QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended October 3, 2009

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 1-11681

FOOTSTAR, INC.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of incorporation or organization)

22-3439443
(I.R.S. Employer Identification No.)

933 MacArthur Blvd.,
Mahwah, New Jersey
(Address of principal executive offices)

07430
(Zip Code)

(201) 934-2000
(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Edgar Filing: FOOTSTAR INC - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. (The registrant did not distribute new securities under the plan confirmed by the court; there was no change to the holders of securities as a result of the registrant's reorganization.) Yes No

Number of shares outstanding of common stock, par value \$.01 per share, as of November 5, 2009: 21,575,404

FOOTSTAR, INC. and SUBSIDIARY COMPANIES

1. Nature of Company

Background

Footstar, Inc. (“Footstar”, the “Company”, “we”, “us”, or “our”) is a holding company that operated its businesses through its subsidiaries which principally operated as a retailer selling family footwear through licensed footwear departments in Kmart Corporation (“Kmart”) stores. These operations comprised substantially all of our sales and profits.

Commencing March 2, 2004, Footstar and most of its subsidiaries filed voluntary petitions for reorganization under Chapter 11 of Title 11 of the United States Code (“Bankruptcy Code” or “Chapter 11”) in the United States Bankruptcy Court (“Court”).

On February 7, 2006, we successfully emerged from bankruptcy and paid substantially all our creditors in full with interest.

Dissolution and Liquidation of the Company’s Business

As part of its emergence from bankruptcy in February 2006, substantially all of the Company’s business operations consisted of running licensed footwear departments in Kmart stores pursuant to an Amended and Restated Master Agreement among Kmart, Sears Holding Corporation (“Sears”) and the Company (as amended, the “Kmart Agreement”). The Kmart Agreement expired by its terms at the end of 2008 and during the first fiscal quarter of 2009, the Company received approximately \$55.3 million from Kmart related to the liquidation sale of inventory.

In May 2008, the Board of Directors determined that it was in the best interests of the Company and its stockholders to liquidate and ultimately dissolve after the expiration of the Kmart Agreement in December 2008 (and other miscellaneous contracts through the end of such term) and to sell and/or dispose of any of the Company’s other remaining assets, including its owned property in Mahwah, New Jersey, which contains its corporate headquarters building, improvements and 21 acres of underlying land (collectively, the “Mahwah Real Estate”). In May 2008, the Board of Directors approved a Plan of Complete Liquidation of Footstar, Inc. (the “Original Plan”), which provides for the complete liquidation and ultimate dissolution of the Company after the expiration of the Kmart Agreement on December 31, 2008.

The Board amended the Original Plan on March 5, 2009. The Amended Plan of Complete Dissolution and Liquidation of Footstar, Inc. (the “Plan of Dissolution”) reflects technical and legal changes to the Original Plan consistent with Delaware corporate law and is intended to modify, supersede and replace the Original Plan in order to more efficiently facilitate the liquidation and dissolution of the Company in the best interests of stockholders. The Plan of Dissolution provides for the complete, voluntary liquidation of the Company by providing for the sale of its remaining assets and the wind-down of the Company’s business as described in the Plan of Dissolution and for distributions of available cash to stockholders as determined by the Board of Directors (the “Dissolution”).

The Plan of Dissolution was approved by stockholders at a special meeting on May 5, 2009. Also on May 5, 2009, the Company filed a certificate of dissolution with the Secretary of State of Delaware, which commenced a three-year statutory liquidation process. On May 6, 2009 the stockholders of record on April 30, 2009 were paid an initial liquidating distribution in the amount of \$2.00 per share. The Company began implementing the Plan of Dissolution immediately following its approval.

FOOTSTAR, INC. and SUBSIDIARY COMPANIES

On September 10, 2009, the stockholders of record on August 28, 2009 were paid a liquidating distribution in the amount of \$.40 per share.

2. Basis of Presentation

The consolidated financial statements have been prepared by the Company without audit in accordance with the rules and regulations of the Securities and Exchange Commission (the "SEC"), and should be read in conjunction with the audited Consolidated Financial Statements previously filed on the Company's Form 10-K for the fiscal year ended January 3, 2009. In the opinion of management, the statements reflect all adjustments necessary for a fair presentation of the results of interim periods.

Certain information and note disclosures, normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America, which are not required for interim purposes, have been condensed or omitted. The results for any interim period are not necessarily indicative of the results to be expected for a full year.

The consolidated financial statements for the period January 4, 2009 through May 5, 2009 and for all periods presented for fiscal 2008 were prepared on the going concern basis of accounting, which contemplates realization of assets and satisfaction of liabilities in the normal course of business. As a result of the stockholder' approval of the Plan of Dissolution, the Company adopted the liquidation basis of accounting effective May 6, 2009. This basis of accounting is considered appropriate when, among other things, liquidation of a company is probable and the net realizable values of assets are reasonably determinable. Under this basis of accounting, assets are valued at their net realizable values and liabilities are stated at their estimated settlement amounts.

