ITEM 1. Business

General

ADVO, Inc. ("ADVO" or the "Company") is a full service targeted direct mail marketing services company primarily engaged in soliciting and processing printed advertising from retailers, manufacturers and service companies for targeted distribution by both shared and solo mail, as well as private carrier delivery, to consumer households in the United States on a national, regional and local basis. Founded in 1929 as a hand delivery company, the Company entered the direct mail industry as a solo mailer in 1946 and began its shared mail program in 1980. The Company currently is the largest commercial user of standard mail (formerly third-class mail) in the United States.

ADVO competes primarily with newspapers, direct mail companies, periodicals and other local distribution entities for retail advertising expenditures. The Company believes that direct mail, which enables advertisers to target advertisements to specific customers or geographic areas, is the most efficient vehicle for delivering printed advertising on a saturation or full market coverage basis, as well as an effective means of targeted coverage.

ADVO's principal executive offices are located at One Univac Lane, Windsor, Connecticut 06095.

Products and Services

ADVO's direct mail marketing products and services include shared mail and solo mail. ADV O provides ancillary services in conjunction with its direct mail marketing programs and also provides private carrier delivery in certain markets. In addition, the Company provides direct-mail advertising solutions for local neighborhood businesses. The Company's consumer web-site, ShopWise.com, allows retailers to electronically target promotions and values to consumers.

Shared Mail

In the Company's branded shared mail program (ShopWiseTM), the advertisements of several advertisers are combined into a single mail package.

The Company assembles shared mail packages by targeting levels selected by the customer. In most instances, each household within the predetermined targeting level will receive a mail package. The Company offers various targeting levels for the designated mailing area of the customer's distribution based on the level of geo-demographic precision that is requested by the customer. Individual customers can choose predetermined clusters of ZIP Code zones, all ZIP Codes covered by the program, and ADV O Targeting Zones ("ATZs"). ATZs enable advertisers to target their ads to consumer clusters of about 3,500 households. ATZs are neighboring postal carrier delivery routes within a ZIP Code, that are clustered together based on shared demographic

Edgar Filing: ADVO INC - Form 10-K

characteristics and proximity to key retail shopping areas.

The flexibility and targeting capabilities of the ATZ platform enables customers, such as retail store chains, to select areas serviced by their retail stores and, at the same time, distribute different versions to reach their choice consumers. The Company uses geographic, demographic and psychographic data to tailor the customers' advertisements to their targeted audience.

The Company's shared mail program offers the features of penetration and targeted marketing at a significant cost reduction when compared to mailing on an individual or solo mail basis. This cost advantage is available because the Company pays the total postage expense, and advertisers are generally charged a selling price based upon, among other factors, the incremental weight of their promotional pieces.

1

As a part of its shared mail program, the Company provides the addresses of the households receiving the mail packages, sorts, processes and transports the advertising material for ultimate delivery through the United States Postal Service ("USPS"). Generally, larger businesses, such as grocery chains and mass merchandisers, will provide the Company with preprinted advertising materials in predetermined quantities. In the case of manufacturers and small retail customers, the Company may perform graphics services and/or act as a broker for the required printing. The Company also offers shared mail customers numerous standard turnkey advertising products in a variety of sizes and colors.

The Company believes its shared mail program is the largest program of its kind.

ShopWise(TM) is a weekly distribution program with coverage, on average, of approximately 60 million households in approximately 120 markets, covering essentially all major metropolitan markets. This program is used by local and national retailers. The zone configuration selected for each market is normally determined by population density and by proximity to retail outlets. Retailers with multiple locations and weekly frequency have a great influence on the zones chosen by the Company for its weekly distribution. The Company derives most of its revenues from the ShopWise(TM) shared mail program.

The Company is part of a network, known as ADVO National Network Extension ("A.N.N.E."), comprised of regional shared mail companies which provide its clients with extended coverage outside the markets already served by the Company. Approximately an additional 32.5 million households can be reached on a shared mail basis through A.N.N.E. The Company handles the clients' orders directly and manages distribution of their advertising through A.N.N.E.'s members. Conversely, A.N.N.E. enables participating members (shared mail companies) to offer their clients extended marketplace reach using the Company's household coverage.

Solo Mail

Solo mail services include addressing and processing brochures and circulars for an individual customer for distribution through the USPS. Each customer bears the full cost of postage and handling for each mailing. Customers choosing this form of direct mail are generally those who wish to maintain an exclusive image and complete control over the timing and the target of their mailings, or who want to mail to areas where the Company does not have a shared mail program

Edgar Filing: ADVO INC - Form 10-K

The Company processes solo mail using its own mailing list or lists supplied by the customer. The Company charges a processing fee based on the solo mail services rendered.

