Report of Independent Registered Public Accounting Firm

The Administrative Committee
Time Warner Savings Plan

We have audited the accompanying statements of net assets available for benefits of the Time Warner Savings Plan (the Plan) as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan s internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2009 and 2008, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of loans or fixed income obligations in default or classified as uncollectible, delinquent participant contributions and assets (held at end of year) as of December 31, 2009 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan s management. The supplemental schedules have been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

Time Warner Savings Plan
Notes to Financial Statements
December 31, 2009

1. Description of the Plan

The following is an abbreviated description of the Time Warner Savings Plan (the Plan). (See Note 8 for changes to be made to the Plan effective July 1, 2010 and January 1, 2011). More complete descriptions are provided in the Plan documents, as amended, and the summary plan description/prospectus. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

General

The Plan is a defined contribution profit sharing plan with a 401(k) feature generally covering eligible employees of Time Warner Inc. (Time Warner) and certain of its subsidiaries and affiliates (each, an Employing Company and, collectively, the Employing Companies). Employees may participate in the Plan after two months of continuous employment. In addition, employees classified as hourly or temporary employees who are credited with at least 1,000 hours of service in any one year are eligible to participate in the Plan. Employees hired on or after January 1, 2007 are automatically enrolled in the Plan with a pre-tax contribution rate of 2% and are invested in the default fund (Growth Asset Allocation Fund) approximately 90 days following the hire date, unless the employee has elected otherwise during the first 60 days of employment. (See Note 8 for changes to be made to the Plan effective July 1, 2010.)

The Plan is a participating plan (Participating Plan) in the Time Warner Defined Contribution Plans Master Trust (the Master Trust) which, through October 31, 2008, had been maintained for collective investment of the assets of the Plan and the TWC Savings Plan, qualified defined contribution plans sponsored by Time Warner and its then subsidiary Time Warner Cable Inc. (TWCI), respectively.

The Plan administrator is a committee (the Administrative Committee) appointed by Time Warner s board of directors. Certain administrative functions of the Plan have been delegated to others in accordance with the terms of the Plan.

Significant Events

Effective at the close of business on October 31, 2008 and in connection with the TWCI Separation (as described below), the TWC Savings Plan ceased to be a Participating Plan in the Master Trust and the TWC Savings Plan s net assets in the amount of \$855.2 million were transferred out of the Master Trust into the Time Warner Cable Defined Contribution Plans Master Trust, a new master trust established by TWCI.

Table of Contents

Time Warner Savings Plan
Notes to Financial Statements (continued)

1. Description of the Plan (continued)

As a result of the transfer of the TWC Savings Plan net assets out of the Master Trust effective at the close of business on October 31, 2008, the Plan is the only Participating Plan in the Master Trust, and the activity for the Master Trust after October 31, 2008 is reflected and reported in the Plan's financial statements.

In November 2008, the Plan received \$68.6 million from a \$100 million settlement to resolve the class action lawsuits involving certain ERISA matters brought on behalf of participants in the Plan, the Time Warner Thrift Plan (which was merged into the Plan effective December 29, 2006) and the TWC Savings Plan. In November 2008, individual allocations of the \$68.6 million were made to eligible participant accounts. The amount allocated to each eligible participant's account was calculated by the third-party settlement administrator according to the court-approved plan of allocation.

On March 12, 2009, Time Warner disposed of all of its shares of TWCI common stock pursuant to a separation agreement dated May 20, 2008 between Time Warner and TWCI and certain of its subsidiaries, which provided for the legal and structural separation of TWCI from Time Warner (the "TWCI Separation"). As a result, TWCI is no longer a subsidiary of Time Warner. The TWCI Separation was effected as a pro rata dividend of all shares of TWCI common stock held by Time Warner in a spin-off (the "Distribution") to Time Warner stockholders. Time Warner stockholders received 0.08367 of a share of TWCI common stock for each share of Time Warner common stock held at March 12, 2009, the record date for the Distribution. As a result of the Distribution, the Plan received approximately 1.9 million shares of TWCI common stock with a value of approximately \$50 million. These shares were credited to eligible Plan participants' accounts in the Time Warner Inc. Stock Fund, as applicable. The Distribution is reflected as part of Investment income, net of fees in the accompanying Statement of Changes in Net Assets Available for Benefits. In accordance with the provisions of the Plan, an independent fiduciary, Fiduciary Counselors Inc. ("FCI"), was appointed to exercise control over the TWCI common stock received in the Time Warner Inc. Stock Fund as a result of the Distribution. Beginning March 31, 2009 and ending April 14, 2009, FCI sold the TWCI common stock received by the Time Warner Inc. Stock Fund and reinvested the proceeds in Time Warner common stock.

