Bennett Environmental in Discussions with OSC to resolve Analyst Disclosure Issue

Oakville, Ontario January 29, 2004 Bennett Environmental Inc. today announced that it is in discussions with staff of the Ontario Securities Commission concerning the resolution of a disclosure issue raised by staff of the OSC. The issue arises from information that was disclosed in response to questions posed in a telephone call with a research analyst after the release of the Company's 1999 annual results in March of 2000. OSC staff has suggested that some of the information conveyed in response to the analyst's questions had not been publicly disclosed and might have been material. No other issues are under discussion with OSC staff. In the absence of a resolution approved by the Commission, a hearing would have to be held to determine whether the disclosure satisfied Ontario securities law governing the communication of undisclosed material information. The Company is co-operating with OSC staff to achieve a satisfactory resolution of this issue.
