

ALLIED CAPITAL CORP

Form 10-Q/A

June 12, 2002

FORM 10-Q/A

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, DC 20549

QUARTERLY REPORT PURSUANT TO

**SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934**

For The Quarterly Period

**Ended March 31, 2002 Commission File Number:
0-22832**

ALLIED CAPITAL CORPORATION

(Exact Name of Registrant as Specified in its Charter)

Maryland

(State or Jurisdiction of

Incorporation or Organization) 52-1081052

*(IRS Employer
Identification No.)*

1919 Pennsylvania Avenue, N.W.

Washington, DC 20006

(Address of Principal Executive Offices)

Registrant's telephone number, including area code: (202) 331-1112

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 12 of 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter periods as the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YES NO

On May 2, 2002 there were 101,930,554 shares outstanding of the Registrant's common stock, \$0.0001 par value.

EXPLANATORY NOTE

This Form 10-Q/A amends the Registrant's quarterly report on Form 10-Q for the quarter ended March 31, 2002, as filed with the Securities and Exchange Commission on May 8, 2002, and is being filed to include a report of the Registrant's independent auditors regarding the review of the Registrant's interim financial statements. In addition, the Form 10-Q/A includes disclosure regarding the filing of several class action lawsuits against the Registrant alleging

violations of the securities laws.

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Information at and for the three months ended March 31, 2002 and 2001 is unaudited)

Note 1. Organization

Allied Capital Corporation, a Maryland corporation, is a closed-end management investment company that has elected to be regulated as a business development company (BDC) under the Investment Company Act of 1940 (1940 Act). Allied Capital Corporation (ACC) has a subsidiary that has also elected to be regulated as a BDC, Allied Investment Corporation (Allied Investment), which is licensed under the Small Business Investment Act of 1958 as a Small Business Investment Company (SBIC). In addition, ACC has a real estate investment trust subsidiary, Allied Capital REIT, Inc. (Allied REIT), and several subsidiaries which are single-member limited liability companies established primarily to hold real estate properties. In April 2001, ACC established a subsidiary, A.C. Corporation (AC Corp), which provides diligence and structuring services on private finance and commercial real estate transactions, as well as structuring, transaction, management and advisory services to the Company, its portfolio companies and other third parties.

Allied Capital Corporation and its subsidiaries, collectively, are hereinafter referred to as the Company.

In accordance with specific rules prescribed for investment companies, subsidiaries hold investments on behalf of the Company or provide substantial services to the Company. Portfolio investments are held for purposes of deriving investment income and future capital gains. The Company consolidates the results of its subsidiaries for financial reporting purposes. The financial results of the Company's portfolio investments are not consolidated in the Company's financial statements.

The investment objective of the Company is to achieve current income and capital gains. In order to achieve this objective, the Company invests in private and undervalued public companies and commercial mortgage-backed securities (CMBS) in a variety of industries and in diverse geographic locations.

Note 2. Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements include the accounts of the Company and its subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation. Certain reclassifications have been made to the 2001 balances to conform with the 2002 financial statement presentation.

The accompanying unaudited consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information. Accordingly, they do not include all of the information and footnotes required by GAAP for complete consolidated financial statements. In the opinion of management, the unaudited consolidated financial results of the Company included herein contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position of the Company as of March 31, 2002 and the results of operations, changes in net assets, and cash flows for the three months ended March 31, 2002 and 2001. The results of operations for the three months ended March 31, 2002 are not necessarily indicative of the operating results to be expected for the full year.

