Internet Gold's 72.4% Owned Subsidiary, 012 Smile.Communications Ltd.,  
Expects to Benefit From Mandated Number Portability

Monday December 3, 12:26 pm ET

PETACH TIKVA, Israel, December 3 /PRNewswire-FirstCall/ -- Internet Gold Golden Lines Ltd., (NASDAQ NMS and TASE:IGLD), today announced that its subsidiary 012 Smile.Communications Ltd. (72.4%) (NASDAQ NMS and TASE: SMLC) a growth-oriented provider of communication services in Israel, is planning to take full advantage of the number portability program initiated by Israel's Ministry of Communications which became effective on December 2, 2007. According to the program, Israeli telecommunications operators are required to enable customers to retain their existing telephone numbers when switching to different telecommunication providers, a capability designed to make it easier for customers to switch service providers.

"We are excited about the number portability and its implications for our business," commented Ms. Stella Handler, CEO of 012 Smile.Communications. "Over the next few months, we plan to capture a significant share of Israel's domestic telephony market, which is valued at more than a billion dollars per year, by offering extremely attractive bundled communications packages. We will market expanded services both to our own broadband subscriber base, which includes over 500,000 households and businesses, as well as to the Israeli public. The anticipated success of our efforts will enable us to continue increasing our Average Revenues Per User (ARPU) while simultaneously transforming domestic telephony into a major driver of our future growth."

012 Smile.Communications was the first Internet communications company to receive a license from the Ministry of Communications to supply Internet telecommunication services utilizing Voice Over Broadband (VOB) technology. To date, the company has invested approximately NIS 30 million to penetrate Israel's domestic telephony market and continues to invest its resources in this area having already enrolled over 30,000 VOB subscribers. The company's establishment of the "072" prefix for fixed telecommunication lines is in keeping with its strategy of becoming Israel's industry leader in providing the most advanced communications technology. It will also serve as an important growth engine for the company and broaden its package of telecommunication services.

About Internet Gold

Internet Gold is one of Israel's leading communications groups with a major presence across all Internet-related sectors. Its 72.4% owned subsidiary, 012 Smile.Communications Ltd., is one of Israel's major Internet and international telephony service providers, and one of the largest providers of enterprise/IT integration services. Its 100% owned subsidiary, Smile.Media Ltd., manages a growing portfolio of Internet portals and e-Commerce sites.
