Management's Discussion of Fund Performance

Economic and Market Conditions

Early in the fiscal year, in the December 2010 through March 2011 timeframe, economic indicators seemed to show that a modest recovery was under way. But in the second quarter of 2011, Europe's sovereign debt problems began to intensify, and investors worried about the potential impact on the U.S. economy and U.S. banks.

Meanwhile, unemployment remained stubbornly high, the housing market was not recovering, and Congressional wrangling over the debt ceiling led Standard & Poor's to downgrade U.S. Treasuries. The potential for a double-dip recession began to look real. Reacting to this turmoil, the S&P 500 Index² fell more than 15% in just over two weeks during late July and early August and spent the rest of the period trying to claw its way back.

Against this backdrop, Treasury and municipal interest rates began to rise in the first part of the fiscal year, as people believed an economic recovery was well underway. When economic indicators began to suggest that the U.S. economy was not as strong as first perceived and European sovereign debt problems intensified, we saw a flight to safety beginning in the second quarter. Treasury prices rose and yields fell significantly as equity markets declined. Municipal bonds rallied as well, but not to the same degree, because investors were still concerned about the perceived ability of state and local governments to address historically large fiscal deficits and balance their budgets. As the period wore on, however, several factors caused performance of municipals to improve. The massive municipal defaults predicted by high-profile market analysts did not materialize, while the budget situation for many issuers began to recover. In addition, the supply-demand equation for municipal bonds improved as the number of new issues declined dramatically from that of 2010.

With extremely low Treasury yields driven by problems in Europe and the Fed's Operation Twist (central bank's swapping its short-term holdings for longer-term Treasury bonds), municipals during the period offered significantly higher taxable-equivalent yields than Treasuries. The ratio of AAA⁶ municipal yields to Treasury yields—which historically has averaged less than 100% because municipal yields are federally tax-exempt—rose from 103.9% at the start of the period to 125.9% at period-end. The result was a pickup in municipal sales and prices as investors moved to lock in attractive municipal yields. For the one-year period as a whole, the Barclays Capital Municipal Bond Index a broad measure of U.S. municipal bond performance rose 6.53%.

Fund Performance

For the fiscal year ending November 30, 2011, the Massachusetts, Michigan, New York, and Ohio Trusts' shares at net asset value (NAV) outperformed the 8.32% return of the Barclays Capital Long (22+) Municipal Bond Index (the Index), the Funds' benchmark, while the California, New Jersey, and Pennsylvania Trusts' shares underperformed the Index at NAV.

The Funds were hedged during the period to help mitigate the potential interest-rate risk associated with the Funds' overall investment strategy. Generally speaking, the Funds' overall strategy is to invest primarily in bonds at the longer end of the maturity spectrum in order to capture their typically higher yields and greater income payments. The Funds tend to hedge to various degrees against the greater potential risk of volatility at the long end of the curve by using Treasury futures and interest-rate swaps to provide downside protection. For the 12-month period ending November 30, 2011, this hedging strategy was a drag on performance, as the ratio of municipal yields to U.S. Treasury yields of similar maturities remained relatively high and actually increased during the period. Thus, the more a Fund was hedged, the more that hedging detracted from the Fund's performance. Hedging was a detractor from performance of all Funds except the Michigan Trust, where the negative effect of hedging was less.

In contrast, leverage⁵ aided performance. The use of leverage has the effect of providing additional exposure to the municipal market. Leverage magnifies a Fund's exposure to its underlying investments in both up and down markets. During this period of strong performance by municipal bonds, leverage was a key positive contributor to all of the Funds' relative performance versus the benchmark.

An overweighting in long-maturity bonds (20 years or more), which outperformed short- and medium-maturity issues during the period, also helped performance of all Funds except the Michigan Trust.

See *Endnotes and Additional Disclosures* in this report.

Past performance is no guarantee of future results. Returns are historical and are calculated by determining the percentage change in net asset value (NAV) or market price (as applicable) with all distributions reinvested. Fund performance at market price will differ from its results at NAV due to factors such as changing perceptions about the Fund, market conditions, fluctuations in supply and demand for Fund shares, or changes in Fund distributions.

Investment return and principal value will fluctuate so that shares, when sold, may be worth more or less than their original cost. Performance less than one year is cumulative. Performance is for the stated time period only; due to market volatility, current Fund performance may be lower or higher than the quoted return. Management's Discussion of Fund Performance *continued*

Eaton Vance California Municipal Income Trust's shares at NAV had a total return of 7.99%, underperforming the 8.32% return of the Index. A key detractor was security selection in hospital bonds. Performance was helped, however, by security selection in the transportation sector and an overweighting in zero-coupon bonds.

Eaton Vance Massachusetts Municipal Income Trust's shares at NAV had a total return of 8.49%, outperforming the 8.32% return of the Index. Security selection in generally high quality general obligation bonds was positive for performance, while underweighting transportation as well as water & sewer, two sectors that did well over the period, hurt results.

Eaton Vance Michigan Municipal Income Trust's shares at NAV had a total return of 11.66%, outpacing the 8.32% return of the Index. Key drivers of performance included overweights in generally high quality local general obligation bonds, hospital bonds, and zero-coupon bonds, all of which did well during the period. Security selection in hospitals helped as well. But overweighting bonds with 10-20 year maturities, which performed well but not as strongly as longer-maturity issues, detracted from performance.

Eaton Vance New Jersey Municipal Income Trust's shares at NAV returned 5.64%, trailing the 8.32% return of the Index. An underweighting in general obligation bonds, which outpaced the overall market, held back results.

Contributors included an overweighting in zero-coupon bonds and security selection in industrial development bonds.

Eaton Vance New York Municipal Income Trust's shares at NAV returned 9.06%, outperforming the 8.32% return of the Index. An overweighting in zero-coupon bonds and in 5.50% and 5.75% coupon bonds, which performed well during the period, aided performance. Security selection in the industrial development and transportation sectors, however, detracted from results.

Eaton Vance Ohio Municipal Income Trust's shares at NAV returned 9.21%, outperforming the 8.32% return of the Index. An overweighting in generally high quality local government general obligation bonds contributed to results, while exposure to lower-quality industrial development revenue bonds and an underweighting in the strong-performing transportation sector detracted.

Eaton Vance Pennsylvania Municipal Income Trust's shares at NAV had a total return of 6.53%, underperforming the 8.32% return of the Index. Key detractors included security selection in the water & sewer and the industrial development sectors. In contrast, security selection and an overweighting in education bonds, as well as an overweighting in zero-coupon bonds, aided results.

