Securities registered pursuant to Section 12(g) of the Act:

COMMON STOCK \$.004995 PAR VALUE

Check whether the issuer (1) filed all reports required to be filed by Section 13 or 15(g) of the Securities Exchange Act of 1934 during the past 12 months, and (2) has been subject to such filing requirements for the past 90 days.

YES [X] NO []

Check if there is no disclosure of delinquent filers in response to Item 405 of Regulations S-B contained in this form, and no disclosure will be contained, to the best of Registrant's knowledge in definitive proxy or information statements incorporated by reference in Part III of this Form 10-KSB or any amendment to this Form, 10-KSB. []

Issuer's revenues for its most recent fiscal year were \$18,051,928.

The aggregate market value of the voting stock held by non-affiliates of the Registrant as of September 30, 2002 was approximately \$1,445,894 based on quoted sales on NASDAQ on such date.

The number of shares of the Registrant's common stock outstanding as of September 30, 2002 was 1,204,912.

PART I

ITEM 1. DESCRIPTION OF BUSINESS

Overview

History of the Company. Omni U.S.A., Inc. (the "Company"), a Nevada corporation, through its wholly-owned subsidiary, Omni U.S.A., Inc., a Washington corporation ("Omni-Washington") and Omni-Washington's wholly-owned subsidiary, Omni Resources, Ltd., a Hong Kong company ("Omni Resources"), through its wholly-owned manufacturing facility, Shanghai Omni Gear Co., Ltd. ("Shanghai Omni Gear"), designs, develops, manufactures and distributes power transmissions (also known as "gearboxes" or "enclosed geardrives") for use in agricultural, industrial, "off-highway" and construction equipment. The Company, through another wholly-owned subsidiary, Butler Products Corporation, designs, develops, manufactures and distributes trailer and implement jacks and couplers, which include light and heavy-duty jacks and couplers used in a variety of trailers. The Company's products are distributed to original equipment manufacturers and distributors in North America and in several foreign countries including Argentina, Australia, Brazil, Canada, France, Mexico, New Zealand, South Africa and Thailand. The Company began procuring the manufacture of its products by Chinese manufacturers in China in 1980, and since 1986 substantially all of its geardrives have been manufactured in China; 30% of its trailer and implement products are manufactured in China and approximately 70% of its trailer and implement products are manufactured in the United States.

Omni-Washington, the Company's primary operating subsidiary, was incorporated in 1961 and in 1974, began distributing power transmissions in the U.S., and later established Omni Resources to distribute its products in certain foreign markets. In 1988, Omni-Washington acquired the outstanding minority ownership interest in Omni Resources and thereafter operated it as a wholly owned subsidiary.

Effective July 1, 1988, Ed Daniel, the sole shareholder, exchanged all of the outstanding stock of Omni-Washington for 6,650,000 shares of voting Common Stock of Triste Corporation, a Nevada corporation incorporated in 1988 ("Triste"), giving him a 42.5% interest in Triste. Triste thereafter changed its name to Omni U.S.A., Inc. ("Omni" or the "Company"). Omni's Common Stock began trading on the over-the-counter market on November 1, 1988, and since August 13, 1991, Omni's Common Stock has been listed on the NASDAQ SmallCap Market.

In December 1994, Omni Resources formed Shanghai Omni Gear, a Cooperative Joint Venture Limited Liability Company (the "Joint Venture"), with a Chinese manufacturing company that owns a multi-building manufacturing complex in Shanghai for the purpose of manufacturing planetary and industrial geardrives.

The Articles of Association of the Joint Venture provide that each joint venturer's liability for the obligations of the Joint Venture is limited to such joint venturer's investment. The Joint Venture has a thirty-year term, which can be extended for an additional ten years by consent of the joint venturers. The Joint Venture may be liquidated in the event of either party's failure to perform its obligations under the Joint Venture Agreement. Shanghai Omni Gear manufactures the Company's planetary and helical geardrive product lines. The facility is being used for assembly of planetary drives, helical geardrives and inspection of drives produced in other Chinese manufacturing facilities.

Shanghai Omni Gear was formed in accordance with the Law of the

Edgar Filing: OMNI USA INC - Form 10KSB

People's Republic of China on Cooperative Joint Ventures, and its activities are governed by all laws, decrees, rules and regulations of the People's Republic of China, including, but not limited to, labor and employment, tax, foreign exchange and insurance laws and regulations. Shanghai Omni Gear is obligated to contribute five percent of its after-tax profits per year, up to a maximum of 50% of the registered capital of the Company (or \$1,312,500) to a reserve enterprise development and welfare fund for staff and workers.

The Chinese manufacturer contributed to the Joint Venture the use of land and factory space in its manufacturing complex under a 30-year facilities lease; Omni Resources agreed to contribute an aggregate of \$2,625,000 in working capital, leasehold improvements, machinery and other assets required to establish a fully operational manufacturing facility, and, as of the date hereof, has contributed approximately \$3,270,000 to the Joint Venture. Omni Resources controls Shanghai Omni Gear, as it appoints a majority of Shanghai Omni Gear's Board of Directors and also appoints the General Manager of the Joint Venture. The Chinese manufacturer has a single representative on Shanghai Omni Gear's Board of Directors and does not participate in the profits of Shanghai Omni Gear; its only return from Shanghai Omni Gear being a rental fee from the facilities lease.

2

On October 1, 1996, the Company acquired 100% of the common stock of Butler Products Corporation ("Butler"). Consideration paid to the shareholders of Butler included \$225,000 in cash, \$500,000 in junior subordinated notes due in quarterly payments commencing in 2001 with a final payment in 2003, and 50,000 shares of Omni Common Stock. Located in Butler, Kentucky, Butler is a long-standing manufacturer of jack and trailer products typically sold to manufacturers and distributors of heavy-duty trailers.

Commencing July 1, 1997, all towing products designed, developed, manufactured and sold by the Company are marketed under the "Butler" name and associated trademarks; all power transmission products designed, developed, manufactured and sold by the Company are marketed under the "Omni Gear" name and associated trademarks.

On July 16, 1999, Butler acquired the assets of Piecemaker, Inc. ("Piecemaker"), a manufacturer of horse, agricultural and utility trailer components located in Madill, Oklahoma. Subsequent to the Piecemaker acquisition, Butler consolidated its small jack and coupler manufacturing facilities with that of Piecemaker in Madill, OK.

On June 14, 2001, the Company effected a reduction in the number of authorized shares of common stock and a corresponding one-for-three reverse stock split of its common stock at a special meeting of the Board of Directors. In addition, all holders of options or warrants to purchase future shares of the Company's common stock were reduced on an equal basis of three to one. The par value of the common stock was unchanged. The move was initiated to raise the Company's share price above the \$1.00 minimum level, which would enable Omni's stock to meet the requirements and continue to trade on the NASDAQ SmallCap Market.

Since the Company began selling power transmission products in 1974, it has achieved a number of competitive advantages including:

- (i) Strong customer relationships and a reputation for quality products at a good value;
- (ii) Recognition as the low cost producer in the industry resulting from the Company's extensive Chinese manufacturing capability

Edgar Filing: OMNI USA INC - Form 10KSB

- with Chinese contract manufacturers and with Shanghai Omni Gear;
- (iii) Substantial market penetration in the agricultural implement market with right-angle gear boxes;
 - (iv) Reputation for responsive customer service;
 - (v) Recognition for design innovation in response to customers needs; and
 - (vi) The accumulation of a substantial body of technical and industry specific knowledge.

The Company plans to build on this base of strategic advantages in its attempt to achieve growth in both sales and profits in the power transmission segment. To achieve this objective the Company has developed a growth strategy encompassing the following:

- (i) Expand market share in the planetary and industrial markets for power transmission components;
- (ii) Continued improvement in operating efficiencies in Shanghai Omni Gear;
- (iii) New product innovation and development; and
- (iv) Evaluate new business opportunities, asset acquisitions and potential sales that maximize shareholder value and benefit the Company.

Products

OMNI GEAR

Power Transmission Components. Power transmissions (also known as "enclosed geardrives" or "gearboxes") are configurations of gears enclosed in a housing or casing that transfer or transmit power from one point to another. Omni Gear currently distributes a standard product line of over 300,000 gearbox configurations. As a percentage of revenues, Omni Gear's power transmission components are its most significant product, representing 79% and 80% of the Company's revenues in fiscal years 2002 and 2001.

