loss in excess of insured limits occur, we could lose all or a portion of the capital we have invested in a property, as well as the anticipated future revenue from the property. In such an event, we might nevertheless remain obligated for any mortgage debt or other financial obligations related to the property. We cannot assure you that material losses in excess of insurance proceeds will not occur in the future. If any of our properties were to experience a catastrophic loss, it could seriously disrupt our operations, delay revenue and result in large expenses to repair or rebuild the property. Such events could adversely affect our cash flow and ability to make distributions to shareholders. If one or more of our insurance providers were to fail to pay a claim as a result of insolvency, bankruptcy or otherwise, the nonpayment of such claims could have an adverse effect on our financial condition and results of operations. In addition, if one or more of our insurance providers were to become subject to insolvency, bankruptcy or other proceedings and our insurance policies with the provider were terminated or canceled as a result of those proceedings, we cannot guarantee that we

would be able to find alternative coverage in adequate amounts or at reasonable prices. In such case, we could experience a lapse in any or adequate insurance coverage with respect to one or more properties and be exposed to potential losses relating to any claims that may arise during such period of lapsed or inadequate coverage.

-18-

Terrorist attacks and other acts of violence or war may adversely impact our performance and may affect the markets on which our securities are traded.

Terrorist attacks against our properties, or against the United States or our interests, may negatively impact our operations and the value of our securities. Attacks or armed conflicts could result in increased operating costs; for example, it might cost more in the future for building security, property and casualty insurance, and property maintenance. As a result of terrorist activities and other market conditions, the cost of insurance coverage for our properties could also increase. We might not be able to pass through the increased costs associated with such increased security measures and insurance to our tenants, which could reduce our profitability and cash flow. Furthermore, any terrorist attacks or armed conflicts could result in increased volatility in or damage to the United States and worldwide financial markets and economy. Such adverse economic conditions could affect the ability of our tenants to pay rent and our cost of capital, which could have a negative impact on our results.

Our ability to make distributions is subject to various risks.

Historically, we have paid quarterly distributions to our shareholders. Our ability to make distributions in the future will depend upon:

the operational and financial performance of our properties;

capital expenditures with respect to existing, developed and newly acquired properties;

general and administrative costs associated with our operation as a publicly-held REIT;

the amount of, and the interest rates on, our debt; and

the absence of significant expenditures relating to environmental and other regulatory matters.

Certain of these matters are beyond our control and any significant difference between our expectations and actual results could have a material adverse effect on our cash flow and our ability to make distributions to shareholders.

Changes in the law may adversely affect our cash flow.

Because increases in income and service taxes are generally not passed through to tenants under leases, such increases may adversely affect our cash flow and ability to make expected distributions to shareholders. Our properties are also subject to various regulatory requirements, such as those relating to the environment, fire and safety. Our failure to comply with these requirements could result in the imposition of fines and damage awards and could result in a default under some of our tenant leases. Moreover, the costs to comply with any new or different regulations could adversely affect our cash flow and our ability to make distributions. Although we believe that our properties are in material compliance with all such requirements, we cannot assure you that these requirements will not change or that newly imposed requirements will not require significant expenditures in order to be compliant.

Potential liability for environmental contamination could result in substantial costs.

Under various federal, state and local laws, ordinances and regulations, we may be liable for the costs to investigate and remove or remediate hazardous or toxic substances on or in our properties, often regardless of whether we know of or are responsible for the presence of these substances. These costs may be substantial. While we do maintain environmental insurance, we can not be assured that our insurance coverage will be sufficient to protect us from all of the aforesaid remediation costs. Also, if hazardous or toxic substances are present on a property, or if we fail to properly remediate such substances, our ability to sell or rent the property or to borrow using that property as collateral may be adversely affected.

Additionally, we develop, manage, lease and/or operate various properties for third parties. Consequently, we may be considered to have been or to be an operator of these properties and, therefore, potentially liable for removal or remediation costs or other potential costs that could relate to hazardous or toxic substances.

An earthquake or other natural disasters could adversely affect our business.

Some of our properties are located in California which is a high risk geographical area for earthquakes or other natural disasters. Depending upon its magnitude, an earthquake could severely damage our properties which would adversely affect our business. We maintain earthquake insurance for our California properties and the resulting business interruption. We cannot assure you that our insurance will be sufficient if there is a major earthquake.

Americans with Disabilities Act compliance could be costly.

The Americans with Disabilities Act of 1990, as amended (ADA) requires that all public accommodations and commercial facilities, including office buildings, meet certain federal requirements related to access and use by disabled persons. Compliance with ADA requirements could involve the removal of structural barriers from certain disabled persons entrances which could adversely affect our financial condition and results of operations. Other federal, state and local laws may require modifications to or restrict further renovations of our properties with respect to such accesses. Although we believe that our properties are in material compliance with present requirements, noncompliance with the ADA or similar or related laws or regulations could result in the United States government imposing fines or private litigants being awarded damages against us. In addition, changes to existing requirements or enactments of new requirements could require significant expenditures. Such costs may adversely affect our cash flow and ability to make distributions to shareholders.

Our status as a REIT (or any of our REIT subsidiaries) is dependent on compliance with federal income tax requirements.

If we (or any of our REIT subsidiaries) fail to qualify as a REIT, we or the affected REIT subsidiaries would be subject to federal income tax at regular corporate rates. Also, unless the IRS granted us or our affected REIT subsidiaries, as the case may be, relief under certain statutory provisions, we or it would remain disqualified as a REIT for four years following the year it first failed to qualify. If we or any of our REIT subsidiaries fails to qualify as a REIT, we or they would be required to pay significant income taxes and would, therefore, have less money available for investments or for distributions to shareholders. This would likely have a material adverse effect on the value of the combined company s securities. In addition, we or our affected REIT subsidiaries would no longer be required to make any distributions to shareholders.

Failure of the Operating Partnership (or a subsidiary partnership) to be treated as a partnership would have serious adverse consequences to our shareholders. If the IRS were to successfully challenge the tax status of the Operating Partnership or any of its subsidiary partnerships for federal income tax purposes, the Operating Partnership or the affected subsidiary partnership would be taxable as a corporation. In such event we would cease to qualify as a REIT and the imposition of a corporate tax on the Operating Partnership or a subsidiary partnership would reduce the amount of cash available for distribution from the Operating Partnership to us and ultimately to our shareholders. Even if we qualify as a REIT, we will be required to pay certain federal, state and local taxes on our income and properties. In addition, our taxable REIT subsidiaries will be subject to federal, state and local income tax at regular corporate rates on their net taxable income derived from management, leasing and related service business. If we have net income from a prohibited transaction, such income will be subject to a 100% tax.

We face possible federal, state and local tax audits.

Because we are organized and qualify as a REIT, we are generally not subject to federal income taxes, but are subject to certain state and local taxes. Certain entities through which we own real estate either have undergone, or are currently undergoing, tax audits. Although we believe that we have substantial arguments in favor of our positions in the ongoing audits, in some instances there is no controlling precedent or interpretive guidance on the specific point at issue. Collectively, tax deficiency notices received to date from the jurisdictions conducting the ongoing audits have not been material. However, there can be no assurance that future audits will not occur with increased frequency or that the ultimate result of such audits will not have a material adverse effect on our results of operations. We are currently being audited by the Internal Revenue Service for our 2004 tax year. The audit concerns the tax treatment of a transaction in September 2004 in which we acquired a portfolio of properties through the acquisition of a limited partnership. At this time it does not appear that an adjustment would result in a material tax liability for us. However, an adjustment could raise a question as to whether a contributor of partnership interests in the 2004 transaction could assert a claim against us under the tax protection agreement entered into as part of the transaction.

Competition for skilled personnel could increase labor costs.

We compete with various other companies in attracting and retaining qualified and skilled personnel. We depend on our ability to attract and retain skilled management personnel who are responsible for the day-to-day operations of our company. Competitive pressures may require that we enhance our pay and benefits package to compete effectively for such personnel. We may not be able to offset such added costs by increasing the rates we charge tenants. If there is an increase in these costs or if we fail to attract and retain qualified and skilled personnel, our business and operating results could be harmed.

We are dependent upon our key personnel.

We are dependent upon our key personnel whose continued service is not guaranteed. We are dependent on our executive officers for strategic business direction and real estate experience. Although we believe that we could find replacements for these key personnel, loss of their services could adversely affect our operations.

Although we have an employment agreement with Gerard H. Sweeney, our President and Chief Executive Officer, for a term extending to February 9, 2010, this agreement does not restrict his ability to become employed by a competitor following the termination of his employment. We do not have key man life insurance coverage on our executive officers.

Certain limitations will exist with respect to a third party's ability to acquire us or effectuate a change in control.

Limitations imposed to protect our REIT status. In order to protect us against the loss of our REIT status, our Declaration of Trust limits any shareholder from owning more than 9.8% in value of our outstanding shares, subject to certain exceptions. The ownership limit may have the effect of precluding acquisition of control of us. If anyone acquires shares in excess of the ownership limit, we may:

consider the transfer to be null and void;

not reflect the transaction on our books;

institute legal action to stop the transaction;

not pay dividends or other distributions with respect to those shares;

not recognize any voting rights for those shares; and

consider the shares held in trust for the benefit of a person to whom such shares may be transferred.

Limitation due to our ability to issue preferred shares. Our Declaration of Trust authorizes our Board of Trustees to cause us to issue preferred shares, without limitation as to amount and without shareholder consent. Our Board of Trustees is able to establish the preferences and rights of any preferred shares issued and these shares could have the effect of delaying or preventing someone from taking control of us, even if a change in control were in our shareholders' best interests.

Limitation imposed by the Maryland Business Combination Law. The Maryland General Corporation Law, as applicable to Maryland REITs, establishes special restrictions against business combinations between a Maryland REIT and interested shareholders or their affiliates unless an exemption is applicable. An interested shareholder includes a person, who beneficially owns, and an affiliate or associate of the trust who, at any time within the two-year period prior to the date in question, was the beneficial owner of, ten percent or more of the voting power of our then-outstanding voting shares. Among other things, Maryland law prohibits (for a period of five years) a merger and certain other transactions between a Maryland REIT and an interested shareholder unless the board of trustees had approved the transaction before the party became an interested shareholder. The five-year period runs from the most recent date on which the interested shareholder became an interested shareholder. Thereafter, any such business combination must be recommended by the board of trustees and approved by two super-majority shareholder votes unless, among other conditions, the common shareholders receive a minimum price for their shares and the consideration is received in cash or in the same form as previously paid by the interested shareholder for our shares or unless the board of trustees approved the transaction before the party in question became an

interested shareholder. The business combination statute could have the effect of discouraging offers to acquire us and of increasing the difficulty of consummating any such offers, even if the acquisition would be in our shareholders' best interests.

Maryland Control Share Acquisition Act. Maryland law provides that control shares of a REIT acquired in a control share acquisition shall have no voting rights except to the extent approved by a vote of two-thirds of the vote eligible to be cast on the matter under the Maryland Control Share Acquisition Act. Control Shares means shares that, if aggregated with all other shares previously acquired by the acquirer or in respect of which the acquirer is able to exercise or direct the exercise of voting power (except solely by virtue of a revocable proxy), would entitle the acquirer to exercise voting power in electing trustees within one of the following ranges of voting power: one-tenth or more but less than one-third, one-third or more but less than a majority or a majority or more of all voting power. Control shares do not include shares the acquiring person is then entitled to vote as a result of having previously obtained shareholder approval. A control share acquisition means the acquisition of control shares, subject to certain exceptions. If voting rights or control shares acquired in a control share acquisition are not approved at a shareholder's meeting, then subject to certain conditions and limitations the issuer may redeem any or all of the control shares for fair value. If voting rights of such control shares are approved at a shareholder's meeting and the acquirer becomes entitled to vote a majority of the shares entitled to vote, all other shareholders may exercise appraisal rights. Any control shares acquired in a control share acquisition which are not exempt under our Bylaws are subject to the Maryland Control Share Acquisition Act. Our Bylaws contain a provision exempting from the control share acquisition statute any and all acquisitions by any person of our shares. We cannot assure you that this provision will not be amended or eliminated at any time in the future.

Advance Notice Provisions for Shareholder Nominations and Proposals. Our bylaws require advance notice for shareholders to nominate persons for election as trustees at, or to bring other business before, any meeting of our shareholders. This bylaw provision limits the ability of shareholders to make nominations of persons for election as trustees or to introduce other proposals unless we are notified in a timely manner prior to the meeting.

Many factors can have an adverse effect on the market value of our securities.

A number of factors might adversely affect the price of our securities, many of which are beyond our control. These factors include:

- increases in market interest rates, relative to the dividend yield on our shares. If market interest rates go up, prospective purchasers of our securities may require a higher yield. Higher market interest rates would not, however, result in more funds for us to distribute and, to the contrary, would likely increase our borrowing costs and potentially decrease funds available for distribution. Thus, higher market interest rates could cause the market price of our common shares to go down;

- anticipated benefit of an investment in our securities as compared to investment in securities of companies in other industries (including benefits associated with tax treatment of dividends and distributions);

- perception by market professionals of REITs generally and REITs comparable to us in particular;

- level of institutional investor interest in our securities;

- relatively low trading volumes in securities of REITs;

- our results of operations and financial condition; and

- investor confidence in the stock market generally.

The market value of our common shares is based primarily upon the market's perception of our growth potential and our current and potential future earnings and cash distributions. Consequently, our common shares may trade at prices that are higher or lower than our net asset value per common share. If our future earnings or cash distributions are less than expected, it is likely that the market price of our common shares will diminish.

Additional issuances of equity securities may be dilutive to shareholders.

The interests of our shareholders could be diluted if we issue additional equity securities to finance future developments or acquisitions or to repay indebtedness. Our Board of Trustees may authorize the issuance of additional equity securities without shareholder approval. Our ability to execute our business strategy depends upon our access to an appropriate blend of debt financing, including unsecured lines of credit and other forms of secured and unsecured debt, and equity financing, including the issuance of common and preferred equity.

The issuance of preferred securities may adversely affect the rights of holders of our common shares.

Because our Board of Trustees has the power to establish the preferences and rights of each class or series of preferred shares, we may afford the holders in any series or class of preferred shares preferences, distributions, powers and rights, voting or otherwise, senior to the rights of holders of common shares. Our Board of Trustees also has the power to establish the preferences and rights of each class or series of units in Brandywine Operating Partnership, and may afford the holders in any series or class of preferred units preferences, distributions, powers and rights, voting or otherwise, senior to the rights of holders of common units.

The acquisition of new properties or the development of new properties which lack operating history with us may give rise to difficulties in predicting revenue potential.

We may continue to acquire additional properties and may seek to develop our existing land holdings strategically as warranted by market conditions. These acquisitions and developments could fail to perform in accordance with expectations. If we fail to accurately estimate occupancy levels, operating costs or costs of improvements to bring an acquired property or a development property up to the standards established for our intended market position, the performance of the property may be below expectations. Acquired properties may have characteristics or deficiencies affecting their valuation or revenue potential that we have not yet discovered. We cannot assure you that the performance of properties acquired or developed by us will increase or be maintained under our management.

Our performance is dependent upon the economic conditions of the markets in which our properties are located.

Our properties are located in Pennsylvania, New Jersey, Delaware, Maryland, Virginia, Texas, and California. Like other real estate markets, these commercial real estate markets have been impacted by the economic downturns during 2008, and future declines in 2009 in any of these economies or real estate markets could adversely affect cash available for distribution. Our financial performance and ability to make distributions to our shareholders will be particularly sensitive to the economic conditions in these markets. The local economic climate, which may be adversely impacted by business layoffs or downsizing, industry slowdowns, changing demographics and other factors, and local real estate conditions, such as oversupply of or reduced demand for office, industrial and other competing commercial properties, may affect revenues and the value of properties, including properties to be acquired or developed. We cannot assure you that these local economies will grow in the future.

None

Item 2. Properties

Property Acquisitions

We did not acquire any properties during the year ended December 31, 2008.

Development Properties Placed in Service

We placed in service the following office properties during the year ended December 31, 2008:

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-K

Month Placed in Service	Property/Portfolio Name	Location	# of Buildings	Rentable Square Feet
Aug-08	4000 Chemical Road (Metroplex I)	Plymouth Meeting, PA	1	120,877
Oct-08	1200 Lenox Drive	Lawrenceville, NJ	1	75,000
Nov-08	South Lake at Dulles	Herndon, VA	1	268,240
Dec-08	Park on Barton Creek	Austin, TX	1	213,167
Total Properties Placed in Service			4	677,284

We place a property under development in service on the earlier of (i) the date the property reaches 95% occupancy and (ii) one year after the completion of shell construction.

Property Sales

We sold the following office properties during the year ended December 31, 2008:

Month of Sale	Property/Portfolio Name	Location	# of Bldgs.	Rentable Square Feet/ Acres	Sales Price (in 000 s)
Jan-08	7130 Ambassador Drive	Allentown, PA	1	114,049	\$ 5,800
Feb-08	1400 Howard Boulevard	Mount Laurel, NJ	1	75,590	22,000
Apr-08	100 Brandywine Boulevard	Newtown, PA	1	102,000	28,000
Oct-08	600 East Main Street (Main Street Centre)	Richmond, VA	1	426,103	48,820
Oct-08	Northern California Portfolio	Oakland, CA	5	1,717,861	412,500
Total Office Properties Sold			9	2,435,603	\$ 517,120

We sold the following land parcel during the year ended December 31, 2008:

Month of Sale	Property/Portfolio Name	Location	# of Bldgs.	Rentable Square Feet/ Acres	Sales Price (in 000 s)
Feb-08	Dabney Westwood	Henrico, VA		3.2	376
Total Land Sold				3.2	\$ 376

Properties

As of December 31, 2008, we owned 214 office properties, 22 industrial facilities and one mixed-use property that contain an aggregate of approximately 23.6 million net rentable square feet. We also have two properties under development and six properties under redevelopment containing an aggregate 2.3 million net rentable square feet. As of December 31, 2008, we consolidated three office properties owned by real estate ventures containing 0.4 million net rentable square feet. The properties are located in and surrounding Philadelphia, PA, Metropolitan Washington, D.C., Southern and Central New Jersey, Richmond, VA, Wilmington, DE, Austin, TX, and Oakland, Carlsbad and Rancho Bernardo, CA. As of December 31, 2008, the Properties were approximately 90.2% occupied by 1,423 tenants and had an average age of approximately 17.6 years. The office properties are primarily suburban office buildings

containing an average of approximately 104,433 net rentable square feet. The industrial properties accommodate a variety of tenant uses, including light manufacturing, assembly, distribution and warehousing. We carry comprehensive liability, fire, extended coverage and rental loss insurance covering all of the Properties, with policy specifications and insured limits which we believe are adequate.

We had the following projects in development or redevelopment as of December 31, 2008:

-24-

Project Name	Location	Rentable Square Feet	% Leased as of 12/31/08	Stabilization Date (a)
Under Development:				
Post Office/IRS	Philadelphia, PA	862,692	100.0%	Q3 10
Cira South Garage	Philadelphia, PA	542,273	94.3%	Q3 10
		1,404,965		
Under Redevelopment:				
Radnor Corporate Center I	Radnor, PA	190,219	64.0%	Q4 09
One Rockledge Associates	Bethesda, MD	160,173	57.7%	Q4 09
300 Delaware Avenue	Wilmington, DE	298,071	72.5%	Q4 09
Delaware Corporate Center II	Wilmington, DE	95,514	68.7%	Q4 09
100 Lenox Drive	Lawrenceville, NJ	91,450	67.6%	Q4 09
Atrium I	Mount Laurel, NJ	97,158	89.2%	Q4 09
		932,585		
		2,337,550		

(a) Projected stabilization date represents the earlier of (i) the date the property reaches 95% occupancy and or (ii) one year from the project completion date.

As of December 31, 2008, the above eight projects accounted for \$88.9 million of the \$121.4 million of construction in process shown on our consolidated balance sheet.

As of December 31, 2008, we expect our development cost for these eight projects, including an estimate of the tenant improvement costs, to aggregate \$440.7 million.

The following table sets forth information with respect to our core properties at December 31, 2008:

Property Name		Location	State	Year Renovated	Net Rentable Square Feet	Percentage Leased as of December 31, 2008 (a)	Total Base Rent for the Twelve Months Ended December 31, 2008 (b) (000 s)	Average Annualized Rental Rate as of December 31, 2008 (c)

PORTFOLIO**

26,266,989 91.4%

- (a) Calculated by dividing net rentable square feet included in leases signed on or before December 31, 2008 at the property by the aggregate net rentable square feet of the property.
- (b) Total Base Rent for the twelve months ended December 31, 2008 represents base rents received during such period, excluding tenant reimbursements, calculated in accordance with generally accepted accounting principles (GAAP) determined on a straight-line basis.
- (c) Average Annualized Rental Rate is

calculated as follows: (i) for office leases written on a triple net basis, the sum of the annualized contracted base rental rates payable for all space leased as of December 31, 2008 plus the 2008 budgeted operating expenses excluding tenant electricity; and (ii) for office leases written on a full service basis, the annualized contracted base rent payable for all space leased as of December 31, 2008. In both cases, the annualized rental rate is divided by the total square footage leased as of December 31, 2008 without giving effect to free rent or scheduled rent increases that would be taken into account under GAAP.

- (d) These properties are subject to a ground lease with a third party.
- (e) We hold our interest in Two Logan Square (100 North 18th Street) primarily through our ownership of second and third mortgages that are secured by this property and that are junior to a

first mortgage with a third party. Our ownership of these two mortgages currently provides us with all of the cash flows from Two Logan Square after the payment of operating expenses and debt service on the first mortgage.

-31-

(f) These properties are industrial facilities.

(g) Property sold on February 4, 2009.

(h) Property owned by consolidated real estate venture.

The following table shows information regarding rental rates and lease expirations for the Properties at December 31, 2008 and assumes that none of the tenants exercises renewal options or termination rights, if any, at or prior to scheduled expirations:

Year of Lease Expiration December 31,	Number of Leases Expiring the Year	Rentable Square Footage Subject to Expiring Leases	Final Annualized Base Rent Under Expiring Leases (a)	Final Annualized Base Rent Per Square Foot Under Expiring Leases	Percentage of Total Final Annualized Base Rent Under Expiring Leases	Cumulative Total
2009	358	2,362,180	\$ 50,817,534	\$ 21.51	9.6%	9.6%
2010	338	3,709,770	82,710,514	22.30	15.6%	25.2%
2011	268	2,994,974	65,666,675	21.93	12.4%	37.6%
2012	215	2,570,159	62,413,556	24.28	11.8%	49.4%

2019 and thereafter	42	2,064,739	55,697,450	26.98	10.5%	100.0%
	1,667	22,216,200	\$ 529,688,970	\$ 23.84	100.0%	

(a) Final Annualized Base Rent for each lease scheduled to expire represents

the cash rental rate of base rents, excluding tenant reimbursements, in the final month prior to expiration multiplied by 12. Tenant reimbursements generally include payment of real estate taxes, operating expenses and common area maintenance and utility charges.

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-K

At December 31, 2008, our Properties were leased to 1,423 tenants that are engaged in a variety of businesses. The following table sets forth information regarding leases at the Properties with the 20 tenants with the largest amounts leased based upon Annualized Base Rent as of December 31, 2008:

Tenant Name (a)	Number of Leases	Weighted Average Remaining Lease Term in Months	Aggregate Leased Square Feet	Percentage of Aggregate Leased Square Feet	Annualized Base Rent (in 000) (b)	Percentage of Aggregate Annualized Base Rent

(a) The identified tenant includes

affiliates in certain circumstances.

- (b) Annualized Base Rent represents the monthly Base Rent, excluding tenant reimbursements, for each lease in effect at December 31, 2008 multiplied by 12. Tenant reimbursements generally include payment of real estate taxes, operating expenses and common area maintenance and utility charges.

Real Estate Ventures

As of December 31, 2008, we had investments in five real estate ventures (including two VIEs which are associated with our tax credit transactions) that are considered to be variable interest entities under FIN 46R and of which we are the primary beneficiary. We consolidate these five real estate ventures into our financial statements.

As of December 31, 2008, we also had an aggregate investment of approximately \$71.0 million in our 13 unconsolidated Real Estate Ventures (net of returns of investment). We entered into these ventures with unaffiliated third parties to develop office properties or to acquire land in anticipation of possible development of office properties. Nine of the Real Estate Ventures own 43 office buildings that contain an aggregate of approximately 4.2 million net rentable square feet; one Real Estate Venture developed a hotel property that contains 137 rooms in Conshohocken, PA; one Real Estate Venture constructed and sold condominiums in Charlottesville, VA; one Real Estate Venture is developing an office property located in Charlottesville, VA; and one Real Estate Venture is evaluating an office development in Conshohocken, PA.

We account for our non-controlling interests in these Real Estate Ventures using the equity method. Our non-controlling ownership interests range from 5% to 50%, subject to specified priority allocations in certain of the Real Estate Ventures. Our investments, initially recorded at cost, are subsequently adjusted for our share of the Real Estate Ventures' income or loss and contributions to capital and distributions.

As of December 31, 2008, we had guaranteed repayment of approximately \$2.2 million of loans for the Real Estate Ventures. We also provide customary environmental indemnities and completion guarantees in connection with construction and permanent financing both for our own account and on behalf of the Real Estate Ventures.

Item 3. Legal Proceedings

We are involved from time to time in legal proceedings, including tenant disputes, employee disputes, disputes arising out of agreements to purchase or sell properties and disputes relating to state and local taxes. We generally consider these disputes to be routine to the conduct of our business and management believes that the final outcome of such proceedings will not have a material adverse effect on our financial position, results of operations or liquidity.