The conversion from the going concern to liquidation basis of accounting required management to make significant estimates and judgments. In order to record assets at estimated net realizable value and liabilities at estimated settlement amounts under the liquidation basis of accounting, the Company recorded the following adjustments to record its assets and liabilities at fair value as of May 6, 2009, the date of adoption of the liquidation basis of accounting:

	(\$ in millions)
Adjust assets and liabilities to fair value:	
Write down of Other Assets	\$ 1.2
Total	\$ 1.2

Accrued Cost of Liquidation

Under the liquidation basis of accounting, the Company has accrued for the estimated known costs to be incurred in liquidation, as follows:

	(\$ in millions)
Compensation and Benefits Costs	\$ 3.3
Professional Fees, Board of Director Fees, and Insurance Costs	2.8
General Administrative and Other Costs	1.5
Headquarter Building Costs	2.4
Total Estimated Expenses	\$ 10.0

The Company recorded a \$10.0 million liquidating expense accrual to adjust its assets and liabilities to fair value as of May 5, 2009. The conversion required management to make significant estimates and judgments. In order to record assets at estimated net realizable value and liabilities at estimated settlement amounts under the liquidation basis of accounting, the Company recorded a \$10.0 million liquidating expense accrual on its balance sheet as of May 5, 2009, the date of adoption of the liquidation basis of accounting. The Company converted to liquidation accounting effective May 6, 2009.

FOOTSTAR, INC. and SUBSIDIARY COMPANIES

The Company will continue to incur certain operating costs and receive income on its investments throughout the liquidation period. On a regular basis, we will evaluate our assumptions, judgments and estimates that can have a significant impact on our reported net assets in liquidation based on the most recent information available to us, and when necessary make changes accordingly. Actual costs and income may differ from our estimates, which might reduce net assets available in liquidation to be distributed to stockholders. Subsequent to the adoption of the liquidation basis of accounting, during the period July 5, 2009 to October 3, 2009, the Company recorded an additional liquidating expense accrual of \$0.1 million and received cash proceeds from the sale of certain assets of \$0.5 million.

The Company expects to make further distributions to its stockholders of its remaining cash, less any amount applied to or reserved for actual or contingent liabilities (which may be deposited in a liquidating trust). The amounts reserved will be based on a determination by the board of directors, derived from consultation with management and outside experts, if the board of directors determines that it is advisable to retain such experts, and a review of, among other things, our estimated contingent liabilities and our estimated ongoing expenses, including, but not limited to, payroll, legal expenses, regulatory filings and other miscellaneous expenses. Each stockholder will receive his or her pro rata share of each distribution based on the number of shares held on the record date for such distribution.

If at the end of the statutory three-year dissolution period on May 5, 2012, the Company has unsettled liabilities (i.e. Office Lease Guarantee, etc) as more fully discussed in Note 9, it may determine to transfer its remaining assets and liabilities to a liquidating trust.

3. Impact of Recently Issued Accounting Standards

In June 2009, the Financial Accounting Standards Board (“FASB”) issued its final Statement of Financial Accounting Standards (“SFAS”) No. 168 – “The FASB Accounting Standards ASC Topic and the Hierarchy of Generally Accepted Accounting Principles a replacement of FASB Statement No. 162”. (“SFAS NO. 168”). SFAS No. 168 made the FASB Accounting Standards Codification (the “ASC”) the single source of U.S. Generally Accepted Accounting Policies (“U.S. GAAP”) used by nongovernmental entities in the preparation of financial statements, except for rules and interpretive releases of the SEC under authority of federal securities laws which are sources of authoritative accounting guidance for SEC registrants. The ASC is meant to simplify user access to all authoritative accounting guidance by reorganizing U.S. GAAP pronouncements into roughly 90 accounting topics within a consistent structure: its purpose is not to create new accounting and reporting guidance. The ASC superseded all existing non-SEC accounting and reporting standards and was effective for the Company beginning July 1, 2009. Following SFAS No. 168, the Board will not issue new standards in the form of Statements, FASB Staff Positions, or Emerging Issues Task Force Abstracts; instead, it will issue Accounting Standards Updates. The FASB will not consider Accounting Standards Updates (“ASU”) as authoritative in their own right; these updates will serve only to update the ASC topic, provide background information about the guidance, and provide the bases for conclusions on the change(s) in the ASC. In the description of ASC and ASU that follows, references relate to ASC or ASU topics and their descriptive titles, as appropriate.

In May 2009, the FASB issued guidance now codified as FASB ASC Topic 855, “Subsequent Events,” which establishes general standards of accounting for, and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. This guidance is effective for interim or fiscal periods ending after June 15, 2009. The adoption of this guidance did not have a material impact on our consolidated financial position, results of operations or cash flows. The Company evaluated all events or transactions after October 3, 2009 to November 6, 2009, and has concluded that there are no significant subsequent events requiring recognition or disclosure in these consolidated financial statements.

FOOTSTAR, INC. and SUBSIDIARY COMPANIES

Effective January 1, 2008, the Company adopted FASB ASC Topic 820, "Fair Value Measurement and Disclosure," which defines fair value, establishes a framework for measuring fair value under generally accepted accounting principles and expands disclosure about fair value measurements. The Company uses the following methods for determining fair value in accordance with FASB ASC Topic 820. For assets and liabilities that are measured using quoted prices in active markets for the identical asset or liability, the total fair value is the published market price per unit multiplied by the number of units held without consideration of transaction costs (Level 1). Assets and liabilities that are measured using significant other observable inputs are valued by reference to similar assets or liabilities, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data (Level 2). For all remaining assets and liabilities for which there are no significant observable inputs, fair value is derived using an assessment of various discount rates, default risk, credit quality and the overall capital market liquidity (Level 3).

