STELLENT, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

NOTE 1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions in Form 10-Q and Article 10 of Regulation S-X. In the opinion of management, all

Edgar Filing: STELLENT INC - Form 10-Q

adjustments, consisting only of normal recurring adjustments have been recorded as necessary to present fairly the Company's consolidated financial position, results of operations and cash flow for the periods presented. These financial statements should be read in conjunction with the Company's audited consolidated financial statements included in the Company's Fiscal Year 2002 Annual Report on Form 10-K. The consolidated results of operations for the period ended June 30, 2002 are not necessarily indicative of the results that may be expected for any future period.

NOTE 2. USE OF ESTIMATES

The preparation of these financial statements requires that the Company make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. On an ongoing basis, the Company evaluates its estimates including those related to revenue recognition, allowance for bad debts, income taxes, commission expense accrual, and useful lives of intangible assets and property and equipment, among others. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from the estimates made by management with respect to these items and other items that require management's estimates.

NOTE 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation: The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All significant intercompany transactions and balances have been eliminated.

Revenue Recognition: The Company currently derives all of its revenues from licenses of software products and related services. The Company recognizes revenue in accordance with Statement of Position (SOP) 97-2, Software Revenue Recognition, as amended by SOP 98-9, Modification of SOP 97-2, Software Revenue Recognition with Respect to Certain Transactions, and Securities and Exchange Commission Staff Accounting Bulletin 101, Revenue Recognition in Financial Statements.

Product license revenue is recognized under SOP 97-2 when (i) persuasive evidence of an arrangement exists, for example, a signed agreement or purchase order, (ii) delivery has occurred, as evidenced by shipping documents and customer acceptance, (iii) the fee is fixed or determinable and payable within twelve months, (iv) collectibility is probable and supported by credit checks or past payment history, and the arrangement does not require services that are essential to the functionality of the software. Services revenue consists of fees from consulting and post-contract customer support. Consulting services include needs assessment, software integration, security analysis, application development and training. The Company bills consulting fees either on a time and materials basis or on a fixed-price schedule. The Company's customers typically purchase maintenance agreements annually, and the Company prices maintenance agreements based on a percentage of the product license fee. Customers purchasing maintenance agreements receive product upgrades, Web-based technical support and telephone hot-line support. The Company recognizes revenue from maintenance agreements ratably over the term of the agreement, typically one year.

Customer advances and billed amounts due from customers in excess of revenue recognized are recorded as deferred revenue.

Cost of Revenues: The Company expenses all manufacturing, packaging and distribution costs associated with product license revenue as cost of revenues.

Edgar Filing: STELLENT INC - Form 10-Q

The Company also expenses all technical support service costs associated with service revenue as cost of revenues.

Cash and Equivalents: The Company considers all short-term, highly liquid investments that are readily convertible

6

STELLENT, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

into known amounts of cash and have original maturities of three months or less to be cash equivalents.

Marketable Securities: Investments in debt securities with a remaining maturity of one year or less at the date of purchase are classified as short-term marketable securities. Investments in debt securities with a remaining maturity of greater than one year are classified as long-term marketable securities. All investments are classified as held to maturity and recorded at amortized cost as the Company has the ability and positive intent to hold to maturity.

Investments in and Notes with Other Companies: Investments in other equity securities and related notes with other companies in the software industry are classified as long-term as the Company anticipates holding them for more than one year. The Company holds a less than 20% interest in, and does not directly or indirectly exert significant influence over, any of the respective investees.

One of these investments is publicly traded and is deemed by management to be available for sale. The Company uses the specific identification method to determine cost and fair value for computing gains and losses. Accordingly, this investment is reported at fair value with net unrealized gains or losses reported within shareholders' equity as accumulated other comprehensive income (loss). No sales of available for sale investments have occurred through June 30, 2002. Investments in other companies also include investments in several non-public, start-up technology companies for which the Company uses the cost method of accounting.

Accounts Receivable: One customer accounted for 10% or more of the Company's revenues for the three months ended June 30, 2002 and no customer accounted for 10% or more of the Company's revenues for the three months ended June 30, 2001. Credit is extended based on an evaluation of the customer's financial condition and a cash deposit is generally not required. The Company estimates its probable losses on trade receivables on an ongoing basis and provides for anticipated losses in the period in which the revenues are recognized. Credit losses have historically been within management's expectations.

Property and Equipment: Property and equipment, including leasehold improvements, are recorded at cost. Depreciation is provided using the straight-line method over the estimated useful lives of the assets, ranging from two to eight years, or the life of the lease for leasehold improvements, whichever is shorter. Maintenance, repairs and minor renewals are expensed when incurred.

Goodwill and Other Acquired Intangible Assets: On July 20, 2001, the Financial

Edgar Filing: STELLENT INC - Form 10-Q

Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 141, "Business Combinations" and SFAS No. 142, "Goodwill and Other Intangible Assets." SFAS No. 141 is effective for all business combinations completed after June 30, 2001. SFAS No. 142 is effective for fiscal years beginning after December 15, 2001; however, certain provisions of this Statement apply to goodwill and other intangible assets acquired between July 1, 2001, and the effective date of SFAS No. 142.

As a result of adopting SFAS No. 141 and SFAS No. 142, the Company's accounting policies for goodwill and other intangibles changed effective April 1, 2002 as described below:

Goodwill: The Company recognizes the excess cost of an acquired entity over the net amount assigned to assets acquired and liabilities assumed as goodwill. Goodwill will be tested for impairment on an annual basis and between annual tests whenever there is an impairment indicated. Impairment losses will be recognized whenever the implied fair value of goodwill is less than its carrying value. Prior to April 1, 2002, goodwill was amortized on a straight-line basis over three years. Beginning April 1, 2002, goodwill is no longer amortized.

Other acquired intangible assets: The Company recognizes an acquired intangible apart from goodwill whenever the asset arises from contractual or other legal rights, or whenever it is capable of being separated or divided from the acquired entity and sold, transferred, licensed, rented, or exchanged, either individually or in combination with a related contract, asset, or liability. An intangible other than goodwill is amortized over its estimated useful life unless that life is determined to be indefinite. Currently, other acquired intangible assets, representing core technology, customer base, capitalized software, trademarks, and other intangible assets acquired through business acquisitions, have been amortized on a straight line basis over three or four years. On April 1, 2002 upon adoption of SFAS 141 and SFAS 142 amortization of workforce, which had previously been classified as an other acquired intangible asset, ceased and the net unamortized balance of approximately \$1.4 million was re-characterized as goodwill.

7

STELLENT, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

Impairment losses are recognized if the carrying amount of an intangible subject to amortization is not recoverable from expected future cash flows and its carrying amount exceeds its fair value. Currently, intangible amortization, which includes amortization of capitalized software and intangible assets from acquisitions, is expected to be approximately \$8.5 million for the year-ended March 31, 2003.

