**Item 7.01. Regulation FD Disclosure.**

We are filing this Current Report on Form 8-K in connection with the disclosure of textual information from a slide show presentation given at the Sidoti & Company LLC 15<sup>th</sup> Annual New York Emerging Growth Institutional Investor Forum on March 22, 2011. A copy of this slide show presentation is being furnished as Exhibit 99.1 to this Current Report on Form 8-K.

During the presentation, the management team commented on the expected impact of the current crisis in Japan. Management indicated that they do not anticipate a significant impact to their ability to supply customers with printed circuit boards (PCBs) with the possible exception of an extremely limited set of boards utilizing certain specialized high end laminates. However, the management team commented that they do not have visibility into their customers ability to acquire components needed for their products.

The information in this Current Report (including the exhibit) is furnished pursuant to Item 7.01 and shall not be deemed to be filed for the purpose of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that section. This Current Report will not be deemed an admission as to the materiality of any information in this Current Report that is required to be disclosed solely by Regulation FD.

We do not have, and expressly disclaim, any obligation to release publicly any updates or any changes in our expectations or any change in events, conditions, or circumstances on which any forward-looking statement is based.

The information included with this Current Report (including the exhibit) will be available at our website located at [www.ttmtech.com](http://www.ttmtech.com), although we reserve the right to discontinue that availability at any time.

The information in this Report includes references to EBITDA. EBITDA means earnings before interest expense, income taxes, depreciation and amortization. We present EBITDA to enhance the understanding of our operating results. EBITDA is a key measure we use to evaluate our operations. In addition, we provide our EBITDA because we believe that investors and securities analysts will find EBITDA to be a useful measure for evaluating our operating performance and comparing our operating performance with that of similar companies that have different capital structures and for evaluating our ability to meet our future debt service, capital expenditures and working capital requirements. However, EBITDA should not be considered as an alternative to cash flows from operating activities as a measure of liquidity or as an alternative to net income as a measure of operating results in accordance with accounting principles generally accepted in the United States.