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2. Summary of Significant Accounting Policies, continued

Valuation of Portfolio Investments

The Company, as a BDC, invests primarily in illiquid securities including the debt and equity of private companies and non-investment grade CMBS. The Company's investments are generally subject to restrictions on resale and generally have no established trading market. The Company values its securities at fair value as determined in good faith by the Company's Board of Directors in accordance with the Company's valuation policy. The Company determines fair value to be the amount for which an investment could be exchanged in an orderly disposition over a reasonable period of time between willing parties other than in a forced or liquidation sale. The Company's valuation policy considers the fact that privately negotiated securities increase in value over a long period of time, that the Company does not intend to trade the securities, and that no ready market exists. The Company's valuation policy is intended to provide a consistent basis for establishing the fair value of the portfolio. The Company will record unrealized depreciation on investments when it believes that an asset has been impaired and full collection for the loan or realization of an equity security is doubtful. Conversely, the Company will record unrealized appreciation if it has a clear indication that the underlying portfolio company has appreciated in value and, therefore, the Company's security has also appreciated in value. Under its valuation policy, the Company does not consider temporary changes in the capital markets, such as interest rate movements or changes in the public equity markets, in order to determine whether an investment in a private company has been impaired or whether a private investment has increased in value. The value of investments in public securities are determined using quoted market prices discounted for illiquidity and restrictions on resale.

Loans and Debt Securities

For loans and debt securities, value normally corresponds to cost unless the borrower's condition or external factors lead to a determination of value at a lower amount.

When the Company receives nominal cost warrants or free equity securities (nominal cost equity), the Company allocates its cost basis in its investment between its debt securities and its nominal cost equity at the time of origination. At that time, the original issue discount basis of the nominal cost equity is recorded by increasing the cost basis in the equity and decreasing the cost basis in the related debt securities.

Interest income is recorded on an accrual basis to the extent that such amounts are expected to be collected. Loan origination fees, original issue discount and market discount are capitalized and then amortized into interest income using the effective interest method. The weighted average yield on loans and debt securities is computed as the (a) annual stated interest rate earned plus the annual amortization of loan origination fees, original issue discount and market discount earned on accruing loans and debt securities, divided by (b) total loans and debt securities at value. The weighted average yield is computed as of the balance sheet date. Prepayment premiums are recorded on loans when received.

Equity Securities

Equity interests in portfolio companies for which there is no liquid public market are valued based on various factors, including cash flow from operations and other pertinent factors such as

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2. Summary of Significant Accounting Policies, continued

recent offers to purchase a portfolio company's securities or other liquidation events. The determined values are generally discounted to account for liquidity issues and minority control positions.

The value of the Company's equity interests in public companies for which market prices are readily available is based upon the average of the closing public market price for the last three trading days up to and including the balance sheet date. Securities that carry certain restrictions on sale are typically valued at a discount from the public market value of the security. Dividend income is recorded on cumulative preferred equity securities on an accrual basis to the extent that such amounts are expected to be collected and on common equity securities on the record date for private companies or on the ex-dividend date for publicly traded companies.

Commercial Mortgage-Backed Securities (CMBS)

CMBS are carried at fair value. Fair value is based upon a discounted cash flow model which utilizes prepayment and loss assumptions based upon historical experience, economic factors and the characteristics of the underlying cash flow. The Company's assumption with regard to discount rate is based upon the yield of comparable securities. The Company recognizes income from the amortization of original issue discount using the effective interest method, using the anticipated yield over the projected life of the investment. Yields are revised when there are changes in estimates of future credit losses, actual losses incurred, and actual and estimated prepayment speeds. Changes in estimated yield are recognized as an adjustment to the estimated yield over the remaining life of the CMBS from the date the estimated yield is changed. The Company recognizes unrealized depreciation on its CMBS whenever it determines that the value of its CMBS is less than the cost basis. The Company generally invests in CMBS bonds with the intention of holding the bonds to their maturity.

Residual Interest

The Company values its residual interest from a previous securitization and recognizes income using the same accounting policies used for the CMBS. The residual interest spread is carried at fair value based on discounted estimated future cash flows. The Company recognizes income from the residual interest spread using the effective interest method. At each reporting date, the effective yield is recalculated and used to recognize income until the next reporting date.

Net Realized and Unrealized Gains

Realized gains or losses are measured by the difference between the net proceeds from the sale and the cost basis of the investment without regard to unrealized gains or losses previously recognized, and include investments charged off during the year, net of recoveries. Unrealized gains or losses reflect the change in portfolio investment values during the reporting period.

