ALBERTO-CULVER COMPANY AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(1) BASIS OF PRESENTATION

The consolidated financial statements contained in this report have not been audited by independent public accountants, except for balance sheet information presented at September 30, 2001. However, in the opinion of the company, the consolidated financial statements reflect all adjustments, which include only normal adjustments, necessary to present fairly the data contained therein. The results of operations for the periods covered are not necessarily indicative of results for a full year. Certain amounts for the prior year have been reclassified to conform to the current year's presentation.

(2) STOCKHOLDERS' EQUITY

On January 24, 2002, the company announced an increase in the cash dividend on Class A and Class B common stock, raising the quarterly dividend 9.1% to 9 cents per share or 36 cents annually. The cash dividend is payable February 20, 2002 to stockholders of record on February 5, 2002.

In fiscal year 1998, the Board of Directors authorized the company to purchase up to 6.0 million shares of its Class A common stock. This authorization was increased to 9.0 million shares in fiscal year 1999. As of December 31, 2001, the company had purchased 7,290,400 Class A common shares under this program at a total cost of \$162.9 million. No Class A shares have been purchased under this program since October, 1999.

During the three months ended December 31, 2001, the company acquired \$28.0 million of Class A and Class B common shares surrendered by employees in connection with the exercises of stock options and the payment of withholding taxes as provided under the terms of certain incentive plans. Shares acquired under these plans are not subject to the above-mentioned stock repurchase program.

(3) WEIGHTED AVERAGE SHARES OUTSTANDING

The following table provides information about basic and diluted weighted average shares outstanding (in thousands):

	Three Months Ended December 31

Stock options for 5,000 shares were excluded from the computation of diluted earnings per share for the three months ended December 31, 2000, as the options' exercise prices were greater than the average market price and, therefore, were anti-dilutive. No stock options were anti-dilutive for the three months ended December 31, 2001.

(6) GOODWILL AND TRADE NAMES

In June 2001, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 141, "Business Combinations" and SFAS No. 142, "Goodwill and Other Intangible Assets." SFAS No. 141 addresses financial accounting and reporting for business combinations. SFAS No. 142 addresses financial accounting and reporting for acquired goodwill and other intangible assets, requires companies to discontinue the amortization of goodwill and certain other intangible assets and requires an impairment test of existing goodwill and certain other intangible assets based on a fair value method. The company adopted SFAS No. 141 in the fourth quarter of fiscal year 2001. The company also adopted SFAS No. 142 in the fourth quarter of fiscal year 2001 for new acquisitions and in the first quarter of fiscal year 2002 for previously acquired intangibles. In accordance with SFAS No. 142, the company

Edgar Filing: ALBERTO CULVER CO - Form 10-Q

determined that its trade names have indefinite lives and, therefore, the amortization of trade names was discontinued effective October 1, 2001. Based on the results of the company's transitional impairment testing, no impairment of indefinite-lived trade names existed at October 1, 2001. In addition, as required by SFAS No. 142, the company ceased the amortization of goodwill effective October 1, 2001. The company's initial impairment testing of goodwill is required to be completed by the end of the second quarter of fiscal year 2002.

In accordance with SFAS No. 142, fiscal year 2001 results in the consolidated statement of earnings have not been restated for the effects of ceasing goodwill and trade name amortization. Had goodwill and trade name amortization been discontinued effective October 1, 2000, net earnings and earnings per share for the three months ended December 31, 2001 and 2000 would have been as follows (in thousands, except per share data):

	Three Months Ended December 31

(7) NEW ACCOUNTING PRONOUNCEMENTS

In May 2000, the FASB's Emerging Issues Task Force (EITF) reached a consensus on Issue No. 00-14, "Accounting for Certain Sales Incentives." EITF Issue No. 00-14 addresses the recognition, measurement and income statement classification for various types of sales incentives including coupons, rebates and free products. In April 2001, the EITF reached a consensus on Issue No. 00-25, "Vendor Income Statement Characterization of Consideration Paid to a Reseller of the Vendor's Products." EITF Issue No. 00-25 addresses the income statement classification for various types of consideration paid by a vendor to a retailer. The company adopted the provisions of EITF Issue Nos. 00-14 and 00-25 in the first quarter of fiscal year 2002. In connection with the adoption of EITF Issue Nos. 00-14 and 00-25, the company reclassified certain amounts for the first quarter of fiscal year 2001 to conform to the current year presentation resulting in a \$29.7 million reduction in net sales, a \$2.1 million increase in cost of products sold and a \$31.8 million decrease in promotion expense. Consolidated net earnings were not affected by these reclassifications.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

