## Edgar Filing: PATRIOT NATIONAL BANCORP INC - Form 10QSB

## Notes to Consolidated Financial Statements

(1) The Consolidated Balance Sheet at December 31, 2004 has been derived from the audited financial statements of Patriot National Bancorp, Inc. ("Bancorp") at that date, but does not include all of the information and footnotes required by U. S. generally accepted accounting principles for complete financial statements.
(2) The accompanying unaudited financial statements and related notes have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with U. S. generally accepted accounting principles have been omitted. The accompanying consolidated financial statements and related notes should be read in conjunction with the audited financial statements of Bancorp and notes thereto for the year ended December 31, 2004.

The information furnished reflects, in the opinion of management, all normal recurring adjustments necessary for a fair presentation of the results for the interim periods presented. The results of operations for the three months ended March 31, 2005 are not necessarily indicative of the results of operations that may be expected for the remaining quarters of 2005.
(3) Bancorp is required to present basic income per share and diluted income per share in its income statements. Basic income per share amounts are computed by dividing net income by the weighted average number of common shares outstanding. Diluted income per share assumes exercise of all potential common stock in weighted average shares outstanding, unless the effect is antidilutive. Bancorp is also required to provide a reconciliation of the numerator and denominator used in the computation of both basic and diluted income per share. The following is information about the computation of income per share for the three months ended March 31, 2005 and 2004.

Quarter ended March 31, 2005

(4) Bancorp has two reportable segments, the commercial bank and the mortgage broker. The commercial bank provides its commercial customers with products such as commercial mortgage and construction loans, working capital loans, equipment loans and other business financing arrangements, and provides its consumer customers with residential mortgage loans, home equity loans and other consumer installment loans. The commercial bank segment also attracts deposits from both consumer and commercial customers, and invests such deposits in loans, investments and working capital. The commercial bank's revenues are generated primarily from net interest income from its lending, investment and deposit activities.

The mortgage broker solicits and processes conventional mortgage loan applications from consumers on behalf of permanent investors and originates loans for sale. Revenues are generated from loan brokerage and application processing fees received from permanent investors and gains and origination fees from loans sold.

Information about reportable segments and a reconciliation of such information to the consolidated financial statements for the three months ended March 31, 2005 and 2004 is as follows (in thousands):

At March 31, 2005, gross unrealized holding gains and gross unrealized holding losses on available for sale securities totaled $\$ 17,005$ and $\$ 1,516,476$, respectively. Of the securities with unrealized losses, there are five U . S. Government Agency or Sponsored Agency Obligations and 13 mortgage backed securities that have unrealized losses for a period in excess of twelve months with a combined current unrealized loss of $\$ 1.1$ million. Management does not believe that any of the unrealized losses are other than temporary since they are the result of changes in the interest rate environment and they relate to debt and mortgage-backed securities issued by U. S. Government and U.S. Government sponsored agencies. Bancorp has the ability to hold these securities to maturity if necessary and expects to receive all contractual principal and interest related to these investments. As a result, management believes that these unrealized losses will not have a negative impact on future earnings or a permanent effect on capital.

Cash and cash equivalents decreased $\$ 36.3$ million or $65.4 \%$ to $\$ 19.3$ million at March 31, 2005 as compared to $\$ 55.6$ million at December 31, 2004. Cash and due from banks decreased $\$ 477,000$; federal funds sold and short term investments decreased $\$ 24.5$ million and $\$ 11.4$ million, respectively. The decrease in cash and cash equivalents funded loan growth and purchases of mortgage-backed securities.

