2003 the SCPSC granted a \$70.7 million increase, effective with the first billing cycle in February 2003. This rate increase relates primarily to SCE&G's power generation project recently completed at Urquhart Station and to the Jasper County, South Carolina generating station project, as well as to equipment required for environmental and air quality improvements. The SCPSC based the approved rates on a 12.45 percent authorized return on common equity.
