TRACTOR SUPPLY COMPANY

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 – Basis of Presentation:

The accompanying interim unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States and the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. These statements should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended December 31, 2011. The results of operations for the fiscal three-month and nine-month periods are not necessarily indicative of results for the full fiscal year.

Our business is highly seasonal. Historically, our sales and profits have been the highest in the second and fourth fiscal quarters due to the sale of seasonal products. Unseasonable weather, excessive precipitation, drought, and early or late frosts may also affect our sales. We believe, however, that the impact of extreme weather conditions is somewhat mitigated by the geographic dispersion of our stores and our ability to effectively manage inventory allocation.

We experience our highest inventory and accounts payable balances during the first fiscal quarter for purchases of seasonal products in anticipation of the spring selling season and again during the third fiscal quarter in anticipation of the cold-weather selling season.

Note 2 – Fair Value of Financial Instruments:

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date. The Company uses a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Our financial instruments consist of cash and cash equivalents, restricted cash, short-term receivables, trade payables and long-term debt instruments. The carrying values of cash and cash equivalents, restricted cash, short-term receivables and trade payables approximate current fair value at each balance sheet date. We had no borrowings under the revolving credit facility at September 29, 2012, December 31, 2011 or September 24, 2011.

Note 3 – Share-Based Compensation:

Share-based compensation includes stock options, restricted stock unit awards and certain transactions under our Employee Stock Purchase Plan (the “ESPP”). Share-based compensation expense is recognized based on grant date fair value of all options and restricted stock unit awards plus a discount on shares purchased by employees as a part of the ESPP. The discount under the ESPP represents the difference between the grant date market value and the employee’s purchase price.

There were no significant modifications to our share-based compensation plans during the fiscal nine months ended September 29, 2012.

For the third quarters of fiscal 2012 and 2011, share-based compensation expense was \$4.7 million and \$3.7 million, respectively, and \$14.1 million and \$10.7 million for the first nine months of fiscal 2012 and 2011, respectively.

Index

Stock Options

The following summarizes information concerning stock option grants during each of the first nine months of fiscal 2012 and 2011:

	Fiscal nine months ended	
	September 29, 2012	September 24, 2011
Stock options granted	570,277	545,455
Weighted average exercise price	\$85.54	\$52.13
Weighted average fair value per option	\$26.25	\$17.72

As of September 29, 2012, total unrecognized compensation expense related to non-vested stock options was approximately \$14.4 million with a remaining weighted average expense recognition period of 1.4 years.

Restricted Stock Units

The following summarizes information concerning restricted stock unit grants during each of the first nine months of fiscal 2012 and 2011:

	Fiscal nine months ended	
	September 29, 2012	September 24, 2011
Restricted stock units granted	40,017	63,484
Weighted average fair value per share	\$87.10	\$53.23

As of September 29, 2012, total unrecognized compensation expense related to non-vested restricted stock units was approximately \$3.2 million with a remaining weighted average expense recognition period of 1.6 years.

Note 4 - Net Income Per Share:

We present both basic and diluted earnings per share ("EPS") on the face of the consolidated statements of income. Basic EPS is calculated as income available to common stockholders divided by the weighted average number of shares outstanding during the period. There were no participating securities other than common stock during the fiscal three and nine months ended September 29, 2012 and September 24, 2011. Diluted EPS is calculated using the weighted average outstanding common shares and the treasury stock method for options and restricted stock units.

Net income per share is calculated as follows (in thousands, except per share amounts):

	Fiscal three months ended September 29, 2012			Fiscal three months ended September 24, 2011		
	Income	Shares	Per Share Amount	Income	Shares	Per Share Amount
Basic net income per share:						
Net income	\$ 50,021	70,741	\$0.71	\$42,733	71,226	\$0.60
Diluted net income per share:						
Dilutive stock options and restricted stock units outstanding	—	1,572	(0.02)	—	2,117	(0.02)
Net income	\$ 50,021	72,313	\$0.69	\$42,733	73,343	\$0.58

Index

	Fiscal nine months ended September 29, 2012			Fiscal nine months ended September 24, 2011		
	Income	Shares	Per Share Amount	Income	Shares	Per Share Amount
Basic net income per share:						
Net income	\$196,970	71,383	\$2.76	\$152,228	71,988	\$2.11
Diluted net income per share:						
Dilutive stock options and restricted stock units outstanding	—	1,715	(0.07)	—	2,170	(0.06)
Net income	\$196,970	73,098	\$2.69	\$152,228	74,158	\$2.05

Anti-dilutive stock options excluded from the above calculations totaled approximately 0.4 million for each of the three months ended September 29, 2012 and September 24, 2011 and 0.5 million for each of the nine months ended September 29, 2012 and September 24, 2011.

Note 5 – Credit Agreement:

The Senior Credit Facility provides for borrowings up to \$250 million (with sublimits of \$250 million and \$20 million for letters of credit and swingline loans, respectively). This agreement is unsecured and matures in October 2016, with proceeds available to be used for working capital, capital expenditures, dividends, share repurchases and other matters. At September 29, 2012, there were no outstanding borrowings under the Senior Credit Facility. There were \$41.4 million outstanding letters of credit under the Senior Credit Facility as of September 29, 2012. Borrowings bear interest at either the bank's base rate or LIBOR plus an additional amount ranging from 0.40% to 1.00% per annum, adjusted quarterly based on our leverage ratio (0.50% at September 29, 2012). We are also required to pay quarterly in arrears, a commitment fee for unused capacity ranging from 0.08% to 0.20% per annum, adjusted quarterly based on our leverage ratio (0.10% at September 29, 2012). The agreement requires quarterly compliance with respect to fixed charge coverage and leverage ratios. As of September 29, 2012, we were in compliance with all debt covenants.