Item 4. Submission of Matters to a Vote of Security Holders

We did not submit any matters to a vote of our shareholders during the fourth quarter of the year ended December 31, 2008.

PART II**Item 5. Market for Registrant's Common Equity and Related Shareholder Matters and Issuer Purchases of Equity Securities**

Our common shares are traded on the New York Stock Exchange (NYSE) under the symbol BDN. There is no established trading market for the Class A units of the Operating Partnership. On February 23, 2009, there were 735 holders of record of our common shares and 44 holders of record of the Class A units (in addition to Brandywine Realty Trust). On February 23, 2009, the last reported sales price of the common shares on the NYSE was \$5.25. The following table sets forth the quarterly high and low sales price per common share reported on the NYSE for the indicated periods and the distributions paid by us with respect to each such period.

	Share Price	Share Price	Distributions
	High	Low	Paid During
			Quarter
First Quarter 2007	\$36.14	\$32.04	\$ 0.44
Second Quarter 2007	\$33.79	\$28.43	\$ 0.44
Third Quarter 2007	\$28.58	\$23.35	\$ 0.44
Fourth Quarter 2007	\$26.86	\$17.78	\$ 0.44
First Quarter 2008	\$19.39	\$15.70	\$ 0.44
Second Quarter 2008	\$19.86	\$15.76	\$ 0.44
Third Quarter 2008	\$18.30	\$13.48	\$ 0.44
Fourth Quarter 2008	\$15.22	\$ 3.73	\$ 0.44

For each quarter in 2008 and 2007, the Operating Partnership paid a cash distribution per Class A unit in an amount equal to the dividend paid on a common share for each such quarter.

In order to maintain the status of Brandywine Realty Trust as a REIT, we must make annual distributions to shareholders of at least 90% of our taxable income (not including net capital gains). Future distributions will be declared at the discretion of our Board of Trustees and will depend on our actual cash flow, financial condition and capital requirements, the annual distribution requirements under the REIT provisions of the Internal Revenue Code of 1986 and such other factors as our Board deems relevant.

On December 10, 2008, our Board of Trustees declared a quarterly dividend distribution of \$0.30 per common share that was paid on January 20, 2009. Our Board of Trustees has adopted a dividend policy designed to match our distributions to our projected, normalized taxable income for 2009. The change from our 2008 annual dividends paid of \$1.76 to the projected 2009 annual dividends expected to be paid of \$1.20 is designed to preserve capital in this challenging economic environment.

We will continue to evaluate the potential of paying such dividends in stock versus cash. Our Board of Trustees has made no determination on our future dividend composition.

On July 2, 2008, we filed with the NYSE our annual CEO Certification and Annual Written Affirmation pursuant to Section 303A.12 of the NYSE Listed Company Manual, each certifying that we were in compliance with all of the listing standards of the NYSE.

The following table provides information as of December 31, 2008 with respect to compensation plans under which our equity securities are authorized for issuance:

	(a)	(b)	(c)
Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity compensation plans approved by security holders (1)	1,754,648	\$ 20.41	3,298,922
Equity compensation plans not approved by security holders			
Total	1,754,648	\$ 20.41	3,298,922

(1) Relates to our Amended and Restated 1997 Long-Term Incentive Plan. In May 2007, our shareholders approved an amendment to our Amended and Restated 1997 Long-Term Incentive Plan (the 1997 Plan). The amendment provided for the merger of the Prentiss Properties Trust 2005 Share Incentive Plan (the Prentiss 2005 Plan) with

and into the
1997 Plan,
thereby
transferring into
the 1997 Plan
all of the shares
that remained
available for
award under the
Prentiss 2005
Plan. We had
previously
assumed the
Prentiss 2005
Plan, together
with other
Prentiss
incentive plans,
as part of our
January 2006
acquisition of
Prentiss
Properties Trust
(Prentiss). The
1997 Plan
reserves
500,000
common shares
solely for
awards under
options and
share
appreciation
rights that have
an exercise or
strike price at
least equal to
the market price
of the common
shares on the
date of award
and the
remaining
shares under the
1997 Plan are
available for
any type of
award,
including
restricted share
and

performance
share awards
and options.
Incentive stock
options may not
be granted with
an exercise
price below the
market price of
the common
shares on the
grant date. To
date we have
awarded
incentive stock
options and
non-qualified
stock options
that generally
have a ten year
term and vest
over a one to
three year
period.

The following table presents information related to our share repurchases during the year ended December 31, 2008:

-35-

Period	Total Number of Shares Purchased	Average Price Paid per Share	Purchased as Part of Publicly Announced Plans or Programs	Shares that May Yet Be Purchased Under the Plans or Programs (a) (in thousands)
January 2008	28,588 (b)	\$ 17.93		539,200
February 2008				539,200
March 2008	7,439 (b)	16.85		539,200
April 2008				539,200
May 2008				539,200
June 2008				539,200
July 2008				539,200
August 2008				539,200
September 2008				539,200
October 2008				539,200
November 2008				539,200
December 2008				539,200
Total	36,027			

(a) On May 2, 2006, our Board of Trustees authorized an increase in the number of common shares that we may repurchase, whether in open-market or privately negotiated transactions. The Board authorized us to purchase up to an aggregate of 3,500,000 common shares (inclusive of remaining share repurchase availability under the Board's prior authorization

from
September 2001).
There is no
expiration date on
the share
repurchase
program and the
Board can cancel
this program at
any time.

- (b) Represents
Common Shares
cancelled by the
Company upon
vesting of
restricted
Common Shares
previously
awarded to

employees in
satisfaction of tax
withholding
obligations. Such
shares do not
impact the total
number of shares
that may yet to be
purchased under
the share
repurchase
program.

SHARE PERFORMANCE GRAPH

The Securities and Exchange Commission requires us to present a chart comparing the cumulative total shareholder return on the common shares with the cumulative total shareholder return of (i) a broad equity index and (ii) a published industry or peer group index. The following chart compares the cumulative total shareholder return for the common shares with the cumulative shareholder return of companies on (i) the S&P 500 Index (ii) the Russell 2000 and (iii) the NAREIT ALL-REIT Total Return Index as provided by NAREIT for the period beginning December 31, 2003 and ending December 31, 2008.

<i>Index</i>	<i>Period Ending</i>					
	12/31/03	12/31/04	12/31/05	12/31/06	12/31/07	12/31/08
Brandywine Realty Trust	100.00	116.65	117.88	146.28	83.71	40.05
S&P500	100.00	110.88	116.33	134.70	142.10	89.53

Item 6. Selected Financial Data

The following table sets forth selected financial and operating data and should be read in conjunction with the financial statements and related notes and Management's Discussion and Analysis of Financial Condition and Results of Operations included in this Annual Report on Form 10-K. The selected data have been revised to reflect disposition of all properties since January 1, 2004, which have been reclassified as discontinued operations for all periods presented in accordance with SFAS No. 144. The selected financial data have also been revised to reflect other reclassifications that are disclosed in Note 2 of the Consolidated Financial Statements of each registrant.

(a) Income from continuing operations and net income have been reduced by \$0.6 million and

\$0.8 million for the year ended December 31, 2005 and 2004, respectively, related to the Tax Withholding adjustment discussed in Note 2 of the Consolidated Financial Statements.

- (b) Includes \$0.02 special distribution declared in December 2005 for unitholders of record for the period January 1, 2006 through January 4, 2006 (pre-Prentiss merger period).

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the consolidated financial statements appearing elsewhere herein and is based primarily on our consolidated financial statements for the years ended December 31, 2008, 2007 and 2006.

OVERVIEW

As of December 31, 2008, we managed our portfolio within six geographic segments: (1) Pennsylvania, (2) Metropolitan Washington D.C., (3) New Jersey/Delaware, (4) Richmond, Virginia, (5) California and (6) Austin, Texas. The Pennsylvania segment includes properties in Chester, Delaware, Bucks, and Montgomery counties in the Philadelphia suburbs and the City of Philadelphia in Pennsylvania. The Metropolitan Washington, D.C. segment includes properties in Northern Virginia and suburban Maryland. The New Jersey/Delaware segment includes properties in counties in the southern and central part of New Jersey including Burlington, Camden and Mercer counties and in the state of Delaware. The Richmond, Virginia segment includes properties primarily in Albemarle, Chesterfield and Henrico counties, the City of Richmond and Durham, North Carolina. The California segment includes properties in Oakland, Concord, Carlsbad and Rancho Bernardo. The Austin, Texas segment includes properties in Austin and Coppell.

We generate cash and revenue from leases of space at our properties and, to a lesser extent, from the management of properties owned by third parties and from investments in the Real Estate Ventures. Factors that we evaluate when leasing space include rental rates, costs of tenant improvements, tenant creditworthiness, current and expected operating costs, the length of the lease, vacancy levels and demand for office and industrial space. We also generate cash through sales of assets, including assets that we do not view as core to our portfolio, either because of location or expected growth potential, and assets that are commanding premium prices from third party investors.

Factors that May Influence Future Results of Operations

Global Market and Economic Conditions

In the U.S., recent market and economic conditions have been unprecedented and challenging with tighter credit conditions and slower growth through the fourth quarter of 2008. As a result of these market conditions, the cost and availability of credit has been and may continue to be adversely affected by illiquid credit markets and wider credit spreads. Concern about the stability of the markets generally and the strength of counterparties specifically has led may lenders and institutional investors to reduce, and in some cases, cease to provide funding to borrowers. Continued turbulence in the U.S. and international markets and economies may adversely affect our liquidity and financial condition, and the liquidity and financial condition of our tenants. If these market conditions continue, they may limit our ability and the ability of our tenants, to timely refinance maturing liabilities and access the capital markets to meet liquidity needs.

Real Estate Asset Valuation

General economic conditions and the resulting impact on market conditions or a downturn in tenants' businesses may adversely affect the value of our assets. Periods of economic slowdown or recession in the U.S., declining demand for leased office or industrial properties and/or a decrease in market rental rates and/or market values of real estate assets in our submarkets could have a negative impact on the value of our assets, including the value of our properties and related tenant improvements. If we were required under GAAP to write down the carrying value of any of our properties to the lower of cost or market due to impairment, or if as a result of an early lease termination we were required to remove or dispose of material amounts of tenant improvements that are not reusable to another tenant, our financial condition and results of operations would be negatively affected.

Leasing Activity and Rental Rates

The amount of net rental income generated by our properties depends principally on our ability to maintain the occupancy rates of currently leased space and to lease currently available space, newly developed or redeveloped properties and space available from unscheduled lease terminations. The amount of rental income we generate also depends on our ability to maintain or increase rental rates in our submarkets. Negative trends in one or more of these factors could adversely affect our rental income in future periods.

Development and Redevelopment Programs

Historically, a significant portion of our growth has come from our development and redevelopment efforts. We have a proactive planning process by which we continually evaluate the size, timing, costs and scope of our development and redevelopment programs and, as necessary, scale activity to reflect the economic conditions and the real estate fundamentals that exist in our strategic submarkets. Given the economic conditions, we do not intend to commence new development or redevelopment projects in the foreseeable future. We believe that our current capital plan allows for us to continue the development and redevelopment projects that are currently underway.

We believe that a portion of our future potential growth will continue to come from our newly developed or redeveloped properties once current economic conditions normalize. However, we anticipate that the general economic conditions and the resulting impact on conditions in our core markets will delay timing and reduce the scope of our development program in the near future, which will further impact the average development and redevelopment asset balances qualifying for interest and other carry cost capitalization. We cease capitalizing such costs once a project does not qualify for interest and other carry cost capitalization under GAAP.

In addition, we may be unable to lease committed development or redevelopment properties at expected rental rates or within projected timeframes or complete development or redevelopment properties on schedule or within budgeted amounts, which could adversely affect our financial condition, results of operations and cash flow.

Financial and Operating Performance

Our financial and operating performance is dependent upon the demand for office, industrial and other commercial space in our markets, our leasing results, our acquisition, disposition and development activity, our financing activity, our cash requirements and economic and market conditions, including prevailing interest rates.

In seeking to increase revenue through our operating, financing and investment activities, we also seek to minimize operating risks, including (i) tenant rollover risk, (ii) tenant credit risk and (iii) development risk.

Tenant Rollover Risk:

We are subject to the risk that tenant leases, upon expiration, are not renewed, that space may not be relet, or that the terms of renewal or reletting (including the cost of renovations) may be less favorable to us than the current lease terms. Leases accounting for approximately 9.6% of our aggregate final annualized base rents as of December 31, 2008 (representing approximately 8.9% of the net rentable square feet of the Properties) expire without penalty in 2009. We maintain an active dialogue with our tenants in an effort to maximize lease renewals. Our retention rate for leases that were scheduled to expire in 2008 was 72.7%. If we are unable to renew leases or relet space under expiring leases, at anticipated rental rates, or if tenants terminate their leases early, our cash flow would be adversely impacted.

Tenant Credit Risk:

In the event of a tenant default, we may experience delays in enforcing our rights as a landlord and may incur substantial costs in protecting our investment. Our management regularly evaluates our accounts receivable reserve policy in light of our tenant base and general and local economic conditions. Our accounts receivable allowance was \$15.5 million or 13.6% of total receivables (including accrued rent receivable) as of December 31, 2008 compared to \$10.2 million or 9.2% of total receivables (including accrued rent receivable) as of December 31, 2007.

If economic conditions persist or deteriorate further, we may experience increases in past due accounts, defaults, lower occupancy and reduced effective rents. This condition would negatively affect our future net income and cash flows and could have a material adverse effect on our financial condition.

Development Risk:

We plan to reduce capital expenditures during 2009 compared to prior years by concentrating only on those capital expenditures that are absolutely necessary. At December 31, 2008, we were proceeding on two developments and six redevelopments sites aggregating 2.3 million square feet with total projected costs of \$440.7 million of which \$294.3 million remained to be funded. These amounts include \$355.5 million of total project costs for the combined 30th Street Post Office (100% pre-leased to the Internal Revenue Service) and Cira South Garage (94.3% pre-leased to the Internal Revenue Service) in Philadelphia, Pennsylvania of which \$275.7 million remained to be funded at December 31, 2008. We are also finishing the lease-up of four recently completed developments for which we expect to spend

an additional \$38.0 million in 2009. We are actively marketing space at these projects to prospective tenants but can provide no assurance as to the timing or terms of any leases of space at these projects.

As of December 31, 2008, we owned approximately 495 acres of undeveloped land. We currently have no plans to develop these land parcels and instead will look to opportunistically dispose of them to generate additional liquidity. However, if circumstances change and we decide to proceed with development, we would be subject to risks associated with development of this land including construction cost increases or overruns and construction delays, insufficient occupancy rates, building moratoriums and inability to obtain necessary zoning, land-use, building, occupancy and other required governmental approvals.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Management's Discussion and Analysis of Financial Condition and Results of Operations discuss our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses for the reporting periods. Certain accounting policies are considered to be critical accounting policies, as they require management to make assumptions about matters that are highly uncertain at the time the estimate is made and changes in the accounting estimate are reasonably likely to occur from period to period. Management believes the following critical accounting policies reflect our more significant judgments and estimates used in the preparation of our consolidated financial statements. For a summary of all of our significant accounting policies, see Note 2 to our consolidated financial statements included elsewhere in this report.

Revenue Recognition

We recognize rental revenue on the straight-line basis from the later of the date of the commencement of the lease or the date of acquisition of the property subject to existing leases, which averages minimum rents over the terms of the leases. Certain lease agreements contain provisions that require tenants to reimburse a pro rata share of real estate taxes and common area maintenance costs.

Real Estate Investments

Real estate investments are carried at cost. We record acquisition of real estate investments under the purchase method of accounting and allocate the purchase price to land, buildings and intangible assets on a relative fair value basis. Depreciation is computed using the straight-line method over the useful lives of buildings and capital improvements (5 to 55 years) and over the shorter of the lease term or the life of the asset for tenant improvements. Direct construction costs related to the development of Properties and land holdings are capitalized as incurred. Capitalized costs include pre-construction costs essential to the development of the property, development and construction costs, interest, property taxes, insurance, salaries and other project costs during the period of development. Estimates and judgments are required in determining when capitalization of certain costs such as interest should commence and cease. We expense routine repair and maintenance expenditures and capitalize those items that extend the useful lives of the underlying assets.

Real Estate Ventures

When we obtain an economic interest in an entity, we evaluate the entity to determine if the entity is deemed a variable interest entity (VIE), and if we are deemed to be the primary beneficiary, in accordance with FASB Interpretation No.46R, Consolidation of Variable Interest Entities (FIN 46R). FIN 46R requires significant use of judgments and estimates in determining its application. If the entity is not deemed to be a VIE, and we serve as the general partner within the entity, we evaluate to determine if our presumed control as the general partner is overcome by the kick out rights and other substantive participating rights of the limited partners in accordance with EITF 04-05, Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights (EITF 04-05).

We consolidate (i) entities that are VIEs and of which we are deemed to be the primary beneficiary and (ii) entities that are non-VIEs which we control. Entities that we account for under the equity method (i.e., at cost, increased or decreased by our share of earnings or losses, less distributions) include (i) entities that are VIEs and of which we are

not deemed the primary beneficiary and (ii) entities that are non-VIEs which we do not control, but over which we have the ability to exercise significant influence. We will reconsider our determination of whether an entity is a VIE and who the primary beneficiary is if events occur that are likely to cause a change in the original determinations. On a periodic basis, management assesses whether there are any indicators that the value of our investments in unconsolidated joint ventures may be impaired. An investment is impaired only if management's estimate of the value of the investment is less than the carrying value of the investment, and such decline in value is deemed to be other than temporary. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying amount of the investment over the fair value of the investment. Our estimates of value for each investment (particularly in commercial real estate joint ventures) are based on a number of assumptions that are subject to economic and market uncertainties including, among others, demand for space, competition for tenants, changes in market rental rates, and operating costs. As these factors are difficult to predict and are subject to future events that may alter management's assumptions; accordingly, the values estimated by management in its impairment analyses may not be realized.

Impairment of Long-Lived Assets

We review long-lived assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The review of recoverability is based on an estimate of the future undiscounted cash flows (excluding interest charges) expected to result from the long-lived asset's use and eventual disposition. These cash flows consider factors such as expected future operating income, trends and prospects, as well as the effects of leasing demand, competition and other factors. If impairment exists due to the inability to recover the carrying value of a long-lived asset, an impairment loss is recorded to the extent that the carrying value exceeds the estimated fair-value of the property. We are required to make subjective assessments as to whether there are impairments in the values of the investments in long-lived assets. These assessments have a direct impact on our net income because recording an impairment loss results in an immediate negative adjustment to net income. The evaluation of anticipated cash flows is highly subjective and is based in part on assumptions regarding future occupancy, rental rates and capital requirements that could differ materially from actual results in future periods. There were also operating properties evaluated as they have been identified for potential sale. No impairment was determined; however, if actual cashflows or the estimated holding period change, an impairment could be recorded in the future and it could be material. Although our strategy is generally to hold our properties over the long-term, we will dispose of properties to meet our liquidity needs or for other strategic needs. If our strategy changes or market conditions otherwise dictate an earlier sale date, an impairment loss may be recognized to reduce the property to the lower of the carrying amount or fair value less costs to sell, and such loss could be material. If we determine that impairment has occurred, the affected assets must be reduced to their fair-value.

Where properties have been identified as having a potential for sale, additional judgments are required related to the determination as to the appropriate period over which the undiscounted cash flows should include the operating cash flows and the amount included as the estimated residual value. Management determines the amounts to be included based on a probability weighted cash flow. This requires significant judgment. In some cases, the results of whether an impairment is indicated are sensitive to changes in assumptions input into the estimates, including the hold period until expected sale. At December 31, 2008, we performed an impairment assessment of our land holdings as management determined that a sale scenario was the most likely source of future cash flows for the majority the land parcels. This impairment assessment required management to estimate the expected proceeds from sale at some point in the future, to determine whether an impairment was indicated. This estimate requires significant judgment. Where impairment was indicated, an impairment charge was recorded to reduce the land to its estimated fair value. If the estimated fair value, our expectations as to the expected sales proceeds, or timing of the anticipated sale change based on market conditions or otherwise, our evaluation of impairment could be different and such differences could be material. We also recorded an impairment on properties designated as held for sale at June 30, 2008 of \$6.85 million; these properties were sold in the quarter ending December 31, 2008.

Income Taxes

The Company has elected to be treated as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the "Code"). In addition, the Company has several subsidiary REITs. In order to maintain their

qualification as a REIT, the Company and each of its REIT subsidiaries are required to, among other things, distribute at least 90% of their REIT taxable income to its stockholders and meet certain tests regarding the nature of its income and assets. As REITs, the Company and its REIT subsidiaries are not subject to federal income tax with respect to the portion of its income that meets certain criteria and is distributed annually to the stockholders. Accordingly, no provision for federal income taxes is included in the accompanying consolidated financial statements with respect to the operations of these REITs. The Company and its REIT subsidiaries intend to continue to operate in a manner that allows them to continue to meet the requirements for taxation as REITs. Many of these requirements, however, are highly technical and complex. If the Company or one of its REIT subsidiaries were to fail to meet these requirements, the Company would be subject to federal income tax.

-43-

The Company may elect to treat one or more of its subsidiaries as a taxable REIT subsidiary (TRS). In general, a TRS of the Company may perform additional services for our tenants and generally may engage in any real estate or non-real estate related business (except for the operation or management of health care facilities or lodging facilities or the provision to any person, under a franchise, license or otherwise, of rights to any brand name under which any lodging facility or health care facility is operated). A TRS is subject to corporate federal income tax. The Company has elected to treat certain of its corporate subsidiaries as TRSs; these entities provide third party property management services and certain services to tenants that could not otherwise be provided.

Allowance for Doubtful Accounts

We maintain an allowance for doubtful accounts that represents an estimate of losses that may be incurred from the inability of tenants to make required payments. The allowance is an estimate based on two calculations that are combined to determine the total amount reserved. First, we evaluate specific accounts where we have determined that a tenant may have an inability to meet its financial obligations. In these situations, we use our judgment, based on the facts and circumstances, and record a specific reserve for that tenant against amounts due to reduce the receivable to the amount that we expect to collect. These reserves are re-evaluated and adjusted as additional information becomes available. Second, a reserve is established for all tenants based on a range of percentages applied to receivable aging categories. If the financial condition of our tenants were to deteriorate, additional allowances may be required.

Deferred Costs

We incur direct costs related to the financing, development and leasing of our properties. Management exercises judgment in determining whether such costs meet the criteria for capitalization or must be expensed. Capitalized financing fees are amortized over the related loan term and capitalized leasing costs are amortized over the related lease term. Management re-evaluates the remaining useful lives of leasing costs as the creditworthiness of our tenants and economic and market conditions change.

Purchase Price Allocation

We allocate the purchase price of properties to net tangible and identified intangible assets acquired based on fair values. Above-market and below-market in-place lease values for acquired properties are recorded based on the present value (using an interest rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to the in-place leases and (ii) our estimate of the fair market lease rates for the corresponding in-place leases, measured over a period equal to the remaining non-cancellable term of the lease. Capitalized above-market lease values are amortized as a reduction of rental income over the remaining non-cancellable terms of the respective leases. Capitalized below-market lease values are amortized as an increase of rental income over the remaining non-cancellable terms of the respective leases, including any fixed-rate renewal periods.

Other intangible assets also include amounts representing the value of tenant relationships and in-place leases based on our evaluation of the specific characteristics of each tenant's lease and our overall relationship with the respective tenant. We estimate the cost to execute leases with terms similar to the remaining lease terms of the in-place leases, include leasing commissions, legal and other related expenses. This intangible asset is amortized to expense over the remaining term of the respective leases. We estimate fair value through methods similar to those used by independent appraisers or by using independent appraisals. Factors that we consider in our analysis include an estimate of the carrying costs during the expected lease-up periods considering current market conditions and costs to execute similar leases. We also consider information obtained about each property as a result of our pre-acquisition due diligence, marketing and leasing activities in estimating the fair value of the tangible and intangible assets acquired. In estimating carrying costs, we include real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods, which primarily range from three to twelve months. Characteristics that we consider in allocating value to our tenant relationships include the nature and extent of our business relationship with the tenant, growth prospects for developing new business with the tenant, the tenant's credit quality and expectations of lease renewals. The value of tenant relationship intangibles is amortized over the remaining initial lease term and expected renewals, but in no event longer than the remaining depreciable life of the building. The value of in-place leases is amortized over the remaining non-cancellable term of the respective leases and any fixed-rate renewal periods.

In the event that a tenant terminates its lease, the unamortized portion of each intangible, including market rate adjustments, in-place lease values and tenant relationship values, would be charged to expense.

RESULTS OF OPERATIONS

Comparison of the Year Ended December 31, 2008 to the Year Ended December 31, 2007

The table below shows selected operating information for the Same Store Property Portfolio and the Total Portfolio. The Same Store Property Portfolio consists of 224 properties containing an aggregate of approximately 21.5 million net rentable square feet that we owned for the entire twelve-month periods ended December 31, 2008 and 2007. This table also includes a reconciliation from the Same Store Property Portfolio to the Total Portfolio net income (i.e., all properties owned by us during the twelve-month periods ended December 31, 2008 and 2007) by providing information for the properties which were acquired, under development (including lease-up assets) or placed into service and administrative/elimination information for the twelve-month periods ended December 31, 2008 and 2007 (in thousands).