- ¹ The views expressed in this report are those of the portfolio manager(s) and are current only through the date stated at the top of this page. These views are subject to change at any time based upon market or other conditions, and Eaton Vance and the Fund(s) disclaim any responsibility to update such views. These views may not be relied upon as investment advice and, because investment decisions are based on many factors, may not be relied upon as an indication of trading intent on behalf of any Eaton Vance fund. This commentary may contain statements that are not historical facts, referred to as forward looking statements. The Fund's actual future results may differ significantly from those stated in any forward looking statement, depending on factors such as changes in securities or financial markets or general economic conditions, the volume of sales and purchases of Fund shares, the continuation of investment advisory, administrative and service contracts, and other risks discussed from time to time in the Fund's filings with the Securities and Exchange Commission.
- ² S&P 500 Index is an unmanaged index of large-cap stocks commonly used as a measure of U.S. stock market performance. Barclays Capital Municipal Bond Index is an unmanaged index of municipal bonds traded in the U.S. Barclays Capital Long (22+) Municipal Bond Index is an unmanaged index of municipal bonds traded in the U.S. with maturities of 22 years or more. Unless otherwise stated, index returns do not reflect the effect of any applicable sales charges, commissions, expenses, taxes or leverage, as applicable. It is not possible to invest directly in an index.
- ³ Performance results reflect the effects of leverage.
- ⁴ The Distribution Rate is based on the Fund's last regular distribution per share in the period (annualized) divided by the Fund's NAV or market price at the end of the period. The Fund's distributions may be composed of tax-exempt income, ordinary income, net realized capital gains and return of capital. Taxable-equivalent performance is based on the highest federal and state income tax rates, as applicable. Lower tax rates would result in lower tax-equivalent performance. Actual tax rate(s) will vary depending on your income, exemptions and deductions. Rates do not include local taxes. The distribution declared on December 30, 2011 reflects a reduction of the monthly distribution for Massachusetts Municipal Income Trust, Michigan Municipal Income Trust and New Jersey Municipal Income Trust.
- ⁵ Fund employs RIB financing and/or APS leverage. The leverage created by RIB investments and APS provides an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater price volatility). The cost of leverage rises and falls with changes in short-term interest rates. See Floating Rate Notes Issued in Conjunction with Securities Held in the notes to the financial statements for more information about RIB financing. RIB leverage represents the amount of Floating Rate Notes outstanding at period end as a percentage of Fund net assets applicable to common shares plus APS and Floating Rate Notes. APS leverage represents the liquidation value of the Fund's APS outstanding at period end as a percentage of Fund net assets applicable to common shares plus APS and Floating Rate Notes. The Fund is required to maintain prescribed asset coverage for its APS, which could be reduced if Fund asset values decline. Floating Rate Notes in both calculations reflect the effect of RIBs purchased in secondary market transactions, if applicable.
- ⁶ Ratings are based on Moody's, S&P or Fitch, as applicable. Credit ratings are based largely on the rating agency's investment analysis at the time of rating and the rating assigned to any particular security is not necessarily a reflection of the issuer's current financial condition. The rating assigned to a security by a rating agency does not necessarily reflect its assessment of the volatility of a security's market value or of the liquidity of an investment in

the security. If securities are rated differently by the rating agencies, the higher rating is applied.

The Trust invests primarily in debt securities issued by California municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at November 30, 2011, 37.1% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 0.5% to 15.3% of total investments.

- (1) Amount is less than 0.05%
- (2) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.
- (3) Security (or a portion thereof) has been pledged as collateral for residual interest bond transactions. The aggregate value of such collateral is \$1,626,867.
- (4) Security represents the municipal bond held by a trust that issues residual interest bonds (see Note 1H).

The Trust invests primarily in debt securities issued by Massachusetts municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at November 30, 2011, 25.8% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 1.3% to 14.8% of total investments.

- (1) Security represents the municipal bond held by a trust that issues residual interest bonds (see Note 1H).
- (2) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.

The Trust invests primarily in debt securities issued by New Jersey municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at November 30, 2011, 29.8% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 2.5% to 10.2% of total investments.

- (1) Security represents the municipal bond held by a trust that issues residual interest bonds (see Note 1H).
- (2) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.
- (3) Security (or a portion thereof) has been segregated to cover payable for when-issued securities.
- (4) Security (or a portion thereof) has been pledged as collateral for residual interest bond transactions. The aggregate value of such collateral is \$463,025.
- (5) Variable rate security. The stated interest rate represents the rate in effect at November 30, 2011.
- (6) When-issued security.

The Trust invests primarily in debt securities issued by New York municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at November 30, 2011, 14.6% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 1.7% to 6.2% of total investments.

- (1) Security represents the municipal bond held by a trust that issues residual interest bonds (see Note 1H).
- (2) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.
- (3) Security (or a portion thereof) has been segregated to cover payable for when-issued securities.
- (4) When-issued security.
- (5) Security (or a portion thereof) has been pledged as collateral for residual interest bond transactions. The aggregate value of such collateral is \$773,493.

The Trust invests primarily in debt securities issued by Ohio municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at November 30, 2011, 39.1% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 2.8% to 17.7% of total investments.

- (1) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.
- (2) Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities may be sold in certain transactions (normally to qualified institutional buyers) and remain exempt from registration. At November 30, 2011, the aggregate value of these securities is \$537,011 or 1.4% of the Trust's net assets applicable to common shares.
- (3) Security is subject to a shortfall agreement which may require the Trust to pay amounts to a counterparty in the event of a significant decline in the market value of the security held by the trust that issued the residual interest bond. In case of a shortfall, the maximum potential amount of payments the Trust could ultimately be required to make under the agreement is \$1,455,000. However, such shortfall payment would be reduced by the proceeds from the sale of the security held by the trust that issued the residual interest bond.
- (4) Security has been issued as a leveraged residual interest bond with a variable interest rate. The stated interest rate represents the rate in effect at November 30, 2011.

The Trust invests primarily in debt securities issued by Pennsylvania municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at November 30, 2011, 36.3% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 3.2% to 12.5% of total investments.

- (1) Defaulted bond.
- (2) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.
- (3) Security represents the municipal bond held by a trust that issues residual interest bonds (see Note 1H).

- (1) Computed using average common shares outstanding.
- (2) Returns are historical and are calculated by determining the percentage change in net asset value or market value with all distributions reinvested.
- (3) Ratios do not reflect the effect of dividend payments to preferred shareholders.
- (4) The investment adviser was allocated a portion of the Trust's operating expenses (equal to less than 0.01% of average daily net assets for the year ended November 30, 2007). Absent this allocation, total return would be lower.
- (5) Interest and fee expense relates to the liability for floating rate notes issued in conjunction with residual interest bond transactions (see Note 1H).
- (6) Calculated by subtracting the Trust's total liabilities (not including the preferred shares) from the Trust's total assets, and dividing the result by the number of preferred shares outstanding.
- (7) Plus accumulated and unpaid dividends.

1 Significant Accounting Policies

Eaton Vance California Municipal Income Trust (California Trust), Eaton Vance Massachusetts Municipal Income Trust (Massachusetts Trust), Eaton Vance Michigan Municipal Income Trust (Michigan Trust), Eaton Vance New Jersey Municipal Income Trust (New Jersey Trust), Eaton Vance New York Municipal Income Trust (New York Trust), Eaton Vance Ohio Municipal Income Trust (Ohio Trust) and Eaton Vance Pennsylvania Municipal Income Trust (Pennsylvania Trust), (each individually referred to as the Trust, and collectively, the Trusts), are Massachusetts business trusts registered under the Investment Company Act of 1940, as amended (the 1940 Act), as non-diversified, closed-end management investment companies. Each Trust seeks to provide current income exempt from regular federal income tax and taxes in its specified state.

The following is a summary of significant accounting policies of the Trusts. The policies are in conformity with accounting principles generally accepted in the United States of America.

