FRIEDMAN INDUSTRIES, INCORPORATED

CONDENSED NOTES TO QUARTERLY REPORT - UNAUDITED
SIX MONTHS ENDED SEPTEMBER 30, 2004

NOTE A - BASIS OF PRESENTATION

The accompanying unaudited condensed, consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. For further information, refer to the financial statements and footnotes included in the Company's annual report on Form 10-K for the year ended March 31, 2004.

NOTE B - INVENTORIES

Inventories consist of prime coil, non-standard coil and tubular materials. Prime coil inventory consists primarily of raw materials, non-standard coil inventory consists primarily of finished goods and tubular inventory consists of both raw materials and finished goods. Inventories are valued at the lower of cost or replacement market value. Cost for prime coil inventory is determined under the last-in, first-out (LIFO) method. Cost for non-standard coil inventory is determined using the specific identification method. Cost for tubular inventory is determined using the weighted average method.

During the quarter ended September 30, 2004, LIFO inventories were reduced but are expected to be replaced by March 31, 2005. Accordingly, a deferred credit for LIFO replacement of \$157,520 to reflect the expected cost of such replacement was recorded at September 30, 2004.

A summary of inventory values follows:

	September 30, 2004	March 31, 2004
Prime Coil Inventory	\$ 7,661,637	\$ 4,976,300
Non-Standard Coil Inventory	939,742	4,181,815
Tubular Raw Material	3,557,822	3,515,060
Tubular Finished Goods	7,773,909	8,370,817
	<u>\$ 19,933,110</u>	<u>\$ 21,043,992</u>

NOTE C - LONG-TERM DEBT

The following summary reflects long-term debt including the current portion thereon:

	September 30, 2004	March 31, 2004
Notes payable on equipment purchases	\$ 23,081	\$ 63,037

The Company has a \$6 million revolving credit facility which expires April 1, 2006. There were no amounts outstanding pursuant to the facility at September 30, 2004 or March 31, 2004.

NOTE D - STOCK BASED COMPENSATION

Edgar Filing: FRIEDMAN INDUSTRIES INC - Form 10-Q/A

The Company follows Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees* (APB 25), for its employee stock options. Under APB 25, because the exercise price of the Company's employee stock options equals the market price of the underlying stock on the date of grant, no compensation expense is recognized.

The following schedule reflects the impact on net income and earnings per common share if the Company had applied the fair value recognition provisions of Statements of Financial Accounting Standards No. 123, *Accounting for Stock-Based Compensation*, to stock based employee compensation for each period indicated:

	Three Months Ended September 30,		Six Months Ended September 30,

During the six months ended September 30, 2004, options for 20,000 shares Common Stock were exercised which resulted in proceeds of \$47,740 to the Company. In the 2004 period, no options were granted.

The fair value of options was estimated using a Black-Scholes option pricing model with the following weighted average assumptions: risk-free interest rates of 3.0%, a dividend yield of 3.4%, volatility factor of the expected market price of the Company's common stock of 0.42, and a weighted average expected life of the option of four years.

NOTE F RESTATEMENT:

In connection with the Company's review of its accrual for accounts payable at December 31, 2004, the Company discovered that it had over accrued accounts payable at September 30, 2004. The error occurred as the result of double booking a liability for materials received. During the quarter ended September 30, 2004, the Company received steel coils and recorded a liability for this purchase. Subsequently, these same coils were shipped to other companies for processing into slit coils or pipe. After processing, the Company received the material and incorrectly recorded a liability for the entire receipt instead of only the processing and shipping charges. Accordingly, our consolidated financial statements

Edgar Filing: FRIEDMAN INDUSTRIES INC - Form 10-Q/A

for the three and six months ended September 30, 2004 are being restated to correct the accrual for accounts payable.
