RELEASE

In connection with the agreement signed in December 2000, EDF and Veolia Environnement are currently engaged in discussions on future changes in their industrial and commercial partnership and the shareholders' agreement related to their respective shareholdings in Dalkia.

In accordance with this partnership agreement, EDF has a call option allowing it to increase its shareholding in Dalkia up to 50%, subject to a certain number of conditions being met. The terms and conditions of this option were clarified on 19 April 2005 in an amendment agreement.

In this context, EDF has exercised on 28 July 2005, as a precautionary measure, the call option that was granted to it until 31 July 2005.

However, this option will be deemed to have been definitively exercised, if and when the parties enter into a formal agreement relating to, inter alia, the reorganisation of their relations arising from their industrial and commercial agreement and of their rights and obligations under the shareholders' agreement, including the rules of corporate governance.

If no agreement were to be reached on 30 September 2005 at the latest, the option would automatically expire and would be of no further force and effect; the original partnership would not be affected in any other respect.
