**Item 8.01. Other Events.**

On September 30, 2005, our Board of Directors accelerated the vesting of all outstanding unvested stock options with an exercise price over \$35.00 per share held by current employees. The members of Agere's management executive committee, which includes our executive officers, have agreed to waive this acceleration and retain the original vesting schedule for their options. The unvested portions of the options that were accelerated covered a total of approximately 2.2 million shares of common stock which excludes shares covered by options held by members of our executive committee. The stock options that were vested have a weighted average exercise price of \$35.55 per share. The reported last sale price of the Company's common stock on the New York Stock Exchange on September 30, 2005 was \$10.41 per share.

The decision to accelerate the vesting of these significantly out of the money stock options was made to avoid recognizing future compensation expense associated with these stock options as we will be required to adopt Statement of Financial Accounting Standards ( SFAS ) No. 123 (revised 2004), Share-Based Payment beginning in the first quarter of fiscal 2006. This accelerated vesting will result in lower non-cash charges of approximately \$42 million in fiscal 2006 through 2008, including approximately \$5 million in the first quarter of fiscal 2006, ending December 31, 2005.