Other Products and Services

The Company rents portions of its mailing list, through a specialized firm hired by the Company, to organizations interested in distributing their own mailings. The Company may or may not perform the associated distribution services for the customer.

MailCoups, Inc. ("MailCoups"), a wholly owned subsidiary of ADVO, is a franchise-based cooperative coupon mail company headquartered in Avon, MA. This company, operating under the trade name of Super Coups, is a leader in creating and distributing attractive, cost-effective targeted coupons in a distinctive envelope format for local neighborhood merchants via an extended network of franchise owners. At the end of fiscal 2001, MailCoups had approximately 280 franchise units in 21 states.

The Company established its ShopWise.com subsidiary to focus on the continuing development of the Company's Internet-related business initiatives, including e-commerce related print advertising,

2

on-line concepts, and the development of its consumer web-site, ShopWise.com. This site is personalized to a member's zip code and shopping preferences and allows retailers to electronically target promotions and values to consumers.

During fiscal 2001 and 2000, the Company executed two types of strategic initiatives, which complement and expand the Company's core advertising programs by meeting a wider range of client needs in markets already served through targeted distribution. At the end of fiscal 2001, the Company was participating in a total of five newspaper alliances. The formation of newspaper alliances offers clients a new integrated print advertising solution which combines targeted direct mail with newspaper distribution. The Company's second strategic initiative was the introduction of additional in-home mailing dates. These additional programs offer existing clients added targeting capabilities through delivery on weekends and also provide new opportunities with clients who traditionally prefer weekend in-home dates. At the end of fiscal 2001, the Company had additional mailing programs in three existing markets, Albuquerque, Las Vegas and Detroit.

During fiscal 2001, the Company made two acquisitions. The acquisitions were accounted for under the purchase method of accounting and, accordingly, the results of operations of the acquired companies were included in the consolidated statements of operations from their acquisition date.

On November 2, 2000, the Company announced the acquisition of Mail Marketing Systems, Inc., ("MMSI") a privately held direct mail advertising company located in Jessup, Maryland. The acquisition of MMSI complements ADVO's core distribution network by providing additional shared mail coverage to approximately 3.2 million households in 70 smaller market areas not served by ADVO prior to the acquisition. MMSI also provides solo direct mail advertising for its clients. Prior to the acquisition, MMSI was a member of the Company's A.N.N.E. network.

On April 19, 2001, the Company announced the acquisition of the New Jersey Shoppers Guide ("NJ Shopper"). The NJ Shopper is a weekly direct mail shopper which is distributed in Southern New Jersey. The NJ Shopper has a weekly circulation of approximately 400,000 that supplements the Company's current

Edgar Filing: ADVO INC - Form 10-K

distribution and provides infrastructure for potential further expansion.

Mailing List

ADVO's management believes its computerized mailing list is the largest residential/household mailing list in the country. It contains over 123 million delivery points (constituting nearly all of the households in the United States). The Company's management believes that the list is particularly valuable and that replication in its entirety by competitors would be extremely difficult and costly. The list enables the Company to target mailings to best serve its customers.

Customer Base

Typically, the Company's customers are those businesses whose products and services are used by the general population. These businesses (including supermarkets, quick serve restaurants, drug stores, discount and department stores and home furnishings retailers) require continuous advertising to a mass audience. The enhanced targeting capabilities of the Company's distribution system has led to the development of opportunities for new customer categories, such as, telecommunications, insurance, financial services, and entertainment companies. In fiscal 2001 and 2000, no one customer accounted for more than 6% of the Company's sales and in fiscal 1999, no one customer accounted for more than 7%.

Operations

Customers' advertising circulars are processed by approximately 1,800 production employees who work at 20 mail processing facilities which are strategically located throughout the nation. Inserting

3

machines (which combine the individual advertising pieces into the mailing packages), and addressing and labeling equipment are the principal pieces of equipment used to process the Company's products and services. At several of the Company's production facilities, the Alphaliner, which is a computerized mail collator/insertter, is being utilized. The Alphaliner offers higher speed and capacity, enhanced productivity, computerized controls which automate order processing, electronically integrates with other machines, and links to ADVO's order fulfillment system. The Company has integrated the Alphaliner technology into many of its mail processing facilities. Conversion of the remaining facilities will continue over the next three to five years.

In all 20 of ADVO's mail processing facilities, the transportation department analyzes and sorts all mailings to the appropriate destination USPS facility. Each of the Company's facilities has a Detached Mail Unit ("DMU") where the USPS is on site and verifies and accepts all of ADVO's mailings. The Company's mail is accepted under an optional procedure which compares financial, production and other business records in lieu of the standard verification procedures of weighing the mail in bulk. Approximately 90% of the time, the Company then ships the mail directly to the local post office for final delivery by the individual postal carrier. The Company tracks the mail from its departure at our mail processing facilities to its final destination at local post offices to ensure timely and proper receipt of client's requested in-home delivery dates.

