**Table of Contents****Item 8.01. Other Events.**

The following table sets forth certain information with respect to the beneficial ownership of LPL Investment Holdings Inc. s (the Company ) common stock as of October 19, 2010 for certain selling stockholders who are participating in the offering as described in the Company s Registration Statement on Form S-1 initially filed June 4, 2010, as amended (the Registration Statement ).

For each of the selling stockholders listed below, to the extent such selling stockholder is exercising options or warrants on a cashless basis in order to participate in the offering, we have assumed a net exercise price based on the assumed initial public offering price of \$28.50 per share, which is the midpoint of the range listed on the cover page of the prospectus included in the Registration Statement. A \$1.00 increase in the assumed initial public offering price of \$28.50 per share would increase the aggregate number of shares sold by the selling stockholders listed in the Registration Statement and below by 29,230. A \$1.00 decrease in the assumed initial public offering price of \$28.50 per share would decrease the aggregate number of shares sold by the selling stockholders listed in the Registration Statement and below by 31,346.

The number of shares beneficially owned by each of the selling stockholders listed below is determined under rules issued by the Securities and Exchange Commission. Under these rules, beneficial ownership includes any shares as to which the individual or entity has sole or shared voting power or investment power. Each of the selling stockholders listed below has sole voting and investment power with respect to the shares beneficially owned by the selling stockholder, subject to community property laws where applicable.

None of the selling stockholders listed below beneficially owns more than one percent of the Company s common stock. The percentage of common stock beneficially owned by each selling stockholder is based on 94,249,754 shares of common stock outstanding as of October 19, 2010. Shares of common stock that may be acquired within 60 days following October 19, 2010 pursuant to the exercise of options or warrants are deemed to be outstanding for the purpose of computing the percentage ownership of such holder but are not deemed to be outstanding for computing the percentage ownership of any other person shown in the table.
