Item 6. Contracts, Arrangements, Understandings or Relationships with Respect to Securities of the Issuer

Pursuant to a Governance Agreement among Fording, 4123212 Canada Ltd. and Sherritt, dated February 28, 2003, Sherritt has the right, which it shares with Teachers (pursuant to a similar governance agreement), to nominate a single trustee of Fording, and Fording will use all reasonable efforts to cause the election by the Unitholders of such nominee. Sherritt's shared right to nominate a trustee is contingent upon, among other things, Sherritt and Teachers delivering to Fording (and not revoking) a proxy to vote for all persons nominated by Fording. If Sherritt loses its right to nominate a trustee due to failure to deliver a proxy or revocation of a proxy, then after such time, Sherritt will vote only for the nominees for trustee nominated by Westshore and Teck (who are subject to similar governance agreements) and the incumbent chair and chief executive officer, and such other nominees for trustee provided each is not an insider of any of Sherritt, Teachers, Teck or Westshore and each qualify as an unrelated director (as defined in the corporate governance guidelines of the Toronto Stock Exchange) of Sherritt, Teachers, Teck, Westshore and Fording. A copy of the Governance Agreement is included as Exhibit 2 to this Schedule 13D and incorporated by reference herein. The description of the terms of the Governance Agreement in this Schedule 13D is qualified in its entirety by reference to the full text of the Governance Agreement.

Except as set forth above, neither Sherritt nor, to the best of Sherritt's knowledge, any of the entities or persons listed on Schedule A, has any contract, arrangement, understanding or relationship with any other person regarding any securities of Fording, including but not limited to transfer or voting of any such securities, finder's fees, joint ventures, loan or option arrangements, puts or calls, guarantees of profits, division of profits or loss or the giving or withholding of proxies.