MailCoups operates a cooperative direct mail coupon advertising business by performing printing and distribution services for the franchisees at its one production facility. MMSI operates under a business model and environment similar to ADVO's at its one production facility. MMSI provides shared mail

Edgar Filing: ADVO INC - Form 10-K

programs predominately in the Mid-Atlantic states, as well as a full range of solo mail services and has the ability to partner with newspapers in providing Total Market Coverage ("TMC") services.

The Company entered into an agreement with IBM Global Services ("IBM"), to provide computer processing, systems development, and systems legacy support to the Company. The Company's regions, sales offices and corporate headquarters are on-line with this computer center, which enables the day-to-day processing functions to be performed and provides corporate headquarters with management information. The systems include: order processing and production control, transportation/distribution, address list maintenance, market analysis, label printing and distribution, billing and financial systems, human resources and payroll processing, and carrier routing of addresses received from customer files and demographic analyses. The Company also has agreements with IBM to provide for a customer support center (help desk) and client server (server farm) management services.

Competition

In general, the printed advertising market is highly competitive with companies competing primarily on the basis of ability to target selected potential customers on a cost-effective basis and speed of delivery. ADVO's competitors for the delivery of retail and other printed advertising are numerous, and include newspapers, regional and local mailers, direct marketing firms, "shoppers" and "pennysavers."

Newspapers represent the Company's most significant and direct competition. Through the distribution of preprinted circulars, classified advertising and run of press advertising ("ROP"), newspapers have historically been the traditional and dominant medium for advertising by retailers. Insertion rates are highly competitive and many newspapers' financial resources are substantial.

ADVO's principal direct marketing competitors are other companies with residential lists and similar cooperative mailing programs. These companies have a significant presence in many of the Company's markets and represent serious competition to the Company's ShopWise(TM) shared mail program in those markets.

4

There are local mailers in practically every market of the country. In addition to local mailers, there are many local private delivery services such as shoppers and pennysavers which compete by selling ROP advertisements and classified advertisements. ADVO believes that it competes effectively in its various markets.

Seasonality

ADVO's business generally follows the trends of retail advertising spending. The Company has historically experienced higher revenues in the second half of the calendar year.

Research and Development

Expenditures of the Company in research and development during the last three years have not been material.

Environmental Matters

Edgar Filing: ADVO INC - Form 10-K

The Company believes that it is substantially in compliance with all regulations concerning the discharge of materials into the environment, and such regulations have not had a material effect on the capital expenditures or operations of the Company.

Raw Materials

The Company manages approximately 45,000 tons of paper per year through its printing network on behalf of its print vendors. ADVO has agreements with various paper suppliers and print vendors to assure continuity of supply as well as supply of proper paper grades at competitive prices.

Employees

As of September 29, 2001, the Company had a total of approximately 4,100 full and part-time employees. ADVO also uses outside temporary employees for the outsourcing of certain production jobs and during busy seasons.

ADVO has one union contract, covering production employees in the Hartford, Connecticut branch. The Company believes that its relations with its employees are satisfactory.

Forward Looking Statements

This Report on Form 10-K contains certain forward looking statements regarding the Company's results of operations and financial position within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. Such forward looking statements are based on current information and expectations and are subject to risks and uncertainties which could cause the Company's actual results to differ materially from those in the forward looking statements. Such risks and uncertainties include but are not limited to: changes in customer demand and pricing; the possibility of consolidation throughout the retail sector, the impact of economic and political conditions on retail advertising spending and our distribution system; postal and paper prices; possible governmental regulation or legislation affecting aspects of the Company's business; the efficiencies achieved with technology upgrades; the amount of shares the Company will purchase in the future under its buyback program; fluctuations in interest rates related to the outstanding debt; and other general economic factors.

5

ITEM 2. Properties

ADVO does not own any real estate except for its corporate headquarters. The corporate headquarters, located in Windsor, Connecticut, consist of two buildings totaling approximately 136,000 square feet. The Company leases 22 production facilities, including the MailCoups and MMSI facilities, and approximately 60 sales offices (which excludes the sales offices that are located in the mail processing facilities) throughout the United States. The Company believes its facilities are suitable and adequate for the purposes for which they are used and are adequately maintained. All of the Company's production facilities are maintained and monitored by a professional security firm. Access to the facilities is strictly limited to authorized personnel only.

ITEM 3. Legal Proceedings

ADVO is party to various lawsuits and regulatory proceedings which are incidental to its business and which the Company believes will not have a material adverse effect on its consolidated financial condition, liquidity or

Edgar Filing: ADVO INC - Form 10-K

results of operations.

ITEM 4. Submission of Matters to a Vote of Security Holders

Not applicable.
