**PROXY STATEMENT
Annual Meeting of Stockholders To Be Held October 6, 2011**

GENERAL INFORMATION

This Proxy Statement is furnished to stockholders of Ocean Power Technologies, Inc., a Delaware corporation (the Company), in connection with the solicitation by our Board of Directors of proxies for use at our Annual Meeting of Stockholders (the Meeting). The Meeting is scheduled to be held on Thursday, October 6, 2011, at 9:00 a.m., Eastern Daylight Time, at our offices located at 1590 Reed Road, Pennington, NJ. We anticipate that this Proxy Statement and the enclosed form of proxy will be mailed to stockholders on or about August 26, 2011.

At the Meeting, stockholders will be asked to vote upon: (1) the election of six directors; (2) the ratification of the selection of our independent registered public accounting firm for fiscal 2012; (3) the nonbinding advisory vote on executive officer compensation; (4) the nonbinding advisory vote on the frequency of future advisory votes on executive officer compensation and (5) such other business as may properly come before the Meeting and at any adjournments thereof.

Voting Rights and Votes Required

The close of business on August 19, 2011 has been fixed as the record date for the determination of stockholders entitled to receive notice of and to vote at the Meeting. As of the close of business on such date, we had outstanding and entitled to vote 10,394,721 shares of common stock, par value \$0.001 per share (the Common Stock). Because stockholders often cannot attend the meeting in person, a large number of shares is usually represented by proxy. You may vote your shares by completing the proxy card and mailing it in the envelope provided. Stockholders who hold shares in street name should refer to their proxy card or the information forwarded by their bank, broker or other holder of record for instructions on the voting options available to them.

A majority of the shares of Common Stock entitled to vote at the Meeting must be represented in person or by proxy at the Meeting in order to constitute a quorum for the transaction of business. The record holder of each share of Common Stock entitled to vote at the Meeting will have one vote for each share so held. Abstentions and broker nonvotes will count for quorum purposes.

Directors are elected by a plurality of the votes cast. Stockholders may not cumulate their votes. The six candidates receiving the highest number of votes will be elected. If the shares you own are held in street name by a bank or brokerage firm, that bank or brokerage firm, as the record holder of your shares, is required to vote your shares according to your instructions. **If you do not instruct your bank or broker how to vote with respect to this item, your bank or broker may not vote with respect to this proposal.** In tabulating the votes, votes withheld in connection with the election of one or more nominees and broker nonvotes will be disregarded and will have no effect on the outcome of the vote.

The proposal to ratify the selection of our independent registered public accounting firm requires the affirmative vote of a majority of the votes cast for approval. Abstentions will be disregarded and will have no effect on the outcome. Broker non-votes will not occur in connection with this proposal. The proposal to approve the compensation of our Executive Officers by a nonbinding advisory vote requires the affirmative vote of a majority of the votes cast for approval. The proposal on the frequency of future nonbinding advisory votes to approve the compensation of our

Executive Officers receiving the greatest number of votes (every one, two or three years) will be considered the frequency recommended by stockholders. Abstentions and broker nonvotes will be disregarded and will have no effect on the outcome of either of these proposals.

Voting of Proxies

If the accompanying proxy is properly executed and returned, the shares represented by the proxy will be voted at the Meeting as specified in the proxy. If no instructions are specified, the shares represented by any properly executed proxy will be voted **FOR** the election of the nominees listed below under Election of Directors, the ratification of the selection of our independent registered public accounting firm and the approval of the compensation of our Executive Officers by a nonbinding advisory vote and for **ONE YEAR** as the frequency of future nonbinding votes to approve the compensation of our Executive Officers.

Revocation of Proxies

Any proxy given pursuant to this solicitation may be revoked by a stockholder at any time before it is exercised by: (i) providing written notice to our Secretary, (ii) delivery to us of a properly executed proxy bearing a later date, or (iii) voting in person at the Meeting.

Solicitation of Proxies

We will bear the cost of this solicitation, including amounts paid to banks, brokers, and other record owners to reimburse them for their expenses in forwarding solicitation materials regarding the Meeting to beneficial owners of Common Stock. The solicitation will be by mail, with the materials being forwarded to stockholders of record and certain other beneficial owners of Common Stock, and by our officers and other regular employees (at no additional compensation). Such officers and employees may also solicit proxies from stockholders by personal contact, by telephone, or by other means if necessary in order to assure sufficient representation at the Meeting.

Computershare Investor Services has been retained to receive and tabulate proxies.

MATTERS SUBJECT TO STOCKHOLDER VOTE

1. ELECTION OF DIRECTORS

Pursuant to our by-laws, our directors serve one-year terms and are elected for a new one-year term at each annual meeting of stockholders.

The six persons listed in the table below have been designated by the Board of Directors as nominees for election as directors with terms expiring at the 2012 annual meeting. Unless a contrary direction is indicated, it is intended that proxies received will be voted for the election as directors of the six nominees, to serve for one-year terms, and in each case until their successors are elected and qualified. Each of the nominees has consented to being named in this Proxy Statement and to serve as a director if elected. In the event any nominee for director declines or is unable to serve, the proxies may be voted for a substitute nominee selected by the Board of Directors.

