### A Letter to Shareholders

#### **Dear Shareholder**

The present time may well be remembered as one of the most tumultuous periods in financial market history. Over the past year, the housing market collapse and the ensuing credit crisis swelled into an all-out global financial market meltdown, featuring the collapse of storied financial firms, volatile swings in the world s financial markets and monumental government actions, including the recent passage of the nearly \$800 billion American Recovery and Reinvestment Act of 2009.

The US economy appeared somewhat resilient through the first few months of 2008 before becoming mired in the worst recession in decades. The economic data was dire across the board, but worse was the intensifying pace of deterioration in consumer spending, employment, manufacturing and other key indicators. US gross domestic product (GDP) contracted at an annual rate of 6.3% in the 2008 fourth quarter substantially below forecast and the worst reading since 1982. The Federal Reserve Board (the Fed ) took forceful action to revive the global economy and financial system. In addition to slashing the federal funds target rate from 3% to a record low range of 0% to 0.25%, the central bank provided enormous cash injections and significantly expanded its balance sheet via various lending and acquisition programs.

Against this backdrop, US equities contended with relentless market volatility, and the sentiment turned decisively negative toward period end. Declines were significant and broad based, with little divergence among the returns for large and small cap stocks. Non-US stocks were not spared either, as the credit crisis revealed itself to be global in nature and economic activity slowed dramatically.

Risk aversion remained the dominant theme in fixed income markets, leading the Treasury sector to top all other asset classes. The high yield market was particularly hard hit in this environment, as economic turmoil, combined with frozen credit markets and substantial technical pressures, took a heavy toll. Meanwhile, tax-exempt issues posted positive returns for the period, but the sector was not without significant challenges, including a shortage of market participants, lack of liquidity, difficult funding environment and backlog of new-issue supply.

In all, investors continued to gravitate toward relative safety, as evidenced in the six- and 12-month returns of the major benchmark indexes:

Total Returns as of February 28, 2009	6-month	12-month
US equities (S&P 500 Index)	(41.82)%	(43.32)%
Small cap US equities (Russell 2000 Index)	(46.91)	(42.38)
International equities (MSCI Europe, Australasia, Far East Index)	(44.58)	(50.22)
US Treasury securities (Merrill Lynch 10-Year US Treasury Index)	8.52	8.09
Taxable fixed income (Barclays Capital US Aggregate Bond Index*)	1.88	2.06
Tax-exempt fixed income (Barclays Capital Municipal Bond Index*)	0.05	5.18
High yield bonds (Barclays Capital US Corporate High Yield 2% Issuer Capped Index*)	(21.50)	(20.92)

<sup>\*</sup> Formerly a Lehman Brothers index.

**BlackRock Core Bond Trust** 

#### **Investment Objective**

BlackRock Core Bond Trust (BHK) (the Trust ) seeks to provide high current income with the potential for capital appreciation.

#### **Performance**

For the six months ended February 28, 2009, the Trust returned (3.92)% based on market price and (13.99)% based on net asset value ( NAV ). For the same period, the closed-end Lipper Corporate Debt Funds BBB-Rated category posted an average return of (7.99)% on a market price basis and (13.71)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust moved from a discount to a premium to NAV, which accounts for the difference between performance based on price and performance based on NAV. The Trust s 43% allocation to mortgage-backed securities ( MBS ) as of February 28, 2009 helped performance, as MBS outperformed corporate bonds during the period. In addition, at 16% leverage as of February 28, 2009, the Trust used less leverage than many of its Lipper peers, which aided results in a difficult market. Meanwhile, the Trust s allocations to commercial mortgage-backed securities, high yield and preferred securities underperformed.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

4 SEMI-ANNUAL REPORT FEBRUARY 28, 2009

#### BlackRock Corporate High Yield Fund V, Inc.

#### **Investment Objective**

BlackRock Corporate High Yield Fund V, Inc. (HYV) (the Trust ) seeks to provide shareholders with current income by investing primarily in a diversified portfolio of fixed income securities that are rated in the lower rating categories of the established rating services (Ba or lower by Moody s or BB or lower by S&P) or are unrated securities of comparable quality.

