**SECOND QUARTER REVIEW**

Nam Tai is pleased to announce that its net sales increased by 15.3% from \$185 million in the second quarter of 2005 to \$214 million in the second quarter of 2006, which was in line with Nam Tai's second quarter guidance for 2006. The sales growth was still mainly driven by the Company's fast growing and technologically advanced key component subassemblies of telecommunication products.

Operating income for the second quarter of 2006 was \$20.0 million or \$0.46 per share (diluted), increased 39.4% as compared to operating income of \$14.4 million or \$0.33 per share (diluted) for the same period last year. Net income for the second quarter of 2006 was \$18.5 million or \$0.42 per share, an increase of 200% as compared to net income of \$6.0 million or \$0.14 per share, which we reported for the same quarter last year.

**Table of Contents**

Despite the operating result for the second quarter of 2006 was affected by an unexpected change in product mix with lower margins plus external market factors such as rising oil prices, cost of raw materials and labor and also appreciation of the RMB, Nam Tai was still able to achieve gross profit margins and operating margins which are higher than most of its industry peers. The Company continued to be successful in controlling its selling, general and administrative ( SG&A ) expenses as well as research and development ( R&D ) expenses. Even including the \$0.6 million share-based compensation expenses, the total SG&A and R&D expenses as a percentage of sales was reduced to 4.7% in the second quarter of 2006 as compared to 5.1% in the same period last year.

With \$17.0 million of net cash provided by operating activities in the second quarter of 2006, the Company continues to maintain a strong financial position even after capital expenditures of \$3.4 million made during the second quarter of 2006 and payment of \$18.3 million in dividends for the first quarter of 2006 during the second quarter of 2006. The Company's other financial ratios also remain healthy.

**COMPANY OUTLOOK**

The fast growing and technologically advanced key component subassemblies of telecommunication products business has established a solid foundation to support Nam Tai's sustainable growth rate in sales. With its proven business strategies and various expansion projects in place, the Company is still confident with the target of 25% sales growth on a long term basis.

In an effort to achieve a long-term sustainable growth rate in sales and to increase profit margins in its key component subassemblies business, Nam Tai is investing in the vertical integration of its flexible printed circuit ( FPC ) business by moving upstream to commence FPC unit manufacturing. The project is progressing smoothly and Nam Tai expects to begin trial production of FPC units by the end of the third quarter of 2006. In view of its strong demand of internal consumption for FPC subassemblies, the Company also expects its production capacity of FPC units will not be sufficient until completion of its new factory.

Apart from expanding its FPC business, Nam Tai is advised by its customers and is also looking to explore other opportunities to support the growth of its key component subassemblies business. In addition to the new factory expansion planned for Shenzhen, PRC, Nam Tai believes that there is a huge potential opportunity in the eastern coastal region of China and plans to construct a new factory complex in Wuxi, Jiangsu Province, PRC, in an effort to capture burgeoning business opportunities afforded there. This expansion plan is pending local government's final approval of environmental license.

Looking forward, with the persistently high raw material prices and oil prices, increasing labor costs, and appreciation of the RMB to the US Dollar, the Company anticipates global market conditions to remain highly competitive and challenging. However, the Company is optimistic about its future prospects. With its aggressive and consistent investments for the future expansion, the Company is confident with its continuous business and profitability growth and is looking forward to seeing the fruits of its investment of expansion projects in 2008.

Looking into the second half of 2006, supported by new customers, new products and ongoing expansion projects carrying on to the second half of 2006, the Company believes the growth momentum will be sustained in the third quarter of 2006 and will further accelerate in the fourth quarter of 2006. Hence, the Company is confident of its performance for the full year of 2006.

