CONSTELLATION BRANDS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MAY 31, 2009

1) MANAGEMENT'S REPRESENTATIONS:

The consolidated financial statements included herein have been prepared by Constellation Brands, Inc. and its subsidiaries (the Company), without audit, pursuant to the rules and regulations of the Securities and Exchange Commission applicable to quarterly reporting on Form 10-Q and reflect, in the opinion of the Company, all adjustments necessary to present fairly the financial information for the Company. All such adjustments are of a normal recurring nature. Certain information and footnote disclosures normally included in financial statements, prepared in accordance with generally accepted accounting principles, have been condensed or omitted as permitted by such rules and regulations. These consolidated financial statements and related notes should be read in conjunction with the consolidated financial statements and related notes included in the Company's Annual Report on Form 10-K for the fiscal year ended February 28, 2009. Results of operations for interim periods are not necessarily indicative of annual results.

2) RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS:

Effective March 1, 2009, the Company adopted Statement of Financial Accounting Standards No. 141 (revised 2007) (SFAS No. 141(R)), Business Combinations. SFAS No. 141(R), among other things, establishes principles and requirements for how the acquirer in a business combination (i) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquired business, (ii) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase, and (iii) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The adoption of SFAS No. 141(R) did not have a material impact on the Company's consolidated financial statements.

Effective March 1, 2009, the Company adopted Statement of Financial Accounting Standards No. 160 (SFAS No. 160), Noncontrolling Interests in Consolidated Financial Statements—An Amendment of ARB No. 51. SFAS No. 160 amends Accounting Research Bulletin No. 51 (ARB No. 51), Consolidated Financial Statements, to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. This statement also amends certain of ARB No. 51's consolidation procedures for consistency with the requirements of SFAS No. 141(R). In addition, SFAS No. 160 also includes expanded disclosure requirements regarding the interests of the parent and its noncontrolling interest. The adoption of SFAS No. 160 did not have a material impact on the Company's consolidated financial statements.

Effective March 1, 2009, the Company adopted Financial Accounting Standards Board Staff Position No. FAS 142-3, (FSP No. 142-3), Determination of the Useful Life of Intangible Assets. FSP No. 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under Statement of Financial Accounting Standards No. 142 (SFAS No. 142), Goodwill and Other Intangible Assets. The intent of FSP No. 142-3 is to improve the consistency between the useful life of a recognized intangible asset under SFAS No. 142 and the period of expected cash flows used to measure the fair value of the asset under SFAS No. 141(R) and other U.S. generally accepted accounting principles. The adoption of FSP No. 142-3 did not have a material impact on the Company's consolidated financial statements.

Table of Contents**3) INVENTORIES:**

Inventories are stated at the lower of cost (computed in accordance with the first-in, first-out method) or market. Elements of cost include materials, labor and overhead and consist of the following:

<i>(in millions)</i>	May 31, 2009	February 28, 2009
Raw materials and supplies	\$ 62.6	\$ 57.9
In-process inventories	1,202.8	1,218.4
Finished case goods	580.6	552.4
	\$ 1,846.0	\$ 1,828.7

4) DERIVATIVE INSTRUMENTS:

As a multinational company, the Company is exposed to market risk from changes in foreign currency exchange rates and interest rates that could affect the Company's results of operations and financial condition. The amount of volatility will vary based upon the effectiveness and level of derivative instruments outstanding during a particular period of time, as well as the currency and interest rate market movements during that same period.

The Company enters into derivative instruments, primarily interest rate swaps and foreign currency forward and option contracts, to manage interest rate and foreign currency risks. In accordance with Statement of Financial Accounting Standards No. 133 (SFAS No. 133), Accounting for Derivative Instruments and Hedging Activities, as amended, the Company recognizes all derivatives as either assets or liabilities on the balance sheet and measures those instruments at fair value. The fair values of the Company's derivative instruments change with fluctuations in interest rates and/or currency rates and are expected to offset changes in the values of the underlying exposures. The Company's derivative instruments are held solely to hedge economic exposures. The Company follows strict policies to manage interest rate and foreign currency risks, including prohibitions on derivative market-making or other speculative activities.

To qualify for hedge accounting under SFAS No. 133, the details of the hedging relationship must be formally documented at inception of the arrangement, including the risk management objective, hedging strategy, hedged item, specific risk that is being hedged, the derivative instrument, how effectiveness is being assessed and how ineffectiveness will be measured. The derivative must be highly effective in offsetting either changes in the fair value or cash flows, as appropriate, of the risk being hedged. Effectiveness is evaluated on a retrospective and prospective basis based on quantitative measures.

Certain of the Company's derivative instruments do not qualify for SFAS No. 133 hedge accounting treatment; for others, the Company chooses not to maintain the required documentation to apply hedge accounting treatment. These undesignated instruments are used to economically hedge the Company's exposure to fluctuations in the value of foreign currency denominated receivables and payables; foreign currency investments, primarily consisting of loans to subsidiaries; and cash flows related primarily to repatriation of those loans or investments. Forward contracts, generally less than 12 months in duration, are used to hedge some of these risks. The Company's derivative policy permits the use of undesignated derivatives when the derivative instrument is settled within the fiscal quarter or offsets a recognized balance sheet exposure. In these circumstances, the mark to fair value is reported currently through earnings in selling, general and administrative expenses on the Company's Consolidated Statements of Operations. As of May 31, 2009, the Company had undesignated foreign currency contracts outstanding with a notional value of \$324.1 million. In addition, the Company had offsetting undesignated interest rate swap agreements with an absolute notional amount of \$2,400.0 million outstanding at May 31, 2009 (see Note 9).

Table of Contents

Furthermore, when the Company determines that a derivative instrument which qualified for hedge accounting treatment has ceased to be highly effective as a hedge, the Company discontinues hedge accounting prospectively. The Company discontinues hedge accounting prospectively when (i) the derivative is no longer highly effective in offsetting changes in the cash flows or fair value of a hedged item; (ii) the derivative expires or is sold, terminated, or exercised; (iii) it is no longer probable that the forecasted transaction will occur; or (iv) management determines that designating the derivative as a hedging instrument is no longer appropriate.

Cash flow hedges:

The Company is exposed to foreign denominated cash flow fluctuations in connection with third party and intercompany sales and purchases and third party financing arrangements. The Company primarily uses foreign currency forward and option contracts to hedge certain of these risks. In addition, the Company utilizes interest rate swaps to manage its exposure to changes in interest rates. Derivatives managing the Company's cash flow exposures generally mature within three years or less, with a maximum maturity of five years. Throughout the term of the designated cash flow hedge relationship, but at least quarterly, a retrospective evaluation and prospective assessment of hedge effectiveness is performed. In the event the relationship is no longer effective, the Company recognizes the change in the fair value of the hedging derivative instrument from the prior assessment date immediately in the Company's Consolidated Statements of Operations. In conjunction with its effectiveness testing, the Company also evaluates ineffectiveness associated with the hedge relationship. Resulting ineffectiveness, if any, is recognized immediately in the Company's Consolidated Statements of Operations. As of May 31, 2009, the Company had cash flow designated foreign currency contracts outstanding with a notional value of \$1,346.1 million. In addition, as of May 31, 2009, the Company had cash flow designated interest rate swap agreements outstanding with a notional value of \$1,200.0 million (see Note 9).