A Investment Valuation Debt obligations (including short-term obligations with a remaining maturity of more than sixty days) are generally valued on the basis of valuations provided by third party pricing services, as derived from such services' pricing models. Inputs to the models may include, but are not limited to, reported trades, executable bid and asked prices, broker/dealer quotations, prices or yields of securities with similar characteristics, benchmark curves or information pertaining to the issuer, as well as industry and economic events. The pricing services may use a matrix approach, which considers information regarding securities with similar characteristics to determine the valuation for a security. Short-term obligations purchased with a remaining maturity of sixty days or less are generally valued at amortized cost, which approximates market value. Financial futures contracts are valued at the closing settlement price established by the board of trade or exchange on which they are traded. Interest rate swaps are normally valued using valuations provided by a third party pricing service. Such pricing service valuations are based on the present value of fixed and projected floating rate cash flows over the term of the swap contract. Future cash flows are discounted to their present value using swap rates provided by electronic data services or by broker/dealers. Investments for which valuations or market quotations are not readily available or are deemed unreliable are valued at fair value using methods determined in good faith by or at the direction of the Trustees of a Trust in a manner that fairly reflects the security's value, or the amount that the Trust might reasonably expect to receive for the security upon its current sale in the ordinary course. Each such determination is based on a consideration of relevant factors, which are likely to vary from one pricing context to another. These factors may include, but are not limited to, the type of security, the existence of any contractual restrictions on the security's disposition, the price and extent of public trading in similar securities of the issuer or of comparable entities, quotations or relevant information obtained from broker/dealers or other market participants, information obtained from the issuer, analysts, and/or the appropriate stock exchange (for exchange-traded securities), an analysis of the entity's financial condition, and an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold.

B Investment Transactions and Related Income Investment transactions for financial statement purposes are accounted for on a trade date basis. Realized gains and losses on investments sold are determined on the basis of identified cost. Interest income is recorded on the basis of interest accrued, adjusted for amortization of premium or accretion of discount.

C Federal Taxes Each Trust's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute to shareholders each year substantially all of its taxable, if any, and tax-exempt net investment income, and all or substantially all of its net realized capital gains. Accordingly, no provision for federal income or excise tax is necessary. Each Trust intends to satisfy conditions which will enable it to designate distributions from the interest income generated by its investments in municipal obligations, which are exempt from regular federal income tax when received by each Trust, as exempt-interest dividends. The portion of such interest, if any, earned on private activity bonds issued after August 7, 1986, may be considered a tax preference item to shareholders.

At November 30, 2011, the following Trusts, for federal income tax purposes, had capital loss carryforwards which will reduce the respective Trust's taxable income arising from future net realized gains on investment transactions, if any, to the extent permitted by the Internal Revenue Code, and thus will reduce the amount of distributions to shareholders, which would otherwise be necessary to relieve the Trusts of any liability for federal income or excise tax. The amounts and expiration dates of the capital loss carryforwards are as follows:

| Expiration Date | California Trust | Massachusetts Trust | Michigan Trust | New Jersey Trust | New York Trust | Ohio Trust | Pennsylvania Trust |
|------------------------|-------------------------|----------------------------|-----------------------|-------------------------|-----------------------|-------------------|---------------------------|

Municipal Income Trusts

November 30, 2011

Notes to Financial Statements continued

As of November 30, 2011, the Trusts had no uncertain tax positions that would require financial statement recognition, de-recognition, or disclosure. Each of the Trusts' federal tax returns filed in the 3-year period ended November 30, 2011 remains subject to examination by the Internal Revenue Service.

D Expense Reduction State Street Bank and Trust Company (SSBT) serves as custodian of the Trusts. Pursuant to the respective custodian agreements, SSBT receives a fee reduced by credits, which are determined based on the average daily cash balance each Trust maintains with SSBT. All credit balances, if any, used to reduce each Trust's custodian fees are reported as a reduction of expenses in the Statements of Operations.

E Legal Fees Legal fees and other related expenses incurred as part of negotiations of the terms and requirement of capital infusions, or that are expected to result in the restructuring of, or a plan of reorganization for, an investment are recorded as realized losses. Ongoing expenditures to protect or enhance an investment are treated as operating expenses.

F Use of Estimates The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates.

G Indemnifications Under each Trust's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to each Trust. Under Massachusetts law, if certain conditions prevail, shareholders of a Massachusetts business trust (such as a Trust) could be deemed to have personal liability for the obligations of the Trust. However, each Trust's Declaration of Trust contains an express disclaimer of liability on the part of Trust shareholders and the By-laws provide that the Trust shall assume the defense on behalf of any Trust shareholders. Moreover, the By-laws also provide for indemnification out of Trust property of any shareholder held personally liable solely by reason of being or having been a shareholder for all loss or expense arising from such liability. Additionally, in the normal course of business, each Trust enters into agreements with service providers that may contain indemnification clauses. Each Trust's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against each Trust that have not yet occurred.

H Floating Rate Notes Issued in Conjunction with Securities Held The Trusts may invest in residual interest bonds, also referred to as inverse floating rate securities, whereby a Trust may sell a variable or fixed rate bond to a broker for cash. At the same time, the Trust buys a residual interest in the assets and cash flows of a Special-Purpose Vehicle (the SPV), (which is generally organized as a trust), set up by the broker. The broker deposits a bond into the SPV with the same CUSIP number as the bond sold to the broker by the Trust, and which may have been, but is not required to be, the bond purchased from the Trust (the Bond). The SPV also issues floating rate notes (Floating Rate Notes) which are sold to third-parties. The residual interest bond held by a Trust gives the Trust the right (1) to cause the holders of the Floating Rate Notes to generally tender their notes at par, and (2) to have the broker transfer the

Bond held by the SPV to the Trust, thereby terminating the SPV. Should the Trust exercise such right, it would generally pay the broker the par amount due on the Floating Rate Notes and exchange the residual interest bond for the underlying Bond. Pursuant to generally accepted accounting principles for transfers and servicing of financial assets and extinguishment of liabilities, the Trusts account for the transaction described above as a secured borrowing by including the Bond in their Portfolio of Investments and the Floating Rate Notes as a liability under the caption

Payable for floating rate notes issued in their Statement of Assets and Liabilities. The Floating Rate Notes have interest rates that generally reset weekly and their holders have the option to tender their notes to the broker for redemption at par at each reset date. Interest expense related to the Trusts liability with respect to Floating Rate Notes is recorded as incurred. The SPV may be terminated by the Trust, as noted above, or by the broker upon the occurrence of certain termination events as defined in the trust agreement, such as a downgrade in the credit quality of the underlying Bond, bankruptcy of or payment failure by the issuer of the underlying Bond, the inability to remarket Floating Rate Notes that have been tendered due to insufficient buyers in the market, or the failure by the SPV to obtain renewal of the liquidity agreement under which liquidity support is provided for the Floating Rate Notes up to one year. Structuring fees paid to the liquidity provider upon the creation of an SPV have been recorded as debt issuance costs and are being amortized as interest expense to the expected maturity of the related trust. Unamortized structuring fees related to a terminated SPV are recorded as a realized loss on extinguishment of debt. At November 30, 2011, the amounts of the Trusts Floating Rate Notes and related interest rates and collateral were as follows:

| | California Trust | Massachusetts Trust | New Jersey Trust | New York Trust | Pennsylvania Trust |
|--|-----------------------------|--------------------------------|-----------------------------|---------------------------|-------------------------------|
| Floating Rate Notes Outstanding | \$ 17,170,000 | \$ 4,885,000 | \$ 9,455,000 | \$ 20,455,000 | \$ 1,650,000 |

For the year ended November 30, 2011, the Trusts' average Floating Rate Notes outstanding and the average interest rate including fees and amortization of deferred debt issuance costs were as follows:

| | California Trust | Massachusetts Trust | New Jersey Trust | New York Trust | Ohio Trust | Pennsylvania Trust |
|---|-----------------------------|--------------------------------|-----------------------------|---------------------------|-----------------------|-------------------------------|
| Average Floating Rate Notes Outstanding | \$ 18,971,123 | \$ 4,885,000 | \$ 11,394,729 | \$ 20,502,137 | \$ 336,548 | \$ 1,803,863 |
| Average Interest Rate | 0.75% | 0.79% | 0.77% | 0.74% | 0.94% | 0.89% |

The Trusts may enter into shortfall and forbearance agreements with the broker by which a Trust agrees to reimburse the broker, in certain circumstances, for the difference between the liquidation value of the Bond held by the SPV and the liquidation value of the Floating Rate Notes, as well as any shortfalls in interest cash flows. The Trusts had no shortfalls as of November 30, 2011.