RESULTS OF OPERATIONS

First Quarter Ended December 31, 2001 versus First Quarter Ended December 31,
2000

The company achieved record first quarter net sales of \$614.3 million in fiscal year 2002, up \$50.4 million or 8.9% over the comparable period of the prior year.

Net earnings were \$29.3 million for the three months ended December 31, 2001 or 24.0% higher than the prior year's first quarter net earnings of \$23.6 million. Basic earnings per share of 52 cents in the first quarter of fiscal year 2002 were 10 cents or 23.8% higher than the same period of fiscal year 2001. Diluted earnings per share for the current quarter increased 22.0% to 50 cents from 41 cents in the same period of the prior year.

As discussed under "New Accounting Pronouncements," the company discontinued the amortization of goodwill and trade names in fiscal year 2002. Had last year's results been restated to eliminate goodwill and trade name amortization, net earnings for the three months ended December 31, 2001 would have increased \$3.7 million or 14.3% versus the prior year with basic earnings per share increasing 6 cents or 13.0% and diluted earnings per share increasing 5 cents or 11.1%.

Compared to the same period of the prior year, sales of Alberto-Culver North America ("North America") consumer products increased 12.0% in the first quarter of fiscal year 2002. The increase was primarily due to the introduction of TRESemme Hydrology and higher sales for St. Ives Swiss Formula body washes and the TCB and Motions ethnic hair care lines along with increased sales for custom label filling operations.

Sales of Alberto-Culver International consumer products ("International") decreased 0.5% in the first quarter of fiscal 2002 compared to last year. Fiscal year 2002 results were negatively impacted by the effect of foreign exchange rates. Had foreign exchange rates this year been the same as the first quarter of fiscal 2001, International sales would have increased 1.0%.

The "Specialty distribution - Sally" business segment achieved a sales increase of 9.8% for the first quarter of fiscal year 2002. The increase was mainly attributable to the expansion of Sally's full-service operations, higher sales for established Sally Beauty Company outlets and the addition of stores during the year. At December 31, 2001, Sally Beauty Company had 2,475 company-owned stores offering a full range of professional beauty supplies.

Cost of products sold as a percentage of net sales was 51.1% for the first quarter of fiscal year 2002 compared to 52.2% for the first quarter of the prior year. The lower cost of products sold percentage in the first quarter of fiscal year 2002 was primarily due to increased sales of higher margin products and lower manufacturing costs.

Compared to the prior year, advertising, promotion, selling and administrative expenses in fiscal year 2002 increased \$21.7 million or 9.5% for the first quarter. The increase primarily resulted from the higher selling and administrative costs associated with the growth of the Sally Beauty Company

Edgar Filing: ALBERTO CULVER CO - Form 10-Q

business and higher expenditures for advertising, promotion and market research.

Advertising, promotion and market research expense was \$46.1 million and \$41.3 million in fiscal years 2002 and 2001, respectively. The increase primarily resulted from higher advertising expenditures for North America related mainly to TRESemme Hydrology, St. Ives Swiss Formula facial and lotion products and Alberto VO5.

Net interest expense in fiscal year 2002 decreased \$423,000 for the first quarter compared to the same period of the prior year. The decrease was primarily attributable to the payoff of borrowings under the company's Swedish Krona revolving credit facility.

The provision for income taxes as a percentage of earnings before income taxes was 35.0% for the first quarter of fiscal year 2002 compared to 33.0% for the first quarter of the prior year. The higher 2002 tax rate is mainly due to the mix of foreign taxable earnings.

9

ALBERTO-CULVER COMPANY AND SUBSIDIARIES

FINANCIAL CONDITION

December 31, 2001 versus September 30, 2001

Working capital at December 31, 2001 was \$426.6 million, a decrease of \$60.0 million from \$486.6 million at September 30, 2001. The resulting ratio of current assets to current liabilities was 2.16 to 1.00 at December 31, 2001 compared to 2.25 to 1.00 at September 30, 2001. The decrease in working capital and the ratio of current assets to current liabilities was primarily due to the acquisition of full-service beauty supply distributors by Sally Beauty Company during the first quarter of fiscal year 2002, primarily Armstrong-McCall.