Effective March 27, 2009, Time Warner effected a 1-for-3 reverse stock split of Time Warner common stock. The reverse stock split is reflected in the accompanying financial statements.

Table of Contents

Time Warner Savings Plan
Notes to Financial Statements (continued)

1. Description of the Plan (continued)

On December 8, 2009, in connection with the AOL Separation (as described below), net assets in the amount of \$465.3 million and participant loans in the amount of \$5.9 million were transferred out of the Plan into the AOL Savings Plan, to account for the transfer of the account balances of Plan participants in the then AOL Inc. (AOL) division. Approximately \$0.5 million in additional Matching Contributions credited in June 2010 will be transferred to the AOL Savings Plan on behalf of participants in the former AOL division and is reflected as a liability in the Statement of Net Assets Available for Benefits as of December 31, 2009.

On December 9, 2009, Time Warner disposed of all its shares of AOL common stock and completed the legal and structural separation of AOL from Time Warner (the AOL Separation). As a result, AOL is no longer a subsidiary of Time Warner. The AOL Separation was effected as a pro rata dividend of all shares of AOL common stock held by Time Warner in a spin-off (the AOL Distribution) to Time Warner stockholders. Time Warner stockholders received 1 share of AOL common stock for every 11 shares of Time Warner common stock held at November 27, 2009, the record date for the AOL Distribution. As a result of the AOL Distribution, the Plan received approximately 0.8 million shares of AOL common stock with a value of approximately \$20 million. These shares were credited to eligible Plan participants' accounts in the Time Warner Inc. Stock Fund, as applicable. The AOL Distribution is reflected as part of Investment income, net of fees in the accompanying Statement of Changes in Net Assets Available for Benefits. In accordance with the provisions of the Plan, an independent fiduciary, FCI, was appointed to exercise control over the AOL common stock received in the Time Warner Inc. Stock Fund as a result of the AOL Distribution. Beginning December 11, 2009 and ending December 29, 2009, FCI sold the AOL common stock received by the Time Warner Inc. Stock Fund and reinvested the proceeds in Time Warner common stock.

Investment Funds, Contributions and Vesting

The Plan provides for multiple investment funds (the Investment Funds) made available through the trustee, Fidelity Management Trust Company (Fidelity), pursuant to the Master Trust. The Investment Funds consist of four asset allocation funds, nine core actively managed funds, four core index funds and a mutual fund window (a self-directed brokerage account). Participant contributions, Employing Company matching contributions (Matching Contributions) and Rollovers (as defined below) may generally be invested in specific increments in the Investment Funds. (See Note 8 regarding changes to be made to the Time Warner Inc. Stock Fund effective July 1, 2010.)

Table of Contents

Time Warner Savings Plan
Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Generally, the Plan provides for voluntary participant contributions on a pre-tax basis at an elected percentage of a participant's eligible compensation, up to an annual limit prescribed by the Internal Revenue Code of 1986, as amended (the Code). After two months of continuous employment, Matching Contributions are made as a percentage of a participant's contributions to the Plan and are capped at a certain percentage of the participant's eligible compensation. The allowable contribution percentages and Matching Contributions vary among Employing Companies.

Matching Contributions are calculated based on one of the following formulas: 66.67% on up to the first 6% of the participant's eligible compensation contributed to the Plan; or 160% on up to the first 4% of the participant's eligible compensation contributed to the Plan. (See Note 8 regarding changes to be made to Matching Contributions effective July 1, 2010.)