The Company has completed a transitional impairment test of goodwill as of April 1, 2002. No impairment losses resulted from this transitional impairment testing during the quarter ended June 30, 2002.

The following is a summary of what reported net earnings would have been in all periods presented, exclusive of amortization expense recognized in those periods related to goodwill and intangible assets no longer being amortized.

	=====	=====

Edgar Filing: STELLENT INC - Form 10-Q

STELLENT, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

Impairment of Indefinite-Lived Assets: The Company evaluates the recoverability of its long-lived assets, including goodwill, in accordance with Statement of Financial Accounting Standards No. 121, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of. SFAS No. 121 requires recognition of impairment of long-lived assets in the event that events or circumstances indicate an impairment may have occurred and when net book value of such assets exceeds the future undiscounted cash flows attributed to such assets.

In September 2001, the FASB issued SFAS 144, Accounting for the Impairment or Disposal of Long-Lived Assets. This statement supercedes SFAS 121 and was effective April 1, 2002 for the Company. This statement did not have a material effect on the financial statements of the Company, but could have a future effect in the event that an asset impairment occurs.

Software Development Costs: Software development costs may be capitalized once the technological feasibility of the project is established. The amount of software development costs that may be capitalized is subject to limitations based on the net realizable value of the potential product. Typically the period between achieving technological feasibility of the Company's products and the general availability of the products has been short. Consequently, prior to fiscal year 2002, software development costs qualifying for capitalization were immaterial and were generally expensed to research and development costs.

As of June 30, 2002, the Company has approximately \$1.9 million of capitalized software, net of accumulated amortization of approximately \$0.5 million. We are generally amortizing this asset into Cost of Revenues over a three year period. The capitalized software primarily relates to software purchased from a third party or developed for the Company by a third party. The capitalized software is broken down into four main projects, as follows:

- the Content Categorizer is a module sold by us for use in contributing large amounts of text-based content. This software was purchased in the June 30, 2001 quarter;
- the ExtraSite Server is a server sold by us and built on J2EE architecture for high-end web site consumption. We contracted with an outside independent entity to build this for the Company. The product was generally released in the June 30, 2002 quarter;
- the localization of certain of the Content Management Suite of products into French and German was done by an outside entity. These products were generally released in the September 30, 2001 quarter; and
- the OEM group purchased third party software to enhance the Company's development of multiple viewing and conversion products.

Translation of Foreign Currencies: Foreign currency assets and liabilities of

Edgar Filing: STELLENT INC - Form 10-Q

the Company's international subsidiaries are translated using the exchange rates in effect at the balance sheet date. Results of operations are translated using the average exchange rates prevailing throughout the year. The effects of exchange rate fluctuations on translating foreign currency assets and liabilities into U.S. dollars are accumulated as part of the foreign currency translation adjustment in shareholders' equity.

Comprehensive Income (Loss): Comprehensive income (loss) includes foreign currency translation adjustments and unrealized gains or losses on the Company's available-for-sale securities.

Advertising: The Company expenses the cost of advertising as it is incurred.

In June 2001, the Emerging Issues Task Force (EITF) issued EITF Issue No. 00-25, Vendor Income Statement Characterization of Consideration Paid to a Reseller of the Vendor's Products. This issue is effective for periods beginning after December 15, 2001 and addresses whether consideration from a vendor to a reseller is (a) an adjustment of the selling prices of the vendor's products and should be deducted from revenue when recognized or (b) a cost incurred by the vendor for assets or services received from the reseller and should be included as a cost or expense when recognized. The Company enters into cooperative advertising programs with some of its resellers. When the Company receives an identifiable benefit in return for consideration, and the Company can reasonably estimate the fair value of the benefit received, the cooperative advertising is accounted for as advertising expense. If the fair value cannot be estimated or an identifiable benefit is not received the cooperative advertising is accounted

9

STELLENT, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

for as a reduction of revenue. EITF 00-25, was adopted by the Company on April 1, 2002, and did not have a material effect on its consolidated financial statements as the Company's cooperative advertising was already being accounted for as required by EITF 00-25.

Stock-based Compensation: The Company utilizes the intrinsic value method for stock-based compensation. Under this method, compensation expense is recognized for the amount by which the market price of the common stock on the date of grant exceeds the exercise price of an option.

Fair Value of Financial Instruments: The Company's financial instruments including cash and cash equivalents, short-term marketable securities, long-term marketable securities, accounts receivable and accounts payable, are carried at cost, which approximates fair value due to the short-term maturity of these instruments.

Reclassifications: Certain reclassifications have been made to the fiscal 2002 comparative financial statements to conform to the presentation used in fiscal 2003 first quarter financial statements. These reclassifications had no effect on total assets or net income as previously reported.

Edgar Filing: STELLENT INC - Form 10-Q

NOTE 4. BASIC AND DILUTED NET LOSS PER SHARE

Basic net income (loss) per share is computed using the weighted average number of shares of common stock. Diluted net income/(loss) per share is computed using the weighted average number of shares of common stock and common equivalent shares outstanding during the period. Common equivalent shares consist of stock options (using the treasury stock method). Common equivalent shares are excluded from the computation if their effect is anti-dilutive.

Weighted average options to purchase shares of common stock were outstanding during the three months ended June 30, 2002 and 2001 but were excluded from the computation of diluted net loss per share if either the options exercise price was greater than the average market price of the common shares or inclusion of such options would have been anti-dilutive. For the quarter ended June 30, 2002, the Company incurred net losses and therefore, basic and diluted per share amounts are the same as all common equivalent shares are anti-dilutive.

NOTE 5. RESTRUCTURING CHARGES

In the first quarter of fiscal 2003, in connection with management's plan to reduce costs and improve operating efficiencies, the Company recorded a restructuring charge of approximately \$2.5 million. The restructuring charge was comprised primarily of severance pay and benefits related to the involuntary termination of approximately 50 employees of approximately \$2.1 million with the remaining \$0.4 million related to the closing of facilities and other exit costs. At June 30, 2002, \$0.7 million had been accrued and remained to be paid in connection with these charges.

The Company's restructuring charge in the quarter ended June 30, 2002 included an accrual of approximately \$0.1 million for future lease payments, net of estimated sublease income that relates excess leased space. The Company based the accrual and its estimate of sublease income on consultations with real estate professionals in each of the markets where the properties are located to determine the best estimate of the accrual. However, if real estate markets continue to worsen and the Company is not able to sublease the properties as expected, additional adjustments to the accrual may be required, which would result in additional restructuring costs in the period in which such determination is made. Likewise, if the real estate market strengthens, and the Company is able to sublease the properties earlier or at more favorable rates than projected, adjustments to the accrual may be required that would increase net income in the period in which such determination is made.