The Company records the fair value of its foreign currency and interest rate swap contracts qualifying for cash flow hedge accounting treatment in its consolidated balance sheet with the effective portion of the related gain or loss on those contracts deferred in stockholders' equity (as a component of AOCI (as defined in Note 14)). These deferred gains or losses are recognized in the Company's Consolidated Statements of Operations in the same period in which the underlying hedged items are recognized and on the same line item as the underlying hedged items. However, to the extent that any derivative instrument is not considered to be highly effective in offsetting the change in the value of the hedged item, the amount related to the ineffective portion of this derivative instrument is immediately recognized in the Company's Consolidated Statements of Operations in selling, general and administrative expenses.

The Company expects \$6.4 million of net losses, net of income tax effect, to be reclassified from AOCI to earnings within the next 12 months. The amount of hedge ineffectiveness associated with the Company's designated cash flow hedge instruments recognized in the Company's Consolidated Statements of Operations for the three months ended May 31, 2009, was not material. All components of the Company's derivative instruments' gains or losses are included in the assessment of hedge effectiveness. For the three months ended May 31, 2009, the Company reclassified \$2.1 million of net gains, net of income tax effect, from AOCI into earnings as a result of the discontinuance of cash flow hedge accounting due to the probability that the original forecasted transaction would not occur.

Table of Contents*Fair value hedges:*

Fair value hedges are hedges that offset the risk of changes in the fair values of recorded assets and liabilities, and firm commitments. The Company records changes in fair value of derivative instruments which are designated and deemed effective as fair value hedges, in earnings offset by the corresponding changes in the fair value of the hedged items. The Company did not designate any derivative instruments as fair value hedges for the three months ended May 31, 2009.

Net investment hedges:

Net investment hedges are hedges that use derivative instruments or non-derivative instruments to hedge the foreign currency exposure of a net investment in a foreign operation. Historically, the Company has managed currency exposures resulting from certain of its net investments in foreign subsidiaries principally with debt denominated in the related foreign currency. Accordingly, gains and losses on these instruments were recorded as foreign currency translation adjustments in AOCI. In February 2009, the Company discontinued its net investment hedging relationship between the Company's sterling senior notes and the Company's investment in its U.K. subsidiary. The Company did not designate any derivative or non-derivative instruments as net investment hedges for the three months ended May 31, 2009.

Fair values of derivative instruments:

The fair values and locations of the Company's derivative instruments on its Consolidated Balance Sheets are as follows (see Note 5):

Table of Contents*Credit risk:*

The Company enters into master agreements with its bank derivative trading counterparties that allow netting of certain derivative positions in order to manage credit risk. The Company's derivative instruments are not subject to credit rating contingencies or collateral requirements. As of May 31, 2009, the fair value of derivative instruments in a net liability position due to counterparties was \$67.2 million. If the Company were required to settle the net liability position under these derivative instruments on May 31, 2009, the Company would have had sufficient availability under its revolving credit facility to satisfy this obligation.

Counterparty credit risk:

Counterparty credit risk relates to losses the Company could incur if a counterparty defaults on a derivative contract. The Company manages exposure to counterparty credit risk by requiring specified minimum credit standards and diversification of counterparties. The Company enters into master agreements with its bank derivative trading counterparties that allow netting of certain derivative positions in order to manage counterparty credit risk. As of May 31, 2009, all of the Company's counterparty exposures are with financial institutions which have investment grade ratings. The Company has procedures to monitor counterparty credit risk for both current and future potential credit exposures. As of May 31, 2009, the fair value of derivative instruments in a net receivable position due from counterparties was \$89.7 million.

5) FAIR VALUE MEASUREMENTS:

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 157 (SFAS No. 157), Fair Value Measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value under generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS No. 157 emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and states that a fair value measurement should be determined based on assumptions that market participants would use in pricing an asset or liability. In February 2008, the FASB issued FASB Staff Position No. FAS 157-2 (FSP No. 157-2), Effective Date of FASB Statement No. 157. FSP No. 157-2 amended SFAS No. 157 to defer the effective date of SFAS No. 157 for nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis, at least annually, including goodwill and trademarks. On March 1, 2008, the Company adopted the provisions of SFAS No. 157 that were not deferred by FSP No. 157-2. The adoption of these provisions of SFAS No. 157 did not have a material impact on the Company's consolidated financial statements. On March 1, 2009, in accordance with FSP No. 157-2, the Company adopted the remaining provisions of SFAS No. 157. The adoption of the remaining provisions of SFAS No. 157 did not have a material impact on the Company's consolidated financial statements.

SFAS No. 157 establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. The hierarchy is broken down into three levels: Level 1 inputs are quoted prices in active markets for identical assets or liabilities; Level 2 inputs include data points that are observable such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or similar assets or liabilities in markets that are not active, and inputs (other than quoted prices) such as interest rates and yield curves that are observable for the asset and liability, either directly or indirectly; Level 3 inputs are unobservable data points for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

Table of Contents

The following table presents the fair value hierarchy for the Company's financial assets and liabilities measured at fair value on a recurring basis as of May 31, 2009, and May 31, 2008:

<i>(in millions)</i>	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Recurring Fair Value Measurements as of May 31, 2009

Liabilities:				
Foreign currency contracts	\$	\$ 73.0	\$	\$ 73.0
Interest rate swap contracts	\$	\$ 39.3	\$	\$ 39.3

The Company's foreign currency contracts consist of foreign currency forward and option contracts which are valued using market-based inputs, obtained from independent pricing services, into valuation models. These valuation models require various inputs, including contractual terms, market foreign exchange prices, interest-rate yield curves and currency volatilities. Interest rate swap fair values are based on quotes from respective counterparties. Quotes are corroborated by the Company using discounted cash flow calculations based upon forward interest-rate yield curves, which are obtained from independent pricing services.

Accumulated impairment losses	(852.6)			(852.6)
	\$ 2,540.3	\$ 13.0	\$ (13.0)	\$ 2,540.3

For the year ended February 28, 2009, the changes in the carrying amount of goodwill consist of the following components. The Constellation Wines segment's purchase accounting allocations totaling \$23.8 million consist primarily of purchase accounting allocations associated with the acquisition of all of the issued and outstanding capital stock of Beam Wine Estates, Inc. (BWE) (the BWE Acquisition) of \$14.5 million and purchase accounting allocations associated with the purchase of an immaterial business of \$6.4 million. The Constellation Wines segment's sale of businesses consists of (i) the Company's reduction of goodwill in connection with the June 2008 sale of the Pacific Northwest Business (as defined below) and (ii) the impairment of goodwill on an asset group held for sale as of February 28, 2009, in connection with the March 2009 sale of the value spirits business. Lastly, the Constellation Wines segment's impairment of goodwill consists of an impairment loss recorded in the fourth quarter of fiscal 2009 in connection with the Company's performance of its annual goodwill impairment analysis, pursuant to the Company's accounting policy. As a result of this analysis, the Company concluded that the carrying amount of goodwill assigned to the Constellation Wines segment's U.K. reporting unit exceeded its implied fair value and recorded an impairment loss of \$252.7 million, which is included in impairment of goodwill and intangible assets on the Company's Consolidated Statements of Operations for the year ended February 28, 2009.

