BlackRock Dividend Achievers<sup>TM</sup> Trust (BDV), BlackRock Enhanced Dividend Achievers<sup>TM</sup> Trust (BDJ), BlackRock Strategic Dividend Achievers<sup>TM</sup> Trust (BDT), BlackRock EcoSolutions Investment Trust (BQR), BlackRock Energy and Resources Trust (BGR), BlackRock Global Equity Income Trust (BFD), BlackRock Global Opportunities Equity Trust (BOE), BlackRock Health Sciences Trust (BME), BlackRock International Growth and Income Trust (BGY), BlackRock Real Asset Equity Trust (BCF), BlackRock S&P Quality Rankings Global Equity Managed Trust (BQY) and BlackRock World Investment Trust (BWC) (each a Trust and collectively, the Trusts), acting pursuant to a Securities and Exchange Commission (SEC) exemptive order and with the approval of each Trust s Board of Directors/Trustees (the Board), each have adopted a level distribution plan (the Plan) that is consistent with its investment objectives and policies. In adopting the Plan, each Trust employs either a managed distribution or option over-write policy to support a level distribution of income, capital gains and/or return of capital. In accordance with the Plans, the Trusts currently distribute the following fixed amounts per share on a quarterly basis:

Exchange Symbol	Amount Per Common Share
BDV	\$0.162500
BDJ	\$0.305625
BDT	\$0.162500
BQR	\$0.400000
BGR	\$0.405000
BFD	\$0.475000
BOE	\$0.568750
BME	\$0.384375
BGY	\$0.455100
BCF	\$0.271800
BQY	\$0.187500
BWC	\$0.341250

The fixed amounts distributed per share are subject to change at the discretion of each Trust s Board. Under its Plan, each Trust will distribute all available investment income to its shareholders, consistent with its primary investment objectives and as required by the Internal Revenue Code of 1986, as amended (the Code). If sufficient investment income is not available on a quarterly basis, the Trusts will distribute long-term capital gains and/or return of capital to shareholders in order to maintain a level distribution.

Each quarterly distribution to shareholders is expected to be at the fixed amount established by the Board, except for extraordinary distributions and potential distribution rate increases or decreases to enable the Trusts to comply with the distribution requirements imposed by the Code.

Shareholders should not draw any conclusions about the Trust s investment performance from the amount of these distributions or from the terms of the Plan. Each Trust s total return performance on net asset value is presented in its financial highlights table.

The Board may amend, suspend or terminate a Trust s Plan without prior notice if it deems such actions to be in the best interests of the Trust or its shareholders. The suspension or termination of the Plan could have the effect of creating a trading discount (if the Trust s stock is trading at or above net asset value) or widening an existing trading discount. The Trusts are subject to risks that could have an adverse impact on their ability to maintain a level distribution. Examples of potential risks include, but are not limited to, economic downturns impacting the markets, decreased market volatility, companies suspending or decreasing corporate dividend distributions and changes in the Code. Please refer to each Trust s prospectus for a more complete description of its risks.

Please refer to the Notes to Financial Statements for a cumulative summary of the Section 19(a) notices for each Trust s current fiscal period. Section 19(a) notices for the Trusts, as applicable, are available on the BlackRock website www.blackrock.com.

# Dear Shareholder

The past 12 months reveal a tale of two markets one of investor pessimism and decided weakness, and another of optimism and some early signs of recovery.

The majority of the past year was characterized by the former as the global financial crisis erupted into the worst recession in decades. Economic data were uniformly poor and daily headlines recounted the downfalls of storied financial firms, volatile swings in global financial markets, and monumental government actions that included widespread (and globally coordinated) monetary and quantitative easing by central banks and large-scale fiscal stimuli. Sentiment improved noticeably in March 2009, however, on the back of new program announcements by the Treasury and Federal Reserve Board, as well as signs of improved economic performance, such as in retail sales, consumer confidence and select areas of the housing market.

Against this backdrop, US equities contended with unprecedented levels of volatility, posting steep declines early, and then pared some of those losses in March and April. The experience in international markets was similar to that in the United States, though there was a marked divergence in regional performance. Notably, emerging economies, which lagged most developed regions through the downturn, were among the market leaders during the late-period rally.

In fixed income markets, while risk aversion remained a dominant theme overall, relatively attractive yields and distressed valuations, alongside a more favorable macro environment, eventually captured investor attention, leading to a modest recovery in non-Treasury assets. A notable example from the opposite end of the credit spectrum was the high yield sector, which generally outperformed in the first four months of 2009 after extraordinary challenges and severe underperformance last year. At the same time, the new year ushered in a return to normalcy for the tax-exempt market, which had registered one of its worst years on record in 2008.

All told, the major benchmark indexes posted mixed results for the current reporting period, reflective of a bifurcated market.

Total Returns as of April 30, 2009	6-month	12-month
US equities (S&P 500 Index)	(8.53)%	(35.31)%
Small cap US equities (Russell 2000 Index)	(8.40)	(30.74)
International equities (MSCI Europe, Australasia, Far East Index)	(2.64)	(42.76)
US Treasury securities (Merrill Lynch 10-Year US Treasury Index)	8.98	9.30
Taxable fixed income (Barclays Capital US Aggregate Bond Index)	7.74	3.84
Tax-exempt fixed income (Barclays Capital Municipal Bond Index)	8.20	3.11
High yield bonds (Barclays Capital US Corporate High Yield 2% Issuer Capped Index)	16.39	(12.55)

Past performance is no guarantee of future results. Index performance shown for illustrative purposes only. You cannot invest directly in an index.

On June 16, 2009, BlackRock, Inc. announced that it received written notice from Barclays PLC (Barclays) in which Barclays Board of Directors had accepted BlackRock soffer to acquire Barclays Global Investors (BGI). Barclays also notified BlackRock that its Board will recommend the transaction to Barclays shareholders for approval at a special meeting to be held in early August 2009. The combination of BlackRock and BGI will bring together market leaders in active and index strategies to create the preeminent asset management firm. The transaction is expected to close in the fourth quarter 2009 following approval by Barclays shareholders, the receipt of client consents and regulatory approvals, and satisfaction of customary closing conditions.

Through periods of market turbulence, as ever, BlackRock s full resources are dedicated to the management of our clients assets. We thank you for entrusting BlackRock with your investments and look forward to continuing to serve you in the months and years ahead.

Sincerely,

Rob Kapito President, BlackRock Advisors, LLC

## BlackRock Dividend Achievers<sup>™</sup> Trust

#### **Investment Objective**

BlackRock Dividend Achievers<sup>TM</sup> Trust (BDV) (the Trust ) seeks to provide total return through a combination of current income and capital appreciation by investing in common stocks that pay above average dividends and have the potential for capital appreciation. The Trust recently implemented an option writing (selling) strategy to help enhance current gains. No assurance can be given that the Trust s investment objective will be achieved.