The Trusts may also purchase residual interest bonds from brokers in a secondary market transaction without first owning the underlying bond. Such transactions are not required to be treated as secured borrowings. Shortfall agreements, if any, related to residual interest bonds purchased in a secondary market transaction are disclosed in the Portfolio of Investments.

The Trusts' investment policies and restrictions expressly permit investments in residual interest bonds. Such bonds typically offer the potential for yields exceeding the yields available on fixed rate bonds with comparable credit quality and maturity. These securities tend to underperform the market for fixed rate bonds in a rising long-term interest rate environment, but tend to outperform the market for fixed rate bonds when long-term interest rates decline. The value and income of residual interest bonds are generally more volatile than that of a fixed rate bond. The Trusts' investment policies do not allow the Trusts to borrow money except as permitted by the 1940 Act. Management believes that the Trusts' restrictions on borrowing money and issuing senior securities (other than as specifically permitted) do not apply to Floating Rate Notes issued by the SPV and included as a liability in the Trusts' Statements of Assets and Liabilities. As secured indebtedness issued by an SPV, Floating Rate Notes are distinct from the borrowings and senior securities to which the Trusts' restrictions apply. Residual interest bonds held by the Trusts are securities exempt from registration under Rule 144A of the Securities Act of 1933.

I Financial Futures Contracts Upon entering into a financial futures contract, a Trust is required to deposit with the broker, either in cash or securities, an amount equal to a certain percentage of the purchase price (initial margin). Subsequent payments, known as variation margin, are made or received by the Trust each business day, depending on the daily fluctuations in the value of the underlying security, and are recorded as unrealized gains or losses by the Trust. Gains (losses) are realized upon the expiration or closing of the financial futures contracts. Should market conditions change unexpectedly, the Trust may not achieve the anticipated benefits of the financial futures contracts and may realize a loss. Futures contracts have minimal counterparty risk as they are exchange traded and the clearinghouse for the exchange is substituted as the counterparty, guaranteeing counterparty performance.

J Interest Rate Swaps Pursuant to interest rate swap agreements, a Trust makes periodic payments at a fixed interest rate and, in exchange, receives payments based on the interest rate of a benchmark industry index. Payments received or made are recorded as realized gains or losses. During the term of the outstanding swap agreement, changes in the underlying value of the swap are recorded as unrealized gains or losses. The value of the swap is determined by changes in the relationship between two rates of interest. A Trust is exposed to credit loss in the event of non-performance by the swap counterparty. Risk may also arise from movements in interest rates.

K When-Issued Securities and Delayed Delivery Transactions The Trusts may purchase or sell securities on a delayed delivery or when-issued basis. Payment and delivery may take place after the customary settlement period for that security. At the time the transaction is negotiated, the price of the security that will be delivered is fixed. The Trusts maintain security positions for these commitments such that sufficient liquid assets will be available to make payments upon settlement. Securities purchased on a delayed delivery or when-issued basis are marked-to-market daily and begin earning interest on settlement date. Losses may arise due to changes in the market value of the underlying securities or if the counterparty does not perform under the contract.

L Statement of Cash Flows The cash amount shown in the Statement of Cash Flows of a Trust is the amount included in the Trust's Statement of Assets and Liabilities and represents the cash on hand at its custodian and does not include any short-term investments.

2 Auction Preferred Shares

Each Trust issued Auction Preferred Shares (APS) on March 1, 1999 in a public offering. The underwriting discounts and other offering costs incurred in connection with the offering were recorded as a reduction of the paid-in capital of the common shares of each respective Trust. Dividends on the APS, which accrue daily, are cumulative at rates which are reset every seven days by an auction, unless a special dividend period has been set. If the APS auctions do not successfully clear, the dividend payment rate over the next period for the APS holders is set at a specified maximum applicable rate until such time as the APS auctions are successful. The maximum applicable rate on the APS is 110% (150% for taxable distributions) of the greater of the 1) AA Financial Composite Commercial Paper Rate or 2) Taxable Equivalent of the Short-Term Municipal Obligation Rate on the date of the auction.

Eaton Vance

Notes to Financial Statements continued

The APS are redeemable at the option of each Trust at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, on any dividend payment date. The APS are also subject to mandatory redemption at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, if a Trust is in default for an extended period on its asset maintenance requirements with respect to the APS. If the dividends on the APS remain unpaid in an amount equal to two full years' dividends, the holders of the APS as a class have the right to elect a majority of the Board of Trustees. In general, the holders of the APS and the common shares have equal voting rights of one vote per share, except that the holders of the APS, as a separate class, have the right to elect at least two members of the Board of Trustees. The APS have a liquidation preference of \$25,000 per share, plus accumulated and unpaid dividends. Each Trust is required to maintain certain asset coverage with respect to the APS as defined in the Trusts' By-laws and the 1940 Act. Each Trust pays an annual fee up to 0.15% of the liquidation value of the APS to broker/dealers as a service fee if the auctions are unsuccessful; otherwise, the annual fee is 0.25%.

3 Distributions to Shareholders

Each Trust intends to make monthly distributions of net investment income to common shareholders, after payment of any dividends on any outstanding APS. In addition, at least annually, each Trust intends to distribute all or substantially all of its net realized capital gains (reduced by available capital loss carryforwards from prior years, if any). Distributions to common shareholders are recorded on the ex-dividend date. Distributions to preferred shareholders are recorded daily and are payable at the end of each dividend period. The dividend rates for APS at November 30, 2011, and the amount of dividends accrued (including capital gains, if any) to APS shareholders, average APS dividend rates, and dividend rate ranges for the year then ended were as follows:

| | California Trust | Massachusetts Trust | Michigan Trust | New Jersey Trust | New York Trust | Ohio Trust | Pennsylvania Trust |
|--|-------------------------|----------------------------|-----------------------|-------------------------|-----------------------|-------------------|---------------------------|
| Dividend rate at November 30, 2011 | 0.23% | 0.21% | 0.23% | 0.23% | 0.23% | 0.20% | 0.21% |
| Dividends accrued to common shareholders | \$ 156,530 | \$ 62,477 | \$ 53,546 | \$ 104,690 | \$ 103,791 | \$ 70,672 | \$ 65,985 |
| Average APS dividend rate | 0.31% | 0.31% | 0.31% | 0.31% | 0.31% | 0.31% | 0.31% |

| | | | | | | | |
|----------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|
| End Rate | | | | | | | |
| s (%) | 0.11 - 0.69 | 0.11 - 0.69 | 0.11 - 0.50 | 0.11 - 0.69 | 0.11 - 0.69 | 0.11 - 0.69 | 0.11 - 0.69 |

Beginning February 13, 2008 and consistent with the patterns in the broader market for auction-rate securities, the Trusts' APS auctions were unsuccessful in clearing due to an imbalance of sell orders over bids to buy the APS. As a result, the dividend rates of the APS were reset to the maximum applicable rates. The table above reflects such maximum dividend rates for each Trust as of November 30, 2011.