Although Omni Gear distributes power transmissions for numerous applications and purposes, the majority of its sales revenues are derived from sales of power transmission components manufactured for three distinct applications:

3

Agricultural equipment. Omni Gear distributes power transmissions for tractor powered implements with capacities ranging from 3 to 300 horsepower for use in agricultural equipment, including post hole diggers, which are accessories attached to tractors used to dig post holes for fencing and tree planting; rotary cutters, which are large, heavy-duty mowers for use in agriculture and highway right-of-way and recreational area maintenance; grain augers, which convey grain to the top of grain silos; and geardrives for fertilizer spreader and roto-tiller applications.

Irrigation systems. Omni Gear distributes right-angle gearboxes for vertical turbine pumps and electro-mechanical drivetrain components for mechanized irrigation. Omni Gear supplies both helical gear and worm gear primary drive units, some of which are integrated with electric motors, as well as worm gear and planetary gear final drives.

Edgar Filing: OMNI USA INC - Form 10KSB

Construction, mobile off-highway, industrial and utility equipment. Omni Gear distributes planetary drive power transmissions for use in construction, mobile off-highway (which includes a wide variety of equipment designed for use in rugged terrain, construction sites, or undeveloped areas), industrial, and utility equipment, such as four-wheel drive forklifts, skid steer loaders, telephone and power cable installation and replacement equipment, road rollers and dirt compactors. Planetary geardrives utilize more complex configurations of gears and are used in applications where transmission of high torque at low speeds is needed. Omni Gear believes that it can expand its share of the market of planetary drives, and Omni Gear's goal of increased production of these products was a primary factor in the Company's decision to establish a manufacturing facility in China.

BUTLER

Trailer and Implement Components. Butler manufactures a wide variety of jacks with capacities ranging from 1,000 lbs. to 220,000 lbs. These jacks are used to level and lift various trailers, agricultural implements and equipment for recreational, utility, construction, agricultural and trucking industries as well as for military applications. Butler's products include heavy-duty implement jacks, spring return jacks, stabilizing jacks and wheel chocks for semi-trailers, a series of high density polyethylene lubricating plates for the trucking industry and a complete line of bumper-pull and gooseneck couplers for trailers with gross weights up to 30,000 lbs. Butler's Oklahoma facility manufactures component parts for horse, livestock and utility trailers. Their products include greaseable gate and hinge sleeves, back gate handles and extensions, roller pin assemblies, spring loaded latches, butt bars and plates, hinge assemblies and roof bows. As a percentage of revenues, trailer and implement component sales represented 21% and 20% of the Company's net sales in fiscal years 2002 and 2001.

New Products. The Company continues to improve its products and expand product application. Currently, the Company is designing gearboxes to expand its agricultural, universal, bevel, irrigation, planetary, commercial turf and mobile utility geardrive product lines and Butler product lines.

Product Manufacturing

Current Manufacturing Arrangements. A majority of the Company's geardrives are assembled incorporating raw materials and components manufactured or produced in China by four manufacturers, some of whom the Company has been doing business with since 1980. The Company believes that these manufacturers can be relied upon to provide a reliable source of quality manufactured goods for the foreseeable future. The Company and certain manufacturers have from time to time memorialized their working relationships in written memoranda. In the Company's experience, business relationships in China are not established and are not governed by written agreements of contract, and the Chinese legal system is not sufficiently developed to provide for the enforcement of contracts or remedies to an aggrieved party in the event of a breach of contract. Rather, business in China is conducted primarily upon the basis of personal relationships among the parties, and commercial disputes are resolved almost entirely through negotiation. The Company believes that it has established solid working relationships with these factories, which relationships are and will continue to be critical to the Company's ability to obtain quality manufactured products on acceptable terms.

The Company owns a 35,000 square foot facility in Butler, Kentucky where all jacks from 10,000 lbs. to 220,000 lbs. capacities are manufactured. The light-duty jacks and bumper pull and gooseneck couplers are manufactured in China in accordance with Butler's quality specifications, as are certain components of its coupler line which are assembled at Butler's 20,000 sq. ft.

Edgar Filing: OMNI USA INC - Form 10KSB

leased facility in Madill, OK.

Availability of Raw Materials and Components. Product components and raw materials are currently purchased from

4

numerous suppliers in the U.S. and China, selected by the Company on the basis of available production capacity, reputation for quality, and relative costs. The Company believes that there are sufficient supplies of raw materials and components in China to meet its needs for the foreseeable future, and the Company's suppliers have generally been able to meet the Company's specifications and schedules. However, in the few instances in which resources of sufficient quality have not been available in China, the Company has generally encountered little difficulty in locating substitutes outside China and importing them for production. Based on the number of potential suppliers in China, the Company does not believe that the loss of any supplier would have a material adverse effect on the Company.

Manufacturing Capacity. At this time, the Company has the ability to expand its Shanghai Omni Gear facility to accommodate customer demand. The contract manufacturers it currently employs possess sufficient excess capacity to meet the Company's production requirements for the foreseeable future. Based on the number of potential manufacturers in China and excess capacity of manufacturers currently used, the Company does not believe that the loss of services of any single manufacturer would have a material adverse effect on the Company.

Distribution, Sales and Marketing

Distribution. The Company distributes its products primarily to original equipment manufacturers and distributors. Customers with limited requirements, and most of the Company's North American customers, typically purchase Omni Gear product from inventories. Omni Resources, including Shanghai Omni Gear, on the other hand, ships parallel shaft and planetary geardrive products, marketed under Omni Gear, directly from the factory to U.S. customers and foreign customers located primarily in Australia, Europe, South America and Japan, or to other customers that purchase entire containers or production runs of Omni Gear products. Butler distributes its products to after-market distributors, trailer OEMs and export brokers. All products are shipped from Butler's manufacturing facility in Butler, Kentucky or from Butler's facility in Madill, Oklahoma. Sales are divided between Omni Gear, Omni Resources, and Butler based on product line, location of the customer and size of the orders, with the majority of the sales to customers in the United States.

On October 3, 1994, the Company and its subsidiaries signed an exclusive ten-year distribution agreement (the "Distribution Agreement") with the Braden Winch division of PACCAR Inc. ("PACCAR"), an international manufacturer, marketer and distributor of winches and planetary geardrives located in Broken Arrow, Oklahoma. The Distribution Agreement was modified and amended on September 9, 1999. The amendment extended the Distribution Agreement to 2014. Under the terms of the Distribution Agreement, PACCAR will market and distribute throughout the world (except Japan and China) planetary drives, parts and accessories designed and manufactured by the Company. The drives and parts will be marketed by PACCAR under the "Braden" trademark and trade name owned by PACCAR. The Company retained the rights to sell its products in Japan and China, and also retained the right to market its planetary drives under its own name to certain original equipment manufacturers that it now services and to all current and potential pivot irrigation makers or after-market resellers for products designed exclusively for the irrigation market. By agreement dated April 30,

Edgar Filing: OMNI USA INC - Form 10KSB

2001, the distribution agreement was modified to allow the Company to distribute planetary drives, parts and accessories designed and manufactured by the Company in the world market. PACCAR may continue to represent the Company on an exclusive customer basis at the Company's option.

Sales. The Company's sales are influenced by a variety of seasonal, economic and climatic factors affecting its customers, many of which are difficult to predict. Since a large proportion of the Company's products are utilized in the agriculture industry, the Company's sales are lower during the fall and winter months while farming and ranching activity is slower. Drought, flooding, commodity prices, government subsidies and U.S. Agricultural Department policies that affect farmers also impact demand for the Company's products. The Company believes that the seasonality in its sales will become less pronounced as it increases its market share in the construction, off-highway and utility equipment markets.

The Company does not currently hold any government contracts, nor does it sell more than an insignificant portion of its products to any governmental agency. Accordingly, none of its contracts and subcontracts or purchase orders are subject to governmental re-negotiation or cancellation.

Marketing. The Company distributes product catalogs to prospects, as well as soliciting sales directly from new customers. From time to time, the Company has also acquired customer lists which it uses as a basis for solicitation of new customers, as well as solicited sales by manufacturer's representatives, distributors, direct marketing and trade shows. Sales to new customers are rarely an effort by a salesperson alone and Company engineers are often required to consult with prospective customers, assist in identifying, designing and developing products that fulfill a new customer's particular requirements. After a

5

sale is made, Company engineers continue to consult with the customer on product improvements and modifications. Power transmissions are usually manufactured according to a customer's specific applications and specification. Because incorporating a power transmission manufactured by a different supplier may require changes in product design or expensive retooling, customers often do not replace a current supplier's product with a standard product of another manufacturer and therefore do not frequently change suppliers of power transmissions. Accordingly, while the Company regularly solicits additional sales from new customers, a large portion of its sales are made to existing customers with minimal marketing effort.

