PROPOSAL NO. 2
RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

Appointment of Auditors

KPMG LLP audited D&PL's annual financial statements for the fiscal year ended August 31, 2003. Representatives of KPMG will be present at the meeting to respond to appropriate questions and to make a statement if they so desire.

As a result of recent legislation, the Audit Committee is solely responsible for

Edgar Filing: DELTA & PINE LAND CO - Form DEF 14A

appointing the public accounting firm to be the Company's independent outside auditors for the fiscal year ending August 31, 2004. Although the Company is not legally required to seek shareholder approval of its outside auditor, the Board of Directors believes that it is in the best interest of the Company and a matter of good corporate governance to do so.

At the time of publication of this Proxy Statement, the Audit Committee has commenced a process for the selection of the Company's outside auditors for 2004, but has not yet made a selection. Therefore, at this time shareholders are being asked to ratify the appointment of KPMG LLP as such auditors. However, such ratification is subject to the right of the Audit Committee to actually appoint a different auditing firm of comparable stature in the accounting profession, either before or after the annual meeting (and notwithstanding the affirmative vote of a majority of shares in favor of this proposal), as the Audit Committee may determine to do in the exercise of its business judgment.

KPMG billed Delta and Pine Land Company the following fees for services provided during fiscal year 2003:

- o Audit Fees: The aggregate fees for professional services rendered for the audit of D&PL's fiscal year 2003 annual financial statements and review of D&PL's Form 10-Q reports were \$180,000.
- o Audit-Related Fees: The aggregate fees for professional services rendered during fiscal 2003 related to statutory foreign and stand-alone subsidiary audits and audits of employee benefit plans were \$31,000.
- o Financial Information Systems Design and Implementation Fees: \$0
- o All Other Fees: The aggregate fees for all other non-audit services were \$2,000.

D&PL's Audit Committee has considered whether KPMG's provision of any non-audit services to D&PL would be compatible with maintaining KPMG's independence.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE FOR THIS RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS.

THE BOARD OF DIRECTORS AND ITS COMMITTEES

Board Meetings and Attendance of Directors

The Board of Directors had 7 meetings in fiscal 2003. All Directors attended at least 75% of the aggregate of (i) the total number of meetings of the Board of Directors held while they were members, and (ii) the total number of meetings held by all Committees of the Board on which they served as members. The Company did not have a Nominating Committee in 2003.

Director's Compensation

Each Director receives an annual fee of \$40,000 and an attendance fee of \$1,000 for each meeting of the Board of Directors attended. Directors are reimbursed for actual expenses incurred in connection with attending Board or Committee meetings. In addition, each member of the Audit Committee receives \$10,000 per year. Under the 1995 Long-Term Incentive Plan, as amended, each new director of

Edgar Filing: DELTA & PINE LAND CO - Form DEF 14A

the Company will be granted options for 62,222 shares. In addition, each director will be granted options for an additional 2,666 shares in each of the second through sixth year each director serves as such.

Committees of the Board

The Board of Directors has an Executive Committee, an Audit Committee and a Compensation Committee. Officers are elected by and serve at the discretion of the Board of Directors.

Executive Committee

The members of the Executive Committee are Messrs. Jacoby, Murphy and Roth. This Committee did not meet during 2003. During the intervals between meetings of the Board of Directors, the Executive Committee has and may exercise all of the powers and authority of the Board of Directors, except as limited by law and except for the power to change the membership or to fill vacancies in the Board or said Committee. Action taken by the Executive Committee is reported to the Board of Directors at its first meeting following such action.

Audit Committee

The members of the Audit Committee are Messrs. Roth, Murphy and Scheidt. Each of the committee members is independent as defined by the New York Stock Exchange Listing Standards. The Audit Committee met four times during fiscal 2003. The Committee:

reviewed with the independent auditors the scope of the audit, the auditors' fees and related matters;

received the annual comments from the independent auditors on accounting procedures and systems of control;

reviewed with the independent auditors any questions, comments or suggestions they may have had relating to D&PL's internal controls, accounting practices or procedures or those of D&PL's subsidiaries;

reviewed with management and the independent auditors D&PL's quarterly financial statements as required and have reviewed year end financial statements along with any material changes in accounting principles or practices used in preparing the statements prior to the filing of a report on Form 10-K or 10-Q with the SEC and have recommended the inclusion of the audited financial statements in the report on Form 10-K. This review included the items required by SAS 61 as in effect at that time in the case of the quarterly statements.

received from the independent auditors the report required by Independence Standards Board Standard No. 1 as in effect at that time and discussed it with the independent auditors;

reviewed, as needed, the adequacy of the systems of internal controls and accounting practices of D&PL and its subsidiaries regarding accounting trends and developments;

reviewed compliance with laws, regulations, and internal procedures, and contingent liabilities and risks that may be material to D&PL.