Note 6 – Treasury Stock:

The Company's Board of Directors has authorized share repurchases under the share repurchase program up to \$1 billion, exclusive of any fees, commissions, or other expenses related to such repurchases, through April 2015. The repurchases may be made from time to time on the open market or in privately negotiated transactions. The timing and amount of any shares repurchased under the program will depend on a variety of factors, including price, corporate and regulatory requirements, capital availability, and other market conditions. Repurchased shares will be held in treasury. The program may be limited or terminated at any time without prior notice.

We repurchased 680,705 and 805,040 shares under the share repurchase program for a total cost of \$61.3 million and \$49.2 million during the third quarters of 2012 and 2011, respectively. During the first nine months of 2012 and 2011, we repurchased 1,841,405 and 2,961,450 shares under the share repurchase program for a total cost of \$163.8 million and \$172.1 million, respectively. As of September 29, 2012, we had remaining authorization under the share repurchase program of \$399.1 million exclusive of any fees, commissions, or other expenses.

Note 7 – Dividends:

During the first nine months of fiscal 2012, the Board of Directors declared the following dividends:

Date Declared	Dividend Amount Per Share	Stockholders of Record Date	Date Paid
---------------	---------------------------	-----------------------------	-----------

Edgar Filing: TRACTOR SUPPLY CO /DE/ - Form 10-Q

February 8, 2012	\$0.12	February 27, 2012	March 13, 2012
May 2, 2012	\$0.20	May 21, 2012	June 5, 2012
August 1, 2012	\$0.20	August 20, 2012	September 5, 2012

It is the present intention of the Board of Directors to continue to pay a quarterly cash dividend; however, the declaration and payment of future dividends will be determined by the Board of Directors in its sole discretion and will depend upon the earnings, financial condition, and capital needs of the Company, along with other factors which the Board of Directors deems relevant.

Index

Note 8 – Income Taxes:

Our effective income tax rate decreased to 35.5% in the third quarter of 2012 compared to 36.7% for the third quarter of 2011. The decrease in the tax rate was largely due to a favorable impact of our provision to return reconciliation and the reversal of reserves for uncertain tax positions pursuant to Accounting Standard Codifications ("ASC") 740-10. These improvements were partially offset by lower federal tax credits, primarily Work Opportunity Tax Credits ("WOTC") and the HIRE Act credits, which expired in 2011. For the first nine months of 2012 our effective income tax rate increased slightly to 36.7% compared to 36.6% for the first nine months of 2011. The Company expects the full year effective tax rate will be approximately 36.7%.

Note 9 – Commitments and Contingencies:

Construction Commitments

At September 29, 2012, we had contractual commitments related to a new distribution center in Macon, GA totaling approximately \$30 million, contractual commitments related to other construction projects totaling approximately \$5.6 million and a contractual commitment to purchase one store previously under lease for approximately \$1.8 million.

In August 2012, the Company purchased an undeveloped parcel of land in Brentwood, TN for a new store support center. The Company has no significant contractual commitments related to this project; however, construction is expected to begin by the end of the current year.

Letters of Credit

At September 29, 2012, there were \$41.4 million outstanding letters of credit under the Senior Credit Facility and a \$6.2 million outstanding letter of credit at a financial institution outside of the Senior Credit Facility which is collateralized by a time deposit classified as restricted cash.

Litigation

The Company responded to a Request for Information from the United States Environmental Protection Agency ("EPA") in the first quarter of fiscal 2009 relating to certain recreational vehicles and non-road spark ignition engines sold by the Company. In the first quarter of fiscal 2011, the Environmental Enforcement Section of the Department of Justice ("DOJ"), on behalf of the EPA, informed the Company that it believed the Company had violated the Clean Air Act by importing or causing the importation of certain engines that were noncompliant, and that unless the DOJ and the Company were able to reach a settlement, the DOJ was prepared to commence a civil action. The engines were purchased by the Company pursuant to agreements with vendors under which the vendors represented that their products complied with all applicable laws and regulations and under which the vendors agreed to indemnify the Company for any liabilities or costs relating to, among other matters, the noncompliance or alleged noncompliance of their products. The Company notified these vendors of the EPA's position and has been working with these vendors to provide additional information to the DOJ and EPA regarding the alleged violations. As a result of this process, the Company believes it has provided evidence that many of the products identified by the DOJ and EPA were in compliance with the Clean Air Act and that most of the remaining issues relate to products purchased from one vendor. The vendor of these products and the Company are engaged in settlement discussions with the DOJ and EPA that would call for the payment of a civil penalty and certain injunctive relief. In addition, the EPA in May 2012 provided the Company with a summary of preliminary findings based on inspections of certain products sold by the Company. The Company is working with the vendor of these products to provide additional information to EPA. The Company does not expect the resolution of these matters to have a material adverse effect on its financial condition,

results of operations or cash flows. We do not believe it is reasonably possible that a loss in excess of the amount accrued will be incurred.

