ITEM 7. FINANCIAL STATEMENTS AND EXHIBITS

## Edgar Filing: AMCON DISTRIBUTING CO - Form 8-K

Omaha, NE based consumer products company, announced today net income of \$0.5 million or \$0.16 per diluted share for the first quarter ended December 2003 compared with \$0.3 million or \$0.09 per diluted share for the first quarter of the prior year. Sales for the first quarter were \$193.0 million compared to \$197.7 million for the same period in the prior year.

William F. Wright, Chairman of AMCON, stated that, "Even though sales for the first quarter were down, primarily due to the deflationary trend in cigarette prices, increases in sales due to increased volume in our wholesale segment and increases in sales in our retail health food and beverage segments tempered the sales loss by \$10.6 million.

Income (loss) before taxes for the first quarter improved by \$0.9 million in the wholesale segment and by \$0.4 million in the retail health food segment. Hawaiian Natural Water Company, Inc. also showed good improvement in the first quarter of the year, although this improvement was offset by greater losses in The Beverage Group ("TBG") due to the fact that last year TBG only operated for 16 days in the quarter."

Wright added "In our wholesale segment, manufacturer incentive programs ended in the fourth quarter of fiscal 2003 and final payments under those programs were received in the first quarter of this fiscal year. In an attempt to help alleviate the effect of the loss of these payments in future quarters, we (and many other wholesalers) raised our cigarette prices in the first quarter of this year without any corresponding price increase from manufacturers.

Our numbers for our retail health segment continued to improve with sales increasing by \$0.5 million over the first quarter of the prior year and the segment operating at break even for the quarter. New management and a new, fully integrated system implementation were the catalyst for improvement in our Midwest stores which lead to the decision to begin construction of a new store in the Midwest during the first quarter of fiscal 2004. Performance also improved in our Florida stores, as we continue to focus our efforts on further improvement in the Florida market over the remainder of the year.

In our beverage segment, Hawaiian Natural Water completed construction of its packaging and warehouse facility during the first quarter and changed to a new distributor in the Hawaii market. This lead to a 26% increase in natural spring water sales for the first quarter. In addition, sales of other specialty beverage products were \$0.5 million compared to no sales in the first quarter of the prior fiscal year. We anticipated this for the first quarter of the current fiscal year and believe that the beverage segment will increase overall margins for our Company and its shareholders as our Company continues to reduce its reliance upon our wholesale segment."

AMCON is a leading wholesale distributor of consumer products including beverages, candy, tobacco, groceries, food service, frozen and chilled foods, and health and beauty care products with distribution centers in Illinois, Missouri, Nebraska, North Dakota, South Dakota and Wyoming. Chamberlin's Natural Foods, Inc. and Health Food Associates, Inc., both wholly-owned subsidiaries of The Healthy Edge, Inc. (formerly Food For Health Co., Inc.), operate health and natural product retail stores in central Florida (7), Kansas, Missouri, Nebraska and Oklahoma (3). The retail stores operate under the names Chamberlin's Market & Cafe and Akin's Natural Foods Market. Hawaiian Natural Water Company, Inc., which was acquired in December of 2001, produces and sells natural spring water under the Hawaiian Springs label. The water is bottled at the source on the Big Island of Hawaii. The Beverage