Corporate Governance

Our Board of Directors believes that good corporate governance is important to ensure that Ocean Power Technologies, Inc. is managed for the long-term benefit of our stockholders. This section describes key corporate governance guidelines and practices that our Board has adopted. Complete copies of our corporate governance guidelines, committee charters and code of business conduct and ethics are available on the corporate governance section of our website, www.oceanpowertechnologies.com. Alternatively, you can request a copy of any of these documents by writing to our Secretary at 1590 Reed Road, Pennington, NJ 08534.

Table of Contents

Corporate Governance Guidelines

Our Board has adopted corporate governance guidelines to assist in the exercise of its duties and responsibilities and to serve the best interests of Ocean Power Technologies, Inc. and our stockholders. These guidelines, which provide a framework for the conduct of the Board's business, provide that:

the Board's principal responsibility is to oversee the management of Ocean Power Technologies, Inc.;

a majority of the members of the Board shall be independent directors;

the non-employee directors shall meet regularly in executive session;

directors have full and free access to management and, as necessary and appropriate, independent advisors; and

at least annually, the Board and its committees will conduct a self-evaluation to determine whether they are functioning effectively.

Board Determination of Independence

Under applicable NASDAQ rules, a director will only qualify as an independent director if, in the opinion of our Board of Directors, that person does not have a relationship which would interfere with the exercise of independent judgment in carrying out the responsibilities of a director.

Our Board has determined that none of Mr. Chatigny, Mr. Lozier, Mr. Meaney or Mr. Preston has a relationship that would interfere, or has interfered, with the exercise of independent judgment in carrying out the responsibilities of a director and that each of these directors is an independent director as defined under Rule 5605(a)(2) of the NASDAQ Marketplace Rules. In addition, the Board has determined that each of Mr. Davis and Mr. Peacock, who are nominees for election at the Meeting, would be an independent director under those Rules.

In determining the independence of the directors listed above, our Board considered each of the transactions discussed in Certain Relationships and Related Person Transactions and, in the case of Mr. Meaney, a consulting agreement for marketing services that was entered into prior to Mr. Meaney joining the Board. See Board Committees Audit Committee below for a discussion of this consulting agreement.

Meetings of the Board of Directors

The Board of Directors held four meetings during fiscal 2011. During fiscal 2011, each director attended at least 75% of the aggregate of the total number of meetings of (a) the Board of Directors and (b) the committees on which the director served.

Our corporate governance guidelines provide that directors are expected to attend the annual meeting of stockholders. All directors attended the 2010 annual meeting of stockholders.

Board Leadership Structure

The Board of Directors is led by the executive chairman, who is also an executive officer of the Company. The Company's chief executive officer is also a member of the Board of Directors. The Board of Directors has also established the position of vice chairman and lead independent director. The Board of Directors believes that this leadership structure is appropriate for the Company at this time because this structure not only separates the leadership

of the Board of Directors from the duties of day-to-day leadership of the Company, but it also provides a balanced approach to managing the Board of Directors and overseeing the Company. In particular, the current leadership structure permits the chief executive officer to focus his full-time attention on the Company's business, the supervision of which has become increasingly important as the Company has grown. Similarly, this leadership structure permits the executive chairman to direct his attention to strategic planning, business development and the Board of Directors oversight responsibilities. The executive chairman and chief executive officer consult periodically with the vice chairman and lead independent director on matters facing the Board of Directors and the Company. In addition, the vice chairman and

Table of Contents

lead independent director serves as the principal liaison between the executive chairman and the independent directors and presides at executive sessions of non-management directors at meetings and at the annual meeting of stockholders. The Board of Directors recognizes that, depending on the circumstances, other leadership structures might be appropriate. Accordingly, the Board of Directors periodically reviews its leadership structure.

Board Committees

Our Board of Directors has established three standing committees: an Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee. Each committee operates under a charter that has been approved by the Board.

The charters of all Board committees are available on our website at www.oceanpowertechologies.com.

Our Board has determined that all of the members of the Compensation Committee and the Nominating and Corporate Governance Committee are independent as defined under Rule 5605(a)(2) of the NASDAQ Stock Market. Our Board has also determined that all Audit Committee members meet the independence requirements contemplated by Rule 5605(c) of the NASDAQ Stock Market and Rule 10A-3 under the Securities Exchange Act of 1934, as amended (the Exchange Act).

and Analysis in our annual report or proxy statement; and preparing the Compensation Committee report required by SEC rules. The Compensation Committee met four times in fiscal 2011.

The Compensation Committee has the authority to retain compensation consultants and other outside advisors to assist in the evaluation of executive officer compensation. To date, the Compensation Committee has utilized independent salary surveys in lieu of retaining such advisors or consultants.

