Report of Independent Registered Public Accounting Firm

The Plan Trustees
infoUSA 401(k) Plan:

We have audited the accompanying statements of net assets available for benefits of the *infoUSA* 401(k) Plan (the Plan) as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the *infoUSA* 401(k) Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the year ended December 31, 2009, in conformity with U.S. generally accepted accounting principles. Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H, line 4i Schedule of Assets (Held at End of Year) as of December 31, 2009 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

infoUSA 401(k) Plan

Notes to Financial Statements December 31, 2009 and 2008

(1) Description of the Plan

The following description of the *infoUSA 401(k) Plan* (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering employees of *infoGROUP Inc.* (the Company). Plan eligibility is the first of the month following 30 days of consecutive employment by the Company and attainment of age 21. Effective June 1, 2008, the Company changed its name from *infoUSA Inc.* to *infoGROUP Inc.* This did not have any impact to the operations of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Administration

The Plan is administered by the 401(k) Plan Committee. The Committee consists of members appointed by the Compensation Committee of the Board of Directors of the Company. The Committee is responsible for Plan administration, managing the Plan's activities, and reviewing and selecting the investment options offered under the Plan.

(c) Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined by the Plan, not to exceed limits set by the Secretary of the Treasury. Participants who have attained age 50 before the end of the calendar year are eligible to make catch-up contributions. Participants may also contribute rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company makes matching contributions of 50% of the first 6% of participant contributions, which may be in the form of Company common stock or cash. Since March 19, 2010, the Company contributions have been made in cash contemplating the pending merger transaction discussed in Note 10.

(d) Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution, and an allocation of plan earnings based on balances in his or her account. All contributions, except Company matching contributions made in Company common stock, are directed by the participants into the various investment options offered. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. For Company matching contributions made in Company common stock, participants may elect to transfer the value of the common stock to other investment options at any time.

Table of Contents***(e) Vesting***

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participants become vested in the Company's contribution according to the following schedule:

	Vested percentage
Years of service:	
Less than 2	%
2 years but less than 3	25
3 years but less than 4	50
4 years but less than 5	75
5 years or more	100

(f) Participant Loans

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. These loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.25% at December 31, 2009. Principal and interest are paid ratably through payroll deductions. Loans are considered in default 90 days following the last payment for the loan. At the time of default, they are treated for tax purposes as a distribution of the Plan. Participant loans are recorded at amortized cost.

(g) Payment of Benefits

Participants may receive a distribution equal to the vested value of their account upon death, disability, retirement, or termination of either the participant's employment or the Plan. Participants may also receive distributions while employed by the Company in the event of a financial hardship or upon attainment of age 59^{1/2}. Distributions may be made in the form of a lump-sum cash payment or periodic installments.

(h) Forfeitures

Nonvested portions of terminated participants' accounts are forfeited. At December 31, 2009 and 2008, forfeited nonvested accounts totaled \$40,107 and \$16,655, respectively. Forfeitures are applied against future Company contributions or for the payment of administrative expenses. During 2009, administrative expenses of \$177,614 were paid from forfeited nonvested accounts.

(2) Summary of Significant Accounting Policies

The following is a summary of significant accounting policies followed in the preparation of these financial statements:

(a) Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

(b) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosures of contingent assets and liabilities at the date of the Financial Statements and the reported amounts during the reported period. Actual results could

Table of Contents

differ from those estimates as estimates involve judgments and uncertainties. The current economic environment has increased the degree of uncertainty inherent in those estimates and assumptions.

(c) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

The Plan has fully benefit-responsive investment contracts held by the ABN AMRO Income Plus Fund Class A (the Fund), which is provided as a core investment option to the participants in the Plan. The Fund is a collective investment fund (or common collective trust) that invests primarily in guaranteed investment contracts, money market instruments, and separate account structures. ABN AMRO attempts to maintain the stability of the value of each unit in the Fund at approximately one dollar per unit. An investment contract is generally permitted to be valued at contract value, rather than fair value, to the extent it is fully benefit-responsive. The statements of net assets available for benefits present the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis. During 2009, notice was given by the Company that the Fund would no longer be an investment option for the Plan. As of February 23, 2010, the Company ceased contributions and transferred the investment within the Fund into a money market fund at net asset value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses in investments bought and sold as well as held during the year.

In accordance with the policy of stating investments at fair value, changes in unrealized appreciation or depreciation are reflected in the statement of changes in net assets available for benefits.

(d) Participant Loans

Participants' loans are valued at their unpaid outstanding balances.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Administrative Expenses

The Plan is responsible for all administrative expenses; however, the Company may elect to pay administrative expenses directly or through forfeited nonvested accounts.

(g) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(h) Concentrations of Investments

Included in the Plan's net assets available for benefits at December 31, 2009 and 2008 are investments in *infoGROUP* Inc. common stock amounting to \$13,459,308 and \$6,812,750, respectively, whose value could be subject to change based on market conditions. See Note 10.

Table of Contents**(3) Investments**

The following table represents the fair value of individual investments that exceed 5% of the Plan's net assets at December 31, 2009 and 2008:

	2009	2008
ABN AMRO Income Plus Fund Class A	\$ 4,202,580	5,729,952
Alliance Bernstein Growth & Income Fund	*	7,067,621
American Europacific Growth Fd	4,996,190	*
American Grw Fd of Amer	9,108,879	*
Dreyfus Emerging Markets Fund	*	4,140,504
Gamco Growth Fund	*	7,657,226
info GROUP Inc. common stock	13,459,308	6,812,750
Lazard Emerging Mkts Portfolio	7,191,137	*
Loomis Sayles Bond Fund	5,233,542	*
PIMCO Total Return Fund	6,997,519	6,014,014
T Rowe Price Equity Income Fund	7,266,764	*
Vanguard 500 Index Fund	*	6,472,832
Vanguard Institutional Index Fund	8,393,807	*
William Blair International Growth Fund	*	4,141,862

* Fair value of the investment did not exceed 5% of the Plan's net assets at December 31 of the applicable year.