## Investments

The following table is a summary of Bancorp's available for sale securities portfolio, at fair value, at the dates shown:

|  |  | March 31, | December 31, |
| :--- | ---: | :--- | :---: |
|  | 2005 | 2004 |  |
| U.S. Government Agency and | $\$$ | $14,566,470$ | $\$$ |

| Mortgage-Backed Securities |  | $52,446,180$ |  |
| Money market preferred | $9,000,000$ | $9,000,000$ |  |
| equity securities | $\$$ | $90,911,955$ | $\$$ |
| Total Investments |  | $76,269,475$ |  |

Available for sale securities increased $\$ 14.6$ million from $\$ 76.3$ million at December 31, 2004 to $\$ 90.9$ million at March 31, 2005. During the month of January, $\$ 19.2$ million in excess liquidity was redeployed from federal funds sold and short term investments into the purchase of mortgage-backed securities. This $\$ 14.6$ million increase represents the excess of security purchases over mortgage-backed security principal repayments and the increase in the unrealized losses in the available for sales security portfolio.

## Loans

The following table is a summary of Bancorp's loan portfolio at the dates shown:

|  | March 31, <br> 2005 | December 31, <br> 2004 |  |

Bancorp's net loan portfolio increased $\$ 29.6$ million or $11.2 \%$ from $\$ 263.9$ million at December 31, 2004 to $\$ 293.5$ million at March 31, 2005. The notable increases include construction loans of $\$ 10.3$ million, commercial real estate loans of $\$ 7.7$ million and residential real estate loans of $\$ 11.0$ million, of which $\$ 7.0$ million represent purchases of 13

adjustable rate residential mortgages. The growth in loans originated by the Bank reflect the continued strong real estate market in the Fairfield County, Connecticut and Westchester County, New York areas in which the Bank primarily conducts business and which continues to contribute to the overall growth in the loan portfolio. Although short term interest rates have increased, the interest rate environment for borrowers remained favorable in the first quarter of 2005.

At March 31, 2005, the net loan to deposit ratio was $80.2 \%$ and the net loan to total assets ratio was $70.9 \%$. At December 31, 2004, the net loan to deposit ratio was $71.9 \%$ and the net loan to total assets ratio was $65.2 \%$. Based on loan applications in process and the planned hiring of additional loan officers, management anticipates continued loan growth during the remainder of 2005.

## Critical Accounting Policies

In the ordinary course of business, Bancorp has made a number of estimates and assumptions relating to reporting results of operations and financial condition in preparing its financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ significantly from those estimates under different assumptions and conditions. The Company believes the following discussion addresses Bancorp's only critical accounting policy, which is the policy that is most important to the presentation of Bancorp's financial results. This policy requires management's most difficult, subjective and complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain.

## Allowance for Loan Losses

The allowance for loan losses is established as losses are estimated to have occurred through a provision for loan losses charged to earnings. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance.

The allowance for loan losses is evaluated on a regular basis by management and is based upon management's periodic review of the collectibility of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral and prevailing economic conditions. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

The allowance consists of specific, general and unallocated components. The specific component relates to loans that are considered impaired. A risk rating system is utilized to measure the adequacy of the general component of the allowance for loan losses. Under this system, each loan is assigned a risk rating between one and nine, which has a corresponding loan loss factor assigned, with a rating of "one" being the least risk and a rating of "nine"
14

## Edgar Filing: PATRIOT NATIONAL BANCORP INC - Form 10QSB

reflecting the most risk or a complete loss. Risk ratings are assigned by the originating loan officer or loan committee at the initiation of the transactions and are reviewed and changed, when necessary, during the life of the loan. Loan loss reserve factors are multiplied against the balances in each risk rating category to arrive at the appropriate level for the allowance for loan losses. Loans assigned a risk rating of "six" or above are monitored more closely by the credit administration officers. The unallocated portion of the allowance reflects management's estimate of probable but undetected losses inherent in the portfolio; such estimates are influenced by uncertainties in economic conditions, delays in obtaining information, including unfavorable information about a borrower's financial condition, difficulty in identifying triggering events that correlate perfectly to subsequent loss rates, and risk factors that have not yet manifested themselves in loss allocation factors. Loan quality control is continually monitored by management subject to oversight by the board of directors through its members who serve on the loan committee and is also reviewed by the full board of directors on a monthly basis. The methodology for determining the adequacy of the allowance for loan losses is consistently applied; however, revisions may be made to the methodology and assumptions based on historical information related to charge-off and recovery experience and management's evaluation of the current loan portfolio.

