2 ANNUAL REPORT AUGUST 31, 2009	

### Dear Shareholder

The past 12 months reveal two distinct economic and market backdrops one of extreme investor pessimism and decided weakness, and another of

increased optimism amid growing signs of recovery. The start of the period was characterized by the former. September through December 2008 saw the

surge of the economic storm that sparked the worst recession in decades. The months featured, among others, the infamous collapse of Lehman Brothers,

uniformly poor economic data and plummeting investor confidence that resulted in massive government intervention (on a global scale) in the financial sys-

tem and the economy. The tide turned dramatically in March 2009, however, on the back of new US government initiatives, as well as better-than-expected

economic data and upside surprises in corporate earnings.

In this environment, US equities contended with extraordinary volatility, posting steep declines through mid-March before embarking on a rally that resulted

in strong year-to-date returns for all major indexes. June saw a brief correction, though it appeared to be induced more by profit-taking and portfolio rebal-

ancing than by a change in the economic outlook. The experience in international markets was similar to that in the United States. Notably, emerging mar-

kets staged a strong comeback in 2009 as these areas of the globe have generally seen a stronger acceleration in economic activity.

In fixed income markets, the flight-to-safety premium in Treasury securities prevailed during the equity market downturn, but more recently, ongoing concerns

about deficit spending, debt issuance, inflation and dollar weakness have kept Treasury yields higher. At the same time, relatively attractive yields and dis-

tressed valuations among non-Treasury assets, coupled with a more favorable macro environment, drew in sidelined investors and triggered a sharp recovery

in these sectors. This was particularly evident in the high yield sector, which has firmly outpaced all other taxable asset classes since the start of 2009. The

municipal bond market enjoyed strong returns in 2009 as well, buoyed by a combination of attractive valuations, robust retail investor demand and a slow-

down in forced selling. Moreover, the Build America Bond program has alleviated supply pressures, creating a more favorable technical environment. In par-

ticular, August marked the municipal market s best monthly performance in more than 20 years, as the asset class has regained

year-to-date all that was

lost during 2008.

Overall, results for the major benchmark indexes were mixed. Higher-risk assets (i.e., equities and high yield bonds) and Treasuries reflected a bifurcated

market, while less-risky fixed income investments posted stable, modest returns.

Total Returns as of August 31, 2009	6-month		12-month
US equities (S&P 500 Index)	40.52%		(18.25)%
Small cap US equities (Russell 2000 Index)	48.25		(21.29)
International equities (MSCI Europe, Australasia, Far East Index)	53.47		(14.95)
US Treasury securities (BofA Merrill Lynch 10-Year US Treasury Index*)	(1.61)		6.77
Taxable fixed income (Barclays Capital US Aggregate Bond Index)		5.95	7.94
Tax-exempt fixed income (Barclays Capital Municipal Bond Index) High yield bonds (Barclays Capital US Corporate High Yield 2% Issuer Capped		5.61	5.67
Index)	36.31		7.00

<sup>\*</sup> Formerly a Merrill Lynch Index.

The market environment has visibly improved since the beginning of the year, but a great deal of uncertainty and risk remain. Through periods of market tur-

bulence, as ever, BlackRock s full resources are dedicated to the management of our clients assets. We invite you to visit www.blackrock.com/funds for our

most current views on the economy and financial markets. As always, we thank you for entrusting BlackRock with your investments, and we look forward to

continuing to serve you in the months and years ahead.

### **Announcement to Shareholders**

On June 16, 2009, BlackRock, Inc. announced that it received written notice from Barclays PLC ( Barclays ) in which Barclays Board of Directors had

accepted BlackRock s offer to acquire Barclays Global Investors (BGI). At a special meeting held on August 6, 2009, BlackRock s proposed purchase of

BGI was approved by an overwhelming majority of Barclays voting shareholders, an important step toward closing the transaction. The combination of

BlackRock and BGI will bring together market leaders in active and index strategies to create the preeminent asset management firm. The transaction is

scheduled to be completed in the fourth quarter of 2009, subject to important fund shareholder and regulatory approvals.

THIS PAGE NOT PART OF YOUR FUND REPORT 3

### Fund Summary as of August 31, 2009 BlackRock Defined Opportunity Credit Trust

### **Investment Objective**

BlackRock Defined Opportunity Credit Trust (BHL) (the Funds) eks high current income, with a secondary objective of long-term capital appreciation.

No assurance can be given that the Fund s investment objective will be achieved.

### **Performance**

For the 12 months ended August 31, 2009, the Fund returned (2.65)% based on market price and (2.16)% based on net asset value ( NAV ). For the

same period, the closed-end Lipper Loan Participation Funds category posted an average return of (7.95)% on a market price basis and (13.39)% on a

NAV basis. All returns reflect reinvestment of dividends. The Fund s discount to NAV, which widened during the period, accounts for the difference between

performance based on price and performance based on NAV. The Fund maintained relatively defensive sector positioning and relatively low levels of lever-

age (less than 20%). On balance, that positioning benefited the Fund relative to its more highly levered Lipper competitors, although returns would have

been higher over the trailing six-month period had the Fund maintained a higher leverage balance. The Fund s conservative positioning was a detractor dur-

ing the last six months given the market s strong returns. During the period, the Fund moved from a larger cash and short-term investment balance, which

benefited performance in 2008, to a balance of less than 3%, which has benefited performance in the rising market of 2009.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These

views are not intended to be a forecast of future events and are no guarantee of future results.

<sup>4</sup> ANNUAL REPORT AUGUST 31, 2009

## Fund Summary as of August 31, 2009 BlackRock Diversified Income Strategies Fund, Inc.

### **Investment Objective**

BlackRock Diversified Income Strategies Fund, Inc. (DVF) (the Funds) eks to provide investors with a high current income by investing primarily in a

diversified portfolio of floating rate debt securities and instruments, including floating or variable rate loans, bonds, preferred securities (including convert-

ible preferred securities), notes or other debt securities or instruments that pay a floating rate of interest.

No assurance can be given that the Fund s investment objective will be achieved.

#### Performance

For the 12 months ended August 31, 2009, the Fund returned (16.27)% based on market price and (23.82)% based on NAV. For the same period, the

closed-end Lipper Loan Participation Funds category posted an average return of (7.95)% on a market price basis and (13.39)% on a NAV basis. All returns

reflect reinvestment of dividends. The Fund moved from a discount to NAV to a premium by period-end, which accounts for the difference between perform-

ance based on price and performance based on NAV. Unlike other funds in the Lipper category, the Fund invests a significant amount of its portfolio in

fixed-rate, high yield corporate bonds, and a portion in high yield floating rate loan interests (FRNs). During the 12 months, fixed-rate, high yield bonds

outperformed leveraged loans and this contributed to performance. Conversely, the Fund s credit quality has generally been skewed towards the lower credit

quality tiers, which had a negative impact on performance during the market s fall in 2008. Though it has benefited the Fund in 2009 as markets rallied, on

balance, the positioning detracted relative to the Lipper category. The Fund s allocation to high yield FRNs also hampered results as these issues underper-

formed. During the period, the Fund moved from a larger cash and short-term investment balance, which benefited performance in 2008, to a balance of

less than 3%, which further benefited performance in the rising market of 2009.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These

views are not intended to be a forecast of future events and are no guarantee of future results.

### Fund Summary as of August 31, 2009 BlackRock Floating Rate Income Strategies Fund, Inc.

### **Investment Objective**

BlackRock Floating Rate Income Strategies Fund, Inc. (FRA) (the Funds) eks high current income and such preservation of capital as is consistent with

investment in a diversified, leveraged portfolio consisting primarily of floating rate debt securities and instruments.

No assurance can be given that the Fund s investment objective will be achieved.

#### Performance

For the 12 months ended August 31, 2009, the Fund returned (3.88)% based on market price and (8.88)% based on NAV. For the same period, the

closed-end Lipper Loan Participation Funds category posted an average return of (7.95)% on a market price basis and (13.39)% on a NAV basis. The per-

formance of the Lipper category does not necessarily correlate to that of the Fund, as the Lipper group includes unleveraged continuously offered closed-

end funds. All returns reflect reinvestment of dividends. The Fund s discount to NAV, which narrowed during the period, accounts for the difference between

performance based on price and performance based on NAV. The Fund maintained relatively defensive sector positioning and low levels of leverage (less

than 20%). On balance, that positioning benefited the Fund versus its more highly levered Lipper competitors. The Fund also had about 20% of its portfolio

in high yield corporate bonds, which was beneficial as high yield outperformed loans. During the last six months, however, the Fund s conservative position-

ing was a detractor given the market s strong returns. During the period, the Fund moved from a larger cash and short-term investment balance, which bene-

fited performance in 2008, to a balance of less than 3%, which further benefited performance in the rising market of 2009.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These

6 ANNUAL REPORT AUGUST 31, 2009

## Fund Summary as of August 31, 2009 BlackRock Limited Duration Income Trust

### **Investment Objective**

BlackRock Limited Duration Income Trust (BLW) (the Funds\( \)eks to provide current income and capital appreciation.

No assurance can be given that the Fund s investment objective will be achieved.

### **Performance**

For the 12 months ended August 31, 2009, the Fund returned 6.40% based on market price and (1.57)% based on NAV. For the same period, the closed-

end Lipper High Current Yield Funds (Leveraged) category posted an average return of (2.57)% on a market price basis and (10.55)% on a NAV basis. All

returns reflect reinvestment of dividends. The Fund s discount to NAV, which narrowed during the period, accounts for the difference between performance

based on price and performance based on NAV. The Fund s Lipper category is composed primarily of high yield securities. The Fund tends to invest 25% to

30% of its portfolio in investment-grade bonds, which helped relative performance as these securities outperformed high yield securities. Exposure to mort-

gage-backed securities and an overall conservative positioning in high yield securities also aided results. At the same time, the Fund typically invests about

30% to 40% of its portfolio in bank loans; this detracted modestly from relative performance as loans underperformed high yield securities during the

period. The Fund s allocation to investment-grade credit, while performing strongly, was a detractor in the last six months of the period when returns trailed

that of high yield securities. During the period, the Fund moved from a larger cash and short-term investment balance, which benefited performance in

2008, to a balance of less than 18%, which further benefited performance in the rising market of 2009.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These

views are not intended to be a forecast of future events and are no guarantee of future results.

ANNUAL REPORT AUGUST 31, 2009 7

### Fund Summary as of August 31, 2009 BlackRock Senior Floating Rate Fund, Inc.

### **Investment Objective**

BlackRock Senior Floating Rate Fund, Inc. (the Fundis) a continuously offered closed-end fund that seeks high current income and such preservation of

capital as is consistent with investment in senior collateralized corporate loans made by banks and other financial institutions.

No assurance can be given that the Fund s investment objective will be achieved.

### **Performance**

Fund s NAV per share:

For the 12 months ended August 31, 2009, the Fund returned (4.69)% based on NAV. For the same period, the closed-end Lipper Loan Participation Funds

category posted an average return of (13.39)% on a NAV basis. All returns reflect reinvestment of dividends. The Fund maintained relatively defensive sector

positioning and no leverage, which benefited performance over the 12 months versus its Lipper competitors, many of which employ leverage. The Fund also

had about 9% of its portfolio in high yield bonds, which was beneficial as high yield outperformed loans. During the last six months, however, the Fund s

conservative positioning was a detractor given the market s strong returns. During the period, the Fund moved from a larger cash and short-term investment

balance, which benefited performance in 2008, to a balance of less than 8%, which further benefited performance in the rising market of 2009.

Expense Example for Continuously Offered Closed-End Funds

		Actual			Hypothetical <sup>5</sup>	
	Beginning	Ending		Beginning	Ending	
	Account	Account		Account		Expenses
	Value	Value	<b>Expenses Paid</b>	Value	Account Value	Paid
	March 1, 2009	August 31, 2009	During the Period <sup>4</sup>	March 1, 200	09 August 31, 2009	During the Period <sup>4</sup>
BlackRock Senior Floating Rate II, Inc.	\$1,000	\$1,233.70	\$9.46	\$1,000	\$1,016.74	\$8.54

<sup>&</sup>lt;sup>4</sup> Expenses are equal to the annualized expense ratio of 1.68%, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year

period shown). Because the Fund is a feeder fund, the expense table reflects the expenses of both the feeder fund and the Master LLC in which it invests.

ANNUAL REPORT AUGUST 31, 2009 9

<sup>&</sup>lt;sup>5</sup> Hypothetical 5% annual return before expenses is calculated by pro-rating the number of days in the most recent fiscal half year divided by 365.

See Disclosure of Expenses for Continuously Offered Closed-End Funds on page 11 for further information on how expenses were calculated.

## The Benefits and Risks of Leveraging

BlackRock Defined Opportunity Credit Trust, BlackRock Diversified Income Strategies Fund, Inc., BlackRock Floating Rate Income Strategies Fund, Inc. and BlackRock Limited Duration Income Trust (each a Fund and collectively, the Funds) may utilize leverage to seek to enhance the yield and NAV. However, these objectives cannot be achieved in all interest rate environments.

The Funds may utilize leverage through borrowings or through entering into reverse repurchase agreements and dollar rolls. In general, the concept of leveraging is based on the premise that the cost of assets to be obtained from leverage will be based on short-term interest rates, which normally will be lower than the income earned by each Fund on its longer-term portfolio investments. To the extent that the total assets of each Fund (including the assets obtained from leverage) are invested in higher-yielding portfolio investments, each Fund s shareholders will benefit from the incremental net income.

The interest earned on securities purchased with the proceeds from leverage is paid to shareholders in the form of dividends, and the value of these portfolio holdings is reflected in the per share NAV. However, in order to benefit shareholders, the yield curve must be positively sloped; that is, short-term interest rates must be lower than long-term interest rates. If the yield curve becomes negatively sloped, meaning short-term interest rates exceed long-term interest rates, income to shareholders will be lower than if the Fund had not used leverage.

To illustrate these concepts, assume a Fund s capitalization is \$100 million and it borrows for an additional \$30 million, creating a total value of \$130 million available for investment in long-term securities. If prevailing short-term interest rates are 3% and long-term interest rates are 6%, the yield curve has a strongly positive slope. In this case, the Fund pays borrowing costs and interest expense on the \$30 million of borrowings based on the lower short-term interest rates. At the same time, the securities purchased by the Fund with assets received from the borrowings earn the income based on long-term interest rates. In this case, the borrowing costs and interest expense of the borrowings is significantly lower than the income earned on the Fund s long-term investments, and therefore Common Shareholders are the beneficiaries of the incremental net income.

If short-term interest rates rise, narrowing the differential between short-term and long-term interest rates, the incremental net income pickup on the Shares will be reduced or eliminated completely. Furthermore, if prevailing short-term interest rates rise above long-term interest rates of 6%, the yield curve has a negative slope. In this case, the Fund pays interest expense on the higher short-term interest rates whereas the Fund s total portfolio earns income based on lower long-term interest rates.

Furthermore, the value of the Fund s portfolio investments generally varies

inversely with the direction of long-term interest rates, although other factors can influence the value of portfolio investments. In contrast, the redemption value of the Fund s borrowings do not fluctuate in relation to interest rates. As a result, changes in interest rates can influence the Fund s NAV positively or negatively in addition to the impact on Fund performance from leverage from borrowings.

The use of leverage may enhance opportunities for increased income to the Funds and shareholders, but as described above, it also creates risks as short- or long-term interest rates fluctuate. Leverage also will generally cause greater changes in each Fund s NAV, market price and dividend rate than a comparable portfolio without leverage. If the income derived from securities purchased with assets received from leverage exceeds the cost of leverage, each Fund s net income will be greater than if leverage had not been used. Conversely, if the income from the securities purchased is not sufficient to cover the cost of leverage, each Fund s net income will be less than if leverage had not been used, and therefore the amount available for distribution to shareholders will be reduced. Each Fund may be required to sell portfolio securities at inopportune times or at distressed values in order to comply with regulatory requirements applicable to the use of leverage or as required by the terms of leverage instruments which may cause the Funds to incur losses. The use of leverage may limit a Funds ability to invest in certain types of securities or use certain types of hedging strategies. Each Fund will incur expenses in connection with the use of leverage, all of which are borne by the shareholders of each Fund and may reduce income.

Under the Investment Company Act of 1940, the Funds are permitted to borrow through their credit facility up to  $33^{1}/_{3}$ % of their total managed assets. As of August 31, 2009, BlackRock Limited Duration Income Trust had no outstanding leverage and the other Funds had outstanding leverage from borrowings as a percentage of their total managed assets as follows:

Percent of	
Leverage	
19%	BHL
14%	DVF
14%	FRA

10 ANNUAL REPORT AUGUST 31, 2009

### **Derivative Financial Instruments**

The Funds may invest in various derivative instruments, including swap agreements, financial futures contracts, foreign currency exchange contracts and options, as specified in Note 2 of the Notes to Financial Statements, which constitute forms of economic leverage. Such instruments are used to obtain exposure to a market without owning or taking physical custody of securities or to hedge market and/or interest rate risks. Such derivative instruments involve risks, including the imperfect correlation between the value of a derivative instrument and the underlying asset, possible default of the counterparty to the transaction and illiquidity of the derivative instru-

ment. The Funds ability to successfully use a derivative instrument depends on the investment advisor s ability to accurately predict pertinent market movements, which cannot be assured. The use of derivative instruments may result in losses greater than if they had not been used, may require the Funds to sell or purchase portfolio securities at inopportune times or for distressed values, may limit the amount of appreciation the Funds can realize on an investment or may cause the Funds to hold a security that it might otherwise sell. The Funds investments in these instruments are discussed in detail in the Notes to Financial Statements.