Participants are also allowed to transfer amounts from certain other tax qualified plans to the Plan (Rollovers). Rollovers are included as participant contributions in the Statements of Changes in Net Assets Available for Benefits. Matching Contributions and any other amounts contributed by an Employing Company, including those transferred into the Plan, are deemed Employing Company contributions (Employing Company Contributions). Each participant's account is credited with his/her participant contributions, Rollovers, any Employing Company Contributions and any earnings or losses, as appropriate. Participant contributions, Rollovers, and earnings thereon are fully vested. Employing Company Contributions and earnings thereon generally vest based on years or periods of service as follows:

Employing Company Contributions and Earnings Thereon

| Prior to March 1, 2007 | | Effective March 1, 2007 | |
|------------------------------------|--------------------------|------------------------------------|--------------------------|
| Years or Periods of Service | Vested Percentage | Years or Periods of Service | Vested Percentage |
| Less than 2 years | 0% | Less than 1 year | 0% |
| 2 but less than 3 years | 25 | 1 but less than 2 years | 20 |
| 3 but less than 4 years | 50 | 2 but less than 3 years | 40 |
| 4 but less than 5 years | 75 | 3 but less than 4 years | 60 |
| 5 years or more | 100 | 4 but less than 5 years | 80 |
| | | 5 years or more | 100 |

7

Table of Contents

Time Warner Savings Plan
Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Employing Company Contributions and earnings thereon also become fully vested upon a participant's termination of service due to death or disability, attainment of age 65, or upon the termination of the Plan.

See Note 8 for changes to be made to the Plan effective July 1, 2010.

Forfeited Accounts

Forfeited contributions and earnings thereon may be used to reduce future Employing Company Contributions to the Plan and/or to pay Plan expenses. Forfeited contributions for 2009 and 2008 were \$3.1 million and \$6.5 million, respectively. The amount of forfeited nonvested accounts as of December 31, 2009 and 2008 was \$5.1 million and \$8.2 million, respectively, and is reflected in the Statements of Net Assets Available for Benefits.

Participant Loans and Payment of Benefits

Under the Plan, participants may periodically transfer account balances among Investment Funds offered under the Plan and, subject to certain restrictions and penalties, withdraw amounts and/or take loans from their accounts. Effective January 1, 2008, the maximum number of new loans a participant may have outstanding is limited to three at any one time, in the form of either one primary residence loan and two general loans or three general loans, and the minimum loan amount was increased from \$500 to \$1,000. Loans are valued at their outstanding balances, which approximate fair value, and are treated as transfers between the individual Investment Funds and the participant loan fund. Loans may be for a period of up to five years or, if for the purchase of a primary residence, 15 years (10 years prior to January 1, 1999). Participants who have transferred accounts to the Plan with existing loans for the purchase of a primary residence may have loan terms of up to 30 years based on the provisions of the plan from which the original loan was requested. Effective April 1, 2007, interest rates charged for loans originated under the Plan within any quarter are set at the prime rate in effect on the first day of such quarter plus 1%. Prior to April 1, 2007, interest rates were fixed at the time of the loan at the prime rate plus 1%. Participants who have transferred accounts to the Plan with existing loans may be subject to different interest rates on those loans, as set under the provisions of the plan from which the original loan was requested. Interest rates on outstanding participant loans as of December 31, 2009 and 2008 ranged from 4.25% to 10.50% and 4.75% to 10.50%, respectively.

Table of Contents

Time Warner Savings Plan
Notes to Financial Statements (continued)

1. Description of the Plan (continued)

In-service withdrawals are available in certain limited circumstances, as provided under the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated under the Code and the regulations thereunder and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Generally, on termination of service, participants will receive the vested portion of their account in a lump sum. However, subject to certain restrictions, the Plan permits other payment options. In addition, at the option of the participant, the commencement of payments may be deferred, subject to certain limitations. Benefits distributed from all Investment Funds will be paid in cash, except for benefits distributed from the Time Warner Inc. Stock Fund, which also offers shares of Time Warner common stock as a distribution election. Fractional shares are paid in cash. (See Note 8 for changes to the Time Warner Inc. Stock Fund effective July 1, 2010.)

Plan Termination

Time Warner reserves the right to discontinue Employing Company Contributions or to terminate or modify the Plan at any time. In the event of termination, the net assets of the Plan may be distributed to participants in accordance with the Plan's provisions and applicable law.

2. Basis of Presentation and Summary of Significant Accounting Policies

Basis of Presentation

The accounting records of the Plan are maintained on an accrual basis.