The processes and procedures followed by our Compensation Committee in considering and determining executive compensation are described below in the Compensation Discussion and Analysis section of this Proxy Statement.

Nominating and Corporate Governance Committee. The members of our Nominating and Corporate Governance Committee are Thomas J. Meaney and Paul F. Lozier. Thomas J. Meaney is the chair of the committee. The Nominating and Corporate Governance Committee met one time in fiscal 2011.

Risk Oversight

The Board of Directors has an active role, as a whole and also at the committee level, in overseeing management of the Company's risks. The Board of Directors regularly reviews information regarding the Company's financial position and operations, as well as the risks associated with each. While the Board of Directors is ultimately responsible for risk oversight at the Company, our Board committees assist the Board of Directors in fulfilling its oversight responsibilities in certain areas of risk. The Audit Committee assists the Board of Directors in fulfilling its oversight responsibilities with respect to risk management in the areas of financial reporting, internal controls and compliance with legal and regulatory requirements. The Compensation Committee assists the Board of Directors in fulfilling its oversight responsibilities with respect to the management of risks arising from our compensation policies and programs. The Nominating and Corporate Governance Committee assists the Board of Directors in fulfilling its oversight responsibilities with respect to the management of risks associated with the Board organization, membership and structure of the Board of Directors, succession planning for our directors and executive officers, and corporate governance.

Director Nomination Process

The current nominees for election to the Board were nominated by the full Board of Directors. At the Meeting, stockholders will be asked to consider the election of David L. Davis, Thomas J. Meaney, Bruce A. Peacock, Seymour S. Preston III, Dr. George W. Taylor, and Charles F. Dunleavy. David L. Davis and Bruce A. Peacock are being nominated for election as directors for the first time. Mr. Davis and Mr. Peacock were originally proposed to the Board by our Executive Chairman, approved by our Nominating and Corporate Governance Committee, and included by the Board among its nominees.

The process followed by our Nominating and Corporate Governance Committee to identify and evaluate director candidates includes requests to Board members and others for recommendations, meetings from time to time to evaluate biographical information and background material relating to potential candidates and interviews of selected candidates by members of the Nominating and Corporate Governance Committee and the Board.

Table of Contents

In considering whether to recommend any particular candidate for inclusion in the Board's slate of recommended director nominees, our Nominating and Corporate Governance Committee applies the criteria set forth in our corporate governance guidelines. These criteria include the candidate's integrity, business acumen, knowledge of our business and industry or of other industries with comparable risks and issues, experience, diligence, potential conflicts of interest and the ability to act in the interests of all stockholders. The Nominating and Corporate Governance Committee considers the value of diversity when recommending candidates. The committee views diversity broadly to include diversity of experience, skills and viewpoint. The Nominating and Corporate Governance Committee does not assign specific weights to particular criteria and no particular criterion is a prerequisite for each prospective nominee. Our Board believes that the backgrounds and qualifications of its directors, considered as a group, should provide a composite mix of experience, knowledge and abilities that will allow it to fulfill its responsibilities.

Stockholders may recommend individuals to our Nominating and Corporate Governance Committee for consideration as potential director candidates. The Nominating and Corporate Governance Committee will evaluate stockholder-recommended candidates by following the same process and applying the same criteria as it follows for candidates submitted by others.

Stockholders may directly nominate a person for election to our Board by complying with the procedures set forth in Article I, Section 1.10 of our by-laws, and with the rules and regulations of the SEC. Under our by-laws, only persons nominated in accordance with the procedures set forth in the by-laws will be eligible to serve as directors. In order to nominate a candidate for service as a director, you must be a stockholder at the time you give the Board notice of your nomination, and you must be entitled to vote for the election of directors at the meeting at which your nominee will be considered. In accordance with our by-laws, director nominations generally must be made pursuant to notice to our Secretary delivered to or mailed and received at our principal executive offices at 1590 Reed Road, Pennington, NJ 08534, not later than the 90th day, nor earlier than the 120th day, prior to the first anniversary of the prior year's annual meeting of stockholders. Your notice must set forth (i) the name, age, business address and residence address of the nominee, (ii) the principal occupation or employment of the nominee, (iii) the class and number of shares of capital stock of Ocean Power Technologies, Inc. owned beneficially or of record by the nominee and (iv) all other information relating to the nominee that is required to be disclosed in solicitations of proxies for the election of directors in an election contest, or is otherwise required, in each case, pursuant to Section 14 of the Exchange Act and the rules and regulations promulgated thereunder. The stockholder making the nomination must include his or her name and address, a statement as to the class and amount of shares beneficially owned by the stockholder, a description of any arrangements or understandings between the stockholder and the nominee, a representation that the stockholder intends to appear in person or by proxy at the annual meeting and a representation as to whether such stockholder intends, or is part of a group that intends, to deliver a proxy statement/and or solicit proxies.