For the three months ended May 31, 2009, the Constellation Wines segment's sale of business consists of the Company's reduction of goodwill in connection with the March 2009 divestiture of the value spirits business.

Table of Contents*Divestiture of Pacific Northwest Business*

In June 2008, the Company sold certain businesses consisting of several of the California wineries and wine brands acquired in the BWE Acquisition, as well as certain wineries and wine brands from the states of Washington and Idaho (collectively, the Pacific Northwest Business) for cash proceeds of \$204.2 million, net of direct costs to sell. In connection with the classification of the Pacific Northwest Business as an asset group held for sale as of May 31, 2008, the Company's Constellation Wines segment recorded a loss of \$23.4 million for the three months ended May 31, 2008, which included asset impairments of \$16.0 million and losses on contractual obligations of \$7.4 million. This loss of \$23.4 million is included in selling, general and administrative expenses on the Company's Consolidated Statements of Operations.

Divestiture of the Value Spirits Business

In March 2009, the Company sold its value spirits business for \$330.2 million, net of direct costs to sell, subject to post-closing adjustments. The Company received \$270.2 million, net of direct costs to sell, in cash proceeds and a note receivable for \$60.0 million in connection with this divestiture. In connection with the classification of the value spirits business as an asset group held for sale as of February 28, 2009, the Company recorded a loss of \$15.6 million in the fourth quarter of fiscal 2009, primarily related to asset impairments, which is included in selling, general and administrative expenses on the Company's Consolidated Statements of Operations for the year ended February 28, 2009. For the three months ended May 31, 2009, the Company recognized a net gain of \$0.2 million, which included a gain on settlement of a postretirement obligation of \$1.0 million, partially offset by an additional loss of \$0.8 million. This net gain is included in selling, general and administrative expenses on the Company's Consolidated Statements of Operations.

9) BORROWINGS:

Senior credit facility

On June 5, 2006, the Company and certain of its U.S. subsidiaries, JPMorgan Chase Bank, N.A. as a lender and administrative agent, and certain other agents, lenders, and financial institutions entered into a new credit agreement (the June 2006 Credit Agreement). On February 23, 2007, and on November 19, 2007, the June 2006 Credit Agreement was amended (collectively, the 2007 Amendments). The June 2006 Credit Agreement together with the 2007 Amendments is referred to as the 2006 Credit Agreement. The 2006 Credit Agreement provides for aggregate credit facilities of \$3,900.0 million, consisting of a \$1,200.0 million tranche A term loan facility due in June 2011, a \$1,800.0 million tranche B term loan facility due in June 2013, and a \$900 million revolving credit facility (including a sub-facility for letters of credit of up to \$200 million) which terminates in June 2011. Proceeds of the June 2006 Credit Agreement were used to pay off the Company's obligations under its prior senior credit facility, to fund the June 5, 2006, acquisition of all of the issued and outstanding common shares of Vincor International Inc. (Vincor) (the Vincor Acquisition), and to repay certain indebtedness of Vincor. The Company uses its revolving credit facility under the 2006 Credit Agreement for general corporate purposes, including working capital, on an as needed basis.

Table of Contents

As of May 31, 2009, the required principal repayments of the tranche A term loan and the tranche B term loan for the remaining nine months of fiscal 2010 and for each of the four succeeding fiscal years are as follows:

<i>(in millions)</i>	Tranche A Term Loan	Tranche B Term Loan	Total
2010	\$	\$	\$
2011	171.1		171.1
2012	150.0	3.4	153.4
2013		613.1	613.1
2014		611.5	611.5
	\$ 321.1	\$ 1,228.0	\$ 1,549.1

The rate of interest on borrowings under the 2006 Credit Agreement is a function of LIBOR plus a margin, the federal funds rate plus a margin, or the prime rate plus a margin. The margin is fixed with respect to the tranche B term loan facility and is adjustable based upon the Company's debt ratio (as defined in the 2006 Credit Agreement) with respect to the tranche A term loan facility and the revolving credit facility. As of May 31, 2009, the LIBOR margin for the revolving credit facility and the tranche A term loan facility is 1.25%, while the LIBOR margin on the tranche B term loan facility is 1.50%.

The February 23, 2007, amendment amended the June 2006 Credit Agreement to, among other things, (i) increase the revolving credit facility from \$500.0 million to \$900.0 million, which increased the aggregate credit facilities from \$3,500.0 million to \$3,900.0 million; (ii) increase the aggregate amount of cash payments the Company is permitted to make in respect or on account of its capital stock; (iii) remove certain limitations on the incurrence of senior unsecured indebtedness and the application of proceeds thereof; (iv) increase the maximum permitted total Debt Ratio and decrease the required minimum Interest Coverage Ratio; and (v) eliminate the Senior Debt Ratio covenant and the Fixed Charges Ratio covenant. The November 19, 2007, amendment clarified certain provisions governing the incurrence of senior unsecured indebtedness and the application of proceeds thereof under the June 2006 Credit Agreement, as previously amended.

The Company's obligations are guaranteed by certain of its U.S. subsidiaries. These obligations are also secured by a pledge of (i) 100% of the ownership interests in certain of the Company's U.S. subsidiaries and (ii) 65% of the voting capital stock of certain of the Company's foreign subsidiaries.

The Company and its subsidiaries are also subject to covenants that are contained in the 2006 Credit Agreement, including those restricting the incurrence of additional indebtedness (including guarantees of indebtedness), additional liens, mergers and consolidations, disposition or acquisition of property, the payment of dividends, transactions with affiliates and the making of certain investments, in each case subject to numerous conditions, exceptions and thresholds. The financial covenants are limited to maximum total debt coverage ratios and minimum interest coverage ratios.

As of May 31, 2009, under the 2006 Credit Agreement, the Company had outstanding tranche A term loans of \$321.1 million bearing an interest rate of 1.9%, tranche B term loans of \$1,228.0 million bearing an interest rate of 2.7%, revolving loans of \$160.0 million bearing an interest rate of 1.6%, outstanding letters of credit of \$34.2 million, and \$705.8 million in revolving loans available to be drawn.

Table of Contents

In April 2009, the Company transitioned its interest rate swap agreements to a one-month LIBOR base rate versus the then existing three-month LIBOR base rate. Accordingly, the Company entered into new interest rate swap agreements which were designated as cash flow hedges of \$1,200.0 million of the Company's floating LIBOR rate debt. In addition, the then existing interest rate swap agreements were dedesignated by the Company and the Company entered into additional undesigned interest rate swap agreements for \$1,200.0 million to offset the prospective impact of the newly undesigned interest rate swap agreements. As a result, the Company has fixed its interest rates on \$1,200.0 million of the Company's floating LIBOR rate debt at an average rate of 4.0% through fiscal 2010. For the three months ended May 31, 2009, and May 31, 2008, the Company reclassified net losses of \$5.8 million and \$2.4 million, net of income tax effect, respectively, from AOCI to interest expense, net on the Company's Consolidated Statements of Operations. This non-cash operating activity is included in other, net in the Company's Consolidated Statements of Cash Flows.