We are also involved in various litigation matters arising in the ordinary course of business. We expect these matters will be resolved without material adverse effect on our consolidated financial position, results of operations or cash flows. We believe that any estimated loss related to such matters has been adequately provided in accrued liabilities to the extent probable and reasonably estimable.

Note 10 – Segment Reporting:

Tractor Supply Company has one reportable segment which is the retail sale of farm and ranch products. The Company manages the business on the basis of one operating segment. The following chart indicates the percentage of sales represented by each of our major product categories for the fiscal three and nine months ended September 29, 2012 and September 24, 2011:

Index

	Fiscal three months ended		Fiscal nine months ended	
	September 29, 2012	September 24, 2011	September 29, 2012	September 24, 2011
Product Category:				
Livestock and Pet	45%	43%	43%	42%
Hardware, Tools and Truck	24	24	23	23
Seasonal, Gift and Toy Products	18	19	21	21
Clothing and Footwear	7	7	7	7
Agriculture	6	7	6	7
Total	100%	100%	100%	100%

Note 11 – Impact of Recently Issued Accounting Standards:

In June 2011, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2011-05 which provides new guidance on the presentation of comprehensive income. ASU 2011-05 eliminates the option to report other comprehensive income and its components in the statement of changes in stockholders’ equity and instead requires an entity to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement or in two separate but consecutive statements. This guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The Company adopted the standard for the interim period ended March 31, 2012. There are no items of other comprehensive income for the periods presented; thus there was no impact on the Company’s condensed consolidated financial statements.

In September 2011, the FASB issued ASU No. 2011-08, “Intangibles — Goodwill and Other (Topic 350): Testing Goodwill for Impairment.” The ASU gives an entity the option in its annual goodwill impairment test to first assess qualitative factors to determine whether it is more likely than not (a likelihood of more than 50%) that the fair value of a reporting unit is more than its carrying amount (“qualitative assessment”). If it is more likely than not the fair value of a reporting unit is more than its carrying amount, an entity would not be required to perform the existing two-step impairment test. The amendments to Topic 350 are effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. The Company adopted the standard for the interim period ended March 31, 2012. There was no impact on the Company’s condensed consolidated financial statements.

Note 12 – Subsequent Events:

On October 31, 2012, our Board of Directors declared a quarterly cash dividend of \$0.20 per share of the Company’s common stock. The dividend will be paid on December 4, 2012 to stockholders of record as of the close of business on November 19, 2012.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

General

The following discussion and analysis should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended December 31, 2011. The following discussion and analysis also contains certain historical and forward-looking information. The forward-looking statements included herein are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 (the “Act”). All statements, other than statements of historical facts, which address activities, events or developments that we expect or anticipate will or may occur in the future, including such things as estimated results of operations in future periods, the declaration and payment of dividends, future capital expenditures (including their amount and nature), business strategy, expansion and growth of

our business operations and other such matters are forward-looking statements. These forward-looking statements may be affected by certain risks and uncertainties, any one, or a combination of which, could materially affect the results of our operations. To take advantage of the safe harbor provided by the Act, we are identifying certain factors that could cause actual results to differ materially from those expressed in any forward-looking statements, whether oral or written.

As with any business, many aspects of our operations are subject to influences outside our control. These factors include, without limitation, general economic conditions affecting consumer spending, the timing and acceptance of new products in the stores,

Index

the mix of goods sold, purchase price volatility (including inflationary and deflationary pressures), the ability to increase sales at existing stores, the ability to manage growth and identify suitable locations, the ability to manage expenses, the availability of favorable credit sources, capital market conditions in general, failure to open new stores in the manner and number currently contemplated, the impact of new stores on our business, competition, weather conditions, the seasonal nature of our business, effective merchandising initiatives and marketing emphasis, the ability to retain vendors, reliance on foreign suppliers, the ability to attract, train and retain qualified employees, product liability and other claims, changes in federal, state or local regulations, potential judgments, fines, legal fees and other costs, breach of privacy, ongoing and potential future legal or regulatory proceedings, management of our information systems, failure to secure or develop and implement new technologies, the failure of customer-facing technology systems, business disruption including from the implementation of supply chain technologies, effective tax rate changes and results of examination by taxing authorities, the ability to maintain an effective system of internal control over financial reporting and changes in accounting standards, assumptions and estimates. We discuss in greater detail risk factors relating to our business in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2011. Forward-looking statements are based on our knowledge of our business and the environment in which we operate, but because of the factors listed above or other factors, actual results could differ materially from those reflected by any forward-looking statements. Consequently, all of the forward-looking statements made are qualified by these cautionary statements and there can be no assurance that the actual results or developments anticipated will be realized or, even if substantially realized, that they will have the expected consequences to or effects on our business and operations. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. We undertake no obligation to release publicly any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

Results of Operations

Fiscal Three Months (Third Quarter) Ended September 29, 2012 and September 24, 2011

Net sales increased 9.0% to \$1.07 billion for the third quarter of fiscal 2012 from \$977.8 million for the third quarter of fiscal 2011. Same-store sales for the third quarter of fiscal 2012 were \$1.00 billion, a 2.9% increase over the third quarter of fiscal 2011. This compares to an 11.5% same-store sales increase for the third quarter of fiscal 2011 over the third quarter of fiscal 2010. The 2012 same-store sales increase was driven primarily by continued strong results in key consumable, usable and edible ("C.U.E.") products, principally animal- and pet-related merchandise. Inflation was broad-based across all major product categories especially in livestock feed, lubricants, grass seed and fertilizer. This contributed approximately 185 basis points to the 2012 same-store sales increase. In addition to these factors, total net sales benefited from new store growth, as discussed below.