We have a significant, continuing involvement in the G&I Interchange Office LLC joint venture through our 20% ownership interest and the management and leasing services we provide for the venture. Accordingly, under EITF 03-13, *Applying the Conditions in Paragraph 42 of FASB Statement No. 144 in Determining Whether to Report Discontinued Operations*, we have determined that the operations of the properties owned by the joint venture (the G&I properties) should not be included in discontinued operations. This determination is reflected in the income statement comparisons below as we recognized revenue and expenses during the twelve-months ended December 31, 2007 for our 100% ownership interest through the date of sale on December 21, 2007 and such information related to the G&I properties is included in the Other (Eliminations) column.

The Total Portfolio net income presented in the table is equal to the net income of Brandywine Realty Trust. The only difference between the reported net income of Brandywine Realty Trust and Brandywine Operating Partnership is the allocation of the minority interest attributable to continuing and discontinued operations for limited partnership units that is on the statement of operations for Brandywine Realty Trust.

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-K

EXPLANATORY NOTES

- (a) - Results include:
two developments
and six
redevelopment
properties.
- (b) - Represents
certain revenues

and expenses at the corporate level as well as various intercompany costs that are eliminated in consolidation and third-party management fees. Also included are revenues and expenses from the 29 G&I Properties.

Total Revenue

Cash rents from the Total Portfolio increased by \$2.7 million from 2007 to 2008, primarily reflecting:

- 1) An additional \$8.4 million at the Same Store Portfolio from increased rents received on lease renewals and free rent periods converting to cash rent. This free rent conversion is the primary reason for the decrease in Total Portfolio straight-line rental income.
- 2) An additional \$13.9 million from six properties that we acquired and ten development/redevelopment properties that we completed and placed in service subsequent to 2007.
- 3) An additional \$3.6 million of rental income due to increased occupancy at eight development/redevelopment properties in 2008 in comparison to 2007.
- 4) The increase was offset by the decrease of \$25.1 million of rental income earned from our G&I properties during 2007.

Tenant reimbursements increased by \$3.0 million from 2007 to 2008 primarily due to the increase in property operating expenses at our Same Store Portfolio. Tenant reimbursements increased by \$4.7 million at our same store portfolio and the property operating expenses at those properties increased by \$4.7 million. These increases are offset by the activity of the G&I properties during 2007.

Third party management fees, labor reimbursement and leasing increased by \$0.7 million from 2007 to 2008 as a result of a greater number of properties that we are managing for third parties. The 29 G&I properties make up a significant portion of the increase in the number of properties that we manage for third parties.

Property Operating Expenses

Property operating expenses, including real estate taxes and third party management expenses, at the Total Portfolio decreased by \$1.7 million from 2007 to 2008, primarily due to \$11.9 million of such expenses for the G&I properties in 2007. The decrease was offset by \$3.8 million of property operating expenses and real estate taxes from six properties that we acquired and ten development/redevelopment properties that we completed and placed in service subsequent to 2007. Property operating expenses and real estate taxes at our Same Store Portfolio and our eight development/redevelopment properties also increased by \$4.7 million and \$2.0 million, respectively, from 2007 to 2008.

Depreciation and Amortization Expense

Depreciation and amortization decreased by \$17.3 million from 2007 to 2008, primarily due to \$11.3 million of depreciation and amortization expense recorded on the G&I properties during 2007. In addition, depreciation and amortization decreased by \$5.2 million at our Same Store Portfolio due to assets within the Same Store Portfolio being fully amortized subsequent to 2007.

General & Administrative Expenses

General & administrative expenses decreased by \$4.9 million from 2007 to 2008 of which approximately \$2.3 million was a result of the final determination of 2007 bonus awards to our executive management, thereby resulting in a reduction to the estimated payout that was accrued during 2007. We incurred \$2.4 million of severance costs in 2008 and \$1.9 million of severance costs in 2007. These measures and other corporate level cost saving strategies resulted in the remainder of the decrease from the prior year.

Interest Income/ Expense

The decrease in interest income by approximately \$2.2 million is due to lower cash balances during the period ended December 31, 2008.

Interest expense decreased by \$14.4 million primarily due to lower mortgage notes payable outstanding during the year ending December 31, 2008 in comparison to December 31, 2007 as a result of certain mortgage notes payable being paid off subsequent to 2007. The decrease is also the result of a lower outstanding balance and lower weighted average interest rate on Credit Facility borrowings during 2008 in comparison to 2007.

Loss on Settlement of Treasury Lock Agreements

In July 2007, in anticipation of an expected debt offering, we entered into four treasury lock agreements. The treasury lock agreements were designated as cash flow hedges on interest rate risk and qualified for hedge accounting. The agreements were settled on September 21, 2007, the original termination date of each agreement, at a total cost of \$3.7 million. During the fourth quarter of 2007, we determined that the planned debt issuance was remote and recorded \$3.7 million as an expense for the residual balance of \$3.7 million. No such settlement occurred during the year ending December 31, 2008.

Provision for impairment on land inventory

As part of our review of long-lived assets in accordance with FAS 144, during the quarter ending December 31, 2008, management determined that certain of the parcels in our land inventory had historical carrying values in excess of the current estimate of their fair value. These parcels are designated as parcels that are available for sale and as such, our impairment was recorded based on management's estimate of the current fair value of the land inventory.

Gain on early extinguishment of debt

During the year-ended December 31, 2008, we repurchased \$63.0 million of our \$345.0 million 3.875% Guaranteed Exchangeable Notes, \$78.3 million of our \$275.0 million 4.500% Guaranteed Notes due 2009 and \$24.5 million of our \$300.0 million 5.625% Guaranteed Notes due 2010 which resulted in a \$20.7 million gain that we reported for the early extinguishment of debt on our consolidated statement of operations. In addition, we accelerated amortization of the related deferred financing costs of \$1.1 million.

Minority Interest attributable to continuing operations - LP units

Minority interest attributable to continuing operations - LP units, represents the equity in loss (income) attributable to the portion of the Operating Partnership not owned by us. Minority interests owned 3.1% and 4.2% of the Operating Partnership as of December 31, 2008 and 2007, respectively.

Discontinued Operations

During the twelve-month period ended December 31, 2008, we sold one property in Allentown, PA, one property in Mount Laurel, NJ, one property in Newtown, PA, five properties in Oakland, CA and one property in Richmond, VA. These properties had total revenue of \$42.1 million, operating expenses of \$18.6 million, depreciation and amortization expenses of \$9.6 million and minority interest attributable to discontinued operations of \$1.2 million. We also recorded a \$6.85 million provision for impairment in connection with the five properties in Oakland, CA which reduced our income from discontinued operations.

The December 31, 2007 amount is reclassified to include the operations of the properties sold during the twelve-month period ended December 31, 2008, as well as the 20 properties that were sold during the year ended December 31, 2007. Therefore, the discontinued operations amount for the twelve-month period ended December 31, 2007 includes 29 sold properties with total revenue of \$75.7 million, operating expenses of \$32.3 million, depreciation and amortization expense of \$23.8 million and minority interest attributable to discontinued operations of \$1.7 million.

Net Income

Net income decreased by \$13.2 million from the twelve-month period ended December 31, 2007 as a result of the factors described above. Net income is significantly impacted by depreciation of operating properties and amortization of acquired intangibles. These non-cash charges do not directly affect our ability to pay dividends. Such charges can be expected to continue until the lease intangibles are fully amortized. These intangibles are amortizing over the related lease terms or estimated duration of the tenant relationship.

Earnings per Common Share

Earnings per share (basic and diluted) were \$0.41 for the twelve-month period ended December 31, 2008 as compared to \$0.56 for the twelve-month period ended December 31, 2007 as a result of the factors described above and an increase in the average number of common shares outstanding. The increase in the average number of common shares outstanding is the result of a partnership unit conversion to common shares during 2008 and the issuance of common shares upon the vesting of restricted common shares.

-49-

RESULTS OF OPERATIONS

Comparison of the Year Ended December 31, 2007 to the Year Ended December 31, 2006

The table below shows selected operating information for the Same Store Properties and the Total Portfolio. The Same Store Properties consists of 228 properties containing an aggregate of approximately 22.5 million net rentable square feet that we owned for the entire twelve-month periods ended December 31, 2007 and substantially all of the period ended December 31, 2006. We consider the properties that we acquired in the Prentiss merger on January 5, 2006 as part of our Same Store Portfolio and, therefore, the results of operations for the year ended December 31, 2006 do not include four days of activity. This table also includes a reconciliation from the Same Store Properties to the Total Portfolio (i.e., all properties owned by us as of December 31, 2007 and 2006) by providing information for the properties which were acquired, under development, redevelopment or placed into service and administrative/elimination information for the years ended December 31, 2007 and 2006.

The Total Portfolio net income presented in the table agrees to the net income of Brandywine Realty Trust. The only difference between the reported net income of Brandywine Realty Trust and Brandywine Operating Partnership is the allocation of the minority interest attributable to continuing and discontinued operations for limited partnership units of the Operating Partnership that is reflected in the statement of operations for Brandywine Realty Trust.

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-K

EXPLANATORY NOTES

- (a) - Results include: seven developments and seven redevelopment properties.
- (b) - Represents certain revenues

and expenses at the corporate level as well as various intercompany costs that are eliminated in consolidation and third-party management fees. Also included are revenues and expenses from the 29 G&I properties.

Total Revenue

Cash rents from the Total Portfolio increased by \$38.5 million from 2006 to 2007, primarily reflecting:

- 1) An additional \$5.3 million at the Same Store Portfolio from increased occupancy and increased rents received on lease renewals.
- 2) An additional \$41.0 million from six properties that we acquired during 2007 and six development/redevelopment properties (including additional occupancy at Cira Centre) that we completed and placed in service in 2007 and two that were placed in service in December 2006.
- 3) These increases were offset by the decrease of \$8.6 million in cash rents at our development/redevelopment properties primarily as a result of six buildings, which are now included in redevelopment, that were occupied during 2006.

Our rents at the Total Portfolio that we recognized from the net amortization of above and below market leases at acquired properties, in conformity with SFAS No. 141, increased by \$4.2 million primarily as a result of \$1.2 million of above market leases in our Same Store Portfolio being fully amortized and the acquisition of eight properties during 2007. Two of these properties are included in the Development/Redevelopment properties.

Tenant reimbursements at the Total Portfolio increased by \$6.6 million primarily as a result of increased operating expenses of \$21.0 million.

Operating Expenses and Real Estate Taxes

Property operating expenses, including real estate taxes, at the Total Portfolio increased by \$21.0 million from 2006 to 2007, primarily reflecting:

- 1) An increase of \$5.8 million at the Same Store Portfolio, primarily due to increased occupancy and real estate tax reassessments. Increased occupancy at our properties causes an increase in the amount of expense incurred for utilities, security, and janitorial services.
- 2) The incurrence of \$13.5 million of property operating expenses for six of the properties acquired during 2007 and eight development/redevelopment properties that we completed and placed in service during or after December 2006.

Depreciation and Amortization Expense

Depreciation and amortization increased by \$11.6 million in 2007 compared to 2006, primarily reflecting:

- 1) The incurrence of \$22.0 million of depreciation and amortization expense on account of six properties that we acquired during 2007 and eight development/redevelopment properties (including additional occupancy at Cira Centre) that we completed and placed in service during or after December 2006.
- 2) This increase was offset by \$11.9 million of accelerated depreciation expense for one of our properties (50 E. Swedesford Road) which was demolished as part of an office park development in suburban Philadelphia during 2006. This property is included in Development/Redevelopment Properties.
- 3) The increase is also offset by a decrease of \$1.5 million in our Same Store Portfolio. This decrease is the result of assets within our Same Store Portfolio being fully amortized subsequent to 2006.

Administrative Expenses

Our administrative expenses decreased by approximately \$1.5 million in 2007 compared to 2006, primarily reflecting higher costs that we incurred in 2006 as part of our integration activities following our January 2006 merger with Prentiss partially offset by the severance costs incurred in the third quarter of 2007.

Interest Income/ Expense

We used our investment in marketable securities to pay down defeased debt in the fourth quarter of 2006. This pay down caused a decrease of \$6.0 million in interest income. This decrease was partially offset by the amount of interest income earned on funds held in escrow with a qualified intermediary as part of completed 1031 like-kind transactions. Interest expense decreased by \$8.5 million primarily due to an increase in capitalized interest of \$7.9 million during 2007 compared to 2006. The increased amount of capitalized interest is the result of a greater number of development and redevelopment projects and increased project funding for those projects that are under development in both periods. At December 31, 2007, we had seven projects under development and seven projects under redevelopment with total project costs of \$249.8 million on which we are presently capitalizing interest. As of December 31, 2006, we had six projects under development and three projects under redevelopment with total project costs of \$141.2 million on which we were capitalizing interest through that date.

This decrease was offset by increased interest expense on our unsecured debt based on the timing of the issuances of unsecured debt during 2007 and 2006 as noted in the liquidity and capital resources section below.

Loss on Settlement of Treasury Lock Agreements

In July 2007, in anticipation of an expected debt offering, we entered into four treasury lock agreements. The treasury lock agreements were designated as cash flow hedges on interest rate risk and qualified for hedge accounting. The agreements were settled on September 21, 2007, the original termination date of each agreement, at a total cost of \$3.7 million. During the fourth quarter of 2007, we determined that the planned debt issuance was remote and recorded \$3.7 million as an expense for the residual balance of \$3.7 million.

Equity in income of Real Estate Ventures

The increase of \$4.8 million over 2006 is primarily due to a distribution of \$3.9 million received as a result of our residual profit interest in a Real Estate Venture and the completion of an office property that was placed in service by a Real Estate Venture during 2007.

Net gain on disposition of depreciated real estate

As more fully discussed in Note 3 to our Consolidated Financial Statements, we recognized a gain on the partial transfer of interests in properties to which we retained a significant continuing involvement with the properties through our joint venture interest and our management and leasing services. As a result of this continuing involvement, we have determined that the gain on disposition and the operations of the properties should not be included in discontinued operations.

Net gain on disposition of undepreciated real estate

This line represents the gain recorded in each year for undeveloped land parcels that were sold. The parcels are not included in discontinued operations since they were not developed prior to sale. We sold seven land parcels in 2007 and three in 2006.

Gain on termination of purchase contract

We held a fifty percent economic interest in an approximately 141,724 square foot office building located at 101 Paragon Drive, Montvale, New Jersey. The remaining fifty percent interest was held by Donald E. Axinn, one of the Company's Trustees. Although we and Mr. Axinn had each committed to provide one half of the \$11 million necessary to repay the mortgage loan secured by this property at the maturity of the

loan, in February 2006 an unaffiliated third party entered into an agreement to purchase this property for \$18.3 million. As a result of the purchase by an unaffiliated third party during August 2006, we recognized a \$3.1 million gain on termination of our rights under a 1998 contribution agreement, modified in 2005, that entitled us to the fifty percent interest in the joint venture to operate the property.

Minority Interest-partners share of consolidated Real Estate Ventures

Minority interest-partners share of consolidated Real Estate Ventures represents the portion of income from our consolidated Real Estate Ventures that is allocated to our minority interest partners.

As of December 31, 2007 we held an ownership interest in three properties through consolidated Real Estate Ventures, compared to 14 properties owned by consolidated Real Estate Ventures at December 31, 2006.

On March 1, 2007, we acquired the 49% minority interest in one of our consolidated real estate ventures that owned 10 office properties containing an aggregate of 1.1 million net rentable square feet for a purchase price of \$63.7 million.

Minority Interest attributable to continuing operations LP units

Minority interest attributable to continuing operations LP units, represents the equity in loss (income) attributable to the portion of the Operating Partnership not owned by us. Minority interests owned 4.2% and 4.6% of the Operating Partnership as of December 31, 2007 and 2006, respectively.

Discontinued Operations

During 2007, we sold one property in East Norriton, PA, five properties in Dallas, TX, 11 properties in Reading and Harrisburg, PA, one in Voorhees, NJ, one property in West Norriton, PA and one property in Newark, DE. These properties had total revenue of \$14.6 million, operating expenses of \$11.4 million, gains on sale of \$25.7 million and minority interest attributable to discontinued operations of \$1.2 million.

The December 31, 2006 amount is reclassified to include the operations of the properties sold during 2007, as well as the 23 properties that were sold during the year ended December 31, 2006. Therefore, the discontinued operations amount for the year-ended 2006 includes 43 properties with total revenue of \$92.7 million, operating expenses of \$79.3 million, interest expense of \$0.8 million and minority interest of \$1.9 million. The eight properties that were sold in the first quarter of 2006 did not have gains on sale since such properties were acquired as part of the Prentiss merger and the value ascribed to those properties in purchase accounting was approximately the fair value amount for which the properties were sold.

Net Income

Net income increased by \$47.5 million from 2006 primarily as a result of an increase of \$22.6 million in Operating Income and the gain on disposition of depreciated real estate of \$40.5 million noted above. These increases are offset by the gain on sale of undepreciated real estate of \$14.2 million and gain on termination of our purchase contract of \$3.1 million earned in 2006. Net income is significantly impacted by depreciation of operating properties and amortization of acquired intangibles. These charges do not affect our ability to pay dividends and may not be comparable to those of other real estate companies. Such charges can be expected to continue until the values ascribed to the lease intangibles are fully amortized. These intangibles are amortizing over the related lease terms or estimated duration of the tenant relationship.

Earnings per Common Share

Earnings per share (basic and diluted) were \$0.56 for 2007 as compared to \$0.03 for 2006 as a result of the factors described above and a decrease in the average number of common shares outstanding. The

decrease in the average number of common shares outstanding is the result of 1.8 million shares repurchased in 2007 and 1.2 million shares that we repurchased in 2006. This decrease in the number of shares was partially offset by the issuance of shares upon option exercises and restricted share vesting.

-55-

LIQUIDITY AND CAPITAL RESOURCES

General

Our principal liquidity needs for the next twelve months are as follows:

fund normal recurring expenses,

fund capital expenditures, including capital and tenant improvements and leasing costs,

fund repayment of certain debt instruments when they mature,

fund current development and redevelopment costs, and

fund distributions declared by our Board of Trustees.

We believe that with the general downturn in the economy, it is reasonably likely that vacancy rates may continue to increase, effective rental rates on new and renewed leases may continue to decrease and tenant installation costs, including concessions, may continue to increase in most or all of our markets in 2009 and possibly beyond. As a result of the potential negative effects on our revenue from the overall reduced demand for office space, our cash flow could be insufficient to cover increased tenant installation costs over the short-term. If this situation were to occur, we expect that we would finance any shortfalls through borrowings under our Credit Facility and other debt and equity financings.

We believe that our liquidity needs will be satisfied through cash flows generated by operations, financing activities and selective Property sales. Rental revenue, expense recoveries from tenants, and other income from operations are our principal sources of cash that we use to pay operating expenses, debt service, recurring capital expenditures and the minimum distributions required to maintain our REIT qualification. We seek to increase cash flows from our properties by maintaining quality standards for our properties that promote high occupancy rates and permit increases in rental rates while reducing tenant turnover and controlling operating expenses. Our revenue also includes third-party fees generated by our property management, leasing, developments and construction businesses. We believe our revenue, together with proceeds from property sales and secured debt financings, will continue to provide funds for our short-term liquidity needs. However, material changes in our operating or financing activities may adversely affect our net cash flows. Such changes, in turn, would adversely affect our ability to fund distributions, debt service payments and tenant improvements. In addition, a material adverse change in our cash provided by operations would affect the financial performance covenants under our unsecured credit facility and unsecured notes. Financial markets have recently experienced unusual volatility and uncertainty. Liquidity has tightened in all financial markets, including the debt and equity markets. Our ability to fund development projects, as well as our ability to repay or refinance debt maturities could be adversely affected by an inability to secure financing at reasonable terms, if at all. While we currently do not expect any difficulties, it is possible, in these unusual and uncertain times that one or more lenders in our revolving credit facility could fail to fund a borrowing request. Such an event could adversely affect our ability to access funds from its revolving credit facility when needed.

Our liquidity management remains a top priority. We continue to proactively pursue new financing opportunities to ensure an appropriate balance sheet position through 2009. As a result of these dedicated efforts, we are comfortable with our ability to meet future debt maturities and development funding needs. We believe that our current balance sheet and outlook for 2009 are in an adequate position at the date of this filing, despite the ongoing disruption in the credit markets. We have entered into a mortgage loan commitment for our Two Logan Square property which we expect will provide \$89.8 million of debt, a portion of which would be used to satisfy the current mortgage on the property of \$68.9 million that is due in July 2009. There is no assurance that the lender will ultimately provide the financing pursuant to the terms of the commitment letter or at all. We will also consider other properties within our portfolio where it may be in our best interest to obtain a secured mortgage. We will also consider sales of selected Properties as another source of managing our liquidity. In addition, during 2009, our expectation is that we will receive \$23.8 million as the second contribution under the historic tax credit transaction that we entered into with US Bancorp.

If economic conditions persist or deteriorate, we may experience increases in past due accounts, defaults, lower occupancy and reduced effective rents. This condition would negatively affect our future net income and cash flows and could have a material adverse effect on our financial condition. We will also continue to evaluate the potential of paying our quarterly dividend in stock.

We draw on multiple financing sources to fund our long-term capital needs. We use our credit facility for general business purposes, including the acquisition, development and redevelopment of properties and the repayment of other debt.

Our ability to incur additional debt is dependent upon a number of factors, including our credit ratings, the value of our unencumbered assets, our degree of leverage and borrowing restrictions imposed by our current lenders. Our senior unsecured debt is currently rated BBB- by Fitch Ratings, Baa3 by Moody's Investor Services and BBB- by Standard & Poor's. If a rating agency were to downgrade our credit rating, our access to capital in the unsecured debt market would be more limited and the interest rate under our existing credit facility and term loan would increase. Our ability to sell common and preferred shares is dependent on, among other things, general market conditions for REITs, market perceptions about our company and the current trading price of our shares. We regularly analyze which source of capital is most advantageous to us at any particular point in time. The equity markets may not be consistently available on terms that we consider attractive.

The asset sales during 2008 and 2007 have also been a significant source of cash. During 2008, we sold nine properties containing an aggregate of 2.4 million net rentable square feet and a 3.2 acre land parcel for aggregate net cash proceeds of \$370.1 million. During 2007, we sold 49 properties containing an aggregate of 5.2 million net rentable square feet and eight land parcels containing an aggregate 56.2 acres for aggregate net cash proceeds of \$472.6 million. Since mid-2007, we have used proceeds from these sales to repay existing indebtedness, provide capital for our development activities and strengthen our financial condition. There is no guarantee that we will be able to raise similar or even lesser amounts of capital from future asset sales.

Cash Flows

The following summary discussion of our cash flows is based on the consolidated statement of cash flows included in our consolidated financial statements and is not meant to be an all-inclusive discussion of the changes in our cash flows for the periods presented.

As of December 31, 2008 and 2007, we maintained cash and cash equivalents of \$3.9 million and \$5.6 million, respectively. This \$1.7 million decrease was the result of the following changes in cash flow from our various activities:

Activity	2008	2007	2006
Operating	\$ 231,334	\$ 224,392	\$ 238,299
Investing	164,455	39,575	(912,813)
Financing	(397,465)	(283,746)	692,719
Net cash flows	\$ (1,676)	\$ (19,779)	\$ 18,205

Our principal source of cash flows is from the operation of our properties. The decrease in cash flows from operating activities was primarily the result of the timing of cash receipts from our tenants and cash expenditures in the normal course of operations.

The increase in cash flows from investing activities is attributable to no acquisitions during the year ended December 31, 2008 compared to our acquisition of properties of \$88.9 million and our acquisition of the 49% minority interest partners' share in the Brandywine Office Investors real estate venture of \$63.7 million during the year ended December 31, 2007.

In addition, our capital expenditures for tenant and building improvements and leasing commissions decreased by \$107.6 million in 2008 compared to 2007 as several of our developments are either close to completion or have already been placed in service. This was offset by the decrease in proceeds received in Property Sales of \$472.6 million during the year ended December 31, 2007 to \$370.1 million during the year ended December 31, 2008. Decreased cash used in financing activities is primarily attributable to the timing of the activity in our credit facility offset by the repurchase of \$59.4 million of our common shares in 2007 in comparison to no common share repurchases in 2008.

Capitalization

Indebtedness

During the year ended December 31, 2008, we repurchased \$78.3 million of our \$275.0 million 2009 Notes in a series of transactions which resulted in a \$4.1 million gain on the early extinguishment of debt.

During the year ended December 31, 2008, we repurchased \$24.5 million of our \$300.0 million 2010 Notes in a series of transactions which resulted in a \$3.6 million gain on the early extinguishment of debt.

During the year ended December 31, 2008, we repurchased \$63.0 million of our \$345.0 million 3.875% Guaranteed Exchangeable Notes in a series of transactions which resulted in a \$13.0 million gain on the early extinguishment of debt.

During the year ended December 31, 2008, we exercised the accordion feature on our \$150.0 million unsecured term loan which we entered into in October 2007 and borrowed an additional \$33.0 million, bringing our total outstanding balance to \$183.0 million. All outstanding borrowings under the term loan bear interest at a periodic rate of LIBOR plus 80 basis points. The net proceeds of the term loan increase were used to reduce indebtedness under our unsecured revolving credit facility. The term loan matures on October 18, 2010 and may be extended at our option for two one-year periods but not beyond the maturity date of our revolving credit facility.

During the second quarter of 2008, the borrowing rate on our \$20.0 million Sweep Agreement, which we entered into in March 2007, increased from LIBOR plus 75 basis points to LIBOR plus 160 basis points which remains in effect through maturity in April 2009. Borrowings on the Sweep Agreement are short term and used for cash management purposes.

