Vale informs about strike in Voisey s Bay operations

Rio de Janeiro, August 3, 2009 Vale S.A. (Vale) informs that the unionized employees at its operations in Voisey s Bay, province of Newfoundland and Labrador, Canada, went on strike on Saturday, August 1, 2009, after rejecting the company s settlement offer for a new three-year collective bargaining agreement.

Our proposal aims to provide the right incentives to labor productivity growth and to enhance the foundations of our long-term competitiveness and capacity to continue to generate value.

The strike affects 120 employees at our mining operations in Voisey s Bay.

In 2008, finished nickel output utilizing nickel ore produced by the Ovoid mine at the Voisey s Bay operations reached 77,500 metric tons, 28% of our total production. This site also produced 55,000 metric tons of copper in concentrate and 1,695 metric tons of cobalt, 18% and 60% of Vale s total output, respectively, last year.

As previously disclosed, the Voisey s Bay operations began a one-month shutdown period on July 1, 2009, and were scheduled to resume operations on August 1, 2009.