Inventories, Firm Orders and Backlogs. The Company maintains approximately \$2,100,000 in inventory at the Houston, Texas facility, approximately \$347,000 at the Butler, Kentucky facility, approximately \$1,037,000 at the Madill, Oklahoma facility, approximately \$615,000 at the Shanghai, China facility, and approximately \$70,000 in transit. Additionally, the Company has access to inventory located in bonded warehouses and vendor facilities. The Company forecasts sales 12 months in advance, and maintains a three month rolling production schedule, which permits the Company to maintain sufficient inventories to meet projected requirements of its customers yet avoids excessive investments in inventory. Inventory levels have increased during the fourth quarter due to decreased customer demand, however the Company expects that current inventory and reduced production levels in the next fiscal year will adequately supply product to fulfill the Company's backlog of orders.

As of June 30, 2002, the Company's backlog was approximately \$9,900,000. The Company determines the amount of backlog by estimating purchases

Edgar Filing: OMNI USA INC - Form 10KSB

to be made by established customers with blanket purchase orders with the Company. Average delivery time for the Company's power transmission equipment varies depending upon the product. The Company can often fill and ship an order from inventory in twenty-four hours; orders for products that require minimal modification to an existing product can often be shipped in a few days; and custom products requiring extensive design and retooling for production can require a six month production schedule. The Company believes that virtually its entire backlog is shippable in the next fiscal year.

Competition. The power transmission market is supplied by numerous American and foreign manufacturers, ranging from conglomerates that distribute broad product lines to customers around the world, to small manufacturers that produce a limited number of products for specific applications to limited markets. Accordingly, the market for power transmissions is difficult to define. The Company identifies its competition according to power transmission and trailer and implement components.

Power Transmission Components. In sales of power transmissions for 1) rotary cutter, 2) tractor-powered implement and 3) universal geardrive product lines, Omni Gear competes with a number of U.S. and foreign companies, including Comer S.p.A. and Bondioli & Pavesi, each of which are Italian companies, and Curtis Machine, Inc., Superior Gearbox Mfg., Inc., Hub City and Durst (both divisions of Regal-Beloit Corporation), and ITG, all of which are American companies, together with geardrives which are self-produced by certain OEM's. Published statistics of the size of the market are not readily available.

In sales of the irrigation geardrive market, Omni Gear's most significant competitors in the marketplace are Durst and Ohio Gear (both divisions of Regal-Beloit Corporation), U.S. Motors (a division of Emerson Electric), and Universal Motion Components, together with irrigation geardrives which are self-produced by certain OEM's.

The Company estimates that the North American market for planetary gearboxes with torque capacities up to 120,000 lbs. that Omni Gear can currently supply is approximately \$150,000,000 in sales per year, and that this market is currently dominated by Auburn Gear, Fairfield Manufacturing and Eskridge Manufacturing, all American companies. Other companies which supply planetary geardrives in these rated torque capacities as a part of their overall planetary products include Gear Products (a division of Blount), DP Manufacturing, Tulsa Winch (a division of Dover), all American companies, and Brevini, Bosch Rexroth AG, KYB, Carraro, Regiana & Riddutori, Teijin Seiki, and Trasmital Bonfiglioli, all foreign companies. Omni Gear believes that it can increase its share in this market in the future in spite of weak demand for construction and off-highway equipment by providing quality product at reduced prices.

Trailer and Implement Components. In sales of Butler light duty product lines, Butler competes with a number of U.S. and foreign companies, including Atwood, Fulton and Hammerblow. Butler's heavy-duty product lines compete with a number of U.S. and foreign companies, including Kaiser Austin Westran, Jost, Holland/Binkley, and Sudisa.

The Company's most important competitive advantage is its competitive pricing afforded by inexpensive Chinese labor and manufacturing costs. The Company believes that it is competitive in its industry with respect to warranty and return matters, payment terms, and product quality.

Edgar Filing: OMNI USA INC - Form 10KSB

Employment. The Company currently employs approximately one hundred eighty-five persons worldwide; (i) one hundred-thirty by Shanghai Omni Gear, (ii) sixteen at the Company's Houston, Texas facility, (iii) twenty-seven at the Company's facilities in Butler, Kentucky, and (iv) thirteen at the Company's facility in Madill, OK. Twenty-one of Butler's forty employees are unionized. No other Company employees are unionized or attempting to unionize. Management believes its relations with its employees, union and non-union, are good.

Research and Development. The Company currently employs five full-time engineers who design products to meet new customer specification or applications and to make refinements in product manufacturing processes and product quality. Research and development expenses, unless otherwise specified, are reflected in the Company's financial statements as part of operating expenses.

Intangible Properties. The Company manufactures, advertises and sells its products under numerous trademarks. Omni(R), Omni USA(R), Omni Gear(R), and Butler(TM) trademarks are the primary marks under which the Company's products are sold. The Company also owns other trademarks under which gearbox products are sold such as RC-20(R), RC-30(R), RC-51(R), RC-61(R), RC-61T(R), RC-65T(R), RC-71(R), RC-81(R), RC-91(R), RC-110(R), RCD-101(R), PHD-26HD(R), PHD-50A(R), PHD-75(R), IR-15(R), IR-50(R), OFD-50(R), RC-130(TM), RC-25(TM), Irri-Torq(TM), Voyager(R), Galaxy(TM), Enforcer(TM), Enforcer II(TM), Slick Disc(TM), and Slider(R). Management believes that the Company's trademarks are well known in its markets, are valuable and that their value is increasing with the development of its business. The Company is not dependent on any one such trademark. The Company vigorously protects its trademarks against infringement. The Company has registered its trademarks in the appropriate jurisdictions.

Environmental Matters. The Company is not a party to any legal or regulatory proceedings seeking to impose liability or responsibility for any environmental damages or violations of any environmental laws or regulations, nor is it aware of any circumstances in which its activities in China or in the United States have created any basis for any environmental liability or responsibility for damages.

Government Regulation. The Company is not subject to governmental regulations other than those that typically apply to businesses importing foreign manufactured goods into the United States and other countries, such as customs laws and regulations. The Joint Venture is subject to certain Chinese laws and regulations governing labor and employment, taxation, insurance, foreign exchange, and other business matters, but the Company does not regard these laws and regulations as significantly different in form or effect as those that apply to the Company generally.

7

ITEM 2. DESCRIPTION OF PROPERTY

The Company currently leases facilities located in Houston, Texas; Madill, Oklahoma; and China, and owns a 35,000 square foot manufacturing facility in Butler, Kentucky.

The Houston facility is a combination office/warehouse facility of approximately 40,000 square feet, which the Company uses as its headquarters and as an Omni Gear assembly center, inventory warehouse, warranty repair, quality control, testing and inspection, and distribution center. The Houston facility is leased from Phenix Investment Company, a real estate investment company located in Houston, Texas under a long-term lease expiring June 2003, at a rate of \$8,500 per month.

Edgar Filing: OMNI USA INC - Form 10KSB

Butler owns a 35,000 sq. ft. manufacturing facility in Butler, Kentucky and leases a combination office/warehouse of approximately 20,000 sq. ft. in Madill, Oklahoma under a long-term lease expiring July 2004, at a rate of \$6,000 per month.

Shanghai Omni Gear leases buildings in a manufacturing complex containing approximately 130,000 square feet pursuant to a 30-year lease at a rate of approximately \$10,000 per month. The existing space is sufficient for the activities currently conducted there, however, Shanghai Omni Gear has the ability to acquire additional space in the complex if needed to expand future operations.

The Company believes that its facilities are adequate for its needs in the foreseeable future. In the event that any of the facilities became unavailable for use by the Company for any reason, the Company believes that alternative facilities are available on terms and conditions acceptable to the Company.

ITEM 3. LEGAL PROCEEDINGS

As discussed in the footnotes to the financial statements, the Company is involved in litigation with a former distributor and with a former customer. In addition, the Company, from time to time, is a party to various legal proceedings that constitute ordinary routine litigation incidental to the Company's business. In the opinion of management, all such matters are either adequately covered by insurance or are not expected to have a material adverse effect on the Company.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of the security holders of the Company during the quarter or fiscal year ended June 30, 2002.

8

PART II

ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

The Company's Common Stock trades on the NASDAQ Small-Cap Market tier of the NASDAQ Stock Market under the symbol "OUSA".