Fee Income

Fee income includes fees for diligence, structuring, transaction services, management services and investment advisory services rendered by the Company to portfolio companies and other third parties. Diligence, structuring and

transaction services fees are generally recognized as income when services are rendered or when the related transactions are completed. Management and investment advisory services fees are generally recognized as income as the services are rendered.

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2. Summary of Significant Accounting Policies, continued

Deferred Financing Costs

Financing costs are based on actual costs incurred in obtaining financing and are deferred and amortized as part of interest expense over the term of the related debt instrument.

Derivative Financial Instruments

The Company may or may not use derivative financial instruments to reduce interest rate risk. The Company has established policies and procedures for risk assessment and the approval, reporting and monitoring of derivative financial instrument activities. The Company does not hold or issue derivative financial instruments for trading purposes. All derivative financial instruments are recorded at fair value with changes in value reflected in net unrealized gains or losses during the reporting period.

Cash and Cash Equivalents

Cash and cash equivalents include cash in banks and all highly liquid investments with original maturities of three months or less.

Dividends to Shareholders

Dividends to shareholders are recorded on the record date.

Federal and State Income Taxes

The Company intends to comply with the requirements of the Internal Revenue Code (Code) that are applicable to regulated investment companies (RIC) and real estate investment trusts (REIT). The Company and its subsidiaries that qualify as a RIC or a REIT intend to annually distribute or retain through a deemed distribution all of their taxable income to shareholders; therefore, the Company has made no provision for income taxes for these entities. AC Corp is a corporation subject to federal and state income taxes and records a provision for income taxes as appropriate.

Per Share Information

Basic earnings per share is calculated using the weighted average number of shares outstanding for the period presented. Diluted earnings per share reflects the potential dilution that could occur if options to issue common stock were exercised into common stock. Earnings per share is computed after subtracting dividends on preferred shares.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3. Portfolio

Private Finance

At March 31, 2002 and December 31, 2001, the private finance portfolio consisted of the following:

	2002			2001		
	Cost	Value	Yield	Cost	Value	Yield
(\$ in thousands)						
Loans and debt securities	\$ 1,174,491	\$ 1,105,798	14.3%	\$ 1,169,673	\$ 1,107,890	14.8%
Equity interests						
394,213 499,093 384,293 487,182						
Total	\$1,568,704	\$1,604,891		\$1,553,966	\$1,595,072	

Private finance investments are generally structured as loans and debt securities that carry a relatively high fixed rate of interest, which may be combined with equity features, such as conversion privileges, or warrants or options to purchase a portion of the portfolio company's equity at a pre-determined strike price, which is generally a nominal price for warrants or options in a private company.

Debt securities typically have a maturity of five to ten years, with interest-only payments in the early years and payments of both principal and interest in the later years, although debt maturities and principal amortization schedules vary.

Equity interests consist primarily of securities issued by privately owned companies and may be subject to restrictions on their resale or may be otherwise illiquid. Equity securities generally do not produce a current return, but are held in anticipation for investment appreciation and ultimate gain on sale.

At March 31, 2002 and December 31, 2001, the Company had an investment totaling \$229,688,000 and \$227,449,000, respectively, in Business Loan Express, Inc. (BLX), a small business lender that participates in the SBA Section 7(a) Guaranteed Loan Program. The Company owns 94.9% of BLX 's common stock. As the controlling shareholder of BLX, the Company has provided an unconditional guaranty to the BLX credit facility lenders in an amount up to 50% of the total obligations (consisting of principal, accrued interest and other fees) on BLX 's 3-year unsecured revolving credit facility for \$124,000,000. The amount guaranteed by the Company at March 31, 2002 was \$51,460,000. This guaranty can be called by the lenders only in the event of a default by BLX. BLX was in compliance with the terms of its credit facility at March 31, 2002. In consideration for providing this guaranty, BLX will pay the Company an annual guaranty fee of \$3,100,000 in 2002. BLX is headquartered in New York, NY.