Each quarter of fiscal 2012 starts one week later than the same quarter of fiscal 2011 due to the Company's 2011 fiscal year having 53 weeks versus the normal 52 weeks. Adjusting for the one-week calendar shift, same-store sales for the third quarter of 2011 increased 11.9%.

Store growth was approximately 9.2%, a net increase of 97 stores since September 24, 2011. Non-comp sales (defined as stores opened less than one year) for the third quarter of fiscal 2012 were \$64.1 million, a 6.6% increase over total third quarter fiscal 2011 net sales. Non-comp sales for the third quarter of fiscal 2011 were \$53.1 million, a 6.4% increase over total third quarter fiscal 2010 net sales.

In the third quarter of fiscal 2012, we opened 17 new stores (compared to 12 new stores in the third quarter of fiscal 2011) and closed one store (compared to one closed store in the third quarter of fiscal 2011). We operated 1,151 stores at September 29, 2012 compared to 1,054 stores at September 24, 2011.

The following chart indicates the percentage of sales represented by each of our major product categories for the fiscal three months ended September 29, 2012 and September 24, 2011:

Product Category:	Fiscal three months ended	
	September 29, 2012	September 24, 2011
Livestock and Pet	45%	43%
Hardware, Tools and Truck	24	24
Seasonal, Gift and Toy Products	18	19
Clothing and Footwear	7	7
Agriculture	6	7
Total	100%	100%

Index

Gross margin dollars increased 9.0% to \$357.2 million for the third quarter of fiscal 2012 from \$327.6 million in the third quarter of fiscal 2011. As a percent of sales, gross margin was flat to last year, at 33.5% in the current and prior year's third quarters. Gross margin rate was favorably impacted by sales mix, as the Company sold a reduced percentage of low margin, big ticket products than in the previous year as well as improved inventory shrink results. The Company continues to benefit from key margin-driving initiatives, including strategic sourcing and price optimization. These improvements were offset by increased transportation costs related to increased imports of seasonal goods and the negative impact of the mix shift to freight-intensive C.U.E. products.

As a percent of sales, selling, general and administrative (“SG&A”) expenses, including depreciation and amortization, improved 30 basis points to 26.2% in the third quarter of fiscal 2012 from 26.5% in the third quarter of fiscal 2011. The SG&A improvement as a percent of sales for the third quarter of fiscal 2012 was primarily attributable to lower year-over-year incentive compensation expense and expense control related to other store personnel costs. Total SG&A expenses increased 7.7% to \$279.4 million from \$259.5 million in the third quarter of fiscal 2011. The increase in SG&A expense primarily reflects new store growth, variable costs associated with our same store sales growth, and operating costs relating to the Franklin, KY distribution center that became operational in the fourth quarter of 2011.

Our effective income tax rate decreased to 35.5% in the third quarter of 2012 compared to 36.7% for the third quarter of 2011. The decrease in the tax rate was largely due to a favorable impact of our provision to return reconciliation and the reversal of reserves for uncertain tax positions pursuant to ASC 740-10. These improvements were partially offset by lower federal tax credits, primarily WOTC and the HIRE Act credits, which expired in 2011. The Company expects the full year effective tax rate will be approximately 36.7%.

As a result of the foregoing factors, net income for the third quarter of fiscal 2012 increased 17.1% to \$50.0 million compared to \$42.7 million in the third quarter of fiscal 2011. Net income per diluted share for the third quarter of fiscal 2012 increased to \$0.69 from \$0.58 in the third quarter of fiscal 2011.

Fiscal Nine Months Ended September 29, 2012 and September 24, 2011

Net sales increased 12.9% to \$3.38 billion for the first nine months of fiscal 2012 from \$2.99 billion for the first nine months of fiscal 2011. Same-store sales for the first nine months of fiscal 2012 were \$3.18 billion, a 5.5% increase over the first nine months of fiscal 2011. This compares to an 8.5% same-store sales increase for the first nine months of fiscal 2011 over the first nine months of fiscal 2010. The 2012 same-store sales increase was broad-based across all major product categories. Inflation was also broad-based across all major product categories especially in livestock feed, bird feeding, lubricants and fencing. This contributed approximately 285 basis points to the 2012 same-store sales increase. In addition to these factors, total net sales benefited from new store growth, as discussed below.

