NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. SIGNIFICANT ACCOUNTING POLICIES:

The consolidated financial statements have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. As permitted under those rules, certain footnotes or other financial information that are normally required by generally accepted accounting principles in the United States (GAAP) have been condensed or omitted. The Company believes that the disclosures made in this report are adequate to make the information presented not misleading. These condensed financial statements should be read in conjunction with the financial statements and the notes thereto included in the Company's latest annual report on Form 10-KSB.

The Company's management is responsible for the unaudited financial statements included in this document. In the opinion of the Company, all adjustments, consisting of normal recurring adjustments, necessary to present fairly the financial position of Omni U.S.A., Inc. and subsidiaries as of September 30, 2002, and the results of their operations and cash

Edgar Filing: OMNI USA INC - Form 10QSB

flows for the three months ended September 30, 2002, and 2001, have been made in accordance with GAAP.

There are significant operations in Mainland China; however, the functional exchange rate for those operations is the U.S. dollar. The foreign currency translation adjustment primarily arises from the translation of amounts from operations in Hong Kong and Japan in which the functional currency is that of the foreign location.

2. EARNINGS PER SHARE:

Basic and diluted loss per share is based on the weighted average number of shares of common stock outstanding. For the periods ended September 30, 2002 and 2001, the Company's weighted average shares are calculated as follows:

	September 30, 2002 -----	September 30, 2001 -----
Weighted average common shares outstanding	1,207,252	1,207,912

When the Company is in a net loss position, all common stock equivalents are considered anti-dilutive and are therefore not included in the calculation of earnings per share. During the three month period ended September 30, 2002, the Company had positive net income; however, the exercise price of all common stock equivalents exceeded its average fair value. Accordingly, all common stock equivalents were considered anti-dilutive during the period and are therefore not included in the calculation of earnings per share.

3. MAJOR CUSTOMERS AND VENDORS:

During the fiscal quarters ended September 30, 2002 and 2001, the Company and its subsidiaries had consolidated sales of \$880,941 and \$287,957 to a domestic customer for a total of 20% and 7% of consolidated sales. During the three months ended September 30, 2002 2001, the Company and its subsidiaries had consolidated purchases of \$1,600,995 and \$1,168,938 from two vendors for a total of 49% and 40% of consolidated purchases.

6

4. REVOLVING LINE OF CREDIT AND LONG-TERM DEBT:

The Company has a revolving line of credit with a financing company which provides for maximum borrowings of \$4,000,000 as determined by a formula based on trade accounts receivable and inventory. The line of credit matures June 2003, bears interest at prime plus 1%-2%, depending upon certain financial ratios, requires the maintenance of certain levels of income and tangible net worth and is secured by essentially all of the U.S. assets of the Company. At June 30, 2002, the Company was not in compliance with the required minimum six months earnings requirement. At September 30, 2002, the Company was in compliance with its minimum financial reporting

Edgar Filing: OMNI USA INC - Form 10QSB

covenants.

The Company also maintains a line of credit with a foreign financial institution which provides for maximum borrowings of \$1,000,000 based on the creditworthiness of the Company's customers serviced by the Company's foreign subsidiary. Outstanding borrowings amounted to \$276,023 and \$187,325 at September 30, 2002 and June 30, 2002, respectively. The line of credit matures November 30, 2002 and bears interest at 6.625 %. Management is currently in negotiations to renegotiate the terms and due dates of this line of credit under what it believes will be comparable terms.

5. INCOME TAXES

The difference between the effective rate of income tax expense at September 30, 2002 and 2001 and the amounts which would be determined by applying the statutory U.S. income tax rate of 34% to income before income tax expense, are due to the utilization of net operating losses which were fully reserved by a valuation allowance in previous periods.

6. PURCHASE OF TREASURY STOCK

From September 19 through September 30, 2002, the Company purchased a total of 9,500 treasury shares through its stock repurchase plan as further discussed in NOTE 8 for a total cost of \$9,516.

7. OPERATING LEASES

The Company leases equipment and office, warehouse and manufacturing space in Houston, TX; Madill, OK; Shanghai, China; and Hong Kong. The Company has entered into an oral agreement to extend the Houston lease which expired June 30, 2002 at \$9,000 per month. The amended lease terms expire six months after written notice from either party.