Communicating with the Independent Directors

Our Board will give appropriate attention to written communications that are submitted by stockholders, and will respond if and as appropriate. The executive chairman (if an independent director), or the lead independent director (if one is appointed), or otherwise the chairman of the Nominating and Corporate Governance Committee is primarily responsible for monitoring communications from stockholders and for providing copies or summaries to the other directors as he or she considers appropriate.

Communications are forwarded to all directors if they relate to important substantive matters and include suggestions or comments considered to be important for the directors to know. In general, communications relating to corporate governance and corporate strategy are more likely to be forwarded than communications relating to ordinary business affairs, personal grievances and matters as to which we receive repetitive or duplicative communications.

Stockholders who wish to send communications on any topic to our Board should address such communications to Board of Directors c/o Secretary, Ocean Power Technologies, Inc., 1590 Reed Road, Pennington, NJ 08534.

Section 16(a) Beneficial Ownership Reporting Compliance

Pursuant to Section 16(a) of the Exchange Act and the rules issued thereunder, our executive officers and directors are required to file with the SEC reports of ownership and changes in ownership of Common Stock. Copies of such reports are required to be furnished to us. Based solely on a review of the copies of such reports furnished to us, or written representations that no other reports were required, we believe that during fiscal 2011, all of our executive officers and directors complied with the requirements of Section 16(a), except that one Form 4 for Charles Dunleavy was filed late in connection with the reporting of shares delivered back to the Company for payment of tax liability related to shares that vested.

This responsibility is set forth in our Audit Committee charter. The Company also provided design and technical services to Mikros Systems Corp., for which the Company recorded revenue of approximately \$77,000 in fiscal 2011.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis provides a narrative describing how compensation for our named executive officers is established and should be read in conjunction with the compensation tables and related narrative descriptions set forth below.

Our Compensation Committee is responsible for overseeing the compensation of all of our executive officers. In this capacity, the Compensation Committee designs, implements, reviews and approves all compensation for our named executive officers. The goal of the Compensation Committee is to ensure that our compensation programs are aligned with our business goals and objectives and that the total compensation paid to each of our named executive officers is fair, reasonable and competitive.

Compensation Objectives and Philosophy

Our compensation programs are designed to attract and retain qualified and talented executives, motivating them to achieve our business goals and rewarding them for superior short- and long-term performance. In particular, our compensation programs are intended to reward the achievement of specified predetermined quantitative and qualitative goals and to align our executives' interests with those of our stockholders in order to attain the ultimate objective of increasing stockholder value.

Elements of Total Compensation and Relationship to Performance

Key elements of these programs include:

base salary compensation designed to reward annual achievements, with consideration given to the executive's qualifications, scope of responsibility, leadership abilities and management experience and effectiveness;

cash bonus awards designed to align executive compensation with business objectives and performance; and

Table of Contents

equity-based incentive compensation, primarily in the form of stock options and restricted stock, the value of which is dependent upon the performance of our Common Stock, and which is subject to multi-year vesting that requires continued service and/or the attainment of certain performance goals.

Determining and Setting Executive Compensation

Our management develops our compensation plans by utilizing publicly available compensation and on-line survey data for a broad selection of national and regional companies, which we believe are generally comparable to the Company in terms of public ownership, organization structure, size and stage of development, and against which we believe we may compete for executive talent. The results of these analyses are reviewed with and approved by the Compensation Committee annually. We believe that these compensation practices provide us with appropriate compensation guidelines. The Compensation Committee generally targets compensation for our executives near the median range of compensation paid to similarly situated executives in comparable companies covered by the on-line survey data. Other considerations, including market factors, the unique nature of our business and the experience level of an executive, may dictate variations to this general target.

Our business is characterized by a long product development cycle, including a lengthy engineering and product-testing period and regulatory approval and licensing. Because of this, many of the traditional benchmarking metrics, such as product sales, revenues and profits are inappropriate for our company. Instead, the specific factors the Compensation Committee considers when determining our named executive officers' compensation include:

- key product development initiatives;
- technology advancements;
- achievement of regulatory and other commercial milestones;
- establishment and maintenance of key strategic relationships;
- implementation of appropriate financing strategies; and
- financial and operating performance.

The Compensation Committee determines executive compensation after carefully reviewing corporate performance and performing a detailed evaluation of an executive's annual performance against established goals. The Compensation Committee has implemented an annual performance review program for our executives under which annual corporate and individual performance goals are determined and set forth in writing at the beginning of each fiscal year. Annual corporate goals are proposed by our senior management and require the approval of our Board of Directors. Individual goals focus on contributions that facilitate the achievement of the corporate goals and are proposed by each executive and approved by the chief executive officer. On an annual basis, the Compensation Committee, the executive chairman, and the chief executive officer discuss and agree to the executive chairman's and chief executive officer's goals, as included in the Company's business and financial plan for the following year. Annual salary changes, bonus payments and annual equity-based awards granted to our executives are at the discretion of the Compensation Committee, but are tied to the achievement of these corporate and individual performance goals.