#### **Performance**

For the six months ended February 28, 2009, the Trust returned (32.48)% based on market price and (36.32)% based on NAV. For the same period, the closed-end Lipper High Current Yield Funds (Leveraged) category posted an average return of (34.08)% on a market price basis and (34.87)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. The period from September 15, 2008 to December 12, 2008 was the worst in high yield market history. In this environment, the Trust was positioned conservatively, with an emphasis on defensive sectors, an allocation to bank loans and higher-than-normal cash balances. For most of the period, the Trust also had lower leverage than the majority of its Lipper peers. This aided relative performance during the first half of the period, but was a detractor amid the significant market recovery in the second half.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

9

BlackRock Income Trust, Inc.

#### **Investment Objective**

BlackRock Income Trust, Inc. (BKT) (the Trust ) seeks to provide high monthly income while preserving capital by investing in a portfolio of mortgage-backed securities.

#### **Performance**

For the six months ended February 28, 2009, the Trust returned 0.00% based on market price and (1.75)% based on NAV. For the same period, the closed-end Lipper US Mortgage Funds category posted an average return of (13.29)% on a market price basis and (12.14)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. During the six-month period, the Trust s large allocations to US government agency mortgage-backed securities (MBS) helped performance, while small allocations to non-agency MBS and other structured securities detracted from results. The Trust used less leverage than its Lipper peers, which aided relative performance.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

10 SEMI-ANNUAL REPORT FEBRUARY 28, 2009

**BlackRock Strategic Bond Trust** 

#### **Investment Objective**

BlackRock Strategic Bond Trust (BHD) (the Trust ) seeks total return through high current income and capital appreciation.

#### **Performance**

For the six months ended February 28, 2009, the Trust returned (10.42)% based on market price and (18.21)% based on NAV. For the same period, the closed-end Lipper General Bond Funds category posted an average return of (11.70)% on a market price basis and (13.41)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. The Trust s 56% allocation to high yield as of February 28, 2009 hurt relative performance, as the Trust sits in a general bond fund category and high yield underperformed investment-grade bonds. Allocations to preferred issues, convertible securities and bank loans also detracted from performance during the six months.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

#### **Trust Information**

Symbol on New York Stock Exchange	BHD
	February 26,
Initial Offering Date	2002
Yield on Closing Market Price as of February 28, 2009 (\$9.23)1	10.01%
Current Monthly Distribution per Share <sup>2</sup>	\$0.077
Current Annualized Distribution per Share <sup>2</sup>	\$0.924

- Yield on closing market price is calculated by dividing the current annualized distribution per share by the closing market price. Past performance does not guarantee future results.
- A change in the distribution rate was declared on March 2, 2009. The Monthly Distribution per Share was decreased to \$0.0695. The Yield on Closing Market Price, Current Monthly Distribution per Share and Current Annualized Distribution per Share do not reflect the new distribution rate. The new distribution rate is not constant and is subject to further change in the future. A portion of the distribution may be deemed a tax return of capital or net realized gain.

The table below summarizes the changes in the Trust s market price and NAV per share:

### The Benefits and Risks of Leveraging

The Trusts may utilize leverage to seek to enhance the yield and NAV of their Common Shares. However, these objectives cannot be achieved in all interest rate environments.

The Trusts may utilize leverage through borrowings and the issuance of short-term securities. In general, the concept of leveraging is based on the premise that the cost of assets to be obtained from leverage will be based on short-term interest rates, which normally will be lower than the income earned by each Trust on its longer-term portfolio investments. To the extent that the total assets of each Trust (including the assets obtained from leverage) are invested in higher-yielding portfolio investments, each Trust s Common Shareholders will benefit from the incremental yield.