#### **Performance**

For the six months ended April 30, 2009, the Trust returned (20.91)% based on market price and (17.74)% based on net asset value ( NAV ). For the same period, the Mergent Broad Dividend Achievers Index ( Dividend Achievers Index ) returned (15.01)%, and the broader market, measured by the Russell 1000 Index and the Russell 1000 Value Index, returned (7.39)% and (13.27)%, respectively. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV.

The key investment objective of the BDV portfolio is to generate above-average current income through positions in large-cap stocks with attractive dividend yields, selected primarily from the Dividend Achievers Index. Over period, this strategy was negatively affected by three factors: (1) higher-yielding stocks underperformed the broader market; (2) the drive for yield meant higher exposure to financials, which underperformed; and (3) mid-cap stocks outperformed large-cap stocks and growth stocks outperformed value stocks, each hurting the large-cap, value-oriented BDV portfolio. The enhancement to the BDV strategy, writing calls on approximately 20% of the portfolio, added to current income and total return.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## BlackRock Enhanced Dividend Achievers<sup>™</sup> Trust

#### **Investment Objective**

BlackRock Enhanced Dividend Achievers<sup>TM</sup> Trust (BDJ) (the Trust ) seeks to provide current income and current gains, with a secondary objective of long-term capital appreciation. The Trust seeks to achieve these objectives by investing in common stocks that pay above average dividends and have the potential for capital appreciation and by utilizing an option writing strategy to enhance distributions paid to the Trust s shareholders. No assurance can be given that the Trust s investment objective will be achieved.

#### Performance

For the six months ended April 30, 2009, the Trust returned (14.07)% based on market price and (14.73)% based on NAV. For the same period, the Dividend Achievers Index returned (15.01)%, and the broader market, measured by the Russell 1000 Index and the Russell 1000 Value Index, returned (7.39)% and (13.27)%, respectively. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV.

In addition to covered call writing, the other objective of the BDJ portfolio is to generate above-average current income through positions in large-cap stocks with attractive dividend yields, selected primarily from the Dividend Achievers Index. Over the period, this strategy was negatively affected by three factors: (1) higher-yielding stocks underperformed the market; (2) the drive for yield meant higher exposure to financials, which underperformed; and (3) mid-cap stocks outperformed large-cap stocks and growth stocks outperformed value stocks, each hurting the large-cap, value-oriented BDJ portfolio. Offsetting some of these negative impacts were rich option call premiums received on the covered call portion of the BDJ strategy, driven by the near-record high volatility.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

# BlackRock Strategic Dividend Achievers™ Trust

## **Investment Objective**

BlackRock Strategic Dividend Achievers<sup>TM</sup> Trust (BDT) (the Trust) seeks to provide total return through a combination of current income and capital appreciation by investing primarily in common stocks of small to mid-capitalization companies that pay above average dividends and have potential for capital appreciation. The Trust recently implemented an option writing (selling) strategy to help enhance current gains. No assurance can be given that the Trust is investment objective will be achieved.

#### **Performance**

For the six months ended April 30, 2009, the Trust returned (12.97)% based on market price and (12.15)% based on NAV. For the same period, the Dividend Achievers Index returned (15.01)%, and the broader market, as measured by the Russell 1000 Index and the Russell 1000 Value Index, returned (7.39)% and (13.27)%, respectively. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV.

The key investment objective of the BDT portfolio is to generate above-average current income through positions in mid- and small-cap stocks with attractive dividend yields, selected primarily from the Dividend Achievers Index. Over the period, this strategy was negatively affected by three factors: (1) higher-yielding stocks underperformed the broader market; (2) the drive for yield meant higher exposure to financials, which underperformed; and (3) growth stocks outperformed value stocks, hurting the value-oriented BDT portfolio. Offsetting some of these negative impacts was the strong outperformance of mid-cap stocks, which represents more than half of the BDT portfolio. Further, the enhancement to the BDT strategy, writing calls on approximately 20% of the portfolio, added to current income and total return.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## **BlackRock EcoSolutions Investment Trust**

#### **Investment Objective**

BlackRock EcoSolutions Investment Trust (BQR) (the Trust ) seeks to provide current income, current gains and long-term capital appreciation. The Trust seeks to achieve its investment objective by investing substantially all of its assets in equity securities issued by companies that are engaged in one or more of the new energy, water resources and agriculture business segments and utilizing an option strategy to enhance current gains. No assurance can be given that the Trust s investment objective will be achieved.

#### **Performance**

For the six months ended April 30, 2009, the Trust returned 12.42% based on market price and 3.86% based on NAV. For the same period, the closed-end Lipper Sector Equity Funds category posted an average return of (3.23)% on a market price basis and (5.26)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. Following on from a torrid end to 2008, the portfolio was up strongly in early 2009. The new energy, agriculture and water sectors benefited over the period under review as equity markets broadly moved up from their lows of last year as investor sentiment began to show signs of improving. The three sectors continue to have compelling fundamentals and some areas, such as new energy, may see a long run benefit (in the form of government stimulus/investment), though volatility is likely to continue to be a feature of the market in the short term.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## **BlackRock Energy and Resources Trust**

## **Investment Objective**

**BlackRock Energy and Resources Trust (BGR) (the Trust )** (formerly BlackRock Global Energy and Resources Trust) seeks to provide total return through a combination of current income and capital appreciation. The Trust attempts to achieve this objective by investing primarily in equity securities of energy and natural resources companies and equity derivatives with exposure to the energy and natural resources industry. No assurance can be given that the Trust s investment objective will be achieved.

#### **Performance**

For the six months ended April 30, 2009, the Trust returned (1.11)% based on market price and (5.52)% based on NAV. For the same period, the closed-end Lipper Sector Equity Funds category returned (3.23)% on a market price basis and (5.26)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. In a challenging environment, investors favored large cap stocks and safe havens like gold. Accordingly, large integrated oil stocks, larger cap energy equipment & service names and the metals complex all outperformed during the period. Holding BHP Billiton gained more than 25% in the diversified metals & mining segment, and gold and other precious metals benefited returns as well, as Silver Standard Resources Inc. gained 45%. Primary detractors from performance included coal & consumable fuels and the smaller cap oil & gas exploration & production segment, both hurt by weak energy prices due to declining global demand. Turnover was typically low over the period, and we added to one of our top exploration & production names (Petrohawk Energy Corp.) on weakness. We also took profits in Silver Standard Resources and swapped into Silver Wheaton Corp. At period-end, we continue to emphasize coal producers and oil & gas exploration & production stocks, as we believe these companies have superior long-term growth prospects when global demand eventually rebounds.

## **BlackRock Global Equity Income Trust**

## **Investment Objective**

BlackRock Global Equity Income Trust (BFD) (the Trust ) seeks current income and current gains, with a secondary objective of long-term capital appreciation. The Trust seeks to achieve these objectives by investing in equity securities of companies located in countries throughout the world or options on equity securities or indices of equity securities. The policies of the Trust no longer emphasize dividend-paying stocks or index call options. No assurance can be given that the Trust s investment objective will be achieved.