Based upon this evaluation, management believes the allowance for loan losses of $\$ 3.7$ million at March 31, 2005, which represents $1.26 \%$ of gross loans outstanding, is adequate, under prevailing economic conditions, to absorb losses on existing loans. At December 31, 2004, the allowance for loan losses was $\$ 3.5$ million or $1.31 \%$ of gross loans outstanding.

## Non-Accrual, Past Due and Restructured Loans

The following table presents non-accruing loans and loans past due 90 days or more and still accruing:

|  |  | March 31, <br> (Thousands of dollars) |  | December 31, <br> 2005 |
| :--- | :---: | :---: | :---: | ---: |
| Loans delinquent over 90 | $\$$ | 1,558 | $\$$ | 373 |

| Total |  | $1.75 \%$ | $1.51 \%$ |  |
| \% of Total Loans |  | $1.26 \%$ | $1.00 \%$ |  |

## Potential Problem Loans

The $\$ 3.6$ million in non-accruing loans at March 31, 2005 is comprised of three loans that are well collateralized and in the process of collection; two loans totaling $\$ 3.5$ million are current as to contractually due principal and interest payments. Subsequent to March 31, 2005, the third loan in the amount of $\$ 150,000$ was sold; no loss was incurred on the sale.

At March 31, 2005, Bancorp had no loans, other than those disclosed in the table above, for which management has significant doubts as to the ability of the borrower to comply with the present repayment terms.

## Deposits

The following table is a summary of Bancorp's deposits at the dates shown:

|  |  | March 31, <br> 2005 | December 31, <br> 2004 |  |
| :--- | ---: | ---: | ---: | ---: |
|  |  |  |  |  |
| Noninterest bearing | $\$$ | $39,390,978$ | $\$$ | $42,584,120$ |
| Interest bearing |  |  |  |  |
| NOW | $25,799,209$ | $26,814,653$ |  |  |
| Savings | $22,517,231$ | $22,104,121$ |  |  |

| Total Deposits | $\$$ | $366,185,851$ | $\$$ | $367,005,325$ |

16

Total deposits decreased $\$ 819,000$ from $\$ 367.0$ million at December 31, 2004 to $\$ 366.2$ million at March 31, 2005. Noninterest bearing deposits decreased $\$ 3.2$ million due primarily to fluctuations in personal and commercial checking accounts which decreased $\$ 842,000$ and $\$ 3.6$ million, respectively. These decreases were partially offset by an increase of $\$ 1.3$ million in cashiers' checks. Interest bearing deposits increased $\$ 2.4$ million from $\$ 324.4$ million at December 31, 2004 to $\$ 326.8$ million at March 31, 2005. Money market deposit accounts increased $\$ 2.7$ million due primarily to the rising rate environment which has influenced customers to keep their funds liquid instead of committing to longer term certificates of deposit. Savings accounts and certificates of deposit increased $\$ 413,000$ and $\$ 234,000$, respectively. Certificates of deposit remained relatively flat due primarily to the premium rates offered through the aggressive marketing campaigns of some of our local competitors as well as the desire of customers to remain liquid as previously mentioned.

## Borrowings

At March 31, 2005, total borrowings were $\$ 26.2$ million; this represents an increase of $\$ 10$ million when compared to total borrowings of $\$ 16.2$ million at December 31, 2004. Instead of pursuing high priced certificates of deposit in this very competitive market, the Bank chose to take down $\$ 10$ million of short term borrowings from the Federal Home Loan Bank in anticipation of a promotional rate deposit campaign that will be offered in conjunction with the near term opening of the Southport Office which is expected to generate an increase in deposits.