The interest earned on securities purchased with the proceeds from leverage is paid to Common Shareholders in the form of dividends, and the value of these portfolio holdings is reflected in the per share NAV of each Trust s Common Shares. However, in order to benefit Common Shareholders, the yield curve must be positively sloped; that is, short-term interest rates must be lower than long-term interest rates. If the yield curve becomes negatively sloped, meaning short-term interest rates exceed long-term interest rates, returns to Common Shareholders will be lower than if the Trusts had not used leverage.

To illustrate these concepts, assume a Trust s Common Shares capitalization is \$100 million and it issues debt securities for an additional \$30 million, creating a total value of \$130 million available for investment in long-term securities. If prevailing short-term interest rates are 3% and long-term interest rates are 6%, the yield curve has a strongly positive slope. In this case, the Trust pays interest expense on the \$30 million of debt securities based on the lower short-term interest rates. At the same time, the Trust s total portfolio of \$130 million earns the income based on long-term interest rates. In this case, the interest expense of the debt securities is significantly lower than the income earned on the Trust s long-term investments, and therefore the Common Shareholders are the beneficiaries of the incremental yield.

Conversely, if prevailing short-term interest rates rise above long-term interest rates of 6%, the yield curve has a negative slope. In this case, the Trust pays interest expense on the higher short-term interest rates whereas the Trust s total portfolio earns income based on lower long-term interest rates. If short-term interest rates rise, narrowing the differential between short-term and long-term interest rates, the incremental yield pickup on the Common Shares will be reduced or eliminated completely.

Furthermore, the value of the Trust s portfolio investments generally varies inversely with the direction of long-term interest rates, although other factors can influence the value of portfolio investments. In contrast, the redemption value of the Trust s debt securities do not fluctuate in relation to interest rates. As a result, changes in interest rates can influence the Trust s NAV positively or negatively in addition to the impact on Trust performance from leverage from debt securities.

The use of leverage may enhance opportunities for increased returns to the Trusts and Common Shareholders, but as described above, it also creates risks as short- or long-term interest rates fluctuate. Leverage also will generally cause greater changes to each Trust s NAV, market price and dividend rate than a comparable portfolio without leverage. If the income derived from securities purchased with assets received from leverage exceeds the cost of leverage, each Trust s net income will be greater than if leverage had not been used. Conversely, if the income from the securities purchased is not sufficient to cover the cost of leverage, each Trust s net income will be less than if leverage had not been used, and therefore the amount available for distribution to shareholders will be reduced. A Trust may be required to sell portfolio securities at inopportune times or below fair market values in order to comply with regulatory requirements applicable to the use of leverage or as required by the terms of leverage instruments which may cause a Trust to incur losses. The use of leverage may limit a Trust s ability to invest in certain types of securities or use certain types of hedging strategies, such as in the case of certain restrictions imposed by ratings agencies that rate preferred shares issued by a Trust. A Trust will incur expenses in connection with the use of leverage, all of which are borne by the holders of the Common Shares and may reduce returns on the Common Shares.

Under the Investment Company Act of 1940, the Trusts are permitted to borrow through a credit facility and the issuance of short-term debt securities up to 33<sup>1/3</sup>% of total managed assets. As of February 28, 2009, the Trusts had outstanding leverage from reverse repurchase agreements and credit facility borrowings as a percentage of their total managed assets as follows:

Percent of Leverage

BlackRock Core Bond Trust	16%
BlackRock Corporate High Yield Fund V, Inc.	18%
BlackRock Corporate High Yield Fund VI, Inc.	19%
BlackRock High Income Shares	20%
BlackRock High Yield Trust	13%
BlackRock Income Opportunity Trust	12%

#### **Derivative Instruments**

The Trusts may invest in various derivative instruments, including swap agreements, futures and forward currency contracts, and other instruments specified in the Notes to Financials Statements, which constitute forms of economic leverage. Such instruments are used to obtain exposure to a market without owning or taking physical custody of securities or to hedge market and/or interest rate risks. Such derivative instruments involve risks, including the imperfect correlation between the value of a derivative instrument and the underlying asset, possible default of the other party to the transaction and illiquidity of the derivative instrument. A Trust s ability to successfully use a derivative instrument depends on the investment advisor s ability to accurately predict pertinent market movements, which cannot be assured. The use of derivative instruments may result in losses greater than if they had not been used, may require the Trusts to sell or purchase portfolio securities at inopportune times or for prices other than current market values, may limit the amount of appreciation the Trusts can realize on an investment or may cause the Trusts to hold a security that they might otherwise sell. The Trusts investments in these instruments are discussed in detail in the Notes to Financial Statements.

> Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical securities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are not active. inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks, and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust s own assumption used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	In		cial s*		
	Assets	Liabilities	Ass	ets	Liabilities
Level 1			\$ 1	179,374 \$	(4,238,323)
Level 2	\$ 351,987,	103 \$ (87,867,235	5) 24,5	549,756	(21,324,398)
Level 3	6,448,	630			
Total	\$ 358,435,	733 \$ (87,867,235	5) \$ 24,7	729,130 \$	(25,562,721)

<sup>\*</sup> Other financial instruments are futures, swaps, foreign currency exchange contracts and options. Futures, swaps and foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument and options are shown at market value.

The following is a reconciliation of investments for unobservable inputs (Level 3) were used in determining fair value:

Investments in
Securities

#### **Assets**

Balance as of August 31, 2008	\$ 637
Accrued discounts/premiums	332
Realized gain	37
Change in unrealized appreciation/depreciation <sup>1</sup>	(4,796,976)
Net sales	(209,962)
Net transfers in Level 3	11,454,562
Balance as of February 28, 2009	\$ 6,448,630

Included in the related net change in unrealized appreciation/depreciation on the Statements of Operations.

See Notes to Financial Statements.

Aggregate cost	\$ 443,613,284
Out to the second second second section	Φ 4.004.740
Gross unrealized appreciation Gross unrealized depreciation	\$ 1,034,718 (170,252,378)
Net unrealized depreciation	\$ (169.217.660)

- (a) Represents a payment-in-kind security which may pay interest/dividends in additional par/shares.
- (b) Convertible security.
- (c) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (d) Variable rate security. Rate is as of report date.
- (e) Issuer filed for bankruptcy and/or is in default of interest payments.
- (f) Non-income producing security.
- (g) Represents a step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown reflects the current yield as of report date.
- (h) Security is perpetual in nature and has no stated maturity date.
- (i) Warrants entitle the Trust to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of shares are subject to adjustment under certain conditions until the expiration date.
- (j) Other interests represent beneficial interest in liquidation trusts and other reorganization entities and are non-income producing.
- (k) Represents the current yield as of report date.
- (I) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Affiliate		Net Activity	Income
BlackRock Liquidity Series, LLC Cash Sweep Series	USD	4.710.831	\$ 23.928

For Trust compliance purposes, the Trust sindustry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine industry sub-classification for reporting ease.

Credit default swaps on single name issues buy protection outstanding as of February 28, 2009 were as follows:

Pay Fixed Rate	Counterparty	Expiration	Notional Amount (000)		Unrealized Appreciation
	Goldman Sachs Bank			\$	
5.85%	USA	March 2014	USD 1,200		9,854

26 SEMI-ANNUAL REPORT FEBRUARY 28, 2009

<sup>&</sup>lt;sup>2</sup> The maximum potential amount the Trust may pay should a negative credit event take place as defined under the terms of the agreement.

#### BlackRock Corporate High Yield Fund V, Inc. (HYV)

Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust s own assumption used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust spolicy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs				er Financial struments*	
	Assets		Assets		Liabilities
Level 1	\$ 2,221,346				
Level 2	246,764,700	\$	426,565	\$	(5,228,289)
Level 3	25,409,578				
Total	\$ 274,395,624	\$	426,565	\$	(5,228,289)

<sup>\*</sup> Other financial instruments are swaps and foreign currency exchange contracts. Swaps and foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument.