At March 31, 2002, the Company had an investment in The Hillman Companies, Inc. (formerly SunSource, Inc.) totaling \$97,702,000. The Company owns 93.2% of Hillman 's common stock. Hillman is a leading manufacturer of key making equipment and distributor of key blanks, fasteners, signage and other small hardware components to hardware retailers, and its primary operations are located in Cincinnati, Ohio.

At March 31, 2002 and December 31, 2001, approximately 98% of the Company 's private finance loan portfolio was composed of fixed interest rate loans. At March 31, 2002 and December 31, 2001, loans and debt securities with a value of \$111,291,000 and \$93,744,000, respectively, were not accruing interest. Loans greater than 120 days delinquent generally do not accrue interest.

The non-investment grade and unrated tranches of the CMBS bonds in which the Company invests are junior in priority for payment of principal to the more senior tranches of the related CMBS bond issuance. Cash flow from the underlying mortgages generally is allocated first to the senior tranches, with the most senior tranches having a priority right to the cash flow. Then, any remaining cash flow is allocated, generally, among the other tranches in order of their relative seniority. To the extent there are defaults and unrecoverable losses on the underlying mortgages resulting in reduced cash flows, the Company's most subordinate tranche will bear this loss first. At March 31, 2002, the Company's CMBS bonds were subordinate to 93% to 97% of the tranches of various CMBS bond issuances. At March 31, 2002, 0.56% of the underlying collateral loans were over 30 days delinquent.

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES

At March 31, 2002 and December 31, 2001, the CMBS bonds were secured by approximately 4,000 and 3,800 commercial mortgage loans with a total outstanding principal balance of \$21.2 billion and \$20.5 billion, respectively. The geographic composition and the property types of the underlying mortgage loans securing the CMBS calculated using the outstanding principal balance at March 31, 2002 and December 31, 2001 were as follows:

The Company's yield on its CMBS bonds is based upon a number of assumptions that are subject to certain business and economic uncertainties and contingencies. Examples include the timing and magnitude of credit losses on the mortgage loans underlying the CMBS that are a result of the general condition of the real estate market (including competition for tenants and their related credit quality) and changes in market rental rates. The initial yield on each CMBS bond has been computed assuming an approximate 1% loss rate on its entire underlying collateral mortgage pool,

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3. Portfolio, continued

with the estimated losses being assumed to occur in three equal installments in years three, six and nine. As each CMBS bond ages, the amount of losses and the expected timing of recognition of such losses will be updated, and the respective yield will be adjusted as necessary. As these uncertainties and contingencies are difficult to predict and are subject to future events which may alter these assumptions, no assurance can be given that the anticipated yields to maturity will be achieved.

Collateralized Debt Obligations. At March 31, 2002, the Company owned preferred shares in two collateralized debt obligations (CDOs) secured by investment grade unsecured debt issued by various real estate investment trusts (REITs) and non-investment grade CMBS bonds. The investment grade REIT debt collateral consists of \$631,855,000 issued by 36 REITs. The non-investment grade CMBS collateral consists of BB+, BB and BB- CMBS bonds with a face amount of \$368,145,000 that were issued in 28 separate CMBS transactions (CMBS Collateral). Included in the CMBS Collateral for the CDO, \$323,183,000 of these CMBS bonds are senior in priority of repayment to certain lower rated CMBS bonds held by the Company, which were issued in 22 separate CMBS transactions. The preferred shares are junior in priority for payment of principal to the more senior tranches of debt issued by the CDOs. To the extent there are defaults and unrecoverable losses on the underlying collateral resulting in reduced cash flows, the preferred shares will bear this loss first. At March 31, 2002, the Company's preferred shares in the CDOs were subordinate to approximately 92% of the more senior tranches of debt issued by the CDOs. The yield on the CDOs at March 31, 2002 was 17.3%.

The Company acts as the disposition consultant with respect to the CDOs, which allows the Company to approve disposition plans for individual collateral securities. For these services, the Company collects annual fees based on the outstanding collateral pool balance, and for the quarter ended March 31, 2002, this fee totaled \$37,000.