The D&PL Board of Directors has adopted a written charter for the Audit Committee. The Audit Committee hereby reports that the Audit Committee and the Company have complied with the Audit Committee Charter with respect to the fiscal year ended August 31, 2003.

Edgar Filing: DELTA & PINE LAND CO - Form DEF 14A

The Board of Directors has determined that in its judgment, Joseph M. Murphy qualifies as an audit committee financial expert in accordance with the applicable rules and regulations of the SEC. Mr. Murphy is "independent" as defined by the New York Stock Exchange listing standards currently in effect and those approved by the SEC on November 4, 2003.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee has met and held discussions with management and the Company's independent auditors and has reviewed and discussed the Company's audited consolidated financial statements with management and the Company's independent auditors.

The Audit Committee has also discussed with the Company's independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61 (Codification of Statements on Auditing Standards), which includes, among other items, matters related to the conduct of the audit of the Company's financial statements.

The Company's independent auditors have also provided the Audit Committee with the written disclosures and the letter required by Independence Standards Board Standard No. 1 (which relates to the auditors' independence from the Company) and the Audit Committee has discussed with the Company's independent auditors that firm's independence.

Compensation Committee (Compensation Committee Interlocks and Insider Participation)

The members of the Compensation Committee are Messrs. Jacoby and Murphy. The Company is not aware of any conflicts of interest which might be required to be disclosed. The Compensation Committee met two times during fiscal 2003. The Compensation Committee reviews and approves annual compensation, including bonuses, for senior management of the Company and administers the Company's 1993 Stock Option Plan, as amended, and the 1995 Long-Term Incentive Plan, as amended, including the grant of options under each plan.

REPORT OF THE COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

The Compensation Committee is composed entirely of independent, outside directors. The Compensation Committee is responsible for reviewing and approving the compensation of the Chief Executive Officer and the other executive officers

Edgar Filing: DELTA & PINE LAND CO - Form DEF 14A

of the Company and reviewing and approving stock-based awards when recommended, including stock options, for each executive officer.

The Company's policy is to pay cash compensation (salary and bonus) in sufficient amounts so that the Company's officers receive compensation that is competitive with that paid by other companies of similar size within the seed industry, after considering cost-of-living factors such as location, as well as providing long-term incentives based on the performance of the Company. The long-term incentives are designed to attract and retain key executives by providing rewards for outstanding performance relative to peer companies. The Company has followed this policy since 1989.

Salary and Bonus

Salary ranges of executive officers are based on a written job responsibility measurement system created by an independent, outside salary consultant. This system is adjusted annually. This system applies to all employees of the Company, and not just to the executive officers. Each position within the Company has an established salary range based on skill level and experience required to perform the duties, along with the position's level of importance to overall Company operations. Individual salary ranges are established at levels that provide internal equity, as well as competitiveness with similar positions in other companies with similar businesses. Merit salary increases are determined annually based on job performance and current salary level within the salary range set for that position. Each executive officer's performance review includes achievement against an established set of management responsibilities, as well as specific individual objectives. Objectives relate to the business function of that respective officer and may include financial performance objectives (i.e., achievement of budget goals), as well as other objectives relating to the individual's particular role in the Company (i.e., market share goals, unit cost improvement, plant safety record, new product introductions, etc.). The objectives of each executive officer are set by the Chief Executive Officer. Each executive officer's performance is rated by the Chief Executive Officer. Non-merit increases are a function of inflation and, as a result, in recent years have been modest.

The method of salary measurement described above also applies to the Chief Executive Officer. Objectives for the Chief Executive Officer are set by the Board of Directors. The salary of the Chief Executive Officer is discussed by the Chief Executive Officer with the Compensation Committee. Based on such discussions and the salary ranges and objectives discussed above, the Compensation Committee determines the Chief Executive Officer's compensation.

A bonus pool is created annually based on a specified percentage of pre-tax, pre-bonus, and pre-pension earnings. Under the Company's incentive bonus program, the total of bonuses paid in any year is limited to the lower of two limitations: (1) the bonus pool reduced by pension costs and (2) the sum of all performance-based maximum individual awards. The Chief Executive Officer can reduce, but may not increase, the overall bonus pool from the amount calculated using the pre-established formula. The Compensation Committee, upon the recommendation of the Chief Executive Officer, may also adjust the size of the bonus pool. All positions eligible for bonus are placed in one of five categories that govern the maximum bonus available as a percentage of the mid-point of the position's salary range. These five categories include: (1) Chief Executive Officer and Senior Vice President, (2) other executive officers, (3) senior managers, (4) middle managers and (5) all other bonus-eligible positions. This maximum is based on the potential impact on the Company's profit of the job's responsibilities.