NOTE 6. SHAREHOLDER RIGHTS PLAN

On May 29, 2002, the Company's Board of Directors approved, adopted and entered into, a shareholder rights plan. The plan is similar to plans adopted by many other companies, and was not adopted in response to any attempt to acquire the Company.

The plan is designed to enable the Company's stockholders to realize the full value of their investment by providing for fair and equal treatment of all stockholders in the event that an unsolicited attempt is made to acquire the

Edgar Filing: STELLENT INC - Form 10-Q

STELLENT, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

company. Adoption of the shareholder rights plan is intended to guard shareholders against abusive and coercive takeover tactics.

Under the plan, shareholders of record as of the close of business on June 13, 2002, will receive one right to purchase one-hundredth of a share of a newly created series of preferred stock at an exercise price of \$75. The rights will be issued as a nontaxable dividend and will expire on June 13, 2012, unless earlier redeemed or exchanged. The rights are not immediately exercisable and will become exercisable only upon the occurrence of a person or group acquiring fifteen percent or more of the Company's common stock. If a person or group acquires fifteen percent or more of the Company's common stock, then all rights holders except the acquirer will be entitled to acquire shares of the Company's common stock having a value of twice the exercise price. The intended effect will be to discourage acquisitions of fifteen percent or more of the Company's common stock without negotiation with the board of directors.

NOTE 7. ACQUISITION

On April 3, 2002, the Company acquired certain assets and assumed certain liabilities of Kinecta Corporation, a provider of software infrastructure for digital networks, for approximately \$2.5 million in cash.

11

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

The following discussion contains forward-looking statements regarding the Company, its business, prospects and results of operations that are subject to certain risks and uncertainties posed by many factors and events that could cause the Company's actual business, prospects and results of operations to differ materially from those that may be anticipated by such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed herein as well as those discussed under the caption Risk Factors. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. The Company undertakes no obligation to revise any forward-looking statements in order to reflect events or circumstances that may subsequently arise. Readers are urged to carefully review and consider the various disclosures made by the Company in this report and in the Company's other reports filed with the Securities and Exchange Commission that advise interested parties of the risks and factors that may affect the Company's business.

OVERVIEW

We develop, market, and service content management software with the primary focus of helping organizations derive maximum value from their content that

Edgar Filing: STELLENT INC - Form 10-Q

exists in the normal course of business such as Microsoft Office documents, Web pages, images, graphics, multimedia, CAD, and other files. Customers deploy Stellent Content Management System to help them leverage this enterprise content while streamlining the process of obtaining or accessing content from content creators and delivering it to content consumers --employees, partners, and customers -- so that informed, timely decisions can be made. In order to accomplish this mission, Stellent Content Management System fits seamlessly into existing business processes as well as into the IT infrastructure. Stellent Content Management System can be deployed to satisfy immediate needs at a line of business or departmental level as well as strategic needs at an enterprise level. Our customers are primarily located throughout the United States and Europe. We are responsible for developing our current business which was founded in 1990. In July 1996, we merged with and into a publicly traded corporation, which was organized under Minnesota law in November 1989. In September 1999, we acquired InfoAccess, Inc. in a transaction accounted for as a pooling-of-interests. In July 2000, we acquired the Information Exchange Division (now called Software Components Division or SCD) of eBT International, Inc. (formerly Inso Corporation) in a transaction accounted for as a purchase. In July 2001, we acquired select assets of RESoft, a leading provider of end-to-end content management solutions for the real estate and legal industries. This acquisition has been accounted for under the purchase method of accounting. On August 29, 2001, we changed our name to Stellent, Inc.

CRITICAL ACCOUNTING POLICIES AND JUDGMENTS

Certain of our accounting policies are particularly important to develop an understanding of our financial position and results of operations. Application of many of these policies requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures. In general, these estimates or judgments are based on the historical experience of our management, prevailing industry trends, information provided by our customers, and information available from other outside sources, each as appropriate. Actual results may differ from these estimates. The Company believes the following critical accounting policies relate to the more significant judgments and estimates used in the preparation of its consolidated financial statements.

Revenue Recognition: We currently derive all of our revenue from licenses of software products and related services. We recognize revenue in accordance with Statement of Position (SOP) 97-2, Software Revenue Recognition, as amended by SOP 98-9, Modification of SOP 97-2, Software Revenue Recognition with Respect to Certain Transactions, and Securities and Exchange Commission Staff Accounting Bulletin 101, Revenue Recognition in Financial Statements.

Product license revenue is recognized under SOP 97-2 when (i) persuasive evidence of an arrangement exists, for example, a signed agreement or purchase order, (ii) delivery has occurred, as evidenced by shipping documents and customer acceptance, (iii) the fee is fixed or determinable and payable within twelve months, (iv) collectibility is probable and supported by credit checks or past payment history, and the arrangement does not require services that are essential to the functionality of the software. Services revenue consists of fees from consulting and post-contract customer support. Consulting services include needs assessment, software integration, security analysis, application development and training. We bill consulting fees either on a time and materials basis or on a fixed-price schedule. Our customers typically purchase post-contract customer support agreements annually, and our prices of post-

Edgar Filing: STELLENT INC - Form 10-Q

contract customer support agreements are based on a percentage of the product license fee. Customers purchasing post-contract customer support agreements receive product upgrades, Web-based technical support and telephone hot-line support. We recognize revenue from maintenance agreements ratably over the term of the agreement, typically one year.

Expenses: Cost of revenues consists of technology royalties, costs to manufacture, package and distribute our products and related documentation, as well as personnel and other expenses related to providing services. Sales and marketing expenses consist primarily of employee salaries, commissions, and costs associated with marketing programs such as advertising, public relations and trade shows. Research and development expenses consist primarily of salaries and related costs associated with the development of new products, the enhancement of existing products and the performance of quality assurance and documentation activities. General and administrative expenses consist primarily of salaries and other personnel-related costs for executive, financial, human resources, information services and other administrative personnel, as well as legal, accounting, insurance costs and provisions for doubtful accounts.

Software Development Cost: Software development costs may be capitalized once the technological feasibility of the project is established. The amount of software development costs that may be capitalized is subject to limitations based on the net realizable value of the potential product. Typically the period between achieving technological feasibility of our products and the general availability of the products has been short. Consequently, prior to fiscal year 2002, software development costs qualifying for capitalization were immaterial and were generally expensed to research and development costs.

Other: Since our inception through June 30, 2002, we have incurred substantial costs to develop and acquire our technology and products, to recruit and train personnel for our sales and marketing, research and development and services departments, and to establish an administrative organization. As a result, we had an accumulated deficit of \$52.1 million at June 30, 2002.