On June 29, 2007, we amended our \$600.0 million unsecured revolving credit facility (the *Credit Facility*). The amendment extended the maturity date of the *Credit Facility* from December 22, 2009 to June 29, 2011 (subject to an extension of one year, at our option, upon our payment of an extension fee equal to 15 basis points of the committed amount under the *Credit Facility*). The amendment also reduced the per annum variable interest rate on outstanding balances from Eurodollar plus 0.80% to Eurodollar plus 0.725% per annum. In addition, the amendment reduced the quarterly facility fee from 20 basis points to 17.5 basis points per annum. The interest rate and facility fee are subject to adjustment upon a change in our unsecured debt ratings. The amendment also lowered to 7.50% from 8.50% the capitalization rate used in the calculation of several of the financial covenants; increased our swing loan availability from \$50.0 million to \$60.0 million; and increased the number of competitive bid loan requests available to us from two to four in any 30 day period. Borrowings are always available to the extent of borrowing capacity at the stated rates; however, the competitive bid feature allows banks that are part of the lender consortium under the *Credit Facility* to bid to make loans to us at a reduced Eurodollar rate. We have the option to increase the *Credit Facility* to \$800.0 million subject to the absence of any defaults and our ability to acquire additional commitments from our existing lenders or new lenders.

On April 30, 2007, we consummated the public offering of \$300.0 million aggregate principal amount of unsecured 5.70% Guaranteed Notes due 2017 and used the net proceeds from this offering to reduce borrowings under the *Credit Facility*.

On November 29, 2006, we called for redemption of our \$300.0 million Floating Rate Guaranteed Notes due 2009 and repaid these notes on January 2, 2007 in accordance with the November call using proceeds from our Credit Facility. As a result of the early repayment of these notes, we incurred accelerated amortization of \$1.4 million in associated deferred financing costs in the fourth quarter 2006. We funded the prepayments of these notes from borrowings under our Credit Facility and there were no penalties associated with these prepayments.

On October 4, 2006, we sold \$300.0 million aggregate principal amount of unsecured 3.875% Exchangeable Guaranteed Notes due 2026 in reliance upon an exemption from registration rights under Rule 144A under the Securities Act of 1933 and sold an additional \$45.0 million of 3.875% Exchangeable Guaranteed Notes due 2026 on October 16, 2006 to cover over-allotments. We have registered the resale of the exchangeable notes. At certain times and upon certain events, the notes are exchangeable for cash up to their principal amount and, with respect to the remainder, if any, of the exchange value in excess of such principal amount, cash or our common shares. The initial exchange rate is 25.4065 shares per \$1,000 principal amount of notes (which is equivalent to an initial exchange price of \$39.36 per share). We may not redeem the notes prior to October 20, 2011 (except to preserve our status as a REIT for U.S. federal income tax purposes), but we may redeem the notes at any time thereafter, in whole or in part, at a redemption price equal to the principal amount of the notes to be redeemed plus accrued and unpaid interest. In addition, on October 20, 2011, October 15, 2016 and October 15, 2021 as well as upon the occurrence of certain change in control transactions prior to October 20, 2011, holders of notes may require us to repurchase all or a portion of the notes at a purchase price equal to the principal amount of the notes to be purchased plus accrued and unpaid interest. We used net proceeds from the notes to repurchase approximately \$60.0 million of common shares at a price of \$32.80 per share and for general corporate purposes, including the repayment of outstanding borrowings under the Credit Facility.

On March 28, 2006, we consummated the public offering of \$850.0 million of unsecured notes, consisting of (1) \$300.0 million aggregate principal amount of Floating Rate Guaranteed Notes due 2009, (2) \$300.0 million aggregate principal amount of 5.75% Guaranteed Notes due 2012 and (3) \$250.0 million aggregate principal amount of 6.00% Guaranteed Notes due 2016. We used the net proceeds from this offering to repay a \$750.0 million unsecured term loan and to reduce borrowings under the Credit Facility.

The Operating Partnership is the issuer of our unsecured notes, and Brandywine Realty Trust has fully and unconditionally guaranteed the payment of principal and interest on the notes.

As of December 31, 2008, we had approximately \$2.8 billion of outstanding indebtedness. The table below summarizes our mortgage notes payable, our unsecured notes, and our revolving credit facility at December 31, 2008 and 2007:

	December 31	
	2008	2007
	(dollars in thousands)	
<i>Balance:</i>		
Fixed rate	\$ 2,517,919	\$ 2,741,632
Variable rate	235,836	359,337
Total	\$ 2,753,755	\$ 3,100,969
 <i>Percent of Total Debt:</i>		
Fixed rate	91.4%	88.4%
Variable rate	8.6%	11.6%
Total	100%	100%
 <i>Weighted-average interest rate at period end:</i>		
Fixed rate	5.4%	5.5%
Variable rate	2.1%	5.8%
Total	5.1%	5.6%

The variable rate debt shown above generally bears interest based on various spreads over a LIBOR term periodically selected by us.

We use credit facility borrowings for general business purposes, including the acquisition, development and redevelopment of properties and the repayment of other debt. We have an option to increase the maximum borrowings under the Credit Facility to \$800.0 million subject to the absence of any defaults and our ability to obtain additional commitments from our existing or new lenders.

Our interest rate incurred under our revolving credit facility and term loan is subject to modification depending on our rating status with qualified agencies.

As of December 31, 2008, we had \$153.0 million of borrowings, \$15.2 million of letters of credit outstanding under the Credit Facility, and a \$15.3 million holdback in connection with our historic tax credit transaction leaving \$416.5 million of unused availability. For the years ended December 31, 2008 and 2007, our weighted average interest rates, including the effects of interest rate hedges discussed in Note 9 to the consolidated financial statements included herein, and including both the new Credit Facility and prior credit facility, were 4.35% and 6.25% per annum, respectively.

The Credit Facility contains financial and non-financial covenants, including covenants that relate to our incurrence of additional debt; the granting of liens; consummation of mergers and consolidations; the disposition of assets and interests in subsidiaries; the making of loans and investments; and the payment of dividends. The restriction on dividends permits us to pay dividends to the greater of (i) an amount required for us to retain our qualification as a REIT and (ii) otherwise limits dividends to 95% of our funds from operations. The Credit Facility also contains financial covenants that require us to maintain an interest coverage ratio, a fixed charge coverage ratio, an unsecured debt ratio and an unencumbered cash flow ratio above certain specified minimum levels; to maintain net worth above an amount determined on a specified formula; and to maintain a leverage ratio and a secured debt ratio below certain maximum levels. Another financial covenant limits the ratio of unsecured debt to unencumbered properties. We were in compliance with all financial covenants as of December 31, 2008. Management continuously monitors the Company's compliance with and anticipated compliance with the covenants. Certain of the covenants restrict management's ability to obtain alternative sources of capital. While management currently believes it will remain in compliance with its covenants, in the event of a continued slow-down and continued crisis in the credit markets, we

may not be able to remain in compliance with such covenants if the lender would not provides us with a waiver. The indenture under which we issued our unsecured notes, and the note purchase agreement that governed an additional \$113.0 million of 4.34% unsecured notes that matured in December 2008, contain (or contained) financial covenants, including (1) a leverage ratio not to exceed 60%, (2) a secured debt leverage ratio not to exceed 40%, (3) a debt service coverage ratio of greater than 1.5 to 1.0 and (4) an unencumbered asset value of not less than 150% of unsecured debt. We were in compliance with all covenants as of December 31, 2008.

We have mortgage loans that are collateralized by certain of our Properties. Payments on mortgage loans are generally due in monthly installments of principal and interest, or interest only.

We intend to refinance or repay our mortgage loans as they mature. Historically, this has been completed primarily through the use of unsecured debt or equity, however, in the current economic environment we will first look to selectively sell Properties or obtain secured mortgages on certain of our Properties. We have entered into a mortgage loan commitment for our Two Logan Square property which we expect will provide \$89.8 million of debt, a portion of which would be used to satisfy the current mortgage on the property of \$68.9 million that is due in July 2009. There is no assurance that the lender will ultimately provide the financing pursuant to the terms of the commitment letter or at all.

Our charter documents do not limit the amount or form of indebtedness that we may incur, and our policies on debt incurrence are solely within the discretion of our Board, subject to financial covenants in the Credit Facility, indenture and other credit agreements.

As of December 31, 2008, we had guaranteed repayment of approximately \$2.2 million of loans on behalf of certain Real Estate Ventures. See Item 2. Properties Real Estate Ventures. We also provide customary environmental indemnities and completion guarantees in connection with construction and permanent financing both for our own account and on behalf of certain of the Real Estate Ventures.

Share Repurchases

We maintain a share repurchase program under which our Board has authorized us to repurchase our common shares from time to time. Our Board initially authorized this program in 1998 and has periodically replenished capacity under the program, including, most recently, on May 2, 2006 when our Board restored capacity to 3.5 million common shares. During 2007, we repurchased approximately 1.8 million common shares under this program at an average price of \$33.36 per share, leaving approximately 0.5 million shares in remaining capacity at December 31, 2008. Our Board has not limited the duration of the program; however, it may be terminated at any time.

Off-Balance Sheet Arrangements

We are not dependent on any off-balance sheet financing arrangements for liquidity. Our off-balance sheet arrangements are discussed in Note 4 to the financial statements, Investment in Unconsolidated Real Estate Ventures . Additional information about the debt of our unconsolidated Real Estate Ventures is included in Item 2 Properties .

Short- and Long-Term Liquidity

We believe that our cash flow from operations is adequate to fund our short-term liquidity requirements. Cash flow from operations is generated primarily from rental revenues and operating expense reimbursements from tenants and management services income from providing services to third parties. We intend to use these funds to meet short-term liquidity needs, which are to fund operating expenses, debt service requirements, recurring capital expenditures, tenant allowances, leasing commissions and the minimum distributions required to maintain our REIT qualification under the Internal Revenue Code.

We expect to meet our long-term liquidity requirements, such as for property acquisitions, development, investments in real estate ventures, scheduled debt maturities, major renovations, expansions and other significant capital improvements, through cash from operations, borrowings under the Credit Facility, additional secured and unsecured indebtedness, the issuance of equity securities, contributions from joint venture investors and proceeds from asset dispositions.

Many commercial real estate lenders have substantially tightened underwriting standards or have withdrawn from the lending marketplace. Also, spreads in the investment grade bond market have substantially widened. These circumstances have materially impacted liquidity in the debt markets, making financing terms less attractive, and in certain cases have resulted in the unavailability of certain types of debt financing. As a result, we expect debt financings will be more difficult to obtain and that borrowing costs on new and refinanced debt will be more expensive. Moreover, the recent volatility in the financial markets, in general, will make it more difficult or costly, or even impossible, for us to raise capital through the issuance of common stock, preferred stock or other equity instruments or through public issuances of debt securities from our shelf registration statements as we have been able to do in the past. Such conditions would also limit our ability to raise capital through asset dispositions at attractive prices or at all.

Inflation

A majority of our leases provide for reimbursement of real estate taxes and operating expenses either on a triple net basis or over a base amount. In addition, many of our office leases provide for fixed base rent increases. We believe that inflationary increases in expenses will be partially offset by expense reimbursement and contractual rent increases.

Commitments and Contingencies

The following table outlines the timing of payment requirements related to our contractual commitments as of December 31, 2008.

	Total	Payments by Period (in thousands)			More than 5 Years
		Less than 1 Year	1-3 Years	3-5 Years	
Mortgage notes payable (a)	\$ 487,525	\$ 78,226	\$ 189,187	\$ 112,201	\$ 107,911
Revolving credit facility	153,000		153,000		
Unsecured term loan	183,000		183,000		
Unsecured debt (a)	1,932,865	196,680	557,575	550,000	628,610
Ground leases (b)	301,182	1,986	4,554	4,637	290,005
Interest expense	731,483	137,169	227,632	189,250	177,432
Development contracts (c)	83,701	58,531	25,170		
Other liabilities	6,285	268			6,017
	\$ 3,879,041	\$ 472,860	\$ 1,340,118	\$ 856,088	\$ 1,209,975

(a) Amounts do not include unamortized discounts and/or premiums.

(b) Future minimum rental payments under the terms of all non-cancelable ground leases under which we are the lessee are expensed on a straight-line basis regardless of when payments are due. Certain of the land leases provide for prepayment of rent on a present value basis using a fixed discount rate. Further, certain of the land lease for properties (currently under development) provide for

contingent rent participation by the lessor in certain capital transactions and net operating cash flows of the property after certain returns are achieved by us. Such amounts, if any will be reflected as contingent rent when incurred. The leases also provide for payment by us of certain operating costs relating to the land, primarily real estate taxes. The above schedule of future minimum rental payments does not include any contingent rent amounts nor any reimbursed expenses.

- (c) Represents contractual obligations for certain development projects and does not contemplate all costs expected to be incurred for such developments

As part of the TRC acquisition, we acquired our interest in Two Logan Square, a 696,477 square foot office building in Philadelphia, primarily through our ownership of a second and third mortgage secured by this property. This property is consolidated as the borrower is a variable interest entity and we, through our ownership of the second and third mortgages are the primary beneficiary. We currently do not expect to take title to Two Logan Square until, at the

earliest, September 2019. If we take fee title to Two Logan Square upon a foreclosure of our mortgage, we have agreed to pay an unaffiliated third party that holds a residual interest in the fee owner of this property an amount equal to \$0.6 million (if we must pay a state and local transfer upon taking title) and \$2.9 million (if no transfer tax is payable upon the transfer).

We are currently being audited by the Internal Revenue Service for our 2004 tax year. The audit concerns the tax treatment of the transaction in September 2004 in which we acquired a portfolio of properties through the acquisition of a limited partnership. At this time it does not appear that an adjustment would result in a material tax liability for us. However, an adjustment could raise a question as to whether a contributor of partnership interests in the 2004 transaction could assert a claim against us under the tax protection agreement entered into as part of the transaction. As part of our 2006 acquisition of Prentiss Properties Trust, the TRC acquisition in 2004 and several of our other transactions, we agreed not to sell certain of the properties we acquired in transactions that would trigger taxable income to the former owners. In the case of the TRC acquisition, we agreed not to sell acquired properties for periods up to 15 years from the acquisition date as follows: 201 King of Prussia Road, 555 East Lancaster Avenue and 300 Delaware Avenue (January 2008); One Rodney Square and 130/150/170 Radnor Financial Center (January 2015); and One Logan Square, Two Logan Square and Radnor Corporate Center (January 2020). In the Prentiss acquisition, we assumed the obligation of Prentiss not to sell Concord Airport Plaza before March 2018 and 6600 Rockledge before July 2008. We also agreed not sell 14 other properties that contain an aggregate of 1.2 million square feet for periods that expired at the end of 2008. Our agreements generally provide that we may dispose of the subject properties only in transactions that qualify as tax-free exchanges under Section 1031 of the Internal

Revenue Code or in other tax deferred transactions. If we were to sell a restricted property before expiration of the restricted period in a non-exempt transaction, we would be required to make significant payments to the parties who sold us the applicable property on account of tax liabilities triggered to them.

In connection with our development of the PO Box/IRS and Cira Garage projects, during 2008, we entered into a historic tax credit and new markets tax credit arrangement, respectively. We are required to be in compliance with various laws, regulations and contractual provisions that apply to our historic and new market tax credit arrangements. Non-compliance with applicable requirements could result in projected tax benefits not being realized and therefore, require a refund to USB or reduction of investor capital contributions, which are reported as deferred income in our consolidated balance sheet, until such time as our obligation to deliver tax benefits is relieved. The remaining compliance periods for our tax credit arrangements runs through 2015. We do not anticipate that any material refunds or reductions of investor capital contributions will be required in connection with these arrangements.

We invest in our properties and regularly incur capital expenditures in the ordinary course to maintain the properties. We believe that such expenditures enhance our competitiveness. We also enter into construction, utility and service contracts in the ordinary course of business which may extend beyond one year. These contracts typically provide for cancellation with insignificant or no cancellation penalties.

Interest Rate Risk and Sensitivity Analysis

The analysis below presents the sensitivity of the market value of our financial instruments to selected changes in market rates. The range of changes chosen reflects our view of changes which are reasonably possible over a one-year period. Market values are the present value of projected future cash flows based on the market rates chosen.

Our financial instruments consist of both fixed and variable rate debt. As of December 31, 2008, our consolidated debt consisted of \$487.5 million in fixed rate mortgages, \$153.0 million borrowings under our Credit Facility, \$183.0 million borrowings in an unsecured, term loan and \$1.9 billion in unsecured notes (net of discounts) of which \$1.8 billion are fixed rate borrowings and \$53.0 million are variable rate borrowings. All financial instruments were entered into for other than trading purposes and the net market value of these financial instruments is referred to as the net financial position. Changes in interest rates have different impacts on the fixed and variable rate portions of our debt portfolio. A change in interest rates on the fixed portion of the debt portfolio impacts the net financial instrument position, but has no impact on interest incurred or cash flows. A change in interest rates on the variable portion of the debt portfolio impacts the interest incurred and cash flows, but does not impact the net financial instrument position. As of December 31, 2008, based on prevailing interest rates and credit spreads, the fair value of our unsecured notes was \$1.2 billion.

We use derivative instruments to manage interest rate risk exposures and not for speculative purposes. As of December 31, 2008 we effectively hedged debt with a notional amount of \$178.7 million through four interest rate swap agreements. These instruments have an aggregate fair value of \$11.0 million at December 31, 2008.

We also have two forward starting swaps with a notional amount of \$50.0 million at December 31, 2008 which we expect will be used as a cash flow hedge of the variability in 10 years of forecasted interest payments, beginning in December 2009.

The total carrying value of our variable rate debt was approximately \$414.6 million and \$367.1 million at December 31, 2008 and 2007, respectively. The total fair value of our debt, excluding the Notes, was approximately \$398.7 million and \$348.1 million at December 31, 2008 and 2007, respectively. For sensitivity purposes, a 100 basis point change in the discount rate equates to a change in the total fair value of our debt, excluding the Notes of approximately \$2.4 million at December 31, 2008, and a 100 basis

point change in the discount rate equates to a change in the total fair value of our debt of approximately \$2.2 million at December 31, 2007.

If market rates of interest increase by 1%, the fair value of our outstanding fixed-rate debt would decrease by approximately \$12.8 million. If market rates of interest decrease by 1%, the fair value of our outstanding fixed-rate debt would increase by approximately \$13.3 million.

Item 7A. Quantitative and Qualitative Disclosure About Market Risk

See discussion in Management's Discussion and Analysis included in Item 7 herein.

Item 8. Financial Statements and Supplementary Data

The financial statements and supplementary financial data of Brandywine Realty Trust and Brandywine Operating Partnership, L.P. and the reports thereon of PricewaterhouseCoopers LLP, an independent registered public accounting firm, with respect thereto are listed under Item 15(a) and filed as part of this Annual Report on Form 10-K. See Item 15.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None

Item 9A. Controls and Procedures

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

Under the supervision and with the participation of each registrant's management, including its principal executive officer and principal financial officer, each registrant's management conducted an evaluation of the registrant's disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the Exchange Act). Based on this evaluation, the principal executive officer and the principal financial officer of each registrant concluded that each registrant's disclosure controls and procedures were effective as of the end of the period covered by this annual report.

Management's Report on Internal Control Over Financial Reporting

The management of each registrant is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f).

Under the supervision and with the participation of each registrant's management, including its principal executive officer and principal financial officer, each registrant's management conducted an evaluation of the effectiveness of the registrant's internal control over financial reporting based on the framework in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation under the framework in *Internal Control - Integrated Framework*, each registrant's management concluded that the registrant's internal control over financial reporting was effective as of December 31, 2008.

Management of each registrant has excluded our investments in Four and Six Tower Bridge Associates from its evaluation of the effectiveness of internal control over financial reporting as of December 31, 2008 because we do not have the right or authority to assess the internal controls of the individual entities and we also lack the ability, in practice, to make the assessment. Four and Six Tower Bridge Associates are two real estate partnerships, created prior to December 15, 2003, which we consolidate under Financial Accounting Standards Board Interpretation (FIN) 46R,

Consolidation of Variable Interest Entities. The total assets and total revenue of Four and Six Tower Bridge Associates represent, in the aggregate, less

than 1% of our consolidated total assets and consolidated total revenue as of and for the year ended December 31, 2008.

The effectiveness of each registrant's internal control over financial reporting as of December 31, 2008 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their reports which are included herein.

Changes in Internal Control over Financial Reporting.

There have not been any changes in either registrant's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fourth fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, either registrant's internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

To the Board of Trustees and Shareholders of Brandywine Realty Trust:

In our opinion, the accompanying consolidated financial statements listed in the index appearing under Item 15(a)(1) present fairly, in all material respects, the financial position of Brandywine Realty Trust and its subsidiaries (the

Company) at December 31, 2008 and 2007, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2008 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedules listed in the accompanying index appearing under Item 15(a)(2) present fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2008, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements and the financial statement schedules, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on these financial statements, on the financial statement schedules and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As described in Management's Report on Internal Control Over Financial Reporting, management has excluded the Company's investments in Four and Six Tower Bridge Associates from its assessment of internal control over financial reporting as of December 31, 2008 because the Company does not have the right and authority to assess the internal control over financial reporting of the individual entities and it lacks the ability to influence or modify the internal control over financial reporting of the individual entities. Four and Six Tower Bridge Associates are two real estate partnerships, created prior to December 13, 2003, which the Company started consolidating under Financial Accounting Standards Board Interpretation No. 46R, *Consolidation of Variable Interest Entities* on March 31, 2004. We have also excluded Four and Six Tower Bridge Associates from our audit of internal control over financial

reporting. The total assets and total revenue of Four and Six Tower Bridge Associates represent, in the aggregate less than 1% and 1%, respectively, of the Company's consolidated financial statement amounts as of and for the year ended December 31, 2008.

BRANDYWINE REALTY TRUST
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008, 2007 AND 2006

1. ORGANIZATION AND NATURE OF OPERATIONS

Brandywine Realty Trust, a Maryland real estate investment trust, or REIT, is a self-administered and self-managed real estate investment trust, or REIT, that provides leasing, property management, development, redevelopment, acquisition and other tenant-related services for a portfolio of office and industrial properties. Brandywine Realty Trust owns its assets and conducts its operations through Brandywine Operating Partnership, L.P. a Delaware limited partnership (the Operating Partnership) and subsidiaries of the Operating Partnership. Brandywine Realty Trust, the Operating Partnership and their consolidated subsidiaries are collectively referred to below as the Company. As of December 31, 2008, the Company owned 214 office properties, 22 industrial facilities and one mixed-use property (collectively, the Properties) containing an aggregate of approximately 23.6 million net rentable square feet. The Company also has two properties under development and six properties under redevelopment containing an aggregate 2.3 million net rentable square feet. As of December 31, 2008, the Company consolidates three office properties owned by real estate ventures containing 0.4 million net rentable square feet. Therefore, the Company owns and consolidates 248 properties with an aggregate of 26.3 million net rentable square feet. As of December 31, 2008, the Company owned economic interests in 13 unconsolidated real estate ventures that contain approximately 4.2 million net rentable square feet (collectively, the Real Estate Ventures). In addition, as of December 31, 2008, the Company owned approximately 495 acres of undeveloped land. The Properties and the properties owned by the Real Estate Ventures are located in or near Philadelphia, Pennsylvania, Metropolitan Washington, D.C., Southern and Central New Jersey, Richmond, Virginia, Wilmington, Delaware, Austin, Texas and Oakland, Carlsbad and Rancho Bernardo, California. In addition to managing properties that the Company owns, as of December 31, 2008, the Company was managing approximately 12.4 million net rentable square feet of office and industrial properties for third parties and Real Estate Ventures.

All references to building square footage, acres, occupancy percentage and the number of buildings are unaudited. Brandywine Realty Trust is the sole general partner of the Operating Partnership and, as of December 31, 2008, owned a 96.9% interest in the Operating Partnership. The Company conducts its third-party real estate management services business primarily through five management companies (collectively, the Management Companies): Brandywine Realty Services Corporation (BRSCO), BTRS, Inc. (BTRS), Brandywine Properties I Limited, Inc. (BPI), BDN Brokerage, LLC (BBL) and Brandywine Properties Management, L.P. (BPM). Each of BRSCO, BTRS and BPI is a taxable REIT subsidiary. The Operating Partnership owns, directly and indirectly, currently 100% of each of BRSCO, BTRS, BPI, BBL and BPM.

Prior to December 2007, 5% of BRSCO, one of the consolidated management services companies, was owned by a partnership comprised of a current executive and former executive of the Company, each of whom is a member of the Company's Board of Trustees. In December 2007, the Operating Partnership bought out this interest for a nominal amount and BRSCO is now wholly owned.