7

8. LITIGATION AND CONTINGENCIES

The Company continues to aggressively protect its trademarks. The Company is currently a plaintiff in such a case for infringement and has other similar infringement cases contemplated. Historically, the Company has been successful in preventing others from using Omni's trademarks or in seeking other relief. In addition, the Company is involved in litigation with a former customer/distributor surrounding the dissolution of a distributor agreement. The former customer/distributor has filed suit against the Company for breach of contract, misrepresentation and copyright infringement. The Company has counterclaimed against the distributor for fraud, misrepresentation, breach of contract and failure to pay on a promissory note due to the Company. It is the opinion of management of the Company that the suit by the former customer is frivolous and groundless and the Company will continue to successfully defend itself and collect the monies owed to it by the former customer.

On June 7, 2002, June 19, 2002 and September 10, 2002, the Company received notification from NASDAQ that the Company's stock would be removed from the NASDAQ listing as Omni's share price had fallen below the minimum required ask price of \$1.00 per share and as the Company's Minimum Value of Publicly Held Securities had fallen below the minimum of \$1,200,000.

Edgar Filing: OMNI USA INC - Form 10QSB

On September 10, 2002, The Board of Directors approved a stock repurchase plan to repurchase up to 500,000 shares of Omni stock in efforts to improve its stock price in response to the notification received from NASDAQ noted above and in consideration that the Company's common stock represents and unusual value given the Company's overall business and value.

9. SUBSEQUENT EVENTS

Between October 1, and October 16, 2002, an additional 26,600 shares were purchased as treasury stock for a total of \$33,414 in cash.

At the October 4, 2002, meeting of the Board of Directors, the Directors discussed the NASDAQ notification above and determined that the Company's primary goal would be to focus its resources to continue to maximize sales and profits and attend to business issues and not take any further direct action to address the NASDAQ compliance requirements.

On October 17, 2002, NASDAQ held a hearing on the continued listing of the Company. To date, the NASDAQ Hearings Panel has not issued its letter ruling. If the Company is delisted from trading on the NASDAQ, it would be forced to trade on the Over the Counter (OTC) Bulletin Boards which could have a material adverse impact on the future value of the stock in the near term. The stock price on November 12, 2002 was \$0.81 per share.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This report has been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. This report should be read in conjunction with the Company's latest Form 10-KSB, a copy of which may be obtained by visiting the Company's home page at www.ousa.com, or by writing to the Investor Relations Department, Omni U.S.A., Inc., 7502 Mesa Road, Houston, Texas 77028.

Liquidity and Capital Resources

Edgar Filing: OMNI USA INC - Form 10QSB

The Company's primary capital requirements are for routine working capital needs that are generally met through a combination of internally generated funds, revolving line of credit facilities and credit terms from suppliers. The Company's line of credit facilities had an outstanding balance of \$2,336,808 at September 30, 2002. The Company had working capital of \$1,699,900 as of September 30, 2002 and working capital of \$1,632,585 as of June 30, 2002, an increase of \$67,314 from June 30, 2002. The increase in working capital from June 30, 2002 was due primarily to operating income.

The Company had a cash balance of \$510,640 as of September 30, 2002; reflecting a negative cash flow of \$310,904 compared to the June 30, 2002 cash balance of \$821,544. The Company's cash provided by operating activities for the 3 months ended September 30, 2002 of \$287,218 consisted of the net income for the period offset by, combined decreases in accounts receivable and accounts payable and increases in inventories.

The Company's cash used in investing activities for the three months ended September 30, 2002 of \$28,185 consisted of capital expenditures for the period.

Net cash used by financing activities for the three months ended September 30, 2002 of \$570,303 consisted primarily of payments on the line of credit and long-term debt and \$9,516 spent to purchase treasury shares under the Company's stock repurchase plan .

The Company believes that between its access to the line of credit facilities and its ability to generate funds internally, it has adequate capital resources to meet its working capital requirements for the foreseeable future, given its current working capital requirements, known obligations, and assuming current levels of operations. In addition, the Company believes that it has the ability to raise additional financing in the form of debt or equity to fund additional capital expenditures and operations, if required. In response to general declines in demand and a recent economic downturn that occurred in fiscal year 2002, management initiated measures to minimize costs and scale down activities to match decreases in sales until such demand returns. The current period has shown some increases in demand and management has been able to benefit from the cost minimization efforts. Management believes that it will continue to be successful in this endeavor; however, it is too early to tell if the trend of increased sales will continue for the remainder of the fiscal year.