Subsidiary credit facilities

The Company has additional credit arrangements totaling \$307.8 million and \$394.5 million as of May 31, 2009, and May 31, 2008, respectively. These arrangements primarily support the financing needs of the Company's domestic and foreign subsidiary operations. Interest rates and other terms of these borrowings vary from country to country, depending on local market conditions. As of May 31, 2009, and May 31, 2008, amounts outstanding under these arrangements were \$219.9 million and \$236.4 million, respectively.

10) INCOME TAXES:

The Company's effective tax rate for the three months ended May 31, 2009, and May 31, 2008, was 91.8% and 41.5%, respectively. The Company's effective tax rate for the three months ended May 31, 2009, includes \$37.5 million of taxes associated with the sale of the value spirits business, primarily related to the write-off of nondeductible goodwill. The Company's effective tax rate for the three months ended May 31, 2008, includes the tax effect of the write-off of nondeductible goodwill related to the sale of certain U.S. wine assets as well as the recognition of a valuation allowance against net operating losses in Australia for the three months ended May 31, 2008.

11) DEFINED BENEFIT PENSION PLANS:

Net periodic benefit cost reported in the Consolidated Statements of Operations for the Company's defined benefit pension plans includes the following components:

<i>(in millions)</i>	For the Three Months Ended May 31,	
	2009	2008
Service cost	\$ 0.5	\$ 1.3
Interest cost	5.1	7.1
Expected return on plan assets	(5.9)	(8.4)
Recognized net actuarial loss	1.0	2.1
Recognized curtailment loss		0.5
Net periodic benefit cost	\$ 0.7	\$ 2.6

Contributions of \$1.8 million have been made by the Company to fund its defined benefit pension plans for the three months ended May 31, 2009. The Company presently anticipates contributing an additional \$5.8 million to fund its defined benefit pension plans during the year ending February 28, 2010, resulting in total employer contributions of \$7.6 million for the year ending February 28, 2010.

Table of Contents**12) EARNINGS PER COMMON SHARE:**

The Company has two classes of outstanding common stock: Class A Common Stock and Class B Convertible Common Stock. Earnings per common share basic excludes the effect of common stock equivalents and is computed using the two-class method. Earnings per common share diluted for Class A Common Stock reflects the potential dilution that could result if securities to issue common stock were exercised or converted into common stock. Earnings per common share diluted for Class A Common Stock has been computed using the more dilutive of the if-converted or two-class method. Using the if-converted method, earnings per common share for Class A Common Stock assumes the exercise of stock options using the treasury stock method and the conversion of Class B Convertible Common Stock. Using the two-class method, earnings per common share diluted for Class A Common Stock assumes the exercise of stock options using the treasury stock method and no conversion of Class B Convertible Common Stock. For the three months ended May 31, 2009, and May 31, 2008, earnings per common share diluted has been calculated using the if-converted method. Diluted earnings per common share for Class B Convertible Common Stock is presented without assuming conversion into Class A Common Stock and is computed using the two-class computation method.

The computation of basic and diluted earnings per common share is as follows:

<i>(in millions, except per share data)</i>	For the Three Months Ended May 31,	
	2009	2008
Income available to common stockholders	\$ 6.5	\$ 44.6
Weighted average common shares outstanding basic:		
Class A Common Stock	195.233	192.792
Class B Convertible Common Stock	23.744	23.769
Weighted average common shares outstanding diluted:

Class B Convertible Common Stock	\$ 0.03	\$ 0.19
Earnings per common share diluted:		
Class A Common Stock	\$ 0.03	\$ 0.20
Class B Convertible Common Stock	\$ 0.03	\$ 0.19

For the three months ended May 31, 2009, and May 31, 2008, stock-based awards, primarily stock options, which could result in the issuance of 34.5 million and 26.6 million shares, respectively, of Class A Common Stock were outstanding, but were not included in the computation of earnings per common share diluted for Class A Common

Stock because the effect of including such awards would have been antidilutive.

Table of Contents**13) STOCK-BASED COMPENSATION:**

The Company recorded \$12.2 million and \$10.8 million of stock-based compensation cost in its Consolidated Statements of Operations for the three months ended May 31, 2009, and May 31, 2008, respectively. Of the \$12.2 million, \$1.9 million is related to the granting of 7.5 million nonqualified stock options under the Company's Long-Term Stock Incentive Plan to employees and nonemployee directors during the year ending February 28, 2010. The remainder is related primarily to the amortization of employee and nonemployee director stock options granted during the years ended February 28, 2009, February 29, 2008, and February 28, 2007.

15) RESTRUCTURING CHARGES:

The Company has several restructuring plans primarily within its Constellation Wines segment as follows:

Robert Mondavi Plan

In January 2005, the Company announced a plan to restructure and integrate the operations of The Robert Mondavi Corporation (Robert Mondavi) (the Robert Mondavi Plan). The objective of the Robert Mondavi Plan is to achieve operational efficiencies and eliminate redundant costs resulting from the December 22, 2004, acquisition of Robert Mondavi. The Robert Mondavi Plan includes the elimination of certain employees, the consolidation of certain field sales and administrative offices, and the termination of various contracts. The Company does not expect any additional costs associated with the Robert Mondavi Plan to be recognized in its Consolidated Statements of Operations. The Company expects the related cash expenditures to be completed by February 29, 2012.

Fiscal 2006 Plan

During fiscal 2006, the Company announced a plan to reorganize certain worldwide wine operations and a plan to consolidate certain west coast production processes in the U.S. (collectively, the Fiscal 2006 Plan). The Fiscal 2006 Plan s principal features are to reorganize and simplify the infrastructure and reporting structure of the Company s global wine business and to consolidate certain west coast production processes. All costs and related cash expenditures associated with the Fiscal 2006 Plan were complete as of February 28, 2009.

Vincor Plan

In July 2006, the Company announced a plan to restructure and integrate the operations of Vincor (the Vincor Plan). The objective of the Vincor Plan is to achieve operational efficiencies and eliminate redundant costs resulting from the June 5, 2006, Vincor Acquisition, as well as to achieve greater efficiency in sales, marketing, administrative and operational activities. The Vincor Plan includes the elimination of certain employment redundancies, primarily in the U.S., U.K. and Australia, and the termination of various contracts. The Company does not expect any additional costs associated with the Vincor Plan to be recognized in its Consolidated Statements of Operations. The Company expects the related cash expenditures to be completed by February 29, 2012.

Fiscal 2007 Wine Plan

In August 2006, the Company announced a plan to invest in new distribution and bottling facilities in the U.K. and to streamline certain Australian wine operations (collectively, the Fiscal 2007 Wine Plan). The U.K. portion of the plan includes new investments in property, plant and equipment and certain disposals of property, plant and equipment and is expected to increase wine bottling capacity and efficiency and reduce costs of transport, production and distribution. The U.K. portion of the plan also includes costs for employee terminations. The Australian portion of the plan includes the buy-out of certain grape supply and processing contracts and the sale of certain property, plant and equipment. The initiatives are part of the Company s ongoing efforts to maximize asset utilization, further reduce costs and improve long-term return on invested capital throughout its international operations. The Company expects all costs associated with the Fiscal 2007 Wine Plan to be recognized in its Consolidated Statements of Operations by February 28, 2010, with the related cash expenditures to be completed by February 28, 2010.