The Board approved a change to the Trust s non-fundamental investment policy please refer to page 102 in the Additional Information section.

#### **Performance**

For the six months ended April 30, 2009, the Trust returned 5.31% based on market price and (1.00)% based on NAV. For the same period, the MSCI World Index posted a return of (5.45)%. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. As the global marketplace begins to heal, the overwrite strategy proved challenging, but strategic. In March, we reached new lows and experienced a significant rally. Due to the positioning of the options, shareholders were able to experience the best of both worlds. March and April experienced healthy returns and the strategy allowed the investor to benefit more of the upside than expected. At period end, the Trust s cash position remains elevated and will be deployed opportunistically.

# **BlackRock Global Opportunities Equity Trust**

## **Investment Objective**

BlackRock Global Opportunities Equity Trust (BOE) (the Trust ) seeks current income and current gains, with a secondary objective of long-term capital appreciation. The Trust seeks to achieve its objectives by investing primarily in equity securities issued by companies located in countries throughout the world and utilizing an option writing strategy to enhance current gains. No assurance can be given that the Trust s investment objective will be achieved.

The Board approved a change to the Trust s non-fundamental investment policy please refer to page 102 in the Additional Information section.

#### **Performance**

For the six months ended April 30, 2009, the Trust returned 4.10% based on market price and 0.48% based on NAV. For the same period, the benchmark MSCI World Index posted a return of (5.45)%. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. The Trust s outperformance can be primarily attributed to strong stock selection, particularly within energy, financials and healthcare. Sector allocation also contributed positively, as underweights in financials, consumer staples and utilities, along with an overweight in materials, aided return comparisons. By contrast, underweight positions in the consumer discretionary, industrials and telecommunication services sectors detracted from returns for the six months. At period end, the Trust s cash position remains elevated and will be deployed opportunistically.

**BlackRock Health Sciences Trust** 

## **Investment Objective**

**BlackRock Health Sciences Trust (BME) (the Trust )** seeks to provide total return through a combination of current income and capital appreciation. The Trust seeks to achieve this objective by investing primarily in equity securities of companies engaged in the health sciences and related industries and equity derivatives with exposure to the health sciences industry. No assurance can be given that the Trust s investment objective will be achieved.

#### **Performance**

For the six months ended April 30, 2009, the Trust returned (4.42)% based on market price and (2.61)% based on NAV. For the same period, the benchmark Russell 3000 Healthcare Index returned (8.26)%. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV. The Trust s comparative performance benefited from both stock selection and sector allocation affects. Most notably, selection was strong within the medical devices & supplies, biotechnology and pharmaceuticals subsectors. The Trust s overweights in biotechnology and healthcare services contributed positively on a relative basis as well. By contrast, an overweight in medical devices & supplies and an underweight in pharmaceuticals detracted from returns for the six months. The Trust maintained moderate levels of cash during the period, which did not significantly impact performance.

#### **Investment Objective**

BlackRock International Growth and Income Trust (BGY) (the Trust ) seeks current income and current gains, and secondarily long-term capital appreciation. The Trust seeks to achieve its objectives by investing primarily in equity securities issued by companies of any market capitalization located in countries throughout the world and utilizing an option writing (selling) strategy to enhance current gains. No assurance can be given that the Trust sinvestment objective will be achieved.

The Board approved a change to the Trust s non-fundamental investment policy please refer to page 102 in the Additional Information section.

#### **Performance**

For the six months ended April 30, 2009, the Trust returned 6.01% based on market price and 2.68% based on NAV. For the same period, the benchmark S&P Global Broad Market Index ex-US returned 2.51%. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. Allocation effects contributed positively to performance during the six months as underweights in utilities, healthcare and consumer staples added to returns, while an information technology (IT) underweight relative to the benchmark and the Trust s cash position detracted. The Trust s comparative performance was also hurt by weak stock selection within financials, consumer staples, IT and industrials, but those effects were somewhat offset by good results within the consumer discretionary, materials and telecommunication services sectors. At period end, the Trust s cash position remains elevated and will be deployed opportunistically.

## **BlackRock Real Asset Equity Trust**

#### **Investment Objective**

BlackRock Real Asset Equity Trust (BCF) (the Trust ) seeks to provide total return through a combination of current income, current gains and capital appreciation. The Trust attempts to achieve this objective by investing primarily in equity securities of companies engaged in energy, natural resources and basic materials businesses and companies in associated businesses and equity derivatives with exposure to those companies. No assurance can be given that the Trust s investment objective will be achieved.

#### Performance

For the six months ended April 30, 2009, the Trust returned 8.73% based on market price and 5.64% based on NAV. For the same period, the closed-end Lipper Sector Equity Funds category returned (3.23)% on a market price basis and (5.26)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust is discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. In a challenging market environment, defensive areas of the market performed best, and investors preferred safe havens like gold. Accordingly, gold and other precious metals were the primary contributors to performance during the period. Within other precious metals, Impala Platinum Holdings Ltd. was a top performer. Detracting from performance were the coal & consumable fuels and oil & gas exploration & production subsectors, which were hurt by low energy prices due to weak global demand. Turnover was typically low over the period, and we added to some cyclical stocks in anticipation of a potential bottoming out in the economy and the stock market. We added to John Deere Ltd., and within the energy sleeve of the fund, we eliminated Compton Petroleum Corp. At period-end, the Trust remains largely exposed to energy and materials, with an emphasis on oil & gas exploration & production and diversified metals & mining. At period end, the Trust is cash position remains elevated and will be deployed opportunistically.

## BlackRock S&P Quality Rankings Global Equity Managed Trust

#### **Investment Objective**

BlackRock S&P Quality Rankings Global Equity Managed Trust (BQY) (the Trust ) seeks to provide total return through a combination of current income and capital appreciation investing primarily in equity securities of issuers that pay above average dividends and have the potential for capital appreciation. The Trust recently implemented an option writing (selling) strategy to help enhance current gains. No assurance can be given that the Trust s investment objective will be achieved.

The Board approved a change to the Trust s non-fundamental investment policy, please refer to page 102 in the Additional Information section.

#### **Performance**

For the six months ended April 30, 2009, the Trust returned (5.97)% based on market price and (5.13)% based on NAV. For the same period, the MSCI World Developed Value Index returned (6.41)%. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV.

One of the key investment objectives of the BQY portfolio is to generate income through positions in stocks with attractive dividend yields. Over the period, this detracted as higher-yielding stocks have underperformed. However, throughout the course of the period, in particular, when the global credit crisis intensified, higher-quality stocks, the other key investment objective, outperformed lower-quality issues internationally. Significant exposure to the Asia/Pacific region also aided results, as this was the best-performing region during the period.

