Internet Gold Selects Veraz Networks as Main Vendor of VoIP International Long Distance Platform

Monday June 21, 7:00 am ET

PETACH TIKVA, Israel, June 21 /PRNewswire-FirstCall/ -- Internet Gold (NASDAQ: IGLD - News) today announced that it has chosen Veraz Network to supply its international switching system. The public tender to select the platform was conducted over several months, with bidders consisting of the leading VoIP system providers. Tailored to meet Internet Gold's business objectives, Veraz's carrier-class NGN solution will enables them to rapidly offer new services.

By combining Veraz's ControlSwitch softswitch and I-Gate 4000 PRO media gateway platforms with robust management systems, Internet Gold will interconnect its new service to Israeli and global carriers to enable all Israeli consumers to dial and receive international long distance calls with the highest quality.

The Veraz solution was selected for its open, best-of-breed components, global support and service infrastructure that enable Internet Gold to quickly deploy services. Together with Internet Gold, Veraz has passed ISUP homologation to interconnect with Bezeq, Israel's incumbent carrier.

Internet Gold's CEO, Eli Holtzman, commented, "We are very happy with our selection of Veraz as our main vendor. Veraz's extensive experience with over 700 customers in 140 countries will enable our company to commence service very quickly and in fact we anticipate to be up and running shortly.

This short 'time to market' is important to us since the additional service is expected to contribute significantly to our revenues and profits and we wish to realize this contribution without further delay."

Veraz Networks' CEO, Tal Simchony, commented, "Veraz is happy to be part of Internet Gold's transition from an ISP to a carrier providing voice and data services to its customers. We are proud to be the first selected NGN solution for deployment in Israel. Veraz open service framework will further enhance and expand the capabilities of Internet Gold to provide new voice and multimedia services to its customer base in the dynamic Israeli market. We wish Internet Gold success in its new endeavor."

About Internet Gold

Internet Gold is a leading Internet service provider in Israel. The Company provides a wide array of Internet services tailored to the needs of residential and business subscribers, including Internet access and related value-added services, as well as content through its portals. The Company provides the full