Costs and expenses incurred for the purchase, sale or transfer of investments reflected in the accompanying financial statements are considered a cost of investment or a reduction in the proceeds of a sale, as appropriate. Investment management fees and certain administrative costs are paid by the Investment Funds and included in Investment income, net of fees.

Certain administrative costs are charged to the Plan as permitted under ERISA, including, for example, fees for auditing, custodial, investment advice, recordkeeping and trustee services. Other administrative costs, for example, compensation of employees responsible for the administration of the Plan, are paid by Time Warner.

Table of Contents

Time Warner Savings Plan
Notes to Financial Statements (continued)

2. Basis of Presentation and Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). (See Note 4 for further discussion and disclosures related to fair value measurements.)

According to applicable accounting guidance, fully benefit-responsive investment contracts held by a defined contribution plan are required to be reported at fair value. Investments in the Statements of Net Assets Available for Benefits include fully benefit-responsive investment contracts recognized at fair value with a corresponding adjustment to reflect these investments at contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Recent Accounting Standards

In April 2009, the Financial Accounting Standards Board (the FASB) issued additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. Additional guidance was also provided on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the FASB's fair value disclosure requirements. The Plan adopted this guidance for the reporting period ended December 31, 2009 and this guidance is reflected in the 2009 fair value measurements table in Note 4. The adoption did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

Table of Contents

Time Warner Savings Plan
Notes to Financial Statements (continued)

2. Basis of Presentation and Summary of Significant Accounting Policies (continued)

In September 2009, the FASB issued guidance to amend the existing fair value guidance to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the NAV is calculated in a manner consistent with investment company accounting. The Plan adopted this guidance for the reporting period ended December 31, 2009. The adoption of this guidance did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In January 2010, the FASB issued guidance to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance clarified that disclosures should be presented separately for each class of assets and liabilities measured at fair value, and the FASB provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. The guidance also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating fair value measurements for Level 2 and Level 3 assets. In addition, the guidance introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance became effective for reporting periods beginning after December 15, 2009. The Plan's management is currently evaluating the effect that the provisions will have on the Plan's financial statements.

3. Investments

Plan investments are made in a variety of investment securities, which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these investments, it is possible that changes in values could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits. The assets of the Plan are primarily held in the Master Trust. As discussed above, effective October 31, 2008, the Plan was the only Participating Plan in the Master Trust and, therefore, at December 31, 2009 and December 31, 2008, the Plan's investments are reflected in the Statements of Net Assets Available for Benefits.

Table of Contents

Time Warner Savings Plan
Notes to Financial Statements (continued)

3. Investments (continued)

During the year ended December 31, 2009 and the two months ended December 31, 2008, the net investment gain (loss) of the Plan was as follows:

| | Year Ended December 31, 2009 | Two Months Ended December 31, 2008 |
|--|---|---|
| | <i>(In Thousands)</i> | |
| Investment income, net of fees | \$ 112,484 | \$ 16,475 |
| Net realized and unrealized appreciation (depreciation) in fair value of investments: | | |
| Commingled trust funds | 236,031 | (15,346) |

| Other fixed income securities | 12,085 | (3,155) |
| Cash, cash equivalents and other investments | 1,295 | 1,843 |
| Total net realized and unrealized appreciation (depreciation) in the fair value of investments | 564,387 | (77,016) |
| Total net investment gain (loss) | \$ 676,871 | \$ (60,541) |

Table of Contents

Time Warner Savings Plan
Notes to Financial Statements (continued)

3. Investments (continued)

During the ten months ended October 31, 2008, the net investment loss of the Master Trust was as follows (in thousands):

| | |
|---|----------------|
| Investment income, net of fees | \$ 68,979 |
| Net realized and unrealized depreciation in the fair value of investments: | |
| Commingled trust funds | (436,451) |
| Time Warner common stock | (216,071) |
| Other common stocks | (438,884) |
| Preferred stocks | (1,553) |
| Mutual funds | (562,499) |
| U.S. government and agency securities | (17,320) |
| Other fixed income securities | (26,113) |
| Cash, cash equivalents and other investments | 4,179 |
| Total net realized and unrealized depreciation in the fair value of investments | (1,694,712) |
| Total net investment loss | \$ (1,625,733) |