The following table summarizes the basis used to measure certain financial assets and liabilities at fair value on a recurring basis in the consolidated balance sheet:

Fair Value Measurements at October 3, 2009 Using

(In millions)	Balance at October 3, 2009	Quoted Prices in Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Description				
Cash	\$1.1	\$1.1	\$-	\$ -
Money Market Funds	17.2	17.2	-	-

Money Market Funds – money market funds are valued using quoted market prices. Accordingly, money market funds are categorized in Level 1 of the fair value hierarchy.

4. Reduction in Workforce

The Company currently has five employees, including one officer, to assist in the liquidation process. Cash payments to terminated employees totaling approximately \$5.5 million were paid during the period of January 4, 2009 to May 5, 2009. As of October 3, 2009, the Company has an accrual of approximately \$39,000 relating to severance and benefit costs included in accrued expenses. In order to continue to retain key employees as it liquidates its businesses, the Company may commit to additional cash charges when and if such plans are approved by the Board of Directors.

FOOTSTAR, INC. and SUBSIDIARY COMPANIES

The following is a reconciliation of the beginning and ending severance and benefit costs accrual for the nine-month period ended October 3, 2009 (in millions):

	For the period January 4, 2009 to October 3, 2009
Beginning balance of termination benefits accrual	\$6.76
Costs charged to expense	1.25
Cash payments	(7.97)
Ending balance of termination benefits accrual	\$0.04

5. Real Estate

In connection with the expiration of the Kmart Agreement, the Company has been marketing its Mahwah Real Estate which was classified as assets held for sale at January 3, 2009. As of October 3, 2009, the Company estimates that the fair value of the real estate, less estimated closing costs, is approximately \$6.2 million.

The Company's mortgage, assumed in connection with the purchase of the Mahwah Real Estate, totals approximately \$1.0 million and is included in accrued expense as of October 3, 2009. We believe that the recorded value of the mortgage approximates its current fair value since the obligation is expected to be settled within 6 months.

6. Earnings Per Share

Basic earnings per share ("EPS") is computed by dividing net (loss) income available for common stockholders by the weighted average number of common shares outstanding for the period. Diluted EPS is computed by dividing net (loss) income available to common stockholders by the weighted average shares outstanding, after giving effect to the potential dilution that could occur if outstanding options or other contract or obligations to issue common stock were exercised or converted.

The following table reflects average shares outstanding used to compute basic and diluted (loss) earnings per share (in millions):

	For the period January 4, 2009 to May 5, 2009	Three Months Ended September 27, 2008	Nine Months Ended September 27, 2008
Average shares outstanding	21.3	21.0	20.8
Average contingently issuable shares (1)	-	0.1	0.1
Average shares outstanding – basic	21.3	21.1	20.9
Average shares outstanding – diluted	21.3	21.2	21.0

(1) The computation of diluted EPS does not assume conversion, exercise or issuance of shares that would have an anti-dilutive effect on EPS. During the period of January 4, 2009 – May 5, 2009 we had a net loss; as a result, any

assumed conversions would result in reducing the loss per share and, therefore, are not included in the calculation. Shares which were not included in the calculation of diluted EPS because to do so would have been anti-dilutive, totaled 260,125 shares for the period of January 4, 2009 – May 5, 2009.

FOOTSTAR, INC. and SUBSIDIARY COMPANIES

7. Comprehensive Income (Loss)

The components of comprehensive income (loss) consisted of the following (in millions):

	For the period January 4, 2009 to May 5, 2009	Three Months Ended September 27, 2008	Nine Months Ended September 27, 2008
Comprehensive Income (Loss):			
Net loss	\$(3.7)	\$0.1	\$29.0
Defined postretirement benefit plan, net of tax:	-	-	(7.7)
Amortization of prior service credit	-	-	(0.6)
Amortization of actuarial gain	-	-	(0.2)
Comprehensive Income (Loss)	\$(3.7)	\$0.1	\$20.5

8. Income Taxes

The 2008 income tax provision relates to the estimated income tax obligation of our stores located in Puerto Rico, Guam and the Virgin Islands, which do not have net operating losses available to offset income. The Company did not have any operations in these locations during the period ended October 3, 2009.

As of October 3, 2009, all of the Company's deferred tax assets continue to be subject to a full valuation allowance, including the net operating losses available to offset future taxable income.

9. Commitments and Contingencies

Litigation Matters

The Company is involved in various and routine litigation matters, which arise through the normal course of business. Management believes that the resolution of these matters will not have a material adverse effect on the final liquidation of the Company. While it firmly maintains that all pending claims are meritless, the Company will continue to expend costs as it vigorously defends against these claims.

In connection with the Company's discontinued operations in 1995, the Company entered into two subleases of locations formerly occupied by its Thom McAn stores. One of these subleases expired on December 31, 2008. The other lease expires effective February 1, 2014. The Company believes that there has been a novation of its obligations under such lease and may in the future bring litigation to have a court finally determine such issue.