Each quarter of fiscal 2012 starts one week later than the same quarter of fiscal 2011 due to the Company's 2011 fiscal year having 53 weeks versus the normal 52 weeks. Adjusting for the one-week calendar shift, same-store sales for the first nine months of fiscal 2011 increased 8.8%. Same-store sales for the first three quarters and fiscal nine months of 2011, adjusted for the one-week calendar shift, are presented in the table below:

	FISCAL 2011			
	First Quarter	Second Quarter	Third Quarter	First Nine Months
Same-store sales increase (originally reported)	10.7%	4.6%	11.5%	8.5%
Same-store sales increase (adjusted for week shift) ⁽¹⁾	7.6%	7.1%	11.9%	8.8%
Impact of week shift	(3.1)%	2.5%	0.4%	0.3%

⁽¹⁾ Due to the 53-week fiscal 2011, each quarter of fiscal 2012 starts one week later than the same quarter of fiscal 2011. The chart above presents same-store sales for 2011 as originally reported and as adjusted to represent the same 13-week period as the 2012 fiscal quarters. The adjusted 13-week periods end on April 2, 2011, July 2, 2011 and October 1, 2011, respectively.

Store growth was approximately 9.2%, a net increase of 97 stores since September 24, 2011. Non-comp sales for the first nine months of fiscal 2012 were \$200.4 million, a 6.7% increase over total first nine months fiscal 2011 net sales. Non-comp sales for the first nine months of fiscal 2011 were \$166.5 million, a 6.4% increase over total first nine months fiscal 2010 net sales.

Index

During the first nine months of fiscal 2012, we opened 68 new stores (compared to 54 new stores in the first nine months of fiscal 2011) and closed two stores (compared to one closed store in the first nine months of fiscal 2011).

The following chart indicates the percentage of sales represented by each of our major product categories for the fiscal nine months ended September 29, 2012 and September 24, 2011:

Product Category:	Fiscal nine months ended	
	September 29, 2012	September 24, 2011
Livestock and Pet	43%	42%
Hardware, Tools and Truck	23	23
Seasonal, Gift and Toy Products	21	21
Clothing and Footwear	7	7
Agriculture	6	7
Total	100%	100%

Gross margin increased 13.7% to \$1.14 billion for the first nine months of fiscal 2012 from \$1.00 billion in the first nine months of fiscal 2011. As a percent of sales, gross margin increased 30 basis points to 33.8% for the first nine months of fiscal 2012 compared to 33.5% for the comparable period in fiscal 2011. The increase in gross margin as a percent of sales resulted primarily from improved direct product margin. Direct product margin increased primarily as a result of continued efforts in our key margin-driving initiatives of inventory management, strategic sourcing, private branding and pricing.

As a percent of sales, SG&A expenses, including depreciation and amortization, improved 90 basis points to 24.6% in the first nine months of fiscal 2012 from 25.5% in the first nine months of fiscal 2011. The SG&A improvement as a percent of sales for the first nine months of fiscal 2012 was primarily attributable to same-store sales growth as well as expense control with respect to store personnel, occupancy and other operating costs. Total SG&A expenses increased 8.8% to \$829.4 million from \$762.5 million in the first nine months of fiscal 2011. The increase in SG&A expense primarily reflects new store growth, variable costs associated with our same store sales growth, and operating costs relating to the Franklin, KY distribution center, which became operational in the fourth quarter of fiscal 2011.

For the first nine months of 2012 our effective tax rate increased slightly to 36.7% compared to 36.6% for the first nine months of 2011.

Net income for the first nine months of fiscal 2012 increased 29.4% to \$197.0 million compared to \$152.2 million in the first nine months of fiscal 2011. Net income per diluted share for the first nine months of fiscal 2012 increased to \$2.69 from \$2.05 in the first nine months of fiscal 2011.

Liquidity and Capital Resources

In addition to normal operating expenses, our primary ongoing cash requirements are for new store expansion, remodeling and relocation programs (including inventory purchases and capital expenditures), distribution center capacity and improvements, information technology, share repurchases and cash dividends. Our primary ongoing sources of liquidity are existing cash balances, funds provided from operations, borrowings available under our Senior Credit Facility, capital and operating leases and normal trade credit. Our inventory and accounts payable levels typically build in the first and third fiscal quarters in anticipation of the spring and cold-weather selling seasons, respectively.

At September 29, 2012, we had working capital of \$619.9 million, a \$9.7 million decrease and a \$50.3 million increase from December 31, 2011 and September 24, 2011, respectively. The shifts in working capital were attributable to changes in the following components of current assets and current liabilities (in millions):

Page 13

Index

	September 29, 2012	December 31, 2011	Variance	September 24, 2011	Variance
Current assets:					
Cash and cash equivalents	\$70.2	\$176.9	\$(106.7)	\$96.6	\$(26.4)
Restricted cash	8.4	21.9	(13.5)	21.9	(13.5)
Inventories	1,020.1	830.8	189.3	913.7	106.4
Prepaid expenses and other current assets	50.9	51.7	(0.8)	40.2	10.7
Deferred income taxes	12.3	8.9	3.4	—	12.3
	1,161.9	1,090.2	71.7	1,072.4	89.5
Current liabilities:					
Accounts payable	362.1	266.4	95.7	340.2	21.9
Accrued employee compensation	29.2	48.3	(19.1)	36.8	(7.6)
Other accrued expenses	125.9	134.0	(8.1)	119.6	6.3
Income taxes payable	24.8	11.9	12.9	2.9	21.9
Deferred income taxes	—	—	—	3.3	(3.3)
	542.0	460.6	81.4	502.8	39.2
Working capital	\$619.9	\$629.6	\$(9.7)	\$569.6	\$50.3

Working capital as of September 29, 2012 decreased \$9.7 million in comparison to December 31, 2011. The major drivers that reduced working capital were a decrease in cash, an increase in accounts payable and an increase in taxes payable, resulting in a combined decrease of \$215.3 million. These negative impacts on working capital were partially offset by an increase in inventories and a decrease in accrued employee compensation, generating a combined increase of \$208.4 million. The changes in cash, inventories and accounts payable resulted primarily from the purchase of incremental inventory to support store growth and seasonal demands. Cash was also negatively impacted by capital expenditures and share repurchases partially offset by stronger earnings. Taxes payable increased as a result of the timing of payments combined with an increase in pretax income. Accrued employee compensation decreased mainly as a result of payouts of prior year incentive compensation amounts earned.