Subsequent to the last quarter of each fiscal year, our senior management evaluates our corporate performance and each executive's individual performance, as compared to the goals for that year. Based on this evaluation, the chief executive officer recommends to the Compensation Committee any annual executive salary changes, bonus payments

or annual equity-based awards. The executive chairman's and chief executive officer's individual performance evaluations are conducted by the Compensation Committee, which also determines their compensation changes, bonus eligibility and equity-based awards. Bonuses and annual equity-based awards are granted by the Board of Directors in connection with the annual performance reviews. Any annual base salary changes for our executives are implemented at the same time.

Table of Contents

Consideration of Risk

Our compensation programs are discretionary, balanced and focused on the long term. Under this structure, the highest amount of compensation can be achieved through consistent, superior performance over sustained periods of time. This provides strong incentives to manage the company for the long term, while avoiding excessive risk taking in the short term. Our goals and objectives reflect a balanced mix of quantitative and qualitative performance measures to avoid excessive weight on a single performance measure. Likewise, the elements of compensation are balanced among current cash payments and equity awards. With limited exceptions, the Compensation Committee retains a large amount of discretion to adjust compensation for quality of performance and adherence to company values. The Compensation Committee reviews the relationship between our policies and practices, corporate strategy and the incentive compensation we provide to our named executive officers to confirm that our incentive compensation does not encourage unnecessary and excessive risks.

Components of our Executive Compensation Program

The primary elements of our executive compensation program are:

- base salary;
- annual cash bonus;
- a long-term incentive represented by stock options or restricted stock; and
- insurance and other employee benefits.

The Company does not have a specific formal or informal policy or target for allocating compensation between long-term and short-term compensation, between cash and non-cash compensation or among different forms of non-cash compensation. The Compensation Committee, considering applicable information from comparable industry groups and after reviewing information provided by management, determines, for each named executive officer, subjectively what it believes to be the appropriate level and mix of the various compensation components.

The overall level of executive compensation and the forms of compensation utilized is based on reviews of the individual's personal performance, the individual's attainment of specific, written goals for himself or herself or his or her department, and the Company's performance. Personal performance is evaluated by the chief executive officer for the named executive officers, other than himself or herself and the executive chairman, and by the Compensation Committee for the chief executive officer and executive chairman, in the areas of leadership, management skills, professional competence and creativity. The Compensation Committee considers the performance as assessed by the chief executive officer of each named executive officer other than the executive chairman and chief executive officer for these areas of personal performance. For the executive chairman, compensation is mainly tied to the business development performance of the Company, and for the chief executive officer, compensation is mainly tied to the performance of the entire company, although in each case the Compensation Committee does take into account certain elements of personal performance, as discussed below.

Our Compensation Committee includes experienced directors who serve or have served as members of the boards of other public companies. The Compensation Committee works closely with our chief executive officer, discussing with him our overall performance and his evaluation of, and compensation recommendations for, the other named executive officers. The Compensation Committee then utilizes its judgment and experience in making all compensation determinations, including appropriate base salary, bonus and equity grant determinations. The Compensation Committee's determination of compensation levels is based upon what the members of the

Compensation Committee deem appropriate, considering information such as the factors listed above.

Table of Contents

In addition to the Company's performance for the year, the Compensation Committee specifically took into consideration the following elements of individual performance for our executive chairman and chief executive officer in the determination of overall compensation levels:

For Dr. Taylor, his performance in leading Company achievements in the receipt of new orders of \$10.3 million, the execution agreements with 14 agencies and interested stakeholder groups in connection with the Company's project in Oregon and additions to the Company's patent portfolio.

For Mr. Dunleavy, his contributions to meeting the Company's goals, as well as his leadership, management achievements, contributions in advancing the Company's core technology and in building the organization, and contributions in the area of business development.

For Mr. Posner, his contributions to meeting the Company's goals, as well as his leadership and management achievements as chief financial officer in treasury, financial and tax regulatory compliance at both foreign and domestic levels.

Base Salary. Base salaries are provided to named executive officers to compensate them with a fair and competitive base level of compensation for services rendered during the year. The Compensation Committee typically determines base salary for each executive based on the executive's responsibilities, education, experience and, if applicable, the base salary level of the executive at his or her prior employment. The Compensation Committee does not benchmark overall compensation levels or any element of compensation; accordingly, it has not identified any companies that comprise a benchmark group. As there are no other publicly-held wave power companies, there is a dearth of comparable compensation information relative to our specific industry. The talent pool from which the Company now draws and in the foreseeable future will draw its named executive officers includes world-class companies in the utility, energy and technology sectors. In order to understand current compensation practices in such sectors, the Compensation Committee reviewed broad-based publicly available surveys for more general informational purposes, and also considered other factors in making compensation decisions. These other factors included the Compensation Committee's own understanding of current market practices given the scope and breadth of each named executive officer's responsibility, within the context of the Company's challenging engineering goals and market opportunity. Generally, we believe that named executive officer base salaries should be targeted near the median range of salaries that are determined to be appropriate for a specific position. The Compensation Committee believes that our executive officers receive compensation slightly below the median range of compensation paid to similarly situated executives in companies covered by the publicly-available survey data. The minimum base salary is set by our employment agreements with our named executive officers.

