Section 7 – Regulation FD

Item 7.01 – Regulation FD Disclosure

On September 6, 2017, Denbury Resources Inc. (the “Company”) issued a press release announcing that over the last several days, production has been restarted at five of its six fields impacted by Tropical Storm Harvey. As of today, the Company estimates that approximately 90% of the 16,000 barrels of oil equivalent (“BOE”) per day of net production shut-in as of August 27 has been returned to production, and the Company has not identified any significant damage at these impacted fields. The only field that remains shut-in is Thompson Field, which had net production just prior to the storm of approximately 1,000 BOE per day. Production at Thompson Field is expected to return to full capacity over the next eight weeks, as flooding in that area subsides and personnel are able to access the field. A copy of the press release is filed as Exhibit 99.1 hereto.

The information furnished in this Item 7.01 shall not be deemed “filed” for purposes of the Securities Exchange Act of 1934, as amended (the “1934 Act”), and shall not be deemed incorporated by reference in any filing with the Securities and Exchange Commission, whether or not filed under the Securities Act of 1933, as amended, or the 1934 Act, regardless of any general incorporation language in any such document.