As of December 31, 2008, the Management Companies were managing properties containing an aggregate of approximately 38.3 million net rentable square feet, of which approximately 25.9 million net rentable square feet related to Properties owned by the Company and approximately 12.4 million net rentable square feet related to properties owned by third parties and Real Estate Ventures.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reclassification and Revisions

During the year ended December 31, 2008 the Company identified certain instances dating back to 1998 in which the Company canceled, upon the vesting of restricted shares, a portion of such shares in settlement of employee tax withholdings in excess of minimum statutory rates. As a result, the Company has changed the classification of the affected restricted share grants from equity to liability awards (the tax withholding adjustment) in accordance with FASB Statement No. 123(R), *Share-Based Payment* (FAS 123(R)), and its predecessors. When an award is

classified as a liability, compensation expense is recognized for that award and is based on the current fair value of the award during the period in which it is reviewed. The cumulative impact of this error from the period January 1, 2002 through December 31, 2007 was primarily an overstatement of cumulative earnings and cumulative distributions as a result of recalculating the amount of compensation expense that would have been incurred if such awards had been treated as liability awards. The Company assessed the materiality of this item on the year ended December 31, 2002 (the first year that awards granted in 1998 vested with excess withholdings), the full year ended December 31, 2007, and any other periods between and subsequent to those dates, in accordance with the SEC's Staff Accounting Bulletin (SAB) No. 99 and concluded that the error was not material to any such periods. The Company also concluded the impact of correcting the error would have been misleading to the users of the financial statements for the year ended December 31, 2008, and therefore, has not recorded a single period cumulative adjustment. Amounts presented in the table below.

During the year ended December 31, 2008, the Company determined that it would correct the presentation of certain amounts included in accounts payable and accrued expenses to additional paid in capital (Reclassification adjustment). This change is also pursuant to FAS 123 (R), as amounts recognized as expense in connection with the Company's share based awards which are equity classified (see Note 13) should be included in additional paid in capital prior to vesting of such awards. The awards subject to this adjustment are the Outperformance Plan shares and certain other restricted share awards. Previously, the Company had incorrectly included the amortization of these share based awards in accounts payable and accrued expenses and transferred the amount to additional-paid-in-capital in the periods that the awards vested. Liability classified awards as described in the previous paragraph were not part of the reclassification adjustment. Stock option awards were already historically classified in additional paid-in-capital. During the year ended December 31, 2008, the Company determined that it would correct the presentation of common shares held in a Rabbi Trust (the Rabbi Trust adjustment) as part of the Company's deferred compensation plan in order to present shares and the corresponding deferred compensation liability in accordance with EITF 97-14, *Accounting for Deferred Compensation Arrangements Where Amounts Earned Are Held in a Rabbi Trust and Invested*. In prior periods, the net amounts of these components were incorrectly included in additional paid-in-capital on the consolidated balance sheet.

The Tax Withholding adjustment, Reclassification adjustment and the Rabbi Trust adjustment are not considered material to the prior financial statements but the adjustment to prior periods provides for a more meaningful presentation.

Accordingly, in accordance with SAB No. 108, the December 31, 2007 balance sheet herein has been revised as follows:

	As Reported	Tax Withholding Adjustment	Reclassification Adjustment	Rabbi Trust Adjustment	As Revised
Accounts payable and accrued expenses	\$ 80,732	\$ (568)	\$ (3,245)	\$	\$ 76,919
Minority interest	84,119	(129)			83,990
Additional paid-in capital	2,319,410	1,447	3,485		2,324,342
Cumulative earnings	480,217	(3,067)	(240) (a)		476,910
Cumulative distributions	(1,001,971)	2,317			(999,654)
Deferred compensation payable in common stock				5,651	5,651
Common shares in grantor trust				(5,651)	(5,651)

Total beneficiaries equity	\$ 1,743,235	\$ 697	\$ 3,245	\$	\$1,747,177
----------------------------	--------------	--------	----------	----	-------------

- (a) Represents the correction to cumulative earnings in respect of issuance of treasury shares in settlement of restricted share awards for an amount less than their cost.

The tax withholding adjustment above is the result of compensation expense that would have been recognized from 2002 through the year ended December 31, 2007 if awards with excess withholdings upon vesting had been categorized as liability awards. Under the Company's restricted share program, dividends are paid on unvested shares. Such dividends should be expensed if the grant is treated as a liability award. The reduction in cumulative distributions and the majority of the reduction in cumulative earnings results from treating dividends on unvested shares as expense from 1998 through the year ended December 31, 2007.

F - 9

For the years ended December 31, 2007 and 2006, general and administrative expenses would have been increased/ (decreased) by \$(0.3) million and \$0.7 million for the tax withholding adjustment, respectively. For the years ended December 31, 2007 and 2006, the tax withholding adjustment changed the distributions paid to shareholders on the Company's consolidated statements of cash flows by \$0.3 million.

On July 28, 2008, the Company determined that shares redeemed in an amount to satisfy employee tax withholdings on restricted share awards would not exceed the minimum statutory rate. Consequently, there will no longer be liability classified restricted share awards and on July 28, 2008, such awards were accounted for as equity classified awards.

The Company will make corresponding adjustments as described above to other prior periods as appropriate the next time those financial statements are filed.

Certain amounts have been reclassified in prior years to conform to the current year presentation. The reclassifications are primarily due to the treatment of sold properties as discontinued operations on the statement of operations for all periods presented as well as the presentation of land inventory and notes receivable on the consolidated balance sheets.

Principles of Consolidation

When the Company obtains an economic interest in an entity, the Company evaluates the entity to determine if the entity is deemed a variable interest entity (VIE), and if the Company is deemed to be the primary beneficiary, in accordance with FASB Interpretation No. 46R, Consolidation of Variable Interest Entities (FIN 46R). When an entity is not deemed to be a VIE, the Company considers the provisions of EITF 04-05, Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights (EITF 04-05). The Company consolidates (i) entities that are VIEs and of which the Company is deemed to be the primary beneficiary and (ii) entities that are non-VIEs which the Company controls and the limited partners do not have the ability to dissolve the entity or remove the Company without cause nor substantive participating rights. Entities that the Company accounts for under the equity method (i.e., at cost, increased or decreased by the Company's share of earnings or losses, plus contributions, less distributions) include (i) entities that are VIEs and of which the Company is not deemed to be the primary beneficiary (ii) entities that are non-VIEs which the Company does not control, but over which the Company has the ability to exercise significant influence and (iii) entities that are non-VIEs that the Company controls through its general partner status, but the limited partners in the entity have the substantive ability to dissolve the entity or remove the Company without cause or have substantive participating rights. The Company will reconsider its determination of whether an entity is a VIE and who the primary beneficiary is, and whether or not the limited partners in an entity have substantive rights, if certain events occur that are likely to cause a change in the original determinations. The portion of these entities not owned by the Company is presented as minority interest as of and during the periods. All intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Management makes significant estimates regarding revenue, impairment of long-lived assets, allowance for doubtful accounts and deferred costs.

Operating Properties

Operating properties are carried at historical cost less accumulated depreciation and impairment losses. The cost of operating properties reflects their purchase price or development cost. Costs incurred for the acquisition and renovation of an operating property are capitalized to the Company's investment in that property. Ordinary repairs and maintenance are expensed as incurred; major replacements and betterments, which improve or extend the life of the asset, are capitalized and depreciated over their estimated useful lives. Fully-depreciated assets are removed from the accounts.

Purchase Price Allocation

The Company allocates the purchase price of properties to net tangible and identified intangible assets acquired based on fair values. Above-market and below-market in-place lease values for acquired properties are recorded based on the present value (using an interest rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to the in-place leases and (ii) the Company's estimate of the fair market lease rates for the corresponding in-place leases, measured over a period equal to the remaining non-cancelable term of the lease (includes the below market fixed renewal period). Capitalized above-market lease values are amortized as a reduction of rental income over the remaining non-cancelable terms of the respective leases. Capitalized below-market lease values are amortized as an increase to rental income over the remaining non-cancelable terms of the respective leases, including any below market fixed-rate renewal periods. Other intangible assets also include amounts representing the value of tenant relationships and in-place leases based on the Company's evaluation of the specific characteristics of each tenant's lease and the Company's overall relationship with the respective tenant. The Company estimates the cost to execute leases with terms similar to the remaining lease terms of the in-place leases, including leasing commissions, legal and other related expenses. This intangible asset is amortized to expense over the remaining term of the respective leases. Company estimates of value are made using methods similar to those used by independent appraisers or by using independent appraisals. Factors considered by the Company in this analysis include an estimate of the carrying costs during the expected lease-up periods considering current market conditions and costs to execute similar leases. In estimating carrying costs, the Company includes real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods, which primarily range from three to twelve months. The Company also considers information obtained about each property as a result of its pre-acquisition due diligence, marketing and leasing activities in estimating the fair value of the tangible and intangible assets acquired. The Company also uses the information obtained as a result of its pre-acquisition due diligence as part of its consideration of FIN 47 *Accounting for Conditional Asset Retirement Obligations* (FIN 47), and when necessary, will record a conditional asset retirement obligation as part of its purchase price.

Characteristics considered by the Company in allocating value to its tenant relationships include the nature and extent of the Company's business relationship with the tenant, growth prospects for developing new business with the tenant, the tenant's credit quality and expectations of lease renewals, among other factors. The value of tenant relationship intangibles is amortized over the remaining initial lease term and expected renewals, but in no event longer than the remaining depreciable life of the building. The value of in-place leases is amortized over the remaining non-cancelable term of the respective leases and any fixed-rate renewal periods. In the event that a tenant terminates its lease, the unamortized portion of each intangible, including in-place lease values and tenant relationship values, would be charged to expense and market rate adjustments (above or below) would be recorded to revenue.

Depreciation and Amortization

The costs of buildings and improvements are depreciated using the straight-line method based on the following useful lives: buildings and improvements (five to 55 years) and tenant improvements (the shorter of the lease term or the life of the asset).

Construction in Progress

Project costs directly associated with the development and construction of a real estate project are capitalized as construction in progress. In addition, interest, real estate taxes and other expenses that are directly associated with the Company's development activities are capitalized until the property is placed in service. Internal direct construction costs totaling \$5.2 million in 2008, \$4.8 million in 2007 and \$4.9 million in 2006 and interest totaling \$16.3 million in 2008, \$17.5 million in 2007 and \$9.5 million in 2006 were capitalized related to development of certain Properties and land holdings.

Impairment or Disposal of Long-Lived Assets

Statement of Financial Accounting Standard No. 144 (SFAS 144), *Accounting for the Impairment or Disposal of Long-Lived Assets*, provides a single accounting model for long-lived assets as held-for-sale, broadens the scope of businesses to be disposed of that qualify for reporting as discontinued operations and changes the timing of

recognizing losses on such operations.

F - 11

The Company reviews long-lived assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The review of recoverability is based on an estimate of the future undiscounted cash flows (excluding interest charges) expected to result from the long-lived asset's use and eventual disposition. These cash flows consider factors such as expected future operating income, trends and prospects, as well as the effects of leasing demand, competition and other factors. If impairment exists due to the inability to recover the carrying value of a long-lived asset, an impairment loss is recorded to the extent that the carrying value exceeds the estimated fair-value of the property. The Company is required to make subjective assessments as to whether there are impairments in the values of the investments in long-lived assets. These assessments have a direct impact on its net income because recording an impairment loss results in an immediate negative adjustment to net income. The evaluation of anticipated cash flows is highly subjective and is based in part on assumptions regarding future occupancy, rental rates and capital requirements that could differ materially from actual results in future periods. There were also operating properties evaluated as they have been identified as a potential sale. No impairment was determined; however, if actual cashflows or the estimated holding period changes, an impairment could be recorded in the future. Although the Company's strategy is generally to hold its properties over the long-term, the Company will dispose of properties to meet its liquidity needs or for other strategic needs. If the Company's strategy changes or market conditions otherwise dictate an earlier sale date, an impairment loss may be recognized to reduce the property to the lower of the carrying amount or fair value less costs to sell, and such loss could be material. If the Company determines that impairment has occurred, the affected assets must be reduced to their fair-value.

Where properties have been identified as having a potential for sale, additional judgments are required related to the determination as to the appropriate period over which the undiscounted cash flows should include the operating cash flows and the amount included as the estimated residual value. Management determines the amounts to be included based on a probability weighted cash flow. This requires significant judgment. In some cases, the results of whether an impairment is indicated are sensitive to changes in assumptions input into the estimates, including the hold period until expected sale. At December 31, 2008, the Company performed an impairment assessment of its land holdings as management determined that a sale scenario was the most likely source of future cash flows for the majority of the land parcels. This impairment assessment required management to estimate the expected proceeds from sale at some point in the future to determine whether an impairment was indicated. This estimate requires significant judgment. Where impairment was indicated, an impairment charge was recorded to reduce the land to its estimated fair value. If the estimated fair value, the Company's expectations as to the expected sales proceeds, or timing of the anticipated sale change based on market conditions or otherwise, the Company's evaluation of impairment could be different and such differences could be material. The Company also recorded an impairment on properties designated as held for sale at June 30, 2008 of \$6.85 million; these properties were sold in the quarter ended December 31, 2008.

Assets to be disposed of are separately presented in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated. The other assets and liabilities related to assets classified as held-for-sale are presented separately in the consolidated balance sheet. The Company had no properties classified as held for sale at December 31, 2008 and 2007.

Cash and Cash Equivalents

Cash and cash equivalents are highly-liquid investments with original maturities of three months or less. The Company maintains cash equivalents in financial institutions in excess of insured limits, but believes this risk is mitigated by only investing in or through major financial institutions.

Cash in Escrow

Cash in escrow of \$31.4 million at December 31, 2008 represents cash that will ultimately be used for the financing of the Cira South Garage. This cash is held in escrow pursuant to the new markets tax credit transaction entered into by the Company on December 30, 2008. In order to release the cash held in escrow, the Company must obtain approval from a third party. See Note 16

Restricted Cash

Restricted cash consists of cash held as collateral to provide credit enhancement for the Company's mortgage debt, cash for property taxes, capital expenditures and tenant improvements. Restricted cash is included in other assets as discussed below.

Accounts Receivable and Accrued Rent Receivable

Leases with tenants are accounted for as operating leases. Minimum annual rentals under tenant leases are recognized on a straight-line basis over the term of the related lease. The cumulative

F - 12

difference between lease revenue recognized under the straight-line method and contractual lease payment terms is recorded as accrued rent receivable, net on the accompanying balance sheets. Included in current tenant receivables are tenant reimbursements which are comprised of amounts recoverable from tenants for common area maintenance expenses and certain other recoverable expenses that are recognized as revenue in the period in which the related expenses are incurred. As of December 31, 2008 and 2007, no tenant represented more than 10% of accounts receivable.

Tenant receivables and accrued rent receivables are carried net of the allowances for doubtful accounts of \$4.9 million and \$10.6 million in 2008, respectively and \$3.8 million and \$6.4 million in 2007, respectively. The allowance is an estimate based on two calculations that are combined to determine the total amount reserved. First, the Company evaluates specific accounts where it has determined that a tenant may have an inability to meet its financial obligations. In these situations, the Company uses its judgment, based on the facts and circumstances, and records a specific reserve for that tenant against amounts due to reduce the receivable to the amount that the Company expects to collect. These reserves are reevaluated and adjusted as additional information becomes available. Second, a reserve is established for all tenants based on a range of percentages applied to receivable aging categories for tenant receivables. For accrued rent receivables, the Company considers the results of the evaluation of specific accounts and also considers other factors including assigning risk factors to different industries based on its tenants SIC classification. Considering various factors including assigning a risk factor to different industries, these percentages are based on historical collection and write-off experience adjusted for current market conditions. If the financial condition of the Company's tenants were to deteriorate, additional allowances may be required.

Investments in Unconsolidated Real Estate Ventures

The Company accounts for its investments in unconsolidated Real Estate Ventures under the equity method of accounting as it is not the primary beneficiary (for VIE's) and the Company exercises significant influence, but does not control these entities under the provisions of the entities' governing agreements pursuant to EITF 04-05. These investments are recorded initially at cost, as Investments in Real Estate Ventures, and subsequently adjusted for equity in earnings and cash contributions and distributions.

On a periodic basis, management assesses whether there are any indicators that the value of the Company's investments in unconsolidated Real Estate Ventures may be other than temporarily impaired. An investment is impaired only if the value of the investment, as estimated by management, is less than the carrying value of the investment. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying amount of the investment over the value of the investment, as estimated by management. The determination as to whether an impairment exists requires significant management judgment about the fair value of its ownership interest.

To the extent that the Company acquires an interest in or contributes assets to a Real Estate Venture project, the difference between the Company's cost basis in the investment and the value of the Real Estate Venture or asset contributed is amortized over the life of the related assets, intangibles and liabilities and such adjustment is included in the Company's share of equity in income of unconsolidated ventures.

Deferred Costs

Costs incurred in connection with property leasing are capitalized as deferred leasing costs. Deferred leasing costs consist primarily of leasing commissions and internal leasing costs that are amortized on the straight-line method over the life of the respective lease which generally ranges from one to 15 years.

Costs incurred in connection with debt financing are capitalized as deferred financing costs and charged to interest expense over the terms of the related debt agreements. Deferred financing costs consist primarily of loan fees which are amortized over the related loan term.

Other Assets

As of December 31, 2008, other assets included prepaid real estate taxes of \$7.7 million, prepaid insurance of \$4.1 million, marketable securities of \$2.8 million, deposits on future settlements totaling \$3.0 million, net rent inducement of \$ 8.4 million, cash surrender value of life insurance of \$5.3 million, furniture, fixtures and equipment of \$4.6 million, restricted cash of \$13.3 million and \$9.8 million of other assets.

As of December 31, 2007, other assets included prepaid real estate taxes of \$8.0 million, prepaid insurance of \$5.6 million, marketable securities of \$3.2 million, deposits on future settlements totaling \$1.6 million, a tenant allowance totaling \$8.0 million, cash surrender value of life insurance of \$7.7 million, furniture, fixtures and equipment of \$7.2 million, restricted cash of \$17.2 million and \$5.1 million of other assets.

Notes Receivable

As of December 31, 2008, notes receivable included a \$2.8 million purchase money mortgage with a 20 year amortization period that bears interest at 8.5%, a \$7.7 million purchase money mortgage with a 20 year amortization period that bears interest at 8.5% and a \$37.5 million purchase money mortgage with an imputed interest rate of 4.0% accreting up to \$40.0 million due in 2010.

As of December 31, 2007, notes receivable included a \$3.1 million purchase money mortgage with a 20 year amortization period that bears interest at 8.5% and a \$7.8 million purchase money mortgage with a 20 year amortization period that bears interest at 8.5%.

The Company periodically assesses the collectibility of the notes receivable in accordance with FAS 114, Accounting by Creditors for Impairment of a Loan. No collectibility issues were noted as of December 31, 2008 and 2007.

Revenue Recognition

Rental revenue is recognized on the straight-line basis from the later of the date of the commencement of the lease or the date of acquisition of the property subject to existing leases, which averages minimum rents over the terms of the leases. The straight-line rent adjustment increased revenue by approximately \$14.0 million in 2008, \$25.0 million in 2007 and \$31.3 million in 2006. Deferred rents on the balance sheet represent rental revenue received prior to their due dates and amounts paid by the tenant for certain improvements considered to be landlord assets that will remain the Company's property at the end of the tenant's lease term. The amortization of amounts paid by the tenant for such improvements is calculated on a straight-line basis over the term of the tenant's lease and is a component of straight-line rental income. This increased revenue by \$2.5 million in 2008, \$3.3 million in 2007 and \$1.3 million in 2006. Leases also typically provide for tenant reimbursement of a portion of common area maintenance and other operating expenses to the extent that a tenant's pro rata share of expenses exceeds a base year level set in the lease or to the extent that the tenant has a lease on a triple net basis. Termination fees received from tenants, bankruptcy settlement fees, third party management fees, labor reimbursement and leasing income are recorded when earned. No tenant represented greater than 10% of the Company's rental revenue in 2008, 2007 or 2006.

Income Taxes

The Company has elected to be treated as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the Code). In addition, the Company has several subsidiary REITs. In order to maintain their qualification as a REIT, the Company and its REIT subsidiaries are required to, among other things, distribute at least 90% of its REIT taxable income to its stockholders and meet certain tests regarding the nature of its income and assets. As REITs, the Company and its REIT subsidiaries are not subject to federal income tax with respect to the portion of its income that meets certain criteria and is distributed annually to the stockholders. Accordingly, no provision for federal income taxes is included in the accompanying consolidated financial statements with respect to the operations of these entities. The Company and its REIT subsidiaries intend to continue to operate in a manner that allows them to continue to meet the requirements for taxation as REITs. Many of these requirements, however, are highly technical and complex. If the Company or one of its REIT subsidiaries were to fail to meet these requirements, the Company would be subject to federal income tax. The Company is subject to certain state and local taxes. Provision for such taxes has been included in general and administrative expenses in the Company's Consolidated Statements of Operations and Comprehensive Income.

The tax basis in the Company's assets was \$4.4 billion as of December 31, 2008 and \$4.5 billion as of December 31, 2007.

The Company is subject to a 4% federal excise tax if sufficient taxable income is not distributed within prescribed time limits. The excise tax equals 4% of the annual amount, if any, by which the sum of (a) 85% of the Company's ordinary income and (b) 95% of the Company's net capital gain exceeds cash distributions and certain taxes paid by the Company. No excise tax was incurred in 2008, 2007, or 2006.

The Company may elect to treat one or more of its subsidiaries as a taxable REIT subsidiary (TRS). In general, a TRS of the Company may perform additional services for tenants of the Company and generally may engage in any real estate or non-real estate related business (except for the operation or management of health care facilities or lodging facilities or the provision to any person, under a franchise, license or otherwise, of rights to any brand name under which any lodging facility or health care facility is operated). A TRS is subject to corporate federal income tax. The Company has elected to treat certain of its corporate subsidiaries as TRSs, these entities provide third party property management services and certain services to tenants that could not otherwise be provided. At December 31, 2008, the Company's TRSs had tax net operating loss (NOL) carryforwards of approximately \$(1.0) million, expiring from 2013 to 2027. The Company has ascribed a full valuation allowance to its net deferred tax assets.

The Company adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an Interpretation of FASB No. 109* (FIN 48) on January 1, 2007. As a result of the implementation of FIN 48, the Company recognized no material adjustments regarding our tax accounting treatment. The Company expects to recognize interest and penalties, to the extent incurred related to uncertain tax positions, as income tax expense, which would be included in general and administrative expense.

Earnings Per Share

Basic earnings per share is calculated by dividing income allocated to Common Shares by the weighted-average number of shares outstanding during the period. Diluted earnings per share includes the effect of common share equivalents outstanding during the period.

Treasury Shares

The Company accounts for its treasury share purchases using the cost method. Since repurchase, shares have been reissued at an amount less than their cost basis. The losses on reissuances are charged to the cumulative earnings of the Company using the FIFO basis.

Stock-Based Compensation Plans

The Company maintains a shareholder-approved equity-incentive plan known as the Amended and Restated 1997 Long-Term Incentive Plan (the 1997 Plan). The 1997 Plan is administered by the Compensation Committee of the Company's Board of Trustees. Under the 1997 Plan, the Compensation Committee is authorized to award equity and equity-based awards, including incentive stock options, non-qualified stock options, restricted shares and performance-based shares. As of December 31, 2008, 3.3 million common shares remained available for future awards under the 1997 Plan. Through December 31, 2008, all options awarded under the 1997 Plan had a one to ten year term. On April 8, 2008, the Compensation Committee awarded incentive stock options and non-qualified stock options exercisable for an aggregate of 1.6 million common shares. These options, together with non-qualified options awarded in March 2008, vest over a three-year period.

The Company recognized stock-based compensation expense of \$4.6 million in 2008, \$4.7 million in 2007 and \$3.4 million in 2006 included in general and administrative expense on the Company's consolidated income statement in the respective periods.

Comprehensive Income

Comprehensive income or loss is recorded in accordance with the provisions of SFAS 130 (SFAS 130), *Reporting Comprehensive Income*. SFAS 130 establishes standards for reporting comprehensive income and its components in financial statements. Comprehensive income includes unrealized gains and losses on available-for-sale securities and the effective portions of changes in the fair value of derivatives.

Accounting for Derivative Instruments and Hedging Activities

The Company accounts for its derivative instruments and hedging activities under SFAS No. 133 (SFAS 133), *Accounting for Derivative Instruments and Hedging Activities*, and its corresponding amendments under SFAS No. 138, *Accounting for Certain Derivative Instruments and Hedging Activities - An Amendment of SFAS 133*. SFAS 133 requires the Company to measure every derivative instrument (including certain derivative instruments embedded in other contracts) at fair value and record them in the balance sheet as either an asset or liability. See disclosures below related to the Company's adoption of Statement of Financial Accounting Standard No. 157, *Fair Value Measurements* . For derivatives designated as fair value hedges, the changes in fair value of both the derivative instrument and the hedged item are recorded in earnings. For derivatives designated as cash flow hedges, the effective portions of changes in the fair value of the derivative are reported in other comprehensive income. The ineffective portions of hedges are recognized in earnings in the current period. During 2007, the Company recognized \$0.2 million for the ineffective portion of its cash flow hedges and \$3.7 million upon termination of certain of its cash flow hedges in the statement of operations. For the year ended December 31, 2008 and 2006, there are no ineffective portions of our cash flow hedges.

The Company actively manages its ratio of fixed-to-floating rate debt. To manage its fixed and floating rate debt in a cost-effective manner, the Company, from time to time, enters into interest rate swap agreements as cash flow hedges, under which it agrees to exchange various combinations of fixed and/or variable interest rates based on agreed upon notional amounts.