The following table sets forth in the periods indicated the range of low and high sales prices per share of the Company's Common Stock traded as reported by the NASDAQ Stock Market (amounts have been restated to account for the reverse stock split):

Quarter Ending -----	Low ---	High ----
06/30/00	3.37	5.34
09/30/00	1.87	3.56
12/31/00	1.87	3.00
03/31/01	1.50	2.81

Edgar Filing: OMNI USA INC - Form 10KSB

06/30/01	0.84	1.98
09/30/01	1.00	1.73
12/31/01	0.78	1.12
03/31/02	0.75	0.97
06/30/02	0.86	1.16

On June 7, 2002, June 19, 2002 and September 10, 2002, the Company received notification from NASDAQ that the Company's stock would be removed from the NASDAQ listing as Omni's share price had fallen below the minimum required ask price of \$1.00 per share and as the Company's Minimum Value of Publicly Held Securities had fallen below the minimum of \$1,000,000. On September 10, 2002, The Board of Directors approved a stock repurchase plan to repurchase up to 500,000 shares of Omni stock in efforts to improve its stock price in response to the notification received from NASDAQ noted above and in consideration that the Company's common stock represents an unusual value given the Company's overall business and value.

As of September 30, 2002, the closing price of the Company's Common Stock was \$1.20 per share. As of June 30, 2002, there were approximately 665 holders of record of the Company's Common Stock.

The Company has never paid cash dividends on its Common Stock. As a result of net losses in the current and prior fiscal years, the Company has a cumulative retained deficit of \$2,755,870 as of June 30, 2002; accordingly, the Company may be prohibited by legal restrictions on capital from paying cash dividends for the foreseeable future. In addition, the Company's revolving line of credit facility prohibits the payment of dividends. While any determination as to the payment of cash dividends will depend upon the Company's earnings, general financial condition, capital needs, and other factors, the Company presently intends to retain any earnings to finance working capital needs and expand its business, and therefore does not expect to pay cash dividends in the foreseeable future.

9

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Liquidity and Capital Resources

The Company's primary capital requirements are for routine working capital needs that are generally met through a combination of internally generated funds, revolving line of credit facilities and credit terms from suppliers. The Company's line of credit facilities had an outstanding balance of \$2,850,270 at June 30, 2002. The Company had working capital of \$1,632,585 as of June 30, 2002 and \$1,862,151 as of June 30, 2001; a decrease of \$229,566 during the fiscal year ended June 30, 2002. The change in working capital was due primarily to decreases in inventory in response to reduced business, the increased borrowings on the Company's line of credit facilities and increases in the current portion of long term debt in the fiscal year ended June 30, 2002.

The Company's had positive cash flow of \$162,443 which resulted in a cash balance of \$821,544 at the year ended June 30, 2002, compared to the June 30, 2001 cash balance of \$659,101. The positive cash flow was generated by a decrease in inventory levels and additional borrowings on long-term debt and lines of credit. These changes were offset by increases in accounts receivable.

Edgar Filing: OMNI USA INC - Form 10KSB

The inventory balance as of June 30, 2002 was \$4,168,526; a decrease of \$817,384 compared to the June 30, 2001 inventory of \$4,985,910. Inventories have decreased from the prior year end in response to the reduction in the Company's volume of business.

The Company's cash used in investing activities for the year ended June 30, 2002 of \$50,956 consisted entirely of capital expenditures compared to \$218,123 for the year ended June 30, 2001. The Company believes that its present facilities and planned capital expenditures are sufficient to provide adequate capacity for operations in the next fiscal year.

Net cash provided by financing activities for the year ended June 30, 2002 of \$155,782 consisted of net borrowings on the revolving line of credit of \$79,109 and net borrowings on new long-term debt of \$76,673.

The Company's current ratio was 1.23 as of June 30, 2002, which is a 2% decrease when compared to the June 30, 2001 current ratio of 1.25.

The Company believes that between its access to the line of credit facilities and its anticipated ability to generate funds internally, it has adequate capital resources to meet its working capital requirements for the next fiscal year, given its current working capital requirements, known obligations, and assuming current levels of operations. If however, operations do not remain at current levels and the Company is unable to access or renew its line of credit facilities or service its long term debt facilities, the Company will be required to reduce its operations accordingly which may have a negative impact on the Company to meet the needs of its customers, suppliers and credit providers. In addition, the Company believes that it has the ability to raise additional financing in the form of debt to fund additional capital expenditures, if required. The Company is in violation of its minimum six-month earnings requirement of \$225,000 with its domestic revolving line of credit. Preliminary results indicate that the Company has already cured the noncompliance of its debt covenants through normal results of operations in the first quarter of fiscal year 2003.

10

Results of Operations

Fiscal year ended June 30, 2002, compared to fiscal year ended June 30, 2001. The Company's business is cyclical and dependent on industrial spending levels and is impacted by the strength of the economy and other factors. The economic slowdown that began in the second quarter 2000 and became an economic recession in 2001 was the most significant factor in our reduced performance in the fiscal year ended June 30, 2002. The Company had net sales of \$18,051,928 for the year ended June 30, 2002. This represents a decrease of 15% compared to the year ended June 30, 2001 net sales of \$21,339,294. The following table indicates the Company's net sales comparison and percentage of change for the years ended June 30, 2002 and 2001:

NET SALES	YEAR ENDED 6/30/02	%	YEAR ENDED 6/30/01	%
		OF TOTAL		OF TOTAL
Power Transmission Components	\$ 14,236,785	79%	\$17,029,168	80%

Edgar Filing: OMNI USA INC - Form 10KSB

Trailer and Implement Components	3,815,143	21%	4,310,126	20%

Consolidated	\$ 18,051,928	100%	\$21,339,294	100%
=====				

The decrease was primarily due to reduced sales volumes as a result of the economic recession that has affected both operating segments.

Gross profit for the year ended June 30, 2002 decreased \$1,033,327 to \$3,331,582, compared to gross profit for the year ended June 30, 2001 of \$4,364,909. The decrease in gross profit is due primarily to the decrease in sales. Gross profit as a percentage of net sales was 18% for the year ended June 30, 2002, compared with 20% for the year ended June 30, 2001. This change in gross margin percentage is attributable to the product mix of sales for the periods and bulk purchase pricing incentives.

Selling, general and administrative expenses decreased \$676,748 to \$3,475,463 in the year ended June 30, 2002 from \$4,152,211 in the year ended June 30, 2001. Selling, general and administrative expenses as a percentage of sales were 19% and 20% for the years ended June 30, 2002 and 2001, respectively.

Income (loss) from operations for the Company decreased \$356,579 to (\$143,881) for the year ended June 30, 2002, compared to \$212,698 for the year ended June 30, 2001. This decrease is primarily the result of reduced sales volumes in the year ended June 30, 2002.

Interest expense decreased \$72,218, to \$393,010 for the year ended June 30, 2002 from \$465,228 for the year ended June 30, 2001. The decrease resulted from declining interest rates and favorable terms on new and refinanced debt.

Other income (expense) was income of \$69,009 for the year ended June 30, 2002 compared to an expense of \$44,186 for the year ended June 30, 2001. The change was mostly attributable to the VAT refund in the Shanghai manufacturing facility.

The Company's net loss increased \$228,262 to (\$460,720), or (\$0.38) per share, for the year ended June 30, 2002 compared to (\$232,458), or (\$0.19) per share, for the year ended June 30, 2001.

Cautionary Statement. This Annual Report on Form 10-KSB contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The words "believes," "anticipates," "plans," "expects," and other similar expressions are intended to identify forward-looking statements. Investors are cautioned that such forward-looking statements are based on the current expectations of management and are inherently subject to a number of risks and uncertainties that could cause the actual results of the Company to differ materially from such forward-looking statements. Forward-looking statements involve risks and uncertainties, including, but not limited to, continued acceptance of the Company's products in the marketplace, competitive factors, new products and technological changes, the Company's dependence upon third-party suppliers, political and economic circumstances in China, ability to access or renew credit facilities and service long term debt facilities and other risks detailed from time to time in the Company's periodic report filings with the Securities and Exchange Commission. Investors are directed to the Company's periodic reports filed with the Securities and Exchange Commission.

Edgar Filing: OMNI USA INC - Form 10KSB

The Company is not obligated to update or revise the aforementioned statements for those new developments.

ITEM 7. FINANCIAL STATEMENTS

OMNI U.S.A., INC. AND SUBSIDIARIES
CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2002 AND 2001

13

Harper & Pearson Company
One Riverway, Suite 1000
Houston, Texas 77056

INDEPENDENT AUDITOR'S REPORT

To the Stockholders and
Board of Directors of
Omni U.S.A., Inc. and Subsidiaries

We have audited the accompanying consolidated balance sheets of Omni U.S.A., Inc. and Subsidiaries as of June 30, 2002 and 2001, and the related consolidated statements of operations and comprehensive loss, changes in stockholders' equity and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Omni U.S.A., Inc. and Subsidiaries at June 30, 2002 and 2001, and the results of their operations and their cash flows for the years then ended, in conformity with generally accepted accounting principles in the United States.