In 2011, certain named executive officers received increases in base salary reflecting promotions, reviews of their annual performance and the levels of base salary paid by comparable companies for similar positions. See Employment Agreements on page 21.

Bonus. The Compensation Committee has the authority to award annual bonuses to individual executives. For each executive, the Compensation Committee reviews specific performance criteria established each year and determines bonus awards based on the extent to which those criteria were achieved. The bonus criteria are not quantified performance targets, but are established in a manner intended to reward both overall corporate performance, an individual's participation in attaining such performance and the executive's performance against additional goals specific to each executive. The Compensation Committee has discretion over the amount of annual bonus awarded, if any. The annual bonus is paid in cash in an amount reviewed and approved by the Compensation Committee and ordinarily is paid in a single payment in the first quarter following the completion of the fiscal year.

Bonus amounts paid for fiscal 2011 to our named executive officers were awarded by the Compensation Committee based on Company and individual performance. In making these determinations, the Compensation Committee considered each named executive officer's performance over the preceding twelve months, as well as the overall Company performance over the same period.

Table of Contents

In determining 2011 annual cash bonuses for the named executive officers, the Compensation Committee considered the following aspects of Company performance and each named executive officer's role in achieving his personal goals:

Company performance in 2011: The Company's performance is assessed by the Compensation Committee based on a framework that includes operational objectives, financial objectives and business development objectives. The criteria that the Compensation Committee currently uses to evaluate Company performance include:

- advancement of our technology;
- production performance including buoy deployments, quality and safety;
- expansion of customer and strategic partner base;
- meeting financial performance goals;
- development and management of the employee base; and
- maintenance of worldwide regulatory compliance.

Individual performance in 2011: The Compensation Committee, in consultation with management, reviewed each executive's individual contribution to the Company's 2011 results in determining bonus payment amounts. The bonuses were subjectively determined by the Compensation Committee for the executive chairman, chief executive officer and each named executive officer while being mindful of the Company's performance discussed above.

The Compensation Committee particularly considered the following:

For Dr. Taylor, his personal leadership of the Company in connection with the Company's performance in fiscal 2011, in particular, the receipt of new orders of \$10.3 million, the execution of agreements with 14 agencies and interested stakeholder groups in connection with the Company's project in Oregon and additions to the Company's patent portfolio. As the executive chairman, Dr. Taylor had responsibility for strategy and business development for the entire company, and therefore the Compensation Committee primarily considered these aspects of the Company's performance in determining his bonus payment.

For Mr. Dunleavy, his achievements in business development, leading the preparation of several PowerBuoys for ocean deployment, including the grid connection of a PowerBuoy in Hawaii, advancing the core technology, and his personal leadership of the Company. The Compensation Committee considered his individual performance and the Company's performance in determining his bonus payment.

For Mr. Posner, his achievements in guiding the Company through Sarbanes-Oxley compliance, communications with the investor community, and oversight of multinational regulatory compliance. The Compensation Committee considered his individual performance and the Company's performance in determining his bonus payment.

The bonus amounts to be paid for fiscal 2012 will be determined by the Compensation Committee following a review of each executive's individual performance and attainment of objectives, and Company performance.

Equity Awards. We believe that long-term Company performance is best achieved through an ownership culture that encourages long-term performance by our executive officers through the use of equity-based awards. Our 2006 Stock

Incentive Plan permits the grant of stock options, stock appreciation rights, restricted stock, restricted stock units, performance shares and other stock-based awards. Our equity awards program is designed to:

reward demonstrated leadership and performance;

align executive officers' interests with those of our stockholders;

Table of Contents

retain executive officers through the term of the awards;

maintain competitive levels of compensation; and

motivate for outstanding future performance.

We compete for qualified executive personnel with many companies that have greater resources than we do. Accordingly, equity compensation is a crucial component of any competitive executive compensation package we may offer.

Our equity awards have taken the form of stock options and restricted stock. We typically grant stock options and/or restricted stock to each of our executive officers upon commencement of employment and annually in conjunction with our review of individual performance. All equity-based awards to our executive officers are approved by the Compensation Committee and, other than new hire grants, are typically granted at a regularly scheduled meeting of the Compensation Committee subsequent to the end of the fiscal year.

All stock options granted to our executives have exercise prices equal to the fair market value of our Common Stock on the date of grant, so that the recipient will earn no compensation from his or her options unless the share price increases beyond the exercise price. In addition, the service-based stock options granted typically vest in equal installments over five years, which we believe provides an incentive to our executives to add value to the Company over the long term and to remain with us.

