TANDY LEATHER FACTORY, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION AND CERTAIN SIGNIFICANT ACCOUNTING POLICIES

In the opinion of management, the accompanying consolidated financial statements for Tandy Leather Factory, Inc. and its consolidated subsidiaries contain all adjustments (consisting of normal recurring adjustments) necessary to present fairly its financial position as of September 30, 2015 and December 31, 2014, and its results of operations and cash flows for the three and nine-month periods ended September 30, 2015 and 2014. Operating results for the three and nine-month periods ended September 30, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and accompanying notes included in our Annual Report on Form 10-K for the year ended December 31, 2014.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Inventory. Inventory is stated at the lower of cost or market and is accounted for on the “first in, first out” method. Based on negotiations with vendors, title generally passes to us when merchandise is put on board. Merchandise to which we have title but which have not yet received is recorded as inventory in transit. In addition, the value of inventory is periodically reduced for slow-moving or obsolete inventory based on management’s review of items on hand compared to their estimated future demand.

The components of inventory consist of the following:

	As of	
	September 30, 2015	December 31, 2014
Inventory on hand:		
Finished goods held for sale	\$32,295,201	\$31,257,820
Raw materials and work in process	1,230,577	1,118,506
Inventory in transit	1,532,234	499,166
	\$35,058,012	\$32,875,492

Goodwill and Other Intangibles. Goodwill represents the excess of the purchase price over the fair value of net assets acquired in a business combination. Goodwill is required to be evaluated for impairment on an annual basis, absent indicators of impairment during the interim. Application of the goodwill impairment test requires exercise of judgment, including the estimation of future cash flows, determination of appropriate discount rates and other important assumptions. Changes in these estimates and assumptions could materially affect the determination of fair value and/or goodwill impairment for each reporting unit.

A two-step process is used to test for goodwill impairment. The first phase screens for impairment, while the second phase (if necessary) measures the impairment. We have elected to perform the annual analysis during the fourth calendar quarter of each year. As of December 31, 2014, management determined that the present value of the discounted estimated future cash flows of the stores associated with the goodwill is sufficient to support their

respective goodwill balances. No indicators of impairment were identified during the first nine months of 2015.

A summary of changes in our goodwill for the periods ended September 30, 2015 and 2014 is as follows:

	Leather Factory	Tandy Leather	Total

Revenue Recognition. Our sales generally occur via two methods: (1) at the counter in our stores, and (2) shipment by common carrier. Sales at the counter are recorded and title passes as transactions occur. Otherwise, sales are recorded and title passes when the merchandise is shipped to the customer. Our shipping terms are FOB shipping point.

We offer an unconditional satisfaction guarantee to our customers and accept all product returns. Net sales represent gross sales less negotiated price allowances, product returns, and allowances for defective merchandise.

Comprehensive Income (loss) and Accumulated Other Comprehensive Income (loss). Comprehensive income (loss) is defined as the change in equity during a period from transactions and other events and circumstances from non-stockholder sources and includes all changes in equity during a period except those resulting from investments by and dividends to stockholders. Our comprehensive income (loss) consists of our net income and foreign currency translation adjustments from our international operations.

Recent Accounting Pronouncements. In April 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. Under the new guidance, a disposal of a component of an entity or a group of components of an entity is required to be reported in discontinued operations only if the disposal represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results. This guidance also changes an entity's requirements when presenting, for each comparative period, the assets and liabilities of a disposal group that includes a discontinued operation. A discontinued operation may include a component of an entity, or a business or nonprofit activity. The guidance was effective for interim and annual reporting periods beginning after December 15, 2014. The adoption of the new requirements did not have a material impact on our consolidated earnings, financial position or cash flows.

In May 2014, the FASB issued ASU No. 2014-09, which amends ASC Topic 606, Revenue from Contracts with Customers. The amendments in this ASU are intended to provide a more robust framework for addressing revenue issues, improve comparability of revenue recognition practices and improve disclosure requirements. The amendments in this accounting standard update are effective for interim and annual reporting periods beginning after December 15, 2016. In April 2015, the FASB issued ASU No. 2015-24, Revenue from Contracts with Customers: Deferral of the Effective Date which proposed a deferral of the effective date by one year, and on July 7, 2015, the FASB decided to delay the effective date by one year. The deferral results in the new revenue standard being effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017. We are therefore required to apply the new revenue guidance beginning in our 2018 interim and annual financial statements. This ASU can be adopted either retrospectively or as a cumulative-effect adjustment as of the date of adoption. Entities reporting under U.S. GAAP are not permitted to adopt this standard earlier than the original effective date for public entities (that is, no earlier than 2017 for calendar year-end entities.) We are evaluating what impact, if any, the adoption of this guidance will have on our financial condition, results of operations, cash flows or financial disclosures.