10. Special Cash Distribution

On January 8, 2009, the Company announced that its Board of Directors declared a special cash distribution to stockholders in the amount of \$1.00 per common share. The Company recorded this distribution effective the date the declaration was made by the Board of Directors. The special cash distribution of approximately \$21.6 million was paid on January 27, 2009 to holders of record at the close of business on January 20, 2009.

On April 20, 2009, the Company announced that its Board of Directors declared a special cash distribution to stockholders in the amount of \$2.00 per common share. The special cash distribution of approximately \$43.2 million

was paid on May 6, 2009 to holders of record at the close of business on April 30, 2009.

12

FOOTSTAR, INC. and SUBSIDIARY COMPANIES

On August 18, 2009, the Company announced that its Board of Directors declared a special cash distribution to stockholders in the amount of \$.40 per common share. The special cash distribution of approximately \$8.6 million was paid on September 10, 2009 to holders of record at the close of business on August 28, 2009.

The aggregate amount of any remaining liquidation distribution to our stockholders is expected to be in the range of \$.60 to \$.74 per common share. However, uncertainties as to the ultimate amount of our liabilities make it impossible to predict with certainty the actual aggregate net amounts that will ultimately be available for distribution to stockholders or the timing of any such distributions. Such amount and timing will depend on a number of factors, several of which cannot be determined at this time, including:

- 1) the ultimate amount of our known, unknown and contingent debts and liabilities;
- 2) the fees and expenses incurred by us in the liquidation of our assets; and
- 3) the ultimate proceeds from the sale of the Mahwah Real Estate.

As a result, the amount of cash remaining following completion of our liquidation could vary significantly from our current estimates.

11. Letters of Credit

We entered into standby letters of credit to secure certain obligations, including insurance programs and duties related to the import of our merchandise. As of October 3, 2009, we had standby letters of credit which were cash collateralized at 103% of face value, plus a reserve for future fees (the "L/C Cash Collateral") totaling \$5.4 million, with Bank of America as issuing bank. In connection therewith, Bank of America has been granted a first priority security interest and lien upon the L/C Cash Collateral. Amounts will be refunded to the Company as the letters of credit are reduced, terminated or expired. Amounts are included in prepaid expenses.

12. Stock Options

The Company has adopted FASB ASC Topic 718 "Compensation – Stock Compensation," which requires all companies to measure and recognize compensation expense at fair value for all stock-based payments to employees and directors. The Company uses the Black-Scholes option-pricing model to estimate fair value of grants of employee and director stock options.

The Company calculates expected volatility for a share-based grant based on historic daily stock price observations of our common stock during the period immediately preceding the grant that is equal in length to the expected term of the grant. FASB ASC Topic 718 also requires that estimated forfeitures be included as a part of the estimate of expense as of the grant date. The Company has used historical data to estimate expected employee behaviors related to option term, exercises and forfeitures. With respect to both grants of options and awards of restricted stock, the risk free rate of interest is based on the U.S. Treasury rates appropriate for the expected term of the grant or award. Stock option expense relating to stock options was \$0 for the period of January 4, 2009 – May 5, 2009. A summary of option activity as of October 3, 2009 and changes during the nine months ended is presented below.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Forward-Looking Statements

This report contains forward-looking statements made in reliance upon the safe harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). These statements may be identified by the use of words such as "anticipate," "estimates," "should," "expect," "project," "intend," "plan," "believe" and other words and terms of similar meaning, in connection with any discussion of our financial statements, business, results of operations, liquidity, future operating or financial performance and other future events and circumstances. Factors that could affect our forward-looking statements include, among other things:

- the impact of any dividends or any other special distributions to stockholders on the Company's future cash requirements and liquidity needs, both in connection with the wind-down of the Company's operations and all contingencies;
- under the Plan of Dissolution, the Company's remaining assets will be disposed of, known liabilities will be paid or provided for and reserves will be established for contingent liabilities, with only any remaining assets available for ultimate distribution;
- uncertainties exist as to the disposition value of our remaining assets as well as the amount of our liabilities and obligations, and, in connection with the Plan of Dissolution and our Dissolution, there can be no assurance as to the amount of any cash or other property that may potentially be distributed to stockholders or the timing of any distributions;
 - we do not expect to be able to fully realize the benefits of our net operating loss carry forwards; and
- the difficulty of selling the Mahwah Real Estate on satisfactory terms, taking into account the current decline in the economic conditions and the current disruption in the capital and credit markets.

Because the information in this Quarterly Report on Form 10-Q is based solely on data currently available, it is subject to change and should not be viewed as providing any assurance regarding our future. Actual results, operations, performance, events, plans and expectations may differ materially from our current expectations and the differences may be material, individually or in the aggregate, to our business, financial condition, and results of operations, liquidity and prospects. Additionally, we do not plan to update any of our forward-looking statements based on changes in assumptions, changes in results or other events subsequent to the date of this Quarterly Report on Form 10-Q, other than as included in our future required SEC filings, or as may otherwise be legally required.

The following discussion should be read in conjunction with the unaudited consolidated financial statements in Item 1 of this Quarterly Report on Form 10-Q.

