SYNERGX SYSTEMS INC. AND SUBSIDIARIES

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary in order to make the financial statements not misleading have been included. Results for the three

Edgar Filing: SYNERGX SYSTEMS INC - Form 10QSB

and nine months ended June 30, 2005 are not necessarily indicative of the results that may be expected for the fiscal year ending September 30, 2005. For further information, refer to the consolidated financial statements and footnotes thereto included in Synergx Systems Inc. ("Synergx" or "the Company") and Subsidiaries' annual report on Form 10-KSB for the year ended September 30, 2004.

2. REVENUE RECOGNITION

Product sales include sales of systems, which are similar in nature, that involve fire alarm, life safety and security (CCTV and card access), transit (on board systems) and communication (paging, announcement and audio/visual). Product sales represent sales of product along with the integration of technical services at a fixed price under a contract with an electrical contractor or end user customer or customer agent. Product sales are allocated using a constant gross profit percentage over the entire contract, and are recognized, using the percentage-of-completion method of accounting. The Company utilizes a units-of-work performed method to measure progress towards completion of the contract. The effects of changes in contract terms are reflected in the accounting period in which they become known. Contract terms provide for billing schedules that differ from revenue recognition and give rise to costs and estimated profits in excess of billings, and billings in excess of costs and estimated profits. Costs and estimated profits in excess of billing were not material at June 30, 2005 and have been included in accounts receivable. There were no billings in excess of costs and estimated profits at June 30, 2005.

Subcontract sales principally represent revenue related to electrical installation of wiring and piping performed by others for the Company when the Company acts as the prime contractor and sells its products along with electrical installation. Subcontract revenue is also recognized during the entire project using the percentage-of-completion method of accounting as electrical installation is performed at the job site.

Service revenue from separate service contracts is recognized on a straight-line basis over the term of the respective contract, which is generally one year. Non-contract service revenue is recognized when services are performed.

SYNERGX SYSTEMS INC. AND SUBSIDIARIES

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

3. INVENTORIES

Inventories are priced at the lower of cost (first-in, first-out) or market and consist primarily of raw materials.

4. LONG TERM DEBT

The Company has a \$3 million revolving credit facility with Hudson United Bank (the "Credit Facility"). The Credit Facility carries an interest rate of prime plus 1/4% on outstanding balances (6.25% at June 30, 2005) which expires June 1, 2007. The Credit Facility is secured by all assets of the Company and all of its operating subsidiaries. Advances under this Credit Facility are measured against a borrowing base calculated on eligible trade receivables and inventories.

At June 30, 2005, the full amount of the Credit Facility was available under the borrowing base calculation and \$1,424,964 was outstanding under this facility.

The Credit Facility includes certain restrictive covenants, which among other

Edgar Filing: SYNERGX SYSTEMS INC - Form 10QSB

things, impose limitations on declaring or paying dividends, acquisitions, and capital expenditures. The Company is also required to maintain certain financial ratios and tangible net worth covenants. At June 30, 2005 the Company was not in default with any of its financial covenants.

5. STOCK OPTIONS

In February 2005, the Board of Directors approved a grant of 130,000 stock options with a fair market value of \$157,094 to certain employees, officers and directors of the Company under the 2004 Stock Option Plan. The stock options vest ratably over five years and are exercisable at \$2.50 per share, which exercise price was above market at the time of grant. There were no stock options granted during the nine months ended June 30, 2004.

In October 1995, Statement of Financial Accounting Standards ("SFAS") No. 123, "Accounting for Stock-Based Compensation" prescribes accounting and reporting standards for all stock-based compensation plans, including employee stock options, restricted stock, employee stock purchase plans and stock appreciation rights. SFAS No. 123 requires compensation expense to be recorded (i) using the fair value method or (ii) using the existing accounting rules prescribed by Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25") and related interpretations with pro forma disclosure of what net income and earnings per share would have been had the Company adopted the fair value method. The Company intends to continue to account for its stock based compensation plans in accordance with the provisions of APB 25.

SYNERGX SYSTEMS INC. AND SUBSIDIARIES

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - Continued

(UNAUDITED)

5. STOCK OPTIONS (Continued)

The Company adopted SFAS No. 148 "Accounting for Stock-Based Compensation - Transition and Disclosure. This statement amended SFAS No. 123, "Accounting for Stock-Based Compensation." As permitted under SFAS No. 123, the Company continues to apply APB 25. As required under SFAS No. 148, the following table presents pro forma net income (loss) attributable to and diluted net earnings (loss) per share as if the fair value-based method had been applied to all awards.