Beginning in 2002, we have implemented several cost cutting measures, including a reduction in work force of approximately 17% since our December 2001 quarter. These cost controlling and reducing measures are in response to the current economic slowdown both in the United States and internationally and were primarily in the research and development, marketing and general and administrative areas. However, we are continuing to invest in the sales area in order to expand our customer base and anticipate that, with evidence of a sustained recovery of the United States and international economies, we would continue to invest further across all areas of our company. Because of this, we anticipate that the percentage of expenses as compared to total revenues represented by sales and marketing expenses, research and development expenses and general and administrative expenses will fluctuate from period to period depending primarily on when we hire new personnel, the timing of certain sales and marketing programs, the research programs that we put in place and the potential expansion of operations. In addition, our limited operating history makes it difficult for us to predict future operating results. We cannot be certain that we will sustain revenue growth.

AMORTIZATION OF INTANGIBLES

We have acquired several companies or business assets since our inception. Under

Edgar Filing: STELLENT INC - Form 10-Q

U.S. generally accepted accounting principles, we have accounted for certain of these acquisitions using the purchase method of accounting. We recorded cash paid and the market value of our common stock issued in connection with them and the amount of direct transaction costs as the cost of acquiring these entities. That cost is allocated among the individual assets acquired and liabilities assumed, including various identifiable intangible assets such as goodwill, in-process research and development, acquired technology, acquired workforce and covenants not to compete, based on their respective fair values. We allocated the excess of the purchase price over the fair value of the net assets to goodwill. The impact of purchase accounting on our results of operations has been significant. During June 2001, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 142 Goodwill and Other Intangible Assets, which became effective for us on April 1, 2002. As a result of the issuance of SFAS No. 142, we ceased amortizing \$12.7 million of goodwill and other indefinite-lived assets as of April 1, 2002. In lieu of amortization of these assets, we are required to perform an initial impairment test of our goodwill in 2002 and annual impairment test thereafter. We completed this review during the first quarter of 2002. Amortization of goodwill and intangibles assets associated with business acquisitions was \$2.1 million and \$3.4 million in the three months ended June 30, 2002 and 2001 respectively. We currently have not recorded an impairment charge based upon the initial impairment test.

13

We assess the impairment of identifiable intangibles, indefinite-lived assets and related goodwill whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors we consider important which could trigger an impairment include the following: significant underperformance of operating results relative to the expected historical or projected future operating results; significant changes in the manner of the use of the acquired assets or the strategy for our overall business; significant negative industry or economic trends; our stock price for a sustained period of time; and our market capitalization relative to our net book value.

When we determine that the carrying value of intangibles, indefinite-lived assets and related goodwill may not be recoverable based on the existence of one or more of the above factors, we measure any impairment based on the following methodology:

Step 1. We will compare the fair value of our reporting units to the carrying value, including goodwill, of each of those units. For each reporting unit where the carrying value, including goodwill, exceeds the units fair value, we will move on step two as described below. If a units fair value exceeds the carrying value, no impairment charge is necessary.

Step 2. We will perform an allocation of the fair value of the reporting units to its identifiable tangible and non-goodwill intangible assets and liabilities. This will derive an implied fair value for the reporting units goodwill. We will then compare the implied fair value of the reporting units goodwill with the carrying amount of the reporting units goodwill. If the carrying amount of the reporting units goodwill is greater than the implied fair value of its goodwill, an impairment loss must be recognized for the excess of such amount.

We completed our transitional impairment test during the first quarter of fiscal year 2002. We did not record an impairment charge upon the completion of the

Edgar Filing: STELLENT INC - Form 10-Q

initial review. Any impairment loss resulting from testing in the future will be recognized as a change in accounting principle.

RESULTS OF OPERATIONS

The following table lists, for the periods indicated, our statement of operations data as a percentage of total revenues:

Edgar Filing: STELLENT INC - Form 10-Q

THREE MONTHS ENDED JUNE 30, 2002 AND 2001

REVENUES

Total revenues decreased by \$7.5 million, or 31%, to \$17.1 million for the three months ended June 30, 2002 from \$24.6 million for the three months ended June 30, 2001. The decrease in revenues was primarily attributable to the worldwide economic slowdown, which has resulted in a reduction in overall spending in information technology initiatives.

Product Licenses. Revenues for product licenses decreased by \$8.0 million, or 42%, to \$11.1 million for the three months ended June 30, 2002 from \$19.1 million for the three months ended June 30, 2001. The decrease in revenues for product licenses was primarily attributable to delays in customer spending as a result of the general slowdown in the worldwide economy which has resulted in a reduction in overall spending in information technology initiatives.

Services. Revenues for services, consisting of consulting services, training and post contract customer support, increased by \$0.4 million or 7%, to \$5.9 million for the three months ended June 30, 2002 from \$5.5 million for the three months ended June 30, 2001. Expressed as a percentage of total services revenue, consulting services and training revenues were approximately 42% and post-contract customer support was 58% in the June 30, 2002 quarter, respectively, and 52% and 48% in the June 30, 2001 quarter, respectively. The increase in revenues for services was primarily attributable to a larger installed base of products.

COST OF REVENUES

Total cost of revenues increased by \$1.0 million or 25% to \$5.3 million for the three months ended June 30, 2002 from \$4.3 million for the three months ended June 30, 2001. Total cost of revenues as a percentage of total revenues was 31% for the three months ended June 30, 2002 compared to 17% for the three months ended June 30, 2001. Gross profit decreased by \$8.6 million, or 42%, to \$11.7 million for the three months ended June 30, 2002 from \$20.3 million for the three months ended June 30, 2001. Total gross profit as a percentage of total revenues was 69% for the three months ended June 30, 2002 compared to 83% for the three months ended June 30, 2001. The decrease in gross profit dollars was primarily due to decreased revenues for product licenses.

Product Licenses. Cost of revenues for product licenses increased \$0.7 million for the three months ended June 30, 2002 to \$1.8 million from \$1.1 million for the three months ended June 30, 2001. The increase in cost of revenues for product licenses was primarily attributable to the increased amortization of prepaid royalties and the increased amortization of capitalized software developed for us by a third party or purchased from a third party. The fixed costs associated with the amortization of these prepaid royalties and capitalized software was approximately \$0.6 million in the June 30, 2002 quarter.

Amortization of capitalized software from acquisitions. Cost of revenues related to amortization of capitalized software from acquisitions increased \$0.2 million for the three months ended June 30, 2002 to \$0.4 million from \$0.2 million for the three months ended June 30, 2001. The increase in cost of revenues for amortization of capitalized software from acquisitions was primarily attributable to the amortization of capitalized software obtained in the acquisition of the assets of Kinecta Corporation in April 2002.