The Trusts distinguish between distributions on a tax basis and a financial reporting basis. Accounting principles generally accepted in the United States of America require that only distributions in excess of tax basis earnings and profits be reported in the financial statements as a return of capital. Permanent differences between book and tax accounting relating to distributions are reclassified to paid-in capital. For tax purposes, distributions from short-term capital gains are considered to be from ordinary income.

The tax character of distributions declared for the years ended November 30, 2011 and November 30, 2010 was as follows:

| | Year Ended November 30, 2011 | | | | | | |
|-------------------------------------|------------------------------|---------------------|----------------|------------------|----------------|--------------|--------------------|
| | California Trust | Massachusetts Trust | Michigan Trust | New Jersey Trust | New York Trust | Ohio Trust | Pennsylvania Trust |

Notes to Financial Statements continued

During the year ended November 30, 2011, the following amounts were reclassified due to expired capital loss carryforwards and differences between book and tax accounting, primarily for accretion of market discount:

| | California Trust | Massachusetts Trust | Michigan Trust | New Jersey Trust | New York Trust | Ohio Trust | Pennsylvania Trust |
|--|-----------------------------|--------------------------------|---------------------------|-----------------------------|---------------------------|-----------------------|-------------------------------|
| Change in: | | | | | | | |
| Paid-in capital | \$ | \$ | \$ (443,883) | \$ (177,350) | \$ | \$ | \$ |
| Accumulated net realized loss | \$ 150,922 | \$ 28,148 | \$ 458,792 | \$ 234,075 | \$ 26,931 | \$ 6,504 | \$ (20,454) |
| Accumulated undistributed net investment income | \$ (150,922) | \$ (28,148) | \$ (14,909) | \$ (56,725) | \$ (26,931) | \$ (6,504) | \$ 20,454 |

These reclassifications had no effect on the net assets or net asset value per share of the Trusts.

As of November 30, 2011, the components of distributable earnings (accumulated losses) and unrealized appreciation (depreciation) on a tax basis were as follows:

| | California Trust | Massachusetts Trust | Michigan Trust | New Jersey Trust | New York Trust | Ohio Trust | Pennsylvania Trust |
|---------------------------------------|-----------------------------|--------------------------------|---------------------------|-----------------------------|---------------------------|-----------------------|-------------------------------|
| Undistributed tax-exempt income | \$ 1,204,021 | \$ 330,900 | \$ 203,127 | \$ 416,914 | \$ 941,877 | \$ 332,445 | \$ 463,278 |
| Capital loss carryforward | \$ (17,425,253) | \$ (3,464,403) | \$ (2,155,886) | \$ (8,835,603) | \$ (9,805,308) | \$ (4,140,364) | \$ (3,747,318) |
| Net unrealized appreciation | \$ 1,047,089 | \$ 1,809,488 | \$ 270,617 | \$ 2,271,347 | \$ 2,302,662 | \$ 1,262,353 | \$ 726,747 |

| | | | | | | | | | | | | | | |
|-----------------------------|----|---------|----|-------|----|-------|----|---------|----|---------|----|-------|----|-------|
| Other temporary differences | \$ | (1,571) | \$ | (234) | \$ | (659) | \$ | (1,048) | \$ | (1,273) | \$ | (125) | \$ | (248) |
|-----------------------------|----|---------|----|-------|----|-------|----|---------|----|---------|----|-------|----|-------|

The differences between components of distributable earnings (accumulated losses) on a tax basis and the amounts reflected in the Statements of Assets and Liabilities are primarily due to wash sales, accretion of market discount, futures contracts, the timing of recognizing distributions to shareholders, defaulted bond interest and residual interest bonds.

4 Investment Adviser Fee and Other Transactions with Affiliates

The investment adviser fee is earned by Eaton Vance Management (EVM) as compensation for investment advisory services rendered to each Trust. The fee is computed at an annual rate of 0.670% (0.685% prior to May 1, 2011) of each Trust's average weekly gross assets and is payable monthly. Pursuant to a fee reduction agreement between each Trust and EVM that commenced on May 1, 2010, the annual adviser fee will be reduced by 0.015% every May 1 thereafter for the next nineteen years. The fee reduction cannot be terminated without the consent of the Trustees and shareholders. Average weekly gross assets include the principal amount of any indebtedness for money borrowed, including debt securities issued by a Trust, and the amount of any outstanding APS issued by the Trust. Pursuant to a fee reduction agreement with EVM, average weekly gross assets are calculated by adding to net assets the liquidation value of a Trust's APS then outstanding and the amount payable by the Trust to floating rate note holders, such adjustment being limited to the value of the APS outstanding prior to any APS redemptions by the Trust. The administration fee is earned by EVM for administering the business affairs of each Trust and is computed at an annual rate of 0.20% of each Trust's average weekly gross assets. For the year ended November 30, 2011, the investment adviser fees and administration fees were as follows:

| | California Trust | Massachusetts Trust | Michigan Trust | New Jersey Trust | New York Trust | Ohio Trust | Pennsylvania Trust |
|------------------------|-------------------------|----------------------------|-----------------------|-------------------------|-----------------------|-------------------|---------------------------|
| Investment Adviser Fee | \$ 978,128 | \$ 391,800 | \$ 300,279 | \$ 659,732 | \$ 773,725 | \$ 405,220 | \$ 391,093 |
| Administration Fee | \$ 289,367 | \$ 115,912 | \$ 88,837 | \$ 195,158 | \$ 228,894 | \$ 119,877 | \$ 115,694 |

Except for Trustees of the Trusts who are not members of EVM's organization, officers and Trustees receive remuneration for their services to the Trusts out of the investment adviser fee. Trustees of the Trusts who are not affiliated with the investment adviser may elect to defer receipt of all or a percentage of their annual fees in accordance with the terms of the Trustees Deferred Compensation Plan. For the year ended November 30, 2011, no significant amounts have been deferred. Certain officers and Trustees of the Trusts are officers of EVM.

| Unrealized depreciation | \$ 1,047,089 | \$ 1,809,488 | \$ 270,617 | \$ 2,271,347 | \$ 2,302,662 | \$ 1,262,353 | \$ 726,747 |

8 Financial Instruments

The Trusts may trade in financial instruments with off-balance sheet risk in the normal course of their investing activities. These financial instruments may include financial futures contracts and interest rate swaps and may involve, to a varying degree, elements of risk in excess of the amounts recognized for financial statement purposes. The notional or contractual amounts of these instruments represent the investment a Trust has in particular classes of financial instruments and do not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered.

At November 30, 2011, the Trusts had sufficient cash and/or securities to cover commitments under these contracts.

Each Trust is subject to interest rate risk in the normal course of pursuing its investment objectives. Because the Trusts hold fixed-rate bonds, the value of these bonds may decrease if interest rates rise. To hedge against this risk, each Trust enters into interest rate swap contracts. The Trusts also purchase and sell U.S. Treasury futures contracts to hedge against changes in interest rates.