14

FOOTSTAR, INC. and SUBSIDIARY COMPANIES

RECENT EVENTS

On August 18, 2009, the Company announced that its Board of Directors declared a special cash distribution to stockholders in the amount of \$.40 per common share. The special cash distribution of approximately \$8.6 million was paid on September 10, 2009 to holders of record at the close of business on August 28, 2009.

Following stockholder approval of the Plan of Dissolution on May 5, 2009 and the filing of a certificate of dissolution with the Delaware Secretary of State that day, the Plan of Dissolution took effect. Since May 5, 2009, pursuant to the Plan of Dissolution our activities have been limited to actions we deem necessary or appropriate to accomplish, inter alia, the following:

- remaining in existence as a non-operating entity for at least three years following the filing of the certificate of dissolution on May 5, 2009, as required under Delaware law;
- completing the sale or liquidation of the Company's remaining assets that are held for sale, principally consisting of the Mahwah Real Estate, which may include, without limitation, entering into commercial leases to enhance or facilitate the disposition of real estate, if advisable;
 - the adoption by the Company of the liquidation basis of accounting effective May 6, 2009;
 - collecting, or providing for the collection of debts and other claims owing to the Company;
- paying, or providing for the payment of, our debts and liabilities, including both known liabilities and those that are contingent, conditional, unmatured or unknown, in accordance with Delaware law;
- winding up our remaining business activities and withdrawing from any jurisdiction in which we remain qualified to do business;
 - complying with the SEC's filing requirements for so long as we are required to do so;
 - making ongoing tax and other regulatory filings; and
- preparing to make, and making, distributions to our stockholders of any liquidation proceeds that may be available for such distributions.

Under Delaware law, subject to the terms of the Plan of Dissolution, our Board of Directors may take such actions as it deems necessary or appropriate in furtherance of the Dissolution and the winding up of the Company's affairs.

Due to the shortened time period during 2009 as a result of the adoption of the liquidation basis of accounting effective May 6, 2009, these numbers are not comparable

FOOTSTAR, INC. and SUBSIDIARY COMPANIES

Net Sales

Due to the expiration of the Kmart Agreement at the end of 2008, there were no net sales for the period January 4, 2009 to May 5, 2009. Net sales were \$404.3 million for the nine months ended September 27, 2008.

Liquidation of Inventory

Liquidation of inventory for the period January 4, 2009 to May 5, 2009 of \$2.5 million represents the amount received from Kmart relating to the resolution of the disputed amounts of the liquidation of the inventory on hand as of December 31, 2008. There was no liquidation of inventory for the nine months ended September 27, 2008.

Gross Profit

For the period January 4, 2009 to May 5, 2009, the Company had gross profit of \$2.5 million. Gross profit was \$119.4 million for the nine months ended September 27, 2008.

Store Operating, Selling, General and Administrative Expenses

Store operating, selling, general and administrative expenses for the period January 4, 2009 to May 5, 2009 of \$6.5 million primarily represent costs associated with the wind-down of the Company, including compensation and benefits (\$4.3 million), facility costs (\$0.6 million), professional fees (\$1.1 million) and other miscellaneous costs (\$0.5 million). Selling, general and administrative expenses were \$109.2 million for the nine months ended September 27, 2008.

Depreciation and Amortization

All the Company's assets were fully depreciated as of January 3, 2009, with the exception of the Mahwah Real Estate, which has been accounted for as an asset held for sale, and reflected at estimated fair market value and therefore no depreciation expense was recorded during the period January 4, 2009 to May 5, 2009. The Company had depreciation and amortization expense of \$3.7 million for the nine months ended September 27, 2008.

Operating Loss

Operating loss decreased to (\$3.7) million in the period January 4, 2009 to May 5, 2009 compared with operating profit \$28.8 million for the nine months ended September 27, 2008 primarily due to the wind-down costs of the Company incurred from January 4, 2009 to May 5, 2009.

Liquidity and Capital Resources

Our primary uses of cash are funding wind-down expenses. The Company also has and continues to incur additional severance, liquidation costs and professional fees in connection with the wind-down of its business. The Company intends to fund such cash requirements through current balances in cash and cash equivalents. The Amended Credit Facility, dated May 9, 2008, between the Company and the Bank of America, N.A. (the "Amended Credit Facility"), matured on December 31, 2008 and all amounts due thereunder were paid as of that date. At October 3, 2009, we had cash and cash equivalents of approximately \$18.3 million.

FOOTSTAR, INC. and SUBSIDIARY COMPANIES

On January 8, 2009, the Company announced that its Board of Directors declared a \$1.00 per share special cash distribution to stockholders of record as of January 20, 2009. The distribution totaling \$21.6 million was paid on January 27, 2009 from current balances in cash and cash equivalents.

On April 20, 2009, the Company announced that its Board of Directors declared a special cash distribution to stockholders in the amount of \$2.00 per common share. The special cash distribution of \$43.2 million was paid on May 6, 2009 to holders of record at the close of business on April 30, 2009.

On August 18, 2009, the company announced that its Board of Directors declared a special cash distribution to stockholders in the amount of \$.40 per common share. The special cash distribution of approximately \$8.6 million was paid on September 10, 2009 to holders of record at the close of business on August 28, 2009.