## Disclosure of Expenses for Continuously Offered Closed-End Funds

Shareholders of BlackRock Senior Floating Rate Fund, Inc. and BlackRock Senior Floating Rate Fund II, Inc. may incur the following charges: (a) expenses related to transactions, including early withdrawal fees; and (b) operating expenses, including administration fees, and other Fund expenses. The examples on the previous pages (which are based on a hypothetical investment of \$1,000 invested on March 1, 2009 and held through August 31, 2009) are intended to assist shareholders both in calculating expenses based on an investment in each Fund and in comparing these expenses with similar costs of investing in other mutual funds.

The tables provide information about actual account values and actual expenses. In order to estimate the expenses a shareholder paid during the period covered by this report, shareholders can divide their account value by \$1,000 and then multiply the result by the number under the heading entitled Expenses Paid During the Period.

The tables also provide information about hypothetical account values and hypothetical expenses based on each Fund s actual expense ratio and an assumed rate of return of 5% per year before expenses. In order to assist shareholders in comparing the ongoing expenses of investing in these Funds and other funds, compare the 5% hypothetical example with the 5% hypothetical examples that appear in other funds shareholder reports.

The expenses shown in the tables are intended to highlight shareholders ongoing costs only and do not reflect any transactional expenses, such as early withdrawal fees. Therefore, the hypothetical examples are useful

in comparing ongoing expenses only, and will not help shareholders determine the relative total expenses of owning different funds. If these transactional expenses were included, shareholder expenses would have been higher.

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical securities

Level 2 other observable inputs (including, but not limited to: quoted prices for

similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield

curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the

Fund s own assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Fund s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

See Notes to Financial Statements.

ANNUAL REPORT AUGUST 31, 2009 15

# Schedule of Investments (concluded) BlackRock Defined Opportunity Credit Trust (BHL)

The following table summarizes the inputs used as of August 31, 2009 in

determining the fair valuation of the Fund s investments:

Valuation	Investments in
Inputs	Securities
	Assets
Level 1 Common Stocks	\$ 480,480
Level 2	
Long-Term Investments:	
Corporate Bonds	8,416,881
Floating Rate Loan Interests	106,975,159
Total Level 2	115,392,040
Level 3 Floating Rate Loan Interests	24,495,356
Total	\$140,367,876
Valuation	Other Financial
Inputs	Instruments <sup>1</sup>

**Assets** Liabilities

Level 1 Level 2 \$10,965 \$ (231,252)

Level 3 60,517

Total \$71,482 \$ (231,252)

and unfunded loan commitments, which are valued at the unrealized

appreciation/depreciation on the instrument.

The following is a reconciliation of investments for unobservable inputs (Level 3)

used in determining fair value:

#### **Investments in Securities**

	Floating Rate
	Loan Interests
Balance, as of August 31, 2008	\$ 4,841,355
Accrued discounts/premiums	
Realized gain (loss)	(418,772)
Change in unrealized appreciation (depreciation) <sup>2</sup>	(1,001,736)
Net purchases (sales)	(981,612)
Net transfers in/out of Level 3	22,056,121
Balance as of August 31, 2009	\$ 24,495,356
<sup>2</sup> Included in the related net change in unrealized appreciation/depreciation	
on the Statements of Operations.	

The following is a reconciliation of other financial instruments for unobservable

<sup>1</sup> Other financial instruments are foreign currency exchange contracts

inputs (Level 3) used in determining fair value:

#### Other Financial Instruments3

Assets
Balance, as of August 31, 2008
Accrued discounts/premiums
Realized gain (loss)
Change in unrealized appreciation (depreciation)
Net purchases (sales)
Net transfers in/out of Level 3 \$60,517

Balance as of August 31, 2009 \$60,517

See Notes to Financial Statements.

<sup>\*</sup> The cost and unrealized appreciation (depreciation) of investments as of August 31,

2009, as computed for federal income tax purposes, were as follows:

Aggregate cost \$180,146,320
Gross unrealized appreciation \$3,424,595
Gross unrealized depreciation (53,018,491)
Net unrealized depreciation \$(49,593,896)

- (a) Variable rate security. Rate shown is as of report date.
- (b) Security exempt from registration under Rule 144A of the Securities Act of 1933.

These securities may be resold in transactions exempt from registration to qualified

institutional investors.

- (c) Non-income producing security.
- (d) Issuer filed for bankruptcy and/or is in default of interest payments.
- (e) Represents a payment-in-kind security which may pay interest/dividends in additional par/shares.
- (f) Convertible security.
- (g) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (h) All, or a portion of security, pledged as collateral in connection with swaps.

- (i) Other interests represent beneficial interest in liquidation trusts and other reorganization entities and are non-income producing.
- (j) Warrants entitle the Fund to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of

shares are subject to adjustment under certain conditions until the expiration date.

(k) Investments in companies considered to be an affiliate of the Fund, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

1	۷	е	t

Affiliate		Activity	Income
BlackRock Liquidity Funds, TempFund		\$ 2,371,578	\$ 2,468
BlackRock Liquidity Series, LLC			
	Cash Sweep Series	\$(5,592,405)	\$17,999

(I) Represents the current yield as of report date.

For Fund compliance purposes, the Fund s industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications for reporting ease.

Foreign currency exchange contracts as of August 31, 2009 were as follows:

Unrealized

USD US Dollar

Effective September 1, 2008, the Fund adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements, (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical securities
Level 2 other observable inputs (including, but not limited to: quoted prices
for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than
quoted prices that are observable for the assets or liabilities (such as interest
rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks
and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Fund s own assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Fund s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of August 31, 2009 in determining the fair valuation of the Fund s investments:

Valuation	Investments in
Inputs	Securities
	Assets
Level 1	
Long-Term Investments:	
Common Stocks	\$ 2,283,119
Short-Term Securities	2,371,578
Total Level 1	4,654,697
Level 2	
Long-Term Investments:	
Common Stocks	503,215
Corporate Bonds	61,103,415
Floating Rate Loan Interests	36,916,830
Preferred Stocks	12,240
Total Level 2	98,535,700

#### Level 3

Long-Term Investments:

Asset-Backed Securities	528,255
Common Stocks	5,436
Corporate Bonds	1,033,683
Floating Rate Loan Interests	25,553,048
Other Interests	228,602
Warrants	3
Total Level 3	27,349,027
Total	\$130,539,424

Valuation Other Financial

Inputs		Instruments <sup>1</sup>
	Assets	Liabilities
Level 1		
Level 2	\$ 26,922	\$ (4,249,645)
Level 3	38,010	
Total	\$ 64,932	\$ (4,249,645)

Other financial instruments are swaps, foreign currency exchange contracts, options purchased and unfunded loan commitments. Swaps, foreign currency

exchange contracts and unfunded loan commitments are valued at the unreal-

ized appreciation/depreciation on the instrument and options purchased are shown at market value.

See Notes to Financial Statements.

22 ANNUAL REPORT AUGUST 31, 2009

# Schedule of Investments (concluded) BlackRock Diversified Income Strategies Fund, Inc. (DVF)

The following is a reconciliation of investments for unobservable inputs (Level 3) used in determining fair value:

	Investments in Securities						
	Asset-Backed	Common	Corporate	Floating Rate	Other

2009, as computed for federal income tax purposes, were as follows:

Aggregate cost \$333,081,083
Gross unrealized appreciation \$6,045,238
Gross unrealized depreciation (59,513,498)
Net unrealized depreciation \$(53,468,260)

- (a) Non-income producing security.
- (b) Security exempt from registration under Rule 144A of the Securities Act of 1933.

These securities may be resold in transactions exempt from registration to qualified institutional investors.

- (c) Variable rate security. Rate shown is as of report date.
- (d) Represents a payment-in-kind security which may pay interest/dividends in additional par/shares.
- (e) Convertible security.
- (f) Issuer filed for bankruptcy and/or is in default of interest payments.

(g) Other interests represent beneficial interest in liquidation trusts and other reorgani-

zation entities and are non-income producing.

(h) Amount is less than \$1,000.

(i) Investments in companies considered to be an affiliate of the Fund, for purposes of

Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Affiliate	Activity	Income
BlackRock Liquidity Funds, TempFund	\$ 2,018,379	\$ 5,993
BlackRock Liquidity Series, LLC		
Cash Sweep Series	\$(1,634,669)	\$26,105

(j) Represents the current yield as of report date.

For Fund compliance purposes, the Fund s industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management.

This definition may not apply for purposes of this report which may combine industry sub-classifications for reporting ease.

Effective September 1, 2008, Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical securities

Level 2 other observable inputs (including, but not limited to: quoted prices for

similar assets or liabilities in markets that are active, quoted prices for identical

or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the

circumstances, to the extent observable inputs are not available (including the

Fund s own assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Fund s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

See Notes to Financial Statements.

#### Notes to Financial Statements

#### 1. Organization and Significant Accounting Policies:

BlackRock Defined Opportunity Credit Trust (BHL), BlackRock Diversified Income Strategies Fund, Inc. ( DVF ), BlackRock Floating Rate Income Strategies Fund, Inc. (FRA), BlackRock Limited Duration Income Trust (BLW), BlackRock Senior Floating Rate Fund, Inc. (Senior Floating Rate) and BlackRock Senior Floating Rate Fund II, Inc. ( Senior Floating Rate II ) (collectively, referred to as the Funds or individually as the Fund ) are registered under the Investment Company Act of 1940, as amended (the 1940 Act ). BHL and BLW are organized as Delaware Statutory trusts. DVF, FRA, Senior Floating Rate and Senior Floating Rate II are organized as Maryland corporations. BHL, DVF, FRA and BLW are registered as diversified, closed-end management investment companies. Senior Floating Rate and Senior Floating Rate II are registered as continuously offered, nondiversified, closed-end management investment companies. The Funds financial statements are prepared in conformity with accounting principles generally accepted in the United States of America, which may require the use of management accruals and estimates. Actual results may differ from these estimates. The Boards of Directors and the Boards of Trustees of the Funds are referred to throughout this report as the Board of Directors or the Board. The Funds determine and make available for publication the net asset value of their shares on a daily basis.

Prior to its commencement of operations on January 31, 2008, BHL had no operations other than those relating to organizational matters and the sale of 8,517 shares on November 13, 2007 to BlackRock Advisors, LLC (the Manager ), the Funds investment advisor, an indirect, wholly owned subsidiary of BlackRock, Inc. ( BlackRock ), for \$122,006. BHL will terminate no later than December 31, 2017.

Senior Floating Rate and Senior Floating Rate II seek to achieve their investment objectives by investing all their assets in the Master Senior Floating Rate LLC (the Master LLC), which has the same investment objective and strategies as these Funds. The value of each Fund is investment in the Master LLC reflects each Fund is proportionate interest in the net assets of the Master LLC. The performance of each Fund is directly affected by the performance of the Master LLC. The financial statements of the Master LLC, including the Schedule of Investments, are included elsewhere in this report and should be read in conjunction with Senior Floating Rate and Senior Floating Rate II is financial statements. The percentage of the Master LLC owned by Senior Floating Rate and Senior Floating Rate II at August 31, 2009 was 67% and 33%, respectively.

The following is a summary of significant accounting policies followed by the Funds:

Valuation of Investments: The Funds value their bond investments on the basis of last available bid prices or current market quotations provided by

dealers or pricing services selected under the supervision of each Fund s Board. Floating rate loan interests are valued at the mean between the last available bid prices from one or more brokers or dealers as obtained from a pricing service. In determining the value of a particular investment, pricing services may use certain information with respect to transactions in

such investments, quotations from dealers, pricing matrixes, market transactions in comparable investments, various relationships observed in the market between investments and calculated yield measures based on valuation technology commonly employed in the market for such investments. The fair value of asset-backed and mortgage-backed securities are estimated based on models that consider the estimated cash flows of each tranche of the entity, establishes a benchmark yield and develops an estimated tranche specific spread to the benchmark yield based on the unique attributes of the tranche. Financial futures contracts traded on exchanges are valued at their last sale price. To be announced ( TBA ) commitments are valued at the current market value of the underlying securities. Swap agreements are valued utilizing quotes received daily by the Funds pricing service or through brokers, which are derived using daily swap curves and trades of underlying securities. Investments in open-end investment companies are valued at net asset value each business day. Short-term securities with maturities less than 60 days may be valued at amortized cost, which approximates fair value. The Funds value their investments in Cash Sweep Series of BlackRock Liquidity Series, LLC at fair value, which is ordinarily based upon their pro rata ownership in the net assets of the underlying fund.

Equity investments traded on a recognized securities exchange or the NASDAQ Global Market System are valued at the last reported sale price that day or the NASDAQ official closing price, if applicable. For equity investments traded on more than one exchange, the last reported sale price on the exchange where the stock is primarily traded is used. Equity investments traded on a recognized exchange for which there were no sales on that day are valued at the last available bid price. If no bid price is available, the prior day s price will be used, unless it is determined that such prior day s price no longer reflects the fair value of the security.

Exchange-traded options are valued at the mean between the last bid and ask prices at the close of the options market in which the options trade. An exchange-traded option for which there is no mean price is valued at the last bid price. If no bid price is available, the prior day s price will be used, unless it is determined that such prior day s price no longer reflects the fair value of the option. Over-the-counter options and swaptions are valued by an independent pricing service using a mathematical model which incorporates a number of market data factors, such as the trades and prices of the underlying securities.

In the event that application of these methods of valuation results in a price for an investment which is deemed not to be representative of the market value of such investment or are not available, the investment will be valued by a method approved by the Board as reflecting fair value

( Fair Value Assets ). When determining the price for Fair Value Assets, the investment advisor and/or sub-advisor seeks to determine the price that each Fund might reasonably expect to receive from the current sale of that asset in an arm s-length transaction. Fair value determinations shall be based upon all available factors that the investment advisor and/or sub-advisor deems relevant. The pricing of all Fair Value Assets is subsequently reported to the Board or a committee thereof.

#### Notes to Financial Statements (continued)

Generally, trading in foreign securities is substantially completed each day at various times prior to the close of business on the New York Stock Exchange ( NYSE ). The values of such securities used in computing the net assets of each Fund are determined as of such times. Foreign currency exchange rates will be determined as of the close of business on the NYSE. Occasionally, events affecting the values of such securities and such exchange rates may occur between the times at which they are determined and the close of business on the NYSE that may not be reflected in the computation of each Fund s net assets. If events (for example, a company announcement, market volatility or a natural disaster) occur during such periods that are expected to materially affect the value of such securities, those securities will be valued at their fair value as determined in good faith by the Board or by the investment advisor using a pricing service and/or procedures approved by the Board. Foreign currency exchange contracts are valued at the mean between the bid and ask prices. Interpolated values are derived when the settlement date of the contract is an interim date for which quotations are not available.

Senior Floating Rate and Senior Floating Rate II record their investments in the Master LLC at fair value. Valuation of securities held by the Master LLC is discussed in Note 1 of the Master LLC s Notes to Financial Statements, which are included elsewhere in this report.

Effective September 1, 2008, the Senior Floating Rate and Senior Floating Rate II implemented Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical securities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Funds own assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not neces-

sarily an indication of the risk associated with investing in those securities.

The following table summarizes the inputs used as of August 31, 2009 in determining the fair valuation of the Funds investments:

Senior Floating	Senior Floating	
Rate II	Rate	
Investment in	Investment in	
the Master LLC	the Master LLC	Valuation Inputs
		Level 1
\$ 150,735,659	\$312,548,298	Level 2
		Level 3
\$ 150,735,659	\$312,548,298	Total

Foreign Currency Transactions: Foreign currency amounts are translated into United States dollars on the following basis: (i) market value of investment securities, assets and liabilities at the current rate of exchange; and (ii) purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

The Funds report foreign currency related transactions as components of realized gains for financial reporting purposes, whereas such components are treated as ordinary income for federal income tax purposes.

Asset-Backed and Mortgage-Backed Securities: Certain Funds may invest in asset-backed securities. Asset-backed securities are generally issued as pass-through certificates, which represent undivided fractional ownership interests in an underlying pool of assets, or as debt instruments, which are also known as collateralized obligations, and are generally issued as the debt of a special purpose entity organized solely for the purpose of owning such assets and issuing such debt. Asset-backed securities are often backed by a pool of assets representing the obligations of a number of different parties. The yield characteristics of certain asset-backed securities may differ from traditional debt securities. One such major difference is that all or a principal part of the obligations may be prepaid at any time because the underlying assets (i.e., loans) may be prepaid at any time. As a result, a decrease in interest rates in the market may result in increases in the level of prepayments as borrowers, particularly mortgagors, refinance and repay their loans. An increased prepayment rate with respect to an asset-backed security subject to such a prepayment feature will have the effect of shortening the maturity of the security. If a Fund has purchased such an asset-backed security at a premium, a faster than anticipated prepayment rate could result in a loss of principal to the extent of the premium paid.

The Funds may purchase certain mortgage pass-through securities. There

are a number of important differences among the agencies and instrumentalities of the US Government that issue mortgage related securities and among the securities that they issue. For example, mortgage-related securities guaranteed by the Government National Mortgage Association (GNMA) are guaranteed as to the timely payment of principal and interest by GNMA and such guarantee is backed by the full faith and credit of the United States. However, mortgage-related securities issued by the Federal Home Loan Mortgage Corporation (FHLMC) and Federal National Mortgage Association (FNMA) include FNMA guaranteed Mortgage Pass-Through Certificates, which are solely the obligations of the FNMA,

### Notes to Financial Statements (continued)

are not backed by or entitled to the full faith and credit of the United States and are supported by the right of the issuer to borrow from the Treasury.