## Off-Balance Sheet Arrangements

There have been no significant changes in Bancorp's off-balance sheet arrangements which primarily consist of commitments to lend, during the quarter ended March 31, 2005.

## RESULTS OF OPERATIONS

## Interest and dividend income and expense

Bancorp's interest and dividend income increased $\$ 1.3$ million or $29.9 \%$ for the quarter ended March 31, 2005 as compared to the same period in 2004. Interest and fees on loans increased $32.4 \%$ or $\$ 1.1$ million from $\$ 3.5$ million for the quarter ended March 31, 2004 to $\$ 4.6$ million for the quarter ended March 31, 2005. These increases are the result of the increase in the loan portfolio combined with increases in interest rates.

Bancorp's interest expense increased $32.9 \%$ or $\$ 540,000$ for the quarter ended March 31, 2005 as compared to the same period in 2004. Increases in average balances of interest bearing deposits accounts resulted in an increase of $39.7 \%$ or $\$ 566,000$ in interest expense for the quarter ended March 31, 2005 compared to the same period last year. Increases in the index to which the subordinated debt is tied resulted in an increase in interest expense of $\$ 27,000$. Decreases in the average balances of outstanding borrowings resulted in 17

## Edgar Filing: PATRIOT NATIONAL BANCORP INC - Form 10QSB

a decrease of $\$ 54,000$ in interest expense for the quarter ended March 31, 2005 as compared to the same period in 2004.

As a result of these factors, net interest income increased $\$ 747,000$ or $28 \%$ to $\$ 3.4$ million for the three months ended March 31, 2005 as compared to $\$ 2.7$ million for the same period last year.

## Noninterest income

Noninterest income decreased $\$ 40,000$ or $5.4 \%$ to $\$ 711,000$ for the quarter ended March 31, 2005 as compared to the same period last year. Mortgage brokerage and referral fees decreased by $6.4 \%$ or $\$ 32,000$ to $\$ 464,000$ for the quarter ended March 31, 2005 as compared to $\$ 496,000$ for the same period last year. This decrease was due primarily to an increase in long term interest rates which resulted in a decrease in the volume of refinance transactions. As a result of the decrease in refinance transactions, there was also a decrease in loan origination and processing fees of $\$ 40,000$ or $34.2 \%$ to $\$ 79,000$ for the quarter ended March 31,2005 as compared to $\$ 119,000$ for the quarter ended March 31, 2004. Increases in deposit accounts and transaction volumes resulted in an increase in fees and service charges of $\$ 27,000$ or $26.7 \%$ from $\$ 101,000$ for the quarter ended March 31, 2004 to $\$ 128,000$ for the quarter ended March 31, 2005.

## Noninterest expenses

Noninterest expenses increased $15.7 \%$ or $\$ 459,000$ to $\$ 3.4$ million for the quarter ended March 31, 2005 from $\$ 2.9$ million for the quarter ended March 31, 2004. Salaries and benefits expense increased $14.0 \%$, or $\$ 251,000$ to $\$ 2.0$ million for the quarter ended March 31, 2005 from $\$ 1.8$ million for the quarter ended March 31, 2004. This increase is due primarily to staff additions resulting from the opening of two branches in 2004, as well as to increases in loan and deposit production sales and incentive compensation and an enhanced compensation plan designed to attract additional talented and experienced residential mortgage loan originators to build loan origination volume and to generate additional fee income. Occupancy and equipment expense, net, increased $\$ 112,000$ or $29.3 \%$ to $\$ 493,000$ for the quarter ended March 31, 2005 from $\$ 381,000$ for the quarter ended March 31, 2004 due primarily to the establishment during the second half of 2004 of two additional branch locations and the relocation of an office of the Residential Lending Group from Greenwich to Stamford in April of last year. Data processing and other outside services increased $\$ 44,000$ or $22 \%$ from $\$ 196,000$ for the three months ended March 31, 2004 to $\$ 240,000$ for the three months ended March 31, 2005; much of this increase is due to an increase in data processing expenses as a result of the growth in the branch network and increases due to ongoing maintenance charges for the implementation of new products and services. Other operating expenses increased $\$ 40,000$ or $14.9 \%$ from $\$ 270,000$ for the three months ended March 31, 2004 to $\$ 310,000$ for the three months ended March 31, 2005; included in this increase are higher expenses related to director compensation, customer relations and regulatory assessments. Professional services increased $\$ 36,000$ or $35 \%$ from
18

