Item 2.03. Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

On May 28, 2009, the Navajo County, Arizona Pollution Control Corporation (the Navajo Issuer) issued \$166,150,000 aggregate principal amount of the Navajo County, Arizona Pollution Control Corporation Pollution Control Revenue Refunding Bonds (Arizona Public Service Company Cholla Project) 2009 Series A, 2009 Series B, 2009 Series C, 2009 Series D and 2009 Series E (the New Navajo Bonds) for the benefit of Arizona Public Service Company (APS), pursuant to an Indenture of Trust dated as of May 1, 2009 (the Navajo Indenture) between the Navajo Issuer and The Bank of New York Mellon, as trustee (the Trustee). The proceeds of the New Bonds were loaned to APS pursuant to a Loan Agreement dated as of May 1, 2009 (the Navajo Loan Agreement) between the Navajo Issuer and APS, and will be used by APS to redeem (along with other monies provided by APS) \$166,150,000 aggregate principal amount of the Navajo County, Arizona Pollution Control Corporation Pollution Control Revenue Refunding Bonds (Arizona Public Service Company) 2004 Series A, 2004 Series B, 2004 Series C, 2004 Series D and 2004 Series E. These redemptions are expected to occur by June 16, 2009.

On May 28, 2009, the Coconino County, Arizona Pollution Control Corporation (the Coconino Issuer) issued \$12,850,000 principal amount of the Coconino County, Arizona Pollution Control Corporation Pollution Control Revenue Refunding Bonds (Arizona Public Service Company Navajo Project) 2009 Series A (the New Coconino Bonds) (the New Navajo Bonds and the New Coconino Bonds are hereinafter referred to as the New Bonds) for the benefit of APS, pursuant to an Indenture of Trust dated as of May 1, 2009 (the Coconino Indenture) (the Navajo Indenture and the Coconino Indenture are hereinafter referred to as the Indentures) between the Coconino Issuer and the Trustee. The proceeds of the New Coconino Bonds were loaned to APS pursuant to a Loan Agreement dated as of May 1, 2009 (the Coconino Loan Agreement) (the Navajo Loan Agreement and the Coconino Loan Agreement are hereinafter referred to as the Loan Agreements) between the Coconino Issuer and APS, and will be used by APS to redeem (along with other monies provided by APS) \$12,850,000 principal amount of the Coconino County, Arizona Pollution Control Corporation Pollution Control Revenue Refunding Bonds (Arizona Public Service Company) 2004 Series A. This redemption is expected to occur by June 12, 2009.

The New Bonds mature on June 1, 2034. The New Bonds are payable solely from revenues obtained from APS pursuant to the Loan Agreements.

The New Bonds will be issued initially as bonds that bear interest at a term rate starting with the date of issuance and delivery. The New Bonds will have the following terms during the initial term rate periods:

	Aggregate Principal Amount	Term Rate	Initial Term Rate Period
Navajo 2009 Series A	\$38,150,000	5.00%	Three years to June 1, 2012
Navajo 2009 Series B	\$32,000,000	5.50%	Five years to June 1, 2014
Navajo 2009 Series C	\$32,000,000	5.50%	Five years to June 1, 2014
Navajo 2009 Series D	\$32,000,000	5.75%	Seven years to June 1, 2016
Navajo 2009 Series E	\$32,000,000	5.75%	Seven years to June 1, 2016
Coconino 2009 Series A	\$12,850,000	5.50%	Five years to June 1, 2014

Upon the expiration of the initial term rate period, APS will convert each series of the New Bonds to a new rate period upon the satisfaction of certain conditions. Thereafter, interest on the New Bonds will be a daily rate, weekly rate, monthly rate, flexible rate, term rate, or fixed rate to the maturity of the New Bonds. There will be a mandatory tender of each series of the New Bonds upon conversion and remarketing of such series into such a new rate period.

APS obligations under each Loan Agreement may be accelerated whenever any Event of Default has occurred and is continuing. An Event of Default under a Loan Agreement includes: (1) failure of APS to make payments on the related New Bonds when due, including any payment of purchase price due on the mandatory tender of such New Bonds at the end of the initial term rate period; (2) certain bankruptcy and insolvency events relating to APS; and (3) the failure of APS to observe and perform its covenants or agreements under such Loan Agreement after a cure period. APS covenants under the Loan Agreements are typical for transactions of this sort, including covenants intended to preserve the tax-exempt status of interest on the New Bonds. The Loan Agreements also contain a customary limitation on liens covenant. If APS obligations under a Loan Agreement are accelerated as a result of an Event of Default under such Loan Agreement, APS is required to redeem the related New Bonds. APS may also be required to redeem the New Bonds or a portion of the New Bonds if there is a determination of taxability with respect to the New Bonds, subject to the qualifications in the Indentures. In addition, APS obligations under the Loan Agreements are subject to mandatory prepayment if the related New Bonds are accelerated due to an Event of Default under the applicable Indenture. Events of Default under each Indenture include failure to make payments when due on or with respect to the related New Bonds and a default by the Issuer in its obligations under such Indenture after a cure period.