Working capital as of September 29, 2012 increased \$50.3 million in comparison to September 24, 2011. The increase in working capital was principally driven by an increase in inventory of \$106.4 million. This positive impact was partially offset by a decrease in cash, an increase in accounts payable and an increase in taxes payable, resulting in a combined decrease of \$70.2 million. The changes in cash, inventories and accounts payable resulted primarily from the purchase of incremental inventory to support store growth. Cash was also negatively impacted by an increase in capital expenditures and dividends paid. Taxes payable increased as a result of the timing of payments combined with an increase in pretax income.

Operations provided net cash of \$155.8 million and \$111.3 million in the first nine months of fiscal 2012 and fiscal 2011, respectively. The \$44.5 million increase in net cash provided by operations in 2012 over 2011 is due to changes in the following operating activities (in millions):

	Fiscal nine months ended		
	September 29, 2012	September 24, 2011	Variance
Net income	\$197.0	\$152.2	\$44.8
Depreciation and amortization	66.4	56.7	9.7
Stock compensation expense	14.1	10.7	3.4
Excess tax benefit of stock options exercised	(19.7)	(11.9)	(7.8)
Deferred income taxes	(14.8)	(1.9)	(12.9)
Inventories and accounts payable	(93.7)	(84.4)	(9.3)
Prepaid expenses and other current assets	0.8	(6.3)	7.1
Accrued expenses	(30.7)	(10.3)	(20.4)

Edgar Filing: TRACTOR SUPPLY CO /DE/ - Form 10-Q

Income taxes payable	32.7	6.5	26.2
Other, net	3.7	—	3.7
Net cash provided by operations	\$155.8	\$111.3	\$44.5

Page 14

Index

The \$44.5 million improvement in net cash provided by operations in the first nine months of fiscal 2012 compared with the first nine months of fiscal 2011 primarily reflects stronger earnings and an increase in income taxes payable, partially offset by a decrease in accrued expenses. The increase in income taxes payable is primarily attributable to the timing of tax payments and larger pretax income in fiscal 2012. The decrease in accrued expenses is primarily a result of the timing of payroll accruals and lower accrued employee compensation expense.

Investing activities used cash of \$97.4 million and \$112.6 million in the first nine months of fiscal 2012 and fiscal 2011, respectively. The majority of the investing activity cash requirement relates to our capital expenditures, which increased \$3.9 million in the first nine months of fiscal 2012 compared to the first nine months of fiscal 2011. The primary reason for the decrease in cash used for investing activities is the \$13.5 million decrease in the restricted cash balance in the first nine months of fiscal 2012 as compared to a \$21.9 million increase in restricted cash in the first nine months of fiscal 2011. The decrease in restricted cash during the first nine months of fiscal 2012 relates to less cash required as collateral for an outstanding letter of credit at a financial institution outside of the Senior Credit Facility. During the first nine months of fiscal 2011, the maturity of our short-term investment of \$15.9 million was replaced by a \$21.9 million time deposit classified as restricted cash.

Capital expenditures for the first nine months of fiscal 2012 and fiscal 2011 were as follows (in millions):

	Fiscal nine months ended	
	September 29, 2012	September 24, 2011
New and relocated stores and stores not yet opened	\$43.7	\$27.2
Information technology	20.4	8.5
Existing stores	15.2	13.1
Corporate and other	11.6	0.2
Distribution center capacity and improvements	10.4	44.3
Purchase of previously leased stores	9.9	14.0
	\$111.2	\$107.3

The above table reflects 68 new stores in the first nine months of fiscal 2012, compared to 54 new stores during the first nine months of fiscal 2011. We expect to open 93 new stores during fiscal 2012. The increase in expenditures for information technology is primarily related to point-of-sale system upgrades and an update of our e-commerce website, which will include the integration of order management, drop shipment, fulfillment and call center activities. The increase in corporate and other expenses is mainly due to the purchase of an undeveloped parcel of land in Brentwood, TN for a new store support center. The decrease in expenditures for distribution center capacity and improvements is related to the Franklin, KY distribution center, which was constructed in the prior year and became operational in the fourth quarter of 2011.

Financing activities used cash of \$165.2 million and \$159.5 million in the first nine months of fiscal 2012 and fiscal 2011, respectively. This change in net cash used in financing activities is largely due to \$14.9 million more in cash dividends paid to stockholders partially offset by \$8.3 million less in common stock repurchases during the first nine months of fiscal 2012 compared to the first nine months of fiscal 2011.

