News Release

May 16, 2013

ICICI Bank Limited (NYSE: IBN) had commenced efforts for repatriating capital from its overseas banking subsidiaries in order to optimise capital for the ICICI Group and improve its return on equity. As a first step, the Bank had received approval for and repatriated USD 100 million of capital from its subsidiary in the United Kingdom in March 2013. In continuation of the above, the Bank has now received requisite approvals for repatriation of capital from ICICI Bank Canada, its wholly owned banking subsidiary in Canada, and has received an aggregate equity capital repatriation of CAD 75 million from the subsidiary.

ICICI Bank Canada had a capital adequacy ratio of 33.2% at March 31, 2013. Post the repatriation, the share capital of ICICI Bank Canada is CAD 857 million and its capital adequacy ratio continues to be strong.

ICICI Bank Limited already has a strong capital adequacy ratio, and the above return of capital would further improve the same and enhance ICICI Bank's ability to optimise capital deployment and return on equity.