Overall, gross profit as a percentage of revenues for product licenses decreased to 80% for the three months ended June 30, 2002 from 93% for the three months

Edgar Filing: STELLENT INC - Form 10-Q

ended June 30, 2001. The decrease in gross profit dollars and percentage is primarily due to the reduction in revenues and the increase in cost of revenues for product license revenue.

Services. Cost of revenues, consisting of primarily personnel for consulting services, training and post-contract customer support, increased by \$0.1 million or 3%, to \$3.1 million for the three months ended June 30, 2002 from \$3.0 million for the three months ended June 30, 2001. Expressed as a percentage of total services costs, consulting services and training costs were approximately 67% and post-contract customer support 33% in the June 30, 2002 quarter, respectively, and 74% and 26% in the June 30, 2001 quarter, respectively. Gross profit as a percentage of revenues for services was 48% for the three months ended June 30, 2002 compared to 46% for the three months ended June 30, 2001. The increase in the gross profit as a percentage of revenues for services was primarily due to increased utilization of consulting services personnel.

15

OPERATING EXPENSES

Sales and Marketing. Sales and marketing expenses decreased by \$1.0 million, or 9%, to \$10.3 million for the three months ended June 30, 2002 from \$11.3 million for the three months ended June 30, 2001. Sales and marketing expenses as a percentage of total revenues were 60% for the three months ended June 30, 2002 compared to 46% for the three months ended June 30, 2001. The decrease in sales and marketing expense was primarily due to reduced commission expense and decreased staffing related to the restructuring of our company during the quarter ended June 30, 2002.

General and Administrative. General and administrative expenses increased \$0.3 million, or 12% to \$2.7 million for the three months ended June 30, 2002 from \$2.4 million for the three months ended June 30, 2001. General and administrative expenses as a percentage of total revenues were 16% for the three months ended June 30, 2002 compared to 10% for the three months ended June 30, 2001. General and administrative expenses increased as a percentage of revenues due primarily to the decrease in product license revenues as a result of the worldwide economic slowdown, which has resulted in a reduction in overall spending in information technology initiatives.

Research and Development. Research and development expenses increased by \$0.6 million, or 14%, to \$4.7 million for the three months ended June 30, 2002 from \$4.1 million for the three months ended June 30, 2001. Research and development expenses as a percentage of total revenues were 28% for the three months ended June 30, 2002 compared to 17% for the three months ended June 30, 2001. The increase in research and development expenses was primarily due to increases in staffing and costs to support product enhancements.

Amortization of Intangibles. A portion of the purchase price of SCD was allocated to excess cost over fair value of net assets acquired, core technology, customer base, software, trademarks and other intangibles, and is

Edgar Filing: STELLENT INC - Form 10-Q

being amortized over the assets' estimated useful lives, of three years. A portion of the purchase price of RESoft was allocated to certain intangible assets, such as trademarks, and is also being amortized over their useful lives of three years. Intangible amortization and other expense was \$1.7 million for the three month periods ended June 30, 2002 and \$3.1 million for the three months ended June 30, 2001. See the discussion in the notes to the condensed consolidated financial statements regarding the adoption of new accounting pronouncements involving the amortization of intangible assets.

OTHER INCOME, NET

Net interest income was \$0.6 million for the three months ended June 30, 2002 compared to net interest income of \$1.3 million for the three months ended June 30, 2001. Net interest income for the three months ended June 30, 2002 and 2001 was primarily related to short-term investments purchased with the proceeds of our public stock offerings completed in June 1999 and March 2000. The decrease in net interest income was primarily due to decreases in the interest rates earned by invested funds resulting from decreases in market interest rates, which have declined approximately 50% since June 2001.

NET OPERATING LOSS CARRYFORWARDS

As of March 31, 2002 we had net operating loss carryforwards of approximately \$53.4 million. The net operating loss carryforwards will expire at various dates beginning in 2011, if not utilized. The Tax Reform Act of 1986 imposes substantial restrictions on the utilization of net operating losses and tax credits in the event of an "ownership change" of a corporation. Our ability to utilize net operating loss carryforwards on an annual basis will be limited as a result of "ownership changes" in connection with the sale of equity securities. We have provided a valuation allowance of approximately \$33.9 million as of June 30, 2002 on a portion of the deferred tax asset because of the uncertainty regarding its realization. Our accounting for deferred taxes and the valuation allowance involves the evaluation of a number of factors such as our history of operating losses, potential future losses and the nature of assets and liabilities giving rise to deferred taxes.

Although realization of the net deferred tax asset is not assured, the Company believes based on its projections of future taxable income, that it is more likely than not that the net deferred tax asset will be realized. The amount of net deferred tax assets considered realizable however, could be adjusted in the future based on changes in conditions or assumptions.

LIQUIDITY AND CAPITAL RESOURCES

We have funded our operations and satisfied our capital expenditure requirements primarily through operating revenues, private placements and public offerings of securities. Net cash used in operating activities was \$4.6 million for the three months ended June 30, 2002, compared to net cash used by operating activities of \$2.0 million for the three months ended June 30, 2001. The change in cash flow from operations is primarily due to the net loss in the period ended June 30, 2002.

Edgar Filing: STELLENT INC - Form 10-Q

To date, we have invested our capital expenditures primarily in property and equipment, consisting largely of computer hardware and software. Capital expenditures for the nine months ended June 30, 2002 and 2001 were \$0.8 million and \$1.8 million, respectively. We have also entered into capital and operating leases for facilities and equipment.

As of June 30, 2002 we had \$8.3 million in cash and equivalents, \$79.7 million in marketable securities and \$79.7 million in working capital. Net cash used in financing activities was not material for the three months ended June 30, 2002 and net cash provided by financing activities was approximately \$1.6 million for the three months ended June 30, 2001.

We currently believe that the cash and equivalents and marketable securities on hand will be sufficient to meet our working capital requirements through our fiscal year 2003 and for the foreseeable future thereafter. After that time, we may require additional funds to support our working capital requirements or for other purposes and may seek to raise such additional funds through public or private equity financings or from other sources. We cannot be certain that additional financing will be available on terms favorable to us, or on any terms, or that any additional financing will not be dilutive.

The Company continues to evaluate potential strategic acquisitions that could utilize equity and, or, cash resources. Such opportunities could develop quickly due to market and competitive factors.

PRO FORMA NET INCOME/(LOSS) PER COMMON SHARE

In connection with our earnings releases and investor conference calls we provide supplemental consolidated financial information that excludes from our reported earnings and earnings per share the effects of certain expenses such as the amortization of goodwill and intangibles and a special charge associated with the restructuring of our organization. This supplemental consolidated financial information is reported as pro forma earnings and earnings per share in addition to information that is reported based on generally accepted accounting principles in the United States (GAAP). We believe that such pro forma operating results better reflect our operational performance by providing a more meaningful measure of our ongoing operations. However, we urge readers to review and consider carefully the GAAP financial information contained within our SEC filings and in our earnings releases.