	Three Months Ended June 30, 2005	2004	Nine Months Ended 2005	
Net Income (Loss)	\$ 55,155	\$ 301,590	\$ (60,159)	\$
Less: Fair Value of Options issued to employees and directors	(7,855)	--	(13,092)

Edgar Filing: SYNERGX SYSTEMS INC - Form 10QSB

Diluted Net Earnings (Loss) per share \$.01 \$.06 (\$.01)

The Black-Scholes option valuation model was used to estimate the fair value of the options granted during the nine months ended June 30, 2005. There were no options granted to employees during the nine months ended June 30, 2004. The model includes subjective input assumptions that can materially affect the fair value estimates. The model was developed for use in estimating the fair value of traded options that have no vesting restrictions and that are fully transferable. The expected volatility is estimated based on the most recent historical period of time equal to the weighted average life of the options granted. Principal assumptions used in applying the Black-Scholes model along with the results from the model for the nine months, ended June 30, 2005 were as follows:

Assumptions:

Risk-free interest rate	3.58%
Dividend	0
Expected life in years	5 years
Expected volatility	84%

SYNERGX SYSTEMS INC. AND SUBSIDIARIES

(UNAUDITED)

6. EARNINGS (LOSS) PER SHARE

The Financial Accounting Standards Board ("FASB") issued "SFAS" No. 128, "Earnings Per Share", which requires companies to report basic and diluted earnings per share ("EPS") computations. Basic EPS excludes dilution and is based on the weighted-average common shares outstanding and diluted EPS gives effect to potential dilution of securities that could share in the earnings of the Company. Diluted EPS reflects the assumed issuance of shares with respect to the Company's employee stock option plan and warrants.

	Three Months ended June 30,		Nine Months e
Basic EPS Computation	2005	2004	2005

SYNERGX SYSTEMS INC. AND SUBSIDIARIES

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - Continued

(UNAUDITED)

7. RECENT ACCOUNTING PRONOUNCEMENT

In December 2004, the FASB issued SFAS No. 123 (revised 2004), "Shared-Based Payment," which addresses the accounting for share-based payment transactions in which an enterprise receives employee services in exchange for (a) equity instruments of the enterprise or (b) liabilities that are based on the fair value of the enterprise's equity instruments or that may be settled by the issuance of such equity instruments. SFAS No. 123 (revised 2004) requires an entity to recognize the grant-date fair-value of stock options and other equity-based compensation issued to employees in the income statement. SFAS No. 123 (revised 2004) generally requires that an entity account for such transactions using the fair-value-based method, and eliminates the intrinsic value method of accounting in APB 25, which was permitted under SFAS No. 123, as originally issued. The revised statement also requires entities to disclose information about the nature of the share-based payment transactions and the effects of those transactions on the financial statements. SFAS No. 123 (revised 2004) is effective for small business issuers for the first annual reporting period that begins after December 15, 2005. The Company is currently evaluating the impact that this statement will have on its financial condition, or results of operations and cash flows.

Item 2. Management's Discussion and Analysis or Plan of Operations

LIQUIDITY AND CAPITAL RESOURCES

The Company has a \$3 million revolving credit facility with Hudson United Bank (the "Credit Facility"). This credit facility carries an interest rate of prime plus 1/4% and expires June 1, 2007. Advances under the Credit Facility are measured against a borrowing base calculated on eligible trade receivables and inventories. The Credit Facility is secured by all assets of the Company and all of its operating subsidiaries.

The Credit Facility includes various covenants, which among other things, impose limitations on declaring or paying dividends, acquisitions and capital expenditures. The Company is also required to maintain certain financial ratios

Edgar Filing: SYNERGX SYSTEMS INC - Form 10QSB

and tangible net worth covenants. At June 30, 2005, the Company was not in default with any of its financial covenants and at such time the full amount of the Credit Facility was available under the borrowing base calculation. At June 30, 2005, \$1,424,964 was owed under the Credit Facility.

Net cash provided by operations for the nine months ended June 30, 2005 amounted to \$754,968 as compared to cash used in operations of \$1,091,892 for the comparable prior year. The increase in cash provided by operations was primarily due to a \$1,859,365 increase in collection of accounts receivable. The net cash inflow of \$754,968 from operations during the nine months ended 2005 along with cash on hand was used for equipment purchases of approximately \$277,000 and to decrease bank borrowing by approximately \$490,000. During the nine months ended 2005, proceeds of \$27,628 were received from the exercise of stock options by employees to purchase common stock under the Company's stock option plan. During the prior year nine month period, financing activities included \$316,200 of proceeds from the exercise of warrants to purchase common stock by Genterra Inc., \$70,000 of proceeds from exercise of warrants to purchase common stock by an unaffiliated investor, and \$61,997 from the exercise of stock options by employees to purchase common stock under the Company's stock option plan.

The ratio of the Company's current assets to current liabilities increased to approximately 3.49 to 1 at June 30, 2005 compared to 3.12 to 1 at June 30, 2004.