Fiscal 2008 Plan

During November 2007, the Company initiated its plans to streamline certain of its international operations, including the consolidation of certain winemaking and packaging operations in Australia, the buy-out of certain grape processing and wine storage contracts in Australia, equipment relocation costs in Australia, and certain employee termination costs. In addition, the Company incurred certain other restructuring charges during the third quarter of fiscal 2008 in connection with the consolidation of certain spirits production processes in the U.S. In January 2008, the Company announced its plans to streamline certain of its operations in the U.S., primarily in connection with the restructuring and integration of the operations acquired in the BWE Acquisition (the U.S. Initiative). These initiatives will collectively be referred to as the Fiscal 2008 Plan. The Fiscal 2008 Plan is part of the Company's ongoing efforts to maximize asset utilization, further reduce costs and improve long-term return on invested capital throughout its domestic and international operations. The Company expects all costs associated with the Fiscal 2008 Plan to be recognized in its Consolidated Statements of Operations by February 28, 2011, with the related cash expenditures to be completed by February 28, 2011.

Australian Initiative

During August 2008, the Company announced a plan to sell certain assets and implement operational changes designed to improve the efficiencies and returns associated with the Australian business, primarily by consolidating certain winemaking and packaging operations and reducing the Company's overall grape supply due to reduced capacity needs resulting from a streamlining of the Company's product portfolio (the Australian Initiative).

The Australian Initiative includes the planned sale of three wineries and more than 20 vineyard properties, a streamlining of the Company's wine product portfolio and production footprint, the buy-out and/or renegotiation of certain grape supply and other contracts, equipment relocations and costs for employee terminations. In connection with the Australian Initiative, the Company recorded restructuring charges on its Consolidated Statements of Operations for the year ended February 28, 2009, of \$46.5 million which represented non-cash charges related to the write-down of property, plant and equipment, net, held for sale. As of May 31, 2009, the Company had \$44.1 million of Australian assets held for sale which are included in property, plant and equipment, net on the Company's Consolidated Balance Sheets. The Company expects all costs associated with the Australian Initiative to be recognized in its Consolidated Statements of Operations by February 28, 2011, with the related cash expenditures to be completed by February 28, 2011.

Fiscal 2010 Global Initiative

On April 7, 2009, the Company announced its plan to simplify its business, increase efficiencies and reduce its cost structure on a global basis (the Global Initiative). The Global Initiative includes an approximately five percent reduction in the Company's global workforce and the closing of certain office, production and warehouse facilities. In addition, the Global Initiative includes the termination of certain contracts, and a streamlining of the Company's production footprint and sales and administrative organizations. Lastly, the Global Initiative includes other non-material restructuring activities primarily in connection with the consolidation of the Company's remaining spirits business into its North American wine business following the recent divestiture of its value spirits business. This initiative is part of the Company's ongoing efforts to maximize asset utilization, reduce costs and improve long-term return on invested capital throughout the Company's operations. The Company expects all costs associated with the Global Initiative to be recognized in its Consolidated Statements of Operations by February 28, 2011, with the majority of the related cash expenditures to be completed by February 28, 2011.

Table of Contents

Restructuring charges consisting of employee termination benefit costs, contract termination costs, and other associated costs are accounted for under either Statement of Financial Accounting Standards No. 112 (SFAS No. 112), Employers Accounting for Postemployment Benefits An Amendment of FASB Statement No. 35, or Statement of Financial Accounting Standards No. 146 (SFAS No. 146), Accounting for Costs Associated with Exit or Disposal Activities , as appropriate. Employee termination benefit costs are accounted for under SFAS No. 112, as the Company has had several restructuring programs which have provided employee termination benefits in the past. The Company includes employee severance, related payroll benefit costs such as costs to provide continuing health insurance, and outplacement services as employee termination benefit costs. Contract termination costs, and other associated costs including, but not limited to, facility consolidation and relocation costs are accounted for under SFAS No. 146. Per SFAS No. 146, contract termination costs are costs to terminate a contract that is not a capital lease, including costs to terminate the contract before the end of its term or costs that will continue to be incurred under the contract for its remaining term without economic benefit to the entity. The Company includes costs to terminate certain operating leases for buildings, computer and IT equipment, and costs to terminate contracts, including distributor contracts and contracts for long-term purchase commitments, as contract termination costs. Per SFAS No. 146, other associated costs include, but are not limited to, costs to consolidate or close facilities and relocate employees. The Company includes employee relocation costs and equipment relocation costs as other associated costs.

Details of each plan for which the Company expects to incur additional costs are presented separately in the following table. Plans for which exit activities were completed prior to March 1, 2009, are reported below under Other Plans. These plans include the Vincor Plan, the Fiscal 2006 Plan, the Robert Mondavi Plan and certain other immaterial restructuring activities.

16) ACQUISITION-RELATED INTEGRATION COSTS:

For the three months ended May 31, 2009, the Company recorded \$0.1 million of acquisition-related integration costs associated with the Fiscal 2008 Plan. The Company defines acquisition-related integration costs as nonrecurring costs incurred to integrate newly acquired businesses after a business combination which are incremental to those of the Company prior to the business combination. As such, acquisition-related integration costs include, but are not limited to, (i) employee-related costs such as salaries and stay bonuses paid to employees of the acquired business that will be terminated after their integration activities are completed, (ii) costs to relocate fixed assets and inventories, and (iii) facility costs and other one-time costs such as external services and consulting fees. For the three months ended May 31, 2009, acquisition-related integration costs consists of \$0.1 million of facilities and other one-time costs. For the three months ended May 31, 2008, the Company recorded \$4.3 million of acquisition-related integration costs associated primarily with the Fiscal 2008 Plan.

17) CONDENSED CONSOLIDATING FINANCIAL INFORMATION:

The following information sets forth the condensed consolidating balance sheets as of May 31, 2009, and February 28, 2009, the condensed consolidating statements of operations for the three months ended May 31, 2009, and May 31, 2008, and the condensed consolidating statements of cash flows for the three months ended May 31, 2009, and May 31, 2008, for the Company, the parent company, the combined subsidiaries of the Company which guarantee the Company's senior notes and senior subordinated notes ("Subsidiary Guarantors") and the combined subsidiaries of the Company which are not Subsidiary Guarantors (primarily foreign subsidiaries) ("Subsidiary Nonguarantors"). The Subsidiary Guarantors are wholly-owned and the guarantees are full, unconditional, joint and several obligations of each of the Subsidiary Guarantors. Separate financial statements for the Subsidiary Guarantors of the Company are not presented because the Company has determined that such financial statements would not be material to investors. The accounting policies of the parent company, the Subsidiary Guarantors and the Subsidiary Nonguarantors are the same as those described for the Company in the Summary of Significant Accounting Policies in Note 1 to the Company's consolidated financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended February 28, 2009, and include the recently adopted accounting pronouncements described in Note 2 herein. There are no restrictions on the ability of the Subsidiary Guarantors to transfer funds to the Company in the form of cash dividends, loans or advances.