The following table presents investments that each represented 5% or more of the Plan's net assets:

| | December 31, | |
|--|-----------------------|-------------|
| | 2009 | 2008 |
| | <i>(In Thousands)</i> | |
| Commingled Trust Fund: | | |

Table of Contents

Time Warner Savings Plan
Notes to Financial Statements (continued)

3. Investments (continued)

The Capital Preservation Fund, an Investment Fund available in the Plan, includes benefit-responsive synthetic investment contracts that are valued at fair value and adjusted to contract value in the Statements of Net Assets Available for Benefits. A synthetic investment contract is an agreement under which debt obligations (such as fixed-income, asset-backed and mortgage-backed securities) are purchased and then a contract is entered into with a financial institution to provide for liquidity and an adjustable rate of return thereon (a Wrapper) which, when taken together with the underlying securities, generally results in a guaranteed return of principal and accrued interest. (See Note 4 for further discussion and disclosures related to fair value measurements.)

The Capital Preservation Fund and the Wrapper contracts purchased by that fund are designed to pay all participant-initiated transactions at contract value. However, the Wrapper contracts limit the ability of the fund to transact at contract value upon the occurrence of certain events. These events include, but are not limited to:

Complete or partial termination of the Plan;

Any change in law, regulation or administrative ruling applicable to the Plan that could have a material adverse effect on the fund's cash flow;

Merger or consolidation of the Plan with another plan, the transfer of Plan assets to another plan, or the sale, spin-off or merger of a subsidiary or division of the Plan sponsor; and

Any early retirement program, group termination, group layoff, facility closing or similar program.

At this time, the occurrence of these events or any event that would limit the ability of the Capital Preservation Fund to transact at contract value is not probable.

A Wrapper issuer may terminate a Wrapper contract at any time assuming the appropriate notification is provided. In the event that the market value of the Capital Preservation Fund's covered assets is below their contract value at the time of such termination, Fidelity, as the Fund's investment manager in this case, may elect to keep the Wrapper contract in place through another Wrapper provider until such time as the market value of the Capital Preservation Fund's covered assets is equal to their contract value. Plan participants will continue to receive the Capital Preservation Fund's Crediting Rate (as defined below).

Table of Contents

Time Warner Savings Plan
Notes to Financial Statements (continued)

3. Investments (continued)

The following table presents crediting rate and yield information for the Plan's Capital Preservation Fund:

| | December 31, | |
|---------------------------------------|---------------------|-------------|
| | 2009 | 2008 |
| Crediting rate ^(a) | 2.5% | 3.9% |
| Average annualized yield for the year | 2.9 | 4.6 |

(a) Interest income in the Capital Preservation Fund is accrued at the weighted-average return of individual fund investments, net of investment management and certain administrative fees (the Crediting Rate). The Crediting Rate is calculated daily. Wrapper contracts use the Crediting Rate formula to convert market value changes in the underlying assets into income distributions in order to minimize the difference between the market and contract value of the underlying assets over time. Using the Crediting Rate formula, an estimated future market value is calculated by compounding a portfolio's current

market value at such portfolio's current yield to maturity for a period equal to such portfolio duration. The Crediting Rate is the discount rate that equates that estimated future market value with such portfolio's current contract value. Effective August 2009, Crediting Rates are reset monthly; prior to August 2009 Crediting Rates were reset quarterly. The Wrapper contracts provide a guarantee that the Crediting Rate will not fall below 0%.

Certain investment managers of Investment Funds offered under the Plan are authorized to use derivative financial instruments, either directly or within a commingled fund structure, in accordance with established guidelines of the Investment Funds. Derivative financial instruments may be used for the purpose of managing interest rate and foreign exchange risk, and for yield enhancement. The derivative transactions are marked-to-market; therefore, no gains or losses are deferred. All net investment activity for the year ended December 31, 2009 and the two months ended December 31, 2008 is reported in the Plan's Statements of Changes in Net Assets Available for Benefits. All net investment activity for the ten months ended October 31, 2008 was previously reported in the Master Trust's Statements of Changes in Net Assets Available to Participating Plans for such period. The types of derivative financial instruments held by the Plan include foreign currency contracts, swaps, futures and options. At December 31, 2009 and 2008, the Plan held less than 1% of the total market value of its investments in derivatives.