The following is a reconciliation of investments for unobservable inputs (Level 3) used in determining fair value:

		estments in Securities
		Assets
Balance as of August 31, 2008	\$	6,058,493
Accrued discounts/premiums	·	283,875
Realized gain		580
Change in unrealized appreciation/depreciation <sup>1</sup>		(31,824,940)
Net sales		167,322
Net transfers in Level 3		50,724,248
Balance as of February 28, 2009	\$	25,409,578

1 Included in the related net change in unrealized appreciation/depreciation on the Statements of Operations.

See Notes to Financial Statements.

SEMI-ANNUAL REPORT FEBRUARY 28, 2009 31

79

#### Schedule of Investments (concluded)

#### BlackRock Corporate High Yield Fund VI, Inc. (HYT)

- (e) Issuer filed for bankruptcy and/or is in default of interest payments.
- (f) Represents a step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown reflects the current yield as of report date.
- (g) Non-income producing security.
- (h) Security is perpetual in nature and has no stated maturity date.
- (i) Warrants entitle the Fund to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of shares are subject to adjustment under certain conditions until the expiration date.
- (j) Other interests represent beneficial interest in liquidation trusts and other reorganization entities and are non-income producing.
- (k) Represents the current yield as of report date.
- (I) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Affiliate	Net Activity	Income
BlackRock Liquidity Series, LLC Cash Sweep Series	USD (2,872,011)	\$26,103

For Trust compliance purposes, the Trust s industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine industry sub-classification for reporting ease.

Credit default swaps on single name issues - buy protection outstanding as of February 28, 2009 were as follows:

Issuer	Pay Fixed Rate	Counterparty	Expiration	Notional Amount (000)	 realized preciation
Masco Corp.	5.85%	Goldman Sachs Bank USA	March 2014	USD 1,300	\$ 10,676
Mohawk Industries, Inc.	4.70%	Goldman Sachs Bank USA	March 2014	USD 1,300	1,534
Total					\$ 12,210

Credit default swaps on single name issues - sold protection outstanding as of February 28, 2009 were as follows:

Issuer <sup>1</sup>	Receive Fixed Rate	Counterparty	Expiration	Notional Amount (000) <sup>2</sup>	Unrealized Depreciation
Ford Motor Co.	3.80%	UBS AG	March 2010	USD 1,590	\$ (1,114,234)

Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust s own assumption used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust spolicy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	Investments in Securities		Financial iments*
	Assets	Assets	Liabilities
Level 1	\$ 2,407,273		

<sup>2</sup> The maximum potential amount the Trust may pay should a negative credit event take place as defined under the terms of the agreement.

Level 2	269,222,856	\$ 458,189	\$ (5,595,640)
Level 3	27,159,746		
Total	\$ 298,789,875	\$ 458,189	\$ (5,595,640)

The following is a reconciliation of investments for unobservable inputs (Level 3) used in determining fair value:

#### Investments in Securities

# Assets

Balance as of August 31, 2008	\$ 2,999,871
Accrued discounts/premiums	267,853
Realized gain	655
Change in unrealized appreciation/depreciation <sup>1</sup>	(33,799,877)
Net sales	156,563
Net transfers in Level 3	57,534,681
Balance as of February 28, 2009	\$ 27.159.746

Included in the related net change in unrealized appreciation/depreciation on the Statements of Operations.

See Notes to Financial Statements.

32 SEMI-ANNUAL REPORT FEBRUARY 28, 2009

<sup>\*</sup> Other financial instruments are swaps and foreign currency exchange contracts. Swaps and foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument.

\* The cost and unrealized appreciation (depreciation) of investments as of February 28, 2009, as computed for federal income tax purposes, were as follows:

Aggregate cost	\$ 140,705,739
Gross unrealized appreciation	\$ 361,553
Gross unrealized depreciation	(51,275,490)
Net unrealized depreciation	\$ (50,913,937)

- (a) Represents a payment-in-kind security which may pay interest/dividends in additional par/shares.
- (b) Convertible security.
- (c) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (d) Variable rate security. Rate shown is as of report date.
- (e) Issuer filed for bankruptcy and/or is in default of interest payments.
- (f) Represents a step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown reflects the current yield as of report date.
- (g) Non-income producing security.
- (h) Security is perpetual in nature and has no stated maturity date.
- (i) Other interests represent beneficial interest in liquidation trusts and other reorganization entities and are non-income producing.
- (j) Represents the current yield as of report date.
- (k) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Affiliate	1	Net Activity	lı	ncome
BlackRock Liquidity Funds, TempFund	USD	5,081,539	\$	1,539

For Trust compliance purposes, the Trust sindustry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine industry sub-classification for reporting ease.