The Senior Credit Facility provides for borrowings up to \$250 million (with sublimits of \$250 million and \$20 million for letters of credit and swingline loans, respectively). This agreement is unsecured and matures in October 2016, with proceeds available to be used for working capital, capital expenditures, dividends, share repurchases and other matters. At September 29, 2012, there were no outstanding borrowings under the Senior Credit Facility. There were \$41.4 million outstanding letters of credit under the Senior Credit Facility as of September 29, 2012. Borrowings bear interest at either the bank's base rate or LIBOR plus an additional amount ranging from 0.40% to 1.00% per annum, adjusted quarterly based on our leverage ratio (0.50% at September 29, 2012). We are also required to pay quarterly

in arrears, a commitment fee for unused capacity ranging from 0.08% to 0.20% per annum, adjusted quarterly based on our leverage ratio (0.10% at September 29, 2012). The agreement requires quarterly compliance with respect to fixed charge coverage and leverage ratios. As of September 29, 2012, we were in compliance with all debt covenants.

We believe that existing cash balances, expected cash flow from future operations, borrowings available under the Senior Credit Facility, operating and capital leases and normal trade credit will be sufficient to fund our operations and capital expenditure needs, including new store openings, store acquisitions, relocations and renovations, and distribution center capacity, over the next several years.

Index

Share Repurchase Program

The Company's Board of Directors has authorized share repurchases under the share repurchase program up to \$1 billion, exclusive of any fees, commissions, or other expenses related to such repurchases, through April 2015. The repurchases may be made from time to time on the open market or in privately negotiated transactions. The timing and amount of any shares repurchased under the program will depend on a variety of factors, including price, corporate and regulatory requirements, capital availability, and other market conditions. Repurchased shares will be held in treasury. The program may be limited or terminated at any time without prior notice.

We repurchased 680,705 and 805,040 shares under the share repurchase program for a total cost of \$61.3 million and \$49.2 million during the third quarters of 2012 and 2011, respectively. During the first nine months of 2012 and 2011, we repurchased 1,841,405 and 2,961,450 shares under the share repurchase program for a total cost of \$163.8 million and \$172.1 million, respectively. As of September 29, 2012, we had remaining authorization under the share repurchase program of \$399.1 million exclusive of any fees, commissions, or other expenses.

Dividends

We believe our ability to generate cash allows us to invest in the growth of our business and, at the same time, distribute a quarterly dividend. During the first nine months of fiscal 2012, the Board of Directors declared the following dividends:

Date Declared	Dividend Amount Per Share	Stockholders of Record Date	Date Paid
February 8, 2012	\$0.12	February 27, 2012	March 13, 2012
May 2, 2012	\$0.20	May 21, 2012	June 5, 2012
August 1, 2012	\$0.20	August 20, 2012	September 5, 2012

In addition to the above, on October 31, 2012, our Board of Directors declared a quarterly cash dividend of \$0.20 per share of the Company's common stock. The dividend will be paid on December 4, 2012 to stockholders of record as of the close of business on November 19, 2012.

It is the present intention of the Board of Directors to continue to pay a quarterly cash dividend; however, the declaration and payment of future dividends will be determined by the Board of Directors in its sole discretion and will depend upon the earnings, financial condition, and capital needs of the Company, and other factors which the Board of Directors deems relevant.

Off-Balance Sheet Arrangements

Our off-balance sheet arrangements are limited to operating leases and outstanding letters of credit. We typically lease buildings for retail stores and offices rather than acquiring these assets which allows us to utilize financial capital to operate the business rather than invest in fixed assets. Letters of credit allow us to purchase inventory, primarily sourced overseas, in a timely manner and support certain risk management programs.

Significant Contractual Obligations and Commercial Commitments

At September 29, 2012, we had contractual commitments related to a new distribution center in Macon, GA totaling approximately \$30 million, contractual commitments related to other construction projects totaling approximately \$5.6 million and a contractual commitment to purchase one store previously under lease for approximately \$1.8 million.

In August 2012, the Company purchased an undeveloped parcel of land in Brentwood, TN for a new store support center. The Company has no significant contractual commitments related to this project; however, construction is expected to begin by the end of the current year.

There has been no other material changes in our contractual obligations and commercial commitments other than in the ordinary course of business since the end of fiscal 2011.

At September 29, 2012, there were \$41.4 million outstanding letters of credit under the Senior Credit Facility and a \$6.2 million outstanding letter of credit at a financial institution outside of the Senior Credit Facility which is collateralized by a time deposit classified as restricted cash.

Significant Accounting Policies and Estimates

Management's discussion and analysis of our financial position and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with United States generally accepted accounting principles. The preparation of these financial statements requires management to make informed estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. Our significant accounting policies, including areas of critical management judgments and estimates, have primary impact on the following financial statement areas:

- Inventory valuation
- Self-insurance reserves
- Sales tax audit reserve
- Income tax contingencies
- Long-lived assets

See the Notes to the Consolidated Financial Statements in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 for a discussion of our critical accounting policies. Our financial position and/or results of operations may be materially different when reported under different conditions or when using different assumptions in the application of such policies. In the event estimates or assumptions prove to be different from actual amounts, adjustments are made in subsequent periods to reflect more current information.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

