NOTES TO FINANCIAL STATEMENTS (unaudited)

Note 1. Organization & Accounting Policies

BlackRock Dividend AchieversTM Trust (Dividend Achievers), BlackRock Enhanced Dividend Achievers Strust (Enhanced Dividend Achievers), BlackRock Global Energy and Resources Trust (Global Energy and Resources), BlackRock Global Opportunities Equity Trust (Global Opportunities), BlackRock Health Sciences Trust (Health Sciences), BlackRock S&P Quality Rankings Global Equity Managed Trust (S&P Quality Rankings), BlackRock Strategic Dividend Achievers Trust (Strategic Dividend Achievers) and BlackRock World Investment Trust (World Investment) (collectively, the Trusts) are organized as Delaware statutory trusts. All Trusts, except Global Energy and Resources and Health Sciences, are registered as diversified, closed-end management investment companies under the Investment Company Act of 1940, as amended. Global Energy and Resources and Health Sciences are registered as non-diversified, closed-end management investment companies under the Investment Company Act of 1940, as amended.

Under the Trusts organizational documents, their officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trusts. In addition, in the normal course of business, the Trusts enter into contracts with their vendors and others that provide for general indemnifications. The Trusts maximum exposure under these arrangements are unknown as this would involve future claims that may be made against the Trusts. However, based on experience, the Trusts consider the risk of loss from such claims to be remote.

The following is a summary of significant accounting policies followed by the Trusts.

Investment Valuation: The Trusts value most of their investments on the basis of current market quotations provided by dealers or pricing services selected under the supervision of each Trust s Board of Trustees (the Board). In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, market transactions in comparable investments, various relationships observed in the market between investments, and calculated yield measures based on valuation technology commonly employed in the market for such investments. Exchange-traded options are valued at their last sales price as of the close of options trading on applicable exchanges. In the absence of a last sale, options are valued at the average of the quoted bid and asked prices as of the close of business. Over-the-counter (OTC) options quotations are provided by dealers selected under the supervision of the Board. Considerations utilized by dealers in valuing OTC options include, but are not limited to, volatility factors of the underlying security, price movement of the underlying security in relation to the strike price and the time left until expiration of the option. Investments in open-end investment companies are valued at net asset value per share. Short-term debt investments having a remaining maturity of 60 days or less when purchased and debt investments originally purchased with maturities in excess of 60 days but which currently have maturities of 60 days or less may be valued at amortized cost. Any investments or other assets for which current market quotations are not readily available are valued at their fair value (Fair Value Assets) as determined in good faith under procedures established by and under the general supervision and responsibility of the Trusts Board. The investment advisor and/or sub-advisor will submit its recommendations regarding the valuation and/or valuation methodologies for Fair Value Assets to a valuation committee. The valuation committee may accept, modify or reject any recommendations. The pricing of all Fair Value Assets shall be subsequently reported to the Board.

When determining the price for a Fair Value Asset, the investment advisor and/or sub-advisor shall seek to determine the price that the Trust might reasonably expect to receive from the current sale of that asset in an arm s-length transaction. Fair value determinations shall be based upon all available factors that advisor and/or sub-advisor deems relevant.

Investment Transactions and Investment Income: Investment transactions are recorded on trade date. The cost of investments and the related gain or loss is determined by the use of the specific identification method, generally high cost, for both financial reporting and federal income tax purposes. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date, except certain dividends from foreign securities where the ex-dividend date may have passed. These dividends are recorded as soon as the Trusts are informed of the ex-dividend date. Dividend income on foreign securities is recorded net of any applicable withholding tax.

Forward Currency Contracts: Certain Trusts may enter into forward currency contracts primarily to facilitate settlement of purchases and sales of foreign securities and to help manage the overall exposure to foreign currency. A forward contract is a commitment to purchase or sell a foreign currency at a future date (usually the security transaction settlement date) at a negotiated forward rate. In the event that a security fails to settle within the normal settlement period, the forward currency contract is renegotiated at a new rate. The gain or loss arising from the difference between the settlement value of the original and renegotiated forward contracts is isolated and is included in net realized gains or losses from foreign currency transactions. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contract.