**Table of Contents**

Based on current market conditions and its current order situation, the Company is pleased to provide guidance for the third quarter of 2006 as follows:

*(In millions of US Dollars, except for per share data)*

	3Q 2006 (Estimated)	3Q 2005 (Actual)	2Q 2006 (Actual)
Sales	\$ 230-\$240	\$207.9	\$213.7
Non-GAAP Operating Income per Share (diluted) <sup>(a)(b)</sup>	\$0.30-\$0.32	\$ 0.35	\$ 0.26
Non-GAAP Earnings per Share (diluted) <sup>(a)(b)(c)</sup>	\$0.28-\$0.30	\$ 0.35	\$ 0.25

*Notes:*

*(a) The non-GAAP operating income per share and non-GAAP earnings per share estimate and comparative figures for prior periods may exclude certain income and expense items, not now presently available, for management to better assess operating performance (see page 9 for non-GAAP information).*

*(b) The non-GAAP diluted operating income per share and non-GAAP diluted earnings per share will be affected by any future changes in total number of outstanding*

*shares and stock options.*

(c) *The non-GAAP diluted earnings per share estimate is calculated based on a current minority interest of approximately 30.5% in NTEEP and approximately 25.1% in J.I.C. Technology Company Limited. Minority interest may fluctuate within and between quarters.*

Nam Tai has been following the growing debate among company executives, regulators, academics and investors over whether companies should end the practice of providing short-term quarterly guidance in order to avoid pressure on management to concentrate on short-term targets rather than on long-term value creation. While the company remains committed to providing the investment community thorough information regarding forward-looking corporate strategy and key drivers of longer-term financial performance, it is considering reducing focus on short-term forecasts and may therefore alter its practice in providing quarterly guidance.

**Table of Contents****DIVIDENDS**

The second quarter dividend of \$0.38 per share was paid in July 2006 on schedule. The record date for the third quarter dividend of \$0.38 per share is September 30, 2006 and the payment date is October 21, 2006. Under its new dividend policy with effective from year 2007, the Company will pay the first new quarter dividend of \$0.21 in April 2007. Information of quarterly dividends scheduled for payment is as follows:

Quarterly Payment	Scheduled Payment Date	Dividend to be paid (per share)
Q2/06	July 2006 (Paid)	\$0.38
Q3/06	Oct. 2006	\$0.38

With savings achieved from its new dividend policy, as well as with cash and cash equivalents on hand and expected cash provided from operations, Nam Tai believes it will have sufficient liquidity and working capital to finance internally its planned capital expenditures budgeted in the upcoming years and to fund its operations during those periods.

**INVESTMENT IN TCL CORPORATION**

Pursuant to the Split Share Structure Reform ( SSR ) of TCL Corporation ( TCL Corp. ), the Company's interest in TCL Corp. has been changed from 95,516,112 promoter shares to 80,600,173 A-shares. As a result of the reduction in the numbers of shares in TCL Corp., the Company recorded a loss of \$1.3 million (\$1.9 million before sharing with

minority interests). The A-shares will be tradable on the Shenzhen Stock Exchange after the expiration of 12 months from April 20, 2006, which was the first

**Table of Contents**

trading day after the SSR was formally implemented. In addition to the impact of the SSR on TCL Corp. s A-share price which is unforeseeable at the moment, TCL Corp. s two Hong Kong listed subsidiaries previously announced that they recorded substantial losses for the year ended December 31, 2005 due to tough operating environment. Furthermore, a subsidiary of TCL Corp. recently announced a warning that its financial results for the six months ended June 30, 2006 would be much worse than expected and might record substantial losses. In this regard, based on available information, Nam Tai s management believes that there is a risk that the Company may suffer losses at the time of disposal of its interest in TCL Corp. The Company therefore believes it would be prudent to make an impairment on this investment. However, according to the applicable accounting standards, the investment is to be recorded at fair value. As the fair value of the Company s investment in TCL Corp. exceeded its original investment cost at June 30, 2006, no impairment loss is required. The Company will however continue to monitor the situation and may consider making an impairment should it become appropriate under applicable accounting principles.

**FORWARD-LOOKING STATEMENTS**

*Statements concerning the Company s outlook and targeted growth rates, expected performance during the third and fourth quarters of 2006 and for 2006 as a whole, including estimated sales, estimated gross profit margins, estimated non-GAAP operating income per share (diluted) and non-GAAP earnings per share (diluted) for the third quarter of 2006, estimates of planned capital expenditures, the amount of funds to be expended therefor, the sufficiency of funds available for such expansion from internally generated funds, cash and cash equivalents on hand and expected in the future, the financing and sources of financing for the contemplated capital expenditures, among other statements in this press release, are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934.