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Mutual funds	\$ 14,074,541
Common collective trust	(306,220)
infoGROUP Inc. common stock	5,996,225
Common stock	31,857
	\$ 19,796,403

Of the \$19,796,403 of net appreciation, \$10,155,292 was due to net realized gains recognized.

(4) Fair Value Measurements

The Plan adopted *Fair Value Measurements* as of January 1, 2008 and *Fair Value Measurements and Disclosures* as of December 31, 2009. This guidance establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The three tiers of the fair value hierarchy are described as follows:

Level 1 defined as observable inputs such as quoted prices in active markets,

Level 2 defined as inputs other than quoted prices in active markets that are either directly or indirectly observable,

Level 3 defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Following is a description of the valuation methodologies used for investments measured at fair value:

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded and are classified within Level 1 of the fair value hierarchy.

7

Table of Contents

Mutual funds/money market funds: These investments are valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is marked to market daily based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within Level 1 of the fair value hierarchy.

Common collective trust funds: This investment is valued using the NAV provided by the administrator of the fund. The NAV is constant and is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within Level 2 of the fair value hierarchy as the unit price is not quoted in an active market. However, the unit price is based on underlying investments, which are either traded on an active market or are valued based on observable inputs such as market interest rates and quoted prices for similar securities. The underlying investments are typically investment contracts such as traditional guaranteed investment contracts, some with wrappers of underlying securities. As there are no redemption restrictions on the common collective trust fund, there are no unfunded commitments as of December 31, 2009, and the fund trades and operates at a constant NAV with daily distributions, the Company considers the NAV to be an appropriate measure of fair value.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009.

	Level 1	Level 2	Level 3	Total
Money market fund	\$ 4,245	\$	\$	\$ 4,245
Mutual funds	64,594,122			64,594,122
Common collective trust		4,202,580		4,202,580
Common stocks	13,581,344			13,581,344
Total investments at fair value	\$ 78,179,711	\$ 4,202,580	\$	\$ 82,382,291

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2008.

	Level 1	Level 2	Level 3	Total
Money market fund	\$ 3,170	\$	\$	\$ 3,170
Mutual funds	45,271,135			45,271,135
Common collective trust		5,729,952		5,729,952
Common stocks	6,883,426			6,883,426
Total investments at fair value	\$ 52,157,731	\$ 5,729,952	\$	\$ 57,887,683

Table of Contents**(5) Plan Termination**

The Plan Sponsor has the right under the Plan to terminate the Plan, subject to the provisions of ERISA.

(6) Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated April 17, 2009 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

(7) Related-Party Transactions

First National Bank of Omaha is the custodian and record-keeper as defined by the Plan. Fees paid by the Plan for custodial and record-keeping services amounted to \$80,277 for the year ended December 31, 2009.

At December 31, 2009 and 2008, the Plan held 1,678,218 and 1,437,289 shares, respectively, of *infoGROUP* Inc. common stock with a fair value of \$13,459,308 and \$6,812,750, respectively.

(8) Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31, 2009
Net assets available for benefits per the financial statements	\$ 84,093,094
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	(70,432)
Net assets available for benefits per the Form 5500	\$ 84,022,662
	December 31, 2008
Net assets available for benefits per the financial statements	\$ 59,963,325
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	(388,650)
Net assets available for benefits per the Form 5500	\$ 59,574,675

Table of Contents

The following is a reconciliation of investment income per the financial statements to the Form 5500:

	December 31, 2009
Total investment gain per the financial statements	\$ 21,388,986
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	318,218
Total investment gain per the Form 5500	\$ 21,707,204

(9) Recently Issued Accounting Pronouncements

The Plan will adopt certain provisions of *Improving Disclosures about Fair Value Measurements* for fiscal years beginning after December 15, 2009. Such disclosures required are regarding transfers in and out of Level 1 and Level 2 fair value measurements and input and valuation techniques used to measure fair value for both recurring and nonrecurring fair value measurements within Level 2 or Level 3 categories. Disclosures regarding Level 3 roll forward activity (purchased, sales, issuances, and settlements) will be effective for the Plan for fiscal years beginning after December 15, 2010.

(10) Subsequent Events

On March 8, 2010, the Company announced that it had entered into an Agreement and Plan of Merger (the Merger Agreement) with Omaha Holdco Inc., a Delaware corporation (Parent), and Omaha Acquisition Inc., a Delaware corporation (Acquisition Sub), providing for the merger of Acquisition Sub with and into the Company (the Merger), with the Company surviving the Merger as a wholly owned subsidiary of Parent. Parent and Acquisition Sub are affiliates of CCMP Capital Advisors, LLC. If the Merger is completed, the Common Stock of the Company will be delisted from the NASDAQ and deregistered under the Exchange Act.

Pursuant to the Merger Agreement, if the Merger occurs each share of issued and outstanding Company common stock will be automatically canceled and converted into the right to receive \$8.00 in cash, without interest and less any applicable withholding tax (subject to appraisal rights under Delaware law). The Merger is subject to closing conditions, including approval of the Company shareholders. If the Merger occurs, there will be a change in control of the Company.