Forward currency contracts, when used by the Trusts, help to manage the overall exposure to the foreign currency backing some of the investments held by the Trusts. Forward currency contracts are not meant to be used to eliminate all of the exposure to the foreign currency,

rather they allow the Trusts to limit their exposure to foreign currency within a narrow band consistent with the objectives of the Trusts.

Foreign Currency Translation: Foreign currency amounts are translated into United States dollars on the following basis:

(i) market value of investment securities, other assets and liabilities at the current rate of exchange.

(ii) purchases and sales of investment securities, income and expenses at the relevant rates of exchange prevailing on the respective dates of such transactions.

The Trusts do not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of securities held at period end. The Trusts report forward foreign currency related transactions as components of realized gains for financial reporting purposes, whereas such components are treated as ordinary income for federal income tax purposes.

Net realized and unrealized foreign exchange gains and losses includes realized foreign exchange gains and losses from sales and maturities of foreign portfolio securities, sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, the difference between the amounts of interest and discount recorded on the Trusts books and the U.S. dollar equivalent amounts actually received or paid and changes in unrealized foreign exchange gains and losses in the value of portfolio securities and other assets and liabilities arising as a result of changes in the exchange rate.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the U.S. dollar.

Option Writing/Purchasing: When the Trusts write or purchase an option, an amount equal to the premium received or paid by the Trusts are recorded as liabilities or assets and is subsequently adjusted to the current market value of the option written or purchased. Premiums received or paid from writing or purchasing options which expire unexercised are treated by the Trusts on the expiration date as realized gains or losses. The difference between the premium and the amount paid or received on effecting a closing purchase or sale transaction, including brokerage commissions, is also treated as a realized gain or loss. If an option is exercised, the premium paid or received is added to the cost of the purchase or the proceeds from the sale in determining whether the Trusts have realized a gain or a loss on investment transactions. The Trusts, as writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and as a result bears the market risk of an unfavorable change in the price of the security underlying the written option.

A call option gives the purchaser of the option the right (but not obligation) to buy, and obligates the seller to sell (when the option is exercised), the underlying position at the exercise price at any time or at a specified time during the option period. A put option gives the holder the right (but not the obligation) to sell and obligates the writer to buy (when the option is exercised) the underlying position at the exercise price at any time or at a specified time during the option at the exercise price at any time or at a specified time during the option at the exercise price at any time or at a specified time during the option period.

Enhanced Dividend Achievers, Global Energy and Resources and Health Sciences will not sell put options if, as a result, more than 50% of the Trust s total assets not covering written calls and potential obligations arising from those written calls, would be required to cover its potential obligations under put options and its hedging and other investment transactions.

The main risk that is associated with purchasing options is that the option expires without being exercised. In this case, the option expires worthless and the premium paid for the option is considered the loss. The risk associated with writing call options is that the Trusts may forgo the opportunity for a profit if the market value of the underlying position increases and the option is exercised. The risk in writing put options is that the Trusts may incur a loss if the market value of the underlying position decreases and the option is exercised. In addition, the Trusts risk not being able to enter into a closing transaction for the written option as the result of an illiquid market.

Certain Trusts may invest in over-the-counter (OTC) options. OTC options differ from exchange-listed options in that they are two-party contracts, with exercise price, premium and other terms negotiated between buyer and seller, and generally do not have as much market liquidity as exchange-listed options. The counterparties to these transactions typically will be major international banks, broker-dealers and financial institutions. The Trusts may be required to restrict the sale of securities being used to cover certain written OTC options. The OTC options written by the Trust will not be issued, guaranteed or cleared by the Options Clearing Corporation. In addition, the Trusts ability to terminate the OTC options may be more limited than with exchange-traded options. Banks, broker-dealers or other financial institutions participating in such transaction may fail to settle a transaction in accordance with the terms of the option as written. In the event of default or insolvency of the counterparty, the Trusts may be unable to liquidate an OTC option position.