In June 2014, the FASB issued ASU No. 2014-12, which amends ASC Topic 718, Compensation—Stock Compensation. The guidance requires that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition and should not be reflected in the estimate of the grant-date fair value of the award. The guidance is effective for annual periods, and interim periods within those annual periods beginning after December 15, 2015. The guidance can be applied prospectively for all awards granted or modified after the effective date or retrospectively to all awards with performance targets outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter. We do not expect that our adoption will have a material impact on our financial statements or disclosures in our financial statements.

In August 2014, the FASB issued ASU No. 2014-15, Presentation of Financial Statements – Going Concern. This ASU codifies management’s responsibility to evaluate whether there is substantial doubt about an entity’s ability to continue as a going concern and to provide related footnote disclosures. The guidance is effective for annual periods ending after December 15, 2016, and for annual and interim periods thereafter, and early adoption is permitted. We do not expect that our adoption will have a material impact on our financial statements or disclosures in our financial statements.

In January 2015, the FASB issued ASU 2015-01, Income Statement – Extraordinary and Unusual Items. This ASU simplifies income statement classification by removing the concept of extraordinary items from U.S. GAAP. As a result, items that are both unusual and infrequent will no longer be separately reported net of tax after continuing operations. The guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015 and early adoption is permitted. We do not expect that our adoption will have a material impact on our financial statements or disclosures in our financial statements.

2. NOTES PAYABLE AND LONG-TERM DEBT

On September 18, 2015, we executed a Promissory Note and Business Loan Agreement with BOKF, NA dba Bank of Texas (“BOKF”), pursuant to which BOKF agreed to provide us with a line of credit facility of up to \$6,000,000. It has a two-year term and is secured by our inventory. The Business Loan Agreement contains covenants that we will maintain a funded debt to EBITDA ratio of no greater than 1.5 to 1, and that we will maintain a Fixed Charge Coverage Ratio greater than or equal to 1.2 to 1. Both ratios are calculated quarterly and are based on a trailing four quarter basis.

Also on September 18, 2015, we executed a Promissory Note with BOKF, pursuant to which BOKF agreed to provide us with a line of credit facility of up to \$10,000,000 for the purpose of purchasing our common stock. Under the terms of the Promissory Note, we can borrow sums up to the lesser of \$10,000,000 or the purchase price of a maximum of 1.2 million shares of our common stock from the period September 18, 2015 and ending on the earlier of September 18, 2016 or the date on which the entire amount is drawn. During this time, we will make interest only payments monthly, at which time the principal balance will be rolled into a 4-year term note. This Promissory Note is secured by a Deed of Trust on the real estate located at 1900 SE Loop 820, Fort Worth, Texas. We drew approximately \$3.7 million on this line of credit in September 2015 which was used to purchase approximately 529,000 shares of our common stock.

Amounts drawn under either Promissory Note accrue interest at the London interbank Eurodollar market rate for U.S. dollars (commonly known as “LIBOR”) plus 1.85% (2.04% at September 30, 2015).

On July 31, 2007, we entered into a Credit Agreement and Line of Credit Note with JPMorgan Chase Bank, N.A., pursuant to which the bank agreed to provide us with a credit facility of up to \$5,500,000 to facilitate our purchase of real estate consisting of a 191,000 square foot building situated on 30 acres of land located at 1900 SE Loop 820 in Fort Worth, Texas. Proceeds in the amount of \$4,050,000 were used to fund the purchase of the property that is our corporate headquarters. On April 30, 2008, the principal balance was rolled into a 10-year term note with an interest rate of 7.10% per annum. We paid this note in full in September 2015. As a result of the early payoff, we incurred a prepayment penalty in the amount of \$200,000 which is included in interest expense.

On July 12, 2012, we executed a Line of Credit Note with JPMorgan Chase Bank, N.A., pursuant to which the bank agreed to provide us with a revolving credit facility of up to \$4 million, which was subsequently increased to \$6 million. The note expired on September 30, 2015.