4. Fair Value Measurements

A fair value measurement is determined based on the assumptions that a market participant would use in pricing an asset or liability. A three-tiered hierarchy draws distinctions between market participant assumptions based on (i) observable inputs such as quoted prices in active markets (Level 1), (ii) inputs other than quoted prices in active markets that are observable either directly or indirectly (Level 2) and (iii) unobservable inputs that require the Plan to use present value and other valuation techniques in the determination of fair value (Level 3).

The following table presents information about the Plan's assets required to be carried at fair value on a recurring basis as of December 31, 2009 (in thousands):

| Asset Category | Fair Value Measurements as of December 31, 2009 | | | |
|---|---|--|---|--|
| | Fair Value as of December 31, 2009 | Quoted Market Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |
| Commingled trust funds ^(a) | \$ 890,449 | \$ | \$ 890,449 | \$ |

Time Warner Savings Plan
Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

The following table reconciles the beginning and ending balances of the Plan's assets classified as Level 3 for the year ended December 31, 2009 (in thousands):

| | Participant Loans | U.S. Government and Agency Securities |
|--|------------------------------|--|
| Balance as of January 1, 2009 | \$ 64,013 | \$ |
| Actual return on plan assets: | | |
| Relating to assets still held at December 31, 2009 | | |
| Relating to assets sold during the period | | |
| Purchases, sales, issuances and settlements | (7,208) | 1,872 |
| Transfers in and/or out of Level 3 | | |
| Balance as of December 31, 2009 | \$ 56,805 | \$ 1,872 |

The following is a description of the valuation methodologies used for assets measured at fair value. Investments are recorded by the Plan and, through October 31, 2008, were recorded by the Master Trust, on a trade date basis at fair value.

Commingled trust funds: Valued at the net asset value per unit at year end as reported to Fidelity by each fund company managing such trusts. Investments in the underlying commingled trust funds can generally be redeemed daily at net asset value.

Common stocks, preferred stocks and U.S. government and agency securities: Valued at the closing price reported on the active market on which the individual securities are traded. Where observable prices are not available, fair value is based on prices and rates observed in the primary market for similar instruments. Due to the subjectivity involved in this assessment, these investments are classified in Level 3 of the fair value hierarchy.

Synthetic investment contracts: The fair value of the benefit-responsive synthetic investment contracts is calculated by discounting the related cash-flows based on current yields of similar instruments with comparable durations. Contract value represents contributions made under the contract, plus interest at the contract rate, less withdrawals under the contract. As of December 31, 2009 and 2008, there were no reserves against contract values for credit risk of contract issuers or otherwise.

Table of Contents

Time Warner Savings Plan
Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

Other fixed income securities: Valued at the closing price reported on the active market on which the individual securities are traded. Securities not traded on an active market are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar securities, the securities are valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

Participant loans: Valued at amortized cost, which approximates fair value.

Cash equivalents and other investments: Cash equivalents consist of investments in short term investment funds valued at net asset value per unit equal to one dollar at year end. Other investments consist of futures contracts and swaption contracts. Futures contracts are generally valued at closing settlement prices. Swaption contracts are marked-to-market as the net amount due to and from the Plan in accordance with the terms of the contract based on the closing level of the relevant market rate of interest.

5. Transactions with Parties-in-Interest

Under the terms of the Plan and the Master Trust, Time Warner may elect to contribute shares of Time Warner common stock and/or cash for Employing Company Contributions to the Plan. There were no shares of Time Warner common stock contributed in 2009 and 2008 as Employing Company Contributions to the Plan. The Plan may also purchase or sell shares of Time Warner common stock directly from or to Time Warner, respectively. There were no purchases or sales of Time Warner common stock by the Plan directly from or to Time Warner in 2009 and 2008.

Time Warner Savings Plan
Notes to Financial Statements (continued)

6. Contingencies

On January 17, 2002, former AOL Community Leader volunteers filed a class action lawsuit in the U.S. District Court for the Southern District of New York against Time Warner, AOL and AOL Community, Inc. under ERISA titled *Hallsisey et al. v. AOL Time Warner Inc. et al.* The complaint was later amended to name the Administrative Committee and the AOL Administrative Committee as defendants. As disclosed in AOL's Quarterly Report on Form 10-Q for the quarter ended March 31, 2010, this lawsuit was settled on terms not material to AOL. On March 10, 2010, the court granted final approval of the settlement. The settlement did not result in any expense or payment by Time Warner or the Plan, and fully released Time Warner, the Plan and the Administrative Committee (among others).