Certain Funds invest a significant portion of their assets in securities backed by commercial or residential mortgage loans or in issuers that hold mortgage and other asset-backed securities. Please see the Schedules of Investments for these securities. Changes in economic conditions, including delinquencies and/or defaults on assets underlying these securities, can affect the value, income and/or liquidity of such positions.

Forward Commitments, When-Issued and Delayed Delivery Securities: Certain Funds may purchase securities on a when-issued basis and may purchase or sell securities on a forward commitment basis. Settlement of such transactions normally occurs within a month or more after the purchase or sale commitment is made. The Funds may purchase securities under such conditions only with the intention of actually acquiring them, but may enter into a separate agreement to sell the securities before the settlement date. Since the value of securities purchased may fluctuate prior to settlement, the Funds may be required to pay more at settlement than the security is worth. In addition, the purchaser is not entitled to any of the interest earned prior to the settlement. When purchasing a security on a delayed delivery basis, the Funds assume the rights and risks of ownership of the security, including the risk of price and yield fluctuations. In the event of default by the counterparty, the Funds maximum amount of loss is the unrealized gain of the commitment, which is shown on the Schedule of Investments, if any.

Preferred Stock: Certain Funds may invest in preferred stocks. Preferred stock has a preference over common stock in liquidation (and generally in receiving dividends as well) but is subordinated to the liabilities of the issuer in all respects. As a general rule, the market value of preferred stock with a fixed dividend rate and no conversion element varies inversely with interest rates and perceived credit risk, while the market price of convertible preferred stock generally also reflects some element of conversion value. Because preferred stock is junior to debt securities and other obligations of the issuer, deterioration in the credit quality of the issuer will cause greater changes in the value of a preferred stock than in a more senior debt security with similar stated yield characteristics. Unlike interest payments on debt securities, preferred stock dividends are payable only if declared by the issuer s board of directors. Preferred stock also may be subject to optional or mandatory redemption provisions.

Floating Rate Loans: Certain Funds may invest in floating rate loans, which are generally non-investment grade, made by banks, other financial institutions and privately and publicly offered corporations. Floating rate loans are senior in the debt structure of a corporation. Floating rate loans generally pay interest at rates that are periodically determined by reference

to a base lending rate plus a premium. The base lending rates are generally (i) the lending rate offered by one or more European banks, such as LIBOR (London InterBank Offered Rate), (ii) the prime rate offered by one or more US banks or (iii) the certificate of deposit rate. The Funds consider

these investments to be investments in debt securities for purposes of their investment policies.

The Funds earn and/or pay facility and other fees on floating rate loans. Other fees earned/paid include commitment, amendment, consent, commissions and prepayment penalty fees. Facility, amendment and consent fees are typically amortized as premium and/or accreted as discount over the term of the loan. Commitment, commission and various other fees are recorded as income. Prepayment penalty fees are recognized on the accrual basis. When a Fund buys a floating rate loan it may receive a facility fee and when it sells a floating rate loan it may pay a facility fee. On an ongoing basis, the Funds may receive a commitment fee based on the undrawn portion of the underlying line of credit portion of a floating rate loan. In certain circumstances, the Funds may receive a prepayment penalty fee upon the prepayment of a floating rate loan by a borrower. Other fees received by the Funds may include covenant waiver fees and covenant modification fees.

The Funds may invest in multiple series or tranches of a loan. A different series or tranche may have varying terms and carry different associated risks.

Floating rate loans are usually freely callable at the issuer s option. The Funds may invest in such loans in the form of participations in loans ( Participations ) and assignments of all or a portion of loans from third parties. Participations typically will result in the Funds having a contractual relationship only with the lender, not with the borrower. The Funds will have the right to receive payments of principal, interest and any fees to which it is entitled only from the lender selling the Participation and only upon receipt by the lender of the payments from the borrower.

In connection with purchasing Participations, the Funds generally will have no right to enforce compliance by the borrower with the terms of the loan agreement relating to the loans, nor any rights of offset against the borrower, and the Funds may not benefit directly from any collateral supporting the loan in which it has purchased the Participation.

As a result, the Funds will assume the credit risk of both the borrower and the lender that is selling the Participation. The Funds investments in loan participation interests involve the risk of insolvency of the financial intermediaries who are parties to the transactions. In the event of the insolvency of the lender selling the Participation, the Funds may be treated as general creditor of the lender and may not benefit from any offset between the lender and the borrower.

Mortgage Dollar Roll Transactions: Certain Funds may sell mortgage-

backed securities and simultaneously contract to repurchase substantially similar (same type, coupon and maturity) securities on a specific future date at an agreed upon price. During the period between the sale and the repurchase, the Funds will not be entitled to receive interest and principal payments on the securities sold. The Funds account for dollar roll transactions as purchases and sales and realize gains and losses on these transactions.

## Notes to Financial Statements (continued)

Mortgage dollar rolls involve the risk that the market value of the securities that each Fund is required to purchase may decline below the agreed upon repurchase price of those securities. If investment performance of securities purchased does not exceed that of the securities sold as part of the dollar roll, the use of this technique will adversely impact the investment performance of each Fund.

Reverse Repurchase Agreements: Certain Funds may enter into reverse repurchase agreements with qualified third party broker-dealers. In a reverse repurchase agreement, the Funds sell securities to a bank or broker-dealer and agree to repurchase the securities at a mutually agreed upon date and price. Interest on the value of the reverse repurchase agreements issued and outstanding is based upon competitive market rates determined at the time of issuance. The Funds may utilize reverse repurchase agreements when it is anticipated that the interest income to be earned from the investment of the proceeds of the transaction is greater than the interest expense of the transaction. Reverse repurchase agreements involve leverage risk and also the risk that the market value of the securities that the Funds are obligated to repurchase under the agreement may decline below the repurchase price. In the event the buyer of securities under a reverse repurchase agreement files for bankruptcy or becomes insolvent, the Funds use of the proceeds from the agreement may be restricted while the other party, or its trustee or receiver, determine whether or not to enforce the Funds obligation to repurchase the securities.

TBA Commitments: Certain Funds may enter into TBA commitments to purchase or sell securities for a fixed price at a future date. TBA commitments are considered securities in themselves, and involve a risk of loss if the value of the security to be purchased or sold declines or increases prior to settlement date, which is in addition to the risk of decline in the value of the Funds other assets.

Segregation and Collateralization: In cases in which the 1940 Act and the interpretive positions of the Securities and Exchange Commission (SEC) require that a Fund either delivers collateral or segregates assets in connection with certain investments (e.g., dollar rolls, TBA s beyond normal settlement, foreign currency exchange contracts, financial futures contracts and swaps), or certain borrowings (e.g., reverse repurchase agreements) each Fund will, consistent with SEC rules and/or certain interpretive letters issued by the SEC, segregate collateral or designate on its books and records cash or other liquid securities having a market value at least equal to the amount that would otherwise be required to be physically segregated. Furthermore, based on requirements and agreements with certain exchanges and third party broker-dealers, each party has requirements to deliver/deposit securities as collateral for certain investments (e.g., financial futures contracts, reverse repurchase agreements and swaps). As part of these agreements, when the value of these investments achieves a previously agreed upon value (minimum transfer amount), each party may be

required to deliver additional collateral.

Investment Transactions and Investment Income: For financial reporting purposes, certain Funds investment transactions are recorded on the

dates the transactions are entered into (the trade dates). Realized gains and losses on security transactions are determined on the identified cost basis. Dividend income is recorded on the ex-dividend dates. Dividends from foreign securities where the ex-dividend date may have passed are subsequently recorded when the Funds have determined the ex-dividend date. Interest income is recognized on the accrual basis. The Funds amortize all premiums and discounts on debt securities.

Senior Floating Rate and Senior Floating Rate II record daily their proportionate share of the Master LLC s income, expenses and realized and unrealized gains and losses. In addition, both Funds accrue their own expenses.

Dividends and Distributions: Dividends from net investment income are declared and paid monthly. Distributions of capital gains are recorded on the ex-dividend dates. If the total dividends and distributions made in any tax year exceeds net investment income and accumulated realized capital gains, a portion of the total distribution may be treated as a tax return of capital.

Income Taxes: It is each Fund s policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no federal income tax provision is required. Under the applicable foreign tax laws, a withholding tax may be imposed on interest, dividends and capital gains at various rates.

Each Fund files US federal and various state and local tax returns. No income tax returns are currently under examination. The statute of limitations on the Funds US federal tax returns remains open for the two periods ended August 31, 2009 for BHL, the four years ended August 31, 2009 for DVF, FRA, Senior Floating Rate and Senior Floating Rate II, and the two years ended October 31, 2007 and the two periods ended August 31, 2009 for BLW. The statutes of limitations on the Funds state and local tax returns may remain open for an additional year depending upon the jurisdiction.

Recent Accounting Pronouncement: In June 2009, Statement of Financial Accounting Standards No. 166, Accounting for Transfers of Financial Assets an amendment of FASB Statement No. 140 (FAS 166), was issued. FAS 166 is intended to improve the relevance, representational faithfulness and comparability of the information that a reporting entity provides in its financial statements about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor s continuing involvement, if any, in transferred financial assets. FAS 166 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2009. Earlier application

is prohibited. The recognition and measurement provisions of FAS 166 must be applied to transfers occurring on or after the effective date. Additionally, the disclosure provisions of FAS 166 should be applied to transfers that occurred both before and after the effective date of FAS 166. The impact of FAS 166 on the Funds statement disclosures, if any, is currently being assessed.

ANNUAL REPORT AUGUST 31, 2009 55

### Notes to Financial Statements (continued)

Deferred Compensation and BlackRock Closed-End Share Equivalent Investment Plan: Under the deferred compensation plan approved by each Fund's Board, non-interested Directors (Independent Directors) may defer a portion of their annual complex-wide compensation. Deferred amounts earn an approximate return as though equivalent dollar amounts have been invested in common shares of other certain BlackRock Closed-End Funds selected by the Independent Directors. This has approximately the same economic effect for the Independent Directors as if the Independent Directors had invested the deferred amounts directly in other certain BlackRock Closed-End Funds.

The deferred compensation plan is not funded and obligations thereunder represent general unsecured claims against the general assets of each Fund. Each Fund may, however, elect to invest in Common Shares of other certain BlackRock Closed-End Funds selected by the Independent Directors in order to match its deferred compensation obligations. Investments to cover each Fund s deferred compensation liability, if any, are included in other assets in the Statements of Assets and Liabilities. Dividends and distributions from the BlackRock Closed-End Fund investments under the plan are included in income affiliated in the Statements of Operations.

Other: Expenses directly related to a Fund are charged to that Fund. Other operating expenses shared by several funds are pro rated among those funds on the basis of relative net assets or other appropriate methods. Pursuant to the terms of the custody agreement, custodian fees may be reduced by amounts calculated on uninvested cash balances, which are shown on the Statements of Operations as fees paid indirectly.

#### 2. Derivative Financial Instruments:

The Funds may engage in various portfolio investment strategies both to increase the returns of the Funds and to economically hedge, or protect, their exposure to certain risks such as credit risk, equity risk, interest rate risk and foreign currency exchange rate risk. Losses may arise if the value of the contract decreases due to an unfavorable change in the value of the underlying security or if the counterparty does not perform under the contract. The Funds may mitigate counterparty risk through master netting agreements included within an International Swap and Derivatives Association, Inc. ( ISDA ) Master Agreement between a Fund and each of its counterparties. The ISDA Master Agreement allows each Fund to offset with its counterparty certain derivative financial instruments payables and/or receivables with collateral held with each counterparty. The amount of collateral moved to/from applicable counterparties is based upon minimum transfer amounts of up to \$500,000. To the extent amounts due to the Funds from their counterparties are not fully collateralized contractually or otherwise, the Funds bear the risk of loss from counterparty non-performance. See Note 1 Segregation and Collateralization for information with respect to collateral practices.

The Funds maximum risk of loss from counterparty credit risk on over-thecounter derivatives is generally the aggregate unrealized gain in excess of

any collateral pledged by the counterparty to the Funds. For over-the-counter purchased options, the Funds bear the risk of loss in the amount of the premiums paid and change in market value of the options should the counterparty not perform under the contracts. Options written by the Funds do not give rise to counterparty credit risk, as written options obligate the Funds to perform and not the counterparty. Certain ISDA Master Agreements allow counterparties to over-the-counter derivatives to terminate derivative contracts prior to maturity in the event a Fund s net assets decline by a stated percentage or a Fund fails to meet the terms of its ISDA Master Agreements, which would cause the Fund to accelerate payment of any net liability owed to the counterparty. Counterparty risk related to exchange-traded financial futures contracts and options is minimal because of the protection against defaults provided by the exchange on which they trade.

Financial Futures Contracts: Certain Funds may purchase or sell financial futures contracts and options on financial futures contracts to gain exposure to, or economically hedge against, changes in interest rates (interest rate risk) or foreign currencies (foreign currency exchange rate risk). Financial futures contracts are contracts for delayed delivery of securities at a specific future date and at a specific price or yield. Pursuant to the contract, the Funds agree to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract. Such receipts or payments are known as margin variation and are recognized by the Funds as unrealized gains or losses. When the contract is closed, the Funds record a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The use of financial futures transactions involves the risk of an imperfect correlation in the movements in the price of financial futures contracts, interest rates and the underlying assets.

Foreign Currency Exchange Contracts: Certain Funds may enter into foreign currency exchange contracts as an economic hedge against either specific transactions or portfolio positions (foreign currency exchange rate risk). A foreign currency exchange contract is an agreement between two parties to buy and sell a currency at a set exchange rate on a future date. Foreign currency exchange contracts, when used by a Fund, help to manage the overall exposure to the foreign currency backing some of the investments held by a Fund. The contract is marked-to-market daily and the change in market value is recorded by a Fund as an unrealized gain or loss. When the contract is closed, a Fund records a realized gain or loss equal to the difference between the value at the time it was opened and the value at the time it was closed. The use of foreign currency exchange contracts involves the risk that counterparties may not meet the terms of the agreement or unfavorable movements in the value of a foreign currency relative to the US dollar.

Options: Certain Funds may purchase and write call and put options to

increase or decrease their exposure to underlying instruments. A call option gives the purchaser of the option the right (but not the obligation) to buy, and obligates the seller to sell (when the option is exercised), the underlying

56 ANNUAL REPORT AUGUST 31, 2009

### Notes to Financial Statements (continued)

instrument at the exercise price at any time or at a specified time during the option period. A put option gives the holder the right to sell and obligates the writer to buy the underlying instrument at the exercise price at any time or at a specified time during the option period. When a Fund purchases (writes) an option, an amount equal to the premium paid (received) by a Fund is reflected as an asset (liability) and an equivalent liability (asset). The amount of the asset (liability) is subsequently marked-to-market to reflect the current market value of the option purchased (written). When an instrument is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deducted from) the basis of the instrument acquired or deducted from (or added to) the proceeds of the instrument sold. When an option expires (or a Fund enters into a closing transaction), a Fund realizes a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium received or paid). When a Fund writes a call option, such option is covered, meaning that a Fund holds the underlying instrument subject to being called by the option counterparty, or cash in an amount sufficient to cover the obligation. When a Fund writes a put option, such option is covered by cash in an amount sufficient to cover the obligation.

In purchasing and writing options, a Fund bears the risk of an unfavorable change in the value of the underlying instrument or the risk that the Fund may not be able to enter into a closing transaction due to an illiquid market. Exercise of a written put option could result in a Fund purchasing a security at a price different from the current market value. The Funds may execute transactions in both listed and over-the-counter options.

Swaps: Certain Funds may enter into swap agreements, in which a Fund and a counterparty agree to make periodic net payments on a specified notional amount. These periodic payments received or made by the Funds are recorded in the Statements of Operations as realized gains or losses, respectively. Swaps are marked-to-market daily and changes in value are recorded as unrealized appreciation (depreciation). When the swap is terminated, the Fund will record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Fund s basis in the contract, if any. Swap transactions involve, to varying degrees, elements of interest rate, credit and market risk in excess of the amounts recognized on the Statements of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligation to perform or disagree as to the meaning of the contractual terms in the agreements, and that there may be unfavorable changes in interest rates and/or market values associated with these transactions.

Credit default swaps Certain Funds may enter into credit default swaps to manage their exposure to the market or certain sectors of the market, to reduce their risk exposure to defaults of corporate

and/or sovereign issuers or to create exposure to corporate and/or sovereign issuers to which they are not otherwise exposed (credit risk). The Funds enter into credit default agreements to provide a measure of

protection against the default of an issuer (as buyer of protection) and/or gain credit exposure to an issuer to which they are not otherwise exposed (as seller of protection). The Fund may either buy or sell (write) credit default swaps on single-name issuers (corporate or sovereign) or traded indexes. Credit default swaps on single-name issuers are agreements in which the buyer pays fixed periodic payments to the seller in consideration for a guarantee from the seller to make a specific payment should a negative credit event take place (e.g., bankruptcy, failure to pay, obligation accelerators, repudiation, moratorium or restructuring). Credit default swaps on traded indexes are agreements in which the buyer pays fixed periodic payments to the seller in consideration for a guarantee from the seller to make a specific payment should a write-down, principal or interest shortfall or default of all or individual underlying securities included in the index occurs. As a buyer, a Fund will either receive from the seller an amount equal to the notional amount of the swap and deliver the referenced security or underlying securities comprising of an index or receive a net settlement of cash equal to the notional amount of the swap less the recovery value of the security or underlying securities comprising of an index. As a seller (writer), a Fund will either pay the buyer an amount equal to the notional amount of the swap and take delivery of the referenced security or underlying securities comprising of an index or pay a net settlement of cash equal to the notional amount of the swap less the recovery value of the security or underlying securities comprising of an index.