Table of Contents**18) BUSINESS SEGMENT INFORMATION:**

Prior to May 1, 2009, the Company's internal management financial reporting consisted of three business divisions: Constellation Wines, Constellation Spirits and Crown Imports. Subsequent to the Company's divestiture of its value spirits business, the Company integrated its remaining spirits brands into the Constellation Wines business. As a result, on May 1, 2009, the Company changed its internal management financial reporting to consist of two business divisions: Constellation Wines and Crown Imports. Consequently, the Company now reports its operating results in three segments: Constellation Wines (branded wine, spirits and other), Corporate Operations and Other, and Crown Imports (imported beer). The new business segments reflect how the Company's operations are managed, how operating performance within the Company is evaluated by senior management and the structure of its internal financial reporting. Amounts included in the Corporate Operations and Other segment consist of general corporate administration and finance expenses. These amounts include costs of executive management, corporate development, corporate finance, human resources, internal audit, investor relations, legal, public relations, global information technology and global strategic sourcing. Any costs incurred at the corporate office that are applicable to the segments are allocated to the appropriate segment. The amounts included in the Corporate Operations and Other segment are general costs that are applicable to the consolidated group and are therefore not allocated to the other reportable segments. All costs reported within the Corporate Operations and Other segment are not included in the chief operating decision maker's evaluation of the operating income performance of the other operating segments.

In addition, the Company excludes acquisition-related integration costs, restructuring charges and unusual items that affect comparability from its definition of operating income for segment purposes as these items are not reflective of normal continuing operations of the segments. The Company excludes these items as segment operating performance and segment management compensation is evaluated based upon a normalized segment operating income. As such, the performance measures for incentive compensation purposes for segment management do not include the impact of these items.

For the three months ended May 31, 2009, and May 31, 2008, acquisition-related integration costs, restructuring charges and unusual costs included in operating income consist of:

19) ACCOUNTING PRONOUNCEMENTS NOT YET ADOPTED:

In December 2008, the FASB issued FASB Staff Position No. FAS 132(R)-1 (FSP No. 132(R)-1), Employers Disclosures about Postretirement Benefit Plan Assets. FSP No. 132(R)-1 amends Statement of Financial Accounting Standards No. 132(R), Employers Disclosures about Pensions and Other Postretirement Benefits, to provide guidance on an employer's disclosures about plan assets of a defined benefit pension or other postretirement plan. The Company is required to adopt the additional disclosure requirements of FSP No. 132(R)-1 for its annual period ending February 28, 2010. The Company is currently assessing the impact of FSP No. 132(R)-1 on its consolidated financial statements.

In April 2009, the FASB issued FASB Staff Position No. FAS 107-1 and APB Opinion No. 28-1 (FSP No. 107-1 and APB No. 28-1), Interim Disclosures about Fair Value of Financial Instruments, which requires publicly traded companies to include the fair value disclosures required by Statement of Financial Accounting Standards No. 107 in their interim reporting periods. The Company is required to adopt the provisions of FSP No. 107-1 and APB No. 28-1 for its interim period ending August 31, 2009. The Company does not expect the adoption of FSP No. 107-1 and APB No. 28-1 to have a material impact on its consolidated financial statements.

In May 2009, the FASB issued Statement of Financial Accounting Standards No. 165 (SFAS No. 165), Subsequent Events, which establishes (i) the period after the balance sheet date during which management shall evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements; (ii) the circumstances under which an entity shall recognize events or transactions occurring after the balance sheet date in its financial statements; and (iii) the disclosures that an entity shall make about events or transactions that occurred after the balance sheet date. The Company is required to adopt the provisions of SFAS No. 165 for its interim period ending August 31, 2009. The Company does not expect the adoption of SFAS No. 165 to have a material impact on its consolidated financial statements.

In June 2009, the FASB issued Statement of Financial Accounting Standards No. 167 (SFAS No. 167), Amendments to FASB Interpretation No. 46(R), which, among other things, amends FASB Interpretation No. 46(R) (FIN No. 46(R)), Consolidation of Variable Interest Entities An Interpretation of ARB No. 51, to (i) require an entity to perform an analysis to determine whether an entity's variable interest or interests give it a controlling financial interest in a variable interest entity; (ii) require ongoing reassessments of whether an entity is the primary beneficiary of a variable interest entity and eliminate the quantitative approach previously required for determining the primary beneficiary of a variable interest entity; (iii) amend certain guidance in FIN No. 46(R) for determining whether an entity is a variable interest entity; and (iv) require enhanced disclosure that will provide users of financial statements with more transparent information about an entity's involvement in a variable interest entity. The Company is required to adopt the provisions of SFAS No. 167 for its annual and interim periods beginning March 1, 2010. The Company does not expect the adoption of SFAS No. 167 to have a material impact on its consolidated financial statements.

Table of Contents

In June 2009, the FASB issued Statement of Financial Accounting Standards No. 168 (SFAS No. 168), The *FASB Accounting Standards Codification* and the Hierarchy of Generally Accepted Accounting Principles a replacement of FASB Statement No. 162. SFAS No. 168 replaces Statement of Financial Accounting Standards No. 162, The Hierarchy of Generally Accepted Accounting Principles, and identifies the sources of authoritative accounting principles and the framework for selecting the principles used in the preparation of financial statements that are presented in conformity with generally accepted accounting principles in the U.S. The Company is required to adopt the provisions of SFAS No. 168 for its interim period ending November 30, 2009. The Company does not expect the adoption of SFAS No. 168 to have a material impact on its consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation**Overview**

The Company is the world's leading wine company with a strong portfolio of consumer-preferred premium wine brands complemented by spirits, imported beer and other select beverage alcohol products. The Company continues to supply imported beer in the United States (U.S.) through its investment in a joint venture with Grupo Modelo, S.A.B. de C.V. (Modelo). This imported beers joint venture operates as Crown Imports LLC and is referred to hereinafter as

Crown Imports. The Company is the leading premium wine company in the U.S.; a leading producer and exporter of wine from Australia and New Zealand; the largest producer and marketer of wine in Canada; and a major supplier of beverage alcohol in the United Kingdom (U.K.). Through its investment in a joint venture with Punch Taverns plc, the Company has an interest in a U.K. wholesale business (Matthew Clark), which is the U.K.'s largest independent premier drinks wholesaler serving the on-trade drinks industry.

In connection with the Company's divestiture of its value spirits business and the integration of the retained spirits brands into the Constellation Wines business (see Divestitures in Fiscal 2010 and Fiscal 2009 below), the Company changed its internal management financial reporting on May 1, 2009, to consist of two business divisions:

Constellation Wines and Crown Imports. Accordingly, the Company now reports its operating results in three segments: Constellation Wines (branded wine, spirits and other), Corporate Operations and Other, and Crown Imports (imported beer). Prior to the divestiture of the value spirits business, the Company's internal management financial reporting included the Constellation Spirits business division. Amounts included in the Corporate Operations and Other segment consist of general corporate administration and finance expenses. These amounts include costs of executive management, corporate development, corporate finance, human resources, internal audit, investor relations, legal, public relations, global information technology and global supply chain. Any costs incurred at the corporate office that are applicable to the segments are allocated to the appropriate segment. The amounts included in the Corporate Operations and Other segment are general costs that are applicable to the consolidated group and are therefore not allocated to the other reportable segments. All costs reported within the Corporate Operations and Other segment are not included in the chief operating decision maker's evaluation of the operating income performance of the other reportable segments.