Further, the BQY strategy was enhanced to take advantage of historically-high stock volatility. A modest amount of covered call writing was added to the strategy, capitalizing on very high call premiums. Approximately 20% of the portfolio has calls written against it, initiated at approximately 10% out of the money. The call premiums added to current income and total return.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## **BlackRock World Investment Trust**

#### **Investment Objective**

BlackRock World Investment Trust (BWC) (the Trust ) seeks current income, dividends and gains, with a secondary objective of long-term capital appreciation. The Trust seeks to achieve these objectives by investing in equity securities or options on equity securities or indices or sectors of equity securities. Equity securities in which the Trust anticipates investing include common stocks, preferred stocks, convertible securities, warrants, depository receipts and equity interests in REITs. The Trust may invest in preferred stocks and convertible securities of any rating. The Trust may invest in debt securities of issuers located anywhere in the world and including securities rated below investment grade. No assurance can be given that the Trust s investment objective will be achieved.

#### **Performance**

For the six months ended April 30, 2009, the Trust returned 2.64% based on market price and (0.62)% based on NAV. For the same period, the benchmark MSCI World Index posted a return of (5.45)%. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. The Trust s comparative performance was enhanced primarily by strong stock selection, particularly within the energy, financials and healthcare sectors. The Trust s overweight versus the benchmark in the materials sector and its underweight in utilities also benefited relative returns for the trailing six months. By contrast, performance comparisons suffered from the Trust s underweight exposure to the information technology, industrials and consumer discretionary sectors. At period end, the Trust s cash position remains elevated and will be deployed opportunistically.

# **Derivative Instruments**

The Trusts may invest in various derivative instruments, including swap agreements and futures, and other instruments specified in the Notes to Financial Statements, which constitute forms of economic leverage. Such instruments are used to obtain exposure to a market without owning or taking physical custody of securities or to hedge market and/or interest rate risks. Such derivative instruments involve risks, including the imperfect correlation between the value of a derivative instrument and the underlying asset, possible default of the other party to the transaction and illiquidity of the derivative instrument. The Trusts ability to successfully use a derivative instrument depends on the Advisor's ability to accurately predict pertinent market movements, which cannot be assured. The use of derivative instruments may result in losses greater than if they had not been used, may require the Trusts to sell or purchase portfolio securities at inopportune times or for prices other than current market values, may limit the amount of appreciation the Trusts can realize on an investment or may cause the Trusts to hold a security that it might otherwise sell. The Trusts investments in these instruments are discussed in detail in the Notes to Financial Statements.

(b) Represents the current yield as of report date.

For Trust compliance purposes, the Trust s sector and industry classifications refer to any one or more of the Standard Industry Codes as defined by the SEC. This definition may not apply for purposes of this report, which may combine sector and industry sub-classifications for reporting ease.

Effective November 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust sown assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of April 30, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	Investments in Securities	Other Financial Instruments**
	Assets	Liabilities
Level 1	\$ 446,589,359	\$ (2,596,982)
Level 2		(1,452,262)
Level 3		
Total	\$ 446,589,359	\$ (4,049,244)

22 SEMI-ANNUAL REPORT APRIL 30, 2009

#### Schedule of Investments (concluded) BlackRock Enhanced Dividend Achievers™ Trust (BDJ)

(d) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940 were as follows:

Affiliate	Net Activity	Income
BlackRock Liquidity Funds, TempFund	17,324,473	\$ 211,601
BlackRock Liquidity Series, LLC Money Market Series	(17,549,000)	\$ 33,421

(e) Security purchased with the cash proceeds from securities loans.

For Trust compliance purposes, the Trust sector and industry classifications refer to any one or more of the Standard Industry Codes as defined by the SEC. This definition may not apply for purposes of this report, which may combine sector and industry sub-classifications for reporting ease.

Effective November 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust sown assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of April 30, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	Investments in Securities	Other Financial Instruments**	
	Assets	Assets	Liabilities
Level 1 Level 2 Level 3	\$ 536,916,776 4,375,000	\$ 8,750	\$ (6,774,595) (4,503,138)
Total	\$ 541,291,776	\$ 8,750	\$ (11,277,733)

\*\* Other financial instruments are options written and are shown at market value.

- (b) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940 were as follows:

Affiliate	Net Activity	Income
BlackRock Liquidity Funds, TempFund	6,752,474	\$34,686

(c) Represents the current yield as of report date.

For Trust compliance purposes, the Trust sector and industry classifications refer to any one or more of the Standard Industry Codes as defined by the SEC. This definition may not apply for purposes of this report, which may combine sector and industry sub-classifications for reporting ease.

Effective November 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust sown assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of April 30, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	In	vestments in Securities	_	ther Financial nstruments**
		Assets		Liabilities
Level 1	\$	244,725,904	\$	(1,377,840)
Level 2 Level 3				(1,621,145)

Effective November 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust sown assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of April 30, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	Investments in Other Financia Securities Instruments**			
		Assets		Liabilities

Effective November 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust sown assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of April 30, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	restments in Securities	0	ther Financia	l Inst	ruments**
	Assets	A	Assets		Liabilities
Level 1 Level 2 Level 3	\$ 529,703,497 28,927,042	\$	200 12	\$	(4,532,357) (1,347,803)
Total	\$ 558,630,539	\$	212	\$	(5,880,160)

Other financial instruments are foreign currency exchange contracts and options written. Foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument and options written are shown at market value.

Effective November 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust sown assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of April 30, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	Investments in Securities	Other Finan	cial Instruments**
	Assets	Assets	Liabilities
Level 1 Level 2 Level 3	\$ 277,011,923 132,968,718	\$ 1,59	\$ (5,112,583) 5 (6,672,391)
Total	\$ 409,980,641	\$ 1,59	5 \$ (11,784,974)

<sup>\*\*</sup> Other financial instruments are foreign currency exchange contracts and options written. Foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument and options written are shown at market value.

Effective November 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and

requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust sown assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust spolicy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of April 30, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	Investments in Securities	Other Financia	I Instruments**
	Assets	Assets	Liabilities
Level 1 Level 2	\$ 134,748,014 72,476,565	\$ 974	\$ (3,345,000) (3,715,116)
Level 3	, -,	•	(=, =, -,
Total	\$ 207,224,579	\$ 974	\$ (7,060,116)

<sup>\*\*</sup> Other financial instruments are foreign currency exchange contracts and options written. Foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument and options written are shown at market value.

Effective November 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust sown assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of April 30, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	Investments in Securities	Othe	er Financia	l Inst	ruments**
	Assets	As	ssets	ı	_iabilities
Level 1 Level 2 Level 3	\$ 154,577,978 10,973,391	\$	4,400 225	\$	(1,291,889) (146,832)
Total	\$ 165,551,369	\$	4,625	\$	(1,438,721)

<sup>\*\*</sup> Other financial instruments are foreign currency exchange contracts and options written. Foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument and options written are shown at market value.