Loans

The commercial mortgage loan portfolio contains loans that were originated by the Company or were purchased from third-party sellers.

At March 31, 2002 and December 31, 2001, approximately 75% and 25% and 76% and 24% of the Company's commercial mortgage loan portfolio was composed of fixed and adjustable interest rate loans, respectively. As of March 31, 2002 and December 31, 2001, loans with a value of \$10,556,000 and \$15,241,000, respectively, were not accruing interest. Loans greater than 120 days delinquent generally do not accrue interest.

The geographic composition and the property types securing the commercial mortgage loan portfolio at value at March 31, 2002 and December 31, 2001 were as follows:

	<u>2002</u>	<u>2001</u>
Geographic Region		
Southeast

Residual Interest

At March 31, 2002 and December 31, 2001, the residual interest consisted of the following:

	2002		2001	
	Cost	Value	Cost	Value
(in thousands)				
Residual interest	\$68,853	\$68,853	\$68,853	\$68,853
Residual interest spread				
827 527 1,326 1,026				
Total	\$69,680	\$69,380	\$70,179	\$69,879

The residual interest primarily consists of a retained interest totaling \$68,853,000 from a 1998 asset securitization whereby bonds were sold in three classes rated AAA, AA and A. The residual interest represents a right to cash flows from the underlying collateral pool of loans after these senior bond obligations are satisfied.

The Company sold \$295 million of loans, and received cash proceeds, net of costs, of approximately \$223 million. The Company retained a trust certificate for its residual interest in the loan pool sold, and will receive interest income from this residual interest as well as the residual interest spread (Residual) from the interest earned on the loans sold less the interest paid on the bonds over the life of the bonds. As of March 31, 2002 and December 31, 2001, the mortgage loan pool had an approximate weighted average stated interest rate of 9.3%. The three bond classes sold had an aggregate weighted average interest rate of 6.7% and 6.6% as of March 31, 2002 and December 31, 2001, respectively.

The Company uses a discounted cash flow methodology for determining the value of its retained Residual. In determining the cash flow of the Residual, the Company assumes a prepayment speed of 15% after the applicable prepayment lockout period and credit losses of 1% or approximately \$1.1 million of the total principal balance of the underlying collateral throughout the life of the collateral. These assumptions result in an expected weighted average life of the bonds of 0.5 years. The value of the resulting Residual cash flows is then determined by applying a discount rate of 9% which, in the Company's view, is commensurate with the market's perception of risk of comparable assets.

\$1,410,856 \$933,056 \$1,380,856 \$1,020,806

Notes Payable and Debentures

Unsecured Long-Term Notes Payable. The Company issued unsecured long-term notes to private institutional investors. The notes require semi-annual interest payments until maturity and have original terms of five or seven years. At March 31, 2002, the notes had remaining maturities of one to four years. The weighted average fixed interest rate on the notes was 7.6% at March 31, 2002 and December 31, 2001. The notes may be prepaid in whole or in part, together with an interest premium, as stipulated in the note agreement.

SBA Debentures. At March 31, 2002 and December 31, 2001, the Company had debentures payable to the SBA with terms of ten years and at fixed interest rates ranging from 5.9% to 8.2% and 2.4% to 8.2%, respectively. At March 31, 2002, the debentures had remaining maturities of three to ten years. The weighted average interest rate was 7.0% and 6.7% at March 31, 2002 and December 31, 2001, respectively. The debentures require semi-annual interest-only payments with all principal due upon maturity. The SBA debentures are subject to prepayment penalties if paid prior to maturity.

Auction Rate Reset Note. The Company has an Auction Rate Reset Senior Note Series A that matures on December 2, 2002, and bears interest at the three-month London Interbank Offered Rate (LIBOR) plus 1.75%, which adjusts quarterly. Interest is due quarterly and the Company, at its option, may pay or defer and capitalize such interest payments. The amount outstanding on the note will increase as interest due is deferred and capitalized.