In addition, the Company excludes acquisition-related integration costs, restructuring charges and unusual items that affect comparability from its definition of operating income for segment purposes as these items are not reflective of normal continuing operations of the segments. The Company excludes these items as segment operating performance and segment management compensation is evaluated based upon a normalized segment operating income. As such, the performance measures for incentive compensation purposes for segment management do not include the impact of these items.

Table of Contents

The Company's business strategy is to remain focused on consumer preferred premium wine brands, complemented by premium spirits and imported beers. The Company intends to continue to focus on fast growing premium product categories and geographic markets and expects to capitalize on its size and scale in the marketplace to profitably grow the business. The Company has initiated a strategic project to consolidate its U.S. distributor network in key markets and implement a new go-to-market strategy designed to focus the full power of its U.S. wine and spirits portfolio in order to improve alignment of dedicated, selling resources which is expected to drive execution and accountability. The Company believes that this is the right strategy to take in order to position the Company for future growth in a consolidating market. The Company currently anticipates that this initiative will be beneficial over the long-term and, in light of extensive planning activities, the Company does not currently expect any appreciable adverse impact to its short-term results of operations. The Company remains committed to its long-term financial model of growing sales (both organically and through acquisitions), expanding margins and increasing cash flow to achieve earnings per share growth and improve return on invested capital.

Worldwide and domestic economies have experienced adverse conditions and may be subject to further deterioration for the foreseeable future. The economic and consumer conditions in the Company's key markets and on a global basis are currently very challenging and are contributing to an increasing intensity of the competitive environment in the marketplace. Although the global credit and capital markets have begun to show signs of improvement, the global economic situation has or could adversely affect the Company's major suppliers, distributors and retailers. The inability of suppliers, distributors or retailers to conduct business or to access liquidity could adversely impact the Company's business and financial performance. In order to mitigate the impact of these challenging conditions, the Company is focusing on improving operating efficiencies, containing costs and optimizing cash flow and return on invested capital. The Company has also maintained adequate liquidity to meet current obligations and fund capital expenditures. However, depending upon their severity and duration, adverse conditions in the worldwide and domestic economies could have a material adverse impact on the Company's business, liquidity, financial condition and results of operations.

Marketing, sales and distribution of the Company's products are managed on a geographic basis in order to fully leverage leading market positions within each core market. Market dynamics and consumer trends vary significantly across the Company's five core markets (U.S., Canada, U.K., Australia and New Zealand) within the Company's three geographic regions (North America, Europe and Australia/New Zealand). Within North America, the Company offers a range of beverage alcohol products across the branded wine and spirits and, through Crown Imports, imported beer categories in the U.S. Within the Company's remaining geographies, the Company offers primarily branded wine.

The environment for the Company's products is competitive in each of the Company's core markets, due, in part, to industry and retail consolidation. In particular, the U.K. and Australian markets are highly competitive, as further described below.

The U.K. wine market is primarily an import market with Australian wines comprising approximately one-quarter of all wine sales in the U.K. off-premise business. The Australian wine market is primarily a domestic market. The Company has leading share positions in the Australian wine category in both the U.K. and Australian markets.

Table of Contents

Due to competitive conditions in the U.K. and Australia, it has been difficult for the Company in recent fiscal periods to recover certain cost increases, in particular, the duty increases in the U.K. which have been imposed at least annually for the past several years. In the U.K., significant consolidation at the retail level has resulted in a limited number of large retailers controlling a significant portion of the off-premise wine business. The continuing surplus of Australian wine has made and continues to make very low cost bulk wine available to these U.K. retailers which has allowed certain of these large retailers to create and build private label brands in the Australian wine category. During the first quarter of calendar 2008, the Company implemented price increases in the U.K. and Australia. In addition, price increases were implemented in the U.K. in the last quarter of calendar 2008 and early in the second quarter of calendar 2009. These increases were implemented in an effort to cover certain cost increases, including the U.K. duty increases, and to improve profitability; however, the concentrated retail environment, competition from private label causing deterioration of retail pricing, foreign exchange volatility, and the continuing consumer recession have all contributed to declining margins for the Company's U.K. and Australian businesses for the three months ended May 31, 2009 (First Quarter 2010).

The three years prior to the calendar 2007 Australian grape harvest were all years of record Australian grape harvests which contributed to the current surplus of Australian bulk wine. The calendar 2007 Australian grape harvest was significantly lower than the calendar 2006 Australian grape harvest as a result of an ongoing drought and late spring frosts in several regions. As a result of various conditions surrounding the calendar 2008 Australian grape harvest, the Company previously expected the supply of wine to continue to move toward balance with demand. However, the calendar 2008 Australian grape harvest was higher than expected. Although the calendar 2009 Australian grape harvest came in lower than the calendar 2008 Australian grape harvest, the total intake is expected to exceed the current annual global demand for Australian wine products. Accordingly, the current Australian bulk wine surplus and related intense competitive conditions in the U.K. and Australian markets are not expected to subside in the near term. In the U.S., although the calendar 2008 grape harvest was slightly lower than the calendar 2007 grape harvest, the Company expects the overall supply of wine to remain generally in balance with demand.

For First Quarter 2010, the Company's net sales decreased 15% over the three months ended May 31, 2008 (First Quarter 2009), primarily due to an unfavorable year-over-year foreign currency translation impact and the divestitures of (i) the value spirits business, (ii) a Canadian distilling facility and (iii) the Pacific Northwest Business (see Divestitures in Fiscal 2010 and Fiscal 2009 below). Operating income decreased 8% over the comparable prior year period primarily due to the divestitures discussed above and the declining margins in the Company's international businesses, partially offset by savings from the Company's cost reduction initiatives and gains on foreign currency transactions. Net income decreased 85% over the comparable prior year period primarily due to an increase in the provision for income taxes, partially offset by decreased interest expense. The increase in the provision for income taxes was due largely to the tax effect of the write-off of nondeductible goodwill related to the sale of the value spirits business.

The following discussion and analysis summarizes the significant factors affecting (i) consolidated results of operations of the Company for First Quarter 2010 compared to First Quarter 2009 and (ii) financial liquidity and capital resources for First Quarter 2010. This discussion and analysis also identifies certain acquisition-related integration costs, restructuring charges and unusual items expected to affect consolidated results of operations of the Company for the fiscal year ending February 28, 2010 (Fiscal 2010). This discussion and analysis should be read in conjunction with the Company's consolidated financial statements and notes thereto included herein and in the Company's Annual Report on Form 10-K for Fiscal 2009.

Table of Contents**Divestitures in Fiscal 2010 and Fiscal 2009*****Value Spirits Business***

In March 2009, the Company sold its value spirits business for \$330.2 million, net of direct costs to sell, subject to post-closing adjustments. The Company received \$270.2 million, net of direct costs to sell, in cash proceeds and a note receivable for \$60.0 million. The Company retained certain mid-premium spirits brands, including SVEDKA Vodka, Black Velvet Canadian Whisky and Paul Masson Grande Amber Brandy. This transaction is consistent with the Company's strategic focus on premium, higher growth and higher margin brands in its portfolio. In connection with the classification of this business as an asset group held for sale as of February 28, 2009, the Company recorded a loss of \$15.6 million in the fourth quarter of fiscal 2009, primarily related to asset impairments. In First Quarter 2010, the Company recognized a net gain of \$0.2 million, which included a gain on settlement of a postretirement obligation of \$1.0 million, partially offset by an additional loss of \$0.8 million. This net gain is included in selling, general and administrative expenses on the Company's Consolidated Statements of Operations.