Interest rate swaps Certain Funds may enter into interest rate swaps to manage duration, the yield curve or interest rate risk by economically hedging the value of the fixed rate bonds which may decrease when interest rates rise (interest rate risk). Interest rate swaps are agreements in which one party pays a floating rate of interest on a notional principal amount and receives a fixed rate of interest on the same notional principal amount for a specified period of time. Interest rate floors, which are a type of interest rate swap, are agreements in which one party agrees to make payments to the other party to the extent that interest rates fall below a specified rate or floor in return for a premium. In more complex swaps, the notional principal amount may decline (or amortize) over time.

Swaptions Swap options (swaptions) are similar to options on securities except that instead of selling or purchasing the right to buy or sell a security, the writer or purchaser of the swap option is granting or buying the right to enter into a previously agreed upon interest rate swap agreement at any time before the expiration of the option (interest rate risk). In purchasing and writing swaptions, the Funds bear the market risk of an unfavorable change in the price of the underlying interest rate swap or the risk that the Funds may not be able to enter into a closing

transaction due to an illiquid market. Exercise of a written swaption could result in the Funds entering into an interest rate swap at a price different from the current market value. The Funds execute transactions in over-the-counter swaptions.

## Notes to Financial Statements (continued)

3. Investment Advisory Agreement and Other Transactions with Affiliates:

The PNC Financial Services Group, Inc. (PNC) and Bank of America Corporation (BAC) are the largest stockholders of BlackRock. BAC became a stockholder of BlackRock following its acquisition of Merrill Lynch & Co., Inc. (Merrill Lynch) on January 1, 2009. Prior to that date, both PNC and Merrill Lynch were considered affiliates of the Funds under the 1940 Act. Subsequent to the acquisition, PNC remains an affiliate, but due to the restructuring of Merrill Lynch is ownership interest of BlackRock, BAC is not deemed to be an affiliate under the 1940 Act.

BHL, DVF, FRA and BLW has entered into an Investment Advisory Agreement or an Administration Agreement with the Manager to provide investment advisory and/or administration services.

The Manager is responsible for the management of each Fund s portfolio and provides the necessary personnel, facilities, equipment and certain other services necessary to the operations of each Fund. For such services, BHL pays a monthly fee at an annual rate of 1.00%, BLW pays a monthly fee at an annual rate of 0.55% and DVF and FRA each pay a monthly fee at an annual rate of 0.75% of the average daily value of each Fund s net assets plus the proceeds of any outstanding borrowings.

The Manager, on behalf of BHL, DVF, FRA and BLW, has entered into a separate sub-advisory agreement with BlackRock Financial Management, Inc. (BFM), an affiliate of the Manager, under which the Manager pays BFM, for services it provides, a monthly fee that is an annual percentage of the investment advisory fee paid by the Funds to the Manager.

The Manager has agreed to waive its advisory fees by the amount of investment advisory fees each Fund pays to the Manager indirectly through its investment in affiliated money market funds. These amounts are shown as fees waived by advisor in the Statements of Operations.

For the year ended August 31, 2009, the Funds reimbursed the Manager for certain accounting services, which are included in accounting services in the Statements of Operations. The reimbursements were as follows:

#### Accounting Services

	36.71633
BHL	\$ 2,463
DVF	\$ 2,278
FRA	\$ 4,935
BLW	\$10,348

Merrill Lynch, Pierce, Fenner & Smith, Incorporated (MLPF&S), a wholly owned subsidiary of Merrill Lynch, received underwriting fees of \$3,462,804 from January 31, 2008 to August 31, 2008 in connection with the issuance of the BHL s Shares. In addition, BHL reimbursed MLPF&S \$46,000 as a partial reimbursement of expenses incurred in connection with the issuance of the Fund s Shares.

Senior Floating Rate and Senior Floating Rate II have entered into an Administration Agreement with the Manager. The administration fee paid to the Manager is calculated daily and paid monthly based on an annual

rate of 0.25% and 0.40%, respectively, of the average daily value of these Fund s net assets for the performance of administrative services (other than investment advice and related portfolio activities) necessary for the operation of these Funds.

Senior Floating Rate and Senior Floating Rate II entered into a separate Distribution Agreement and Distribution Plan with BlackRock Investments, LLC (BRIL), which replaced FAM Distributors, Inc. (FAMD) and BlackRock Distributors, Inc. and its affiliates (BDI) (collectively, the Distributor) as the sole distributor of the Funds. FAMD is a wholly owned subsidiary of Merrill Lynch Group, Inc. BIL and BDI are affiliates of BlackRock.

For the year ended August 31, 2009, the Distributor received early with-drawal charges for Senior Floating Rate and Senior Floating Rate II in the amount of \$181,726 and \$31,438, respectively, relating to the tender of each Fund s shares.

PNC Global Investment Servicing (U.S.) Inc., an indirect, wholly owned subsidiary of PNC and an affiliate of the Manager, is the transfer agent and dividend disbursing agent for Senior Floating Rate and Senior Floating Rate II. Transfer agency fees borne by the Funds are comprised of those fees charged for all shareholder communications including mailing of shareholder reports, dividend and distribution notices, and proxy materials for shareholder meetings, as well as per account and per transaction fees related to servicing and maintenance of shareholder accounts, including the issuing, redeeming and transferring of shares, check writing, anti-money laundering services, and customer identification services.

Senior Floating Rate and Senior Floating Rate II may earn income on positive cash balances in demand deposit accounts that are maintained by the transfer agent on behalf of the Funds. These amounts are included in income affiliated in the Statements of Operations.

Certain officers and/or directors of the Funds are officers and/or directors of BlackRock or its affiliates. The Funds reimburse the Manager for compensation to the Funds Chief Compliance Officer.

#### 4. Investments:

Purchases and sales (including paydowns and TBA and mortgage dollar

roll transactions and excluding short-term securities and US Government securities) for the year ended August 31, 2009 were as follows:

	Purchases	Sales
BHL	\$ 53,338,515	\$ 79,414,735
DVF	\$ 57,843,776	\$ 108,701,709
FRA	\$ 150,946,266	\$ 212,820,811
BLW	\$1,712,915,647	\$1,835,126,323

For the year ended August 31, 2009, purchases and sales of US government securities for BLW were \$0 and \$23,000,000, respectively.

For the year ended August 31, 2009, purchases and sales for BLW attributable to mortgage dollar rolls were \$1,240,666,602 and \$1,368,558,242, respectively.

ANNUAL REPORT AUGUST 31, 2009 59

# Notes to Financial Statements (continued)

#### 5. Income Tax Information:

Reclassifications: Accounting principles generally accepted in the United States of America require that certain components of net assets be adjusted to

reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset values per share. The

following permanent differences as of August 31, 2009 attributable to amortization methods on fixed income securities, accounting for swap agreements,

foreign currency transactions, the reclassification of distributions, the expiration of capital loss carryforwards and the classification of investments were

reclassified to the following

accounts:

					Senior	Senior
					Floating Rate	Floating Rate
	BHL	DVF	FRA	BLW	Fund	Fund II
Paid-in capital Undistributed (distributions in excess					\$(64,746,799)	\$(1,546,632)
of) net investment income Accumulated net	\$ 2,498,907	\$ 452,375	\$ 1,290,731	\$ 6,012,461	\$ 1,065,904	\$ 480,545
realized loss	\$(2,498,907)	\$(452,375)	\$(1,290,731)	\$(6,012,461)	\$ 63,680,895	\$ 1,066,087

The tax character of distributions paid during the fiscal years ended October 31, 2007, the fiscal period ended August 31, 2008 and the fiscal years ended

August 31, 2008 and August 31,

2009 were as follows:

					Senior	Senior
					Floating Rate	Floating Rate
	BHL	DVF	FRA	BLW	Fund	Fund II
Ordinary income						
8/31/2009	\$ 9,810,137	\$13,947,075	\$23,842,077	\$42,793,064	\$17,470,993	\$ 8,332,675
8/31/2008	5,435,571	20,910,360	28,321,303		26,664,539	12,294,014

Net unrealized						
losses*	(13,885,511)	(96,331,698)	(90,836,739)	(118,693,400)	(84,591,948)	(39,273,673)
Total accumulated net						
losses	\$(14,948,715)	\$(122,019,325)	\$(112,338,727)	\$(149,837,570)	\$(366,163,869)	\$(76,785,242)

<sup>\*</sup> The differences between book-basis and tax-basis net unrealized losses is attributable primarily to the tax deferral of losses on wash sales, the difference between book and tax

for premiums and discounts on fixed income securities, book/tax differences in the accrual of income on securities in default, the realization for tax purposes of unrealized gains

/(losses) on certain futures and foreign currency contracts, the timing and recognition of partnership income, the accounting for swap agreements, the classification of investments,

the deferral of post-October currency and capital losses for tax purposes and the deferral of compensation to Trustees.

As of August 31, 2009, the Funds had capital loss carryforwards available to offset future realized capital gains through the indicated expiration dates:

## Notes to Financial Statements (continued)

#### 6. Market and Credit Risk:

In the normal course of business, the Funds invest in securities and enter into transactions where risks exist due to fluctuations in the market (market risk) or failure of the issuer of a security to meet all its obligations (credit risk). The value of securities held by the Funds may decline in response to certain events, including those directly involving the issuers whose securities are owned by the Funds; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency and interest rate and price fluctuations. Similar to credit risk, the Funds may be exposed to counterparty risk, or the risk that an entity with which the Funds have unsettled or open transactions may default. Financial assets, which potentially expose the Funds to credit and counterparty risks, consist principally of investments and cash due from counterparties. The extent of the Funds exposure to credit and counterparty risks with respect to these financial assets is approximated by their value recorded in the Funds Statements of Assets and Liabilities.

#### 7. Capital Share Transactions:

BHL and BLW are authorized to issue an unlimited number of shares, par value \$0.001, all of which were initially classified as Common Shares. DVF and FRA are authorized to issue 200 million shares, par value \$0.10, all of which were initially classified as Common Shares. The Board is authorized, however, to classify and reclassify any unissued shares without approval of Common Shareholders.

Shares issued and outstanding for the year ended August 31, 2009 and the period ended August 31, 2008 (and the year ended October 31, 2007 for BLW) increased by the following amounts as a result of dividend reinvestments:

	Year Ended	Period Ended	Year Ended
	August 31,	August 31,	October 31,
	2009	2008	2007
BHL	84,923	15,264	
DVF	129,277	13,892	
FRA	31,791		
BLW			107,367
At August 31, 2009, the shares owned by an aff	iliate of the Manager of the		

Funds were as follows:

	Snares
BHL	8,517
FRA	7.877

Ch awa a

BLW 6,021

BHL s shares issued and outstanding during the period January 31, 2008 (commencement of operations) to August 31, 2008 increased by 8,900,000 from shares sold. Organization costs of \$22,000 were expensed upon the commencement of operations. Offering costs incurred in connection with BHL s offering of Common Shares have been charged against the proceeds from the initial Common Share offering in the amount of \$200,500.

Transactions in capital shares, with respect to Senior Floating Rate and Senior Floating Rate II, were as follows:

	Year Ended			Year Ended
		August 31, 2009	A	August 31, 2008
Senior Floating Rate	Shares	Amount	Shares	Amount

and distributions	83,856	580,777	41,005	365,615
Total issued	3,559,077	24,277,786	2,875,069	25,817,215
Shares tendered	(5,697,156)	(39,247,148)	(7,873,162)	(71,267,903)
Net decrease	(2,138,079)	\$(14,969,362)	(4,998,093)	\$ (45,450,688)

#### 8. Commitments:

The Funds may invest in floating rate loans. In connection with these investments, the Funds may also enter into unfunded corporate loans (commitments). Commitments may obligate the Funds to furnish temporary financing to a borrower until permanent financing can be arranged.

In connection with these commitments, the Funds earn a commitment fee, typically set as a percentage of the commitment amount. Such fee income, which is classified in the Statements of Operations as facility and other fees, is recognized ratably over the commitment period. As of August 31, 2009, the Funds had the following unfunded loan commitments:

ANNUAL REPORT AUGUST 31, 2009 61

ProtoStar Ltd.	\$ 529	\$ 529
9 Borrowings:		

9. Borrowings:

On May 16, 2008, DVF and FRA renewed their revolving credit and security Agreements ( Citicorp Agreement ) pursuant to a commercial paper asset securitization program with Citicorp North America, Inc. ( Citicorp ), as Agent, certain secondary backstop lenders and certain asset securitization conduits, as lenders (the Lenders ). The agreement was renewed for one year and at the time of renewal had maximum limits as follows:

DVF \$91,000,000 FRA \$155,000,000

Under the Citicorp Agreement, the conduits funded advances to each Fund through the issuance of highly rated commercial paper. Each Fund had granted a security interest in substantially all of its assets to, and in favor of, the Lenders as security for its obligations to the Lenders. The interest rate on each Fund s borrowings was based on the interest rate carried by the commercial paper plus a program fee. In addition, each Fund paid a liquidity fee to the secondary backstop lenders and the agent. Under the Citicorp Agreement, the Funds were subject to certain conditions and covenants, which included among other things limitations on asset declines over prescribed time periods. As a result of the decline in net assets attrib-

utable to market conditions, certain terms of the facility were renegotiated effective December 5, 2008, which included waivers of certain financial covenants by the Lenders, an increase in program and liquidity fees under the facility and a reduction of the maximum limits.

On March 5, 2009, DVF and FRA terminated their revolving credit agreement with Citicorp and entered into a senior committed secured, 364-day revolving line of credit and a separate security agreement (the SSB Agreement ) with State Street Bank and Trust Company (SSB). The SSB Agreement has the same maximum limits as the renegotiated limits under the Citigroup Agreement and are as follows:

**Maximum Limit** 

DVF

FRA

\$ 50,000,000 \$103,000,000

The Funds have granted a security interest in substantially all of its assets to SSB.

Advances are made by SSB to the Funds, at the Funds option (a) the higher of 1.0% above the Fed Effective Rate or 1.0% above the Overnight LIBOR Rate and (b) 1.0% above 7-day, 30-day, or 60-day LIBOR Rate. In addition, the Funds pay a facility fee and a commitment fee based upon SSBs total commitment to the Funds. The fees associated with each of the agreements are included in the Statements of Operations as borrowing costs. Advances to the Funds as of August 31, 2009 are shown in the Statements of Assets and Liabilities as loan payable.

BHL is a party to a senior committed secured, 364-day revolving line of credit and a separate security agreement (the BHL Agreement ) with SSB dated April 9, 2008. The Agreement has a maximum limit of \$67.5 million. BHL has granted a security interest in substantially all of its assets to SSB. BHL renewed its revolving line of credit and security agreement with SSB effective April 8, 2009. The renewed agreement expires March 4, 2010 and the maximum commitment was reduced to \$55 million.

The Funds may not declare dividends or make other distributions on shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding short term borrowings is less than 300%.

For the year ended August 31, 2009, the daily weighted average interest rates for funds with loans under the revolving credit agreement were as follows:

Daily Weighted

Average

Interest Rate

 BHL
 1.40%

 DVF
 3.02%

 FRA
 2.63%

For the year ended August 31, 2009, the daily weighted average interest rates for funds with reverse repurchase agreements were as follows:

**Daily Weighted** 

**Average** 

**Interest Rate** 

BLW 0.87%

10. Subsequent Events:

The Funds paid a net investment income dividend on September 30, 2009 to shareholders of record on September 15, 2009 as follows:

Common

Dividend

Per Share

BHL \$0.0600 DVF \$0.0785

FRA \$0.0815

BLW \$0.0700

Management s evaluation of the impact of all subsequent events on the

Funds financial statements was completed through October 30, 2009, the

date the financial statements were issued.

## Report of Independent Registered Public Accounting Firm

To the Shareholders and Boards of Directors/Trustees of:

BlackRock Defined Opportunity Credit Trust

BlackRock Diversified Income Strategies Fund, Inc.

BlackRock Floating Rate Income Strategies Fund, Inc.

BlackRock Limited Duration Income Trust

BlackRock Senior Floating Rate Fund, Inc.

BlackRock Senior Floating Rate Fund II, Inc.:

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of BlackRock Defined Opportunity Credit Trust as of August 31, 2009, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for the year then ended and the period January 31, 2008 (commencement of operations) to August 31, 2008, and the financial highlights for the year then ended and the period January 31, 2008 to August 31, 2008. We have also audited the accompanying statement of assets and liabilities, including the schedule of investments, of BlackRock Diversified Income Strategies Fund, Inc. as of August 31, 2009, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the four years in the period then ended and the period January 31, 2005 (commencement of operations) to August 31, 2005. We have also audited the accompanying statement of assets and liabilities, including the schedule of investments, of BlackRock Floating Rate Income Strategies Fund, Inc. as of August 31, 2009, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. We have also audited the accompanying statement of assets and liabilities, including the schedule of investments, of BlackRock Limited Duration Income Trust as of August 31, 2009, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for the year then ended, the period November 1, 2007 to August 31, 2008, and the year ended October 31, 2007, and the financial highlights for the year then ended, the period November 1, 2007 to August 31, 2008, and four years in the period ended October 31, 2007. We have also audited the accompanying statements of assets and liabilities of BlackRock Senior Floating Rate Fund, Inc. and BlackRock Senior Floating Rate Fund II, Inc. as of August 31, 2009, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. BlackRock Defined Opportunity Credit Trust, BlackRock Diversified Income Strategies Fund, Inc., BlackRock Floating Rate Income Strategies Fund, Inc., BlackRock Limited Duration Income Trust, BlackRock Senior Floating Rate Fund, Inc., and BlackRock Senior Floating Rate Fund II, Inc. are collectively referred to as the Funds. These financial statements and financial highlights are the responsibility of the Funds management.

Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Funds are not required to have, nor were we engaged to perform, audits of their internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate

in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of August 31, 2009, by correspondence with the custodian and financial intermediaries; where replies were not received from financial intermediaries, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of BlackRock Defined Opportunity Credit Trust as of August 31, 2009, the results of its operations and its cash flows for the year then ended, changes in its net assets for the year then ended and the period January 31, 2008 to August 31, 2008, and the financial highlights for the year then ended and the period January 31, 2008 to August 31, 2008, in conformity with accounting principles generally accepted in the United States of America. Additionally, in our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of BlackRock Diversified Income Strategies Fund, Inc. as of August 31, 2009, the results of its operations and its cash flows for the year then ended, changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the four years in the period then ended and the period January 31, 2005 to August 31, 2005, in conformity with accounting principles generally accepted in the United States of America. Additionally, in our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of BlackRock Floating Rate Income Strategies Fund, Inc. as of August 31, 2009, the results of its operations and its cash flows for the year then ended, changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America Additionally, in our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of BlackRock Limited Duration Income Trust as of August 31,

2009, and the results of its operations and its cash flows for the year then ended, changes in its net assets for the year then ended, the period November 1, 2007 to August 31, 2008, and the year ended October 31, 2007, and the financial highlights for the year then ended, the period November 1, 2007 to August 31, 2008, and four years in the period ended October 31, 2007, in conformity with accounting principles generally accepted in the United States of America. Additionally, in our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of BlackRock Senior Floating Rate Fund, Inc. and BlackRock Senior Floating Rate Fund II, Inc. as of August 31, 2009, and the results of their operations for the year then ended, changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

## Important Tax Information

The following table summarizes the taxable per share distributions paid by the Funds during the taxable year ended August 31, 2009:

						Senior
					Senior Floating	Floating
	BHL	DVF	FRA	BLW	Rate	Rate II
Interest-Related Dividends for Non-U.S. Residents*						
September 2008	57.78%	53.85%	75.25%	70.02%	77.87%	78.22%
October 2008 December 2008	57.78%	53.85%	76.83%	69.28%	76.97%	77.47%
January 2009	57.78%	53.85%	76.83%	69.28%	86.42%	86.22%
February 2009 August 2009	73.21%	100.00%	79.34%	73.88%	86.42%	86.22%
Federal Obligation Interest**				1.11%		

Expressed as a percentage of the ordinary income distributions.

Represents the portion of the taxable ordinary income dividends eligible for exemption from U.S. withholding tax for

- \* nonresident aliens and foreign corporations.
  - The law varies in each state as to whether and what percentage of dividend income attributable to Federal Obligations is exempt from
- \*\* state income tax. We recommmend that

you consult your tax advisor to determine if any portion of the dividends you received is exempt from state income taxes.

ANNUAL REPORT AUGUST 31, 2009 69

## Schedule of Investments (concluded) Master Senior Floating Rate LLC

Effective September 1, 2008, the Master LLC adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical securities

Level 2 other observable inputs (including, but not limited to: quoted prices for
similar assets or liabilities in markets that are active, quoted prices for identical
or similar assets or liabilities in markets that are not active, inputs other than
quoted prices that are observable for the assets or liabilities (such as interest
rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and
default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Master LLC s own assumptions used in determining the fair value of investments) The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Master LLC s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

	The following table summarizes the inputs used as of August 31, 2009 in determin-
ing the fair valuation of the Master LLC s investments:	
Valuation	Investments in
Inputs	Securities
	Assets
Level 1	
Long-Term Investments:	
Common Stocks	\$ 483,689
Short-Term Securities	33,608,423
Total Level 1	34,092,112
Level 2	
Long-Term Investments:	
Common Stocks	550,175
Corporate Bonds	33,880,998
Floating Rate Loan Interests	304,641,971
Total Level 2	339,073,144
Level 3	
Long-Term Investments:	
Common Stocks	16,332
Corporate Bonds	6,417,361
Floating Rate Loan Interests	97,288,159
Other Interests	777,120

Total Level 3		104,498,972
Total		\$477,664,228
Valuation	Other Finance	ial
Inputs	Instruments	1
	Assets	Liabilities
Level 1		
Level 2	\$ 38,692	\$ (529,700)
Level 3		(112,385)
Total	\$ 38,692	\$ (642,085)
	<sup>1</sup> Other financial instruments are foreign currency e	exchange contracts, unfunded
	loan commitments and swaps which are shown a	at the unrealized appreciation/
depreciation on the instrument.		

The following is a reconciliation of investments for unobservable inputs (Level 3) used in determining fair value:

	investinen	its in Securities		
Common	Corporate	J	Other	
		Loan		
Stocks	Bonds	Interests	Interests	Total
\$ 15,030		\$ 43,430,665		\$ 43,445,695
		(12,647,335)		(12,647,335)

## Notes to Financial Statements Master Senior Floating Rate LLC

#### 1. Organization and Significant Accounting Policies:

Master Senior Floating Rate LLC (the Master LLC ) is registered under the Investment Company Act of 1940, as amended (the 1940 Act ), and is organized as a Delaware limited liability company. The Limited Liability Company Agreement permits the Board of Directors (the Board ) to issue nontransferable interests in the Master LLC, subject to certain limitations. The Master LLC s financial statements are prepared in conformity with accounting principles generally accepted in the United States of America, which may require the use of management accruals and estimates. Actual results may differ from these estimates.

The following is a summary of significant accounting policies followed by the Master LLC:

Valuation of Investments: The Master LLC values its bond investments on the basis of last available bid prices or current market quotations provided by dealers or pricing services selected under the supervision of the Master LLC s Board. Floating rate loan interests are valued at the mean between the last available bid prices from one or more brokers or dealers as obtained from a pricing service. In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, pricing matrixes, market transactions in comparable investments, various relationships observed in the market between investments and calculated yield measures based on valuation technology commonly employed in the market for such investments. Swap agreements are valued utilizing quotes received daily by the Master LLC s pricing service or through brokers which are derived using daily swap curves and trades of underlying securities. Shortterm securities with maturities less than 60 days may be valued at amortized cost, which approximates fair value.

Equity investments traded on a recognized securities exchange or the NASDAQ Global Market System are valued at the last reported sale price that day or the NASDAQ official closing price, if applicable. For equity investments traded on more than one exchange, the last reported sale price on the exchange where the stock is primarily traded is used. Equity investments traded on a recognized exchange for which there were no sales on that day are valued at the last available bid price. If no bid price is available, the prior day s price will be used, unless it is determined that such prior day s price no longer reflects the fair value of the security.

In the event that application of these methods of valuation results in a price for an investment which is deemed not to be representative of the market value of such investment or are not available, the investment will be valued by a method approved by the Board as reflecting fair value ( Fair Value Assets ). When determining the price for Fair Value Assets, the investment advisor and/or sub-advisor seeks to determine the price that

the Master LLC might reasonably expect to receive from the current sale of that asset in an arm s-length transaction. Fair value determinations shall be based upon all available factors that the investment advisor and/or sub-advisor deems relevant. The pricing of all Fair Value Assets is subsequently reported to the Board or a committee thereof.

Foreign Currency Transactions: Foreign currency amounts are translated into United States dollars on the following basis: (i) market value of investment securities, assets and liabilities at the current rate of exchange; and (ii) purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

The Master LLC reports foreign currency related transactions as components of realized gains for financial reporting purposes, whereas such components are treated as ordinary income for federal income tax purposes.

Floating Rate Loans: The Master LLC may invest in floating rate loans, which are generally non-investment grade, made by banks, other financial institutions and privately and publicly offered corporations. Floating rate loans are senior in the debt structure of a corporation. Floating rate loans generally pay interest at rates that are periodically determined by reference to a base lending rate plus a premium. The base lending rates are generally (i) the lending rate offered by one or more European banks, such as LIBOR (London InterBank Offered Rate), (ii) the prime rate offered by one or more US banks or (iii) the certificate of deposit rate. The Master LLC consider these investments to be investments in debt securities for purposes of their investment policies.

The Master LLC earns and/or pays facility and other fees on floating rate loans. Other fees earned/paid include commitment, amendment, consent, commissions and prepayment penalty fees. Facility, amendment and consent fees are typically amortized as premium and/or accreted as discount over the term of the loan. Commitment, commission and various other fees are recorded as income. Prepayment penalty fees are recognized on the accrual basis. When the Master LLC buys a floating rate loan it may receive a facility fee and when it sells a floating rate loan it may pay a facility fee. On an ongoing basis, the Master LLC may receive a commitment fee based on the undrawn portion of the underlying line of credit portion of a floating rate loan. In certain circumstances, the Master LLC may receive a prepayment penalty fee upon the prepayment of a floating rate loan by a borrower. Other fees received by the Master LLC may include covenant waiver fees and covenant modification fees.

The Master LLC may invest in multiple series or tranches of a loan.

A different series or tranche may have varying terms and carry different associated risks.

Floating rate loans are usually freely callable at the issuer s option. The Master LLC may invest in such loans in the form of participations in loans ( Participations ) and assignments of all or a portion of loans from third

parties. Participations typically will result in the Master LLC having a contractual relationship only with the lender, not with the borrower. The Master LLC will have the right to receive payments of principal, interest and any fees to which it is entitled only from the lender selling the Participation and only upon receipt by the lender of the payments from the borrower.

ANNUAL REPORT AUGUST 31, 2009 75

## Notes to Financial Statements (continued) Master Senior Floating Rate LLC

In connection with purchasing Participations, the Master LLC generally will have no right to enforce compliance by the borrower with the terms of the loan agreement relating to the loans, nor any rights of offset against the borrower, and the Master LLC may not benefit directly from any collateral supporting the loan in which it has purchased the Participation.

As a result, the Master LLC will assume the credit risk of both the borrower and the lender that is selling the Participation. The Master LLC s investments in loan participation interests involve the risk of insolvency of the financial intermediaries who are parties to the transactions. In the event of the insolvency of the lender selling the Participation, the Master LLC may be treated as general creditor of the lender and may not benefit from any offset between the lender and the borrower.

Segregation and Collateralization: In cases in which the 1940 Act and the interpretive positions of the Securities and Exchange Commission (SEC) require that the Master LLC either delivers collateral or segregates assets in connection with certain investments (e.g., swaps and foreign currency exchange contracts) the Master LLC will, consistent with SEC rules and/or certain interpretive letters issued by the SEC, segregate collateral or designate on its books and records cash or other liquid securities having a market value at least equal to the amount that would otherwise be required to be physically segregated. Furthermore, based on requirements and agreements with certain exchanges and third party broker-dealers, each party has requirements to deliver/deposit securities as collateral for certain investments (e.g., swaps). As part of these agreements, when the value of these investments achieves a previously agreed upon value (minimum transfer amount), each party may be required to deliver additional collateral.

Investment Transactions and Investment Income: For financial reporting purposes, with respect to the Master LLC, investment transactions are recorded on the dates the trans-actions are entered into (the trade dates). Realized gains and losses on security transactions are determined on the identified cost basis. Dividend income is recorded on the ex-dividend dates. Dividends from foreign securities where the ex-dividend date may have passed are subsequently recorded when the Master LLC has determined the ex-dividend date. Interest income is recognized on the accrual basis. The Master LLC amortizes all premiums and discounts on debt securities.

Income Taxes: The Master LLC is classified as a partnership for federal income tax purposes. As such, each investor in the Master LLC is treated as owner of its proportionate share of the net assets, income, expenses and realized and unrealized gains and losses of the Master LLC. Therefore, no federal income tax provision is required. It is intended that the Master LLC is assets will be managed so an investor in the Master LLC can satisfy the requirements of Subchapter M of the Internal Revenue Code.

The Master LLC files US federal and various state and local tax returns. No income tax returns are currently under examination. The statute of limitations on the Master LLC s US federal tax returns remains open for

each of the four years ended August 31, 2009. The statutes of limitations on the Master LLC s state and local tax returns may remain open for an additional year depending upon the jurisdiction.

Recent Accounting Pronouncement: In June 2009, Statement of Financial Accounting Standards No. 166, Accounting for Transfers of Financial Assets an amendment of FASB Statement No. 140 (FAS 166), was issued. FAS 166 is intended to improve the relevance, representational faithfulness and comparability of the information that a reporting entity provides in its financial statements about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor s continuing involvement, if any, in transferred financial assets. FAS 166 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2009. Earlier application is prohibited. The recognition and measurement provisions of FAS 166 must be applied to transfers occurring on or after the effective date. Additionally, the disclosure provisions of FAS 166 should be applied to transfers that occurred both before and after the effective date of FAS 166. The impact of FAS 166 on the Master LLC s financial statement disclosures, if any, is currently being assessed.

Other: Expenses directly related to the Master LLC are charged to the Master LLC. Other operating expenses shared by several funds are prorated among those funds on the basis of relative net assets or other appropriate methods.

#### 2. Derivative Financial Instruments:

The Master LLC may engage in various portfolio investment strategies both to increase the return of the Master LLC and to economically hedge. or protect, their exposure to certain risks such as credit risk, equity risk, interest rate risk and foreign currency exchange rate risk. Losses may arise if the value of the contract decreases due to an unfavorable change in the value of the underlying security or if the counter-party does not perform under the contract. The Master LLC may mitigate counterparty risk through master netting agreements included within an International Swap and Derivatives Association, Inc. ( ISDA ) Master Agreement between the Master LLC and each of its counterparties. The ISDA Master Agreement allows the Master LLC to offset with its counterparty certain derivative financial instruments payables and/or receivables with collateral held with each counterparty. The amount of collateral moved to/from applicable counterparties is based upon minimum transfer amounts of up to \$500,000. To the extent amounts due to the Master LLC from its counterparties are not fully collateralized contractually or otherwise, the Master LLC bears the risk of loss from the counterparty non-performance. See Note 1 Segregation and Collateralization for information with respect to collateral practices.

The Master LLC s maximum risk of loss from counterparty credit risk on over-the-counter derivatives is generally the aggregate unrealized gain in excess of any collateral pledged by the counterparty to the Master LLC. Certain ISDA Master Agreements allow counterparties to over-the-counter derivatives to terminate derivative contracts prior to maturity in the event

76 ANNUAL REPORT AUGUST 31, 2009

## Notes to Financial Statements (continued) Master Senior Floating Rate LLC

the Master LLC s net assets decline by a stated percentage or the Master LLC fails to meet the terms of its ISDA Master Agreements, which would cause the Master LLC to accelerate payment of any net liability owed to the counterparty.

Foreign Currency Exchange Contracts: The Master LLC may enter into foreign currency exchange contracts as an economic hedge against either specific transactions or portfolio positions (foreign currency exchange rate risk). A foreign currency exchange contract is an agreement between two parties to buy and sell a currency at a set exchange rate on a future date. Foreign currency exchange contracts, when used by the Master LLC, help to manage the overall exposure to the foreign currency backing some of the investments held by the Master LLC. The contract is marked-to-market daily and the change in market value is recorded by the Master LLC as an unrealized gain or loss. When the contract is closed, the Master LLC records a realized gain or loss equal to the difference between the value at the time it was opened and the value at the time it was closed. The use of foreign currency exchange contracts involves the risk that counterparties may not meet the terms of the agreement or unfavorable movements in the value of a foreign currency relative to the US dollar.

Swaps: The Master LLC may enter into swap agreements, in which the Master LLC and a counterparty agree to make periodic net payments on a specified notional amount. These periodic payments received or made by the Master LLC are recorded in the accompanying Statement of Operations as realized gains or losses, respectively. Swaps are marked-to-market daily and changes in value are recorded as unrealized appreciation (depreciation). When the swap is terminated, the Master LLC will record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Master LLC s basis in the contract, if any. Swap transactions involve, to varying degrees, elements of interest rate, credit and market risk in excess of the amounts recognized on the Statement of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligation to perform or disagree as to the meaning of the contractual terms in the agreements, and that there may be unfavorable changes in interest rates and/or market values associated with these transactions.

Credit default swaps The Master LLC may enter into credit default swaps to manage its exposure to the market or certain sectors of the market, to reduce its risk exposure to defaults of corporate and/or sovereign issuers or to create exposure to corporate and/or sovereign issuers to which it is not otherwise exposed (credit risk). The Master LLC enters into credit default agreements to provide a measure of protection against the default of an issuer (as buyer of protection) and/or gain credit exposure to an issuer to which it is not otherwise exposed (as seller of protection). The Master LLC may either buy or sell (write)

credit default swaps on single-name issuers (corporate or sovereign) or traded indexes. Credit default swaps on single-name issuers are agreements in which the buyer pays fixed periodic payments to the seller in consideration for a guarantee from the seller to make a

specific payment should a negative credit event take place (e.g., bankruptcy, failure to pay, obligation accelerators, repudiation, moratorium or restructuring). Credit default swaps on traded indexes are agreements in which the buyer pays fixed periodic payments to the seller in consideration for a guarantee from the seller to make a specific payment should a write-down, principal or interest shortfall or default of all or individual underlying securities included in the index occurs. As a buyer, the Master LLC will either receive from the seller an amount equal to the notional amount of the swap and deliver the referenced security or underlying securities comprising of an index or receive a net settlement of cash equal to the notional amount of the swap less the recovery value of the security or underlying securities comprising of an index. As a seller (writer), the Master LLC will either pay the buyer an amount equal to the notional amount of the swap and take delivery of the referenced security or underlying securities comprising of an index or pay a net settlement of cash equal to the notional amount of the swap less the recovery value of the security or underlying securities comprising of an index.