NOTE 1 BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation - Omni U.S.A., Inc. (the Company) is incorporated in the state of Nevada. The Company's consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries Omni U.S.A., Inc. (a Washington Company), Omni Resources, Ltd. (a Hong Kong Corporation) and Butler Products Corporation (a Kentucky Corporation). The financial statements of Omni Resources, Ltd. include the activity of Shanghai Omni Gear Co., Ltd. located in Shanghai, China. All material inter-company transactions and balances have been eliminated in consolidation.

Organization and Business - The Company designs, develops, manufactures and distributes power transmission components and

Edgar Filing: OMNI USA INC - Form 10KSB

trailer and implement components, used primarily for agricultural, material handling, mobile off-highway and industrial purposes, to original equipment manufacturers and distributors worldwide. The Company's manufacturing and distribution system involves locating qualified domestic or foreign manufacturers of products, (in the case of contract manufacturing) contracting with such manufacturers, and distribution to an ultimate third party customer. The Company also self-produces products using both domestic and foreign components. Since 1986, the Company's power transmission products have been manufactured primarily in China and approximately 70% of the Company's towing products are manufactured in the United States.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition - The Company adopted The Securities and Exchange Commission Staff Accounting Bulletin (SAB) 101 in the fourth quarter of the fiscal year ended June 30, 2001 and the Company's revenue recognition policies are in compliance with SAB 101. The Company's acceptance provisions, as some products are manufactured to customer specifications, are that customers must approve engineered drawings in advance, place a firm purchase order with the Company for manufacture of the products and initially approve a representative sample prior to manufacture. Costs of shipping and handling for the Company are generally accounted for as a component of cost of sales with revenues recorded gross. The Company recognizes revenues upon shipment to the customer.

Warranties - The Company's policy for warranties is that Omni Gear's products and Butler Products' products are warranted to be free of defects in material and workmanship and to meet Omni Gear's and Butler Products' specifications at the time of sale. The Company accounts for warranties by accruing a liability for warranty provision based on the Company's historical analysis of warranty costs. To date, however, actual return rates have been very low and incremental costs associated with those returns have been historically immaterial to the Company. The Company has a policy for sales returns, whereby the customer may apply for and be granted the right to return product for warranty consideration. Once returned, the product is inspected for warranty qualification and, if granted, warranty work is performed and the product generally returned to the customer.

Concentration of Credit Risk - Financial instruments which potentially subject the Company to concentrations of credit risk consist principally of trade receivables and cash. The Company places its cash with high credit quality financial institutions. Cash in financial institutions located abroad totaled \$130,548 and \$390,645 in 2002 and 2001, respectively.

Edgar Filing: OMNI USA INC - Form 10KSB

NOTE 1

BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Trade accounts receivable consist of receivables from both domestic and foreign customers in various industries and geographic regions worldwide, with more than one half of consolidated sales being to customers in the Southern and Central United States. Generally, no collateral or other security is required to support customer receivables. An allowance for doubtful accounts is established as needed based upon factors surrounding the credit risk of specific customers, historical trends and other information.

As of June 30, 2002 one customer accounted for 19% of consolidated receivables. As of June 30, 2001 two customers accounted for 18% and 14% of consolidated receivables.

Notes receivable result from sales made with extended credit terms and are payable in monthly installments and carry interest.

The Company has inventory located in China of approximately \$615,680 and \$480,000 at June 30, 2002 and 2001, respectively.

Inventories - Inventories are stated at the lower of cost or market using the weighted average cost for inventories on hand and the specific identification method for any other inventory. The Company records inventory and any related obligation at the time title to the goods passes to the Company based on the specific terms of the transaction.

Property, Equipment, Depreciation and Amortization - Property and equipment are stated at cost. Depreciation and amortization are computed over the estimated useful lives of the assets using the straight-line method for financial reporting purposes as follows:

	Estimated useful lives (years) -----
Warehouse, manufacturing and office equipment	3 to 10
Leasehold improvements	5 to 10
Tooling costs	5 to 10

The costs of repairs and maintenance are charged to operations when incurred. Major renewals or improvements are capitalized. When properties are sold or retired, the cost and related accumulated depreciation and amortization are removed from the accounts and any resulting gain or loss is included in the results of operations.

Intangible Assets and Organizational Costs - Intangible assets consist of goodwill from the Butler Products acquisition, engineering plans, designs, trademarks and patents. Amortization is provided on a straight-line basis over five to fifteen year periods. The Company adopted SFAS No. 142 effective July 1, 2001. At June 30, 2002 and 2001, the Company had \$168,000 in intangible goodwill that will no longer be amortized under this statement. Management believes that there is no impairment to goodwill at June 30, 2002 and 2001.

NOTE 1 BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Foreign Currency Translation - There are significant operations in Mainland China; however, the functional exchange rate for those operations is the U.S. dollar. The foreign currency translation adjustment primarily arises from the translation of amounts from operations in Hong Kong and Japan in which the functional currency is that of the foreign location. Income and expense amounts are translated at the average rates of exchange for the periods. These translation adjustments are reported separately as a component of stockholders' equity. Current year changes are included in comprehensive income.

Earnings Per Share - Basic earnings per share (EPS) is computed by dividing consolidated net income available to common shareholders by the weighted-average number of common shares outstanding for the year. Diluted EPS reflects the potential dilution that could occur if dilutive securities and other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the consolidated net income of the Company. Amounts have been calculated as if the reverse split described in Note 2 had occurred at the beginning of all periods presented.

Fair Value of Financial Instruments - The fair values of financial instruments approximate their reported carrying amounts at June 30, 2002 and 2001 due to their relative short lives for current assets and liabilities and long-term liabilities are at interest rates comparable to current market rates. As of June 30, 2002 and 2001, the Company does not have any derivatives and has experienced no impact from adoption of SFAS No. 133.

New Accounting Pronouncements -

SFAS No. 143, "Accounting for Asset Retirement Obligations", addresses financial reporting for obligations associated with the retirement of long-lived assets that result from the acquisition, construction, development and (or) the normal operation of a long-lived asset (except for certain obligations of lessees) and is effective for financial statements issued for fiscal years beginning after June 15, 2002. The implementation of this standard is not anticipated to have a material impact on the financial statements of the Company.

SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", addresses financial accounting and reporting for the impairment or disposal of long-lived assets, as well as expands the qualifications of discontinued operations and is effective for financial statements issued for fiscal years beginning after December 15, 2001. The implementation of this standard does not represent a significant change from prior Generally Accepted Accounting Principles and is not anticipated to have a material impact on the financial statements of the Company.

SFAS No. 145, "Rescission of FASB Statements No. 4, 44, and 64,

Edgar Filing: OMNI USA INC - Form 10KSB

Amendment of FASB Statement No. 13, and Technical Corrections", rescinds SFAS No.'s 4, and 64 related to reporting gains and losses from debt extinguishments and also rescinds SFAS No. 44 related to accounting for intangible assets of motor carriers. It amends SFAS No. 13 to eliminate the inconsistencies between sales-lease back transactions and certain lease modifications with economic benefits that are similar to sales-lease back modifications. This Statement also amends other existing authoritative pronouncements to make various technical corrections, clarify meanings, or describe their applicability under changed conditions and is effective for fiscal years beginning after May 15, 2002. The implementation of this standard is not anticipated to have a material impact on the financial statements of the Company.

21

NOTE 1 BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Continuing operations - The Company has incurred additional losses in the current year. Management has also recorded write offs of \$214,000 in inventory in the fourth quarter. Management believes that these losses were largely due to software conversions of one of its foreign subsidiaries in the second quarter of the year that were not discovered until the fourth quarter. As further discussed in Note 7, the Company is in violation of its minimum six-month earnings requirement of \$225,000 with its domestic revolving line of credit.

The Company believes that it will still have adequate access to the line of credit facilities and its anticipated ability to generate funds internally to remain in business. Preliminary results indicate that the Company has already cured the noncompliance of its debt covenants through normal results of operations in the first quarter of fiscal year 2003. Management believes the anticipated improvement in operating results are due to some fourth quarter purchase orders not filled until after June 30, 2002 and an improved outlook for demand in a previously hesitant market.

Therefore, management believes that it will continue to have adequate capital resources to meet its working capital requirements for the next year, given its current working capital requirements, known obligations, and assuming current levels of operations. In addition, the Company believes that it has the ability to raise additional financing in the form of debt to fund additional capital expenditures, if required. If however, operations do not remain at current levels and the Company is unable to continue to access or renew its line of credit facilities and service its long term debt, the Company will be required to reduce its operations accordingly which may have a negative impact on the Company to meet the needs of its customers, suppliers and credit providers.