Foreign currency exchange contracts as of February 28, 2009 were as follows:

Currency	Currency		Settlement	Unrealized
Purchased	Sold	Counterparty	Date	Appreciation

USD	2,102,221	EUR	1,603,500	Deutsche Bank AG	3/18/09	\$ 69,712
USD	154,566	EUR	120,000	UBS AG	3/18/09	2,460
Total						\$ 72.172

**Currency Abbreviations:** 

EUR Euro

Balance as of August 31, 2008

USD US Dollar

The Trust has adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks, and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust sown assumption used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	nvestments in Securities	F	Other inancial truments*
	Assets		Assets
Level 1	\$ 5,090,539		
Level 2	76,848,464	\$	72,172
Level 3	7,852,799		
Total	\$ 89,791,802	\$	72,172

<sup>\*</sup> Other financial instruments are foreign currency exchange contracts. Foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument.

The following is a reconciliation of investments for unobservable inputs (Level 3) used in determining fair value:

I	nvestments in Securities
	Assets
\$	606,725

94

Accrued discounts/premiums	5,046
Realized gain	1,142
Change in unrealized appreciation/depreciation <sup>1</sup>	(8,649,120)
Net purchases	84,095
Net transfers in Level 3	15,804,911
Balance as of February 28, 2009	\$ 7 852 799

See Notes to Financial Statements.

36 SEMI-ANNUAL REPORT FEBRUARY 28, 2009

Included in the related net change in unrealized appreciation/depreciation on the Statement of Operations.

\* The cost and unrealized appreciation (depreciation) of investments as of February 28, 2009, as computed for federal income tax purposes, were as follows:

Aggregate cost	\$ 51,523,474
Gross unrealized appreciation	\$ 52,389
Gross unrealized depreciation	(20,238,978)
Net unrealized depreciation	\$ (20,186,589)

- (a) Convertible security.
- (b) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (c) Represents a payment-in-kind security which may pay interest/dividends in additional par/shares.
- (d) Variable rate security. Rate shown is as of report date.
- (e) Issuer filed for bankruptcy and/or is in default of interest payments.
- (f) Non-income producing security.
- (g) Represents a step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown reflects the current yield as of report date.
- (h) Security is perpetual in nature and has no stated maturity date.
- Warrants entitle the Trust to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of shares are subject to adjustment under certain conditions until the expiration date.
- (j) Other interests represent beneficial interest in liquidation trusts and other reorganization entities and are non-income producing.
- (k) Represents the current yield as of report date.
- (I) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Affiliate	Net Activity	Income
BlackRock Liquidity Funds, TempFund	2,491,381	\$ 1,381

For Trust compliance purposes, the Trust sindustry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine industry sub-classification for reporting ease.

See Notes to Financial Statements.

40 SEMI-ANNUAL REPORT FEBRUARY 28, 2009

#### Schedule of Investments (concluded)

BlackRock High Yield Trust (BHY)

Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks, and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust sown assumption used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust spolicy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	Investments in Securities		Other Financial Instruments*	
	Assets		Assets	
Level 1	\$ 2,492,646			
Level 2	26,121,726	\$	4,845	
Level 3	2,717,668			
Total	\$ 31,332,040	\$	4,845	

<sup>\*</sup> Other financial instruments are options, which are shown at market value.