The fair values of open derivative instruments (not considered to be hedging instruments for accounting disclosure purposes) and whose primary underlying risk exposure is interest rate risk at November 30, 2011 were as follows:

| California Trust | Massachusetts Trust | Michigan Trust | New Jersey Trust | New York Trust | Ohio Trust | Pennsylvania Trust |

9 Fair Value Measurements

Under generally accepted accounting principles for fair value measurements, a three-tier hierarchy to prioritize the assumptions, referred to as inputs, is used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including a fund's own assumptions in determining the fair value of investments)

In cases where the inputs used to measure fair value fall in different levels of the fair value hierarchy, the level disclosed is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

At November 30, 2011, the hierarchy of inputs used in valuing the Trusts' investments and open derivative instruments, which are carried at value, were as follows:

Report of Independent Registered Public Accounting Firm

To the Trustees and Shareholders of Eaton Vance California Municipal Income Trust, Eaton Vance Massachusetts Municipal Income Trust, Eaton Vance Michigan Municipal Income Trust, Eaton Vance New Jersey Municipal Income Trust, Eaton Vance New York Municipal Income Trust, Eaton Vance Ohio Municipal Income Trust, and Eaton Vance Pennsylvania Municipal Income Trust:

We have audited the accompanying statements of assets and liabilities of Eaton Vance California Municipal Income Trust, Eaton Vance Massachusetts Municipal Income Trust, Eaton Vance Michigan Municipal Income Trust, Eaton Vance New Jersey Municipal Income Trust, Eaton Vance New York Municipal Income Trust, Eaton Vance Ohio Municipal Income Trust, and Eaton Vance Pennsylvania Municipal Income Trust (collectively the Trusts), including the portfolios of investments, as of November 30, 2011, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended, and the statements of cash flows of Eaton Vance California Municipal Income Trust, Eaton Vance New Jersey Municipal Income Trust and Eaton Vance New York Municipal Income Trust for the year then ended. These financial statements and financial highlights are the responsibility of each Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. Each Trust is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of each Trust's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of November 30, 2011, by correspondence with the custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of Eaton Vance California Municipal Income Trust, Eaton Vance Massachusetts Municipal Income Trust, Eaton Vance Michigan Municipal Income Trust, Eaton Vance New Jersey Municipal Income Trust, Eaton Vance New York Municipal Income Trust, Eaton Vance Ohio Municipal Income Trust, and Eaton Vance Pennsylvania Municipal Income Trust as of November 30 2011, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended, and the cash flows of Eaton Vance California Municipal Income Trust, Eaton Vance New Jersey Municipal Income Trust and Eaton Vance New York Municipal Income Trust

for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Federal Tax Information (Unaudited)

The Form 1099-DIV you receive in January 2012 will show the tax status of all distributions paid to your account in calendar year 2011. Shareholders are advised to consult their own tax adviser with respect to the tax consequences of their investment in the Trusts. As required by the Internal Revenue Code and/or regulations, shareholders must be notified within 60 days of the Trusts' fiscal year end regarding exempt-interest dividends.

Exempt-Interest Dividends. The Trusts designate the following percentages of dividends from net investment income as exempt-interest dividends:

Notice to Shareholders

At the August 4, 2011 Board Meeting, the Trustees approved the following defensive investing policy: During unusual market conditions, the Funds may invest up to 100% of assets in cash or cash equivalents temporarily, which may be inconsistent with a Fund's investment objective(s) and other policies.

Dividend Reinvestment Plan

Each Trust offers a dividend reinvestment plan (Plan) pursuant to which shareholders automatically have distributions reinvested in common shares (Shares) of the Trust unless they elect otherwise through their investment dealer. On the distribution payment date, if the NAV per Share is equal to or less than the market price per Share plus estimated brokerage commissions, then new Shares will be issued. The number of Shares shall be determined by the greater of the NAV per Share or 95% of the market price. Otherwise, Shares generally will be purchased on the open market by American Stock Transfer & Trust Company, the Plan agent (Agent). Distributions subject to income tax (if any) are taxable whether or not Shares are reinvested.

If your Shares are in the name of a brokerage firm, bank, or other nominee, you can ask the firm or nominee to participate in the Plan on your behalf. If the nominee does not offer the Plan, you will need to request that the Trust's transfer agent re-register your Shares in your name or you will not be able to participate.

The Agent's service fee for handling distributions will be paid by the Trust. Plan participants will be charged their pro rata share of brokerage commissions on all open-market purchases.

Plan participants may withdraw from the Plan at any time by writing to the Agent at the address noted on the following page. If you withdraw, you will receive Shares in your name for all Shares credited to your account under the Plan. If a participant elects by written notice to the Agent to sell part or all of his or her Shares and remit the proceeds, the Agent is authorized to deduct a \$5.00 fee plus brokerage commissions from the proceeds.

If you wish to participate in the Plan and your Shares are held in your own name, you may complete the form on the following page and deliver it to the Agent. Any inquiries regarding the Plan can be directed to the Agent at 1-866-439-6787.

Application for Participation in Dividend Reinvestment Plan

This form is for shareholders who hold their common shares in their own names. If your common shares are held in the name of a brokerage firm, bank, or other nominee, you should contact your nominee to see if it will participate in the Plan on your behalf. If you wish to participate in the Plan, but your brokerage firm, bank, or nominee is unable to participate on your behalf, you should request that your common shares be re-registered in your own name which will enable your participation in the Plan.

The following authorization and appointment is given with the understanding that I may terminate it at any time by terminating my participation in the Plan as provided in the terms and conditions of the Plan.

Please print exact name on account:

IMPORTANT NOTICES

Privacy. The Eaton Vance organization is committed to ensuring your financial privacy. Each of the financial institutions identified below has in effect the following policy (Privacy Policy) with respect to nonpublic personal information about its customers:

Only such information received from you, through application forms or otherwise, and information about your Eaton Vance fund transactions will be collected. This may include information such as name, address, social security number, tax status, account balances and transactions.

None of such information about you (or former customers) will be disclosed to anyone, except as permitted by law (which includes disclosure to employees necessary to service your account). In the normal course of servicing a customer's account, Eaton Vance may share information with unaffiliated third parties that perform various required services such as transfer agents, custodians and broker/dealers.

Policies and procedures (including physical, electronic and procedural safeguards) are in place that are designed to protect the confidentiality of such information.

We reserve the right to change our Privacy Policy at any time upon proper notification to you. Customers may want to review our Privacy Policy periodically for changes by accessing the link on our homepage: www.eatonvance.com.

Our pledge of privacy applies to the following entities within the Eaton Vance organization: the Eaton Vance Family of Funds, Eaton Vance Management, Eaton Vance Investment Counsel, Eaton Vance Distributors, Inc., Eaton Vance Trust Company, Eaton Vance Management's Real Estate Investment Group and Boston Management and Research. In addition, our Privacy Policy applies only to those Eaton Vance customers who are individuals and who have a direct relationship with us. If a customer's account (i.e., fund shares) is held in the name of a third-party financial advisor/broker-dealer, it is likely that only such advisor's privacy policies apply to the customer. This notice supersedes all previously issued privacy disclosures. For more information about Eaton Vance's Privacy Policy, please call 1-800-262-1122.

