PRESS RELEASE

Veolia Environnement announces the success of the issuance of subordinated perpetual hybrid debt in Euros and Pound Sterling

Paris, January 10, 2013._ After meeting approximately 150 investors, primarily in continental Europe and the United Kingdom, Veolia Environnement launched the issuance of deeply subordinated perpetual hybrid debt in euros and pound sterling, callable beginning April 2018. Given the strong final demand, which exceeded €9 billion for the two tranches and an order book of more than 600 orders, Veolia Environnement issued €1 billion at a 4.5% yield for the tranche in euros and £400 million at a 4.875% yield for the tranche in sterling, fixing historically low interest rates. This demand reflects investor confidence in the financial strength of Veolia Environnement.

This operation allows the Company to reinforce its financial structure in conjunction with its transformation while strengthening credit ratios. Ratings agencies consider that half of the issued amount will result in debt reduction¹. In addition this issuance diversifies the currencies of the Company's equity and diversifies the Company's investor base. This issuance will be treated as equity under the consolidated IFRS accounts. As a result, the debt reduction objectives communicated during the last Investor Day on December 6, 2011 will therefore be adjusted to take into account the impact of this issuance.

Veolia Environnement (Paris Euronext: VIE and NYSE: VE) is the worldwide reference in environmental solutions. With more than 330,000 employees the company has operations all around the world and provides tailored solutions to meet the needs of municipal and industrial customers in four complementary segments: water management, waste management, energy management and passenger transportation. Veolia Environnement recorded revenue of €29.6 billion* in 2011. www.veolia.com

* Excluding VeoliaTransdev revenues currently under divestment