Effective November 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust sown assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of April 30, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	Investments in Securities	Other	Financia	I Instruments**
	Assets	Ass	sets	Liabilities
Level 1	\$ 299,704,013			\$ (6,024,467)
Level 2	673,820,653	\$	4,166	(31,459,773)
Level 3				
Total	\$ 973,524,666	\$	4,166	\$ (37,484,240)

<sup>\*\*</sup> Other financial instruments are foreign currency exchange contracts and options written. Foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument and options written are shown at market value.

See Notes to Financial Statements.

Effective November 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust sown assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of April 30, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	Investments i Securities	n	Other Financia	al Inst	truments**
	Assets		Assets		Liabilities
Level 1 Level 2	\$ 397,415,0 128,718,5		5,625	\$	(6,321,603) (5,210,014)

64 SEMI-ANNUAL REPORT APRIL 30, 2009

#### BlackRock S&P Quality Rankings Global Equity Managed Trust (BQY)

Effective November 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust s own assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of April 30, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	Investments in Other Financial Securities Instruments**		in Other F	
	Assets	As	sets	Liabilities
Level 1 Level 2 Level 3	\$ 39,039,707 28,610,436	\$	37	\$ (165,950) (324,097)
Total	\$ 67,650,143	\$	37	\$ (490,047)

See Notes to Financial Statements.

Effective November 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust sown assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of April 30, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	Investments in Securities					Other Financial Instruments**					
		Assets		Assets		Liabilities					
Level 1	\$	340,585,978			\$	(8,557,556)					
Level 2 Level 3		168,573,926	\$	2,613		(9,814,830)					
Total	\$	509,159,904	\$	2,613	\$	(18,372,386)					

<sup>\*\*</sup> Other financial instruments are foreign currency exchange contracts and options written. Foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument and options written are shown at market value.

### Notes to Financial Statements

### 1. Organization and Significant Accounting Policies:

BlackRock Dividend Achievers<sup>TM</sup> Trust ( Dividend Achievers ), BlackRock Enhanced Dividend Achiever§ Trust ( Enhanced Dividend Achievers ), BlackRock Strategic Dividend Achiever§ Trust ( Strategic Dividend Achievers ), BlackRock EcoSolutions Investment Trust ( EcoSolutions ), BlackRock Energy and Resources Trust ( Energy and Resources ) (formerly known as BlackRock Global Energy and Resources Trust), BlackRock Global Equity Income Trust ( Global Equity Income ), BlackRock Global Opportunities Equity Trust ( Global Opportunities ), BlackRock Health Sciences Trust ( Health Sciences ), BlackRock International Growth and Income Trust ( International Growth ), BlackRock Real Asset Equity Trust ( Real Asset ), BlackRock S&P Quality Rankings Global Equity Managed Trust ( S&P Quality Rankings ) and BlackRock World Investment Trust ( World Investment ) (collectively, the Trusts ) are organized as Delaware statutory trusts. All Trusts, except EcoSolutions, Energy and Resources, Global Equity Income, Health Sciences, International Growth and Real Asset, are registered as diversified, closed-end management investment companies under the Investment Company Act of 1940, as amended (the 1940 Act ). EcoSolutions, Energy and Resources, Global Equity Income, Health Sciences, International Growth and Real Asset are registered as non-diversified, closed-end management investment companies under the 1940 Act. The Trusts financial statements are prepared in conformity with accounting principles generally accepted in the United States of America, which may require the use of management accruals and estimates. Actual results may differ from these estimates. The Trusts determine and make available for publication the net asset values of their shares on a daily basis.

The following is a summary of significant accounting policies followed by the Trusts:

Valuation of Investments: Equity investments traded on a recognized securities exchange or the NASDAQ Global Market System are valued at the last reported sale price that day or the NASDAQ official closing price, if applicable. For equity investments traded on more than one exchange, the last reported sale price on the exchange where the stock is primarily traded is used. Equity investments traded on a recognized exchange for which there were no sales on that day are valued at the last available bid price. If no bid price is available, the prior day s price will be used, unless it is determined that such prior day s price no longer reflects the fair value of the security. Investments in open-end investment companies are valued at net asset value each business day. Financial futures contracts traded on exchanges are valued at their last sale price. Swap agreements are valued utilizing quotes received daily by the Trusts pricing service or through brokers, which are derived using daily swap curves and trades of underlying securities. Short-term securities with maturities less than 60 days may be valued at amortized cost, which approximates market value. The Trusts value their investments in the BlackRock Liquidity Series, LLC Money Market Series at fair value, which is ordinarily based upon their pro-rata ownership in the net assets of the underlying fund.

Exchange-traded options are valued at the mean between the last bid and ask prices at the close of the options market in which the options trade. An exchange-traded option for which there is no mean price is valued at the last bid (long positions) or ask (short positions) price. If no bid or ask price is available, the prior day s price will be used, unless it is determined that such prior day s price no longer reflects the fair value of the option. Over-the-counter options are valued by an independent pricing service using a mathematical model which incorporates a number of market data factors.

In the event that application of these methods of valuation results in a price for an investment which is deemed not to be representative of the market value of such investment, the investment will be valued by a method approved by the Board of Trustees (the Board ) as reflecting fair value ( Fair Value Assets ). When determining the price for Fair Value Assets, the investment advisor and/or sub-advisor seeks to determine the price that each Trust might reasonably expect to receive from the current sale of that asset in an arm s-length transaction. Fair value determinations shall be based upon all available factors that the investment advisor and/or sub-advisor deems relevant. The pricing of all Fair Value Assets is subsequently reported to the Board or a committee thereof.

Generally, trading in foreign securities is substantially completed each day at various times prior to the close of business on the New York Stock Exchange (NYSE). The values of such securities used in computing the net assets of the Trusts are determined as of such times. Foreign currency exchange rates will be determined as of the close of business on the NYSE. Occasionally, events affecting the values of such securities and such exchange rates may occur between the times at which they are determined and the close of business on the NYSE that may not be reflected in the computation of the Trust's net assets. If events (for example, a company announcement, market volatility or a natural disaster) occur during such periods that are expected to materially affect the value of such securities, those securities may be valued at their fair value as determined in good faith by the Board or by the Advisor using a pricing service and/or procedures approved by the Board. Foreign currency exchange contracts are valued at the mean between the bid and ask prices. Interpolated values are derived when the settlement date of the contract is an interim date

for which quotations are not available.

**Derivative Financial Instruments:** The Trusts may engage in various portfolio investment strategies both to increase the return of the Trusts and to hedge, or protect, their exposure to interest rate movements and movements in the securities markets. Losses may arise if the value of the contract decreases due to an unfavorable change in the price of the underlying security, or if the counterparty does not perform under the contract.

**Financial Futures Contracts** Each Trust may purchase or sell financial futures contracts and options on financial futures contracts for investment purposes or to manage its interest rate risk. Futures are contracts for delayed delivery of securities at a specific future date and at a specific price or yield. Pursuant to the contract, the Trust agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract. Such receipts or payments are known as margin variation and are recognized by the Trust as unrealized gains or losses. When the contract is closed, the Trust records a realized gain or loss equal to the difference between the value of the contract at the

94 SEMI-ANNUAL REPORT APRIL 30, 2009

## Notes to Financial Statements (continued)

time it was opened and the value at the time it was closed. The use of futures transactions involves the risk of an imperfect correlation in the movements in the price of futures contracts, interest rates and the underlying assets, and the possible inability of counterparties to meet the terms of their contracts.

