Item 2.02. Results of Operations and Financial Condition.

On October 27, 2005, Tennant Company (the Company) issued the news release that is attached hereto as Exhibit 99 and incorporated herein by reference.

Item 2.05. Costs Associated with Exit or Disposal Activities.

On October 6, 2005, authorized officers of the Company committed to a plan to reallocate production activities among its manufacturing plants to reduce facilities, logistics, labor and other costs. Under the plan, the Company expects to exit its Maple Grove, Minnesota plant in 2007. An estimated 32 positions will be affected, which the Company expects to absorb through normal attrition and reassignments within the Company. The plan is part of the Company's ongoing emphasis on lean enterprise initiatives and leveraging its cost structure. The Company expects to incur pre-tax costs related to these activities of approximately \$1.0 million in each of 2006 and 2007. These cash expenditures relate primarily to relocation and start-up costs to accomplish the transition. The Company expects to sell its Maple Grove plant for a gain. The resulting plant optimization is expected to yield saving of \$1.5 million annually in 2008 and beyond.

Item 9.01. Financial Statements and Exhibits.