The following is a reconciliation of investments for unobservable inputs (Level 3) used in determining fair value:

	 Investments in Securities	
	Assets	
Balance as of August 31, 2008	\$ 191,332	
Accrued discounts/premiums	17,156	
Realized gain	357	
Change in unrealized appreciation/depreciation <sup>1</sup>	(3,060,121)	
Net purchases	32,430	
Net transfers in Level 3	5,536,514	
Balance as of February 28, 2009	\$ 2,717,668	

Included in the related net change in unrealized appreciation/depreciation on the Statements of Operations.

See Notes to Financial Statements.

Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks, and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust sown assumption used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	Investments in Securities			Financial ments*
	Assets	Liabilities	Assets	Liabilities
Level 1 Level 2	Ф 222 FF7 F00	Ф (10.171.70E)	\$ 196,970	\$ (4,150,920)
Level 2 Level 3	\$ 333,557,528 19,579,804	\$ (19,171,725)	27,391,191	(60,980,770)
Total	\$ 353,137,332	\$ (19,171,725)	\$ 27,588,161	\$ (65,131,690)

\* Other financial instruments are swaps, futures, foreign currency exchange contracts, reverse repurchase agreements and options. Futures, swaps and foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument and reverse repurchase agreements and options are shown at market value.

The following is a reconciliation of investments for unobservable inputs (Level 3) were used in determining fair value:

	ivestments in Securities
	Assets
Balance as of August 31, 2008	\$ 6,521,344
Accrued discounts/premiums	77
Realized gain	7
Change in unrealized appreciation/depreciation <sup>1</sup>	(5,724,174)
Net purchases	34,568
Net transfers in Level 3	18,747,982
Balance as of February 28, 2009	\$ 19,579,804

Included in the related net change in unrealized appreciation/depreciation on the Statements of Operations.

See Notes to Financial Statements.

			\$	14,968,098

Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical securities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks, and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust s own assumption used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust spolicy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes

to Financial Statements.

The following table summarizes the inputs used as of February 28, 2009 in determining the fair valuation of the Trust s investments:

					-		
	Assets		Liabilities		Assets		Liabilities
\$	77,647,966			\$	22,294	\$	(5,379,170)
	609,406,067 51,748,647	\$	(32,674,642)		54,768,148		(42,530,847) (12,529,102)
¢	720 002 600	Ф	(22 674 642)	Ф	E4 700 440	<b>c</b>	(60,439,119)
	\$	Assets  \$ 77,647,966 609,406,067 51,748,647	\$ 77,647,966 609,406,067 51,748,647	Securities  Assets Liabilities  \$ 77,647,966 609,406,067 51,748,647  \$ (32,674,642)	Securities  Assets Liabilities  \$ 77,647,966 \$ \$ \$ 609,406,067 \$ (32,674,642) \$ 51,748,647	Securities         Instruction           Assets         Liabilities         Assets           \$ 77,647,966         \$ 22,294           609,406,067         \$ (32,674,642)         54,768,148           51,748,647         54,768,148	Assets         Liabilities         Assets           \$ 77,647,966         \$ 22,294         \$ 609,406,067         \$ 54,768,148           \$ 51,748,647         \$ 54,768,148         \$ 54,768,148         \$ 51,748,647

<sup>\*</sup> Other financial instruments are swaps, futures, interest rate floors and options. Futures and swaps are valued at the unrealized appreciation/depreciation on the instrument and interest rate floors and options are shown at market value.

The following is a reconciliation of investments for unobservable inputs (Level 3) were used in determining fair value:

	 Investments in Securities		her Financial nstruments*
	Assets		Liabilities
Balance as of August 31, 2008	\$ 5,942,021	\$	(9,216,687)
Accrued discounts/premiums	199		, , , , , , , , , , , , , , , , , , , ,
Realized gain	44		484,699
Change in unrealized appreciation/depreciation <sup>1</sup>	2,005,074		(3,797,114)
Net sales	(274,532)		,
Net transfers in Level 3	44,075,841		
Balance as of February 28, 2009	\$ 51,748,647	\$	(12,529,102)

Included in the related net change in unrealized appreciation/depreciation on the Statements of Operations.

See Notes to Financial Statements.