#### 3. Transactions with Affiliates:

The PNC Financial Services Group, Inc. (PNC) and Bank of America Corporation (BAC) are the largest stockholders of BlackRock, Inc. (BlackRock). BAC became a stockholder of BlackRock following its acquisition of Merrill Lynch & Co., Inc. (Merrill Lynch) on January 1, 2009. Prior to that date, both PNC and Merrill Lynch were considered affiliates of the Master LLC under the 1940 Act. Subsequent to the acquisition, PNC remains an affiliate, but due to the restructuring of Merrill Lynch is ownership interest of BlackRock, BAC is not deemed to be an affiliate under the 1940 Act.

The Master LLC entered into an Investment Advisory Agreement with BlackRock Advisors, LLC (the Manager ), the Master LLC s investment advisor, an indirect, wholly owned subsidiary of BlackRock, to provide investment advisory and administration services.

The Manager is responsible for the management of the Master LLC s portfolio and provides the necessary personnel, facilities, equipment and certain other services necessary to the operations of the Master LLC. For such services, the Master LLC pays the Manager a monthly fee at an annual rate of 0.95% of the average daily value of the Master LLC s net assets.

The Manager has entered into a separate sub-advisory agreement with BlackRock Financial Management, Inc. (BFM), an affiliate the Manager, under which the Manager pays BFM for services it provides, monthly fee that is a percentage of the investment advisory fee paid by the Master LLC to the Manager.

The Manager has agreed to waive its advisory fee by the amount of investment advisory fees the Master LLC pays to the Manager indirectly through its investment in affiliated money market funds. This amount is shown as fees waived by advisor in the Statement of Operations.

For the year ended August 31, 2009, the Master LLC reimbursed the Advisor \$8,441 for certain accounting services, which are included in accounting services in the Statement of Operations.

Certain officers and/or directors of the Master LLC are officers and/or directors of BlackRock or its affiliates. The Master LLC reimburses the Manager for compensation to the Master LLC s Chief Compliance Officer.

#### 4. Investments:

Purchases and sales (including paydowns) of investments, excluding short-term securities, for the year ended August 31, 2009 were \$196,913,499 and \$259,646,559, respectively.

#### 5. Market and Credit Risk:

In the normal course of business, the Master LLC invests in securities and enters into transactions where risks exist due to fluctuations in the market (market risk) or failure of the issuer of a security to meet all its obligations (credit risk). The value of securities held by the Master LLC may decline in response to certain events, including those directly involving the issuers whose securities are owned by the Master LLC; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency and interest rate and price fluctuations. Similar to credit risk, the Master LLC may be exposed to counterparty risk, or the risk that an entity with which the Master LLC has unsettled or open transactions may default. Financial assets, which potentially expose the Master LLC to credit and counterparty risks, consist principally of investments and cash due from counterparties. The extent of the Master LLCs exposure to credit and counterparty risks with respect to these financial assets is approximated by their value recorded in the Master LLCs Statement of Assets and Liabilities.

#### 6. Commitments:

The Master LLC may invest in floating rate loans. In connection with these investments, the Master LLC may also enter into unfunded corporate loan (commitments). Commitments may obligate the Master LLC to furnish temporary financing to a borrower until permanent financing can be arranged. In connection with these commitments, the Master LLC earns a commitment fee, typically set as a percentage of the commitment amount.

Such fee income, which is classified in the Statement of Operations as facility and other fees, is recognized ratably over the commitment period. As of August 31, 2009 the Master LLC had the following unfunded loan commitments:

	Value of
Unfunded	Underlying
Commitment	Loan

Borrower	(000)	(000)
Big West Oil	\$ 562	\$ 517
Smurfit Corp.	\$1,039	\$ 971
Vought Aircraft Industries, Inc.	\$2,185	\$2,043

#### 7. Short-Term Borrowings:

The Master LLC, along with certain other funds managed by the Manager and its affiliates, is a party to a \$500 million credit agreement with a group of lenders, which expired November 2008 and was subsequently renewed until November 2009. The Master LLC may borrow under the

78 ANNUAL REPORT AUGUST 31, 2009

## Notes to Financial Statements (concluded) Master Senior Floating Rate LLC

credit agreement to fund shareholder redemptions and for other lawful purposes other than for leverage. The Master LLC may borrow up to the maximum amount allowable under the Master LLC s current Prospectus and Statement of Additional Information, subject to various other legal, regulatory or contractual limits. The Master LLC paid its pro rata share of a 0.02% upfront fee on the aggregate commitment amount based on its net assets as of October 31, 2008. The Master LLC pays a commitment fee of 0.08% per annum based on the Master LLC s pro rata share of the unused portion of the credit agreement, which is included in miscellaneous in the Statement of Operations. Amounts borrowed under the credit agreement bear interest at a rate equal to the higher of (a) federal funds effective rate and (b) reserve adjusted one month LIBOR, plus, in each case, the higher of (i) 1.50% and (ii) 50% of the CDX Index (as defined in the credit agreement) in effect from time to time. For the year ended August 31, 2009 the daily weighted average interest rate was 2.00%.

#### 8. Subsequent Events:

Management has evaluated the impact of all subsequent events on the Master LLC through October 30, 2009, the date the financial statements were issued, and has determined that there were no subsequent events requiring adjustment or disclosure in the financial statements.

ANNUAL REPORT AUGUST 31, 2009 79

## Report of Independent Registered Public Accounting Firm Master Senior Floating Rate LLC

To the Investors and Board of Directors of Master Senior Floating Rate LLC:

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Master Senior Floating Rate LLC (the Master LLC) as of August 31, 2009, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Master LLC s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audit.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Master LLC is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Master LLC s internal control over financial reporting.

Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of August 31, 2009, by correspondence with the custodian and financial intermediaries; where replies were not received from financial intermediaries, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Master Senior Floating Rate LLC as of August 31, 2009, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Deloitte & Touche LLP Princeton, New Jersey October 30, 2009

80 ANNUAL REPORT AUGUST 31, 2009

## Disclosure of Investment Advisory Agreements and Sub-Advisory Agreements

The Board of Directors or the Board of Trustees, as the case may be (each, a Board, and collectively, the Boards, and the members of which are referred to as Board Members ) of each of BlackRock Defined Opportunity Credit Trust (BHL), BlackRock Diversified Income Strategies Fund, Inc. ( DVF ), BlackRock Floating Rate Income Strategies Fund, Inc. ( FRA ), BlackRock Limited Duration Income Trust (BLW, and together with BHL, DVF, and FRA, each a Fund and, collectively, the Funds ) and Master Senior Floating Rate Fund LLC (the Master LLC ) met on April 14, 2009 and May 28 29, 2009 to consider the approval of its respective fund s investment advisory agreement (each, an Advisory Agreement ) with BlackRock Advisors, LLC (the Manager ), each fund s investment advisor. The Board of each of the Funds and the Master LLC also considered the approval of the sub-advisory agreement (each, a Sub-Advisory Agreement ) between each such Fund or the Master LLC, as applicable, the Manager and BlackRock Financial Management, Inc. (the Sub-Advisor ). BlackRock Senior Floating Rate Fund, Inc. ( Senior Floating Rate ) and BlackRock Senior Floating Rate Fund II, Inc. ( Senior Floating Rate II, and together with Senior Floating Rate, each, a Feeder Fund and together, the Feeder Funds ) currently invest substantially all of their investable assets in the Master LLC; accordingly, the Boards of each of the Feeder Funds also considered the approval of the Advisory Agreement and the Sub-Advisory Agreement between the Master LLC, the Manager and the Sub-Advisor. The Feeder Funds do not require investment advisory services because all of their investments are made at the Master LLC level.

The Manager and the Sub-Advisor are referred to herein as BlackRock. The Advisory Agreements and the Sub-Advisory Agreements are referred to herein as the Agreements. Unless otherwise indicated, references to actions taken by the Board or the Boards shall mean each Board acting independently with regard to its respective fund.

#### Activities and Composition of the Boards

Each Board consists of twelve individuals, ten of whom are not interested persons of any of the Funds, the Feeder Funds or the Master LLC as defined in the Investment Company Act of 1940, as amended (the 1940 Act ) (the Independent Board Members ). The Board Members of each fund are responsible for the oversight of the operations of such fund and perform the various duties imposed on the directors of investment companies by the 1940 Act. The Independent Board Members have retained independent legal counsel to assist them in connection with their duties. The Chairman of each Board is an Independent Board Member. Each Board has established five standing committees: an Audit Committee, a Governance and Nominating Committee, a Compliance Committee, a Performance Oversight Committee and an Executive Committee, each of which is composed of Independent Board Members (except for the Executive Committee, which has one interested Board Member) and is chaired by an Independent Board Member. In addition, each Board has

established an Ad Hoc Committee on Auction Market Preferred Shares.

#### The Agreements

Pursuant to the 1940 Act, each Board is required to consider the continuation of the Agreements on an annual basis. In connection with this process, each Board assessed, among other things, the nature, scope and quality of the services provided to its respective fund by the

personnel of BlackRock and its affiliates, including investment management, administrative and shareholder services, oversight of fund accounting and custody, marketing services and assistance in meeting applicable legal and regulatory requirements.

Throughout the year, the Boards, acting directly and through their committees, consider at each of their meetings factors that are relevant to their annual consideration of the renewal of the Agreements, including the services and support provided by BlackRock to the funds and their shareholders. Among the matters the Boards considered were: (a) investment performance for one-, three- and five-year periods, as applicable. against peer funds, and applicable benchmarks, if any, as well as senior management and portfolio managers analysis of the reasons for any outperformance or underperformance against its peers; (b) fees, including advisory fees, administration fees with respect to the Feeder Funds, and other amounts paid to BlackRock and its affiliates by the funds for services such as call center and fund accounting, and, in the case of the Feeder Funds, transfer agency, marketing and distribution; (c) fund operating expenses; (d) the resources devoted to, and compliance reports relating to, the funds investment objectives, policies and restrictions, (e) the funds compliance with their Codes of Ethics and compliance policies and procedures; (f) the nature, cost and character of non-investment management services provided by BlackRock and its affiliates; (g) BlackRock s and other service providers internal controls; (h) BlackRock s implementation of the proxy voting policies approved by the Boards; (i) execution quality of portfolio transactions; (i) BlackRock s implementation of the funds valuation and liquidity procedures; and (k) periodic updates on BlackRock s business.

#### Board Considerations in Approving the Agreements

The Approval Process: Prior to the April 14, 2009 meeting, each Board requested and received materials specifically relating to the Agreements. Each Board is engaged in an ongoing process with BlackRock to continuously review the nature and scope of the information provided to better assist its deliberations. The materials provided in connection with the April meeting included (a) information independently compiled and prepared by Lipper, Inc. ( Lipper ) on Fund and Feeder Fund fees and expenses, and the investment performance of each Fund and Feeder Fund as compared with a peer group of funds as determined by Lipper (collectively, Peers ); (b) information on the profitability of the Agreements to BlackRock and a discussion of fall-out benefits to BlackRock and its affiliates and significant shareholders; (c) a general analysis provided by BlackRock concerning

investment advisory fees charged to other clients, such as institutional clients and open-end funds, under similar investment mandates, as well as the performance of such other clients; (d) the impact of economies of scale; (e) a summary of aggregate amounts paid by each Fund, each Feeder Fund and the Master LLC to BlackRock and (f) an internal comparison of management fees classified by Lipper, if applicable.

At an in-person meeting held on April 14, 2009, each Board reviewed materials relating to its consideration of the Agreements. As a result of the discussions that occurred during the April 14, 2009 meeting, the Boards presented BlackRock with questions and requests for additional information and BlackRock responded to these requests with additional written information in advance of the May 28 29, 2009 Board meeting.

ANNUAL REPORT AUGUST 31, 2009 81

# Disclosure of Investment Advisory Agreements and Sub-Advisory Agreements (continued)

At an in-person meeting held on May 28 29, 2009, each Board, including the Independent Board Members, unanimously approved the continuation of the Advisory Agreement between the Manager and its Fund or the Master LLC, as applicable, and the Sub-Advisory Agreement between its Fund or the Master LLC, as applicable, the Manager and the Sub-Advisor, each for a one-year term ending June 30, 2010. The Board of Directors of each Feeder Fund, including the Independent Board Members, also considered the continuation of the Agreements with respect to the Master LLC and found the Agreements to be satisfactory. The Boards considered all factors they believed relevant with respect to the Funds and the Master LLC, including, among other factors: (a) the nature, extent and quality of the services provided by BlackRock; (b) the investment performance of the Funds, the Feeder Funds and BlackRock portfolio management; (c) the advisory fee and the cost of the services and profits to be realized by BlackRock and certain affiliates from the relationship with the Funds, the Feeder Funds and the Master LLC; (d) economies of scale; and (e) other factors.

Each Board also considered other matters it deemed important to the approval process, such as services related to the valuation and pricing of its respective Fund s or the Master LLC s portfolio holdings, as applicable, direct and indirect benefits to BlackRock and its affiliates and significant shareholders from their relationship with such Fund, the Feeder Funds or the Master LLC and advice from independent legal counsel with respect to the review process and materials submitted for the Board s review. The Boards noted the willingness of BlackRock personnel to engage in open, candid discussions with the Boards. The Boards did not identify any particular information as controlling, and each Board Member may have attributed different weights to the various items considered.

A. Nature, Extent and Quality of the Services: Each Board, including its Independent Board Members, reviewed the nature, extent and quality of services provided by BlackRock, including the investment advisory services and the resulting performance of its respective Fund, Feeder Fund, or the Master LLC, as applicable. Throughout the year, each Board compared its respective Fund s or Feeder Fund s performance to the performance of a comparable group of closed-end funds, and the performance of at least one relevant benchmark, if any. The Boards met with BlackRock s senior management personnel responsible for investment operations, including the senior investment officers. Each Board also reviewed the materials provided by its respective Fund s or the Master LLC s portfolio management team discussing such fund s performance and such fund s investment objective, strategies and outlook.

Each Board considered, among other factors, the number, education and experience of BlackRock s investment personnel generally and its respective Fund s or the Master LLC s portfolio management team, investments by portfolio managers in the funds they manage, BlackRock s portfolio

trading capabilities, BlackRock s use of technology, BlackRock s commitment to compliance and BlackRock s approach to training and retaining portfolio managers and other research, advisory and management personnel. Each Board also reviewed a general description of BlackRock s compensation structure with respect to its respective Fund s or the Master LLC s portfolio management team and BlackRock s ability to attract and retain high-quality talent.

In addition to advisory services, each Board considered the quality of the administrative and non-investment advisory services provided to its respective Fund, Feeder Fund or the Master LLC. BlackRock and its affiliates and significant shareholders provide the Funds, the Feeder Funds and the Master LLC with certain administrative services, in the case of the Feeder Funds, transfer agency and shareholder services, and other services (in addition to any such services provided to the funds by third parties) and officers and other personnel as are necessary for the operations of the funds. In addition to investment advisory services, BlackRock and its affiliates provide the Funds, the Feeder Funds and the Master LLC with other services, including (i) preparing disclosure documents, such as the prospectus and the statement of additional information in connection with the initial public offering and periodic shareholder reports; (ii) preparing communications with analysts to support secondary market trading of the funds; (iii) assisting with daily accounting and pricing; (iv) preparing periodic filings with regulators and stock exchanges; (v) overseeing and coordinating the activities of other service providers; (vi) organizing Board meetings and preparing the materials for such Board meetings; (vii) providing legal and compliance support; and (viii) performing other administrative functions necessary for the operation of the funds, such as tax reporting, fulfilling regulatory filing requirements, and call center services. The Boards reviewed the structure and duties of BlackRock s fund administration, accounting, legal and compliance departments and considered BlackRock s policies and procedures for assuring compliance with applicable laws and regulations.

B. The Investment Performance of the Funds and BlackRock: Each Board, including its Independent Board Members, also reviewed and considered the performance history of its respective Fund, Feeder Fund, or the Master LLC, as applicable. In preparation for the April 14, 2009 meeting, each Board was provided with reports, independently prepared by Lipper, which included a comprehensive analysis of its respective Fund s or Feeder Fund s performance. The Boards also reviewed a narrative and statistical analysis of the Lipper data that was prepared by BlackRock, which analyzed various factors that affect Lipper s rankings. In connection with its review, each Board received and reviewed information regarding the investment performance of its respective Fund or Feeder Fund as compared to a representative group of similar funds as determined by Lipper and to all funds in such Fund s or Feeder Fund s applicable Lipper category. Each Board was provided with a description of the methodology used by Lipper to select peer funds. Each Board regularly reviews the performance of its respective Fund, Feeder Fund, or the Master LLC throughout the year.

The Board of each of FRA, BLW and Senior Floating Rate I noted that, in

general, FRA, BLW and Senior Floating Rate I performed better than their respective Peers in that the performance of each of FRA, BLW and Senior Floating Rate I was at or above the median of its respective Lipper performance universe in each of the one-, three- and five-year periods reported.

The Board of BHL noted that, in general, BHL performed better than its Peers in that BHL s performance was at or above the median of its Lipper performance universe in the since inception period reported.

The Board of Senior Floating Rate II noted that although Senior Floating Rate II underperformed its Peers in at least two of the one-, three- and five-year periods reported, such underperformance was not greater than 10% of

82 ANNUAL REPORT AUGUST 31, 2009

## Disclosure of Investment Advisory Agreements and Sub-Advisory Agreements (continued)

the median return of its Peers for any of the periods. The Board concluded that BlackRock was committed to providing the resources necessary to assist the portfolio managers and to continue improving Senior Floating Rate II s performance. Based on its review, the Board generally was satisfied with BlackRock s efforts to manage Senior Floating Rate II.