## Edgar Filing: PATRIOT NATIONAL BANCORP INC - Form 10QSB

$\$ 100,000$ for the three months ended March 31, 2004 to $\$ 136,000$ for the three months ended March 31, 2005; this increase is due primarily to increases in accruals for consulting services related to the implementation of Section 404 of the Sarbanes-Oxley Act of 2002. Loan administration and processing expenses decreased $32.5 \%$ to $\$ 44,000$ for the three months ended March 31, 2005 from $\$ 66,000$ for the three months ended March 31, 2004 due to the decrease in the volume of residential mortgage refinance transactions.

Bancorp has received regulatory approval to establish a branch office in Southport, Connecticut, which will result in additional capital expenditures as well as increases in salaries and benefits and occupancy and equipment expenses. Management anticipates that this office will open in the second or third quarter of 2005.

## Income Taxes

Bancorp recorded income tax expense of $\$ 195,000$ for the quarter ended March 31, 2005 as compared to $\$ 139,000$ for the quarter ended March 31, 2004. The effective tax rates for the quarters ended March 31, 2005 and March 31, 2004 were $40 \%$ and $41 \%$, respectively. These changes are related primarily to the change in pre-tax income and the exclusion for state tax purposes of certain holding company expenses.

## LIQUIDITY

Bancorp's liquidity ratio was $26.6 \%$ and $34.0 \%$ at March 31, 2005 and 2004, respectively. The liquidity ratio is defined as the percentage of liquid assets to total assets. The following categories of assets as described in the accompanying consolidated balance sheets are considered liquid assets: cash and due from banks, federal funds sold, short term investments and available for sale securities. Liquidity is a measure of Bancorp's ability to generate adequate cash to meet financial obligations. The principal cash requirements of a financial institution are to cover downward fluctuations in deposit accounts and increases in its loan portfolio. Management believes Bancorp's short-term assets have sufficient liquidity to cover loan demand, potential fluctuations in deposit accounts, the costs related to opening the Southport branch and to meet other anticipated cash operating requirements.

## CAPITAL

The following table illustrates Bancorp's regulatory capital ratios at March 31, 2005 and December 31, 2004 respectively:

March 31, 2005
December 31, 2004

| Total Risk-based Capital | $10.53 \%$ | $10.70 \%$ |
| :--- | ---: | :---: |
| Tier 1 Risk-based Capital | $8.87 \%$ | $9.04 \%$ |
| Leverage Capital | $6.45 \%$ | $6.79 \%$ |

## Edgar Filing: PATRIOT NATIONAL BANCORP INC - Form 10QSB

The following table illustrates the Bank's regulatory capital ratios at March 31, 2005 and December 31, 2004 respectively:

March 31, 2005
December 31, 2004

| Total Risk-based Capital | $10.35 \%$ | $10.50 \%$ |
| :--- | ---: | :---: |
| Tier 1 Risk-based Capital | $9.10 \%$ | $9.29 \%$ |
| Leverage Capital | $6.62 \%$ | $6.98 \%$ |

Capital adequacy is one of the most important factors used to determine the safety and soundness of individual banks and the banking system. Based on the above ratios, the Bank is considered to be "well capitalized" at March 31, 2005 under applicable regulations. To be considered "well-capitalized," an institution must generally have a leverage capital ratio of at least $5 \%$, a Tier 1 risk-based capital ratio of at least $6 \%$ and a total risk-based capital ratio of at least $10 \%$.