NOTE 2 At a special meeting on June 14, 2001, the Company's Board of Directors approved a reduction in the number of authorized shares of common stock of the Company and a corresponding three to one reverse stock split of its common stock. In addition, options or

Edgar Filing: OMNI USA INC - Form 10KSB

warrants to purchase future shares of the Company's common stock were also reduced on an equal basis of three to one. The effect of the reverse split was to reduce the Company's issued and outstanding shares from 3,623,094 shares to 1,227,079 shares. The par value of the common stock was unchanged. Accordingly, the Company has presented all equity information as if the reverse stock split had occurred effective July 1, 2000.

NOTE 3 ACCOUNTS RECEIVABLE

Accounts receivable at June 30 consisted of the following:

	2002 -----	2001 -----
Accounts receivable, trade	\$3,579,109	\$3,387,090
Allowance for doubtful accounts	(138,707)	(117,504)
	-----	-----
	\$3,440,402	\$3,269,586
	=====	=====

22

NOTE 4 INVENTORIES

Inventories at June 30 consisted of the following:

	2002 -----
Raw materials	\$ 279,384
Work in process	113,457
Finished goods	3,825,685
Reserve for obsolete inventory	(50,000)

NOTE 5 PROPERTY AND EQUIPMENT

Property and equipment at June 30 consisted of the following:

	2002 -----
Warehouse, manufacturing and office equipment	\$ 3,443,144
Land, buildings & leasehold improvements	613,252
Tooling costs	521,206

Edgar Filing: OMNI USA INC - Form 10KSB

Accumulated depreciation and amortization	4,577,602 (2,765,595)

	\$ 1,812,007
	=====

NOTE 6 OTHER ASSETS

Other assets at June 30 consisted of the following:

	2002

Intangible assets	\$ 801,640
Cash surrender value of life insurance	10,420

	\$ 812,060
Accumulated amortization	607,795

	\$ 204,265
	=====

NOTE 7 REVOLVING LINES OF CREDIT

The Company has a revolving line of credit with a financing company which provides for maximum borrowings of \$4,000,000 as determined by a formula based on trade accounts receivable and inventory. The line of credit matures June 2003, bears interest at prime plus 1%-2%, depending upon certain financial ratios, requires the maintenance of certain levels of income and tangible net worth and is secured by essentially all of the U.S. assets of the Company. As of June 30, 2002, the Company did not meet its minimum level of required six-month earnings before interest, taxes and depreciation and amortization (EBITDA) required by the financing company of \$225,000.

During the fiscal year ended June 30, 2002, the Company obtained an additional line of credit with a foreign financial institution which provides for maximum borrowings of \$1,000,000 based on the creditworthiness of the Company's customers serviced by the Company's foreign subsidiary. Outstanding borrowings amounted to \$187,325 at June 30, 2002. The line of credit matures November 30, 2002 and bears interest at 6.625 %.

23

NOTE 8 NOTES PAYABLE

Notes payable at June 30 consisted of the following:

Notes payable to banks/finance companies, due in aggregate monthly	\$

Edgar Filing: OMNI USA INC - Form 10KSB

installments of \$356 including interest ranging from 1.9% to 7.7%, maturing at various dates through 2003, secured by vehicles

Note payable to equipment manufacturer, due in monthly installments of \$5,800 including interest at 8% through 2007, secured by equipment. Management has classified these balances and payments based upon management's plan to repay the debt over a 60 month period commencing April 2002

Butler Products Corporation Industrial Bonds due in monthly installments of \$2,730 including interest at 5.5% through March 2003, secured by equipment

Note payable to finance company to finance the assets acquired from Piecemaker Inc., due in monthly installments of \$4,250 including interest at prime plus 2% through 2004

Note payable to PACCAR, Inc. due in minimum monthly payments of \$18,300 including principle and interest of approximately 11% commencing for a period of 5 years commencing in May 2002, unsecured

Note payable to foreign third party of Rmb 2,100,000 principle due in one payment January 27, 2003, interest at .54% due monthly and secured by certain machinery and equipment of Shanghai Omni Gear.

Junior Subordinated Notes to Butler Products Corporation former owners at 8% annual interest with variable payments based upon margins earned on certain Butler product sales and from proceeds of any Butler assets sold in the future, if any. The former owners have the right to further amend and accelerate the repayment terms if repayment of principle is not deemed adequate by the former owners under the above repayment plan. Classification of current and long term portions are based upon management's best estimate of future repayments.

NOTE 9 COMMON STOCK

The Company has authorized 50,000,000 shares of common stock with a par value of \$.004995 per share (see Note 2). At June 30, 2002 and 2001, the Company had issued 1,227,079 shares with 1,207,912 shares outstanding and 19,167 treasury shares. The Company has never paid cash dividends on its Common Stock. As a result of net losses in the current and prior fiscal years, the Company has a cumulative retained deficit of \$2,755,870 as of June 30, 2002; accordingly, the Company may be prohibited by legal restrictions on capital from paying cash dividends for the foreseeable future. In addition, the Company's revolving line of credit facility prohibits the payment of dividends.

NOTE 10 WARRANTS TO PURCHASE COMMON STOCK

The Company has Class B Warrants that entitle the holder to purchase shares of common stock as follows:

	Expiration Date	Per S Pri
	-----	-----
Class B Series 2 (PACCAR, Inc.)	July 1, 2009	6.0

On March 15, 2001, all Class B Series 1 Warrants expired by operation of the Class B Warrant Agreement. No Class B Series 1 Warrants were exercised.

On September 23, 1999, the Company entered into a \$1,000,000 loan agreement with PACCAR Inc. (PACCAR). Under the terms of the loan, PACCAR received 166,667 warrants to purchase shares of the Company's common stock. The warrants may be exercised through July 2009 at \$6.00 per share. The warrants to purchase stock may be reduced to 116,667 upon the occurrence of certain subsequent events.

25

NOTE 11 STOCK OPTION PLANS

The Company maintains a Non-Qualified Stock Option Plan (the "NQSOP") and a 1996 Incentive Stock Option Plan (the "1996 ISOP"). The NQSOP covers 200,000 shares of Common Stock and the 1996 ISOP covers 300,000 shares of Common Stock. The purpose of the NQSOP and 1996 ISOP, under the discretion of the Company's Board of Directors, is to offer eligible employees of the Company and its subsidiaries an opportunity to acquire or increase their proprietary interests in the Company and provide additional incentive to contribute to its performance and growth.

The Board of Directors has reserved 500,000 shares under the

Edgar Filing: OMNI USA INC - Form 10KSB

Plans.

Stock Option Summary	Total # of Shares	\$12.00 Options	\$3.00 Options	\$4.875 Options	\$6.75 Options	\$3 Op

SFAS No. 123, "Accounting for Stock-Based Compensation," encourages, but does not require, companies to record compensation costs for stock-based employee compensation plans at fair value. The Company has chosen to continue to account for stock-based compensation using the intrinsic value method prescribed in Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," and related Interpretations. Accordingly, compensation costs for stock options is measured as the excess, if any, of the quoted market price of the Company's stock at the date of the grant over the amount an employee must pay to acquire the stock. No options were granted in the fiscal years ended June 30, 2002 and 2001. The pro forma effects had stock options issued to employees been recorded under SFAS 123 is as follows:

	2002
Additional compensation expense	\$ -
Pro forma net loss	(460,720)
Pro forma basic loss per share	\$ (0.38)

Edgar Filing: OMNI USA INC - Form 10KSB

The Company utilized the Black Scholes option value pricing model to estimate the value of the options granted. Assumptions utilized in the Black Scholes model include a risk free interest rate of 6.5% for 2001, an expected life of 10 years, a volatility of .71 for 2001 and no expected dividends.

26

NOTE 12 EARNINGS PER SHARE

The following sets forth the computation of basic and diluted earnings per share at June 30, 2002 and 2001.

	2002

Numerator	
Net loss	\$ (460,72)
	=====
Denominator	
Denominator for basic earnings per share - weighted average common shares outstanding	1,207,91
Effect of dilutive securities: Conversion of dilutive stock options	-----
Denominator for dilutive earnings per share - adjusted weighted average shares and assumed conversion	1,207,91
	=====
Basic Earnings Per Share	\$ (0.3)
	=====
Diluted Net Earnings Per Share	\$ (0.3)
	=====

Stock options at June 30, 2002 and 2001 are antidilutive due to the Company's net loss.