Equity-based award levels vary among executive officers based on their positions and annual performance assessment, and draw on publicly available compensation and survey data. In addition, the Compensation Committee reviews all components of the executive's compensation to ensure that an executive's total compensation conforms to our overall philosophy and objectives.

Typically, the stock options we grant to our executives have a ten-year term and vest as to 20% of the shares on the first anniversary of the grant date and as to an additional 20% of the shares at each subsequent anniversary of the grant date until the fifth anniversary of the grant date. Vesting ceases upon termination of employment and exercise rights cease three months following termination of employment, except in the case of death or disability or for employees with greater than ten years of continuous service. Prior to the exercise of an option, the holder has no rights as a stockholder with respect to the shares subject to such option, including voting rights and the right to receive dividends or dividend equivalents.

Typically, the restricted stock we grant to our executives vests over three years starting on the first anniversary of the grant date, and in most cases, subject to the attainment of certain performance goals. Vesting may be accelerated upon a change in control event, death or disability of the recipient or circumstances described in an employment offer letter or agreement with the recipient, and 50% of all unvested restricted shares will vest immediately upon qualifying retirement of the recipient. Executives who are granted restricted stock may instead elect to receive an amount of stock options of equal value as calculated by the Black-Scholes formula, subject to the same vesting terms. Vesting ceases upon termination of employment.

The number of stock options and restricted stock granted to our named executive officers in the 2011 fiscal year, and the value of those grants determined in accordance with ASC 718, are shown on page 21 in the 2011 Grants of Plan-Based Awards Table. In making the grant determinations, the Compensation Committee considered each named executive officer's performance over the preceding year, the overall Company performance over the same period, the need to motivate the named executive officers for outstanding future performance, and the retention of the named

executive officers over future years.

The Company's performance assessed by the Compensation Committee based on a framework that includes operational objectives, financial objectives and business development objectives that are all drawn from the Company's budget. The criteria which the Compensation Committee currently uses to evaluate Company performance include:

advancement of our technology;

meeting budgeted performance;

Table of Contents

expansion of customer and strategic partner base;

development and management of the employee base; and

maintenance of worldwide regulatory compliance.

No single Company objective is determinative of the Compensation Committee's measure of the Company's performance. The Compensation Committee, in its sole discretion, reviews the total performance of the Company, including all of the Company objectives, and makes its subjective determination of the Company's performance. The Compensation Committee's determination is not dictated by a specific formula, and the achievement of any particular Company objective, whether an operational, financial or business development objective, does not automatically result in any particular level of award. Under this framework, the Company could fail to achieve one Company objective and the Compensation Committee may still determine that the Company's performance warrants a high level of award for the purposes of that annual period. Conversely, the Company could meet most of the Company objectives and the Compensation Committee may determine that the Company's performance does not warrant a high level of award. The approval of annual equity-based awards by the Compensation Committee is a completely subjective determination based on all factors deemed relevant by the Compensation Committee.

In June 2011, in connection with our annual performance reviews, we awarded stock options and restricted stock to our executive officers. These awards are not reflected in the Summary Compensation Table or 2011 Grants of Plan-Based Awards Table because the awards were made in fiscal 2012, and therefore no compensation costs for financial reporting purposes were recorded for these awards in fiscal 2011.

We do not have guidelines specifying an equity ownership requirement for our executives.

Benefits and Other Compensation. We maintain broad-based benefits that are provided to all employees, including health and dental insurance, life and disability insurance and a 401(k) plan. We are permitted to match employees' 401(k) plan contributions; in fiscal 2011 we employed a 50% match, subject to vesting and other terms and conditions. Executives are eligible to participate in all of our employee benefit plans, in each case on the same basis as other employees.

Severance and Change-in-Control Benefits. Pursuant to employment agreements we have entered into with certain of our executives and our stock plans, our executives are entitled to specified benefits in the event of the termination of their employment under specified circumstances, including termination following a change in control of our Company. We have provided more detailed information about these benefits, along with estimates of their value under various circumstances, under the caption "Potential Payments Upon Termination of Employment or Change in Control" below.

We believe providing these benefits helps us compete for executive talent. After reviewing the practices of similarly-situated companies, we believe that our severance and change-in-control benefits are generally in line with severance packages offered in our industry and geographic region.

Tax Considerations

The Internal Revenue Service, pursuant to Section 162(m) of the Code, generally disallows a tax deduction for compensation in excess of \$1.0 million paid to our chief executive officer and to each other officer (other than our chief executive officer and our chief financial officer) whose compensation is required to be reported to our stockholders pursuant to the Exchange Act by reason of being among the three most highly paid executive officers.

Certain compensation, including qualified performance-based compensation, will not be subject to the deduction limit if certain requirements are met. The Compensation Committee believes that tax deductibility is an important factor, but not the sole factor, to be considered in setting executive compensation policy. Accordingly, the Compensation Committee generally intends to take such reasonable steps as are required to avoid the loss of a tax deduction due to Section 162(m). However, the Compensation Committee may, in its judgment, authorize compensation payments that do not comply with the exemptions in Section 162(m) when it believes that such payments are appropriate to attract and retain executive talent.