Forward Currency Contracts A forward currency contract is an agreement between two parties to buy and sell a currency at a set exchange rate on a future date. Each Trust may enter into foreign currency exchange contracts as a hedge against either specific transactions or portfolio positions. Forward currency exchange contracts, when used by the Trust, help to manage the overall exposure to the foreign currency backing some of the investments held by the Trust. The contract is marked-to-market daily and the change in market value is recorded by the Trust as an unrealized gain or loss. When the contract is closed, the Trust records a realized gain or loss equal to the difference between the value at the time it was opened and the value at the time it was closed. The use of forward currency contracts involves the risk that counterparties may not meet the terms of the agreement and market risk of unanticipated movements in the value of a foreign currency relative to the US dollar.

**Options** The Trusts may purchase and write call and put options. A call option gives the purchaser of the option the right (but not the obligation) to buy, and obligates the seller to sell (when the option is exercised), the underlying position at the exercise price at any time or at a specified time during the option period. A put option gives the holder the right to sell and obligates the writer to buy the underlying position at the exercise price at any time or at a specified time during the option period.

When the Trusts purchase (write) an option, an amount equal to the premium paid (received) by the Trusts is reflected as an asset and an equivalent liability. The amount of the asset (liability) is subsequently marked-to-market to reflect the current market value of the option written. When a security is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deducted from) the basis of the security acquired or deducted from (or added to) the proceeds of the security sold. When an option expires (or the Trusts enter into a closing transaction), the Trusts realize a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium received or paid). When the Trust writes a call option, such option is covered, meaning that the Trust holds the underlying security subject to being called by the option counterparty, or cash in an amount sufficient to cover the obligation. When the Trust writes a put option, such option is covered by cash or liquid securities in an amount sufficient to cover the obligation.

In purchasing and writing options, the Trusts bear the market risk of an unfavorable change in the price of the underlying security. Exercise of a written option could result in the Trusts purchasing a security at a price different from the current market value. The Trust may execute transactions in both listed and over-the-counter options. Transactions in certain over-the-counter options may expose the Trust to the risk of default by the counterparty to the transaction.

**Total Return Swaps** The Trusts may enter into total return swaps for investment purposes or to manage its interest rate risk. Total return swaps are agreements in which one party commits to pay interest in exchange for a market-linked return. To the extent the total return of the security or index underlying the transaction exceeds or falls short of the offsetting interest rate obligation, the Trusts will receive a payment from or make a payment to the counterparty. These periodic payments received or made by the Trusts are recorded in the accompanying Statements of Operations as realized gains or losses, respectively. Swaps are marked-to-market daily and changes in value are recorded as unrealized appreciation (depreciation). When the swap is terminated, the Trusts will record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Trusts basis in the contract, if any. Swap transactions involve, to varying degrees, elements of credit and market risk in excess of the amounts recognized on the Statement of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligation to perform or disagree as to the meaning of the contractual terms in the agreements, and that there may be unfavorable changes in interest rates and/or market values associated with these transactions.

**Foreign Currency Transactions:** Foreign currency amounts are translated into United States dollars on the following basis: (i) market value of investment securities, assets and liabilities at the current rate of exchange; and (ii) purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

Each Trust reports foreign currency related transactions as components of realized gains for financial reporting purposes, whereas such components are treated as ordinary income for federal income tax purposes.

Segregation and Collateralization: In cases in which the 1940 Act and the interpretive positions of the Securities and Exchange Commission (SEC) require that each Trust segregate assets in connection with certain investments (e.g., options, swaps, written options, forward currency contracts or financial futures contracts), each Trust will, consistent with certain interpretive letters issued by the SEC, designate on their books and records cash or other liquid securities having a market value at least equal to the amount that would otherwise be required to be physically segregated. Furthermore, based on requirements and agreements with certain exchanges and third party broker-dealers, each Trust may also be required to deliver or deposit securities as collateral for certain investments (e.g., financial futures contracts, swaps and written options).

**Investment Transactions and Investment Income:** Investment transactions are recorded on the dates the transactions are entered into (the trade dates). Realized gains and losses on investment transactions are determined on the identified cost basis. Dividend income is recorded on the ex-dividend dates. Dividends from foreign securities where the ex-dividend date may have passed are subsequently recorded when the Trust has determined the ex-dividend date. Upon notification from issuers, some of the

dividend income received from a real estate investment trust may be redesignated as a reduction of cost of the related investment and/or realized gain. Interest income is recognized on the accrual basis. The Trusts amortize all premiums and discounts on debt securities.

**Dividends and Distributions:** All Trusts declare and pay dividends and distributions to shareholders quarterly from net investment income, net realized short-term capital gains and, if necessary, other sources. Net long-term capital gains, if any, in excess of loss carryforwards may be distributed annually. Dividends and distributions are recorded on the ex-dividend dates.

Securities Lending: The Trusts may lend securities to financial institutions that provide cash, which will be maintained at all times in an amount equal to at least 100% of the current market value of the loaned securities. The market value of the loaned securities is determined at the close of business of the Trusts and any additional required collateral is delivered to the Trusts on the next business day. The Trusts typically receive income on the loaned securities but do not receive the income on the collateral. The Trusts may invest cash collateral and retain the amount earned on such investment, net of any amount rebated to the borrower. Loans of securities are terminable at any time and the borrower, after notice, is required to return borrowed securities within the standard time period for settlement of securities transactions. The Trusts may pay reasonable lending agent, administrative and custodial fees in connection with their loans. In the event that the borrower defaults on its obligation to return borrowed securities because of insolvency or for any other reason, the Trusts could experience delays and costs in gaining access to the collateral. The Trusts also could suffer a loss if the value of an investment purchased with cash collateral falls below the market value of loaned securities.

**Income Taxes:** It is the Trusts policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of their taxable income to their shareholders. Therefore, no federal income tax provisions are required. Under the applicable foreign tax laws, a withholding tax may be imposed on interest, dividends and capital gains at various rates.

The Trusts file US federal and various state and local tax returns. No income tax returns are currently under examination. The statute of limitations on the Dividend Achievers, Enhanced Dividend Achievers, Strategic Dividend Achievers, Energy and Resources, Global Opportunities, Health Sciences, Real Asset, S&P Quality Rankings and World Investment s US federal tax returns remains open for the four years ended October 31, 2008. The statute of limitations on EcoSolutions, Global Equity Income and International Growth s US federal tax returns remains open for the two years ended October 31, 2008. The statute of limitations on the Trusts state and local tax returns may remain open for an additional year depending upon the jurisdiction.