The Board of DVF noted that DVF performed below the median of its Lipper performance universe in the one-year, three-year and since inception periods reported. The Board and BlackRock reviewed the reasons for DVF s underperformance during these periods compared with its Peers. The Board was informed that, among other things, DVF s credit allocation for most of the period was overweight CCC and B and underweight BB. Since lower quality credits underperformed higher quality during the period, this negatively impacted performance.

For DVF, the Board and BlackRock discussed BlackRock s commitment to providing the resources necessary to assist the portfolio managers and to improve DVF s performance.

C. Consideration of the Advisory Fees and the Cost of the Services and Profits to be Realized by BlackRock and its Affiliates from their Relationship with the Fund: Each Board, including its Independent Board Members, reviewed its respective Fund s or the Master LLC s contractual advisory fee rates compared with the other funds in its Lipper category. Each Board also compared its respective Fund s or the Feeder Funds total expenses, as well as actual management fees, to those of other comparable funds. Each Board considered the services provided and the fees charged by BlackRock to other types of clients with similar investment mandates, including separately managed institutional accounts.

The Boards received and reviewed statements relating to BlackRock s financial condition and profitability with respect to the services it provided the Funds and the Master LLC. The Boards were also provided with a profitability analysis that detailed the revenues earned and the expenses incurred by BlackRock for services provided to the Funds, the Feeder Funds and the Master LLC. The Boards reviewed BlackRock s profitability with respect to the Funds and the Master LLC and other funds the Boards currently oversee for the year ended December 31, 2008 compared to available aggregate profitability data provided for the year ended December 31, 2007. The Boards reviewed BlackRock s profitability with respect to other fund complexes managed by the Manager and/or its affiliates. The Boards reviewed BlackRock s assumptions and methodology of allocating expenses in the profitability analysis, noting the inherent limitations in allocating costs among various advisory products. The Boards recognized that profitability may be affected by numerous factors including, among other things, fee waivers by the Manager, the types of funds managed, expense allocations and business mix, and therefore comparability of profitability is somewhat limited.

The Boards noted that, in general, individual fund or product line profitability of other advisors is not publicly available. Nevertheless, to the extent such information is available, the Boards considered BlackRock s overall operating margin compared to the operating margin for leading investment management firms whose operations include advising closed-end funds, among other product types. The comparison indicated that operating margins for BlackRock with respect to its registered funds are generally consistent with

margins earned by similarly situated publicly traded competitors. In addition, the Boards considered, among other things, certain third party data comparing BlackRock s operating margin with that of other publicly-traded asset management firms, which concluded that larger asset bases do not, in themselves, translate to higher profit margins.

In addition, the Boards considered the cost of the services provided to the Funds, the Feeder Funds and the Master LLC by BlackRock, and BlackRock s and its affiliates profits relating to the management and distribution of the Funds, the Feeder Funds and the Master LLC and the other funds advised by BlackRock and its affiliates. As part of its analysis, the Boards reviewed BlackRock s methodology in allocating its costs to the management of the funds. The Board also considered whether BlackRock has the financial resources necessary to attract and retain high quality investment management personnel to perform its obligations under the Agreements and to continue to provide the high quality of services that is expected by the Boards.

The Board of each of DVF, FRA and BLW noted that its respective Fund paid contractual management fees, which do not take into account any expense reimbursement or fee waivers, lower than or equal to the median contractual management fees paid by such Fund s Peers.

The Board of Senior Floating Rate I noted that, although Senior Floating Rate I paid contractual management fees higher than the median of its Peers, its actual total expenses were lower than or equal to the median of its Peers.

The Board of Senior Floating Rate II noted that, although Senior Floating Rate II paid contractual management fees higher than the median of its Peers, its actual total expenses were within 5% of the actual total expense median.

The Board of BHL noted that BHL pays contractual management fees that are higher than the median of its Peers and considered this higher fee in light of the quality of services provided by the Manager and the investment objectives and policies of BHL. The Board also noted that BHL is included in a Lipper Peer group where most funds commenced operations between 6 and 10 years ago. There are 3 Peer funds that were offered recently and are more appropriate funds for comparison as they contain a more appropriate pricing structure for bank loan products offered in the current market environment. These recently offered funds are similar portfolios that are being offered to take advantage of current market opportunities. BHL is

competitive when compared to these 3 Peer funds.

D. Economies of Scale: Each Board, including its Independent Board Members, considered the extent to which economies of scale might be realized as the assets of its respective Fund or the Master LLC increase and whether there should be changes in the advisory fee rate or structure in order to enable such Fund or the Master LLC to participate in these economies of scale, for example through the use of breakpoints in the advisory fee based upon the assets of such Fund or the Master LLC, as applicable. The Boards considered that the funds in the BlackRock fund complex share some common resources and, as a result, an increase in the overall size of the complex could permit each fund to incur lower expenses than it would otherwise as a stand-alone entity. The Boards

ANNUAL REPORT AUGUST 31, 2009 83

## Disclosure of Investment Advisory Agreements and Sub-Advisory Agreements (concluded)

also considered BlackRock s overall operations and its efforts to expand the scale of, and improve the quality of, its operations.

The Boards noted that most closed-end fund complexes do not have fund level breakpoints because closed-end funds generally do not experience substantial growth after the initial public offering and each fund is managed independently consistent with its own investment objectives. The Boards noted that only one closed-end fund in the Fund Complex has breakpoints in its fee structure. Information provided by Lipper also revealed that only one closed-end fund complex used a complex-level breakpoint structure.

E. Other Factors: The Boards also took into account other ancillary or fall-out benefits that BlackRock or its affiliates and significant shareholders may derive from their relationship with the Funds, the Feeder Funds and the Master LLC, both tangible and intangible, such as BlackRock s ability to leverage its investment professionals who manage other portfolios, an increase in BlackRock s profile in the investment advisory community, and the engagement of BlackRock s affiliates and significant shareholders as service providers to the Funds, the Feeder Funds and the Master LLC, including for administrative, and in the case of the Feeder Funds transfer agency, and distribution services. The Boards also noted that BlackRock may use third-party research obtained by soft dollars generated by certain mutual fund transactions to assist itself in managing all or a number of its other client accounts.

In connection with their consideration of the Agreements, the Boards also received information regarding BlackRock s brokerage and soft dollar practices. The Boards received reports from BlackRock, which included information on brokerage commissions and trade execution practices throughout the year.

#### Conclusion

Each Board, including its Independent Board Members, unanimously approved the continuation of the Advisory Agreement between its respective Fund or the Master LLC and the Manager for a one-year term ending June 30, 2010 and, as applicable, the Sub-Advisory Agreement between such Fund or the Master LLC, the Manager and Sub-Advisor for a one-year term ending June 30, 2010. Based upon its evaluation of all these factors in their totality, each Board, including its Independent Board Members, was satisfied that the terms of the Agreements were fair and reasonable and in the best interest of its respective Fund or the Master LLC and its shareholders. The Board of Directors of each Feeder Fund, including the Independent Board Members, also considered the continuation of the Agreements with respect to the Master LLC and found the Agreements to be satisfactory. In arriving at a decision to approve the Agreements, each

Board did not identify any single factor or group of factors as all-important or controlling, but considered all factors together, and different Board Members may have attributed different weights to the various factors considered. The Independent Board Members were also assisted by the advice of independent legal counsel in making this determination. The contractual fee arrangements for each Fund or the Master LLC reflects the results of several years of review by such Fund s and the Master LLC s Board Members and predecessor Board Members, as applicable, and discussions between such Board Members (and predecessor Board Members) and BlackRock. Certain aspects of the arrangements may be the subject of more attention in some years than in others, and the Board Members conclusions may be based in part on their consideration of these arrangements in prior years.

84 ANNUAL REPORT AUGUST 31, 2009

### Automatic Dividend Reinvestment Plan

How the Plan Works The Funds offer a Dividend Reinvestment Plan (the Plan ) under which income and capital gains dividends paid by a Fund are automatically reinvested in additional Common Shares of the Fund. The Plan is administered on behalf of the shareholders by BNY Mellon Shareowner Services for Senior Floating Rate and Senior Floating Rate II and Computershare Trust Company, N.A. for BHL, DVF, FRA and BLW (individually, the Plan Agent or together, the Plan Agents ). Under the Plan, whenever a Fund declares a dividend, participants in the Plan will receive the equivalent in Common Shares of the Fund. The Plan Agents will acquire the shares for the participant s account either (i) through receipt of additional unissued but authorized shares of the Funds ( newly issued shares ) or (ii) by purchase of outstanding Common Shares on the open market on the New York Stock Exchange, as applicable, or elsewhere. If, on the dividend payment date, the Fund s net asset value per share is equal to or less than the market price per share plus estimated brokerage commissions (a condition often referred to as a market premium ), the Plan Agents will invest the dividend amount in newly issued shares. If the Fund s net asset value per share is greater than the market price per share (a condition often referred to as a market discount ), the Plan Agents will invest the dividend amount by purchasing on the open market additional shares. If the Plan Agents are unable to invest the full dividend amount in open market purchases, or if the market discount shifts to a market premium during the purchase period, the Plan Agents will invest any uninvested portion in newly issued shares. The shares acquired are credited to each shareholder s account. The amount credited is determined by dividing the dollar amount of the dividend by either (i) when the shares are newly issued, the net asset value per share on the date the shares are issued or (ii) when shares are purchased in the open market, the average purchase price per share.

Participation in the Plan Participation in the Plan is automatic, that is, a shareholder is automatically enrolled in the Plan when he or she purchases shares of Common Shares of the Funds unless the shareholder specifically elects not to participate in the Plan. Shareholders who elect not to participate will receive all dividend distributions in cash. Shareholders who do not wish to participate in the Plan must advise their Plan Agent in writing (at the address set forth below) that they elect not to participate in the Plan. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by writing to the Plan Agent.

Benefits of the Plan The Plan provides an easy, convenient way for shareholders to make additional, regular investments in the Funds. The Plan promotes a long-term strategy of investing at a lower cost. All shares acquired pursuant to the Plan receive voting rights. In addition, if the market price plus commissions of a Fund s shares is above the net asset value, participants in the Plan will receive shares of the Funds for less than they could otherwise purchase them and with a cash value

greater than the value of any cash distribution they would have received. However, there may not be enough shares available in the market to make distributions in shares at prices below the net asset value. Also, since the Funds do not redeem shares, the price on resale may be more or less than the net asset value.

Plan Fees There are no enrollment fees or brokerage fees for participating in the Plan. The Plan Agents service fees for handling the reinvestment of distributions are paid for by the Funds. However, brokerage commissions may be incurred when the Funds purchase shares on the open market and shareholders will pay a pro rata share of any such commissions.

Tax Implications The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. Therefore, income and capital gains may still be realized even though shareholders do not receive cash. If, when the Funds shares are trading at a market premium, the Funds issue shares pursuant to the Plan that have a greater fair market value than the amount of cash reinvested, it is possible that all or a portion of the discount from the market value (which may not exceed 5% of the fair market value of the Funds shares) could be viewed as a taxable distribution. If the discount is viewed as a taxable distribution, it is also possible that the taxable character of this discount would be allocable to all the shareholders, including shareholders who do not participate in the Plan. Thus, shareholders who do not participate in the Plan might be required to report as ordinary income a portion of their distributions equal to their allocable share of the discount.

Contact Information All correspondence concerning the Plan, including any questions about the Plan, should be directed to the Plan Agent at the following addresses: Shareholders of Senior Floating Rate and Senior Floating Rate II should contact BNY Mellon Shareowner Services, P.O. Box 385035, Pittsburgh, PA 15252-8035 Telephone: (866) 216-0242 and shareholders of BHL, DVF, FRA and BLW should contact Computershare Trust Company, N.A., P.O. Box 43078, Providence, RI 02940-3078 Telephone: (800) 699-1BFM or overnight correspondence should be directed to the Plan Agent at 250 Royall Street, Canton, MA 02021.

	1				

<sup>&</sup>lt;sup>1</sup> Directors serve until their resignation, removal or death, or until December 31 of the year in which they turn 72.

<sup>&</sup>lt;sup>2</sup> Date shown is the earliest date a person has served as a director for the Funds and Master LLC covered by this annual report. Following the combination

of Merrill Lynch Investment Managers, L.P. ( MLIM ) and BlackRock, Inc. ( BlackRock ) in September 2006, the various legacy MLIM and legacy BlackRock

Fund boards were realigned and consolidated into three new Fund boards in 2007. As a result, although the chart shows directors as joining the Funds /

Master LLC s board in 2007, each director first became a member of the board of directors of other legacy MLIM or legacy BlackRock Funds as follows: G.

Nicholas Beckwith, III, 1999; Richard E. Cavanagh, 1994; Kent Dixon, 1988; Frank J. Fabozzi, 1988; Kathleen F. Feldstein, 2005; James T. Flynn, 1996;

Jerrold B. Harris, 1999; R. Glenn Hubbard, 2004; W. Carl Kester, 1995 and Karen P. Robards, 1998.

**Fund Certification** 

Certain Funds are listed for trading on the New York Stock Exchange ( NYSE ) and have filed with the NYSE their annual chief executive officer certification regarding compliance with the NYSE s listing standards. The

Funds filed with the SEC the certification of its chief executive officer and chief financial officer required by section 302 of the Sarbanes-Oxley Act.

#### **Dividend Policy**

Each Fund s dividend policy is to distribute all or a portion of its net investment income to its shareholders on a monthly basis. In order to provide shareholders with a more stable level of dividend distributions, the Funds may at times pay out less than the entire amount of net investment income earned in any particular month and may at times in any particular month pay out such accumulated but undistributed income in addition to net

investment income earned in that month. As a result, the dividends paid by the Funds for any particular month may be more or less than the amount of net investment income earned by the Funds during such month. The Funds current accumulated but undistributed net investment income, if any, is disclosed in the Statements of Assets and Liabilities, which comprises part of the financial information included in this report.

ANNUAL REPORT AUGUST 31, 2009 89

### Additional Information (continued)

#### **General Information**

The Funds do not make available copies of their Statements of Additional Information because the Funds shares are not continuously offered, which means that the Statement of Additional Information of each Fund has not been updated after completion of the respective Funds offerings and the information contained in each Funds Statement of Additional Information may have become outdated.

During the period, there were no material changes in the Funds investment objectives or policies or to the Funds charters or by-laws that were not approved by their shareholders or in the principal risk factors associated with investment in the Funds. Changes regarding the persons who are primarily responsible for the day-to-day management for the Funds portfolios are noted in the boxed text below.

Quarterly performance, semi-annual and annual reports and other information regarding the Funds may be found on BlackRock s website, which can be accessed at http://www.blackrock.com. This reference to BlackRock s website is intended to allow investors public access to information regarding the Funds and does not, and is not intended to, incorporate BlackRock s website into this report.

#### **Electronic Delivery**

Electronic copies of most financial reports are available on the Funds websites or shareholders can sign up for e-mail notifications of quarterly statements, annual and semi-annual reports by enrolling in the Funds electronic delivery program.

Shareholders Who Hold Accounts with Investment Advisors, Banks or Brokerages:

Please contact your financial advisor to enroll. Please note that not all investment advisors, banks or brokerages may offer this service.

### Householding

The Funds will mail only one copy of shareholder documents, including annual and semi-annual reports and proxy statements, to shareholders with multiple accounts at the same address. This practice is commonly called householding and it is intended to reduce expenses and eliminate duplicate mailings of shareholder documents. Mailings of your shareholder documents may be householded indefinitely unless you instruct us otherwise. If you do not want the mailing of these documents to be combined with those for other members of your household, please contact the Funds at (800) 441-7762.

Availability of Quarterly Schedule of Investments

Each Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Funds Forms N-Q are available on the SEC s website at http://www.sec.gov and may also be reviewed and copied at the SEC s Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling (202) 551-8090. Each Fund s Forms N-Q may also be obtained upon request and without charge by calling (800) 441-7762

Availability of Proxy Voting Policies and Procedures

A description of the policies and procedures that the Funds use to determine how to vote proxies relating to portfolio securities is available (1) without charge, upon request, by calling toll-free (800) 441-7762; (2) at www.blackrock.com; and (3) on the Securities and Exchange Commission s website at http://www.sec.gov.

Availability of Proxy Voting Record

Information about how the Funds voted proxies relating to securities held in the Funds portfolios during the most recent 12-month period ended June 30 is available upon request and without charge (1) at www.blackrock.com or by calling (800) 441-7762 and (2) on the Securities and Exchange Commission s website at http://www.sec.gov.

BHL, DVF, FRA, BLW, Senior Floating Rate and Senior Floating Rate II are managed by a team of financial professionals. The portfolio managers are primarily responsible for the day-to-day management of the Funds portfolios. Effective May 8, 2009, Leland T. Hart, James E. Keenan and C. Adrian Marshall are the portfolio managers for BHL, BLW and DVF. Leland T. Hart and C. Adrian Marshall are the portfolio managers for FRA, Senior Floating Rate and Senior Floating Rate II.

Mr. Hart is Managing Director of BlackRock, Inc. since 2009; Partner of R3 Capital Partners in 2009 and Managing Director thereof from 2008 to 2009; Managing Director of Lehman Brothers from 2006 to 2008 and Executive Director thereof from 2003 to 2006.

Mr. Keenan is Managing Director of BlackRock, Inc. since 2008 and Director thereof from 2004 to 2008; Head of the Leveraged Finance Portfolio team; and senior high yield trader at Columbia Management Group from 2003 to 2004.

Mr. Marshall is Director of BlackRock, Inc. since 2007 and Vice President thereof from 2004 to 2007.