Segregation: In cases in which the Investment Company Act of 1940, as amended (the 1940 Act), and the interpretive positions of the Securities and Exchange Commission (the Commission) require a Trust to segregate assets in connection with certain investments (e.g., call options written), each Trust will, consistent with certain interpretive letters issued by the Commission, designate on its books and records cash or liquid securities having a market value at least equal to the amount that would otherwise be required to be physically segregated.

Federal Income Taxes: It is each Trust s intention to continue to be treated as a regulated investment company under the Internal Revenue Code and to distribute sufficient amounts of their taxable income to shareholders. Therefore, no federal income tax provisions have been recorded.

Dividends and Distributions: All Trusts except Enhanced Dividend Achievers and World Investment declare and pay dividends and distributions to shareholders quarterly from net investment income, net realized short-term capital gains and, if necessary, other sources. Enhanced Dividend Achievers and World Investment declare and pay dividends and distributions to shareholders monthly from net investment income, net realized short-term capital gains, if any, in excess of loss carryforwards may be distributed annually. If the total dividends and distributions made in any tax year exceeds net investment income and accumulated realized capital gains, a portion of the total distribution may be treated as a tax-free return of capital. Dividends and distributions are recorded on the ex-dividend date. Income distributions and capital gain distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates and such differences may be material.

Deferred Compensation and BlackRock Closed-End Share Equivalent Investment Plan: Under the deferred compensation plan approved by the Board, non-interested Trustees are required to defer a portion of their annual complex-wide compensation pursuant to the plan. Deferred

amounts earn an approximate return as though equivalent dollar amounts had been invested in common shares of other BlackRock closed-end trusts selected by the Trustees. These amounts are shown on the Statement of Assets and Liabilities as Investment in Affiliates . This has the same economic effect for the Trustees as if the Trustees had invested the deferred amounts in such Trusts.

The deferred compensation plan is not funded and obligations thereunder represent general unsecured claims against the general assets of the Trusts. The Trusts may, however, elect to invest in common shares of those Trusts selected by the Trustees in order to match its deferred compensation obligations.

Other: Expenses that are directly related to one of the Trusts are charged directly to that Trust. Other operating expenses are generally prorated to the Trusts on the basis of relative net assets of all of the BlackRock Closed-End Trusts.

Note 2. Agreements

The Trusts have an Investment Management Agreement with BlackRock Advisors, Inc. (the Advisor), a wholly owned subsidiary of BlackRock, Inc. BlackRock Financial Management, Inc. (BFM) a wholly owned subsidiary of BlackRock, Inc., serves as sub-advisor to Dividend Acheivers, Enhanced Dividend Achievers, S&P Quality Rankings, Strategic Dividend Achievers and World Investment. State Street Research and Management Company, a wholly owned subsidiary of BlackRock, serves as sub-advisor to Global Energy and Resources. BlackRock, Inc. is an indirect majority owned subsidiary of The PNC Financial Services Group, Inc. The Investment Management Agreement covers both investment advisory and administration services.

The Trusts investment advisory fees paid to the Advisor are computed weekly, accrued daily and payable monthly, based on an annual rate, 0.65% for Dividend Achievers, 1.00% for Enhanced Dividend Achievers, 1.20% for Global Energy and Resources, 1.00% for Global Opportunites, 1.00% for Health Sciences, 0.75% for S&P Quality Rankings, 0.75% for Strategic Dividend Achievers, and 1.00% for World Investment, of the Trust s average weekly managed assets. Because the Trusts have no present intention of borrowing for investment purposes, the Trusts managed assets will generally be equal to the Trusts net assets. The Adviser has voluntarily agreed to waive a portion of the investment advisory fees or some other expenses on Global Energy and Resources as a percentage of its average weekly managed assets as follows: 0.20% for the first five years of the Trust s operations, 0.15% in year six, 0.10% in year seven and 0.05% in year eight.

The Advisor pays BFM fees for its sub-advisory services.