10

Results for the Quarter ended September 30, 2002 compared with the Quarter ended September 30, 2001

The Company had net sales of \$4,462,093 for the three months ended September 30, 2002. This represents an increase of 23% compared to the three months ended September 30, 2001 net sales of \$3,626,337. Management believes that the increase in sales is due to increased product demand and carryover of deliveries delayed from the fourth fiscal quarter. The following table indicates the Company's net sales comparison and percentage of change for the three months ended September 30, 2002 and 2001:

QUARTER		QUARTER		DOLLAR
ENDED	%	ENDED	%	

Edgar Filing: OMNI USA INC - Form 10QSB

NET SALES	9/30/02	OF TOTAL	9/30/01	OF TOTAL	CHANGE
Power Transmission Components	\$3,490,338	78%	\$2,707,711	75%	\$782,627
Trailer and Implement Components	971,755	22%	918,626	25%	53,129
Consolidated	\$4,462,093	100%	\$3,626,337	100%	\$835,756

Gross profit for the three months ended September 30, 2002 increased \$543,623 to \$1,219,433, compared to gross profit for the three months ended September 30, 2001 of \$675,810. The increase in sales and gross profit was primarily attributable to an increase in demand for products in both business segments. Gross profit as a percentage of net sales for the three months ended September 30, 2002 increased to 27% as compared to 19% for the three months ended September 30, 2001. This increase was primarily due to the product mix of sales with increased sales of higher margin power transmission components for the period as well as general recoveries in demand resulting in increased margins.

Selling, general and administrative expenses decreased \$17,565 to \$970,720 in the three months September 30, 2002 compared to \$988,285 in the three months ended September 30, 2001. The decrease was the result of cost minimization measures put into place in the fiscal year 2002 which were partially offset by increases in sales. Selling, general and administrative expenses decreased as a percentage of sales as a result of increased sales in the period.

Income from operations for the Company increased \$561,188 to \$248,713 for the three months ended September 30, 2002, compared to a loss from operations of (\$312,475) for the three months ended September 30, 2001. Income from operations as a percentage of sales increased to 6% in the three months ended September 30, 2002 compared to a loss of (8%) in the three months ended September 30, 2001. This increase is principally the result of increases in sales and margins to comparable periods.

Interest expense increased \$12,139, to \$101,499 for the three months ended September 30, 2002 from \$89,360 for the three months ended September 30, 2001. The increase resulted from additional borrowings associated with the Company's lines of credit and long-term debt.

Other income (expense) was income of \$30,266 for the three months ended September 30, 2002 compared to expense of \$21,868 for the three months ended September 30, 2001. This change primarily relates to increased commission income and VAT refund on increased sales.

The Company's net income increased \$560,790 to \$137,087, or \$0.11 per share, for the three months ended September 30, 2002 compared to (\$423,703) or (\$0.35) per share, for the three months ended September 30, 2001.

Cautionary Statement

The following is a "Safe Harbor" Statement under the Private Securities Litigation Reform Act of 1995:

With the exception of historical facts, the statements contained in

Edgar Filing: OMNI USA INC - Form 10QSB

Item 2 of this form 10-QSB are forward-looking statements. Forward-looking statements discuss future expectations, plans, strategies, activities or events. They often include words such as believe, expect, anticipate, intend or plan, or words with similar meaning or with future or conditional verbs such as will, would, should, or may. The Company does not plan to update these forward-looking statements to reflect events or changes that occur after they are made.

Actual results may differ materially from those contemplated by the forward-looking statements. Item 6. Exhibits and Reports on Form 8-K.

Edgar Filing: OMNI USA INC - Form 10QSB

None.

Item 7. Controls and Procedures..

Evaluation of disclosure controls and procedures. Within 90 days of the date of this report, the Company will carry out a formal evaluation, under the supervision and with the participation of our management, including our Chief Executive, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, the Company's Chief Executive Officer will conclude on the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-14(c) and 15d-14(c) under the Securities Exchange Act of 1934 (the "Exchange Act")) to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported to the Company's management within the time periods specified in the Securities and Exchange Commission's rules and forms. The Chief Executive Officer believes the current controls are adequate and effective based upon his daily involvement in the management and reporting of the Company.

Changes in internal controls. There were no significant changes in the Company's internal controls or in other factors that could significantly affect the Company's disclosure controls and procedures, and there were no corrective actions required with regard to significant deficiencies and material weaknesses.