Recent Accounting Pronouncement: In March 2008, Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities-an amendment of FASB Statement No. 133 (FAS 161), was issued. FAS 161 is intended to improve financial reporting for derivative instruments by requiring enhanced disclosure that enables investors to understand how and why an entity uses derivatives, how derivatives are accounted for and how derivative instruments affect an entity s results of operations and financial position. FAS 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. The impact on the Trusts financial statement disclosures, if any, is currently being assessed.

Dividend Achievers Universe: Dividend Achievers, Enhanced Dividend Achievers and Strategic Dividend Achievers have been granted a revocable license by Mergent<sup>®</sup>, Inc. (Mergent) to use the Dividend Achieverers of common stocks. If Mergent revokes each Trust is license to use the Dividend Achievers<sup>TM</sup> universe, the Board of that Trust may need to adopt a new investment strategy and/or new investment policies. There is no assurance that a Trust would pursue or achieve its investment objective during the period in which it implements these replacement investment policies or strategies. If S&P terminates the license to use either the S&P Quality Rankings or the S&P International Quality Rankings, the Board may need to adopt a new investment strategy and/or new investment policies. There is no assurance that the Trust would pursue or achieve its investment objective during the period in which it implements these replacement investment policies or strategies. Deferred Compensation and BlackRock Closed-End Share Equivalent Investment Plan: Under the deferred compensation plan approved by each Trust s Board, non-interested Trustees (Independent Trustees) defer a portion of their annual complex-wide compensation. Deferred amounts earn an approximate return as though equivalent dollar amounts had been invested in common shares of other BlackRock Closed-End Funds selected by the Independent Trustees. This has approximately the same economic effect for the Independent Trustees as if the Independent Trustees had invested the deferred amounts directly in the other BlackRock Closed-End Funds.

The deferred compensation plan is not funded and obligations thereunder represent general unsecured claims against the general assets of the Trust. Each Trust may, however, elect to invest in common shares of other BlackRock Closed-End Funds selected by the Independent Trustees in order to match its deferred compensation obligations. Trusts deferred compensation liability are included in other assets on the Statements of Assets and Liabilities. Dividends and distributions from the BlackRock Closed-End Fund investments under the plan are included in income - affiliated on the Statements of Operations.

**Other:** Expenses directly related to a Trust are charged to that Trust. Other operating expenses shared by several funds are pro-rated among those funds on the basis of relative net assets or other appropriate methods.

#### 2. Investment Advisory Agreement and Other Transactions with Affiliates:

Each Trust has an Investment Management Agreement with BlackRock Advisors, LLC (the Advisor), an indirect, wholly owned subsidiary of BlackRock, Inc., (BlackRock) to provide investment advisory and administration services. The PNC Financial Services Group, Inc. (PNC) and Bank of America Corporation (BAC) are the largest stockholders of BlackRock. BAC became a stockholders of BlackRock following its acquisition of Merrill Lynch & Co., Inc. (Merrill Lynch) on January 1, 2009. Prior to that date, both PNC and Merrill Lynch were considered affiliates of the Fund under the 1940 Act. Subsequent to the acquisition, PNC remains an affiliate, but due to the restructuring of Merrill Lynch is ownership interest of BlackRock, BAC is not deemed to be an affiliate under the 1940 Act.

The Advisor is responsible for the management of the each Trust s portfolio and provides the necessary personnel, facilities, equipment and certain other services necessary to the operations of the Trusts. For such services, the Trusts pay the Advisor a monthly fee at the following annual rates of the average weekly value of each Trust s net assets: 0.65% for Dividend Achievers, 1.00% for Enhanced Dividend Achievers, 0.75% for Strategic Dividend Achievers, 1.20% for EcoSolutions, 1.20% for Energy and Resources, 1.00% for Global Equity Income, 1.00% for Global Opportunities, 1.00% for Health Sciences, 1.00% for International Growth, 1.20% for Real Asset, 0.75% for S&P Quality Rankings and 1.00% for World Investment. The Advisor has voluntarily agreed to waive a portion of the investment advisory fees on Energy and Resources and Real Asset as a percentage of their average weekly net assets as follows: 0.20% for the first five years of the Trusts operations (2004 through 2009 for Energy and Resources and 2006 through 2011 for Real Asset), 0.15% in 2010 for Energy and Resources and in 2012 for Real Asset, 0.10% in 2011 for Energy and Resources and in 2014 for Real Asset.

The Advisor has entered into separate sub-advisory agreements with BlackRock Financial Management, Inc. (BFM) for Dividend Achievers, Enhanced Dividend Achievers, Strategic Dividend Achievers, S&P Quality Rankings and World Investment, State Street Research & Management Company (SSRM) for Energy and Resources, BlackRock Investment Management, LLC (BIM) and BlackRock International Limited (BIL) for Real Asset and EcoSolutions, BlackRock Capital Management, Inc. (BCM) and BIM for Global Equity Income, each an affiliate of the Advisor. The Advisor pays each sub-advisor for services they provide, a monthly fee that is a percentage of the investment advisory fee paid by each Trust to the Advisor.

During the two months ended December 31, 2008 (after which it was no longer considered affiliated), Merrill Lynch, through its affiliated broker-dealer, Merrill Lynch, Pierce, Fenner & Smith Incorporated (MLPF&S), earned commissions on transactions of securities as follows:

	Commission Amount	
Dividend Achievers	\$ 1,900	0
Enhanced Dividend Achievers	3,021	1
Strategic Dividend Achievers	1,370	0
EcoSolutions	583	3
Energy and Resources	2,015	5
Global Equity Income	34,735	5
Global Opportunities	5,585	5
Health Sciences	8,619	9
International Growth	695	5
Real Asset	1,689	9
World Investment	13,969	9

The Trusts have received an exemptive order from the SEC permitting them to lend portfolio securities to MLPF&S, a wholly owned subsidiary of Merrill Lynch, or its affiliates. Pursuant to that order, the Trusts have retained BIM as the securities lending agent for a fee based on a share of the returns on investment of cash collateral. BIM may, on behalf of the Trusts, invest cash collateral received by the Trusts for such loans, among other things, in a private investment company managed by the Advisor or in registered money market funds advised by the Advisor or its affiliates. The share of income earned by the Trusts on such investments is shown as securities lending - affiliated on the Statements of Operations. For the period ended April 30, 2009, BIM received \$58,663 in securities lending agent fees.

Certain officers and/or trustees of the Trusts are officers and/or trustees of BlackRock, Inc. or its affiliates. The Trusts reimburse the Advisor for compensation paid to the Trusts 
Chief Compliance Officer.

#### 4. Concentration, Market and Credit Risk:

In the normal course of business, the Trusts invest in securities and enters into transactions where risks exist due to fluctuations in the market (market risk) or failure of the issuer of a security to meet all its obligations (credit risk). The value of securities held by the Trusts may decline in response to certain events, including those directly involving the issuers whose securities are owned by the Trusts; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency and interest rate and price fluctuations. Similar to credit risk, the Trusts may be exposed to counterparty risk, or the risk that an entity with which the Trusts have unsettled or open transactions may default. Financial assets, which potentially expose the Trusts to credit and counterparty risks, consist principally of investments and cash due from counterparties. The extent of the Trusts exposure to credit and coun-terparty risks with respect to these financial assets is approximated by their value recorded in the Trusts Statement of Assets and Liabilities.