NOTE 13 INCOME TAXES

Income tax benefit (expense) is comprised of the following:

	2002

Current -state	\$ -
Deferred - Current	6,100
Deferred - Long-term	(6,100)

	\$ -
	=====

Deferred income taxes result from timing differences in reporting

Edgar Filing: OMNI USA INC - Form 10KSB

income and expenses for financial statement and income tax purposes. The primary sources of deferred income taxes result from: (1) the use of different methods of depreciation for income tax and financial statement purposes, (2) the uniform capitalization of inventory for income tax purposes, (3) inventory obsolescence reserves, (4) direct write-off of bad debts for income tax purposes and (5) foreign losses.

27

NOTE 13 INCOME TAXES (continued)

The components of the Company's deferred tax assets and liabilities at June 30 are as follows:

	2002
Current deferred tax assets:	
Accounts receivable	\$ 45,000
Inventory	39,000
Domestic net operating loss carry-forwards	59,000
Foreign subsidiary net operating loss carry-forwards	737,000
	880,000
Deferred tax assets	880,000
Non-current deferred tax liabilities:	
Depreciation	(83,500)
	796,500
Net deferred income tax assets	796,500
Valuation allowance	(756,107)
	\$ 40,393
Net deferred income taxes	\$ 40,393

The valuation allowance increased \$148,000 and \$68,906 during 2002 and 2001, respectively due to losses. At June 30, 2002 the Company had \$174,000 of domestic net operating losses, which expire in 2021.

The Company has not provided for income taxes on the undistributed earnings of its foreign subsidiaries because it intends to reinvest these earnings in the continuing operations of these subsidiaries. In determining the value of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. Management considers the scheduled reversals of deferred tax assets and liabilities, projected future taxable income, if any, and the tax planning strategies in determining this value. Management believes it is more likely than not that the Company will realize the benefits of its deferred tax assets, net of existing valuation allowances at June 30, 2002. The cumulative amount of undistributed losses of its foreign subsidiaries is approximately \$2,100,000 at June 30, 2002.

Edgar Filing: OMNI USA INC - Form 10KSB

The difference between the effective rate of income tax expense at June 30, 2002 and 2001 and the amounts which would be determined by applying the statutory U.S. income tax rate of 34% to income before income tax expense, are explained below according to the tax implications of various items of income or expense.

	2002

Provision for income tax benefit/(expense) at U.S. statutory rates	\$ 156,645
Change in income tax benefit resulting from:	
State income taxes	-
Non-deductible expense	(3,531)
Deferred tax assets not previously recognized	-
Other	(5,114)
Change in valuation reserve	(148,000)

Income tax benefit	\$ -
	=====

28

NOTE 14 COMMITMENTS AND CONTINGENCIES

Operating Leases - The Company leases equipment and office, warehouse and manufacturing space in Houston, TX; Madill, OK; and Shanghai, China. The Houston lease is \$8,500 per month through 2003. The Madill, Oklahoma leases are \$6,000 per month through 2004. The Shanghai lease began in 1996 and has a thirty-year term at approximately \$10,000 per month. At June 30, 2002, the future minimum rental payments required under operating leases were approximately:

2003	\$ 291,649
2004	287,963
2005	204,565
2006	105,134
2007	96,634
Thereafter	1,932,679

Total	\$2,918,624
	=====

Rent expense was approximately \$252,600 and \$301,000, net of sublease income on the Shanghai facility of approximately \$ 25,000 and \$-0- during the years ended June 30, 2002 and 2001, respectively.

Insurance Coverage - The Company is self-insured against product

Edgar Filing: OMNI USA INC - Form 10KSB

liability and completed operations. This development, while not unique to the Company or its industry, may subject the Company to some future liability. The Company maintains in force and effect, product liability, with coverage up to \$1,000,000 per occurrence and in aggregate, as well as completed operations insurance held by Butler Products Corporation at the time of acquisition.

Employment - Eleven percent of the Company's employees, (specifically, twenty-one of forty Butler employees) are unionized and are covered by a collective bargaining agreement. The collective bargaining agreement expires June 12, 2003. Management believes that expiration of the agreement will not impact future operations.

Employee Benefits - The Company maintains a 401(k) plan, which covers substantially all employees. Contributions by the Company are discretionary. During the years ended June 30, 2002 and 2001, the Company made no contributions to the plan.

Letters of Credit - The Company has \$250,000 unused letters of credit outstanding at both June 30, 2002 and 2001.

Litigation - The Company continues to aggressively protect its trademarks. The Company is currently a plaintiff in such a case for infringement and has other similar infringement cases contemplated. Historically, the Company has been successful in preventing others from using Omni's trademarks or in seeking other relief. In addition, the Company is involved in litigation with a distributor surrounding the dissolution of a distributor agreement. The distributor has filed suit against the Company for breach of contract, misrepresentation and copyright infringement. The Company has counterclaimed against the distributor for fraud, misrepresentation, breach of contract and failure to pay on a promissory note due to the Company. It is the opinion of management of the Company that the suit by the former customer is frivolous and groundless and the Company will continue to successfully defend itself and collect the monies owed to it by the former customer. The Company is not expected to experience any material impact on future operations or financial position of the Company as a result of any pending litigation.

NOTE 15

MAJOR CUSTOMERS AND SUPPLIERS

The Company and its subsidiaries had consolidated sales in its power transmission component segment of \$3,783,000 and \$4,096,000 to two customers representing 21% and 19% of total consolidated sales in fiscal 2002 and 2001, respectively.

Approximately 57% and 60% of the Company's products were purchased from two companies in China in 2002 and 2001, respectively.

Edgar Filing: OMNI USA INC - Form 10KSB

NOTE 16 SUPPLEMENTAL CASH FLOW INFORMATION

Due to net operating losses and net operating loss carryforwards, the Company was not required to pay any income taxes in 2002 and 2001, respectively.

During 2001, the Company financed \$243,159 of capital expenditures with debt.

The Company paid interest of \$401,230 and \$464,146 during the fiscal years ended June 30, 2002 and 2001 respectively.

NOTE 17 SEGMENT INFORMATION

Selected financial information by business segment with respect to these activities for the years ended June 30 is as follows:

NOTE 18

SUBSEQUENT EVENTS

On June 7, 2002, June 19, 2002 and September 10, 2002, the Company received notification from NASDAQ that the Company's stock would be removed from the NASDAQ listing as Omni's share price had fallen below the minimum required ask price of \$1.00 per share and as the Company's Minimum Value of Publicly Held Securities had fallen below the minimum of \$1,000,000. The Company has filed for a hearing based on written submission and NASDAQ has set a hearing date of October 17, 2002 to determine if the Company has established compliance. Subsequent to the hearing, NASDAQ will issue its determination. The Company has submitted to NASDAQ a plan that should bring the Company within compliance; however, there is no assurance that such a plan will be approved by NASDAQ. As a result, Omni stock could be removed from listing on the Small Cap Market and thereafter be listed on OTC bulletin boards.

On September 10, 2002, The Board of Directors approved a stock repurchase plan to repurchase up to 500,000 shares of Omni stock in efforts to improve its stock price in response to the notification received from NASDAQ noted above and in consideration that the Company's common stock represents an unusual value given the Company's overall business and value.

31

ITEM 8. CHANGES IN AND DISAGREEMENT WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE None.

PART III

ITEM 9. DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS AND CONTROL PERSONS; COMPLIANCE WITH SECTION 16(a) OF EXCHANGE ACT

Edgar Filing: OMNI USA INC - Form 10KSB

The directors, executive officers, promoters and control persons of the Company are set forth below. All directors hold office for a term of one year or until their successors are duly elected and qualified. Each executive officer of the Company is appointed by the Board of Directors at each annual meeting and serves until a successor is duly elected and qualified.

Name	Age	Position
----	----	-----
Jeffrey K. Daniel	41	President, Chief Executive Officer and
Craig L. Daniel	42	Vice President-Manufacturing and Dire
Kevin Guan	44	Director
Didi Duan	55	Director

Jeffrey K. Daniel has been an employee of Omni since 1985 and is currently the Chief Executive Officer and President of the Company. He has a Bachelors degree in Business Administration from the University of Colorado. He was Vice President from 1987 until May 1994, when he was elected Chief Executive Officer and President. Jeffrey K. Daniel is the brother of Craig L. Daniel. Jeffrey K. Daniel has served as a director of the Company since January 1988.

Craig L. Daniel has been a full time employee of Omni since April, 1989, and is currently Vice President-Manufacturing for the Company, Managing Director of Omni Resources, Ltd. and General Manager of Shanghai Omni Gear Co., Ltd. Craig L. Daniel is the brother of Jeffrey K. Daniel. Craig L. Daniel has served as a director of the Company since December 1993.