Accounting Pronouncements Adopted January 1, 2008

Effective January 1, 2008, the Company adopted Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157) as amended by FASB Staff Position SFAS 157-1, *Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13* (FSP FAS 157-1) and FASB Staff Position SFAS 157-2, *Effective Date of FASB Statement No. 157* (FSP FAS 157-2). SFAS 157 defines fair value, establishes a framework for measuring fair value in GAAP and provides for expanded disclosure about fair value measurements. SFAS 157 is applied prospectively, including to all other accounting pronouncements that require or permit fair value measurements. FSP FAS 157-1 amends SFAS 157 to exclude from the scope of SFAS 157 certain leasing transactions accounted for under Statement of Financial Accounting Standards No. 13, *Accounting for Leases* for purposes of measurements and classifications. FSP FAS 157-2 amends SFAS 157 to defer the effective date of SFAS 157 for all non-financial assets and non-financial liabilities except those that are recognized or disclosed at fair value in the financial statements on a recurring basis to fiscal years beginning after November 15, 2008.

SFAS 157 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. SFAS 157 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value. Financial assets and liabilities recorded on the Consolidated Balance Sheets at fair value are categorized based on the inputs to the valuation techniques as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates, and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, which is typically based on an entity's own assumptions, as there is little, if any, related market activity or information. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability. SFAS 157 was

applied to the Company's outstanding derivatives and available-for-sale-securities effective January 1, 2008.

F - 16

The following table sets forth the Company's financial assets and liabilities that were accounted for at fair value on a recurring basis as of December 31, 2008:

Description	Fair Value Measurements at Reporting Date Using:			
	December 31, 2008	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)
Assets:				
Available-for-Sale Securities	\$ 423	\$ 423	\$	
Liabilities:				
Interest Rate Swaps	\$ 10,985		\$ 10,985	
Forward Starting Interest Rate Swaps	7,481		7,481	
	\$ 18,466	\$	\$ 18,466	\$

The partial adoption of SFAS 157 under FSP FAS 157-2 did not have a material impact on the Company's financial assets and liabilities. Management is evaluating the impact that SFAS 157 will have on its non-financial assets and non-financial liabilities since the application of SFAS 157 for such items was deferred to January 1, 2009. The Company believes that the impact of these items will not be material to its consolidated financial statements. Assets and liabilities typically recorded at fair value on a non-recurring basis to which the Company has not yet applied SFAS 157 due to the deferral of SFAS 157 for such items include:

Non-financial assets and liabilities initially measured at fair value in an acquisition or business combination that are not remeasured at least annually at fair value

Long-lived assets measured at fair value due to an impairment under Statement of Financial Accounting Standards No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*

Asset retirement obligations initially measured at fair value under Statement of Financial Accounting Standards No. 143, *Accounting for Asset Retirement Obligations*

Effective January 1, 2008, the Company adopted Statement of Financial Accounting Standards No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective of the guidance is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. The adoption of SFAS 159 did not have any impact on the Company's consolidated financial statements since the Company did not elect to apply the fair value option to any of its eligible financial instruments or other items.

New Pronouncements

In June 2008, the FASB issued FASB Staff Position EITF No. 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities* (FSP EITF 03-6-1). This new standard requires that nonvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents be treated as participating securities in the computation of earnings per share pursuant to the two-class method. The Company believes that FSP EITF 03-6-1 will require the Company to include the impact of its nonvested shares of common stock and restricted stock units in earnings per share using this more dilutive methodology. However, the Company currently believes that FSP EITF 03-6-1 will not have a material impact on the Company's consolidated

financial statements and results of operations for the share-based payment programs currently in place. FSP EITF 03-6-1 will be applied retrospectively to all periods presented for fiscal years beginning after December 15, 2008. In May 2008, the FASB issued FASB Staff Position APB 14-1 *Accounting for Convertible Debt Instruments That May Be Settled Upon Conversion (Including Partial Cash Settlement)* (FSP APB 14-1). This new standard requires the initial proceeds from convertible debt that may be settled in cash to be bifurcated between a liability component and an equity component. The objective of the guidance is to require the liability and equity components of convertible debt to be separately accounted for in a manner such that the interest expense recorded on the convertible debt would not equal the contractual rate of interest on the convertible debt, but instead would be recorded at a rate that would reflect the issuer's conventional debt borrowing rate. This is accomplished through the

F - 17

creation of a discount on the debt that would be accreted using the effective interest method as additional non-cash interest expense over the period the debt is expected to remain outstanding (i.e. through the first optional redemption date). The provisions of FSP APB 14-1 will be applied retrospectively to all periods presented for fiscal years beginning after December 31, 2008 and early adoption is not permitted. Management believes that FSP APB 14-1 will impact the accounting for the Company's 3.875% Exchangeable Notes and will have a material impact on the Company's consolidated financial statements and results of operations. The Company has estimated that the application of FSP APB 14-1 will result in an aggregate of approximately \$0.06 per share (net of incremental capitalized interest) of additional non-cash interest expense retroactively applied for fiscal 2008. Excluding the impact of capitalized interest, the additional non-cash interest expense will be approximately \$0.05 per share for fiscal 2008, and this amount (before netting) will increase in subsequent reporting periods through the first optional redemption dates as the debt accretes to its par value over the same period. The application of FSP APB 14-1 will also require the Company to reduce the amount of gain recognized in the twelve-months ended December 31, 2008 on extinguishment of debt by approximately \$0.06 per share.

In April 2008, the FASB issued FASB Staff Position 142-3, *Determination of the Useful Life of Intangible Assets* (FSP 142-3). FSP 142-3 is to be applied prospectively for fiscal years beginning after December 15, 2008. Management is currently evaluating the impact of FSP 142-3 on the Company's consolidated financial position, results of operations and cash flows but currently does not believe it will have a material impact on the Company's consolidated financial statements.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161 *Disclosures about Derivative Instruments and Hedging Activities* (SFAS 161). This new standard enhances disclosure requirements for derivative instruments in order to provide users of financial statements with an enhanced understanding of (i) how and why an entity uses derivative instruments, (ii) how derivative instruments and related hedged items are accounted for under Financial Accounting Standards No. 133 *Accounting for Derivative Instruments and Hedging Activities* and its related interpretations and (iii) how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. SFAS 161 is to be applied prospectively for the first annual reporting period beginning on or after November 15, 2008. The Company believes that the adoption of SFAS 161 will not have a material impact on the Company's financial statement disclosures based on the Company's current disclosures.

In December 2007, the FASB issued Statement No. 141 (revised 2007), *Business Combinations* (SFAS 141(R)), which establishes principles and requirements for how the acquirer shall recognize and measure in its financial statements the identifiable assets acquired, liabilities assumed, any noncontrolling interest in the acquiree and goodwill acquired in a business combination. This statement is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008.

In December 2007, the FASB issued SFAS No. 160, *Accounting for Noncontrolling Interests* (SFAS No. 160). Under this statement, noncontrolling interests are to be presented as a component of consolidated shareholders' equity. Also, under SFAS No. 160, net income will encompass the total income of all consolidated subsidiaries and there will be separate disclosure on the face of the income statement of the attribution of that income between controlling and noncontrolling interests. Last, increases and decreases in noncontrolling interests will be treated as equity transactions. The standard is effective for the year ending December 31, 2009. The Company continues to evaluate the impact of this statement but at the present time does not anticipate that the adoption of this statement will have a material effect on its financial position or results of operations.

3. REAL ESTATE INVESTMENTS

As of December 31, 2008 and 2007, the gross carrying value of the Company's Properties was as follows:

	December 31,	
	2008	2007
	(amounts in thousands)	
Land	\$ 695,408	\$ 727,979
Building and improvements	3,481,289	3,672,638

Tenant improvements	419,440	412,946
	\$ 4,596,137	\$ 4,813,563

F - 18

Acquisitions and Dispositions

The Company's acquisitions were accounted for by the purchase method. The results of each acquired property are included in the Company's results of operations from their respective purchase dates.

2008

The Company did not acquire any properties during the year-ended December 31, 2008.

On October 8, 2008, the Company sold five properties, totaling approximately 1.7 million net rentable square feet in Oakland, California for an aggregate sales price of \$412.5 million. The buyer assumed three mortgage loans totaling \$95.3 million and was granted by the Company a \$40.0 million interest free note receivable secured by a first mortgage on two of the properties. The present value of the note receivable on the sale date was \$37.1 million and the balance will accrete to \$40.0 million as interest income is earned through the maturity date in August 2010 at an imputed 4.0% interest rate. The Company incurred an impairment charge of \$6.85 million upon the classification of these properties as held for sale at June 30, 2008.

On October 1, 2008, the Company sold Main Street Centre, a 0.4 million net rentable square feet office property located in Richmond, Virginia, for a sales price of \$48.8 million.

On April 25, 2008, the Company sold 100 Brandywine Boulevard, an office property located in Newtown, Pennsylvania containing 102,000 net rentable square feet, for a sales price of \$28.0 million.

On February 29, 2008, the Company sold 1400 Howard Boulevard, an office property located in Mount Laurel, New Jersey containing 75,590 net rentable square feet, for a sales price of \$22.0 million.

On February 14, 2008, the Company sold a parcel of land located in Henrico, Virginia containing 3.24 acres, for a sales price of \$0.4 million.

On January 14, 2008, the Company sold 7130 Ambassador Drive, an office property located in Allentown, Pennsylvania containing 114,049 net rentable square feet, for a sales price of \$5.8 million.

2007

DRA Joint Venture

On December 19, 2007, the Company formed G&I Interchange Office LLC, a new joint venture (the "Venture") with G&I VI Investment Interchange Office LLC ("G&I VI"), an investment vehicle advised by DRA Advisors LLC. The Venture included interest in 29 office properties which were located in various counties in Pennsylvania, containing an aggregate of 1,616,227 net rentable square feet. The Company transferred or contributed 100% interests in 26 properties and transferred to the Venture an 89% interest in three of the properties with the remaining 11% interest in the three properties subject to a put/call at fixed prices after three years. In connection with the formation, the Company effectively transferred an 80% interest in the venture to G&I IV for cash and the venture borrowed approximately \$184.0 million in third party financing the aggregate proceeds of which were distributed to the Company. The Company used the net proceeds of these transactions of approximately \$230.9 million that it received in this transaction to reduce outstanding indebtedness under the Company's unsecured revolving credit facility. The Company was hired by the Venture to perform property management and leasing services. The joint venture agreements provide for certain control rights and participation as a joint venture partner and based on its evaluation of control rights and other rights; the Company does not consolidate the Venture.

In connection with these transactions, the Company recorded a gain as a partial sale of \$40.5 million. The Company's continuing involvement with the properties through its joint venture interest and management fees and leasing commissions represents a significant continuing involvement in the properties. Accordingly, under EITF 03-13, *Applying the Conditions in Paragraph 42 of FASB Statement No. 144*

in Determining Whether to Report Discontinued Operations , the Company has determined that the gain on sale and the operations of the properties should not be included in discontinued operations.

Other 2007 Acquisitions and Dispositions

On November 30, 2007, the Company sold 111/113 Pencader Drive, an office property located in Newark, Delaware containing 52,665 net rentable square feet, for a sales price of \$5.1 million.

On November 15, 2007, the Company sold 2490 Boulevard of the Generals, an office property located in West Norriton, Pennsylvania containing 20,600 net rentable square feet, for a sales price of \$1.5 million.

On September 7, 2007, the Company sold seven land parcels located in the Iron Run Business Park in Lehigh County, Pennsylvania containing an aggregate 51.5 acres of land, for an aggregate sales price of \$6.6 million.

On July 19, 2007, the Company acquired the United States Post Office building, an office property located in Philadelphia, Pennsylvania containing 862,692 net rentable square feet, for an aggregate purchase price of \$28.0 million. The Company intends to redevelop the building into office space for the Internal Revenue Service (IRS). As part of this acquisition, the Company also acquired a 90 year ground lease interest in an adjacent parcel of ground of approximately 2.54 acres, commonly referred to as the postal annex . The Company demolished the existing structure located on the postal annex and intends to build a parking facility containing approximately 542,273 square feet that will primarily be used by the IRS employees upon their move into the planned office space at the Post Office building. The remaining postal annex ground leased parcels can also accommodate additional office, retail, hotel and residential development and the Company is currently in the planning stage with respect to these parcels and is seeking specific zoning authorization related thereto.

On July 19, 2007, the Company acquired five office properties containing 508,607 net rentable square feet and a 4.9 acre land parcel in the Boulders office park in Richmond, Virginia for an aggregate purchase price of \$96.3 million. The Company funded \$36.6 million of the purchase price using the remaining proceeds from the sale of the 10 office properties located in Reading and Harrisburg, Pennsylvania in March 2007.

On May 10, 2007, the Company acquired Lake Merritt Tower, an office property located in Oakland, California containing 204,278 net rentable square feet for an aggregate purchase price of \$72.0 million. A portion of the proceeds from the sale of the 10 office properties located in Reading and Harrisburg, Pennsylvania in March 2007 was used to fully fund this purchase.

On April 30, 2007, the Company sold Cityplace Center, an office property located in Dallas, Texas containing 1,295,832 net rentable square feet, for a sales price of \$115.0 million.

On March 30, 2007, the Company sold 10 office properties located in Reading and Harrisburg, Pennsylvania containing 940,486 net rentable square feet, for an aggregate sales price of \$112.0 million. The Company structured this transaction to qualify as a like-kind exchange under Section 1031 of the Internal Revenue Code and the cash from the sale was held by a qualified intermediary for purposes of accomplishing the like-kind exchange as noted in the above transactions.

On March 30, 2007, the Company sold 1007 Laurel Oak, an office property located in Voorhees, New Jersey containing 78,205 net rentable square feet, for a sales price of \$7.0 million.

On March 1, 2007, the Company acquired the remaining 49% interest in a consolidated real estate venture previously owned by Stichting Pensioenfonds ABP containing ten office properties for a purchase price of \$63.7 million. The Company owned a 51% interest in this real estate venture through the acquisition of Prentiss in January 5, 2006 and had already consolidated this venture. This purchase was accounted for as a step acquisition and the difference between the purchase price of the minority interest and the carrying value of the pro rata share of the assets of the real estate venture was allocated to the real estate venture s assets and liabilities based on their relative fair value.

On January 31, 2007, the Company sold George Kachel Farmhouse, an office property located in Reading, Pennsylvania containing 1,664 net rentable square feet, for a sales price of \$0.2 million.

On January 19, 2007, the Company sold four office properties located in Dallas, Texas containing 1,091,186 net rentable square feet and a 4.7 acre land parcel, for an aggregate sales price of \$107.1 million.

On January 18, 2007, the Company sold Norriton Office Center, an office property located in East Norriton, Pennsylvania containing 73,394 net rentable square feet, for a sales price of \$7.8 million.

The sales prices above do not include transaction costs for each of the respective sales.

4. INVESTMENT IN UNCONSOLIDATED VENTURES

As of December 31, 2008, the Company had an aggregate investment of approximately \$71.0 million in its 13 unconsolidated Real Estate Ventures (net of returns of investment). The Company formed these ventures with unaffiliated third parties, or acquired them, to develop office properties or to acquire land in anticipation of possible development of office properties. Nine of the Real Estate Ventures own 43 office buildings that contain an aggregate of approximately 4.2 million net rentable square feet, one Real Estate Venture developed a hotel property that contains 137 rooms in Conshohocken, PA, one Real Estate Venture constructed and sold condominiums in Charlottesville, VA, one Real Estate Venture is developing an office property located in Charlottesville, VA and one Real Estate Venture is in the planning stages of an office development in Conshohocken, PA.

The Company accounts for its unconsolidated interests in its Real Estate Ventures using the equity method.

Unconsolidated interests range from 5% to 50%, subject to specified priority allocations in certain of the Real Estate Ventures.

The amounts reflected in the following tables (except for the Company's share of equity and income) are based on the historical financial information of the individual Real Estate Ventures. One of the Real Estate Ventures, acquired in connection with the Prentiss Properties Trust merger in 2006, had a negative equity balance on a historical cost basis as a result of historical depreciation and distribution of excess financing proceeds. The Company reflected its acquisition of this Real Estate Venture interest at its relative fair value as of the date of the purchase of Prentiss. The difference between allocated cost and the underlying equity in the net assets of the investee is accounted for as if the entity were consolidated (i.e., allocated to the Company's relative share of assets and liabilities with an adjustment to recognize equity in earnings for the appropriate depreciation/amortization). The Company does not allocate operating losses of the Real Estate Ventures in excess of its investment balance unless the Company is liable for the obligations of the Real Estate Venture or is otherwise committed to provide financial support to the Real Estate Venture.

The Company's investment in Real Estate Ventures as of December 31, 2008 and the Company's share of the Real Estate Ventures' income (loss) for the year ended December 31, 2008 was as follows (in thousands):

F - 21

	Ownership Percentage (1)	Carrying Amount	Company's Share of 2008 Real Estate Venture Income (Loss)	Real Estate Venture Debt at 100%	Current Interest Rate	Debt Maturity
Two Tower Bridge Associates	35%	\$ 1,581	\$ 43	\$ 15,794	5.90%	May-13
Seven Tower Bridge Associates	10%	552			N/A	N/A
Eight Tower Bridge Associates	5.5%	(142)	55	70,148	2.35%	May-09
1000 Chesterbrook Boulevard	50%	1,969	514	25,964	6.88%	Nov-11
PJP Building Two, LC	30%	203	101	4,903	6.12%	Nov-23
PJP Building Three, LC	25%	(26)			N/A	N/A
PJP Building Five, LC	25%	135	99	6,239	6.47%	Aug-19
PJP Building Six, LC	25%	85	64	9,389	6.08%	Apr-23
PJP Building Seven, LC	25%	75		8,684	+1.75%	Oct-10
Macquarie BDN Christina LLC	20%	3,186	1,233	74,500	4.62%	Mar-09
Broadmoor Austin Associates	50%	62,759	1,011	100,207	5.79%	Apr-11
Residence Inn Tower Bridge	50%	651	610	14,480	5.63%	Feb-16
G&I Interchange Office LLC (DRA) (2)	20%		922	184,000	5.78%	Jan-15
Invesco, L.P. (3)	35%		615		N/A	N/A
Five Tower Bridge Associates (4)	15%		3,180	N/A	N/A	N/A
		\$71,028	\$ 8,447	\$514,308		

(1) Ownership percentage represents the Company's entitlement to residual distributions after payments of priority returns, where applicable.

(2) See Note 3 Real Estate Investments for description of formation of the Venture. The

Company retained a 20% interest and received distributions from financing in excess of its basis. The Company has no commitment to fund and no expectation of operating losses, accordingly, the Company's carrying value has not been reduced below zero. The income recognized for the year ended December 31, 2008 relates to distributions received from the Venture. The amount is shown gross of the elimination of 20% portion of revenues we received for management fees of \$0.4 million as of December 31, 2008.

- (3) The Company's interest consists solely of a residual profits interest. This distribution represents the Company's final distribution from the Venture and, therefore, it is

no longer included in our total real estate venture count.

- (4) The Company's share of 2008 real estate venture income represents the payout of the Company's interest in the Venture upon the sale of Five Tower Bridge which occurred on October 16, 2008.

The following is a summary of the financial position of the unconsolidated Real Estate Ventures in which the Company had investment interests as of December 31, 2008 and 2007 (in thousands):

	December 31,	
	2008	2007
Net property	\$554,424	\$587,537
Other assets	96,278	113,268
Other Liabilities	39,384	41,459
Debt	514,308	538,766
Equity	97,006	120,581
Company's share of equity (Company's basis)	71,028	71,598

The following is a summary of results of operations of the unconsolidated Real Estate Ventures in which the Company had interests as of December 31, 2008, 2007 and 2006 (in thousands):

	Year ended December 31,		
	2008	2007	2006
Revenue	\$105,896	\$75,541	\$70,381
Operating expenses	38,036	25,724	26,878
Interest expense, net	30,585	21,442	21,711
Depreciation and amortization	34,848	15,526	17,808
Net income	2,427	12,849	5,176
Company's share of income (Company's basis)	8,447	6,955	2,165

Equity in income of real estate ventures in the Company's consolidated statement of operations for the twelve-months ended December 31, 2007 includes a \$3.9 million distribution on account of a residual profits interest that is not included in the table above.

As of December 31, 2008, the aggregate principal payments of non-recourse debt payable to third-parties are as follows (in thousands):

2009	\$ 157,353
2010	22,293
2011	109,161
2012	3,635
2013	1,936
Thereafter	219,930
	\$ 514,308

As of December 31, 2008, the Company had guaranteed repayment of approximately \$2.2 million of loans on behalf of certain Real Estate Ventures. The Company also provides customary environmental indemnities in connection with construction and permanent financing both for its own account and on behalf of its Real Estate Ventures. For certain of the Real Estate Ventures with construction projects, the Company's expectation is that it will be required to fund approximately \$10.6 million of the construction costs through capital calls.

5. DEFERRED COSTS

As of December 31, 2008 and 2007, the Company's deferred costs were comprised of the following (in thousands):

	December 31, 2008		
	Total Cost	Accumulated Amortization	Deferred Costs, net
Leasing Costs	\$ 115,262	\$ (39,528)	\$ 75,734
Financing Costs	25,709	(11,577)	14,132
Total	\$ 140,971	\$ (51,105)	\$ 89,866

	December 31, 2007		
	Total Cost	Accumulated Amortization	Deferred Costs, net
Leasing Costs	\$ 99,077	\$ (31,259)	\$ 67,818
Financing Costs	27,597	(8,292)	19,305
Total	\$ 126,674	\$ (39,551)	\$ 87,123

During 2008, 2007 and 2006, the Company capitalized internal direct leasing costs of \$7.9 million, \$8.2 million and \$8.3 million, respectively, in accordance with SFAS No. 91 and related guidance.

6. INTANGIBLE ASSETS AND LIABILITIES

As of December 31, 2008 and 2007, the Company's intangible assets/liabilities were comprised of the following (in thousands):

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-K

	December 31, 2008		
	Total	Accumulated	Deferred
	Cost	Amortization	Costs,
			net
In-place lease value	\$ 145,518	\$ (71,138)	\$ 74,380
Tenant relationship value	103,485	(40,835)	62,650
Above market leases acquired	23,351	(14,624)	8,727
Total	\$ 272,354	\$ (126,597)	\$ 145,757
Below market leases acquired	\$ 82,950	\$ (35,324)	\$ 47,626

	December 31, 2007		
	Total	Accumulated	Deferred
	Cost	Amortization	Costs,
			net
In-place lease value	\$ 180,456	\$ (65,742)	\$ 114,714
Tenant relationship value	121,094	(32,895)	88,199
Above market leases acquired	29,337	(14,101)	15,236
Total	\$ 330,887	\$ (112,738)	\$ 218,149
Below market leases acquired	\$ 103,825	\$ (36,544)	\$ 67,281

For the years ended December 31, 2008, 2007, and 2006, the Company accelerated amortization of approximately \$1.7 million, \$4.1 million and \$1.2 million, respectively, of intangible assets as a result of tenant move-outs prior to the end of the associated lease terms. For the years ended December 31, 2008, 2007, and 2006, the Company accelerated amortization of approximately \$0.1 million, \$0.4 million and \$0.1 million, respectively, of intangible liabilities as a result of tenant move-outs.

As of December 31, 2008, the Company's annual amortization for its intangible assets/liabilities is as follows (in thousands, assumes no early terminations):

	Assets	Liabilities
2009	\$ 36,833	\$ 10,168
2010	30,225	8,414
2011	23,227	7,085
2012	17,788	6,335
2013	12,766	5,895
Thereafter	24,918	9,729
Total	\$ 145,757	\$ 47,626

7. DEBT OBLIGATIONS

The following table sets forth information regarding the Company's mortgage indebtedness outstanding at December 31, 2008 and 2007 (in thousands):

F - 24

Property / Location			Effective	Maturity Date
	December 31, 2008	December 31, 2007	Interest Rate	
MORTGAGE DEBT:				
400 Commerce Drive	\$	\$ 11,575	7.12%	Jun-08

(a) Loans were assumed upon acquisition of the related property. Interest rates presented above reflect the market rate at the time of acquisition.

(b) Loans were assumed in the sale of Northern California assets.

(c) These loans may be extended to June 29, 2012 at the Company's discretion.

During 2008, 2007 and 2006, the Company's weighted-average interest rate on its mortgage notes payable was 6.40%, 6.74% and 6.57%, respectively. As of December 31, 2008 and 2007, the net carrying value of the Company's Properties that are encumbered by mortgage indebtedness was \$691.6 million and \$1,003.5 million respectively. During the year ended December 31, 2008, the Company repurchased \$78.3 million of 2009 Notes in a series of transactions and recognized a gain on early extinguishment of debt of \$4.1 million. In addition, the Company accelerated amortization of the related deferred financing costs of \$0.1 million.

During the year ended December 31, 2008, the Company repurchased \$24.5 million of 2010 Notes in a series of transactions and recognized a gain on early extinguishment of debt of \$3.6 million. In addition, the Company accelerated amortization of the related deferred financing costs of \$0.1 million.

During the year ended December 31, 2008, the Company repurchased \$63.0 million of 3.875% Exchangeable Notes in a series of transactions and recognized a gain on early extinguishment of debt of \$13.0 million. In addition, the Company accelerated amortization of the related deferred financing costs of \$0.9 million. See Note 2 for the expected impact of FSP 14-1 on the gain on early extinguishment of debt which will be applied on a retroactive basis beginning in 2009.