As of April 30, 2009, the Trusts listed below had the following sector classifications:

### Additional Information

#### Section 19(a) Notices

The amounts and sources of distributions reported are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources for tax reporting purposes will depend upon each Trust s investment experience during the remainder of its fiscal year and may be subject to changes based on the tax regulations. Shareholders should not draw any conclusions about the Trust s investment performance from the amount of these distributions or from the terms of each Trust s plan. The Trusts will send you a Form 1099-DIV each calendar year that will tell you how to report these dividends and distributions for federal income tax purposes.

\* The Fund estimates that it has distributed more than its income and net realized gains; therefore, a portion of the distribution may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to the shareholder. A return of capital does not necessarily reflect the Fund is investment performance and should not be confused with income.

#### **General Information**

Global Equity Income s, Global Opportunities , International Growth s and S&P Quality Rankings Boards approved a change to the Trust s non-fundamental investment policy. Under normal circumstances, the Trust anticipates it will allocate a substantial amount (approximately 40% or more unless market conditions are not deemed favorable by the Advisor, in which case the Trust would invest at least 30%) of its total assets in securities (i) of foreign government issuers, (ii) of issuers organized or located outside the U.S., (iii) of issuers which primarily trade in a market located outside the U.S., or (iv) of issuers doing a substantial amount of business outside the U.S., which the Trust considers to be companies that derive at least 50% of their revenue or profits from business outside the U.S. or have at least 50% of their sales or assets outside the U.S. The Trust will allocate its assets among various regions and countries, including the United States (but in no less than three different countries). This change in the Trust s non-fundamental investment policy may reduce the Trust s flexibility to respond to global market events. For temporary defensive purposes, the Trust may deviate very substantially from the allocation described above.

Global Equity Income recently implemented a change to one of its non-fundamental investment policies, which was approved by its Board of Directors. Global Equity Income had previously, under normal market conditions, invested at least 80% of its total assets in a combination of (i) dividend-paying domestic and foreign common stocks and (ii) common stocks the value of which is subject to covered written index call options. This non-fundamental policy was revised to allow Global Equity Income, under normal market conditions, to invest at least 80% of its total assets in equity securities of companies located in countries throughout the world or options on equity securities or indices of equity securities. The new non-fundamental policy does not emphasize dividend-paying stocks or index call options.

Energy and Resource s Board recently approved a change to the Trust s name from BlackRock Global Energy and Resources Trust to BlackRock Energy and Resources Trust .

Other than the revisions to Global Equity Income s, Global Opportunities , International Growth s and S&P Quality Rankings investment policy discussed above, during the period there were no material changes in the Trusts investment objectives or policies or to the Trusts charters or by-laws that were not approved by the shareholders or in the principal risk factors associated with investment in the Trusts. Other than as disclosed on page 101, there have been no changes in the persons who are primarily responsible for the day-to-day management of the Trust s portfolios.

#### **Electronic Delivery**

Electronic copies of most financial reports are available on the Trusts web-sites or shareholders can sign up for e-mail notifications of quarterly statements, annual and semi-annual reports and prospectuses by enrolling in the Trusts electronic delivery program.

#### Shareholders Who Hold Accounts with Investment Advisors, Banks or Brokerages:

Please contact your financial advisor to enroll. Please note that not all investment advisors, banks or brokerages may offer this service.

102 SEMI-ANNUAL REPORT APRIL 30, 2009

## Additional Information (concluded)

#### **General Information (concluded)**

#### Householding

The Trusts will mail only one copy of shareholder documents, including annual and semi-annual reports and proxy statements, to shareholders with multiple accounts at the same address. This practice is commonly called householding and it is intended to reduce expenses and eliminate duplicate mailings of shareholder documents. Mailings of your shareholder documents may be householded indefinitely unless you instruct us otherwise. If you do not want the mailing of these documents to be combined with those for other members of your household, please contact the Trusts at (800) 441-7762

Quarterly performance, semi-annual and annual reports and other information regarding each Trust may be found on BlackRock s website, which can be accessed at http://www.blackrock.com. This reference to BlackRock s website is intended to allow investors public access to information regarding each Trust and does not, and is not intended to, incorporate BlackRock s website into this report.

#### **Availability of Quarterly Schedule of Investments**

Each Trust files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. Each Trust s Forms N-Q are available on the SEC s website at http://www.sec.gov and may also be reviewed and copied at the SEC s Public Reference Room in Washington, DC.

Information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330. Each Trust s Forms N-Q may also be obtained upon request and without charge by calling (800) 441-7762.

### **Availability of Proxy Voting Policies and Procedures**

A description of the policies and procedures that the Trusts use to determine how to vote proxies relating to portfolio securities is available (1) without charge, upon request, by calling toll-free (800) 441-7762; (2) at www.blackrock.com; and (3) on the Securities and Exchange Commission s website at http://www.sec.gov.

#### **Availability of Proxy Voting Record**

Information about how each Trust voted proxies relating to securities held in each Trust s portfolio during the most recent 12-month period ended June 30 is available upon request and without charge (1) at www.blackrock.com or by calling (800) 441-7762 and (2) on the Securities and Exchange Commission s website at http://www.sec.gov.

#### **BlackRock Privacy Principles**

BlackRock is committed to maintaining the privacy of its current and former fund investors and individual clients (collectively, Clients ) and to safeguarding their nonpublic personal information. The following information is provided to help you understand what personal information BlackRock collects, how we protect that information and why in certain cases we share such information with select parties.

If you are located in a jurisdiction where specific laws, rules or regulations require BlackRock to provide you with additional or different privacy-related rights beyond what is set forth below, then BlackRock will comply with those specific laws, rules or regulations.

BlackRock obtains or verifies personal nonpublic information from and about you from different sources, including the following: (i) information we receive from you or, if applicable, your financial intermediary, on applications, forms or other documents; (ii) information about your transactions with us, our affiliates, or others; (iii) information we receive from a consumer reporting agency; and (iv) from visits to our websites.

BlackRock does not sell or disclose to nonaffiliated third parties any nonpublic information about its Clients, except as permitted by law or as necessary to service Client accounts. These nonaffiliated third parties are required to protect the confidentiality and security of this information and to use it only for its intended purpose.

We may share information with our affiliates to service your account or to provide you with information about other BlackRock products or services that may be of interest to you. In addition, BlackRock restricts access to nonpublic personal information about its Clients to those BlackRock employees with a legitimate business need for the information. BlackRock maintains physical, electronic and procedural safeguards that are designed to protect the nonpublic personal information of its Clients, including procedures relating to the proper storage and disposal of such information.