Delivery of Shareholder Documents. The Securities and Exchange Commission (SEC) permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called *householding* and it helps eliminate duplicate mailings to shareholders. *Eaton Vance, or your financial advisor, may household the mailing of your documents indefinitely unless you instruct Eaton Vance, or your financial advisor, otherwise.* If you would prefer that your Eaton Vance documents not be househanded, please contact Eaton Vance at 1-800-262-1122, or contact your financial advisor. Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial advisor.

Portfolio Holdings. Each Eaton Vance Fund and its underlying Portfolio(s) (if applicable) will file a schedule of portfolio holdings on Form N-Q with the SEC for the first and third quarters of each fiscal year. The Form N-Q will be available on the Eaton Vance website at www.eatonvance.com, by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC's website at www.sec.gov. Form N-Q may also be reviewed and copied at the SEC's public reference room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the public reference room).

Proxy Voting. From time to time, funds are required to vote proxies related to the securities held by the funds. The Eaton Vance Funds or their underlying Portfolios (if applicable) vote proxies according to a set of policies and procedures approved by the Funds' and Portfolios' Boards. You may obtain a description of these policies and procedures and information on how the Funds or Portfolios voted proxies relating to portfolio securities during the most recent 12-month period ended June 30, without charge, upon request, by calling 1-800-262-1122 and by accessing the SEC's website at www.sec.gov.

Additional Notice to Shareholders. A Fund may redeem or purchase its outstanding auction preferred shares (APS) in order to maintain compliance with regulatory requirements, borrowing or rating agency requirements or for other purposes as it deems appropriate or necessary. A Fund also may purchase shares of its common stock in the open market when they trade at a discount to net asset value or at other times if the Fund determines such purchases are advisable. There can be no assurance that a Fund will take such action or that such purchases would reduce the discount.

Closed-End Fund Information. The Eaton Vance closed-end funds make certain quarterly fund performance data and information about portfolio characteristics (such as top holdings and asset allocation) available on the Eaton Vance website after the end of each calendar quarter-end. Certain month-end fund performance data for the funds, including total returns, are posted to the website shortly after the end of each calendar month. Portfolio holdings for the most recent calendar quarter-end are also posted to the website approximately 30 days following the end of the quarter. This information is available at www.eatonvance.com on the fund information pages under Individual Investors' Closed-End Funds.

Item 2. Code of Ethics

The registrant has adopted a code of ethics applicable to its Principal Executive Officer, Principal Financial Officer and Principal Accounting Officer. The registrant undertakes to provide a copy of such code of ethics to any person upon request, without charge, by calling 1-800-262-1122.

Item 3. Audit Committee Financial Expert

The registrant's Board has designated William H. Park, an independent trustee, as its audit committee financial expert. Mr. Park is a certified public accountant who is a consultant and private investor. Previously, he served as the Chief Financial Officer of Aveon Group, L.P. (an investment management firm), as the Vice Chairman of Commercial Industrial Finance Corp. (specialty finance company), as President and Chief Executive Officer of Prizm Capital Management, LLC (investment management firm), as Executive Vice President and Chief Financial Officer of United Asset Management Corporation (an institutional investment management firm) and as a Senior Manager at Price Waterhouse (now PricewaterhouseCoopers) (an independent registered public accounting firm).

Item 4. Principal Accountant Fees and Services

The following table presents the aggregate fees billed to the registrant for the registrant's fiscal years ended November 30, 2010 and November 30, 2011 by the Fund's principal accountant, Deloitte & Touche LLP ("D&T"), for professional services rendered for the audit of the registrant's annual financial statements and fees billed for other services rendered by D&T during such periods.

| Fiscal Years Ended | 11/30/10 | 11/30/11 |
|-----------------------------------|-----------------|-----------------|
| Audit Fees | \$34,768 | \$35,078 |
| Audit-Related Fees ⁽¹⁾ | \$ 3,915 | \$ 3,915 |
| Tax Fees ⁽²⁾ | \$ 9,197 | \$ 9,300 |
| All Other Fees ⁽³⁾ | \$ 500 | \$ 300 |
| Total | \$48,380 | \$48,593 |

(1) Audit-related fees consist of the aggregate fees billed for assurance and related services that are reasonably related to the performance of the audit of financial statements and are not reported under the category of audit fees and specifically include fees for the performance of certain agreed-upon procedures relating to the registrant's auction preferred shares.

(2) Tax fees consist of the aggregate fees billed for professional services rendered by the principal accountant relating to tax compliance, tax advice, and tax planning and specifically include fees for tax return preparation and other related tax compliance/planning matters.

(3) All other fees consist of the aggregate fees billed for products and services provided by the principal accountant other than audit, audit-related, and tax services.

(e)(1) The registrant's audit committee has adopted policies and procedures relating to the pre-approval of services provided by the registrant's principal accountant (the "Pre-Approval Policies"). The Pre-Approval Policies establish a framework intended to assist the audit committee in the proper discharge of its pre-approval responsibilities. As a general matter, the Pre-Approval Policies (i) specify certain types of audit, audit-related, tax, and other services determined to be pre-approved by the audit committee; and (ii) delineate specific procedures governing the mechanics of the pre-approval process, including the approval and monitoring of audit and non-audit service fees. Unless a service is specifically pre-approved under the Pre-Approval Policies, it must be separately pre-approved by the audit

committee.

The Pre-Approval Policies and the types of audit and non-audit services pre-approved therein must be reviewed and ratified by the registrant's audit committee at least annually. The registrant's audit committee maintains full responsibility for the appointment, compensation, and oversight of the work of the registrant's principal accountant.

(e)(2) No services described in paragraphs (b)-(d) above were approved by the registrant's audit committee pursuant to the de minimis exception set forth in Rule 2-01(c)(7)(i)(C) of Regulation S-X.

(f) Not applicable.

(g) The following table presents (i) the aggregate non-audit fees (i.e., fees for audit-related, tax, and other services) billed to the registrant by D&T for the registrant's fiscal years ended November 30,

2010 and November 30, 2011; and (ii) the aggregate non-audit fees (i.e., fees for audit-related, tax, and other services) billed to the Eaton Vance organization by D&T for the same time periods.

| Fiscal Years Ended | 11/30/10 | 11/30/11 |
|----------------------------------|-----------------|-----------------|
| Registrant | \$ 13,612 | \$ 13,515 |
| Eaton Vance⁽¹⁾ | \$278,901 | \$287,931 |

(1) Eaton Vance Management, a subsidiary of Eaton Vance Corp., acts as the registrant's investment adviser and administrator.

(h) The registrant's audit committee has considered whether the provision by the registrant's principal accountant of non-audit services to the registrant's investment adviser and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant that were not pre-approved pursuant to Rule 2-01(c)(7)(ii) of Regulation S-X is compatible with maintaining the principal accountant's independence.

Item 5. Audit Committee of Listed Registrants

The registrant has a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities and Exchange Act of 1934, as amended. William H. Park (Chair), Scott E. Eston, Helen Frame Peters, Lynn A. Stout and Ralph F. Verni are the members of the registrant's audit committee.