90 ANNUAL REPORT AUGUST 31, 2009

### Additional Information (concluded)

#### Section 19 Notices

The amounts and sources of distributions reported are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources for tax reporting purposes will depend upon each Fund s investment experience during the year and may be subject to changes based on

the tax regulations. Each Fund will send you a Form 1099-DIV each calendar year that will tell you how to report these distributions for federal income tax purposes.

### **BlackRock Privacy Principles**

BlackRock is committed to maintaining the privacy of its current and former fund investors and individual clients (collectively, Clients ) and to safeguarding their non-public personal information. The following information is provided to help you understand what personal information BlackRock collects, how we protect that information and why in certain cases we share such information with select parties.

If you are located in a jurisdiction where specific laws, rules or regulations require BlackRock to provide you with additional or different privacy-related rights beyond what is set forth below, then BlackRock will comply with those specific laws, rules or regulations.

BlackRock obtains or verifies personal non-public information from and about you from different sources, including the following: (i) information we receive from you or, if applicable, your financial intermediary, on applications, forms or other documents; (ii) information about your transactions with us, our affiliates, or others; (iii) information we receive from a consumer

reporting agency; and (iv) from visits to our websites.

BlackRock does not sell or disclose to non-affiliated third parties any non-public personal information about its Clients, except as permitted by law or as is necessary to respond to regulatory requests or to service Client accounts. These non-affiliated third parties are required to protect the confidentiality and security of this information and to use it only for its intended purpose.

We may share information with our affiliates to service your account or to provide you with information about other BlackRock products or services that may be of interest to you. In addition, BlackRock restricts access to non-public personal information about its Clients to those BlackRock employees with a legitimate business need for the information. BlackRock maintains physical, electronic and procedural safeguards that are designed to protect the non-public personal information of its Clients, including procedures relating to the proper storage and disposal of such information.

ANNUAL REPORT AUGUST 31, 2009 91

This report is transmitted to shareholders only. It is not a prospectus. Past performance results shown in this report should not be considered a represen-

tation of future performance. BlackRock Defined Opportunity Credit Trust, BlackRock Diversified Income Strategies Fund, Inc., BlackRock Floating Rate

Income Strategies Fund, Inc., BlackRock Limited Duration Income Trust, BlackRock Senior Floating Rate Fund, Inc. and BlackRock Senior Floating Rate

Fund II, Inc. leverage their Common Shares, which creates risk for Common Shareholders, including the likelihood of greater volatility of net asset value and

market price of Common Shares, and the risk that fluctuations in short-term interest rates may reduce the Common Shares yield. Statements and other

information herein are as dated and are subject to change.

Item 2 Code of Ethics The registrant (or the Fund ) has adopted a code of ethics, as of the end of the period covered by this report, applicable to the registrant s principal executive officer, principal financial officer and principal accounting officer, or persons performing similar functions. During the period covered by this report, there have been no amendments to or waivers granted under the code of ethics. A copy of the code of ethics is available without charge at www.blackrock.com.

Item 3 Audit Committee Financial Expert The registrant s board of directors or trustees, as applicable (the board of directors ) has determined that (i) the registrant has the following audit committee financial experts serving on its audit committee and (ii) each audit committee financial expert is independent:

Kent Dixon

Frank J. Fabozzi

James T. Flynn

W. Carl Kester

Karen P. Robards

Robert S. Salomon, Jr. (retired effective December 31, 2008)

The registrant s board of directors has determined that W. Carl Kester and Karen P. Robards qualify as financial experts pursuant to Item 3(c)(4) of Form N-CSR.

Prof. Kester has a thorough understanding of generally accepted accounting principles, financial statements and internal control over financial reporting as well as audit committee functions. Prof. Kester has been involved in providing valuation and other financial consulting services to corporate clients since 1978. Prof. Kester s financial consulting services present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of issues that can reasonably be expected to be raised by the registrant s financial statements.

Ms. Robards has a thorough understanding of generally accepted accounting principles, financial statements and internal control over financial reporting as well as audit committee functions. Ms. Robards has been President of Robards & Company, a financial advisory firm, since 1987. Ms. Robards was formerly an investment banker for more than 10 years where she was responsible for evaluating and assessing the performance of companies based on their financial results. Ms. Robards has over 30 years of experience analyzing financial statements. She also is a member of the audit committee of one publicly held company and a non-profit organization.

Under applicable securities laws, a person determined to be an audit committee financial expert will not be deemed an expert for any purpose, including without limitation for the purposes of Section 11 of the Securities Act of 1933, as a result of being designated or identified as an audit committee financial expert. The designation or identification as an audit committee financial expert does not impose on such person any duties, obligations, or liabilities greater than the duties, obligations, and liabilities imposed on such person as a member of the audit committee and board of directors in the absence of such designation or identification.

Item 4 Principal Accountant Fees and Services

	(a) Audit Fees		(b) Audit-Related Fees <sup>1</sup>		(c) Tax Fees <sup>2</sup>		(d) All Other Fees <sup>3</sup>

Strategies Fund, Inc.								

- 1 The nature of the services include assurance and related services reasonably related to the performance of the audit of financial statements not included in Audit Fees.
- 2 The nature of the services include tax compliance, tax advice and tax planning.
- 3 The nature of the services include a review of compliance procedures and attestation thereto.

### (e)(1) Audit Committee Pre-Approval Policies and Procedures:

The registrant s audit committee (the Committee ) has adopted policies and procedures with regard to the pre-approval of services. Audit, audit-related and tax compliance services provided to the registrant on an annual basis require specific preapproval by the Committee. The Committee also must approve other non-audit services provided to the registrant and those non-audit services provided to the registrant s affiliated service providers that relate directly to the operations and the financial reporting of the registrant. Certain of these non-audit services that the Committee believes are a) consistent with the SEC s auditor independence rules and b) routine and recurring services that will not impair the independence of the independent accountants may be approved by the Committee without consideration on a specific case-by-case basis ( general pre-approval ). The term of any general pre-approval is 12 months from the date of the pre-approval, unless the Committee provides for a different period. Tax or other non-audit services provided to the registrant which have a direct impact on the operation or financial reporting of the registrant will only be deemed pre-approved provided that any individual project does not exceed \$10,000 attributable to the registrant or \$50,000 for all of the registrants the Committee oversees. For this purpose, multiple projects will be aggregated to determine if they exceed the previously mentioned cost levels.

Any proposed services exceeding the pre-approved cost levels will require specific pre-approval by the Committee, as will any other services not subject to general pre-approval (e.g., unanticipated but permissible services). The Committee is informed of each service approved subject to general pre-approval at the next regularly scheduled in-person board meeting. At this meeting, an analysis of such services is presented to the Committee for ratification. The Committee may delegate to one or more of its members the authority to approve the provision of and fees for any specific engagement of permitted non-audit services, including services exceeding pre-approved cost levels.

(e)(2) None of the services described in each of Items 4(b) through (d) were approved by the audit committee pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

#### (f) Not Applicable

### (g) Affiliates Aggregate Non-Audit Fees:

	Current Fiscal Year	Previous Fiscal Year
<b>Entity Name</b>	End	End
BlackRock Floating Rate	\$414,628	\$420,149
Income Strategies Fund, Inc.		

(h) The registrant s audit committee has considered and determined that the provision of non-audit services that were rendered to the registrant s investment adviser (not including any non-affiliated sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by the registrant s investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant s independence.

Regulation S-X Rule 2-01(c)(7)(ii) \$407,500, 0%

Item 5 Audit Committee of Listed Registrants The following individuals are members of the registrant s separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(58)(A)):

Kent Dixon

Frank J. Fabozzi

James T. Flynn

W. Carl Kester

Karen P. Robards

Robert S. Salomon, Jr. (retired effective December 31, 2008)

#### Item 6 Investments

- (a) The registrant s Schedule of Investments is included as part of the Report to Stockholders filed under Item 1 of this form.
- (b) Not Applicable due to no such divestments during the semi-annual period covered since the previous Form N-CSR filing.

Item 7 Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies The board of directors has delegated the voting of proxies for the Fund securities to the Fund s investment adviser ( Investment Adviser ) pursuant to the Investment Adviser s proxy voting guidelines. Under these guidelines, the Investment Adviser will vote proxies related to Fund securities in the best interests of the Fund and its stockholders. From time to time, a vote may present a conflict between the interests of the Fund s stockholders, on the one hand, and those of the Investment Adviser, or any affiliated person of the Fund or the Investment Adviser, on the other. In such event, provided that the Investment Adviser s Equity Investment Policy Oversight Committee, or a sub-committee thereof (the Oversight Committee ) is aware of the real or potential conflict or material non-routine matter and if the Oversight Committee does not reasonably believe it is able to follow its general voting guidelines (or if the particular proxy matter is not addressed in the guidelines) and vote impartially, the Oversight Committee may retain an independent fiduciary to advise the Oversight Committee on how to vote or to cast votes on behalf of the Investment Adviser s clients. If the Investment Adviser determines not to retain an independent fiduciary, or does not desire to follow the advice of such independent fiduciary, the Oversight Committee shall determine how to vote the proxy after consulting with the Investment Adviser s Portfolio Management Group and/or the Investment Adviser s Legal and Compliance Department and concluding that the vote cast is in its client s best interest notwithstanding the conflict. A copy of the Fund s Proxy Voting Policy and Procedures are attached as Exhibit 99.PROXYPOL. Information on how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available

without charge, (i) at www.blackrock.com and (ii) on the SEC s website at <a href="http://www.sec.gov">http://www.sec.gov</a>.

Item 8 Portfolio Managers of Closed-End Management Investment Companies as of August 31, 2009.

(a)(1) The registrant (or Fund ) is managed by a team of investment professionals comprised of Leland Hart, Managing Director at BlackRock and C. Adrian Marshall, Director at BlackRock. Messrs. Hart and Marshall are the Fund s co-portfolio managers and are responsible for the day-to-day management of the Fund s portfolio and the selection of its investments. Messrs. Hart and Marshall have been members of the Fund s management team since 2009.

	Portfolio

(iv) Potential Material Conflicts of Interest

BlackRock and its affiliates (collectively, herein BlackRock ) has built a professional working environment, firm-wide compliance culture and compliance procedures and systems designed to protect against potential incentives that may favor one account over another. BlackRock has adopted policies and procedures that address the allocation of investment opportunities, execution of portfolio transactions, personal trading by employees and other potential conflicts of interest that are designed to ensure that all client accounts are treated equitably over time. Nevertheless, BlackRock furnishes investment management and advisory services to numerous clients in addition to the Fund, and BlackRock may,

consistent with applicable law, make investment recommendations to other clients or accounts (including accounts which are hedge funds or have performance or higher fees paid to BlackRock, or in which portfolio managers have a personal interest in the receipt of such fees), which may be the same as or different from those made to the Fund. In addition, BlackRock, its affiliates and significant shareholders and any officer, director, stockholder or employee may or may not have an interest in the securities whose purchase and sale BlackRock recommends to the Fund. BlackRock, or any of its affiliates or significant

shareholders, or any officer, director, stockholder, employee or any member of their families may take different actions than those recommended to the Fund by BlackRock with respect to the same securities. Moreover, BlackRock may refrain from rendering any advice or services concerning securities of companies of which any of BlackRock s (or its affiliates or significant shareholders) officers, directors or employees are directors or officers, or companies as to which BlackRock or any of its affiliates or significant shareholders or the officers, directors and employees of any of them has any substantial economic interest or possesses material non-public information. Each portfolio manager also may manage accounts whose investment strategies may at times be opposed to the strategy utilized for a fund. In this connection, it should be noted that Mr. Marshall currently manages certain accounts that are subject to performance fees. In addition, a portfolio manager may assist in managing certain hedge funds and may be entitled to receive a portion of any incentive fees earned on such funds and a portion of such incentive fees may be voluntarily or involuntarily deferred. Additional portfolio managers may in the future manage other such accounts or funds and may be entitled to receive incentive fees.

As a fiduciary, BlackRock owes a duty of loyalty to its clients and must treat each client fairly. When BlackRock purchases or sells securities for more than one account, the trades must be allocated in a manner consistent with its fiduciary duties. BlackRock attempts to allocate investments in a fair and equitable manner among client accounts, with no account receiving preferential treatment. To this end, BlackRock has adopted a policy that is intended to ensure that investment opportunities are allocated fairly and equitably among client accounts over time. This policy also seeks to achieve reasonable efficiency in client transactions and provide BlackRock with sufficient flexibility to allocate investments in a manner that is consistent with the particular investment discipline and client base.

(a)(3) As of August 31, 2009:

### Portfolio Manager Compensation Overview

BlackRock s financial arrangements with its portfolio managers, its competitive compensation and its career path emphasis at all levels reflect the value senior management places on key resources. Compensation may include a variety of components and may vary from year to year based on a number of factors. The principal components of compensation include a base salary, a performance-based discretionary bonus, participation in various benefits programs and one or more of the incentive compensation programs established by BlackRock such as its Long-Term Retention and Incentive Plan and Restricted Stock Program.

**Base compensation.** Generally, portfolio managers receive base compensation based on their seniority and/or their position with the firm. Senior portfolio managers who perform additional management functions within the portfolio management group or within BlackRock may receive additional compensation for serving in these other capacities.

#### **Discretionary Incentive Compensation**

Discretionary incentive compensation is a function of several components: the performance of BlackRock, Inc., the performance of the portfolio manager s group within BlackRock, the investment performance, including risk-adjusted returns, of the firm s assets under management or supervision by that portfolio manager relative to predetermined benchmarks, and the individual s seniority, role within the portfolio management team, teamwork and contribution to the overall performance of these portfolios and BlackRock.

In most cases, including for the portfolio managers of the Fund, these benchmarks are the same as the benchmark or benchmarks against which the performance of the Fund or other accounts managed by the portfolio managers are measured. BlackRock s Chief Investment Officers determine the benchmarks against which the performance of funds and other accounts managed by each portfolio manager is compared and the period of time over which performance is evaluated. With respect to the portfolio managers, such benchmarks for the Fund include a combination of market-based indices (e.g., CSFB Leveraged Loan Index), certain customized indices and certain fund industry peer groups.

BlackRock s Chief Investment Officers make a subjective determination with respect to the portfolio managers compensation based on the performance of the funds and other accounts managed by each portfolio manager relative to the various benchmarks noted above. Performance is measured on both a pre-tax and after-tax basis over various time periods including 1, 3, 5 and 10-year periods, as applicable.

#### **Distribution of Discretionary Incentive Compensation**

Discretionary incentive compensation is distributed to portfolio managers in a combination of cash and BlackRock, Inc. restricted stock units which vest ratably over a number of years. The BlackRock, Inc. restricted stock units, if properly vested, will be settled in BlackRock, Inc. common stock. Typically, the cash bonus, when combined with base salary, represents more than 60% of total compensation for the portfolio managers. Paying a portion of annual bonuses in stock puts compensation earned by a portfolio manager for a given year at risk based on BlackRock s ability to sustain and improve its performance over future periods.

Long-Term Retention and Incentive Plan ( LTIP ) The LTIP is a long-term incentive plan that seeks to reward certain key employees. Prior to 2006, the plan provided for the grant of awards that were expressed as an amount of cash that, if properly vested and subject to the attainment of certain performance goals, will be settled in cash and/or in BlackRock, Inc. common stock. Beginning in 2006, awards are granted under the LTIP in the form of BlackRock, Inc. restricted stock units that, if properly vested and subject to the attainment of certain performance goals, will be settled in BlackRock, Inc. common stock. Mr. Marshall has received awards under the LTIP.

Deferred Compensation Program A portion of the compensation paid to eligible BlackRock employees may be voluntarily deferred into an account that tracks the performance of certain of the firm s investment products. Each participant in the deferred compensation program is permitted to allocate his deferred amounts among the various investment options. Mr. Marshall has participated in the deferred compensation program.

**Other compensation benefits.** In addition to base compensation and discretionary incentive compensation, portfolio managers may be eligible to receive or participate in one or more of the following:

Incentive Savings Plans BlackRock, Inc. has created a variety of incentive savings plans in which BlackRock employees are eligible to participate, including a 401(k) plan, the BlackRock Retirement Savings Plan (RSP), and the BlackRock Employee Stock Purchase Plan (ESPP). The employer contribution components of the RSP include a company match equal to 50% of the first 6% of eligible pay contributed to the plan capped at \$4,000 per year, and a company retirement contribution equal to 3-5% of eligible compensation. The RSP offers a range of investment options, including registered

investment companies managed by the firm. BlackRock contributions follow the investment direction set by participants for their own contributions or, absent employee investment direction, are invested into a balanced portfolio. The ESPP allows for investment in BlackRock common stock at a 5% discount on the fair market value of the stock on the purchase date. Annual participation in the ESPP is limited to the purchase of 1,000 shares or a dollar value of \$25,000. Each portfolio manager is eligible to participate in these plans.

(a)(4) Beneficial Ownership of Securities.

Portfolio Manager Dollar Range of Equity Securities

**Beneficially Owned** 

Leland Hart None

C. Adrian Marshall \$1 - \$10,000

Item 9 Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers Not Applicable due to no such purchases during the period covered by this report.

Item 10 Submission of Matters to a Vote of Security Holders The registrant's Nominating and Governance Committee will consider nominees to the board of directors recommended by shareholders when a vacancy becomes available. Shareholders who wish to recommend a nominee should send nominations that include biographical information and set forth the qualifications of the proposed nominee to the registrant's Secretary. There have been no material changes to these procedures.

#### Item 11 Controls and Procedures

11(a) The registrant's principal executive and principal financial officers or persons performing similar functions have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act)) are effective as of a date within 90 days of the filing of this report based on the evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act and Rule 13(a)-15(b) under the Securities Exchange Act of 1934, as amended.

11(b) There were no changes in the registrant s internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the second fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the registrant s internal control over financial reporting.