	THREE MONTHS ENDED JUNE 30,

Weighted average common shares outstanding -- Diluted	22,363	23,753

17

The accompanying supplemental financial information is presented for informational purposes only and is not a substitute for the historical financial information presented in accordance with accounting principles generally accepted in the United States.

Pro forma net income per share is computed using the weighted average number of shares of Common Stock outstanding. The Company has included the dilutive effect of options and warrants for common stock as calculated using the treasury stock method. Periods with pro forma loss before income taxes do not include a tax benefit.

NEW ACCOUNTING PRONOUNCEMENTS

Goodwill and other Acquired Intangible Assets: On July 20, 2001, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 141, "Business Combinations" and SFAS No. 142, "Goodwill and Other Intangible Assets." SFAS No. 141 is effective for all business combinations completed after June 30, 2001. SFAS No. 142 is effective for fiscal years beginning after December 15, 2001; however, certain provisions of this Statement apply to goodwill and other intangible assets acquired between July 1, 2001, and the effective date of SFAS No. 142.

As a result of adopting SFAS No. 141 and SFAS No. 142, the Company's accounting policies for goodwill and other intangibles changed effective April 1, 2002 as described below:

Goodwill: The Company recognizes the excess cost of an acquired entity over the net amount assigned to assets acquired and liabilities assumed as goodwill. Goodwill will be tested for impairment on an annual basis and between annual tests whenever there is an impairment indicated. Impairment losses will be recognized whenever the implied fair value of goodwill is less than its carrying value. Prior to April 1, 2002, goodwill was amortized on a straight-line basis over three years. Beginning April 1, 2002, goodwill is no longer amortized.

Other acquired intangible assets: The Company recognizes an acquired intangible apart from goodwill whenever the asset arises from contractual or other legal rights, or whenever it is capable of being separated or divided from the acquired entity and sold, transferred, licensed, rented, or exchanged, either individually or in combination with a related contract, asset, or liability. An intangible other than goodwill is amortized over its estimated useful life unless that life is determined to be indefinite. Currently, other acquired intangible assets, representing core technology, customer base, capitalized

Edgar Filing: STELLENT INC - Form 10-Q

software, trademarks, and other intangible assets acquired through business acquisitions, have been amortized on a straight line basis over three or four years. On April 1, 2002 upon adoption of SFAS 141 and SFAS 142 amortization of workforce, which had previously been classified as an other acquired intangible asset, ceased and the net unamortized balance of approximately \$1.4 million was re-characterized as goodwill. Impairment losses are recognized if the carrying amount of an intangible subject to amortization is not recoverable from expected future cash flows and its carrying amount exceeds its fair value. Currently, intangible amortization is expected to be approximately \$8.5 million for the year-ended March 31, 2003.

The Company has completed a transitional impairment test of goodwill as of April 1, 2002. No impairment losses resulted from this transitional impairment testing during the quarter ended June 30, 2002.

The following is a summary of what reported net earnings would have been in all periods presented, exclusive of amortization expense recognized in those periods related to goodwill and intangible assets no longer being amortized.

	=====	=====

Impairment of Long-Lived Asset: In September 2001, the FASB issued SFAS 144, Accounting for the Impairment or Disposal of Long-Lived Assets. This statement supercedes SFAS 121 and was effective April 1, 2002 for us. This statement did not have a current material effect on the financial statements of us, but could have a future effect in the event that an asset impairment has occurred.

Consideration Paid to Reseller: In June 2001, the Emerging Issues Task Force (EITF) issued EITF Issue No. 00-25, Vendor Income Statement Characterization of Consideration Paid to a Reseller of the Vendor's Products. This issue is effective for periods beginning after December 15, 2001 and addresses whether consideration from a vendor to a reseller is (a) an adjustment of the selling prices of the vendor's products and should be deducted from revenue when recognized or (b) a cost incurred by the vendor for assets or services received from the reseller and should be included as a cost or expense when recognized. We enter into cooperative advertising programs with some of our resellers. When we receive an identifiable benefit in return for consideration, and we can reasonably estimate the fair value of the benefit received, the cooperative advertising is accounted for as advertising expense. If the fair value cannot be estimated or an identifiable benefit is not received the cooperative advertising is accounted for as a reduction of revenue. EITF 00-25, was adopted by us on April 1, 2002, and did not have a material effect on our consolidated financial statements.

RISK FACTORS

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

This Form 10-Q for the quarter ended June 30, 2002 contains certain forward-looking statements within the meaning of the safe harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such forward-looking statements are based on the beliefs of our management as well as on assumptions made by and information currently available to us at the time such statements were made. When used in this Form 10-Q, the words "anticipate", "believe", "estimate",

Edgar Filing: STELLENT INC - Form 10-Q

"expect", "intend" and similar expressions, as they relate us, are intended to identify such forward-looking statements. Although we believe these statements are reasonable, readers of this Form 10-Q should be aware that actual results could differ materially from those projected by such forward-looking statements as a result of the risk factors listed below. Readers of this Form 10-Q should consider carefully the factors listed below, as well as the other information and data contained in this Form 10-Q. We caution the reader, however, that such list of factors under the caption "Risk Factors" in the our Form 10-Q may not be exhaustive and that those or other factors, many of which are

19

outside of the our control, could have a material adverse effect on us and our results of operations. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements set forth hereunder. We undertake no obligation to update publicly any forward-looking statements for any reason, even if new information becomes available or other events occur in the future.

FLUCTUATIONS IN OUR OPERATING RESULTS MAY MAKE IT DIFFICULT TO PREDICT OUR FUTURE PERFORMANCE.

While our products and services are not seasonal, our revenues and operating results are difficult to predict and may fluctuate significantly from quarter to quarter. If our quarterly revenues or operating results fall below the expectations of investors or securities analysts, the price of our common stock could fall substantially. A large part of our sales typically occurs in the last month of a quarter, frequently in the last week or even the last days of the quarter. If these sales were delayed from one quarter to the next for any reason, our operating results could fluctuate dramatically. In addition, our sales cycles may vary, making the timing of sales difficult to predict. Furthermore, our infrastructure costs are generally fixed. As a result, modest fluctuations in revenues between quarters may cause large fluctuations in operating results. These factors all tend to make the timing of revenues unpredictable and may lead to high period-to-period fluctuations in operating results.