Management continuously assesses the adequacy of the Bank's capital to ensure that the Bank remains a "well capitalized" institution. Management's strategic and capital plans contemplate various options to raise additional capital to support the planned growth of the Bank.

On April 25, 2005, Bancorp filed a registration statement with the Securities and Exchange Commission on Form SB-2 pursuant to which it proposes to raise an additional \$7-\$12 million of capital by sales of common stock to shareholders and as yet unidentified stand-by purchasers. All of the net proceeds is needed to allow the Bank to both remain "well capitalized" and continue its growth, historically accomplished through de novo bank branches.

## IMPACT OF INFLATION AND CHANGING PRICES

Bancorp's consolidated financial statements have been prepared in terms of historical dollars, without considering changes in the relative purchasing power of money over time due to inflation. Unlike most industrial companies, virtually all of the assets and liabilities of a financial institution are monetary in nature. As a result, interest rates have a more significant impact on a financial institution's performance than the general levels of inflation. Interest rates do not necessarily move in the same direction or in the same magnitude as the prices of goods and services. Notwithstanding this, inflation can directly affect the value of loan collateral, in particular, real estate. Inflation, or disinflation, could significantly affect Bancorp's earnings in future periods.

## "SAFE HARBOR" STATEMENT UNDER PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

Certain statements contained in Bancorp's public reports, including this report, and in particular in this "Management's Discussion and Analysis of Financial Condition and Results

of Operation," may be forward looking and subject to a variety of risks and uncertainties. These factors include, but are not limited to, (1) changes in prevailing interest rates which would affect the interest earned on Bancorp's interest earning assets and the interest paid on its interest bearing liabilities, (2) the timing of repricing of Bancorp's interest earning assets and interest bearing liabilities, (3) the effect of changes in governmental monetary policy, (4) the effect of changes in regulations applicable to Bancorp and the conduct of its business, (5) changes in competition among financial services companies, including possible further encroachment of non-banks on services traditionally provided by banks, (6) the ability of competitors that are larger than Bancorp to provide products and services which it is impracticable for Bancorp to provide, (7) the effects of Bancorp's opening of branches, and (8) the effect of any decision by Bancorp to engage in any new business activities. Other such factors may be described in Bancorp's future filings with the SEC.

## Item 3. Controls and Procedures

Based on an evaluation of the effectiveness of Bancorp's disclosure controls and procedures performed by Bancorp's management, with the participation of Bancorp's Chief Executive Officer and its Chief Financial Officer as of the end of the period covered by this report, Bancorp's Chief Executive Officer and Chief Financial Officer concluded that Bancorp's disclosure controls and procedures have been effective.

As used herein, "disclosure controls and procedures" means controls and other procedures of Bancorp that are designed to ensure that information required to be disclosed by Bancorp in the reports that it files or submits under the Securities Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by Bancorp in the reports that it files or submits under the Securities Exchange Act is accumulated and communicated to Bancorp's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

There were no changes in Bancorp's internal control over financial reporting identified in connection with the evaluation described in the preceding paragraph that occurred during Bancorp's fiscal quarter ended March 31, 2005 that has materially affected, or is reasonably likely to materially affect, Bancorp's internal control over financial reporting.

(a) Not applicable
(b) Not applicable
(c) During the three months ended March 31, 2005, Bancorp issued 3,000 shares of its Common Stock upon the exercise of certain options that were granted in connection with a stock option plan adopted by the Bank in 1999 under which non-qualified and incentive stock options were granted in 1999 to certain directors. The weighted average exercise price per share of these options is $\$ 10.13$. The obligations under these options were assumed by Bancorp at the time the Bank became a wholly owned subsidiary of Bancorp.

The total amount received by Bancorp for these shares was $\$ 30,330$. No underwriter was used in connection with the sale of these 3,000 shares nor were any underwriting discounts or commissions paid. The shares are unregistered under the Securities Act of 1933, and were issued pursuant to the private offering exemption under Section 4 (2) of such Act.