Net cash provided by operating activities for the reporting period of January 4, 2009 to May 5, 2009 was \$43.9 million, primarily consisting of a decrease in accounts receivable of \$56.9 million (primarily related to the liquidation of our inventory on hand as of December 31, 2008) and miscellaneous items of \$1.0 million partially offset by net loss from continuing operations of \$3.7 million and a decrease of accrued expenses of \$10.3 million.

Factors that could affect our short and long term liquidity relate primarily to the final wind-down of the businesses and include, among other things, the payment of any further dividends or distributions, our ability to sell our Mahwah Real Estate on acceptable terms and the timing of any such sale, and managing costs associated with the management, liquidation and dissolution of the Company.

The Board of Directors approved the Plan of Dissolution on March 5, 2009, which is intended to modify, supersede and replace the Original Plan in order to more efficiently facilitate the liquidation and dissolution of the Company in the best interests of stockholders. The Plan of Dissolution was approved by stockholders at a special meeting on May 5, 2009. The Plan of Dissolution provides for the complete liquidation of the Company by providing for the sale of the Company's remaining assets and the wind-down of the Company's business as described in the Plan of Dissolution and for distributions of available cash to stockholders as determined by the Board of Directors.

During the first fiscal quarter of 2009, the Company received proceeds of approximately \$55.3 million in connection with the sale of inventory to Kmart pursuant to the Kmart Agreement. In addition, during the first fiscal quarter of 2009, the Company received proceeds of approximately \$1.3 million in connection with the sale of its remaining Rite-Aid inventory.

We plan to sell or liquidate any remaining assets and pay all of our known and undisputed liabilities and obligations. In the future, we may establish a contingency reserve to cover any unknown, disputed or contingent liabilities and intend to distribute remaining amounts to stockholders as and when our Board of Directors deems appropriate. We intend to distribute remaining liquidation proceeds as promptly as practicable following the sale or liquidation of our remaining assets, subject to payment or provisions for the payment of known obligations and establishing a contingency reserve. It is possible that unanticipated lawsuits or other claims will be asserted against us, which could result in certain distributions to our stockholders being delayed for possibly several years until the resolution of any such lawsuit or claim. Any sales of our assets will be made in private or public transactions and on such terms as are approved by our Board of Directors. Under the Plan of Dissolution, we may, if we deem it advisable, enter into commercial leases to enhance or facilitate the disposition of our real estate.

FOOTSTAR, INC. and SUBSIDIARY COMPANIES

Amended Credit Facility

As of January 1, 2009, the Amended Credit Facility was terminated.

We entered into standby letters of credit to secure certain obligations, including insurance programs and duties related to the import of our merchandise. As of October 3, 2009, we had standby letters of credit which were cash collateralized at 103% of face value, plus a reserve for future fees (the "L/C Cash Collateral") totaling \$5.4 million, with Bank of America as issuing bank. Accordingly, Bank of America has been granted a first priority security interest and lien upon the L/C Cash Collateral. Amounts held in the L/C Cash Collateral will be refunded to the Company as letters of credit are reduced, terminated or expire.

Legal Proceedings

The Company is involved in various and routine litigation matters, which arise through the normal course of business. Management believes that the resolution of these matters will not have a material adverse effect on the final liquidation of the Company. While it firmly maintains that all pending claims are meritless, the Company will continue to expend costs as it vigorously defends against these claims.

Critical Accounting Estimates

Our discussion of results of operations and financial condition relies on our condensed consolidated financial statements that are prepared based on certain critical accounting estimates that require management to make judgments and estimates that are subject to varying degrees of uncertainty. We believe that investors need to be aware of these estimates and how they impact our financial statements as a whole, as well as our related discussion and analysis presented herein. While we believe that these accounting estimates are based on sound measurement criteria, actual future events can and often do result in outcomes that can be materially different from these estimates or forecasts.

The critical accounting estimates and related risks described in the Company's Annual Report on Form 10-K for fiscal year ended January 3, 2009 (the "2008 Annual Report") are those that depend most heavily on these judgments and estimates. As of October 3, 2009, there have been no material changes to any of the critical accounting estimates contained in the 2008 Annual Report.

Effective January 1, 2008, the Company adopted FASB ASC Topic 820, "Fair Value Measurement and Disclosure," which defines fair value, establishes a framework for measuring fair value under generally accepted accounting principles and expands disclosure about fair value measurements. The Company uses the following methods for determining fair value in accordance with FASB ASC Topic 820. For assets and liabilities that are measured using quoted prices in active markets for the identical asset or liability, the total fair value is the published market price per unit multiplied by the number of units held without consideration of transaction costs (Level 1). Assets and liabilities that are measured using significant other observable inputs are valued by reference to similar assets or liabilities, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data (Level 2). For all remaining assets and liabilities for which there are no significant observable inputs, fair value is derived using an assessment of various discount rates, default risk, credit quality and the overall capital market liquidity (Level 3).