Our quarterly revenues and operating results may fluctuate for several additional reasons, many of which are outside of our control, including the following:

- demand for our products and services;
- the timing of new product introductions and sales of our products and services;
- unexpected delays in introducing new products and services;
- increased expenses, whether related to sales and marketing, research and development or administration;
- changes in the rapidly evolving market for Web content management solutions;
- the mix of revenues from product licenses and services, as well as the mix of products licensed;
- the mix of services provided and whether services are provided by our staff or third-party contractors;
- the mix of domestic and international sales;
- costs related to possible acquisitions of technology or businesses;

Edgar Filing: STELLENT INC - Form 10-Q

- general economic conditions; and
- public announcements by our competitors.

OUR SUCCESS DEPENDS ON OUR ABILITY TO EXPAND OUR SALES FORCE AND DISTRIBUTION CHANNELS.

To increase our market share and revenues, we must increase the size of our sales force and the number of our distribution channel partners. Our failure to do so may have a material adverse effect on our business, operating results and financial condition. There is intense competition for sales personnel in our business, and we cannot be sure that we will be successful in attracting, integrating, motivating and retaining new sales personnel. Our existing or future distribution channel partners may choose to devote greater resources to marketing and supporting the products of other companies. In addition, we will need to resolve potential conflicts, if any, among our sales force and distribution channel partners.

POTENTIAL ACQUISITIONS MAY BE DIFFICULT TO COMPLETE OR TO INTEGRATE AND MAY DIVERT MANAGEMENT'S ATTENTION.

We may seek to acquire or invest in businesses, products or technologies that are complementary to our business. If we identify an appropriate acquisition opportunity, we may be unable to negotiate favorable terms for that acquisition, successfully finance the acquisition or integrate the new business or products into our existing business and operations. In addition, the negotiation of potential acquisitions and the integration of acquired businesses or products may divert management time and resources from our existing business and operations. To finance acquisitions, we may use a substantial portion of our available cash or we may issue additional securities, which would cause dilution to our shareholders.

20

WE MAY NOT BE PROFITABLE IN THE FUTURE.

Our revenues may not grow in future periods, may not grow at past rates and we may not achieve quarterly pro forma profitability. If we do not regain our recent pro forma profitability, the market price of our stock may fall. Our ability to regain our recent pro forma profitable operations depends upon many factors beyond our direct control. These factors include, but are not limited to:

- the demand for our products;
- our ability to quickly introduce new products;
- the level of product and price competition;
- our ability to control costs; and
- general economic conditions.

THE INTENSE COMPETITION IN OUR INDUSTRY MAY REDUCE OUR FUTURE SALES AND PROFITS.

The market for our products is highly competitive and is likely to become more competitive. We may not be able to compete successfully in our chosen marketplace, which may have a material adverse effect on our business, operating

Edgar Filing: STELLENT INC - Form 10-Q

results and financial condition. Additional competition may cause pricing pressure, reduced sales and margins, or prevent our products from gaining and sustaining market acceptance. Many of our current and potential competitors have greater name recognition, access to larger customer bases, and substantially more resources than we have. Competitors with greater resources than ours may be able to respond more quickly than we can to new opportunities, changing technology, product standards or customer requirements.

WE MAY HAVE DIFFICULTY MANAGING OUR GROWTH.

Any failure to properly manage growth may have a material adverse effect on our business, operating results and financial condition. The rapid growth that we have experienced places significant challenges on our management, administrative and operational resources. To properly manage growth, we must, among other things, implement and improve additional and existing administrative, financial and operational systems, procedures and controls on a timely basis. We may need to expand our finance, administrative and operations staff. We may not be able to complete the improvements to our systems, procedures and controls necessary to support our future operations in a timely manner. Management may not be able to hire, train, integrate, retain, motivate and manage required personnel and may not be able to successfully identify, manage and exploit existing and potential market opportunities. In connection with any expansion, we may increase our operating expenses to expand our sales and marketing operations, develop new distribution channels, fund greater levels of research and development, broaden services and support and improve operational and financial systems. Our failure to generate additional revenue commensurate with an increase in operating expenses during any fiscal period could have a material adverse effect on our financial results for that period.

WE DEPEND ON THE CONTINUED SERVICE OF OUR KEY PERSONNEL.

We are a small company and depend greatly on the knowledge and experience of our senior management team and other key personnel. If we lose any of these key personnel, our business, operating results and financial condition could be materially adversely affected. Our success will depend in part on our ability to attract and retain additional personnel with the highly specialized expertise necessary to engineer, design and support our products and services. Like other software companies, we face intense competition for qualified personnel. We may not be able to attract or retain such personnel.

WE HAVE RELIED AND EXPECT TO CONTINUE TO RELY ON SALES OF OUR CONTENT MANAGEMENT AND VIEWING SOFTWARE PRODUCTS FOR OUR REVENUES.

We currently derive all of our revenues from product licenses and services associated with our system of content management and viewing software products. The market for content management and viewing software products is new and rapidly evolving. We cannot be certain that a viable market for our products will emerge, or if it does emerge, that it will be sustainable. If we do not continue to increase revenues related to our existing products or generate revenues from new products and services, our business, operating results and financial condition may be materially adversely affected. We will continue to depend on revenues related to new and enhanced versions of our software products for the foreseeable future. Our success will largely depend on our ability to increase sales from existing products and generate sales from product enhancements and new products.

Edgar Filing: STELLENT INC - Form 10-Q

We cannot be certain that we will be successful in upgrading and marketing our existing products or that we will be successful in developing and marketing new products and services. The market for our products is highly competitive and subject to rapid technological change. Technological advances could make our products less attractive to customers and adversely affect our business. In addition, complex software product development involves certain inherent risks, including risks that errors may be found in a product enhancement or new product after its release, even after extensive testing, and the risk that discovered errors may not be corrected in a timely manner.

OUR SUCCESS DEPENDS ON OUR ABILITY TO PROTECT OUR PROPRIETARY TECHNOLOGY.

If we are unable to protect our intellectual property, or incur significant expense in doing so, our business, operating results and financial condition may be materially adversely affected. Any steps we take to protect our intellectual property may be inadequate, time consuming and expensive. We currently have no patents or pending patent applications. Without significant patent or copyright protection, we may be vulnerable to competitors who develop functionally equivalent products. We may also be subject to claims that our current products infringe on the intellectual property rights of others. Any such claim may have a material adverse effect on our business, operating results and financial condition.

We anticipate that software product developers will be increasingly subject to infringement claims due to growth in the number of products and competitors in our industry, and the overlap in functionality of products in different industries. Any infringement claim, regardless of its merit, could be time-consuming, expensive to defend, or require us to enter into royalty or licensing agreements. Such royalty or licensing agreements may not be available on commercially favorable terms, or at all. We are not currently involved in any intellectual property litigation.