At September 30, 2015 and December 31, 2014, the amount outstanding under the above agreements consisted of the following:

We have one stock option plan which permits annual stock option grants to non-employee directors with an exercise price equal to the fair market value of the shares at the date of grant. Options outstanding and exercisable were granted at a stock option price which was not less than the fair market value of our common stock on the date the option was granted and no option has a term in excess of ten years. Under this plan, no options were awarded to directors during the nine months ended September 30, 2015 and 2014 and therefore, no share based compensation expense was recorded for those periods.

We have a restricted stock plan that was adopted by our Board of Directors in January 2013 and approved by our stockholders in June 2013. The plan reserves up to 300,000 shares of our common stock for restricted stock awards to our executive officers, non-employee directors and other key employees. In addition, four of our independent directors were awarded restricted stock grants consisting of 1,619 shares each. The grants will vest in equal annual amounts over a four-year period. The fair value of non-vested restricted common stock awards is the market value of our common stock on the date of grant. Compensation costs for these awards will be recognized on a straight-line basis over the four year vesting period.

5. CASH DIVIDEND

On June 9, 2014, our Board of Directors authorized a \$0.25 per share special one-time cash dividend to be paid to stockholders of record at the close of business on July 7, 2014. The cash dividend, totaling \$2.5 million, was paid to stockholders on August 8, 2014. Our Board will determine future cash dividends after giving consideration to our then existing levels of profit and cash flow, capital requirements, current and forecasted liquidity, as well as financial and other business conditions existing at the time.

6. COMMITMENTS AND CONTINGENCIES

Legal Proceedings. On March 16, 2011, two former employees of ours filed a lawsuit, entitled Mark Barnes and Jerry Mercante on behalf of themselves and all other similarly situated v. Tandy Leather Company, Inc., Tandy Leather Factory, and Does 1-50, in the US District Court for the District of Nevada. The lawsuit was subsequently transferred to the United States District Court, Northern District of Texas, Fort Worth Division (“Court”), and an amended complaint was filed on May 9, 2011 by plaintiffs to add another former employee, Donna Cavota, as a third named plaintiff. The suit alleged that we violated requirements of the Fair Labor Standards Act (FLSA) as well as various state wage laws. Plaintiffs sought to represent themselves and all similarly situated U.S. current and former store managers of ours. A Settlement Agreement was reached between the parties, and on September 24, 2012, the Court issued an Order Preliminarily Approving the Settlement of all federal and state claims asserted by the plaintiffs in the litigation. We continue to deny any violation of any statute, law, rule or regulation, any liability or wrongdoing, and the truth of plaintiffs’ allegations. We agreed to enter into the Settlement Agreement to avoid further expense and

inconvenience, end the disruption and burden of the litigation, avoid any other present or future litigation arising out of the facts that gave rise to the litigation, avoid the risk inherent in uncertain complex litigation, and to put to rest the controversy underlying the litigation.

The Settlement Agreement preliminarily approved by the Court required us to establish a fund designated as a Qualified Settlement Fund (Escrow Account) in the amount of \$993,386 to fund (1) settlement payments to the plaintiffs, (2) settlement payments to the other members of the settlement class who joined the case, (3) plaintiffs' attorneys' fees and expenses, and (4) the claim administrator (Escrow Agent's) fees and expenses. The foregoing description is not complete and is qualified in its entirety by reference to the full text of the Settlement Agreement which was attached as Exhibit 10.1 to a Current Report on Form 8-K, as filed with the Securities and Exchange Commission on October 1, 2012.

The deadline established by the Court for any persons employed by us as store managers between November 23, 2008 and September 24, 2012 to join the lawsuit as class members expired on May 24, 2013. On June 28, 2013, the Court issued two orders: (1) an Order Approving Class and Collective Action Settlement and Dismissing Case with Prejudice, and (2) a Final Judgment, Approving Class and Collective Action Settlement and Dismissing Case with Prejudice. Pursuant to the Court's June 28, 2013 orders, the claims administrator (Escrow Agent) was required to make payments to the plaintiffs and those existing and former store managers who joined the lawsuit by signing and returning Consent to Join Forms, which contained a release of us from the claims asserted in plaintiffs' lawsuit.

The settlement payments to the class members and the plaintiffs were made from the Escrow Account pursuant to the formula set forth in the Settlement Agreement by the claims administrator, as well as the payment of the plaintiffs' attorney's fees and the fees and expenses of the claims administrator (Escrow Agent). The total payment from the Escrow Account, including our required FICA payments based on the settlement payments, was \$744,273 from the total Escrow Account of \$993,386. All payments were made by the claims administrator and the balance of the Escrow Account (approximately \$249,000) was returned to us in the first quarter of 2014.