Pursuant to the Investment Management Agreement, the Advisor provides continuous supervision of the investment portfolios and pays the compensation of officers of the Trusts who are affiliated persons of the Advisor, as well as occupancy and certain clerical and accounting costs of the Trusts. The Trusts bear all other costs and expenses, which include reimbursements to the Advisor for cost of employees that provide pricing, secondary market support and compliance support to the Trusts. For the six months ended April 30, 2006, the Trusts reimbursed the Advisor the following amounts which are included in miscellaneous expenses in the Statement of Operations:

Trust	Amount	Trust	Amount
Dividend Achievers	\$ 14,837	Health Sciences	\$ 5,082
Enhanced Dividend Achievers	14,836	S&P Quality Rankings	2,720
Global Energy and Resources	17,356	Strategic Dividend Achievers	12,364
Global Opportunities	6,943	World Investment	6,934

Pursuant to terms of each Trust s custody agreement, each Trust may receive earnings credits from its custodian for positive cash balances maintained, which are used to offset custody fees. These credits are shown on the Statement of Operations as fees paid indirectly.

(Mergefft) to use the Dividend Achievers^M universe of common stocks. If Mergent[®] revokes each such Trust s license to use the Dividend Achievers^M universe, the Board of that Trust may need to adopt a new investment strategy and/or new investment policies. DIVIDEND REINVESTMENT PLANS

Pursuant to each Trust s Dividend Reinvestment Plan (the Plan), common shareholders are automatically enrolled to have all distributions reinvested by The Bank of New York (the Plan Agent) in the respective Trust s shares pursuant to the Plan. Shareholders who elect not to participate in the Plan will receive all distributions in cash paid by check and mailed directly to the shareholders of record (or if the shares are held in street or other nominee name, then to the nominee) by the Plan Agent.

The Plan Agent serves as agent for the shareholders in administering the Plan. After a Trust declares a distribution, the Plan Agent will acquire shares for the participants accounts, depending upon the circumstances described below, either (i) through receipt of unissued but authorized shares from the Trust (newly issued shares) or (ii) by purchase of outstanding shares on the open market, on the Trust s primary exchange or elsewhere (open-market purchases). If, on the distribution payment date, the net asset value per share (NAV) is equal to or less than the market price per share plus estimated brokerage commissions (such condition being referred to herein as market premium), the Plan Agent will invest the distribution amount in newly issued shares on behalf of the participants. The number of newly issued shares to be credited to each participant s account will be determined by dividing the dollar amount of the distribution by the NAV on the date the shares are issued. However, if the NAV is less than 95% of the market price on the payment date, the Ollar amount of the distribution will be divided by 95% of the market price on the payment date, the NAV is greater than the market value per share plus estimated brokerage commissions (such condition being referred to account in shares acquired on behalf of the participant shares value per share plus estimated brokerage commissions (such condition by the NAV on the date the shares are issued. However, if the NAV is less than 95% of the market price on the payment date, the NAV is greater than the market value per share plus estimated brokerage commissions (such condition being referred to herein as market discount), the Plan Agent will invest the distribution amount in shares acquired on behalf of the participants in open-market purchases.

Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the distribution record date; otherwise such termination or resumption will be effective with respect to any subsequently declared distribution.

The Plan Agent s fees for the handling of the reinvestment of distributions will be paid by each Trust. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent s open market purchases in connection with the reinvestment of distributions. The automatic reinvestment of distributions will not relieve participants of any Federal income tax that may be payable on such distributions.

Each Trust reserves the right to amend or terminate the Plan. There is no direct service charge to participants in the Plan; however, each Trust reserves the right to amend the Plan to include a service charge payable by the participants. Participants that request a sale of shares through the Plan Agent are subject to a \$2.50 sales fee and a \$0.15 per share sold brokerage commission. All correspondence concerning the Plan should be directed to the Plan Agent at The Bank of New York, Dividend Reinvestment Department, P.O. Box 1958, Newark, New Jersey 07101-9774; or by calling 1-866-216-0242.