Kevin Guan is currently the Managing Director of SIIC Real Estate Co., a commercial real estate developer of projects in Hong Kong and China, (a subsidiary of Shanghai Industrial Investment Corp.). From February 1993 through February 1995, Mr. Guan was the General Manager, Shanghai Wai Gao Qiao Development Corp, in the PuDong development zone of Shanghai. Mr. Guan is a graduate of Shanghai Jiao Tong University, and received his MBA from Shanghai University.

Didi Duan is currently the Chief Financial Officer and Director of Jiao Tong University's Ang Li Science and Technology Co., Ltd., a specialty pharmaceutical processor in the Chinese and East Asian markets. From January 1986 to February 1997, Ms. Duan was the Chief Financial Officer of Dong Feng Automotive Truck manufacturing Division, vertically manufacturing 15-40 ton trucks for the Chinese market. Ms. Duan graduated from Wuhan University in Hubei, and is an accountant in Shanghai, under the accounting rules in China.

Edgar Filing: OMNI USA INC - Form 10KSB

The following table sets forth certain information regarding compensation paid to the Company's executive officers in each of the three most recent fiscal years:

Name and Position	Year	Annual Compensation			Long Term Compensation	
		Salary	Bonus	Other Annual Compensation	Awards	
					Restricted Stock Awards	Securities Underlying Options/SARs
Jeffrey K. Daniel President & CEO	2000	\$ 130,000	-	-	-	-
	2001	130,000	-	-	-	-
	2002	115,000	-	-	-	-
Craig L. Daniel Vice President- Manufacturing	2000	85,000	-	-	-	-
	2001	85,000	-	-	-	-
	2002	85,000	-	-	-	-

No other executive officer's salary or bonus exceeded \$100,000 for the three most recent fiscal years ended June 30, 2001.

None of the executive officers are employed by the Company pursuant to any employment contract or other agreement, and there are no arrangements or understandings for the payment of bonuses or other payments upon a termination of employment, or otherwise.

STOCK OPTION PLANS AND STOCK OPTIONS

The Company maintains a 1994 Non-Qualified Stock Option Plan (the "1994 NQSOP") and a 1996 Incentive Stock Option Plan (the "1996 ISOP"). The NQSOP covers 200,000 shares of Common Stock and the 1996 ISOP covers 300,000 shares of Common Stock after the reverse split (See Note 2). The purpose of the NQSOP and 1996 ISOP, under the discretion of the Company's Board of Directors, is to offer eligible employees of the Company and its subsidiaries an opportunity to acquire or increase their proprietary interests in the Company and provide additional incentive to contribute to its performance and growth. The options have been disclosed effective the reverse stock split as discussed in Note 2 of the footnotes to the financial statements.

On June 6, 1997, the Board, upon recommendation from the Compensation Committee, repriced all options granted and existing to current Company employees under the 1996 ISOP and NQSOP from \$12.00 per share to \$3.00 per

Edgar Filing: OMNI USA INC - Form 10KSB

share. The repriced options vest 50% twelve (12) months from date of grant and 50% twenty-four (24) months from date of grant.

On June 6, 1997, the Board, upon recommendation of the Compensation Committee, granted options to purchase 45,333 shares of Common Stock at \$3.00 per share to each Jeffrey K. Daniel and Craig L Daniel, and granted options to purchase 22,667 shares of Common Stock at \$3.00 per share to Michael A. Zahorik, all such options to vest three (3) years from date of grant.

On January 25, 1999, the Board, under the NQSOP, granted 3,333 options to purchase Company Common Stock at \$4.875 per share to James L. Davis, John F. Lillicrop, and W. Wayne Patterson. All director options were immediately vested.

On January 3, 2000, the Board, under the NQSOP, granted 3,333 options to purchase Company Common Stock at \$3.564 per share to James L. Davis, John F. Lillicrop, and W. Wayne Patterson. All director options were immediately vested.

On March 8, 1999, under the 1996 ISOP, David M. Sallean was granted options to purchase 10,000 shares of Common Stock at an exercise price of \$3.564, vesting 100% three (3) years from date of grant.

On February 24, 2000, under the 1996 ISOP, David M. Sallean was granted options to purchase 10,000 shares of Common Stock at an exercise price of \$3.1875, vesting 100% three (3) years from date of grant.

Effective October 1, 2001, Michael A. Zahorik was terminated as an employee of Omni USA, Inc. By operation of the ISOP Agreement, Mr. Zahorik's options were not exercised, and accordingly all 46,000 options were cancelled.

Effective October 24, 2001, David M. Sallean resigned as an employee of Omni USA, Inc. By operation of the ISOP Agreement, Mr. Sallean's options were not exercised, and accordingly all 20,000 options were cancelled.

34

The following table provides repricing information for options held by the Company's five most highly compensated executive officers. The repricing was implemented in 1997 on the recommendation of the Compensation Committee to conform the options to prevailing market prices and provide an incentive for which the options were designed.

Ten-Year Options/SAR Repricings

Name	Date	Number of Securities Underlying Options/SARs Repriced or Amended	Market Price of Stock at Time of Repricing or Amendment	Exercise Price of Stock at Time of Repricing or Amendment	New Exercise Price
----	----	-----	-----	-----	-----
Jeffrey K. Daniel	6/6/97	53,334	\$2.25	\$12.00	\$3.00
Craig L. Daniel	6/6/97	53,334	\$2.25	\$12.00	\$3.00

Under the 1996 ISOP, options for 318,334 shares had been granted as of June 30, 2002. Under the 1994 NQSOP, options for 93,333 shares had been granted as of June 30, 2002. The following table shows how the 1996 ISOP options are distributed to groups within the Company based on the dollar value of exercisable options in effect during fiscal year 2002 based on the closing price of Common Stock at June 30, 2002 of \$0.95:

Name and Position -----	1994 NQSOP and 1996 ISOP	
	Dollar Value / Shares Exercisable -----	Total Number Represented -----
Jeffrey K. Daniel President and CEO	\$0/98,667	98,667
Craig L. Daniel Vice President-Manufacturing	\$0/98,667	98,667
Executive Officer Group	\$0/197,334	197,334
Non-Executive Officer Employee Group	\$0/71,666	71,666
Total	\$0/269,000	269,000

Aggregated Option/SAR Exercises in Last Fiscal Year
and FY-End Option/SAR Values

Name -----	Shares Acquired on Exercise -----	Value Realized -----	Number of Unexercised Options/SARs at FY-End (1) Exercisable/Unexercisable -----	Value in Exercise -----
Jeffrey K. Daniel President & CEO	N/A	N/A	98,667 ----- 98,667/0	
Craig L. Daniel Vice President- Manufacturing	N/A	N/A	98,667 ----- 98,667/0	

Edgar Filing: OMNI USA INC - Form 10KSB

N/A Not applicable. No options were exercised during the fiscal year ended June 30, 2002.

- (1) Indicates number of options exercisable and unexercisable as of June 30, 2002.
- (2) Based upon closing price of Common stock at June 30, 2002 of \$0.95.

OTHER COMPENSATION

The Company has paid no bonuses to its executive officers. The Company has a group medical plan which provides medical and hospital benefits and term life insurance to its officers and employees, at no cost. Jeffrey K. Daniel and Craig L. Daniel are not compensated as directors.

36

ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

EQUITY COMPENSATION

The following table sets forth information relating to compensation plans under which equity securities of the Company are authorized for issuance:

	Number of securities to be issued upon exercise of outstanding option, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights
	(a)	(b)
Equity compensation plans approved by security holders	345,667	\$3.63
Equity compensation plans not approved by security holders	-	-
Total	345,667	\$3.63

CAPITALIZATION

The Company's currently authorized equity securities are as follows:
 (i) 50,000,000 shares of Common Stock, par value \$.004995 per share (see Note 2), (ii) 454,258 Class B Common Stock Purchase Warrants ("Class B Warrants"). As

Edgar Filing: OMNI USA INC - Form 10KSB

of September 30, 2002, the Company had outstanding 1,204,912 shares of Common Stock, and Class B Warrants to purchase 166,667 shares of Common Stock.

Class B Warrants. There are 166,667 Class B Warrants to purchase Common Stock. The Class B Series 1 Warrants, which were exercisable by the holder thereof at any time between 90 days after issuance and March 15, 2001, at \$6.00 per share, expired on March 15, 2001. None of these Class B Warrants were exercised. The 166,667 Class B Series 2 Warrants issued to PACCAR, Inc. may be exercised at any time and expire July 1, 2009 (see Note 10 in the footnotes to the financial statements).

37