Cash and cash equivalents decreased \$110.5 million during the first quarter of fiscal year 2002 primarily due to the acquisition of full-service beauty supply distributors by Sally Beauty Company and capital expenditures.

Inventories increased \$27.3 million to \$505.6 million during the first quarter of fiscal year 2002 mainly due to the acquisition of full-service beauty supply distributors and the growth of Sally Beauty Company.

Net goodwill increased \$68.1 million during the first three months of fiscal year 2002 mainly due to goodwill from acquisitions during the quarter, partially offset by the effects of foreign exchange rates.

Accounts payable increased \$15.4 million to \$206.8 million during the first three months of fiscal year 2002 mainly due to the timing of inventory purchases and vendor payments.

Accrued expenses decreased \$27.8 million during the first quarter of fiscal year 2002 primarily due to payments under various incentive plans and semi-annual interest payments on the company's \$320 million of public debt securities.

Accumulated other comprehensive income - foreign currency translation increased \$16.4 million primarily due to the effect of the devaluation of the Argentine Peso. The balance sheet for the company's Argentine operations was translated into U.S. dollars using an exchange rate of 1.65 Argentine Pesos to the dollar

Edgar Filing: ALBERTO CULVER CO - Form 10-Q

as of December 31, 2001 versus 1.00 Argentine Pesos to the dollar as of September 30, 2001.

NEW ACCOUNTING PRONOUNCEMENTS

In June 2001, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 141, "Business Combinations" and SFAS No. 142, "Goodwill and Other Intangible Assets." SFAS No. 141 addresses financial accounting and reporting for business combinations. SFAS No. 142 addresses financial accounting and reporting for acquired goodwill and other intangible assets, requires companies to discontinue the amortization of goodwill and certain other intangible assets and requires an impairment test of existing goodwill and certain other intangible assets based on a fair value method. The company adopted SFAS No. 141 in the fourth quarter of fiscal year 2001. The company also adopted SFAS No. 142 in the fourth quarter of fiscal year 2001 for new acquisitions and in the first quarter of fiscal year 2002 for previously acquired intangibles. In accordance with SFAS No. 142, the company determined that its trade names have indefinite lives and, therefore, the amortization of trade names was discontinued effective October 1, 2001. Based on the results of the company's transitional impairment testing, no impairment of indefinite-lived trade names existed at October 1, 2001. In addition, as required by SFAS No. 142, the company ceased the amortization of goodwill effective October 1, 2001. The company's initial impairment testing of goodwill is required to be completed by the end of the second quarter of fiscal year 2002.

In connection with the adoption of EITF Issue Nos. 00-14 and 00-25, the company reclassified certain amounts for the first quarter of fiscal year 2001 to conform to the current year presentation resulting in a \$29.7 million reduction in net sales, a \$2.1 million increase in cost of products sold and a \$31.8 million decrease in promotion expense. Consolidated net earnings were not affected by these reclassifications.

In August, 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." SFAS No. 144 addresses financial accounting and reporting for the impairment or disposal of long-lived assets, including the presentation of discontinued operations in the statement of earnings. The company is required to adopt the provisions of SFAS No. 144 no later than the first quarter of fiscal year 2003 and does not expect its implementation to have a material effect on the consolidated financial statements.

FORWARD - LOOKING STATEMENTS

This Quarterly Report on Form 10-Q and the documents incorporated by reference herein, if any, may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such statements are based on management's current expectations and assessments of risks and uncertainties and reflect various assumptions concerning anticipated results, which may or may not prove to be correct. Some of the factors that could cause actual results to differ materially from estimates or projections contained in such forward-looking statements include the pattern of brand sales, including variations in sales volume within periods; competition within the relevant product markets, including pricing, promotional activities, continuing customer acceptance of existing products, loss of distributorship rights and the ability to develop and successfully introduce new products; risks inherent in acquisitions and strategic alliances;

the effects of a prolonged United States or global economic downturn or