FOOTSTAR, INC. and SUBSIDIARY COMPANIES

In June 2009, the Financial Accounting Standards Board (“FASB”) issued its final Statement of Financial Accounting Standards (“SFAS”) No. 168 – “The FASB Accounting Standards ASC Topic and the Hierarchy of Generally Accepted Accounting Principles a replacement of FASB Statement No. 162”. (“SFAS NO. 168”). SFAS No. 168 made the FASB Accounting Standards Codification (the “ASC”) the single source of U.S. Generally Accepted Accounting Policies (“U.S. GAAP”) used by nongovernmental entities in the preparation of financial statements, except for rules and interpretive releases of the SEC under authority of federal securities laws which are sources of authoritative accounting guidance for SEC registrants. The ASC is meant to simplify user access to all authoritative accounting guidance by reorganizing U.S. GAAP pronouncements into roughly 90 accounting topics within a consistent structure: its purpose is not to create new accounting and reporting guidance. The ASC superseded all existing non-SEC accounting and reporting standards and was effective for the Company beginning July 1, 2009. Following SFAS No. 168, the Board will not issue new standards in the form of Statements, FASB Staff Positions, or Emerging Issues Task Force Abstracts; instead, it will issue Accounting Standards Updates. The FASB will not consider Accounting Standards Updates (“ASU”) as authoritative in their own right; these updates will serve only to update the ASC topic, provide background information about the guidance, and provide the bases for conclusions on the change(s) in the ASC. In the description of ASC and ASU that follows, references relate to ASC or ASU topics and their descriptive titles, as appropriate.

In May 2009, the FASB issued guidance now codified as FASB ASC Topic 855, “Subsequent Events,” which establishes general standards of accounting for, and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. This guidance is effective for interim or fiscal periods ending after June 15, 2009. The adoption of this guidance did not have a material impact on our consolidated financial position, results of operations or cash flows. The Company evaluated all events or transactions after October 3, 2009 to November 6, 2009, and has concluded that there are no significant subsequent events requiring recognition or disclosure in these consolidated financial statements.

ITEM 4. Controls and Procedures.

The Company has established controls and procedures designed to ensure that information required to be disclosed in the reports that the Company files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms and is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer to allow timely decisions regarding required disclosure. The Company’s management, with the participation of our Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) or 15d-15(e) under the Exchange Act) as of the end of the period covered by this report (the “Evaluation Date”). There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the Evaluation Date, our disclosure controls and procedures were effective.

We identified no change in our internal control over financial reporting that occurred during the quarterly period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. Legal Proceedings.

The information set forth under the caption “Litigation Matters” in Note 9 to the Condensed Consolidated Financial Statements is incorporated herein by reference.

FOOTSTAR, INC. and SUBSIDIARY COMPANIES

ITEM 1A. Risk Factors.

There are many factors that our shareholders should consider when deciding whether to invest in our common stock. Such factors include the risk factors set out in our publicly filed reports, including our Annual Report on Form 10-K for the fiscal year ended January 3, 2009, which report is incorporated herein by reference, as well as the factors set forth below.

We cannot determine with certainty the amount of distributions that will be made to our shareholders.

We cannot determine with precision at this time the amount of distributions to our shareholders pursuant to the Plan of Dissolution. This determination depends on a variety of factors, including, but not limited to, the amount required to settle known and unknown debts and liabilities, the resolution of any contingent liabilities, the amount of any necessary or appropriate contingency reserve, the net proceeds, if any, from the sale of our remaining assets, and other factors.

Adverse U.S. economic conditions and the current turmoil in the U.S. capital and credit markets could limit demand for our owned property in Mahwah, New Jersey, which contains our corporate headquarters building, improvements and 21 acres of underlying land, and, thus, we may not be able to timely sell our property in Mahwah or on acceptable terms.

The economy in the United States is currently experiencing unprecedented disruptions, including increased levels of unemployment, the failure and near failure of a number of large financial institutions, reduced liquidity and increased credit risk premiums for a number of market participants. Economic conditions may be affected by numerous factors, including inflation and employment levels, energy prices, recessionary concerns, changes in currency exchange rates, the availability of debt and interest rate fluctuations. At this time, it is unclear whether, and to what extent, the actions taken by the U.S. government, including the passage of the Emergency Stabilization Act of 2008, the Troubled Assets Relief Program, the American Recovery and Reinvestment Act of 2009 and other measures currently being implemented or contemplated will mitigate the effects of the crisis. The current turmoil in the capital and credit markets could limit demand for our owned Mahwah Real Estate, which consists of our corporate headquarters building, improvements and 21 acres of underlying land and which we have been marketing since March 2007. At this time we cannot predict the extent or duration of any negative impact that the current disruptions in the U.S. economy will have on our ability to timely sell the Mahwah Real Estate or on acceptable terms.

We may not be able to settle all of our obligations to creditors.

We have current obligations to creditors. Our estimate of ultimate distributions to our shareholders takes into account all of our known obligations and our best estimate of the amount reasonably required to satisfy such obligations. As part of our Dissolution process, we will attempt to settle those obligations with our creditors. We cannot assure you that we will be able to settle all of these obligations or that they can be settled for the amounts we have estimated for purposes of calculating the likely distribution to shareholders. If we are unable to reach agreement with a creditor relating to an obligation, that creditor may bring a lawsuit against us. Amounts required to settle obligations or defend lawsuits in excess of the estimated amounts will result in distributions to shareholders that are smaller than those that we presently estimate or may eliminate distributions entirely.