As a means to repay the note, the Company has entered into an agreement to issue debt, equity or other securities in one or more public or private transactions in an amount at least equal to the outstanding principal balance, or prepay the note, on or before August 31, 2002. If the note is prepaid, the Company will pay a fee equal to 0.5% of the aggregate amount of the note outstanding.

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 4. Debt, continued

Scheduled future maturities of notes payable and debentures at March 31, 2002, are as follows:

Revolving Line of Credit

The Company has an unsecured revolving line of credit for \$527,500,000. The facility may be expanded up to \$600,000,000 at the Company's option. The facility bears interest at a rate equal to (i) the one-month LIBOR plus 1.25% or (ii) the higher of (a) the Bank of America, N.A. prime rate or (b) the Federal Funds rate plus 0.50%. The interest rate adjusts at the beginning of each new interest period, usually every thirty days. The interest rate was 3.2% at March 31, 2002 and December 31, 2001, and the facility requires an annual commitment fee equal to 0.25% of the committed amount. The line expires in August 2003, and may be extended under substantially similar terms for one additional year at the Company's sole option. The line of credit requires monthly interest payments and all principal is due upon its expiration.

The average debt outstanding on the revolving line of credit was \$62,292,000 and \$106,338,000 for the three months ended March 31, 2002 and for the year ended December 31, 2001, respectively. The maximum amount borrowed under this facility and the weighted average interest rate for the three months ended March 31, 2002 and for the year ended December 31, 2001, were \$145,250,000 and \$213,500,000, and 3.2% and 5.4%, respectively.

The Company has various financial and operating covenants required by the revolving line of credit and the notes payable and debentures. These covenants require the Company to maintain certain financial ratios, including debt to equity and interest coverage, and a minimum net worth. As of March 31, 2002, the Company was in compliance with these covenants.

Note 5. Preferred Stock

Allied Investment has outstanding a total of 60,000 shares of \$100 par value, 3% cumulative preferred stock and 10,000 shares of \$100 par value, 4% redeemable cumulative preferred stock issued to the SBA pursuant to Section 303(c) of the Small Business Investment Act of 1958, as amended. The 3% cumulative preferred stock does not have a required redemption date. Allied Investment has the option to redeem in whole or in part the preferred stock by paying the SBA the par value of such securities and any dividends accumulated and unpaid to the date of redemption. The 4% redeemable cumulative preferred stock has a required redemption date in June 2005.

(650) (14,651)		
<hr/>		
<hr/>		
Net proceeds		
\$19,950 \$286,888		
<hr/>		
<hr/>		

In addition, the Company issued 204,855 shares of common stock with a value of \$5,157,000 to acquire one portfolio investment in a stock-for-stock exchange during 2001.

The Company has a dividend reinvestment plan, whereby the Company may buy shares of its common stock in the open market or issue new shares in order to satisfy dividend reinvestment requests. If the Company issues new shares, the issue price is equal to the average of the closing sale prices reported for the Company's common stock for the five consecutive days immediately prior to the dividend payment date.

Dividend reinvestment plan activity for the three months ended March 31, 2002 and for the year ended December 31, 2001 was as follows:

For the three months ended March 31, 2002 and for the year ended December 31, 2001 the Company paid \$5,860,000 and \$63,237,000, respectively, for interest. For the three months ended March 31, 2002 and for the year ended December 31, 2001, the Company's non-cash financing activities totaled \$3,029,000 and \$17,523,000, respectively, and includes the issuance of common stock related to the acquisition of portfolio investments, stock option exercises and dividend reinvestment. The non-cash financing activities for the year ended December 31, 2001 includes the issuance of \$5,157,000 of the Company's common stock to acquire portfolio investments.

ALLIED CAPITAL CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 11. Hedging Activities

The Company invests in BB+, BB and BB- CMBS bonds, which are purchased at prices that are based on the 10-year Treasury rate. The Company has entered into transactions with a financial institution to hedge against movement in Treasury rates on certain of these CMBS bonds. These transactions involved the Company receiving the proceeds from the sale of borrowed Treasury securities, with the obligation to replenish the borrowed Treasury securities at a later date based on the then current market price. The Company recorded the proceeds of the sale of the borrowed Treasury securities of \$39,010,000 as an other asset, and the related obligation to replenish the borrowed Treasury securities of \$38,012,000, which represents the fair value of the obligation, as an other liability at March 31, 2002. The difference between the sales proceeds and the related obligation of \$998,000 was recorded as an unrealized gain in the first quarter of 2002.