During the year ended December 31, 2008, the Company exercised the accordion feature on its \$150.0 million unsecured term loan which it had entered into in October 2007 and borrowed an additional \$33.0 million, bringing its total outstanding balance to \$183.0 million. All outstanding borrowings under the term loan bear interest at a periodic rate of LIBOR plus 80 basis points. The net proceeds of the term loan were used to reduce indebtedness under the Company's unsecured revolving credit facility. The Term Loan matures on October 18, 2010 and may be extended at the Company's option for two, one-year periods but not beyond the final maturity date of its revolving credit facility. There is no scheduled principal amortization of the Term Loan and the Company may prepay borrowings in whole or in part without premium or penalty. Portions of the Term Loan bear interest at a per annum floating rate equal to: (i) the higher of (x) the prime rate or (y) the federal funds rate plus 0.50% per annum or (ii) a London interbank offered rate that is the rate at which Eurodollar deposits for one, two, three or six months are offered plus between 0.475% and 1.10% per annum (the Libor Margin), depending on the Company's debt rating. The Term Loan Agreement contains financial and operating covenants. Financial covenants include minimum net worth, fixed charge coverage ratio, maximum leverage ratio, restrictions on unsecured and secured debt as a percentage of unencumbered assets and other financial tests. Operating covenants include limitations on the Company's ability to incur additional indebtedness, grant liens on assets, enter into affiliate transactions, and pay dividends.

On April 30, 2007, the Operating Partnership completed an underwritten public offering of \$300.0 million aggregate principal amount of 5.70% unsecured notes due 2017 (the 2017 Notes). Brandywine Realty Trust guaranteed the payment of principal and interest on the 2017 Notes. The Company used proceeds from these notes to reduce borrowings under the Company's revolving credit facility.

On November 29, 2006, the Company irrevocably called for redemption of the \$300.0 million aggregate principal amount of unsecured floating rate notes due 2009 (the 2009 Notes) and repaid these notes on January 2, 2007 in accordance with the November call using proceeds from our Credit Facility. As a result of the early repayment of these notes, the Company incurred accelerated amortization of \$1.4 million in associated deferred financing costs in the fourth quarter 2006.

On October 4, 2006, the Operating Partnership sold \$300.0 million aggregate principal amount of unsecured 3.875% Exchangeable Guaranteed Notes due 2026 in reliance upon an exemption from registration rights under Rule 144A under the Securities Act of 1933 and sold an additional \$45 million of 3.875% Exchangeable Guaranteed Notes due 2026 on October 16, 2006 to cover over-allotments. The Operating Partnership has registered the resale of the exchangeable notes. At certain times and upon certain events, the notes are exchangeable for cash up to their principal amount and with respect to the remainder, if any, of the exchange value in excess of such principal amount, cash or the Company's common shares. The initial exchange rate is 25.4065 shares per \$1,000 principal amount of notes (which is equivalent to an initial exchange price of \$39.36 per share). The Operating Partnership may not redeem the notes prior to October 20, 2011 (except to preserve the Company's status as a REIT for U.S. federal income tax purposes), but we may redeem the notes at any time thereafter, in whole or in part, at a redemption price equal to the principal amount of the notes to be redeemed plus accrued and unpaid interest. In addition, on October 20, 2011, October 15, 2016 and October 15, 2021 as well as upon the occurrence of certain change in control transactions prior to October 20, 2011, holders of notes may require the Company to repurchase all or a portion of the notes at a purchase price equal to the principal amount plus accrued and unpaid interest. The Operating Partnership used net proceeds from the notes to repurchase approximately \$60.0 million of the Company's common stock at a price of \$32.80 per share and for general corporate purposes, including the repayment of outstanding borrowings under the Credit Facility.

On March 28, 2006, the Operating Partnership completed an underwritten public offering of (1) the 2009 Notes, (2) \$300 million aggregate principal amount of 5.75% unsecured notes due 2012 (the 2012 Notes) and (3) \$250 million aggregate principal amount of 6.00% unsecured notes due 2016 (the 2016 Notes). Brandywine Realty Trust

guaranteed the payment of principal and interest on the 2009 Notes, the 2012 Notes and the 2016 Notes. The Company used proceeds from these notes to repay a term loan obtained to finance a portion of the consideration paid in the Prentiss merger and to reduce borrowings under the Company's revolving credit facility.

The Operating Partnership's indenture relating to unsecured notes contains financial restrictions and requirements, including (1) a leverage ratio not to exceed 60%, (2) a secured debt leverage ratio not to exceed 40%, (3) a debt service coverage ratio of greater than 1.5 to 1.0, and (4) an unencumbered asset value of not less than 150% of unsecured debt. In addition, the note purchase agreement relating to the Operating Partnership's \$113.0 million private placement unsecured notes which were due 2008 contained covenants that were similar to the covenants in the indenture. The Company was in compliance with all financial covenants as of December 31, 2008. The \$113.0 million private placement notes were repaid during the year ended December 2008.

The Company utilizes credit facility borrowings for general business purposes, including the acquisition, development and redevelopment of properties and the repayment of other debt. On June 29, 2007, the Company amended its \$600.0 million unsecured revolving credit facility (the Credit Facility). The amendment extended the maturity date of the Credit Facility from December 22, 2009 to June 29, 2011 (subject to an extension of one year, at the Company's option, upon its payment of an extension fee equal to 15 basis points of the committed amount under the Credit Facility). The amendment also reduced the per annum variable interest rate on outstanding balances from Eurodollar plus 0.80% to Eurodollar plus 0.725% per annum. In addition, the amendment reduced the facility fee paid quarterly from 20 basis points to 17.5 basis points per annum. The interest rate and facility fee are subject to adjustment upon a change in the Company's unsecured debt ratings. The amendment also lowered to 7.50% from 8.50% the capitalization rate used in the calculation of several of the financial covenants; increased our swing loan availability from \$50.0 million to \$60.0 million; and increased the number of competitive bid loan requests available to the Company from two to four in any 30 day period. Borrowings are available to the extent of borrowing capacity at the stated rates; however, the competitive bid feature allows banks that are part of the lender consortium under the Credit Facility to bid to make loans to the Company at a reduced Eurodollar rate. The Company has the option to increase the Credit Facility to \$800.0 million subject to the absence of any defaults and the Company's ability to acquire additional commitments from its existing lenders or new lenders. As of December 31, 2008, the Company had \$153.0 million of borrowings, \$15.2 million of letters of credit outstanding under the Credit Facility, and a \$15.3 million holdback in connection with our historic tax credit transaction leaving \$416.5 million of unused availability. During the year ended December 2008 and 2007, the weighted-average interest rate on the Credit Facility was 4.35% and 6.25%, respectively. As of December 31, 2008 and 2007, the weighted average interest rate on the Credit Facility was 1.85% and 5.43%, respectively.

The Credit Facility requires the maintenance of ratios related to minimum net worth, debt-to-total capitalization and fixed charge coverage and includes non-financial covenants. The Company was in compliance with all financial covenants as of December 31, 2008.

In April 2007, the Company entered into a \$20.0 million Sweep Agreement (the Sweep Agreement) to be used for cash management purposes. Borrowings under the Sweep Agreement bear interest at one-month LIBOR plus 0.75%. As of December 31, 2008, the Company had no borrowings outstanding under the Sweep Agreement, leaving \$20.0 million of unused availability. In April 2008, the Sweep Agreement was extended until April 2009 and borrowings now bear interest at one-month LIBOR plus 1.60%.

As of December 31, 2008, the Company's aggregate principal payments are as follows (in thousands):

F - 27

2009	\$ 274,906
2010	515,397
2011	567,365
2012	351,247
2013	58,545
Thereafter	986,295
Total principal payments	2,753,755
Net unamortized premiums/discounts	(83)
Outstanding indebtedness	\$ 2,753,672

8. FAIR VALUE OF FINANCIAL INSTRUMENTS

The following fair value disclosure was determined by the Company using available market information and discounted cash flow analyses as of December 31, 2008 and 2007, respectively. The discount rate used in calculating fair value is the sum of the current risk free rate and the risk premium on the date of acquiring or assuming the instruments or obligations. Considerable judgment is necessary to interpret market data and to develop the related estimates of fair value. Accordingly, the estimates presented are not necessarily indicative of the amounts that the Company could realize upon disposition. The use of different estimation methodologies may have a material effect on the estimated fair value amounts. The Company believes that the carrying amounts reflected in the Consolidated Balance Sheets at December 31, 2008 and 2007 approximate the fair values for cash and cash equivalents, accounts receivable, other assets, accounts payable and accrued expenses.

The following are financial instruments for which the Company estimates of fair value differ from the carrying amounts (in thousands):

	December 31, 2008		December 31, 2007	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Mortgage payable, net of premiums	\$ 484,890	\$ 459,519	\$ 611,898	\$ 597,287
Unsecured notes payable, net of discounts	\$ 1,854,186	\$ 1,152,056	\$ 2,129,734	\$ 1,996,475
Variable Rate Debt Instruments	\$ 414,610	\$ 398,748	\$ 367,057	\$ 348,130
Notes Receivable	\$ 48,048	\$ 46,227	\$ 10,929	\$ 10,482

9. RISK MANAGEMENT AND USE OF FINANCIAL INSTRUMENTS

Risk Management

In the course of its on-going business operations, the Company encounters economic risk. There are three main components of economic risk: interest rate risk, credit risk and market risk. The Company is subject to interest rate risk on its interest-bearing liabilities. Credit risk is primarily the risk of inability or unwillingness of tenants to make contractually required payments. Market risk is the risk of declines in the value of properties due to changes in rental rates, interest rates or other market factors affecting the valuation of properties held by the Company.

Risks and Uncertainties

Deteriorating economic conditions have resulted in a reduction of the availability of financing and higher borrowing costs. These factors, coupled with a slowing economy, have reduced the volume of real estate transactions and created credit stresses on most businesses. The Company believes that vacancy rates may increase through 2009 and possibly beyond as the current economic climate negatively impacts tenants in the Properties.

The Company expects that the impact of the current state of the economy, including rising unemployment and the unprecedented volatility and illiquidity in the financial and credit markets, will continue to have a dampening effect on the fundamentals of its business, including increases in past due accounts, tenant defaults, lower occupancy and

reduced effective rents. These conditions would negatively affect the Company's future net income and cash flows and could have a material adverse effect on its financial condition. In addition to the financial constraints on our tenants, many of the debt capital markets that the Company and other real estate companies frequently access, such as the unsecured bond market and the convertible debt market, are not currently available on terms that management believes are economically attractive or at all. Although management believes that the quality of the Company's assets and its strong balance sheet will enable the Company to raise debt capital from other sources such as traditional term or secured loans from banks, pension funds and life insurance companies, these sources are lending fewer dollars, under stricter terms and at higher borrowing rates, and there can be no assurance that the Company will be able to borrow funds on terms that are economically attractive or at all. As of December 31, 2008, the Company has maturing debt of \$265.5 million in 2009 and \$318.3 million in 2010 (Note 7). These amounts do not include the Credit Facility or the Bank Term Loan as those loans can be extended until 2012 at the Company's discretion. Management is focused on continuing to enhance the Company's liquidity and strengthening its balance sheet through capital retention, targeted sales activity and management of existing and prospective liabilities. The Company intends to improve liquidity (and refinance maturing debt) through a combination of secured mortgages and selective asset sales. The Company's Credit Facility, Bank Term Loan and the indenture governing the unsecured public debt securities (Note 7) contain restrictions, requirements and other limitations on the ability to incur indebtedness, including total debt to asset ratios, secured debt to total asset ratios, debt service coverage ratios and minimum ratios of unencumbered assets to unsecured debt which it must maintain. The ability to borrow under the Credit Facility is subject to compliance with such financial and other covenants. In the event that the Company fails to satisfy these covenants, it would be in default under the Credit Facility, the Bank Term Loan and the indenture and may be required to repay such debt with capital from other sources. Under such circumstances, other sources of capital may not be available, or may be available only on unattractive terms.

Availability of borrowings under the Credit Facility are subject to a traditional material adverse effect clause. Each time the Company borrows it must represent to the lenders that there have been no events of a nature which would have a material adverse effect on the business, assets, operations, condition (financial or otherwise) or prospects of the Company taken as a whole or which could negatively effect the ability of the Company to perform its obligations under the Credit Facility. While the Company believes that there are currently no material adverse effect events, the Company is operating in unprecedented economic times and it is possible that such event could arise which would limit the Company's borrowings under the Credit Facility. If an event occurs which is considered to have a material adverse effect, the lenders could consider the Company in default under the terms of the Credit Facility and the borrowings under the Credit Facility would become due and payable. If the Company is unable to obtain a waiver, this would have a material adverse effect on the Company's financial position and results of operations.

The Company was in compliance with all financial covenants as of December 31, 2008. Management continuously monitors the Company's compliance with and anticipated compliance with the covenants. Certain of the covenants restrict management's ability to obtain alternative sources of capital. While the Company currently believes it will remain in compliance with its covenants, in the event of a continued slow-down and continued crisis in the credit markets, the Company may not be able to remain in compliance with such covenants and if the lender would not provide a waiver, it could result in an event of default.

Use of Derivative Financial Instruments

The Company's use of derivative instruments is limited to the utilization of interest rate agreements or other instruments to manage interest rate risk exposures and not for speculative purposes. The principal objective of such arrangements is to minimize the risks and/or costs associated with the Company's operating and financial structure, as well as to hedge specific transactions. The counterparties to these arrangements are major financial institutions with which the Company and its affiliates may also have other financial relationships. The Company is potentially exposed to credit loss in the event of non-performance by these counterparties. However, because of the high credit ratings of the counterparties, the Company does not anticipate that any of the counterparties will fail to meet these obligations as they come due. The Company does not hedge credit or property value market risks through derivative financial instruments.

The Company formally assesses, both at inception of the hedge and on an on-going basis, whether each derivative is highly-effective in offsetting changes in cash flows of the hedged item. If management determines that a derivative is not highly-effective as a hedge or if a derivative ceases to be a highly-effective hedge, the Company will discontinue hedge accounting prospectively. The related ineffectiveness would be charged to the Statement of Operations.

The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves and implied volatilities. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves.

To comply with the provisions of SFAS No. 157, the Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. In adjusting the fair value of its derivative contracts for the effect of nonperformance risk, the Company has considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds, mutual puts, and guarantees.

Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself and its counterparties. However, as of December 31, 2008, the Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives. As a result, the Company has determined that its derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy.

The following table summarizes the terms and fair values of the Company's derivative financial instruments at December 31, 2008. The notional amounts at December 31, 2008 provide an indication of the extent of the Company's involvement in these instruments at that time, but do not represent exposure to credit, interest rate or market risks. The fair values of the hedges at December 31, 2008 are included in other liabilities and accumulated other comprehensive income in the accompanying balance sheet.

Hedge Product	Hedge Type	Hedge Designation	Notional Amount	Strike	Trade Date	Maturity Date	Fair Value
Swap	Interest Rate	Cash Flow (b)	\$ 78,000 (a)	4.709%	9/20/07	10/18/10	\$ 7,204
Swap	Interest Rate	Cash Flow (b)	25,000	4.415%	10/19/07	10/18/10	1,439
Swap	Interest Rate	Cash Flow (b)	25,000	3.747%	11/26/07	10/18/10	1,111
Swap	Interest Rate	Cash Flow (b)	25,000	3.338%	1/4/08	12/18/09	603
Swap	Interest Rate	Cash Flow (b)	25,774	2.975%	10/16/08	10/30/10	628
Forward Starting Swap	Interest Rate	Cash Flow (c)	25,000	4.770%	1/4/08	12/18/19	4,079
Forward Starting Swap	Interest Rate	Cash Flow (c)	25,000	4.423%	3/19/08	12/18/19	3,402
			\$ 228,774				\$ 18,466

- (a) - Notional amount accruing up to \$155,000 through October 8, 2010.
- (b) - Hedging unsecured variable rate debt.
- (c) - Future issuance of long-term debt with an expected forward starting date in December 2009.

Concentration of Credit Risk

Concentrations of credit risk arise when a number of tenants related to the Company's investments or rental operations are engaged in similar business activities, or are located in the same geographic region, or have similar economic features that would cause their inability to meet contractual obligations, including those to the Company, to be similarly affected. The Company regularly monitors its tenant base to assess potential concentrations of credit risk. Management believes the current credit risk portfolio is reasonably well diversified and does not contain any unusual concentration of credit risk. No tenant accounted for 5% or more of the Company's rents during 2008, 2007 and 2006. Recent developments in the general economy and the global credit markets have had a significant adverse effect on companies in numerous industries. The Company has tenants concentrated in various industries that may be

experiencing adverse effects from the current economic conditions and the Company could be adversely affected if such tenants go into default on their leases.

10. DISCONTINUED OPERATIONS

For the years ended December 31, 2008, 2007 and 2006, income from discontinued operations relates to an aggregate of 52 properties containing approximately 9.4 million net rentable square feet that the Company has sold since January 1, 2006.

The following table summarizes revenue and expense information for the properties sold which qualify for discontinued operations reporting since January 1, 2006 (in thousands):

	Years Ended December 31,		
	2008	2007	2006
Revenue:			
Rents	\$ 40,075	\$ 69,332	\$ 140,010
Tenant reimbursements	1,790	5,769	11,658
Termination fees	25	183	1,144
Other	213	380	1,301
Total revenue	42,103	75,664	154,113
Expenses:			
Property operating expenses	14,814	25,599	54,430
Real estate taxes	3,822	6,676	16,113
Depreciation & amortization	9,550	23,833	54,996
Provision for impairment	6,850		
Total operating expenses	35,036	56,108	125,539
Operating income	7,067	19,556	28,574
Interest income	17	22	37
Interest expense	(4,595)	(5,497)	(6,410)
Income from discontinued operations before gain on sale of interests in real estate and minority interest	2,489	14,081	22,201
Net gain on sale of interests in real estate	28,497	25,743	20,243
Minority interest partners share of net gain on sale			(1,757)
Minority interest partners share of consolidated real estate venture			(482)
Minority interest attributable to discontinued operations LP units	(1,176)	(1,702)	(1,744)
Income from discontinued operations	\$ 29,810	\$ 38,122	\$ 38,461

Discontinued operations have not been segregated in the consolidated statements of cash flows. Therefore, amounts for certain captions will not agree with respective data in the consolidated statements of operations.

11. MINORITY INTEREST IN OPERATING PARTNERSHIP AND CONSOLIDATED REAL ESTATE VENTURES

Operating Partnership

As of December 31, 2008 and 2007, the aggregate book value of the minority interest associated with these units in the accompanying consolidated balance sheet was \$53.2 million and \$84.0 million, respectively and the Company believes that the aggregate settlement value of these interests was approximately \$21.7 million and \$68.8 million, respectively. This amount is based on the number of units outstanding and the closing share price on the balance sheet date.

During the year ended December 31, 2006, 424,608 Class A units were issued in connection with the acquisitions of a property. These Class A units were subsequently redeemed for \$13.5 million and this amount is included in distributions to minority interest holders on the consolidated statement of cash flows.

Minority Interest Partners Share of Consolidated Real Estate Ventures

As of December 31, 2008, the Company owned interests in three consolidated real estate ventures that own three office properties containing approximately 0.4 million net rentable square feet. Two of these consolidated real

estate ventures are variable interest entities under FIN 46R of which the Company is the primary beneficiary. The third is a real estate venture for which the Company serves as the general partner and the limited partner does not have substantive participating rights.

On March 1, 2007, the Company acquired the remaining 49% interest in a real estate venture previously owned by Stichting Pensioenfonds ABP containing ten office properties for a purchase price of \$63.7 million. The Company owned a 51% interest in this real estate venture through the acquisition of Prentiss on January 5, 2006. Minority interest in Real Estate Ventures represents the portion of these consolidated real estate ventures not owned by the Company.

For the remaining consolidated joint ventures, the minority interest is reflected at zero carrying amounts as a result of accumulated losses and distributions in excess of basis.

The minority interests associated with certain of the Real Estate Ventures that have finite lives under the terms of the partnership agreements represent mandatorily redeemable interests as defined in SFAS 150. As of December 31, 2008 and 2007, the aggregate book value of these minority interests in the accompanying consolidated balance sheet was \$0 and the Company believes that the aggregate settlement value of these interests was approximately \$9.1 million. This amount is based on the estimated liquidation values of the assets and liabilities and the resulting proceeds that the Company would distribute to its Real Estate Venture partners upon dissolution, as required under the terms of the respective partnership agreements. Subsequent changes to the estimated fair values of the assets and liabilities of the consolidated Real Estate Ventures will affect the Company's estimate of the aggregate settlement value. The partnership agreements do not limit the amount that the minority partners would be entitled to in the event of liquidation of the assets and liabilities and dissolution of the respective partnerships.

12. BENEFICIARIES EQUITY

Earnings per Share (EPS)

The following table details the number of shares and net income used to calculate basic and diluted earnings per share (in thousands, except share and per share amounts; results may not add due to rounding):

	For the years ended December 31,					
	2008		2007		2006

Total	\$	0.41	\$	0.41	\$	0.56	\$	0.56	\$	0.02	\$	0.02

Securities totaling 2,816,621 in 2008, 3,838,229 in 2007, and 3,961,235 in 2006 were excluded from the earnings per share computations because their effect would have been antidilutive.

The contingent securities/stock based compensation impact is calculated using the treasury stock method and relates to employee awards settled in shares of the Company. The effect of these securities is anti-dilutive for periods that the Company incurs a net loss available to common shareholders and therefore is excluded from the dilutive earnings per share calculation in such periods.

Common and Preferred Shares

On December 10, 2008, the Company declared a distribution of \$0.30 per Common Share, totaling \$26.6 million, which was paid on January 20, 2009 to shareholders of record as of January 6, 2009. On December 10, 2008, the Company declared distributions on its Series C Preferred Shares and Series D Preferred Shares to holders of record as of December 30, 2008. These shares are entitled to a preferential return of 7.50% and 7.375%, respectively. Distributions paid on January 15, 2009 to holders of Series C Preferred Shares and Series D Preferred Shares totaled \$0.9 million and \$1.1 million, respectively.

Common Share Repurchases

The Company maintains a share repurchase program under which the Board has authorized us to repurchase our common shares from time to time. The Board initially authorized this program in 1998 and has periodically replenished capacity under the program. On May 2, 2006 the Company's Board restored capacity to 3.5 million common shares.

The Company repurchased 1.8 million shares during the year ended December 31, 2007 for an aggregate consideration of \$59.4 million under its share repurchase program. As of December 31, 2008, 0.5 million shares remain in treasury. As of December 31, 2008, the Company may purchase an additional 0.5 million shares under the plan.

Repurchases may be made from time to time in the open market or in privately negotiated transactions, subject to market conditions and compliance with legal requirements. The share repurchase program does not contain any time limitation and does not obligate the Company to repurchase any shares. The Company may discontinue the program at any time.

Deferred Compensation

In January 2005, the Company adopted a Deferred Compensation Plan (the "Plan") that allows directors and certain key employees to voluntarily defer compensation. Compensation expense is recorded for the deferred compensation and a related liability is recognized. Participants may elect designated investments options for the investment of their deferred compensation. The deferred compensation obligation is adjusted for income or loss related to the investments selected. At the time the participants defer compensation, the Company records a liability, which is included in the Company's consolidated balance sheet. The liability is adjusted for changes in the market value of the participants selected investments at the end of each accounting period, and the impact of adjusting the liability is recorded as an increase or decrease to compensation cost. For the year ended December 31, 2008, the Company recorded a net reduction in compensation costs of \$2.8 million in connection with the Plan due to the decline in market value of the participant investments in the Plan. For the year ended December 31, 2007, the Company recorded compensation costs of \$0.9 million of compensation cost in connection with the Plan due to the increase in market value of the participant investments in the Plan.

Participants in the Deferred Compensation Plan (the "Plan") may elect to have all or a portion of their deferred compensation invested in the Company's common shares. The Plan does not provide for diversification of a participant's deferral allocated to the Company common share and deferrals allocated to Company common share can only be settled with a fixed number of shares. In accordance with Emerging Issues Task Force Issue 97-14, *Accounting for Deferred Compensation Arrangements Where Amounts Earned Are Held in A Rabbi Trust and Invested*, the deferred compensation obligation associated with Company common share is classified as a component of shareholder's equity and the related shares are treated as shares to be issued and are included in total shares outstanding. At December 31, 2008 and 2007, there were 0.2 million shares to be issued included in total shares outstanding. Subsequent changes in the fair value of the common share are not reflected in operation or shareholders equity of the Company.

13. SHARE BASED COMPENSATION

In December 2004, the FASB issued SFAS No. 123(R), *Share-Based Payment* (SFAS 123(R)). SFAS 123(R) is an amendment of SFAS 123 and requires that the compensation cost relating to share-based payment transactions be recognized in the financial statements. The cost is required to be measured based on the fair value of the equity or liability instruments issued. SFAS 123(R) also contains additional minimum disclosures requirements including, but not limited to, the valuation method and assumptions used, amounts of compensation capitalized and modifications

made. The effective date of SFAS 123(R) was subsequently amended by the SEC to be as of the beginning of the first interim or annual reporting period of the first fiscal year that begins on or after December 15, 2005, and allows several different methods of transition. The Company adopted SFAS 123(R) using the prospective method on January 1, 2006. This adoption did not have a material effect on our consolidated financial statements.