FOOTSTAR, INC. and SUBSIDIARY COMPANIES

We continue to incur claims, liabilities and expenses, which reduce the amount available for distribution to shareholders.

We continue to incur claims, liabilities and expenses (such as salaries and benefits, directors' and officers' insurance, payroll and local taxes, facilities costs, legal, accounting and consulting fees and miscellaneous office expenses) as we wind up. These expenses reduce the amount ultimately available for distribution to our shareholders.

Each shareholder may be liable to our creditors for an amount up to the amount distributed to such shareholder by us if our reserves for payments to creditors are inadequate.

Even though we are a dissolved corporation, as required by Delaware law, we will continue to exist as a non-operating entity for at least three years after the Dissolution became effective, which was on May 5, 2009, or for such longer period as the Delaware Court of Chancery directs, for the purpose of prosecuting and defending lawsuits, settling and closing our business, disposing of our property, discharging our liabilities and distributing to our shareholders any remaining assets. Under applicable Delaware law, in the event we do not resolve all claims against the Company, each of our shareholders could be held liable for payment to our creditors up to the amount distributed to such shareholder in the liquidation. In such event, a shareholder could be required to return up to all amounts received as distributions pursuant to the Plan of Dissolution and ultimately could receive nothing under the Plan of Dissolution. Moreover, even though a shareholder has paid taxes on amounts previously received, a repayment of all or a portion of such amount will not result in a recalculation of the gain or loss on the liquidation. Instead, a shareholder's repayment will generally be deductible as a capital loss in the year in which the contingent liability is paid, and such capital loss cannot be carried back to offset any liquidation gain recognized earlier. We cannot assure you that any contingency reserve that we plan to establish will be adequate to cover all expenses and liabilities.

We stopped recording transfers of our common stock on our stock transfer books on May 5, 2009 and, therefore, it is no longer possible for shareholders to change record ownership of our stock.

As of May 5, 2009 (the "Final Record Date"), the date we filed our certificate of dissolution with the Delaware Secretary of State, we stopped recording transfers of our common stock on our stock transfer books. Accordingly, from and after the Final Record Date, certificates representing our common stock are not assignable or transferable on the books of the Company except by will, intestate succession or operation of law. However, until trading is halted through termination of registration of our shares of common stock with the SEC, we believe that any trades of shares of our common stock after the Final Record Date are being tracked and marked with a due bill by brokers.

We intend in the future to make liquidation distributions pursuant to the Plan of Dissolution. From and after the Final Record Date, and subject to applicable law, each holder of our common stock will have the right to receive liquidation distributions pursuant to, and in accordance with, the Plan of Dissolution until the final liquidation distribution is made. The proportionate interests of all of the shareholders of the Company have been fixed in the books of the Company on the basis of their respective stock holdings at the close of business on the Final Record Date. Therefore, any liquidation distributions we make in the future will be made solely to the shareholders of record at the close of business on the Final Record Date, except as may be necessary to reflect subsequent transfers recorded on the books of the Company as a result of any assignments by will, intestate succession or operation of law. The final liquidation distribution under the Plan of Dissolution will be in complete cancellation of all of the outstanding shares of our common stock.

FOOTSTAR, INC. and SUBSIDIARY COMPANIES

Although we intend to seek relief from the SEC of certain of our public company reporting requirements, we cannot assure you that we will be successful in obtaining such relief.

We intend to seek relief from the SEC of certain of our public company reporting requirements. If we are able to obtain such relief from the SEC, we will continue to file current reports on Form 8-K to disclose material events relating to our liquidation, along with any other reports that the SEC may require. Obtaining SEC relief is contingent upon a number of factors, some of which are outside of our control. Accordingly, no assurance can be given that we will be able to obtain such relief from the SEC. If we are unable to obtain such relief, we will be required to continue to file annual and quarterly reports with the SEC, which will require us to continue to incur significant accounting, legal and other administrative costs in connection with preparing, reviewing and filing the reports with the SEC.

Shareholders may not be able to recognize a loss for federal income tax purposes until they receive a final distribution from us, which may be three years or more after our Dissolution.

As a result of our liquidation, for federal income tax purposes, shareholders will recognize gain or loss equal to the difference between (1) the sum of the amount of cash and the aggregate fair market value of any property distributed to them (reduced by any liability assumed or subject to which it is taken), and (2) their tax basis in their shares of our common stock. A shareholder's tax basis in our shares will depend upon various factors, including the shareholder's cost and the amount and nature of any distributions received with respect thereto. A shareholder generally may recognize a loss only when he, she or it has received a final distribution from us, which may be as much as three years (or up to ten years if the Company elects to comply with Section 281(b) of the Delaware General Corporation Law) after our Dissolution. However, if we are unable to sell the Mahwah Real Estate prior to the third anniversary of the filing of the certificate of dissolution, we may transfer such property into a liquidating trust, in which event we may make a final distribution after the third anniversary of the filing of the certificate of dissolution.

See "Forward-Looking Statements" in Part I, Item 2 for additional risk factors to consider.

ITEM 6. Exhibits.

- 31.1 Certification of Chief Executive Officer of the Company, pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2 Certification of Chief Financial Officer of the Company, pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Certification of Chief Executive Officer and Chief Financial Officer of the Company, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