Note 12. Subsequent Events

As of June 10, 2002, we are aware of five purported class action lawsuits that have been filed in the United States District Court for the Southern District of New York against us, certain of our directors and officers and our former independent auditors, Arthur Andersen LLP, with respect to alleged violations of the securities laws. We have not yet been formally served with the complaints in connection with these lawsuits. All of the actions essentially duplicate one another, pleading essentially the same allegations. The complaints filed in the lawsuits allege violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 and Rule 10b-5 promulgated thereunder, specifically alleging, among other things, that we misstated the value of certain portfolio investments in our financial statements, which allegedly resulted in the purchase of our common stock by purported class members at artificially inflated prices. Several of the complaints also allege state law claims for common law fraud. The lawsuits seek compensatory and other damages, and costs and expenses associated with the litigation. We believe that each of the lawsuits is without merit, and we intend to defend each of these lawsuits vigorously. While we do not expect these matters to materially affect our financial condition or results of operations, there can be no assurance of any particular outcome.

Independent Accountants Review Report

The Board of Directors and Shareholders
Allied Capital Corporation and Subsidiaries:

We have reviewed the accompanying consolidated balance sheet of Allied Capital Corporation and subsidiaries, including the consolidated statement of investments, as of March 31, 2002, and the related consolidated statements of operations, changes in net assets and cash flows for the three-month period ended March 31, 2002, and financial highlights (included in Note 9) for the three months ended March 31, 2002. These consolidated financial statements and financial highlights are the responsibility of the Company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the consolidated financial statements and financial highlights referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

The consolidated balance sheet of Allied Capital Corporation and subsidiaries, including the statement of investments, as of December 31, 2001, and financial highlights (included in note 9) for the year then ended, were audited by other auditors whose report dated February 20, 2002 expressed an unqualified opinion on those statements.

/s/ KPMG LLP

Washington, D.C.
April 22, 2002, except as to note 12 which is
as of June 10, 2002

PART II. OTHER INFORMATION**Item 1. Legal Proceedings**

As of June 10, 2002, we are aware of five purported class action lawsuits that have been filed in the United States District Court for the Southern District of New York against us, certain of our directors and officers and our former independent auditors, Arthur Andersen LLP, with respect to alleged violations of the securities laws. We have not yet been formally served with the complaints in connection with these lawsuits. All of the actions essentially duplicate one another, pleading essentially the same allegations. The complaints filed in the lawsuits allege violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 and Rule 10b-5 promulgated thereunder, specifically alleging, among other things, that we misstated the value of certain portfolio investments in our financial statements, which allegedly resulted in the purchase of our common stock by purported class members at artificially inflated prices. Several of the complaints also allege state law claims for common law fraud. The lawsuits seek compensatory and other damages, and costs and expenses associated with the litigation. We believe that each of the lawsuits is without merit, and we intend to defend each of these lawsuits vigorously. While we do not expect these matters to materially affect our financial condition or results of operations, there can be no assurance of any particular outcome.

The Company also is party to certain other lawsuits in the normal course of business. While the outcome of these legal proceedings cannot at this time be predicted with certainty, the Company does not expect that these proceedings will have a material effect upon the Company's financial condition or results of operations.

Item 6. Exhibits and Reports on Form 8-K

(a) List of Exhibits

Exhibit Number	Description
15	Letter from KPMG LLP dated June 10, 2002

(b) Reports on Form 8-K.

On April 3, 2002, Allied Capital filed a Form 8-K reporting that it had selected KPMG LLP to serve as its independent public accountants for the fiscal year December 31, 2002 and dismissed Arthur Andersen LLP as its public accountants effective upon completion of the December 31, 2001 audit.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunder duly authorized.
