**The Hartford Announces \$750 Million Discretionary Equity Issuance Plan**

*Company intends to participate in Capital Purchase Program*

Hartford, Conn., June 12, 2009 The Hartford Financial Services Group, Inc. (NYSE: HIG) announced today that it has commenced a discretionary equity issuance plan pursuant to which it will offer shares of its common stock from time to time for aggregate sales proceeds of up to \$750 million. In addition, the company announced today that it would participate in the U.S. Treasury's Capital Purchase Program (CPP), subject to completion of documentation with the U.S. Treasury. The Hartford received notice of preliminary approval to participate in CPP on May 14, 2009, in the amount of approximately \$3.4 billion.

With our strategic review complete, we are continuing to take actions to build shareholder value, said Ramani Ayer, The Hartford's chairman and chief executive officer. In this continued, uncertain economic environment, our decisions to participate in CPP and to access the equity market represent important steps in enhancing our financial strength and implementing our long-term capital plan.

The Hartford intends to use net proceeds of sales under the program for general corporate purposes, including the possible repurchase of outstanding debt. Today's decisions will further bolster our capital base and provide additional financial flexibility. The discretionary equity issuance will allow us to be opportunistic in raising capital while reducing our financial leverage, said Lizabeth Zlatkus, The Hartford's chief financial officer.