Each executive officer's bonus is based on his performance and achievement against individual goals as described for merit salary increase review. Performance is expressed as a percentage which, when multiplied by the maximum

Edgar Filing: DELTA & PINE LAND CO - Form DEF 14A

bonus available for that job, results in an adjusted performance-based maximum individual award for that year. All bonus awards to eligible employees are calculated in this manner, and actual awards are effectively the pro rata share of the available bonus pool or the performance-based maximum, whichever is less. Thus, the bonus of each executive officer is dependent on the achievement of the Company's earnings and the level of performance of each officer against established performance criteria and personal objectives.

The bonus for the Chief Executive Officer is similarly set based on the individual's job performance. The Chief Executive Officer recommends his bonus to the Compensation Committee. The Compensation Committee reviews and approves the bonus amounts for the Chief Executive Officer, the other executive officers and senior management.

Stock Awards

Awards of stock options for each executive officer and other key employees must be approved by the Compensation Committee and are granted at the sole discretion of the Committee. Based on an assessment of competitive factors, the Compensation Committee determines a suitable award that provides an incentive for both performance and employee retention purposes.

Chief Executive Officer's Compensation

During the Company's fiscal year ended August 31, 2003, W. Thomas Jagodinski was employed by D&PL as President, Chief Executive Officer and Director. Mr. Jagodinski's salary was based on his contribution to the Company. He was entitled to merit salary increases. These merit increases were determined in accordance with the procedures and guidelines described above. For fiscal 2003, Mr. Jagodinski's base salary was \$320,000 with a bonus of \$185,000. The Compensation Committee approved Mr. Jagodinski's bonus based on his achievement with respect to the earnings goal and related financial targets for the Company. Other factors in the Compensation Committee's decision were Mr. Jagodinski's leadership in developing corporate growth strategies, developing international business opportunities, his contribution made in developing the market for biotechnology-enhanced seed and the launch of new products.

Plan") that covers substantially all full-time employees, including the Named Officers. All employees of the Company and its domestic subsidiaries, who have both attained age 21 and completed one year of eligibility service, are eligible to participate in the Pension Plan. The Pension Plan provides a normal retirement benefit (if employment terminates on or after age 65) equal to the sum of: (i) 22.75% of average compensation (the average of the participant's five highest consecutive calendar years of earnings, including overtime but excluding bonuses) reduced by 1/25th for each year of credited service less than 25 at normal retirement; and (ii) 22.75% of average compensation exceeding the greater of one-half of average social security covered compensation and \$10,000, reduced by 1/35th for each year of credited service less than 35 at normal retirement.

The following table shows the estimated benefits payable in the form of a single-life annuity upon retirement in specified average compensation and years of credited service classifications:

The above estimated annual benefits were calculated by the actuary for the Pension Plan. Benefit amounts shown are the annual pension benefits payable in the form of a single-life annuity for an individual attaining the age of 65 in 2003. In addition, such amounts reflect the 2003 maximum compensation limitation under the Internal Revenue Code of 1986, as amended, and are not subject to any deduction for social security or other amounts.

Defined Contribution Plan

Effective April 1, 1994, the Company established a defined contribution plan under the rules of Internal Revenue Code Section 401(k) (the "401(k) Plan"). The 401(k) Plan covers substantially all full-time employees. Eligible employees of the Company and its domestic subsidiaries, who have both attained age 21 and completed one year of service, may participate in the 401(k) Plan. Effective January 1, 2002, a participant may elect to contribute up to 80% of his or her eligible earnings to the 401(k) Plan, subject to certain limitations under the Internal Revenue Code. The 401(k) Plan allows the Company to match a maximum of six percent of eligible employee contributions. As of August 31, 2003, the Company has elected not to match such contributions.

Incentive Plans

The Company maintains two incentive plans that compensate key employees and directors through the grant of options to buy shares of Common Stock. In 1993, the Company adopted the 1993 Plan, but no more options were granted under the plan effective with the adoption of the 1995 Plan. In 1995, the Company's Board of Directors adopted the 1995 Plan which the shareholders ratified at the 1996 Annual Meeting. In 2000, the 1995 Plan was amended and restated eliminating the ability of the Board of Directors to award stock appreciation rights, restricted Shares of Common Stock and performance unit credits. Pursuant to the amended and restated 1995 Plan, the Board of Directors may award stock options to officers, key employees and directors. Under the amended and restated 1995 Plan, 5,120,000 Shares are authorized for grant, which is an increase from the original 2,560,000 Shares. As of August 31, 2003, options for 5,229,695 Shares have been granted under the 1995 Plan, of which 1,231,381 have been forfeited, leaving available for grant 1,121,686 shares.

Under both plans, all stock options granted vest at a rate of 20% per annum commencing on the first day of the second and each succeeding year following each grant and expire ten years from the date of grant. Shares subject to options and awards under the 1995 Plan which expire unexercised are available for new option grants and awards. The number of shares available for grant under the 1993 Plan and upon forfeitures of options outstanding thereunder has been reduced to zero, and no further option grants are being made under this plan.