We are periodically involved in various other litigation matters that arise in the ordinary course of our business and operations. There are no such matters pending that we expect will have a material impact on our financial position and operating results. Legal costs associated with the resolution of claims, lawsuits and other contingencies are expensed as incurred.

7. SEGMENT INFORMATION

We identify our segments based on the activities of three distinct operations:

- a. Wholesale Leathercraft, which consists of a chain of wholesale stores operating under the name, The Leather Factory, located in North America;
- b. Retail Leathercraft, which consists of a chain of retail stores operating under the name, Tandy Leather Company, located in North America; and
- c. International Leathercraft, which sells to both wholesale and retail customers. We have three stores operating in this segment: one in Northampton, United Kingdom, one in Sydney, Australia, and one in Jerez, Spain. These stores carry the same products as our North American stores.

Our reportable operating segments have been determined as separately identifiable business units, and we measure segment earnings as operating earnings, defined as income before interest and income taxes.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Our Business

We are the world's largest specialty retailer and wholesale distributor of leather and leathercraft related items. We market our products to our growing list of customers through company-owned retail and wholesale stores. We are a Delaware corporation, and our common stock trades on the NASDAQ Global Market under the symbol "TLF." We operate our business in three segments: Wholesale Leathercraft, which operates wholesale stores in North America under the trade name, The Leather Factory, Retail Leathercraft, which operates retail stores in North America under the trade name, Tandy Leather Company, and International Leathercraft, which operates combination retail/wholesale stores outside of North America under the trade name, Tandy Leather Factory. See Note 7 to the Consolidated Financial Statements for additional information concerning our segments, as well as our foreign operations.

Our Wholesale Leathercraft segment operates 28 company-owned wholesale stores in 18 states and three Canadian provinces. These stores are engaged primarily in the wholesale distribution and retail sales of leather and related items, including leatherworking tools, buckles and belt adornments, leather dyes and finishes, saddle and tack hardware, and do-it-yourself kits, to retailers, manufacturers, and end users. Our Wholesale Leathercraft segment previously included our National Account sales group, whose only customers were national craft chains. We ended sales through this group in April 2014.

Our Retail Leathercraft segment operates company-owned Tandy Leather Company retail stores in 38 states and six Canadian provinces. Tandy Leather Company, one of the best-known suppliers of leather and related supplies used in the leathercraft industry, has been a primary leathercraft resource for decades. Tandy Leather Company's products include quality tools, leather, accessories, kits and teaching materials. In 2002, we began expanding our industry presence by opening retail stores. As of November 1, 2015, we were operating 82 Tandy Leather Company retail stores located throughout North America.

Our International Leathercraft segment operates company-owned stores located outside of North America, which operate as combination retail / wholesale stores. As of November 1, 2015, we were operating 4 international stores with two located in the United Kingdom, one located in Australia, and one located in Spain. We expect to continue opening international stores in the future, but do not have a specific timeline.

Sales to our retail and manufacturing customers increased in the third quarter of 2015 compared to the same quarter of 2014, while sales to our wholesale and institution group customers were down. Income from operations for Wholesale Leathercraft during the current quarter decreased by approximately \$318,000 from the comparative 2014 quarter, a decline of 32%.

A decrease in gross profit of approximately \$104,000, along with an increase in operating expenses of approximately \$214,000, contributed to the reduction in income from operations compared to last year's third quarter. Gross profit as a percentage of sales in the third quarter of 2015 increased minimally to 68.4% compared to 68.1% in the third quarter of 2014. Operating expenses increased by 7%, increasing \$214,000 compared to last year's comparable period. The most significant expense increase occurred in employee benefits, licenses and fees, other outside services, advertising and marketing, and dues and subscriptions.

Retail Leathercraft

Our Retail Leathercraft operation consists of 82 Tandy Leather Company retail stores at September 30, 2015 compared to 80 stores at September 30, 2014. Net sales increased 2.2% for the third quarter of 2015 over the same quarter last year. A store is categorized as "new" until it is operating for the full comparable period in the prior year.

The following table presents sales mix by customer categories for the quarters ended September 30, 2015 and 2014 for our Retail Leathercraft operation:

Customer Group	Quarter ended	
	09/30/15	09/30/14
RETAIL (end users, consumers, individuals)	56%	58%

Sales to our retail, wholesale and manufacturer customer groups increased over the third quarter of 2014, while sales to our institution customer group declined slightly over the same period.