We may be exposed to changes in interest rates primarily from the Senior Credit Facility. The Senior Credit Facility bears interest at either the bank's base rate (3.25% at September 29, 2012 and September 24, 2011) or LIBOR (0.21% at September 29, 2012 and 0.24% at September 24, 2011) plus an additional amount per annum adjusted quarterly (ranging from 0.40% to 1.00% at September 29, 2012 and 0.35% to 0.90% at September 24, 2011) based on our leverage ratio (0.50% at September 29, 2012 and 0.40% at September 24, 2011). We are also required to pay (quarterly in arrears) a commitment fee (ranging from 0.08% to 0.20% at September 29, 2012 and 0.06% to 0.18% at September 24, 2011) based on the daily average unused portion of the credit line (0.10% at September 29, 2012 and 0.08% at September 24, 2011). See Note 5 of the Notes to Unaudited Condensed Consolidated Financial Statements included herein for further discussion regarding the Senior Credit Facility.

Seasonality and Weather

Our business is highly seasonal. Historically, our sales and profits have been the highest in the second and fourth fiscal quarters due to the sale of seasonal products. In past years, extreme weather conditions, including snow and ice storms, flood and wind damage, hurricanes, tornadoes and droughts in some states have also affected our sales and results of operations. Our strategy is to reduce or mitigate the impact of extreme weather conditions through geographic dispersion of our stores and taking advantage of our ability to effectively manage inventory allocation.

We experience our highest inventory and accounts payable levels during our first fiscal quarter for purchases of seasonal product in anticipation of the spring selling season and again during our third fiscal quarter in anticipation of the cold-weather selling season.

Purchase Price Volatility

Although we cannot determine the full effect of inflation and deflation on our operations, we believe our sales and results of operations are affected by both. We are subject to market risk with respect to the pricing of certain products

and services, which include, among other items, steel, grain, petroleum, corn, cotton and other commodities as well as transportation services. Therefore, we may experience both inflationary and deflationary pressures on product cost, which may impact consumer demand and, as a result, sales and gross margin. Our strategy is to reduce or mitigate the effects of purchase price volatility principally by taking advantage of vendor incentive programs, economies of scale from increased volume of purchases, adjusting retail prices and selectively buying from the most competitive vendors without sacrificing quality. Should our strategy to mitigate purchase price volatility not be effective, our financial performance could be adversely impacted.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

We carried out an evaluation required by the Securities Exchange Act of 1934, as amended (the “1934 Act”), under the supervision and with the participation of our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the 1934 Act) as of September 29, 2012. Based on this evaluation, our principal executive officer and principal financial officer concluded that, as of September 29, 2012, our disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company responded to a Request for Information from the United States Environmental Protection Agency (“EPA”) in the first quarter of fiscal 2009 relating to certain recreational vehicles and non-road spark ignition engines sold by the Company. In the first quarter of fiscal 2011, the Environmental Enforcement Section of the Department of Justice (“DOJ”), on behalf of the EPA, informed the Company that it believed the Company had violated the Clean Air Act by importing or causing the importation of certain engines that were noncompliant, and that unless the DOJ and the Company were able to reach a settlement, the DOJ was prepared to commence a civil action. The engines were purchased by the Company pursuant to agreements with vendors under which the vendors represented that their products complied with all applicable laws and regulations and under which the vendors agreed to indemnify the Company for any liabilities or costs relating to, among other matters, the noncompliance or alleged noncompliance of their products. The Company notified these vendors of the EPA's position and has been working with these vendors to provide additional information to the DOJ and EPA regarding the alleged violations. As a result of this process, the Company believes it has provided evidence that many of the products identified by the DOJ and EPA were in compliance with the Clean Air Act and that most of the remaining issues relate to products purchased from one vendor. The vendor of these products and the Company are engaged in settlement discussions with the DOJ and EPA that would call for the payment of a civil penalty and certain injunctive relief. In addition, the EPA in May 2012 provided the Company with a summary of preliminary findings based on inspections of certain products sold by the Company. The Company is working with the vendor of these products to provide additional information to EPA. The Company does not expect the resolution of these matters to have a material adverse effect on its financial condition, results of operations or cash flows. We do not believe it is reasonably possible that a loss in excess of the amount accrued will be incurred.

We are also involved in various litigation matters arising in the ordinary course of business. We expect these matters will be resolved without material adverse effect on our consolidated financial position, results of operations or cash flows. We believe that any estimated loss related to such matters has been adequately provided in accrued liabilities to the extent probable and reasonably estimable.

Item 1A. Risk Factors

There have been no material changes to our risk factors as previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

The Company's Board of Directors has authorized share repurchases under the share repurchase program up to \$1 billion through April 2015. Stock repurchase activity during the third quarter of fiscal 2012 was as follows:

Period	Number of Shares Purchased	Average Price Paid Per Share	Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs
July 1, 2012 – July 28, 2012	208,635	\$83.74	208,635	\$442,907,701
July 29, 2012 – August 25, 2012	352,985	91.36	352,985	410,667,182
	119,085	97.27	119,085	399,086,246

August 26, 2012 – September 29,
2012

As of September 29, 2012	680,705	\$90.06	680,705	\$399,086,246
--------------------------	---------	---------	---------	---------------

We expect to implement the balance of the repurchase program through purchases made from time to time either in the open market or through private transactions, in accordance with regulations of the Securities and Exchange Commission.

Item 3. Defaults Upon Senior Securities