7. Tax Status of Plan

The Plan has received determination letters on behalf of Time Warner from the Internal Revenue Service (the IRS) dated April 10, 2002 and, subsequently, dated May 13, 2010, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. In order to maintain its qualification, the Plan is required to operate in conformity with the Code. The Plan's Administrative Committee has indicated that it will take the necessary steps, if any, to maintain the Plan's qualified status and its related trust's tax exemption.

8. Subsequent Events

On March 31, 2010, the Master Trust received approximately \$6.5 million from an additional distribution of the settlement funds to resolve the shareholder class action lawsuits brought on behalf of certain stockholders of Time Warner. Individual allocations to eligible participant accounts in the Plan and the TWC Savings Plan were determined by Fidelity based on a calculation by the third-party settlement administrator according to the court-approved plan of allocation. Approximately \$5.2 million will be allocated to the Plan and approximately \$1.3 million will be allocated to the TWC Savings Plan.

On July 1, 2010, the following changes to the Plan will become effective:

Matching Contributions. Levels of Matching Contributions for eligible Plan participants will be consistent across all Time Warner divisions and will be at a rate of 133% on up to the first 3% of eligible compensation deferred and 100% on up to the next 3% of eligible compensation deferred.

Table of Contents

Time Warner Savings Plan
Notes to Financial Statements (continued)

8. Subsequent Events (continued)

Vesting Schedule. A two-year cliff vesting requirement will be imposed for all Employing Company Contributions made for eligible Plan participants beginning July 1, 2010. Employing Company Contributions made prior to July 1, 2010 will continue to have the four-year or five-year vesting periods as described in Note 1. Current service counts towards vesting.

Time Warner Inc. Stock Fund. The Time Warner Inc. Stock Fund will be designated as an employee stock ownership plan component of the Plan. Dividends paid by the Time Warner Inc. Stock Fund will be paid in cash to Plan participants if elected, or Plan participants will have the option to reinvest such dividends in Time Warner common stock through the Time Warner Inc. Stock Fund. There will be a processing fee for a check or an electronic funds transfer (EFT), which will be deducted from each participant's Plan account. In addition, future contributions or investment fund transfers into the Time Warner Inc. Stock Fund will be prohibited.

Automatic Contribution Rates. Employees who are contributing less than 3% in pre-tax contributions and all new eligible employees will automatically be enrolled in the Plan at 3% and their deferral rate will automatically increase by 1% each year up to 6% (beginning January 1, 2012), unless employees change their contribution rate or opt out of the Plan. Employee and Matching contributions will be invested in the Plan's default investment option, the Growth Asset Allocation Fund, unless the employee elects other investment option(s).

On January 1, 2011, the following changes to the Plan will become effective:

Deferral Limit for Highly Compensated Employees. The elective deferral limit for highly compensated employees will increase from 10%, or 20% for Turner Broadcasting System, Inc. employees, to 50% for pre-tax contributions subject to the IRS limit.

Qualified Automatic Contribution Arrangement. The Plan will be designated as a Qualified Automatic Contribution Arrangement. The Plan is designed to satisfy the safe harbor requirements and, as such, the Plan will not have to be tested for nondiscrimination.

9. Reconciliation to Form 5500

The net assets of the Plan that are attributed to fully benefit-responsive investment contracts will be recorded at fair value on the 2009 IRS Form 5500 and related schedules. The following is a reconciliation of the Plan's net assets available for benefits and changes in net assets available for benefits between the financial statements and Form 5500:

| | December 31, | |
|--|-------------------------|------------------|
| | 2009 | 2008 |
| | | |
| Net assets available for benefits per the financial statements | \$ 3,203,825,895 | \$ 2,995,652,680 |
| Adjustment from contract value to fair value for fully benefit-responsive investment contracts | 7,657,113 | (8,748,807) |
| Net assets per the Form 5500 | \$ 3,211,483,008 | \$ 2,986,903,873 |