Income from operations decreased approximately \$149,000, in the quarter ended September 30, 2015, or 11.7%, from the comparative 2014 quarter due to a decrease in gross profit margin and an increase in operating expenses. Our gross profit decreased by approximately \$49,000 from the comparable 2014 quarter due to a larger increase in sales to wholesale customers than to retail customers. Operating expenses as a percentage of sales fell slightly from 48.9% in the third quarter of 2014 to 48.6% in the third quarter of 2015. The increase in operating expenses of approximately \$99,000 in the third quarter of 2015 compared to the same quarter of 2014 was caused by increases in advertising and marketing, rent and utilities, and depreciation.

International Leathercraft

International Leathercraft consists of all stores located outside of North America. As of September 30, 2015 and 2014, the segment contained three stores, with one each located in United Kingdom, Australia, and Spain. This segment's sales totaled approximately \$912,000 for the third quarter of 2015, compared to approximately \$1.1 million in the third quarter of 2014, a decrease of 13%. The decline in sales is primarily the result of the change in currency exchange rates from the third quarter of 2015 compared to the rates in the third quarter of 2014. If the 2015 exchange rates had matched the 2014 exchange rates, this segment would have achieved a 2% sales increase compared to last year's third quarter. Gross profit margin decreased \$188,000, while operating expenses decreased by \$58,000. Operating expenses totaled \$479,000 in the third quarter of 2015, down from \$538,000 in the third quarter of 2014. Employee compensation is this segment's largest expense, followed by advertising and marketing expenses, rent and utilities, and shipping costs to customers.

Operating income on a consolidated basis for the nine months ended September 30, 2015 was down 19% compared to the first nine months of 2014, decreasing approximately \$1.5 million.

The following table shows in comparative form our consolidated net income for the first three quarters of 2015 and 2014:

Sales to our national account customers have been declining over time due to the elimination of certain products from our product line that these customers were buying (as these products have not historically provided an acceptable gross profit margin). Our final sale to this customer group occurred in April 2014.

The following table presents the combined sales mix by customer categories for the nine months ended September 30, 2015 and 2014:

Customer Group	Nine Months Ended

Operating income for Wholesale Leathercraft for the first three quarters of 2015 decreased by approximately \$877,000 from the comparative 2014 period, a 25% decline, due to an increase in operating expenses and a reduction in gross profit. Compared to the first nine months of 2014, operating expenses increased approximately \$366,000 for the first nine months of 2015, increasing to 54.5% of sales compared to 51.6% of sales in the first nine months of 2014.

Retail Leathercraft

Net sales were up 4.8% for the first nine months of 2015 over the same period last year.

	# Stores	Nine Months Ended 09/30/15	Nine Months Ended 09/30/14	\$ Change	% Change

The following table presents sales mix by customer categories for the nine months ended September 30, 2015 and 2014 for our Retail Leathercraft operation:

Customer Group	Nine Months Ended	
	09/30/15	09/30/14
RETAIL (end users, consumers, individuals)	56%	59%
INSTITUTION (prisons, prisoners, hospitals, schools, youth organizations, etc.)	3%	4%
WHOLESALE (resellers & distributors, saddle & tack shops, authorized dealers, etc.)	38%	35%
MANUFACTURERS	3%	2%
	100%	100%

The retail stores averaged approximately \$52,000 in sales per month in the first nine months of 2015. By comparison, these stores averaged \$50,000 in sales per month in the first nine months of 2014.

Operating income for the first nine months of 2015 decreased approximately \$309,000 from the comparative 2014 period, decreasing as a percentage of sales from 11.5% in the first three quarters of 2014 to 10.2% in the first three quarters of 2015. Gross margin decreased from 60.7% to 59.3% due to the customer and product mix. The ratio of retail sales, which brings a higher margin, to non-retail sales, which brings a lower margin, can affect gross profit margin positively or negatively. Similarly, the ratio of leather sales, which brings a lower margin, to non-leather sales, which brings a higher margin, can cause gross profit to rise or fall. Operating expenses as a percentage of sales were 49.1% for the first three quarters of 2015, matching that of the first three quarters of 2014.

International Leathercraft

International Leathercraft consists of all stores located outside of North America. As of September 30, 2015 and 2014, the segment contained three stores with one each located in United Kingdom, Australia, and Spain. Net sales decreased 14% for the first nine months of 2015 over the same period last year.