Pacific Northwest Business

In June 2008, the Company sold certain businesses consisting of several California wineries and wine brands acquired in the December 2007 acquisition of all of the issued and outstanding capital stock of Beam Wine Estates, Inc. (BWE) (the BWE Acquisition), as well as certain wineries and wine brands from the states of Washington and Idaho (collectively, the Pacific Northwest Business) for cash proceeds of \$204.2 million, net of direct costs to sell. In addition, if certain objectives are achieved by the buyer, the Company could receive up to an additional \$25.0 million in cash payments. This transaction contributes to the Company's streamlining of its U.S. wine portfolio by eliminating brand duplication and excess production capacity. In connection with the classification of this business as an asset group held for sale as of May 31, 2008, the Company's Constellation Wines segment recorded a loss of \$23.4 million for First Quarter 2009, which included asset impairments of \$16.0 million and losses on contractual obligations of \$7.4 million. This loss is included in selling, general and administrative expenses on the Company's Consolidated Statements of Operations.

Results of Operations**First Quarter 2010 Compared to First Quarter 2009*****Net Sales***

The following table sets forth the net sales (in millions of dollars) by operating segment of the Company for First Quarter 2010 and First Quarter 2009.

	First Quarter 2010 Compared to First Quarter 2009		
	Net Sales		%
	2010	2009	Decrease
Constellation Wines:

Consolidations and eliminations	(635.8)	(672.5)	(5)%
Consolidated Net Sales	\$ 791.6	\$ 931.8	(15)%

Table of Contents

Net sales for First Quarter 2010 decreased to \$791.6 million from \$931.8 million for First Quarter 2009, a decrease of \$140.2 million, or (15%). This decrease resulted primarily from an unfavorable year-over-year foreign currency translation impact of \$90.2 million and a decrease in spirits net sales of \$52.6 million. The decrease in spirits net sales resulted predominantly from the divestitures of the value spirits business and the Canadian distilling facility.

Constellation Wines

Net sales for Constellation Wines decreased to \$791.6 million for First Quarter 2010 from \$931.8 million in First Quarter 2009, a decrease of \$140.2 million, or (15%). Branded wine net sales decreased \$77.8 million primarily due to an unfavorable year-over-year foreign currency translation impact of \$77.9 million. Spirits net sales decreased \$45.5 million primarily due to a decrease in net sales of \$52.6 million in connection with the divestitures of the value spirits business and the Canadian distilling facility, partially offset by volume growth within the retained spirits brands which was driven largely by SVEDKA Vodka. Other net sales decreased \$16.9 million primarily due to an unfavorable year-over-year foreign currency translation impact of \$12.3 million.

Crown Imports

As this segment is eliminated in consolidation, see *Equity in Earnings of Equity Method Investments* below for a discussion of Crown Imports net sales, gross profit, selling, general and administrative expenses, and operating income.

Gross Profit

The Company's gross profit decreased to \$268.7 million for First Quarter 2010 from \$329.0 million for First Quarter 2009, a decrease of \$60.3 million, or (18%). This decrease was primarily due to an unfavorable mix of sales towards lower margin products, an unfavorable year-over-year foreign currency translation impact of \$19.6 million and a decrease in gross profit of \$15.3 million related to the divestitures of (i) the value spirits business, (ii) the Canadian distilling facility and (iii) the Pacific Northwest Business. In addition, unusual items, which consist of certain costs that are excluded by management in their evaluation of the results of each operating segment, were lower by \$2.9 million in First Quarter 2010 versus First Quarter 2009 due largely to decreased flow through of inventory step-up of \$3.6 million associated primarily with the BWE Acquisition. Gross profit as a percent of net sales decreased to 33.9% for First Quarter 2010 from 35.3% for First Quarter 2009 primarily due to the factors discussed above.

Table of Contents***Selling, General and Administrative Expenses***

Selling, general and administrative expenses decreased to \$166.6 million for First Quarter 2010 from \$233.5 million for First Quarter 2009, a decrease of \$66.9 million, or (29%). This decrease is due to a decrease of \$55.5 million in the Constellation Wines segment and a decrease in unusual costs which consist of certain items that are excluded by management in their evaluation of the results of each operating segment of \$11.7 million, partially offset by a slight increase in the Corporate Operations and Other segment. The decrease in the Constellation Wines segment's selling, general and administrative expenses is primarily due to decreases in general and administrative expenses of \$27.2 million, advertising expenses of \$15.4 million and selling expenses of \$13.0 million. These decreases are largely attributable to (i) a favorable year-over-year foreign currency translation impact; (ii) the divestitures of the value spirits business and the Pacific Northwest Business; (iii) gains on foreign currency transactions; (iv) cost savings in connection with the Company's various restructuring activities; and (v) a planned reduction in marketing and advertising spend. The decrease in unusual costs was primarily due to the recognition in First Quarter 2009 of the \$23.4 million loss in connection with the June 2008 sale of the Pacific Northwest Business, partially offset by \$13.2 million of other costs in connection with the Company's plan to simplify its business, increase efficiencies and reduce its cost structure on a global basis (the Global Initiative). Selling, general and administrative expenses as a percent of net sales decreased to 21.0% for First Quarter 2010 as compared to 25.1% for First Quarter 2009 primarily due to the factors discussed above.

Restructuring Charges

The Company recorded \$18.9 million of restructuring charges for First Quarter 2010 associated primarily with the Company's Global Initiative. Restructuring charges included \$17.1 million of employee termination costs, \$1.5 million of contract termination costs and \$0.3 million of facility consolidation/relocation costs. The Company recorded \$0.5 million of restructuring charges for First Quarter 2009 associated primarily with the Company's Fiscal 2008 Plan. The Fiscal 2008 Plan consists of (i) the Company's plans (announced in November 2007) to streamline certain of its international operations, including the consolidation of certain winemaking and packaging operations in Australia, the buy-out of certain grape processing and wine storage contracts in Australia, equipment relocation costs in Australia, and certain employee termination costs; (ii) certain other restructuring charges incurred during the third quarter of fiscal 2008 in connection with the consolidation of certain spirits production processes in the U.S.; and (iii) the Company's plans (announced in January 2008) to streamline certain of its operations in the U.S., primarily in connection with the restructuring and integration of the operations acquired in the BWE Acquisition. These initiatives are collectively referred to as the Fiscal 2008 Plan.

Table of Contents

In addition, the Company incurred additional costs for First Quarter 2010 and First Quarter 2009 in connection with the Company's restructuring and acquisition-related integration plans. Total costs incurred in connection with these plans for First Quarter 2010 and First Quarter 2009 are as follows:

<i>(in millions)</i>	First Quarter 2010	First Quarter 2009
<u>Cost of Product Sold</u>		
Accelerated depreciation	\$ 2.9	\$4.0
Other	\$ 1.9	\$
<u>Selling, General and Administrative Expenses</u>		
Other costs	\$13.9	\$1.5
