Item 5.03. Amendments to Articles of Incorporation or Bylaws; Change in Fiscal Year.

On September 11, 2006, the Board of Directors of Cerner Corporation (the Company) approved an amendment to the Company s Bylaws, Paragraph 7, adopting a majority vote standard for uncontested director elections. Under the new majority vote standard, which replaces plurality voting for uncontested director elections, shareholders shall elect directors of the Company at an annual or special meeting of shareholders by the affirmative vote of a majority of the votes cast, in person or by proxy, by the holders of outstanding shares of stock entitled to vote for the election of directors. In elections where the number of nominees exceeds the number of directors to be elected, the directors will continue to be elected by plurality vote. The Amended and Restated Bylaws, effective September 11, 2006, are attached as Exhibit 3.1 to this report and are incorporated herein by reference.

Item 8.01 Other Events.

In addition to the Bylaw amendment above, the Board on September 11, 2006 also approved an amendment to the Company s Corporate Governance Guidelines, Section 7, providing that if an incumbent director nominee fails to receive the requisite majority vote at an annual or special meeting of the shareholders in an uncontested election, the director must promptly, following certification of the shareholder vote, tender his or her resignation to the Board of Directors. The independent directors, excluding the director who tendered the resignation, will evaluate the resignation in light of the best interests of the Company and its shareholders in determining whether to recommend accepting or rejecting the resignation. The Board of Directors will act on the tendered resignation, and publicly disclose the Board s decision and rationale, within 90 days following certification of the shareholder vote. The director who has tendered his/her resignation shall not participate in the independent directors discussion/recommendation or the Board s decision.
