## **Item 2.02. Results of Operations and Financial Condition.**

On October 18, 2017, Pattern Energy Group Inc. (the “Company” or “Pattern Energy”) reported that the recent natural disasters, including the hurricanes in Texas and Puerto Rico, the earthquake in Mexico and the wildfires in California adversely impacted the Company’s operations in the third quarter. The Company evacuated its 283 megawatt (“MW”) Gulf Wind project in Texas prior to Hurricane Harvey and its 101 MW Santa Isabel project in Puerto Rico prior to the Irma and Maria hurricanes. The Company closed its Houston office for more than a week during Hurricane Harvey. The Company’s operations center continued uninterrupted monitoring of its assets during all of these events, including evacuating and operating remotely during Hurricane Harvey. Project operations staff and third-party technicians safely returned to work shortly after the hurricanes at both the Gulf Wind and Santa Isabel projects.

The Gulf Wind project in Texas suspended operations for approximately two days and sustained no damage from Hurricane Harvey. The preliminary evaluation of the 101 MW Santa Isabel project in Puerto Rico reports no material damage to the turbines or the project from Hurricane Maria, while additional detailed evaluations continue. However, the Company’s Santa Isabel project is shut-in as a result of Hurricane Maria. Pattern Energy is working with PREPA to support PREPA’s broader efforts to restore the high voltage grid so the project can help support providing much needed power to the Puerto Rican communities.

In addition, wind conditions during the third quarter of 2017 were below the long-term average experienced. All of the foregoing adversely affected the Company’s production and revenues in the third quarter and as a result the Company expects its operating loss for the third quarter of 2017 to be materially and substantially greater and its cash available for distribution to be materially and substantially lower, in each case, than the corresponding amounts in the third quarter of 2016. The foregoing are preliminary estimates prepared internally by management and have not been reviewed or audited by the Company’s independent registered public accounting firm. There can be no assurance that the Company’s actual results for the third quarter, which have not been finalized as of the date of this current report, will not differ materially from management’s estimates or that they will not be lower than market expectations, including those of research analysts. The Company expects to publicly announce actual results for the third quarter during the second week of November 2017.
