---	--------	-------	-------	-------	-------

### 3. Reasons for Revision of Forecasts

Both net sales and profits are expected to exceed the forecasts announced on October 27, 2010, supported by the recovery of the demand for power tools mainly in overseas markets and the resulting increase in the operating rate of our production sites.

The above forecasts are based on the assumption of exchange rates of 83 yen to the U.S. dollar and 110 yen to the euro for the three months period ending March 31, 2011.

#### FORWARD-LOOKING STATEMENTS

This document contains forward-looking statements based on Makita's own projections and estimates. The power tools market, where Makita is mainly active, is subject to the effects of rapid shifts in economic conditions, demand for housing, currency exchange rates, changes in competitiveness, and other factors.

Due to the risks and uncertainties involved, actual results could differ substantially from the content of these statements. Therefore, these statements should not be interpreted as representation that such objectives will be achieved.
