Aetna Transaction Progress

The regulatory approval process for the previously announced acquisition of Aetna by CVS Health is proceeding within a timeframe consistent with expectations. On October 10, 2018, CVS Health and Aetna entered into a consent decree with the United States Department of Justice (“DOJ”) that allows CVS Health’s proposed acquisition of Aetna to proceed, provided Aetna agreed to sell its individual standalone Medicare Part D prescription drug plans. As part of the agreement reached with the DOJ, Aetna entered into an asset purchase agreement with a subsidiary of WellCare Health Plans, Inc. for the divestiture of Aetna’s standalone Medicare Part D prescription drug plans, which have an aggregate of approximately 2.2 million members. Closing of the divestiture is subject to the closing of CVS Health’s proposed acquisition of Aetna. There are no remaining antitrust impediments to closing the proposed acquisition of Aetna.

All of the required change in control filings were submitted to 28 state insurance departments in January 2018. To date, CVS Health has received approval from 23 of the 28 states and we are well down the line with the remaining five. The transaction is expected to close prior to Thanksgiving.