Item 6. Schedule of Investments

Please see schedule of investments contained in the Report to Stockholders included under Item 1 of this Form N-CSR.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies

The Board of Trustees of the Trust has adopted a proxy voting policy and procedure (the Fund Policy), pursuant to which the Trustees have delegated proxy voting responsibility to the Fund's investment adviser and adopted the investment adviser's proxy voting policies and procedures (the Policies) which are described below. The Trustees will review the Fund's proxy voting records from time to time and will annually consider approving the Policies for the upcoming year. In the event that a conflict of interest arises between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund, the investment adviser will generally refrain from voting the proxies related to the companies giving rise to such conflict until it consults with the Board's Special Committee except as contemplated under the Fund Policy. The Board's Special Committee will instruct the investment adviser on the appropriate course of action.

The Policies are designed to promote accountability of a company's management to its shareholders and to align the interests of management with those shareholders. An independent proxy voting service (Agent), currently Institutional Shareholder Services, Inc., has been retained to assist in the voting of proxies through the provision of vote analysis, implementation and recordkeeping and disclosure services. The investment adviser will generally vote proxies through the Agent. The Agent is required to vote all proxies and/or refer them back to the investment adviser pursuant to the Policies. It is

generally the policy of the investment adviser to vote in accordance with the recommendation of the Agent. The Agent shall refer to the investment adviser proxies relating to mergers and restructurings, and the disposition of assets, termination, liquidation and mergers contained in mutual fund proxies. The investment adviser will normally vote against anti-takeover measures and other proposals designed to limit the ability of shareholders to act on possible transactions, except in the case of closed-end management investment companies. The investment adviser generally supports management on social and environmental proposals. The investment adviser may abstain from voting from time to time where it determines that the costs associated with voting a proxy outweighs the benefits derived from exercising the right to vote or the economic effect on shareholders interests or the value of the portfolio holding is indeterminable or insignificant.

In addition, the investment adviser will monitor situations that may result in a conflict of interest between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund by maintaining a list of significant existing and prospective corporate clients. The investment adviser's personnel responsible for reviewing and voting proxies on behalf of the Fund will report any proxy received or expected to be received from a company included on that list to the personnel of the investment adviser identified in the Policies. If such personnel expects to instruct the Agent to vote such proxies in a manner inconsistent with the guidelines of the Policies or the recommendation of the Agent, the personnel will consult with members of senior management of the investment adviser to determine if a material conflict of interests exists. If it is determined that a material conflict does exist, the investment adviser will seek instruction on how to vote from the Special Committee.

Information on how the Fund voted proxies relating to portfolio securities during the most recent 12 month period ended June 30 is available (1) without charge, upon request, by calling 1-800-262-1122, and (2) on the Securities and Exchange Commission's website at <http://www.sec.gov>.

Potential for Conflicts of Interest. It is possible that conflicts of interest may arise in connection with a portfolio manager's management of the Fund's investments on the one hand and investments of other accounts for which a portfolio manager is responsible on the other. For example, a portfolio manager may have conflicts of interest in allocating management time, resources and investment opportunities among the Fund and other accounts he or she advises. In addition, due to differences in the investment strategies or restrictions between the Fund and the other accounts, a portfolio manager may take action with respect to another account that differs from the action taken with respect to the Fund. In some cases, another account managed by a portfolio manager may compensate the investment adviser based on the performance of the securities held by that account. The existence of such a performance based fee may create additional conflicts of interest for a portfolio manager in the allocation of management time, resources and investment opportunities. Whenever conflicts of interest arise, a portfolio manager will endeavor to exercise his or her discretion in a manner that he or she believes is equitable to all interested persons. EVM has adopted several policies and procedures designed to address these potential conflicts including a code of ethics and policies which govern the investment adviser's trading practices, including among other things the aggregation and allocation of trades among clients, brokerage allocation, cross trades and best execution.

Compensation Structure for EVM

Compensation of EVM's portfolio managers and other investment professionals has three primary components: (1) a base salary, (2) an annual cash bonus, and (3) annual stock-based compensation consisting of options to purchase shares of EVC's nonvoting common stock and/or restricted shares of EVC's nonvoting common stock. EVM's investment professionals also receive certain retirement, insurance and other benefits that are broadly available to EVM's employees. Compensation of EVM's investment professionals is reviewed primarily on an annual basis. Cash bonuses, stock-based compensation awards, and adjustments in base salary are typically paid or put into effect at or shortly after the October 31st fiscal year end of EVC.

Method to Determine Compensation. EVM compensates its portfolio managers based primarily on the scale and complexity of their portfolio responsibilities and the total return performance of managed funds and accounts versus the benchmark(s) stated in the prospectus, as well as an appropriate peer group (as described below). In addition to rankings within peer groups of funds on the basis of absolute performance, consideration may also be given to relative risk-adjusted performance. Risk-adjusted performance measures include, but are not limited to, the Sharpe Ratio. Performance is normally based on periods ending on the September 30th preceding fiscal year end. Fund performance is normally evaluated primarily versus peer groups of funds as determined by Lipper Inc. and/or Morningstar, Inc. When a fund's peer group as determined by Lipper or Morningstar is deemed by EVM's management not to provide a fair comparison, performance may instead be evaluated primarily against a custom peer group. In evaluating the performance of a fund and its manager, primary emphasis is normally placed on three-year performance, with secondary consideration of performance over longer and shorter periods. For funds that are tax-managed or otherwise have an objective of after-tax returns, performance is measured net of taxes. For other funds, performance is evaluated on a pre-tax basis. For funds with an investment objective other than total return (such as current income), consideration will also be given to the fund's success in achieving its objective. For managers responsible for multiple funds and accounts, investment performance is evaluated on an aggregate basis, based on averages or weighted averages among managed funds and accounts. Funds and

accounts that have performance-based advisory fees are not accorded disproportionate weightings in measuring aggregate portfolio manager performance.

The compensation of portfolio managers with other job responsibilities (such as heading an investment group or providing analytical support to other portfolios) will include consideration of the scope of such responsibilities and the managers' performance in meeting them.

EVM seeks to compensate portfolio managers commensurate with their responsibilities and performance, and competitive with other firms within the investment management industry. EVM participates in investment-industry compensation surveys and utilizes survey data as a factor in determining salary, bonus and stock-based compensation levels for portfolio managers and other investment professionals. Salaries, bonuses and stock-based compensation are also influenced by the operating performance of EVM and its parent company. The overall annual cash bonus pool is based on a substantially fixed percentage of pre-bonus operating income. While the salaries of EVM's portfolio managers are comparatively fixed, cash bonuses and stock-based compensation may fluctuate significantly from year to year, based on changes in manager performance and other factors as described herein. For a high performing portfolio manager, cash bonuses and stock-based compensation may represent a substantial portion of total compensation.

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers

No such purchases this period.

Item 10. Submission of Matters to a Vote of Security Holders

No Material Changes.

Item 11. Controls and Procedures

(a) It is the conclusion of the registrant's principal executive officer and principal financial officer that the effectiveness of the registrant's current disclosure controls and procedures (such disclosure controls and procedures having been evaluated within 90 days of the date of this filing) provide reasonable assurance that the information required to be disclosed by the registrant has been recorded, processed, summarized and reported within the time period specified in the Commission's rules and forms and that the information required to be disclosed by the registrant has been accumulated and communicated to the registrant's principal executive officer and principal financial officer in order to allow timely decisions regarding required disclosure.

(b) There have been no changes in the registrant's internal controls over financial reporting during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 12. Exhibits

(a)(1) Registrant's Code of Ethics Not applicable (please see Item 2).

(a)(2)(i) Treasurer's Section 302 certification.

(a)(2)(ii) President's Section 302 certification.

(b) Combined Section 906 certification.