Item 2. Management's Discussion and Analysis or Plan of Operations

Gross Margin Subcontract %	19%	19%	18%	18%
Gross Margin Service %	34%	30%	35%	29%

Revenues

Edgar Filing: SYNERGX SYSTEMS INC - Form 10QSB

The Company's product revenues during the three and nine months ended June 30, 2005 decreased 22% and 11% from the respective 2004 periods. These decreases in product revenues resulted from slow economic activity in both the Company's principal New York City market and its Dallas, Texas market. The major decrease in product revenue during the three and nine month periods is from a decline in product shipments in the Dallas, Texas market area from unusually high sales for the comparable 2004 period. In the Dallas market area, the Company has put into effect certain cost reduction initiatives with a view towards pricing aggressively in that competitive market place. This has resulted in increased bookings since March 31, 2005, which has increased the Dallas order position for future delivery.

Subcontract sales increased during the current three and nine month periods as the Company was responsible for several large electrical installations during the 2005 periods compared to various small electrical installation projects in 2004 periods.

Service revenues increased slightly during the three and nine month periods of 2005. The increase in both periods is primarily due to an increase in service contracts resulting from the addition of new service customers and from certain customers who converted to "all in" contracts that cover call-in service. Accordingly, there was a decrease in call-in service on fire alarm systems (replacement parts and service required by buildings).

Item 2. Management's Discussion and Analysis or Plan of Operations

Gross Profit

Gross profit on product sales for the three and nine months ended June 30, 2005 decreased 28% and 18% compared to the respective 2004 periods. The decrease in absolute gross profit is primarily related to lower product sales from the Dallas market during both periods (noted above). The absolute gross profit decline during the three month period ended June 30, 2005 was also caused by lower product revenue in the New York market area. The decrease in gross margin percentage during the current three and nine month periods is due to lower sales on which to absorb overhead; with overhead remaining at the same level as the prior year periods due to the relative fixed nature of these costs. The Company is evaluating certain overhead reductions which would take effect over the next six to nine months.

Gross profit related to subcontract sales for the three and nine months ended June 30, 2005, increased in absolute terms as the Company was responsible for larger electrical installation projects. In addition, the gross margin percentages during the three and nine months of 2005 were consistent with the percentage in the 2004 periods.

Gross profit and gross margin percentage on service revenues for the three and nine months ended June 30, 2005 increased. These increases were due to certain reductions in the number of service technicians and a decrease in the use of overtime.

Income Before Tax

The decline in income before income taxes during the three and nine months ended June 30, 2005, respectively, is primarily due to the decrease in gross profit related to lower product sales from the Dallas, Texas market area. The decrease in product gross profit was partially offset by higher gross profit from subcontract and service revenues. The increase in service gross profit was caused in part by a decrease in technical staff. In addition, selling, general

Edgar Filing: SYNERGX SYSTEMS INC - Form 10QSB

and administrative expenses decrease slightly but remain at a level geared to support higher product sales. Interest expense increased during the three months ended June 2005 due to higher interest rates. Depreciation expense increased during the 2005 periods from recent investments in a new computer operating software system which will enable the Company to better manage project costs in the future. For the three and nine month periods of 2005 the Company recorded a loss of \$33,000 and \$55,000, respectively, on its equity in the operating loss of Secure 724 LP.

Tax Provision

The Company's current income tax provision represents federal, state and local income taxes. Deferred taxes represent the net change in deferred tax assets and in non-current deferred tax liability as it related to differences between financial reporting and tax bases of assets and liabilities.

Item 2. Management's Discussion and Analysis or Plan of Operations

Order Position

The Company's order position, excluding service, at June 30, 2005 amounted to \$11,026,000 as compared to \$12,800,000 at September 30, 2004 and \$15,155,000 at June 30, 2004. This order position reflects large orders for several subway complexes which will be deliverable over several years as the projects are released. While quotation activity is brisk, there is no assurance when orders will be received and whether the order position will increase. Due to the fact that the Company's transit products are sold and installed as part of larger mass transit construction projects, there is typically a delay between the booking of the contract and its revenue realization. The order position includes and the Company continues to bid on projects that might include significant subcontractor labor (electrical installation performed by others). The Company expects to be active in seeking orders where the Company would act as a prime contractor and be responsible for management of the project as well as electrical installation.

Item 3. Controls and Procedures

Evaluation of disclosure controls and procedures. At the period end of this Quarterly Report on Form 10-QSB, the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded, as of the end of the quarter covered by this report, that:

The Company's disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified.

That Company's disclosure controls and procedures are effective to ensure that such information is accumulated and communicated to the Company's management, and made known to the Company's Chief Executive Officer and Chief Financial Officer, to allow timely decision regarding the required disclosure.

Changes in internal control over financial reporting.

Edgar Filing: SYNERGX SYSTEMS INC - Form 10QSB

There have been no changes in the Company's internal controls over financial report that have materially affected, or is reasonably likely to materially affect the Company's internal controls over financial reporting during the period covered by this Quarterly Report.