The Incentive Stock Option Plan provided for the grant of incentive stock options to our employees and officers. A maximum of 337,500 shares of Common Stock were authorized for issuance under this plan.

The Incentive Stock Option Plan provides that outstanding options become fully exercisable if we undergo a fundamental transaction, as defined in the Incentive Stock Option Plan, and the successor entity does not assume the options under the Incentive Stock Option Plan or substitute equivalent options.

As of April 30, 2011, options to purchase 25,500 shares of our Common Stock at a weighted average exercise price of \$20.00 were outstanding under our Incentive Stock Option Plan, options to purchase 28,525 shares of Common Stock had been exercised and options to purchase 218,899 shares of Common Stock had been forfeited. If a merger or other reorganization event occurs, our Board of Directors may provide that all of our outstanding options are to be assumed or substituted by the successor corporation. Our Board of Directors may also provide that, in the event the succeeding corporation does not agree to assume, or substitute for, outstanding options, then all unexercised options will become exercisable in full prior to the completion of the event and that these options will

terminate immediately prior to the completion of the merger or other reorganization event if not previously exercised. Our Board of Directors may also provide for a cash out of the value of any outstanding options.

No awards may be granted under our 2006 Stock Incentive Plan after December 6, 2016, but the vesting and effectiveness of awards granted before that date may extend beyond that date. Potential Payments Upon Termination of Employment or Change in Control

The following information and table set forth the amount of payments to each of our named executive officers in the event of a termination of employment.

Assumptions and General Principles. The following assumptions and general principles apply with respect to the following table and any termination of employment of a named executive officer:

The amounts shown in the table assume that each named executive officer was terminated on April 29, 2011, the last business day of our fiscal year. Accordingly, the table reflects amounts earned as of April 29, 2011 and includes estimates of amounts that would be paid to the named executive officer upon the occurrence of a termination or change in control. The actual amounts to be paid to a named executive officer can only be

determined at the time of an actual termination or change in control.

A named executive officer may exercise any stock options that are exercisable prior to the date of termination and any payments related to these stock options are not included in the table because they are not severance payments.

Termination by Company without Cause; Termination by Executive with Good Reason. Our employment contracts with Dr. Taylor and Mr. Dunleavy provide for severance pay equal to one year of base salary payable in one lump sum within 30 days of termination, and the continuation of health care benefits for 12 months in the event that employment is terminated by the Company other than for cause or by the executive with good reason.

Our employment contract with Mr. Posner provides for severance pay based on his base salary then in effect. If the termination occurs after one year of employment, the severance payment will equal three months base salary; if the termination occurs after two years of employment, the severance payment will equal six months of base salary. The contract also provides for immediate vesting of the unvested portion of his initial option and restricted stock grant.

Table of Contents

Termination by Company with Cause; Termination by Executive without Good Reason. Under our employment contracts with the named executive officers, upon termination for cause or at the executive's election without good reason, the executive is entitled to the base salary and benefits due and owing to the executive as of the date of termination.

Change in Control. The employment agreements for Dr. Taylor, Mr. Dunleavy and Mr. Posner do not contain change of control provisions; therefore, the amounts shown for cash severance and continued healthcare benefits are the same as for termination without cause. The restricted stock agreement provides for accelerated stock option vesting upon a change in control.

Qualifying retirement. Under our restricted stock agreements with the named executive officers, upon a qualifying retirement 50% of unvested restricted shares will vest immediately. A *Qualifying Retirement* means retirement by the recipient after satisfaction of the conditions in either clause (A) or clause (B): (A) the recipient has both (1) attained the age of 55 and (2) completed at least ten years of employment with the Company; or (B) the sum of the recipient's age plus the number of years he or she has been employed by the Company equals or exceeds 75 years.

- (1) Mr. Posner joined the Company in June 2010. Had his employment terminated on April 29, 2011, he would not have been entitled to severance because the termination occurred before the first anniversary of his employment. His agreement also provides for accelerated vesting of his initial stock option and restricted share grant. No value is shown for accelerated stock option vesting since the stock price was below the exercise price on April 29, 2011.

4. ADVISORY VOTE ON THE FREQUENCY OF FUTURE VOTES ON EXECUTIVE COMPENSATION PRACTICES

In Proposal Number 3 above, we are asking stockholders to vote on an advisory resolution on executive compensation. Stockholders will be able to specify one of four choices for this proposal on the proxy card: one year, two years, three years or abstain. Stockholders are not voting to approve or disapprove the Board's recommendation. This advisory vote on the frequency of future advisory votes on executive compensation is nonbinding on the Board.

The Board understands that there are different views as to what is an appropriate frequency for advisory votes on executive compensation. Ocean Power Technologies, Inc. has sought information from several industry sources on the recommended course of action. Based on this research, the Board of Directors is recommending that stockholders vote for holding the advisory vote on executive compensation EVERY YEAR.