Stock Options

At December 31, 2008, the Company had 1,754,648 options outstanding under its shareholder approved equity incentive plan. There were 1,694,424 options unvested as of December 31, 2008 and \$1.0 million of unrecognized compensation expense associated with these options recognized over a weighted average period of 2.3 years. During the year ended December 31, 2008, the Company recognized \$0.3 million of compensation expense included in general and administrative expense related to unvested options. Option activity as of December 31, 2008 and changes during the year ended December 31, 2008 were as follows:

F - 32

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (in 000 \$)
Outstanding at January 1, 2008	1,070,099	\$ 26.13	0.54	\$ (8,775)
Granted	1,824,594	20.61	8.61	(21,858)
Exercised				
Forfeited or expired	(1,140,045)	26.10		
Outstanding at December 31, 2008	1,754,648	\$ 20.41	9.01	\$ (22,279)
Vested at December 31, 2008	60,224	\$ 14.71	1.83	\$ (421,388)
Exercisable at December 31, 2008	60,224	\$ 14.71	1.83	\$ (421,388)

The fair value of share option awards is estimated on the date of the grant using the Black-Scholes option valuation model. The following weighted-average assumptions were utilized in calculating the fair value of options granted during the year ended December 31, 2008:

Grant Date	March 20, 2008	April 8, 2008
Risk-free interest rate	2.74%	3.03%
Dividend yield	8.81%	8.52%
Volatility factor	23.15%	23.22%
Weighted-average expected life	7 yrs	7 yrs

There were no options granted during the years ended December 31, 2007 and 2006.

	2007		Years ended December 31,		2006	
	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in Years)	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in Years)
Outstanding at beginning of year	1,286,075	\$ 26.45	1.5	1,276,722	\$ 26.82	
Prentiss options converted to Company options as part of the Prentiss acquisition (See Note 3)		\$ 28.80	0.87	496,037	\$ 22.00	
Exercised	(198,495)	\$ 0.00	0	(486,684)	\$ 22.88

Outstanding at end of year	1,070,099	\$ 26.13	0.54	1,286,075	\$ 26.45	1.50
Exercisable at end of year	1,070,099	\$ 26.13		1,286,075	\$ 26.45	

401(k) Plan

The Company sponsors a 401(k) defined contribution plan for its employees. Each employee may contribute up to 100% of annual compensation, subject to specific limitations under the Internal Revenue Code. At its discretion, the Company can make matching contributions equal to a percentage of the employee's elective contribution and profit sharing contributions. Employees vest in employer contributions over a three-year service period. The Company contributions were \$0.6 million in 2008, \$0.6 million in 2007 and \$1.1 million in 2006.

Restricted Share Awards

As of December 31, 2008, 475,496 restricted shares were outstanding and vest over three to seven years from the initial grant date. The remaining compensation expense to be recognized at December 31, 2008 was approximately \$7.1 million. That expense is expected to be recognized over a weighted average remaining vesting period of 2.8

years. For the years ended December 31, 2008 and 2007, the Company recognized \$3.0 million of compensation expense included in general and administrative expense in the respective period related to outstanding restricted shares. For the year ended December 31, 2006, the Company recognized \$3.5 million of compensation expense included in general and administrative expense related to outstanding restricted shares. See Note 2 for the Company's determination that restricted share awards previously classified as a liability will be accounted for as equity classified awards.

The following table summarizes the Company's restricted share activity for the twelve months-ended December 31, 2008:

	Shares		Weighted Average Grant Date Fair value
Non-vested at January 1, 2008	409,282	\$	31.91
Granted	224,691		17.47
Vested	(113,151)		29.63
Forfeited	(45,326)		23.81
Non-vested at December 31, 2008	475,496	\$	26.21

Outperformance Program

On August 28, 2006, the Compensation Committee of the Company's Board of Trustees adopted a long-term incentive compensation program (the outperformance program). The Company will make payments (in the form of common shares) to executive-participants under the outperformance program only if the Company's total shareholder return exceeds percentage hurdles established under the outperformance program. The dollar value of any payments will depend on the extent to which our performance exceeds the hurdles. The Company established the outperformance program under the 1997 Plan.

If the total shareholder return (share price appreciation plus cash dividends) during a three-year measurement period exceeds either of two hurdles (with one hurdle keyed to the greater of a fixed percentage and an industry-based index, and the other hurdle keyed to a fixed percentage), then the Company will fund an incentive compensation pool in accordance with a formula and make pay-outs from the compensation pool in the form of vested and restricted common shares. The awards issued are accounted for in accordance with SFAS 123(R). The fair value of the awards on August 28, 2006, as adjusted for estimated forfeitures, was approximately \$5.6 million and will be amortized into expense over the five-year period beginning on the date of grant using a graded vesting attribution model. The fair value of \$5.6 million on the date of the initial grant represents approximately 86.5% of the total that may be awarded; the remaining amount available will be valued when the awards are granted to individuals. In January 2007, the Company awarded an additional 4.5% under the outperformance program. The fair value of the additional award is \$0.3 million and will be amortized over the remaining portion of the 5 year period. On the date of each grant, the awards were valued using a Monte Carlo simulation. As a result of various forfeitures which have occurred due to employee departures since the plan inception, as of December 31, 2008, the remaining unamortized cost is \$1.4 million which will be recognized through September 30, 2011. For the years ended December 31, 2008, 2007 and 2006, the Company recognized \$1.0 million, \$1.4 million and \$0.5 million, respectively, of compensation expense related to the outperformance program.

Employee Share Purchase Plan

On May 9, 2007, the Company's shareholders approved the 2007 Non-Qualified Employee Share Purchase Plan (the ESPP). The ESPP is intended to provide eligible employees with a convenient means to purchase common shares of the Company through payroll deductions and voluntary cash purchases at an amount equal to 85% of the average closing price per share for a specified period. The maximum participant contribution for the 2008 plan year is limited

to the lesser of 20% of compensation or \$25,000. The number of shares reserved for issuance under the ESPP is 1.25 million. During the year month period ended December 31, 2008, employees made purchases of \$0.6 million under the ESPP and the Company recognized \$0.1 million of compensation expense related to the ESPP. The Board of Directors of the Company may terminate the ESPP at its sole discretion at anytime. Employees were eligible to make purchases under the ESPP beginning in January 2008, accordingly there were no purchases made during the year ended December 31, 2007.

F - 34

14. PREFERRED SHARES

In 2003, the Company issued 2,000,000 7.50% Series C Cumulative Redeemable Preferred Shares (the Series C Preferred Shares) for net proceeds of \$48.1 million. The Series C Preferred Shares are perpetual. On or after December 30, 2008, the Company, at its option, may redeem the Series C Preferred Shares, in whole or in part, by paying \$25.00 per share plus accrued but unpaid dividends.

In 2004, the Company issued 2,300,000 7.375% Series D Cumulative Redeemable Preferred Shares (the Series D Preferred Shares) for net proceeds of \$55.5 million. The Series D Preferred Shares are perpetual. The Company may not redeem Series D Preferred Shares before February 27, 2009 except to preserve its REIT status. On or after February 27, 2009, the Company, at its option, may redeem the Series D Preferred Shares, in whole or in part, by paying \$25.00 per share plus accrued but unpaid dividends.

15. DISTRIBUTIONS

	Years ended December 31,		
	2008	2007	2006
Common Share Distributions:			
Ordinary income	\$ 1.53	\$ 1.16	\$ 1.33
Capital gain	0.11	0.46	0.30
Split year dividend (a)			0.13
Non-taxable distributions	0.12	0.14	
Distributions per share (b)	\$ 1.76	\$ 1.76	\$ 1.76
Percentage classified as ordinary income	86.7%	65.9%	75.6%
Percentage classified as capital gain	6.3%	26.1%	17.0%
Percentage classified as split year dividend	0.0%	0.0%	7.4%
Percentage classified as non-taxable distribution	7.0%	8.0%	0.0%
Preferred Share Distributions:			
Total distributions declared	\$ 7,992,000	\$ 7,992,000	\$ 7,992,000

(a) Split year dividend amount shown for 2006 was taxable in 2005 and paid in 2006.

(b) The Company also declared a special distribution of \$0.02, in addition to the \$1.76, in December 2005 for shareholders of record for the period

January 1, 2006
through
January 4, 2006.

16. TAX CREDIT TRANSACTIONS

Historic Tax Credit Transaction

On November 17, 2008, the Company closed a transaction with US Bancorp (USB) related to the historic rehabilitation of the 30th Street Post Office in Philadelphia, Pennsylvania (project), an 862,692 square foot office building which is 100% pre-leased to the Internal Revenue Service (expected commencement of the IRS lease is August 2010). USB has agreed to contribute approximately \$67.9 million of project costs and advanced \$10.2 million of that contemporaneously with the closing of the transaction. The remaining funds will be advanced in 2009 and 2010 subject to the Company s achievement of certain construction milestones and its compliance with the federal rehabilitation regulations. In return for the investment, USB will, upon completion of the project in 2010, receive substantially all of the rehabilitation credits available under section 47 of the Internal Revenue Code.

In exchange for its contributions into the project, USB is entitled to substantially all of the benefits derived from the tax credit, but does not have a material interest in the underlying economics of the property. This transaction also includes a put/call provision whereby the Company may be obligated or entitled to repurchase USB s interest in the project. The Company believes the put will be exercised and an amount attributed to that obligation is included in other liabilities.

Based on the contractual arrangements that obligate the Company to deliver tax benefits and provide other guarantees to USB and that entitle the Company through fee arrangements to receive substantially all available cash flow from the project, the Company concluded that the project should be consolidated in accordance with FIN 46R. The Company also concluded that capital contributions received from USB, in substance, are consideration that the

F - 35

Company receives in exchange for its obligation to deliver tax credits and other tax benefits to USB. These receipts will be recognized as revenue in the consolidated financial statements beginning when the obligation to USB is relieved upon delivery of the expected tax benefits net of any associated costs. The USB contribution made during 2008 of \$10.2 million is included in other liabilities on the Company's consolidated balance sheet at December 31, 2008. The Company anticipates that upon completion of the project in 2010 it will begin to recognize the cash received as revenue as the five year credit recapture period expires as defined in the Internal Revenue Code. Direct and incremental costs incurred in structuring the arrangement are deferred and amortized in proportion to the recognition of the related revenue. The deferred cost at December 31, 2008 is \$2.2 million and is included in other assets on the Company's consolidated balance sheet.

New Markets Tax Credit Transaction

On December 30, 2008, the Company entered into a transaction with USB related to the Cira Garage Project (garage project) in Philadelphia, Pennsylvania and expects to receive a net benefit of \$7.8 million under a qualified New Markets Tax Credit Program (NMTC). The NMTC was provided for in the Community Renewal Tax Relief Act of 2000 (the Act) and is intended to induce investment capital in underserved and impoverished areas of the United States. The Act permits taxpayers (whether companies or individuals) to claim credits against their Federal income taxes for up to 39% of qualified investments in qualified, active low-income businesses or ventures.

USB contributed \$13.3 million into the garage project and as such they are entitled to substantially all of the benefits derived from the tax credit, but they do not have a material interest in the underlying economics of the garage project. This transaction also includes a put/call provision whereby the Company may be obligated or entitled to repurchase USB's interest. The Company believes the put will be exercised and an amount attributed to that obligation is included in other liabilities.

Based on the contractual arrangements that obligate the Company to deliver tax benefits and provide various other guarantees to USB, the Company concluded that the project should be consolidated in accordance with FIN 46R. Proceeds received in exchange for the transfer of the tax credits will be recognized when the tax benefits are delivered without risk of recapture to the tax credit investors and our obligation is relieved.

Direct and incremental costs incurred in structuring the arrangement are deferred and amortized over the expected duration of the arrangement in proportion to the recognition of the related revenue. The deferred asset at December 31, 2008 is \$5.1 million and is included in other assets on the Company's consolidated balance sheet.

The Company anticipates that it will recognize the net cash received as revenue in the year ended December 31, 2014. The NMTC is subject to 100% recapture for a period of seven years.

17. ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

The following table details the components of accumulated other comprehensive income (loss) as of and for the three years ended December 31, 2008 (in thousands):

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-K

	Unrealized Gains (Losses) on Securities	Cash Flow Hedges	Accumulated Other Comprehensive Loss
Balance at January 1, 2006		(3,169)	(3,169)
Change during year		1,331	1,331
Minority interest consolidated real estate venture partner's share of unrealized (gains)/losses on derivative financial instruments		(302)	(302)
Settlement of forward starting swaps		3,266	3,266
Reclassification adjustments for (gains) losses reclassified into operations	328	122	450
Balance at December 31, 2006	328	1,248	1,576
Change during year		(3,600)	(3,600)
Minority interest consolidated real estate venture partner's share of unrealized (gains)/losses on derivative financial instruments		(3,860)	(3,860)
Settlement of treasury locks		1,148	1,148
Settlement of forward starting swaps		3,436	2,851
Reclassification adjustments for (gains) losses reclassified into operations	(585)		
Balance at December 31, 2007	(257)	(1,628)	(1,885)
Change during year		(15,288)	(15,288)
Minority interest consolidated real estate venture partner's share of unrealized (gains)/losses on derivative financial instruments			
Settlement of treasury locks			
Settlement of forward starting swaps			
Reclassification adjustments for (gains) losses reclassified into operations	248	(80)	168
Balance at December 31, 2008	\$ (9)	\$ (16,996)	\$ (17,005)

Over time, the unrealized gains and losses held in Accumulated Other Comprehensive Income (AOCI) will be reclassified to earnings in the same period(s) in which hedged items are recognized in earnings. The current balance held in AOCI is expected to be reclassified to earnings over the lives of the current hedging instruments, or for realized losses on forecasted debt transactions, over the related term of the debt obligation, as applicable. During the years ended December 31, 2008 and 2007, the Company reclassified approximately \$(0.5) million and \$(0.1) million, respectively, to interest expense associated with treasury lock agreements and forward starting swaps previously settled. Additionally, for the year ended December 31, 2008, AOCI includes unrealized losses of \$(18.5) million

associated with interest rate swap and forward starting swap agreements currently outstanding.

18. SEGMENT INFORMATION

As of December 31, 2008, the Company manages its portfolio within six segments: (1) Pennsylvania, (2) Metropolitan Washington D.C, (3) New Jersey/Delaware, (4) Richmond, Virginia, (5) California and (6) Austin, Texas. The Pennsylvania segment includes properties in Chester, Delaware, Bucks, and Montgomery counties in the Philadelphia suburbs and the City of Philadelphia in Pennsylvania. The Metropolitan Washington, D.C. segment includes properties in Northern Virginia and suburban Maryland. The New Jersey/Delaware segment includes properties in counties in the southern and central part of New Jersey including Burlington, Camden and Mercer counties and in the state of Delaware. The Richmond, Virginia segment includes properties primarily in Albemarle, Chesterfield and Henrico counties, the City of Richmond and Durham, North Carolina. The California segment includes properties in Oakland, Concord, Carlsbad and Rancho Bernardo. The Austin, Texas segment includes properties in Coppell and Austin. The corporate group is responsible for cash and investment management, development of certain real estate properties during the construction period, and certain other general support functions. Land held for development and construction in progress are transferred to operating properties by region upon completion of the associated construction or project.

The Austin, Texas segment was previously known as the Southwest segment. In order to provide specificity and to reflect the disposition of properties in Dallas, Texas in 2007, the Company now considers this segment to be Austin, Texas. The California segment was previously broken out into California North and California South. Upon the completion of the Northern California transaction in 2008, the Company owns three properties and two land parcels

in Northern California. As a result, the California North and the California South segments are now combined into the California segment. The Company has restated the corresponding items of segment information for earlier periods to conform to the new presentation.

Construction-in-progress	\$	\$	\$	\$	\$	\$	\$ 217,886	\$ 217,886
Land inventory	\$	\$	\$	\$	\$	\$	\$ 110,233	\$ 110,233
Total revenue	\$ 249,281	\$ 119,807	\$ 113,104	\$ 25,767	\$ 26,036	\$ 33,586	\$ 1,302	\$ 568,883
Property operating expenses, real estate taxes and third party management expenses	100,070	40,049	48,923	8,791	8,326	11,970	(684)	217,445
Net operating income	\$ 149,211	\$ 79,758	\$ 64,181	\$ 16,976	\$ 17,710	\$ 21,616	\$ 1,986	\$ 351,438

Net operating income is defined as total revenue less property operating expenses, real estate taxes and third party management expenses. Segment net operating income includes revenue, real estate taxes and property operating expenses directly related to operation of the properties within the respective geographical region. Segment net operating income excludes property level depreciation and amortization, revenue and expenses directly associated with third party real estate management services, expenses associated with corporate administrative support services, and inter-company eliminations. Below is a reconciliation of consolidated net operating income to consolidated income (loss) from continuing operations:

	Year Ended December 31,		
	2008	2007	2006
	(amounts in thousands)		
Consolidated net operating income	\$ 371,016	\$ 384,129	\$ 351,438
Less:			
Interest expense	(142,770)	(157,178)	(165,607)
Deferred financing costs	(5,450)	(4,496)	(4,607)
Loss on settlement of treasury lock agreements		(3,698)	
Depreciation and amortization	(205,905)	(223,227)	(210,420)
Administrative expenses	(23,002)	(27,938)	(30,340)
Provision for impairment on land inventory	(10,841)		
Minority interest partners share of consolidated real estate ventures	(127)	(465)	270
Minority interest attributable to continuing operations LP units	(177)	(435)	1,628
Plus:			
Interest income	1,839	4,018	9,489
Equity in income of real estate ventures	8,447	6,955	2,165
Net gain on sales of interests in depreciated real estate		40,498	
Net (loss) gain on sales of interests in undepreciated real estate	(24)	421	14,190
Gain on termination of purchase contract			3,147
Gain on early extinguishment of debt	20,664		
Income (loss) from continuing operations	13,670	18,584	(28,647)
Income from discontinued operations	29,810	38,122	38,461
Net income	\$ 43,480	\$ 56,706	\$ 9,814

19. RELATED-PARTY TRANSACTIONS

The Company held a fifty percent economic interest in an approximately 141,724 square foot office building located at 101 Paragon Drive, Montvale, New Jersey. The remaining fifty percent interest was held by Donald E. Axinn, one of the Company's Trustees. Although the Company and Mr. Axinn had each committed to provide one half of the \$11.0 million necessary to repay the mortgage loan secured by this property at the maturity of the loan, in February 2006 an unaffiliated third party entered into an agreement to purchase this property for \$18.3 million. As a result of the purchase by an unaffiliated third party during August 2006, the Company recognized a \$3.1 million gain on termination of its rights under a 1998 contribution agreement, modified in 2005, that entitled the Company to the 50% interest in the joint venture to operate the property. This gain is shown separately on the Company's income statement as a gain on termination of purchase contract.

20. OPERATING LEASES

The Company leases properties to tenants under operating leases with various expiration dates extending to 2023. Minimum future rentals on non-cancelable leases at December 31, 2008 are as follows (in thousands):

Year	Minimum Rent
2009	\$ 474,720
2010	433,705
2011	375,166
2012	316,100
2013	270,740
Thereafter	1,205,476

Total minimum future rentals presented above do not include amounts to be received as tenant reimbursements for operating costs.

21. COMMITMENTS AND CONTINGENCIES

Legal Proceedings

The Company is involved from time to time in litigation on various matters, including disputes with tenants and disputes arising out of agreements to purchase or sell properties. Given the nature of the Company's business activities, these lawsuits are considered routine to the conduct of its business. The result of any particular lawsuit cannot be predicted, because of the very nature of litigation, the litigation process and its adversarial nature, and the jury system. The Company does not expect that the liabilities, if any, that may ultimately result from such legal actions will have a material adverse effect on the consolidated financial position, results of operations or cash flows of the Company.

Letters-of-Credit

Under certain mortgages, the Company has funded required leasing and capital reserve accounts for the benefit of the mortgage lenders with letters-of-credit which totaled \$15.2 million at December 31, 2008. The Company is also required to maintain escrow accounts for taxes, insurance and tenant security deposits and these accounts aggregated \$13.3 million at December 31, 2008. Tenant rents at properties that secure these mortgage loans are deposited into the loan servicer's depository accounts, which are used to fund debt service, operating expenses, capital expenditures and the escrow and reserve accounts, as necessary. At December 31, 2008, the Company guaranteed a \$15.3 million holdback from the Credit Facility in connection with its historic tax credit transaction. Any excess cash is included in cash and cash equivalents.

Ground Rent

Future minimum rental payments under the terms of all non-cancelable ground leases under which the Company is the lessee are expensed on a straight-line basis regardless of when payments are due. Minimum future rental payments on non-cancelable leases at December 31, 2008 are as follows (in thousands):

2009	\$ 1,986
2010	2,236
2011	2,318
2012	2,318
2013	2,318
Thereafter	290,006

Certain of the land leases provide for prepayment of rent on a present value basis using a fixed discount rate. Further, one of the land leases for a property (currently under development) provides for contingent rent participation by the lessor in certain capital transactions and net operating cash flows of the property after certain returns are achieved by the Company. Such amounts, if any, will be reflected as contingent rent when incurred. During 2008, the Company eliminated a similar provision in another lease by modifying the lease agreement in exchange for a payment of \$2.8 million. The leases also provide for payment by the Company of certain operating costs relating to the land, primarily real estate taxes. The above schedule of future minimum rental payments does not include any contingent rent amounts nor any reimbursed expenses.

Other Commitments or Contingencies

As part of the Company's September 2004 acquisition of a portfolio of properties from The Rubenstein Company (which the Company refers to as the TRC acquisition), the Company acquired its interest in Two Logan Square, a 696,477 square foot office building in Philadelphia, primarily through its ownership of a second and third mortgage secured by this property. This property is consolidated as the borrower is a variable interest entity and the Company, through its ownership of the second and third mortgages, is the primary beneficiary. The Company currently does not expect to take title to Two Logan Square until, at the earliest, September 2019. If the Company takes fee title to Two Logan Square upon a foreclosure of its mortgage, the Company has agreed to pay an unaffiliated third party that holds a residual interest in the fee owner of this property an amount equal to \$0.6 million (if we must pay a state and local transfer upon taking title) and \$2.9 million (if no transfer tax is payable upon the transfer).

The Company is currently being audited by the Internal Revenue Service for its 2004 tax year. The audit concerns the tax treatment of the transaction in September 2004 in which the Company acquired a portfolio of properties through the acquisition of a limited partnership. At this time it does not appear that an adjustment would result in a material tax liability for the Company. However, an adjustment could raise a question as to whether a contributor of partnership interests in the 2004 transaction could assert a claim against the Company under the tax protection agreement entered into as part of the transaction.

As part of the Company's 2006 acquisition of Prentiss Properties Trust, the TRC acquisition in 2004 and several of our other transactions, the Company agreed not to sell certain of the properties it acquired in transactions that would trigger taxable income to the former owners. In the case of the TRC acquisition, the Company agreed not to sell acquired properties for periods up to 15 years from the acquisition date as follows: 201 King of Prussia Road, 555 East Lancaster Avenue and 300 Delaware Avenue (January 2008); One Rodney Square and 130/150/170 Radnor Financial Center (January 2015); and One Logan Square, Two Logan Square and Radnor Corporate Center (January 2020). In the Prentiss acquisition, the Company assumed the obligation of Prentiss not to sell Concord Airport Plaza before March 2018 and 6600 Rockledge before July 2008. The Company's agreements generally provide that it may dispose of the subject properties only in transactions that qualify as tax-free exchanges under Section 1031 of the Internal Revenue Code or in other tax deferred transactions. If the Company were to sell a restricted property before expiration of the restricted period in a non-exempt transaction, the Company would be required to make significant payments to the parties who sold it the applicable property on account of tax liabilities attributed to them. The Company invests in its properties and regularly incurs capital expenditures in the ordinary course to maintain the properties. The Company believes that such expenditures enhance our competitiveness. The Company also enters into construction, utility and service contracts in the ordinary course of business which may extend beyond one year. These contracts typically provide for cancellation with insignificant or no cancellation penalties.

During 2008, in connection with our development of the PO Box/IRS and Cira Garage projects, we entered into a historic tax credit and new market tax credit arrangement, respectively. The Company is required to be in compliance with various laws, regulations and contractual provisions that apply to its historic and new market tax credit arrangements. Non-compliance with applicable requirements could result in projected tax benefits not being realized and require a refund or reduction of investor capital contributions, which are reported as deferred income in the Company's consolidated balance sheet, until such time as its obligation to deliver tax benefits is relieved. The remaining compliance periods for its tax credit arrangements runs through 2015. The Company does not anticipate that any material refunds or reductions of investor capital contributions will be required in connection with these arrangements. Refer to Note 16 for further discussion on the tax credit transactions.

22. SUBSEQUENT EVENT

On February 4, 2009, the Company sold two office properties containing a total of 66,664 net rentable square feet located in Exton, PA, for an aggregate sales price of \$9.0 million.

23. SUMMARY OF QUARTERLY RESULTS (UNAUDITED)

The following is a summary of quarterly financial information as of and for the years ended December 31, 2008 and 2007 (in thousands, except per share data):

	1st Quarter	2nd Quarter	3rd Quarter	4th Quarter
2008:				
Total revenue	\$ 152,572	\$ 151,973	\$ 148,815	\$ 154,751
Net income	14,744	9,368	2,679	16,689
Income allocated to Common Shares	12,746	7,370	681	14,691
Basic earnings per Common Share	\$ 0.15	\$ 0.08	\$ 0.01	\$ 0.17
Diluted earnings per Common Share	\$ 0.15	\$ 0.08	\$ 0.01	\$ 0.17
2007:				
Total revenue	\$ 149,875	\$ 150,421	\$ 163,140	\$ 159,461
Net income	19,225	1,189	2,419	33,873
Income (loss) allocated to Common Shares	17,227	(809)	421	31,875
Basic earnings (loss) per Common Share	\$ 0.20	\$ (0.01)	\$	\$ 0.37
Diluted earnings (loss) per Common Share	\$ 0.19	\$ (0.01)	\$	\$ 0.37

The summation of quarterly earnings per share amounts do not necessarily equal the full year amounts. The above information was updated to reclassify amounts previously reported to reflect discontinued operations and certain revisions made to certain equity awards. See Note 1 and Note 10.
