Section 2 – Financial Information

Item 2.05 Costs Associated with Exit or Disposal Activities.

On September 9, 2013, Chesapeake Energy Corporation (the “Company”) committed to a workforce reduction plan as part of a company-wide reorganization effort intended to reduce costs and position the Company for profitable and efficient growth. The plan has resulted in a reduction of approximately 900 employees. The reduction was communicated to affected employees on various dates within the months of September and October, and all such notifications were completed on October 11, 2013. In connection with the reduction, the Company estimates it will incur an aggregate of approximately \$70 million of one-time charges in the 2013 third and fourth quarters, which includes approximately \$45 million of compensation expense related to the acceleration of restricted stock awards. The Company estimates that the cash flow impact of these charges and related employer payroll taxes will be approximately \$25 million. The Company also expects to incur a one-time charge of approximately \$25 million in the 2013 third quarter related to other workforce reductions, including previously announced executive officer separations, that were outside of the workforce reduction plan.

This Current Report on Form 8-K includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 that give the Company's current expectations or forecasts of future events. Although we believe the expectations, intentions and forecasts reflected in our forward-looking statements are reasonable, we can give no assurance they will prove to have been correct.