We rely on trade secret protection, confidentiality procedures and contractual provisions to protect our proprietary information. Despite our attempts to protect our confidential and proprietary information, others may gain access to this information. Alternatively, other companies may independently develop substantially equivalent information.

OUR PRODUCTS MAY NOT BE COMPATIBLE WITH COMMERCIAL WEB BROWSERS AND OPERATING SYSTEMS.

Our products utilize interfaces that are compatible with commercial Web browsers. In addition, our Stellent Content Management System is a server-based system written in Java that functions in both Windows NT and UNIX environments. We must continually modify our products to conform to commercial Web browsers and operating systems. If our products were to become incompatible with commercial Web browsers and operating systems, our business would be harmed. In addition, uncertainty related to the timing and nature of product introductions or modifications by vendors of Web browsers and operating systems may have a material adverse effect on our business, operating results and financial condition.

WE COULD BE SUBJECT TO PRODUCT LIABILITY CLAIMS IF OUR PRODUCTS FAIL TO PERFORM TO SPECIFICATIONS.

If software errors or design defects in our products cause damage to customers' data and our agreements do not protect us from related product liability claims, our business, operating results and financial condition may be materially adversely affected. In addition, we could be subject to product liability claims if our security features fail to prevent unauthorized third parties from entering our customers' intranet, extranet or Internet Web sites. Our software

Edgar Filing: STELLENT INC - Form 10-Q

products are complex and sophisticated and may contain design defects or software errors that are difficult to detect and correct. Errors, bugs or viruses spread by third parties may result in the loss of market acceptance or the loss of customer data. Our agreements with customers that attempt to limit our exposure to product liability claims may not be enforceable in certain jurisdictions where we operate.

FUTURE REGULATIONS COULD BE ADOPTED THAT RESTRICT OUR BUSINESS.

Federal, state or foreign agencies may adopt new legislation or regulations governing the use and quality of Web content. We cannot predict if or how any future laws or regulations would impact our business and operations. Even though these laws and regulations may not apply to our business directly, they could indirectly harm us to the extent that they impact our customers and potential customers.

22

SIGNIFICANT FLUCTUATION IN THE MARKET PRICE OF OUR COMMON STOCK COULD RESULT IN SECURITIES LITIGATION AGAINST US.

In the past, securities class action litigation has been brought against publicly held companies following periods of volatility in the price of their securities. If we were subject to such litigation due to volatility in our stock price, we may incur substantial costs. Such litigation could divert the attention of our senior management away from our business, which could have a material adverse effect on our business, operating results and financial condition.

The market price of our common stock has fluctuated significantly in the past and may do so in the future. The market price of our common stock may be affected by each of the following factors, many of which are outside of our control:

- variations in quarterly operating results;
- changes in estimates by securities analysts;
- changes in market valuations of companies in our industry;
- announcements by us of significant events, such as major sales, acquisitions of businesses or losses of major customers;
- additions or departures of key personnel; and
- sales of our equity securities.

OUR PERFORMANCE WILL DEPEND ON THE CONTINUING GROWTH AND ACCEPTANCE OF THE WEB.

Our products are designed to be used with intranets, extranets and the Internet. If the use of these methods of electronic communication does not grow, our business, operating results and financial condition may be materially adversely affected. Continued growth in the use of the Web will require ongoing and widespread interest in its capabilities for communication and commerce. Its growth will also require maintenance and expansion of the infrastructure supporting its use and the development of performance improvements, such as high speed modems. The Web infrastructure may not be able to support the demands placed on it by continued growth. The ongoing development of corporate intranets depends on continuation of the trend toward network-based computing and on the willingness of businesses to reengineer the processes used to create, store,

Edgar Filing: STELLENT INC - Form 10-Q

manage and distribute their data. All of these factors are outside of our control.

OUR EXISTING SHAREHOLDERS HAVE SIGNIFICANT INFLUENCE OVER US.

As of June 30, 2002, Robert F. Olson, our Chairman, holds approximately 10.1% of our outstanding common stock. Accordingly, Mr. Olson is able to exercise significant control over our affairs. As a group, our directors and executive officers beneficially own approximately 14.5% of our common stock. These persons have significant influence over our affairs, including approval of the acquisition or disposition of assets, future issuances of common stock or other securities and the authorization of dividends on our common stock. Our directors and executive officers could use their stock ownership to delay, defer or prevent a change in control of our company, depriving shareholders of the opportunity to sell their stock at a price in excess of the prevailing market price.

WE CAN ISSUE SHARES OF PREFERRED STOCK WITHOUT SHAREHOLDER APPROVAL, WHICH COULD ADVERSELY AFFECT THE RIGHTS OF COMMON SHAREHOLDERS.

Our Articles of Incorporation permit us to establish the rights, privileges, preferences and restrictions, including voting rights, of unissued shares of our capital stock and to issue such shares without approval from our shareholders. The rights of holders of our common stock may suffer as a result of the rights granted to holders of preferred stock that may be issued in the future. In addition, we could issue preferred stock to prevent a change in control of our company, depriving shareholders of an opportunity to sell their stock at a price in excess of the prevailing market price.

OUR SHAREHOLDER RIGHTS PLAN AND CERTAIN PROVISIONS OF MINNESOTA LAW MAY MAKE A TAKEOVER OF STELLENT DIFFICULT, DEPRIVING SHAREHOLDERS OF OPPORTUNITIES TO SELL SHARES AT ABOVE-MARKET PRICES.

Our shareholder rights plan and certain provisions of Minnesota law may have the effect of discouraging attempts to acquire Stellent without the approval of our Board of Directors. Consequently, our shareholders may lose

23

opportunities to sell their stock for a price in excess of the prevailing Market price.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Our interest income on cash and marketable securities is affected by changes in interest rates in the United States. Through June 30, 2002, changes in these rates have had a significant effect on our company. Interest rates earned on invested funds have fallen by over 50% since June 2001. We believe that there may be future exposure to interest rate market risk.

Our investments are held in commercial paper which is affected by equity price market risk and other factors. We do not anticipate that exposure to these risks will have a material impact on us, due to the nature of our investments.

We have no history of, and do not anticipate in the future, investing in derivative financial instruments. Most transactions with international customers are entered into in U.S. dollars, precluding the need for foreign currency

Edgar Filing: STELLENT INC - Form 10-Q

hedges. Any transactions that are currently entered into in foreign currency are not deemed material to the financial statements. Thus, the exposure to market risk is not material.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Not applicable.

ITEM 2. CHANGES IN SECURITIES AND USE OF PROCEEDS

Not applicable.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

Not applicable.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Not applicable.

ITEM 5. OTHER INFORMATION

Not applicable.

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

(a) Exhibits filed with this report.