	# Stores	Nine Months Ended 09/30/15	Nine Months Ended 09/30/14	\$ Change	% Change

Total sales	3	\$2,713,431	\$3,156,317	\$(442,886)	(14.0)%

The decline in sales is primarily the result of the change in currency exchange rates from 2014 compared to 2015. In their local currencies, this segment reported sales equal to that of the same period last year. Gross profit margin as a percentage of sales decreased from 66.8% in the first three quarters of 2014 to 60.5% in the first three quarters of 2015. Operating expenses totaled approximately \$1.5 million in the first nine months of 2015, down approximately \$156,000 from approximately \$1.7 million in the first nine months of 2014. The most significant expense decreases were advertising, employee compensation, legal and professional fees, and freight out.

Other Expenses

We paid approximately \$307,000 in interest on our bank debt in the first nine months of 2015, compared to approximately \$154,000 in the first nine months of 2014. We recorded approximately \$2,900 in interest income on our cash balances in the nine months ended September 30, 2015 compared to approximately \$3,500 in the nine months ended September 30, 2014. We recorded income of \$34,000 for currency fluctuations in the first three quarters of 2015. Comparatively, in the first three quarters of 2014, we recorded an expense of approximately \$300 for currency fluctuations.

Capital Resources, Liquidity and Financial Condition

On our consolidated balance sheet, total assets decreased from approximately \$62.9 million at year-end 2014 to approximately \$62.6 million at September 30, 2015. Total stockholders' equity decreased from approximately \$49.1 million at December 31, 2014 to approximately \$48.6 million at September 30, 2015, the decrease being attributable to the increase in treasury stock partially offset by our net income earned in the first three quarters of 2015. Our current ratio increased from 4.5 at December 31, 2014 to 5.2 at September 30, 2015 due primarily to the increase in Accounts Payable and Accrued Expenses from year-end 2014 and the reduction in current maturities of long-term debt.

As of September 30, 2015, our investment in inventory increased by approximately \$2.2 million from year-end 2014. Inventory turnover reached an annualized rate of 2.4 times during the first three quarters of 2015, equal of that in the first three quarters of 2014. Inventory turnover was 2.8 times for all of 2014. We compute our inventory turns as sales divided by average inventory.

Trade accounts receivable was approximately \$585,000 at September 30, 2015, down approximately \$40,000 from approximately \$625,000 at year-end 2014. The average days to collect accounts for the first nine months of 2015 were 33 days, improving slightly from 34 days for the first nine months of 2014. We monitor our customer accounts very closely in an effort to minimize the risk of uncollectible accounts.

Accounts payable increased approximately \$1.2 million to approximately \$2.5 million at September 30, 2015 compared to \$1.3 million at year-end 2014 due to the increase in inventory purchases during the third quarter of 2015 compared to the fourth quarter of 2014. Accrued expenses increased from approximately \$5.4 million at December 31, 2014 to approximately \$6.4 million at September 30, 2015. The increase in the inventory in transit at September 30, 2015 compared to that at December 31, 2014 accounted for the increase.

During the first nine months of 2015, cash flow provided by operating activities was approximately \$4.5 million. Net income of approximately \$4.0 million, depreciation and amortization expense of approximately \$1.1 million, the increase in Accounts Payable and Accrued Expenses totaling \$2.2 million, offset by the decrease in inventory of \$2.2 million accounts for the operating cash provided during the first three quarters of 2015.

By comparison, during the first nine months of 2014, cash flow used by operating activities was approximately \$7.0 million. The increase in inventory of approximately \$13.1 million, partially offset by net income of approximately \$5.2 million accounted for the operating cash used.

Cash flow used in investing activities totaled approximately \$1.3 million in the first nine months of 2015, consisting primarily of the purchase of store fixtures and computer equipment. Cash flow used in investing activities totaled approximately \$1.7 million in the first nine months of 2014, consisting primarily of the purchase of store fixtures and computer equipment.

Cash flow used in financing activities totaled approximately \$5.6 million in the first nine months of 2015, consisting of net debt repayments and the repurchase of stock into treasury. Cash flow provided by financing activities totaled approximately \$3.1 million in the first nine months of 2014, consisting of borrowings against our line of credit of \$6 million, partially offset by bank debt repayments totaling \$405,000 and the payment of a special dividend totaling approximately \$2.5 million.

We expect to fund our operating and liquidity needs as well as our store growth from a combination of current cash balances, internally generated funds, and occasional borrowings on our line of credit with Bank of Texas.
